A BALANCE BETWEEN BENEFITS

3 reasons to choose Reima shoes

1. Good fit for healthy feet

Age-appropriate design in shoes that are easy to put on. Reima's footwear supports the normal movement of feet and the Happy Fit insoles help you find the right size.

2. Easy care for carefree steps

The right footwear for any season and weather. Many styles can be machine washed for easier care. Find simple care instructions on the hangtags and online.

3. Sensible protection for better sensations

Always the right level of cushioning, insulation and protection: more sensory feedback for babies' first steps, more cushioning as the child grows. Warming soles and proper insulation for winters, waterproofed sneakers and boots for midseasons. We've thought of everything so you won't have to.

QING REIMATEC WINTER SHOES

MUHVARİ WINTER BOOTS

Water out, comfort in

5400149A Muhvari

THE PERFECT PLUSH FOR WINTER SLUSH

The Reima duck boots Muhvari are built to keep kids' feet dry and warm in snow and sleet. Robust, easy to dress, and so fantastically furry, this pair is their ticket to wet winter wonderland.

**TALVELLA - MINIMALIST
COMFORT FOR WINTER**

The Reima barefoot last is wide at the toes and completely without heel drop - for a natural stance and undisturbed gait.

INSULATING INSOLE

The high-tech insole boasts super thin space-age insulation for best warmth without losing the flex.

EXCELLENT GRIP ON WET ICE

The special rubber compound in our Ice Studs sticks to wet ice like magic. No more slipping and sliding!

It's snowing, so let's get going

FIVE FUNTASTIC REASONS TO WEAR REIMATEC WINTER SHOES HALLAVA

1. The waterproof, breathable membrane keeps the toes dry in puddles and splashes.

2. Cozy warmth! We've tested these shoes for insulation against cold until $-20\text{ }^{\circ}\text{C}/-4\text{ }^{\circ}\text{F}$.

3. The lightweight EVA midsole is cushioned for running on hard surfaces.

4. The outsole is made of recycled rubber and has proper lugs for a great grip.

5. Hallava shoes are super quick to dress, thanks to the easy hook-and-loop straps!

Arctic-proof warmth

5400125A Laplander 2.0

BE FROSTY THE SNOWMAN

In Lapland, even temperatures of -40 °C (-40 °F) can happen. Our Laplander 2.0 boot can handle them. Its comfy, wide last lets kids' toes grow straight. For less slips, we gave it an exclusive Reima outsole that grips on all kinds of terrains AND on wet ice. So let's welcome winter freedom, red cheeks, and warm feet.

MEASURING THE FOOT

Have your child stand on a paper, heel against the wall. Mark the foot length on paper and measure the distance on the end of the sheet.

FOOTWEAR

EU size	US size	UK size	CN size	JP size	Recommended foot length (mm)

34/35	2,5/3,5	2/3	205 (1,5)	21/22	209-221

KEEPING HEALTHY KIDS' FEET HEALTHY

To help a child's motor skills develop normally, it's important to choose the right size and shape of shoe. Parents must also follow the growth of the feet to make sure the shoes fit properly.

Happy Fit makes measuring easy

You can check the shoe size by taking out the insole, so that the child can stand on it. In total, the length of the foot + 1.5 cm for growth and operating reserve is necessary. Most Reima shoes have the "Happy Fit" print in the removable insoles to help you find the correct size.

Smaller allowance for barefoot shoes

For barefoot shoes, a smaller reserve is recommended. The extra space for growth and movement in barefoot/ minimalist shoes should ideally be around 1.0 - 1.2 cm.

Go for technical socks

A 100% cotton sock will feel cold when it gets sweaty. Socks with synthetics that wick moisture away from the skin are a better choice for waterproof shoes. In cold times, socks with wool will be warm even when moist.
