REIMA APPAREL COLLECTION | WINTER '24

reima

80 years of winter adventures

KIDS WILL BE KIDS

Reima has always been about championing an active childhood. That childhood is lived all over Finland – from the biggest cities to the thousand lakes to the hills of Lapland.

When kids go outside, they know what to do. Reima opens the door for them with gear that keeps them protected while letting them enjoy the elements – rain, wind, snow and sun. The best kids clothes are ones that kids don't even realize they're wearing.

But a Finnish childhood is about more than being outside. It's also about letting every child be whoever they really are, not what we think they should be.

Now – more than ever – we want to give parents (and kids) reasons to believe in what we stand for. What better way to do that than to let kids be kids.

Fuss-free Reima apparel is the red thread that helps parents navigate through the ultimate maze: active everyday life with kids. Keep an eye on the classic red items in our winter 2024 collection!

News

Happy steps into winter

Kids can roam through puddles of slush, piles of snow and on slippery, wet ice in Reima shoes that are designed for it all. Flexible, zero heel minimalist winter shoes, or boots with a thicker sole that enables a rolling gait? The choice is yours.

What's the right snow-suit for -4 degrees?

There's no correct answer, because what you dress under it matters, too. But thanks to our eight decades of experience, we have all the snowsuits toddlers, kids and juniors could possibly need for all their adventures in any winter weather.

Cozy layers and colorful toppings

That's the Reima recipe for a warm winter outfit - layered like a delicious cake and looking as good, too. Start from underneath by building the warmth with our next-to-skin performance layers, and finish off by protecting the head and hands from the elements, in style.

Ready to ski

For a perfect day on the slopes, one needs the right gear. Your outfit should be protective yet not too warm, with smart details that enable the action and are easy to use. Check out our ski wear collection and you'll know why Reima gear is frequently seen on the Alps.

THE SUSTAINABILITY JUGGLE

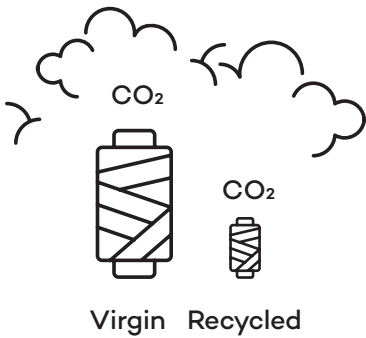

We have joined the Science Based Targets initiative and are committed to reducing our carbon footprint in line with the Paris Agreement.

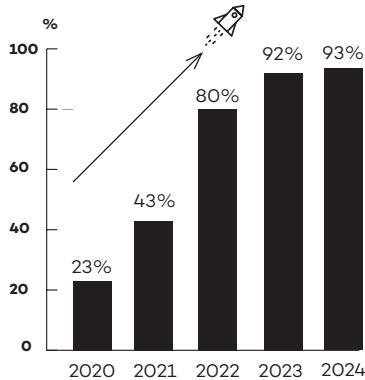

We're proud to launch new bluesign® products – for highest consumer safety and reduced environmental impact.

WHY OPT FOR RECYCLED POLYESTER?

THE SHARE OF SUSTAINABLE STYLES

... in Reima collections rises to 93% in 2024

WHAT IS A MORE SUSTAINABLE STYLE?

When we say a style is more sustainable, it should fulfill at least one of these requirements:

- minimum 50% recycled fibre content in the main material
- bluesign® approved main material
- with Responsible Wool Standard certified wool
- the cotton/hemp is organic

OUR CLOTHES IN WINTER 2024

All our synthetic insulation is 100% recycled

100% of our cotton is certified organic

100% down certified responsible

100% wool certified responsible

OUR CLIMATE ACTION

We are committed to reduce our emissions enough to keep global warming below 1.5C°

We offset the emissions from our offices and stores in full

Over 50% reduced carbon emissions per product by 2030

Repair. Reuse. Reduce. Recycle.

A wintry encounter

The lakeside view is peaceful and silent. All nature is hiding under piles of white, glittering snow, and the lake is frozen now.

But hey, who's that, running past us in the bright moonlight? The playful fox! It's full of energy, alert and free, its breath rising as clouds of vapor into the crisp air. It doesn't care about the freezing cold but embraces it naturally, feeling the joy of movement as it runs on - maybe to meet a fox friend?

Reima Winter '24 collection is a tribute to our 80 years of kids' outdoor fun. Kids in Reima clothes can feel just as energetic and good as the fox in its thick winter fur. They too can run outside to join each other for new adventures each morning, in spite of the weather.

Layers as easy as 1-2-3

BE WARM, NOT WET

When kids are active outdoors, synthetic fibers manage moisture very well, guiding it away from the skin and outwards. This helps keep kids comfortable and makes the clothes easy-care, too. Wool, on the other hand, feels warm even when wet. Combining them, we get the best of both worlds!

How to stay dry and warm

1. A BASE LAYER that manages moisture well feels comfortable all day long.

2. THE FLUFFIER YOUR MID LAYER the more warmth you get. Wool fibers are warm even as a thin layer.

3. A WINDPROOF, WATERPROOF AND BREATHABLE TOP LAYER is the best rule of thumb for carefree outdoor play.

A photograph of three children standing against a plain white background. On the left is a young girl with long braids, wearing a bright blue long-sleeved top and matching pants. In the center is a young girl with red hair in a bun, wearing a pink long-sleeved top and matching pants. On the right is a young boy with curly hair, wearing a dark grey long-sleeved top and matching pants. The boy's pants have the brand name 'reima' visible on the side. The text 'Soft against the skin' is overlaid in white, centered over the children.

LANI SET

FOR INTENSIVE SPORTS

Meet Lani, our classic bestseller base layer set with Thermolite™. It's the perfect companion for active kids in winter: wicking moisture away from the skin, to prevent chills.

FOR SENSITIVE SKIN

The inside of our wool base layer Taitoa is made from Tencel® fiber that's famous for its softness. No itching, guaranteed.

FOR ALL-WINTER COMFORT

Reima base layer Kinsei is made of a super soft blend of finest merino wool that's always warm, and moisture-absorbing Tencel® that makes it feel even softer.

FOR ARCTIC CONDITIONS

The Taival base layer is very warm, thanks to the fine merino wool. We just added a bit of polyamide for more durability and easy care. The skin feel of the material is soft and pleasant.

5200032A Taival

Thermal set

2024, AW 7

- Polyamide adds durability to fine Merino wool
- Wool is ideal for temperature control
- Soft, flat seams for extra comfort: no chafing
- For cold weather
- Elastic waist

Perfecting the package

HEADS UP FOR WINTER

We're often told we lose as much as 40% of our body heat through the head, but new research shows that the truth is around 7-10%. However, keeping the head covered in a way that suits the action is very wise. Protective headgear that's not too thick or sweaty is likely to stay on kids' heads through all adventures, helping them avoid chills and stay healthy.

Wind & water out, comfort in

FIVE FANTASTIC REASONS TO WEAR REIMATEC TRAPPER HAT ILVES

1. No rain or snow will get inside this hat - the seams are sealed waterproof, too - yet it lets sweat evaporate to the outside
2. Fun furry flaps for adjusting the protection
3. Insulated for warmth
4. Comfortably soft brushed lining
5. Used and loved by Reima kids for decades

5300111A Ilves Reimatec hat

Let's shake
hands with
winter

TOPSU BEANIE
GOTLAND OVERALL
OTE MITTENS

Kids and juniors can greet winter wearing with warm hands, thanks to the top-notch recycled insulation in our Reimatec mittens Lapases.

Spray, splash or soak as much as you like, our durable Reimatec winter gloves Tartu keep the water out. And their PrimaLoft® insulation keeps the comfort in.

Flexible Tassu mittens are the toddler equivalent to warm fur on the paws. Great for pram rides and snow play, the long zip makes them easy to dress.

"Ote" means grip in Finnish. Letting kids grip everything from snowballs to ski poles, Reimatec mittens Ote are both warm and waterproof.

Warm wool for wiggly toes

To find the perfect socks for your kids' waterproof shoes, look no further. These Reima socks are very warm, thanks to the wool they contain. We've blended it with a dash of synthetic fibers that are known to improve moisture management and make your socks last longer.

And of course, the wool in all these socks is mulesing-free. Wouldn't have it any other way.

KINSEI SET

5300048C Frotee Socks
