NECK BRACE TECHNOLOGY DESCRIPTIONS

Carbon fiber construction for unparalleled protection.

Reduces forces during an impact by transferring the load safely to other body structures and away from the fragile bones of the neck.

Premium lightweight materials designed for maximum performance

One way neck brace adjust-ability:
1) Rear size adjustment

Two-way neck brace adjust-ability:
1) Thoracic angle adjustment
2) Rear size adjustment

Maximum level of neck brace adjust-ability.
1) thoracic angle adjustment
2) Rear size adjustment
3) front size adjustment

CE tested and certified.

Neck Braces manufactured between 2006 & 2018 is eligible for the replacement program

NECK BRACES

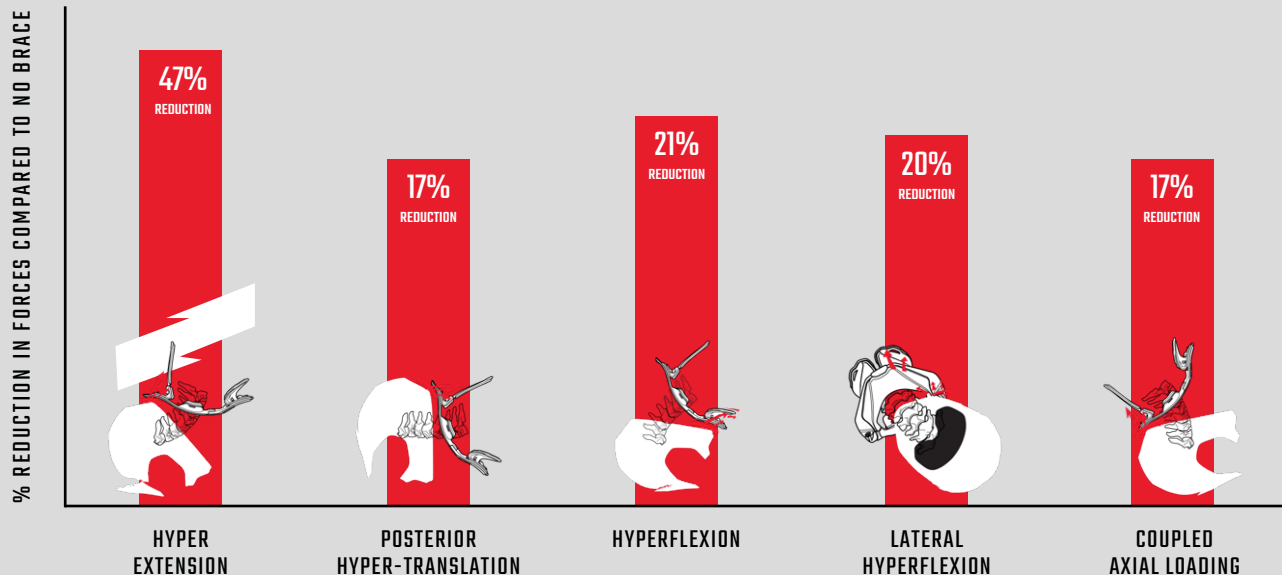

People are able to get up and walk away from most of the crashes they sustain from riding a Dirt bike. Nevertheless, some of these crashes and the injuries they lead to can be fatal. We don't like talking about it or even thinking about it, but it's a fact. Neck injuries are certainly among these. And for this reason, it's critical to ensure you do everything you can to minimize this risk. You need to equip yourself with the proper safety gear to protect your neck and spinal column from serious injury. Despite riders' personal opinions, we now have real-life, objective data suggesting that wearing a motocross neck brace while riding can reduce cervical spine injuries by 89%

NECK BRACE
EMS STUDY

NECK BRACE VS NO NECK BRACE

RESULTS FROM LEATT®'S IN-HOUSE LABORATORY TESTING

HYPER-EXTENSION: Over-bending of the head in rearward direction. | **POSTERIOR HYPER-TRANSLATION:** Extreme movement of head and helmet, rearward on the neck. | **HYPERFLEXION:** Over-bending of the head in forward direction. | **LATERAL HYPERFLEXION:** Over-bending of the head to one side. | **COUPLED AXIAL LOADING:** Helps prevent axial loading only when the axial forces act in combination with other mechanisms.

NECK BRACE FEATURES

6.5 CARBON, 5.5, 4.5, 3.5 & 3.5 MINI

KEY FEATURES

- Independently lab and rider tested, proven to reduce neck forces and neck injuries through transferring the load during an accident away from the fragile bones in the neck.
 - *Up to 89% reduction in critical cervical spine injuries
 - *Collarbone injuries up to 45% MORE likely WITHOUT a neck brace
 - *Independent Moto motorcycle study by Action Sports EMS
- Engineered collarbone cut-out to keep your helmet rim away from your most fragile bones
- Optimal helmet rim striking platform is designed to redistribute neck forces and provides the helmet with freedom of movement
- CoreFlex split rear folding thoracic strut is designed to work with the body's natural movements for a more comfortable fit and break away before applying excessive pressure to the back
- Injected, durable and easy-to-clean foam padding
- CE tested and certified to the PPE Regulation (EU) 2016/425
- Plastic free packaging

6.5 CARBON NECK BRACE

ULTIMATE PROTECTION WITH 3-WAY ADJUST-ABILITY

- Carbon matrix platform allows for efficient reduction in neck forces
- Sliding front and rear SureFit adjusters offers three-way adjust-ability for that perfect fit
- Sculptured, split front for improved comfort and fit
- Low profile push-button open/closure system
- Easy-to-use emergency release mechanism

The Leatt 6.5 neck brace is the class leader and the choice of champions in Moto and MTB alike. The flagship product of the brand, Leatt neck braces are proven to reduce neck forces and neck injuries. The collarbone cut-out keeps your helmet rim away from fragile bones, and the rear strut is designed to break away before applying excessive pressure to the back.

1.5 MINI NECK BRACE

PROTECT AND LET THEM RIDE WITH CONFIDENCE

Sculpted ergonomic design with collarbone cut-out for superior comfort and positioning on Youth riders | Platform construction, embedded in Light Weight Closed Cell Foam for effective impact absorption and efficient reduction in neck forces | Easy to use split front release buckle system for convenient application and quick removal | Specially engineered rim striking platform with internally reinforced thoracic struts for superior load transferring and protection | Removable and washable padding | Body strap included to enhance stability | Compatible with Brace-on shoulder pads used on most Leatt chest and body protectors | Durable and easy to clean.

The Leatt 1.5 Mini neck brace is specially designed for very small riders, it is lightweight, has an adjustable rear thoracic and has body forming foam for comfort. The brace is designed to allow the forces during an accident to be reduced and transferred through the brace into the strong muscles of the body rather than the small fragile bones in the neck.

STX ROAD NECK BRACE

ADVENTURE, STREET AND COMMUTING RIDER PROTECTION

Unique rear scapula wings that adopt to the outside of jacket and protectors | Adjustable Thoracic struts engineered to break away before applying excessive pressure to the back | Composite matrix platform allows for efficient reduction in neck forces | Race-adopted front construction for tucking behind the windscreen | Hammock-style rubber chin pad for increased comfort and safety | Correct side clearance for race cornering

Designed specifically for adventure, street, and commuting riders, the STX Road neck brace fits over your riding gear. The flagship product of the brand, Leatt neck braces are proven to reduce neck forces and neck injuries. The collarbone cut-out keeps your helmet rim away from fragile bones, and the rear strut is designed to break away before applying excessive pressure to the back. The twin scapula wings on the back can be adjusted to fit most body shapes, and the additional height adjusters on the shoulders accommodate different riders' heights. It has integrated padding to make looking over your shoulder views easier and more comfortable. Stay fully protected and ride with confidence.

KNEE & WRIST BRACES

One of the most effective pieces of protection for off road motorcycle sports are knee braces. Typically, most riders are looking for a knee brace that offers the highest level of protection, while also offering maximum comfort and freedom of movement.

Our knee braces serve as an excellent preventative measure against serious injuries to the ACL, meniscus or MCL. Coming in at multiple price points, Leatt knee braces are certified medical devices offering CE certified impact protection for the kneecaps, whilst supporting the motion around your knees to reduce the risk of injury.

ROOST TEE FEATURES

SNUG AND COMFORTABLE PROTECTION

The Roost Tee offers a light, non-chafing fit with a long cut that enables you to tuck it into your pants. The stretch panels allow for an easy, comfortable fit, and the anti-odor and vented MoistureCool material will keep you cool and wick sweat.

PRODUCT FEATURES

- Fits snug directly on the body
- Overlock stitched seams for comfort
- Front, rear and side panel stretch for ultimate fit
- Tucks comfortably into the pants and does not bunch up
- Anti-odor and vented MoistureCool wicking fabric
- Plastic free packaging

KNEE BRACE PANTS FEATURES

OVER-FOLDING DESIGN TO PREVENT BRACE DROP

Keep your knee brace in position and add that extra layer of protection to the inside of the leg where pant damage occurs. The pants feature flatlock stitching for added comfort and are equipped with a super soft knitted waistband and silicone grip to keep them in place. The knee brace pants work with all knee braces, whether they are Leatt or another brand.

PRODUCT FEATURES

- Keeps braces in the correct position preventing them from slipping down
- Reinforced knee brace panels
- Flatlock stitching for extra comfort
- Anti-odor MoistureCool and Airmesh wicking fabrics
- Super soft knitted waistband with silicone grip
- Designed for easy alignment
- Velcro fastens brace cover sock
- Works with all knee brace brands
- Plastic free packaging

AVAILABLE SIZES:

- #XS/S US 28-31 / EU 44-46
- #M/L US 32-35 / EU 48-50
- #XL/XXL US 36-39 / EU 52-56

Knee Brace Pant #XS/S - XL/XXL
5017010 (140-142)

KNEE BRACE SOCKS FEATURES

MOISTURE COOL EXTRA LONG WITH ANTI-SLIP

Our full-length knee brace socks are designed to be worn under the knee brace. The uppers are constructed with Coolmax yarn, a material that absorbs and wicks moisture to the outside for quick evaporation, with an X-Flow mesh at the back for increased ventilation. To keep the socks from slipping down, they have silicone printed, non-slip cuffs. They feature flatlock stitching for added comfort and also sport reinforced ankle, heel and instep sections.

PRODUCT FEATURES

- Full-length knee brace sock with reinforced ankle, heel and instep sections
- COOLMAX yarn upper and X-Flow mesh back
- Silicone printed, non-slip cuffs
- Flatlock stitching for extra comfort
- Plastic free packaging

AVAILABLE SIZES:

- #S US 3-5.5 / EU 35-38 / UK 2.5-4.5
- #M US 6-9.5 / EU 39-42 / UK 5.5-9
- #L US 10-13 / EU 43-46 / UK 9.5-12.5

Knee Brace Socks Pair Grey #S - L
5026061(450-452)

KNEE BRACE SLEEVES FEATURES

KNEE-HIGH LEFT/RIGHT DESIGN FOR MOTO

Our extra-long knee brace sleeves are designed to be worn under the knee brace. The design enables a fold over at the top and bottom to reduce the risk of the braces slipping down. They are constructed with anti-odor MoistureCool wicking material for quick evaporation, and feature flatlock stitching for added comfort.

PRODUCT FEATURES

- Full-length knee brace sock with reinforced ankle, heel and instep sections
- COOLMAX yarn upper and X-Flow mesh back
- Silicone printed, non-slip cuffs
- Flatlock stitching for extra comfort
- Plastic free packaging

AVAILABLE SIZES:

- #S US 3-5.5 / EU 35-38 / UK 2.5-4.5
- #M US 6-9.5 / EU 39-42 / UK 5.5-9
- #L US 10-13 / EU 43-46 / UK 9.5-12.5

5.5 PRO EVO CHEST PROTECTOR

PREMIUM HARD SHELL WITH FLEXMESH PRO ARMOUR

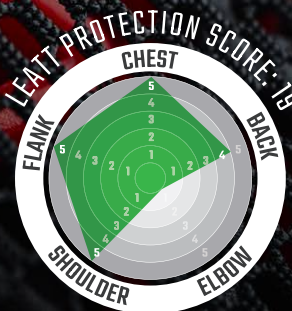

CARRY OVER

- **NEW 50% more ventilated**
- **Compared to previous Chest protector 5.5 Pro HD (up to 2023)**
- **Adjustable hard flank panels provide rib & side protection**

The Chest Protector 5.5 Pro EVO provides premium protection for the chest, back and shoulder. This model is 30% lighter and 50% more ventilated compared to the 2023 model, offering enhanced comfort and breathability on extended rides.

Constructed from a hard shell and FlexMesh Pro combination, the Chest Protector 5.5 Pro EVO is ventilated armor that not only protects but also keeps you cool under pressure. The FlexMesh Pro design makes excellent use of flex joints, allowing for 3D flexing and an exceptional fit.

The multi-plate articulating design enhances comfort by allowing natural movement, while the adjustable hard flank panels provide exceptional rib and side protection. For added versatility, the front and rear plates are removable, and the BraceOn system allows for a seamless neck brace fit.

REFLEX

SOFT SHELL PROTECTION

If you want something comfortable and light, our Soft shell protection range is what you need. These soft protectors are well vented and form around your body while still absorbing any impact, making them very comfortable and CE impact protection certified.

2023

LEATT 2026
LEATT 2026
LEATT 2026
LEATT 2026

The Reflex Body Protector comes in 2 parts: a top compression back with soft impact shoulder and elbow protection and a Reflex chest protector worn over the top. Reflex is a reactive impact gel that absorbs energy under impact, and is extremely comfortable due to its flexibility.

SOFT SHELL TECHNOLOGY

Impact tested and certified to comply with the European personal protective equipment regulation.

Elastic straps on the shoulders of the body or chest protector used for securing a Leatt neck brace.

Moisture wicking fabric which helps maintain a comfortable body temperature.

Lightweight, ventilated soft impact foam.

Lightweight & soft level 2 impact foam with enhanced ventilation

Lightweight & soft level 1 impact foam with enhanced ventilation.

Anti-microbial fabric which prevents the build-up of unpleasant smells

Low profile, well ventilated soft impact gel that hardens upon impact

HARD SHELL, GEAR DRIVEN, VENTILATED, HINGED IMPACT PROTECTOR

- Total Leatt® protection score of 25 points
- Hard shell using Leatt engineered impact technology
- Updated modern look with light weight and soft molded EVA
- Slim & lower profile – designed to reduce the profile around the knee
- 60g lighter than the original
- Integration of Flexmesh technology
- Extended, soft internal padding gives comfort and grip
- Widened thigh panel for more coverage
- Metal outer cover reinforces gear mechanism and helps reduce lateral impact forces
- Rubberised inner hinge padding offers increased bike grip
- Large collection of ventilation ports in critical areas for maximum airflow

"For full knee and shin protection, look no further than the Knee & Shin Guard Dual Axis Pro. Drawing inspiration from our Z-Frame Knee Brace, the anatomically correct geared pivoting system replicates the natural movement of the knee. The Leatt-engineered technology hard shell CE tested and certified as impact protection, and the soft internal padding offers great comfort. The rubberized inner hinge padding provides excellent bike grip while riding. A slim, low profile and slim shin plate allow for a great boot fit. Ventilation ports in critical areas ensure maximum airflow. With superior comfort, safety and performance, the Dual Axis Pro is a great addition to the Leatt knee protection line.

LIGHTWEIGHT HARD SHELL FLEXMESH PROTECTOR FOR YOUNGER RIDERS

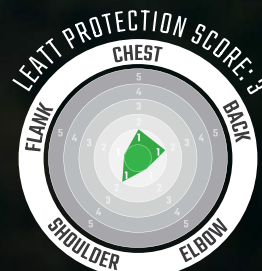

The 1.5 Pro Mini Chest guard is a durable well ventilated chest guard that uses FlexMesh impact technology. The perforated design provides maximum ventilation, and the flexibility ensures a good, comfortable fit. CE Certified as personal protection and designed specifically to protect the youngest riders. The chest guard is equipped with added shoulder pads, an ergonomically designed buckle as well as adjustable waist straps to ensure a secure fit. With a 3D and close-fitting design, it is comfortable, the venting helps keep little ones cool and confident whilst riding.

PRODUCT FEATURES

- Total Leatt® protection score of 3 points
- Hard shell protector
- CE tested and certified to the PPE Regulation (EU) 2016/425
- Design ensures a comfortable, great fit
- Padded base layer prevents hard shell rubbing on skin
- Close fitting allows for over or under the jersey use
- Great venting helps keep rider cool
- Low profile chest and back plates allow for seamless fit with neck brace
- Elastic waist straps for great fit
- Strap tabs designed especially for kids
- Weight:
450g (0.99lbs)
- Plastic free packaging

CHEST PROTECTOR MOTO 4.5 HYDRA

HYDRATION, CARGO, AND PROTECTION – ALL IN ONE FOR MOTO

A chest protector, backpack and hydration pack all in one! The Chest Protector Moto 4.5 Hydra offers CE certified impact protection for the chest and back. A multi-plate articulating design ensures maximum comfort by replicating the natural movement of the body. AirLine back ventilation ensures optimal airflow, keeping you cool even on those long rides.

With a 10L cargo capacity and a 2.0L bladder, you can pack everything you need for all-day adventure. The CleanTech bladder has a center baffle to reduce fluid sloshing around, and the feed tube can be routed over-shoulder or under-arm. The cargo component includes dedicated tool compartments, complete with a waterproof mobile phone pouch. The Chest Protector Moto 4.5 Hydra is constructed to fit with or without a Leatt neck brace.

1.5 HF MOTO RACE HYDRATION

LIGHTWEIGHT & RACE READY FOR MOTO

As the name suggests, the Hydration Moto Race 1.5 HF is lightweight and race-ready. It features a 1.5L hydration bladder and 2L of cargo space. The lightweight harness system is fully adjustable across the chest and waist to ensure a rock-solid fit. AirLine back ventilation ensures optimal airflow, keeping you cool. The hydration tube is quick connect ready for hands free connection, and has an auto shut-off bite valve. An additional 2.0L bladder can be added to storage for those long rides, and a built-in heat panel keeps liquids warm when needed. The Hydration Moto Race 1.5 HF is constructed to fit with or without a Leatt neck brace.

1.5 MOTO LITE HYDRATION

SLIM AND LIGHTWEIGHT FOR MOTO

Because of the spacious 10L cargo storage, the Hydration Moto Lite 1.5 is the perfect bag for those long rides. It has a 1.5L hydration bladder, and a lightweight harness system across the chest and waist to ensure a rock-solid fit. The feed tube can be routed over-shoulder or under-arm. Airline back ventilation ensures optimal airflow, keeping you cool. If you're looking for added impact protection for your back, there is an option to fit a CE impact certified protector. Additional features include: a removable tool storage card, reflective safety piping, an emergency whistle, and a heat panel to keep liquids warm when needed. The Hydration Moto Lite 1.5 is constructed to fit with or without a Leatt neck brace.

1.5 CORE HYDRATION

ULTRA-LIGHTWEIGHT, LOW-GRAVITY WAIST FIT

ULTRA-LIGHTWEIGHT LOW GRAVITY WAIST FIT.

If you are looking for a Lightweight, durable hydration solution to wear around your waist the Hydration Core will be just what you are looking for. Includes a 1.5L HydraPak bladder and bite valve, there is also a magnetic catcher that comes with the feed tube, so it stays in place.

3.0L of cargo storage will give you enough room for the essentials with extra pockets on the waist belt. AirLine back ventilation ensures sweat is kept to a minimum, there are even 2 fold-able bottle mesh compartments, and one size fits all! If you are looking for larger tool capacity take a look at the Core 2.0 tool belt.
