

An aerial photograph captures a large group of cross-country skiers as they descend a wide, snowy slope. The skiers are spread out across the slope, creating a sense of movement and scale. In the background, majestic snow-capped mountains rise against a sky filled with soft, white clouds. The overall scene is bright and crisp, typical of a winter day in a mountainous region.

Material Information

Description: CK-15098: WOOL BLEND 55/45 melange

Performance Light Boxer
188742

15000 Black 15700 Grey Melange

Performance Light Eco Baselayers are seamless, lightweight and are made from recycled yarns offering a reduced carbon footprint. They provide the highest breathability through integrated ventilation zones that rapidly wick moisture, keeping the skin feeling cool and dry during the sweatiest workouts. The seamless constructions offer perfect freedom of movement, and our integrated ODLO ZEROSENT anti-odour technology neutralizes bad odour from the outset keeping the baselayer fresher for longer. The perfect year-round baselayer for any high intensity sporty activities.

Features

- Recycled yarns
- Ventilation zones

Benefits

- Keeps You Dry
- Zoned Function
- Anti odor

Sizes: S, M, L, XL, XXL

Our Performance Wool 150 L/S Crew Neck blends the best of both worlds to create the ultimate comfort in a versatile baselayer. Combining Merino wool's natural performance properties and powered by Nuyarn's patented Merino wool technology, we have crafted this baselayer to be stronger (due to the nylon core), warmer (due to the 150g m/2 fabric) and to dry faster than other, conventionally spun, merino wool fabrics - this is achieved by wrapping a nylon core with super-fine Merino yarns. This unique spinning technique allows the merino yarns to behave naturally and provides an incredibly warm, and highly breathable, baselayer that is perfect for multi-activity winter usage.

Performance Light Panty 188741

10000 White 15000 Black

Performance Light Eco Baselayers are seamless, lightweight and are made from recycled yarns offering a reduced carbon footprint. They provide the highest breathability through integrated ventilation zones that rapidly wick moisture, keeping the skin feeling cool and dry during the sweatiest workouts. The seamless constructions offer perfect freedom of movement, and our integrated ODLO ZEROSENT anti-odour technology neutralizes bad odour from the outset keeping the baselayer fresher for longer. The perfect year-round baselayer for any high intensity sporty activities.

Features

- Recycled yarns
- Ventilation zones

Benefits

- Keeps You Dry
- Zoned Function
- Anti odor

Our Performance Wool 150 L/S Crew Neck blends the best of both worlds to create the ultimate comfort in a versatile baselayer. Combining Merino wool's natural performance properties and powered by Nuyarn's patented Merino wool technology, we have crafted this baselayer to be stronger (due to the nylon core), warmer (due to the 150g m/2 fabric) and to dry faster than other, conventionally spun, merino wool fabrics - this is achieved by wrapping a nylon core with super-fine Merino yarns. This unique spinning technique allows the merino yarns to behave naturally and provides an incredibly warm, and highly breathable, baselayer that is perfect for multi-activity winter usage.

Ascent N-Thermic Hybrid Jacket Insulated
528842

10197 Cinder 15000 Black

The cleverly crafted lightweight Ascent N-Thermic Hybrid down jacket provides core warmth for the outdoor user during the colder months. The unique engineered, and stretch, fabric construction means that there is NO stitching in any of the down baffles, this means that not only do you have greatly reduced instances of down leakage, or snagged stitching, but you also have a much stronger baffle construction - meaning that the down will remain in its place for the lifetime of the garment. The down itself is eco-friendly sourced - Neokdun 750 fill-power recycled down - with a fill of 60g throughout the garment. For added heat regulation an additional stretch knit fabric is placed under the arms to allow warm air to escape. The same stretch knit fabric is also used as an inner baffle collar for a higher degree of comfort whilst the hand pockets and inner chest pocket have brushed back linings for added comfort.

Ascent S-Thermic Hooded Jacket Insulated
528832

15000 Black 30910 Fudge

If you are looking for a lightweight hooded insulation layer and would prefer a synthetic alternative to down then our Ascent S-Thermic Hooded jacket could be just what you need. The insulation is a unique combination of 60g G-Loft Eco which is used in the lower front body, the back, sides, arms and hood. Insulation in the front upper chest is crafted from Primaloft Thermoplume which is a synthetic alternative to down made from 100% PCR plastics. A super-soft and stretchy outer fabric allows for great air permeability in order to prevent overheating during activities. For added heat regulation an additional stretch knit fabric is placed under the arms to allow warm air to escape. The hand pockets and inner chest pocket have brushed comfort linings to keep your hands cosy as well as protecting your smartphone's battery. An adjustable hood and lower hem allows you to fine-tune the fit for optimum comfort and to keep out cold blasts of air.

Ascent S-Thermic Waterproof Jacket Insulated
528822

Looking for a jacket to keep you warm AND dry during the colder winter months? Then look no further than our Ascent S-Thermic Waterproof. The lightweight matte outer fabric is fully waterproof and even has stretch properties for added comfort and mobility. The 3-point adjustable, and insulated, hood keeps you snug whilst a waterproof centre front zip and hand pockets keep out the worst of the weather. The hand pockets and inner chest pocket have brushed comfort linings to keep your hands cosy as well as protecting your smartphone's battery. Sandwiched between the outer / lining fabrics we have incorporated 60g G-Loft Eco insulation for an even distribution of warmth throughout the entire jacket. Unlike other synthetic insulations G-Loft provides unparalleled breathability which, in turn, keeps you warm without ever overheating.

Ascent N-Thermic Hooded Jacket Insulated
528852

Heading into extreme cold environments this winter? If so then our Ascent N-Thermic Hooded jacket could be the right choice for you - the heavyweight fill is perfectly suited to extreme cold environments. As with our Ascent N-Thermic Hybrid, the unique engineered, and stretch, fabric construction means that there is NO stitching in any of the down baffles, this means that not only do you have greatly reduced instances of down leakage, or snagged stitching, but you also have a much stronger baffle construction - meaning that the down will remain in its place for the lifetime of the garment. The down itself is eco-friendly sourced - Neokdun 750 fill-power recycled down - and has a generous differential fill of 160g in the body and 140g in the sleeves and hood. The hood and lower hem are adjustable for a refined fit whilst the hand pockets have a brushed back lining for added comfort and there is also an additional zipped internal security pocket for valuables.

Ascent Warm Pants Regular Length
560462

Our Ascent Warm Pant offers a great blend of warmth, protection and durability for those challenging winter conditions. The 4-way stretch nylon double weave (240g m/2) allows for great mobility whilst also protecting you from the elements - a brushed back finish provides warmth and a CO DWR (durable water repellent) finish keeps moisture away. Featuring two zipped hand pockets, a rear zipped pocket and a right hand thigh pocket - storage is not an issue for those essential items. Zipped lower leg gussets allow you to customise the fit depending on your choice of footwear.

Ski Cocoon S-Thermic Jacket Insulated
528752

Looking for an extra-warm ski jacket that will keep you just as toasty on the slopes as in the city afterwards? The SKI COCOON S-thermic jacket is the fusion of a puffy winter jacket with dedicated ski features to hit the ski pistes in style and confidence. It is crafted from a laminated face fabric (waterproof fabric) treated with PFC FREE DWR and with critical seams taped (hood and shoulders), that keeps you dry when the snow falls, while providing great freedom of movement thanks to the 4-way stretch. To achieve the puffy look, Thermoplume® insulation from Primaloft is used (200g body, 150g sleeves & hood), as it mimics the look & feel of down, delivers similar warmth levels, but outperforms down in wet conditions due to its hydrophobic properties. The jacket comes with specific features such as inside goggle pockets with integrated wipe, ski skirt with a garage so it can be nicely stored when not used, ski pass pocket, 3-point adjustable hood, cuff lining with thumb holes, and RECCO rescuing system. Both the face fabrics as well as the insulation are notably recycled, and the insulation is made in Europe.

Ski Bluebird S-Thermic Jacket Insulated
528762

Looking for an athletic looking ski jacket to hit the slopes in this winter? The SKI BLUEBIRD S-thermic jacket is crafted from a laminated face fabric (waterproof fabric) treated with PFC FREE DWR and with critical seams taped (hood and shoulders), that keeps you dry when the snow falls, while providing great freedom of movement thanks to the 4-way stretch. The high performing G-Loft insulation (80g body, 60g sleeves & hood) retains warmth while delivering optimum moisture management, even in wet conditions. The jacket comes with specific features such as inside goggle pockets with integrated wipe, ski skirt, ski pass pocket, under arm ventilating zips, cuff lining with thumb holes, RECCO rescuing system, and a helmet compatible hood that ensures protection even under harsh weather. Both the face fabrics as well as the insulation are notably recycled, and the insulation is made in Europe.

Descent Cw 200 SI Mid Layer Full Zip
542712

Our new Descent midlayers incorporate Ceramic particles directly into the yarn in order to trap additional warmth and without creating unnecessary bulk - perfect for layering during your winter activities. Features include zipped hand pockets, zipped chest pocket and thumb loops.

Essentials Cw 200 Mid Layer 1/2 Zip
542742

Our new Essential midlayers incorporate Ceramic particles directly into the yarn in order to trap additional warmth and without creating unnecessary bulk - perfect for layering during your winter activities. Featuring a deep snug neck and combined with a light melange optic for a sporty look.

Ski Bluebird S-Thermic Pants Regular Length
560382

Looking for an athletic yet warm ski pant to hit the slopes in this winter? The SKI BLUEBIRD S-thermic pant is crafted from a laminated face fabric (waterproof fabric) treated with PFC FREE DWR and with critical seams taped (gusset), that keeps you dry when the snow falls, while providing great freedom of movement thanks to the 4-way stretch. The high performing G-Loft insulation (60g) retains warmth while delivering optimum moisture management, even in wet conditions. The pant comes with specific ski features such as snow gaiter, adjustable waist, leg ventilating zippers, RECCO rescuing system, and reinforced inserts on the bottom leg. Both the face fabrics as well as the insulation are notably recycled, and the insulation is made in Europe.

Aegis 2.5L Waterproof Jacket Hardshell
528672

If you are looking for an outdoor work-horse, the Aegis 2.5L waterproof jacket is THE piece to have in your hiking wardrobe; a fully seam sealed shell crafted from a 2.5L fabric, that has a soft touch & matte finish. Features include an adjustable hem, 2 hand pockets to store your essentials, as well as a renewed adjustable hood shape with a fixed visor. The jacket can withstand heavy rain showers thanks to a 20,000mm water column, while moisture management is taken care of with a 20'000 MVP rating.

Severin N-Thermic Vest
528912

Our midweight Severin N-Thermic vest strikes the perfect balance of warmth to weight. Warm enough for cold weather activities when you only need to insulate your core. The super tough, and robust, outer fabric offers great durability whilst the matte and sheen finish creates a unique optic. The down is eco-friendly sourced - Neokdun 750 fill-power recycled down and has a differential fill of 100g in the body and 80g in the sleeves and hood. An adjustable hood allows for an optimum fit and the hand pockets and inner chest pocket have brushed linings for added comfort. Internally, a stretch knit fabric is used as an inner baffle collar for a higher degree of comfort, great for keeping out cold wind and spindrift.

Severin N-Thermic Hooded Jacket Insulated
528862

Our midweight Severin N-Thermic Hooded jacket strikes the perfect balance of warmth to weight. Warm enough for cold weather activities but not too warm to cause overheating. The super tough, and robust, outer fabric offers great durability whilst the matte and sheen finish creates a unique optic. The down is eco-friendly sourced - Neokdun 750 fill-power recycled down - and has a differential fill of 100g in the body and 80g in the sleeves and hood. An adjustable hood allows for an optimum fit and the hand pockets and inner chest pocket have brushed linings for added comfort. Internally, a stretch knit fabric is used as an inner baffle collar for a higher degree of comfort, great for keeping out cold wind and spindrift.

Roy Mid Layer 1/2 Zip
542332

Looking for the classic fleece, keeping you toasty on those cold winter hiking or snowshoeing days? The Roy half zip midlayer is crafted from this super soft fleece fabric, brushed inside and outside, retaining your warmth, while the stretch content enables a great freedom of movement. The built-in lines create a special optic, reinforced by the color combinations of the season, and the embroidered contrasting logo adds a valuable touch to your look. The fabric is notably sourced from recycled polyester, and made in Portugal.

Features

- Micro fleece
- Brushed inside
- Recycled garment

Benefits

- Keeps You Warm

F-Dry T-Shirt Crew Neck S/S
550822

15000 Black
30910 Fudge

The F-DRY t-shirt s/s is an all-year-round functional t-shirt, perfect to wear for a variety of sports, from medium to high intensity. Lightweight and soft, it is crafted from ODLO's F-DRY technology delivering optimal drying time and moisture management, thanks to its special yarn construction: polypropylene on the inside transfers moisture to the polyester on the outside which then evaporates. The fabric is sourced from recycled polyester.

Venting thigh zips allow you to keep cool whilst ascending and integrated snow gaiters keep out unwanted powder.

Ascent S-Thermic Hooded Jacket Insulated
528831

If you are looking for a lightweight hooded insulation layer and would prefer a synthetic alternative to down then our Ascent S-Thermic Hooded jacket could be just what you need. The insulation is a unique combination of 60g G-Loft Eco which is used in the lower front body, the back, sides, arms and hood. Insulation in the front upper chest is crafted from Primaloft Thermoplume which is a synthetic alternative to down made from 100% PCR plastics. A super-soft and stretchy outer fabric allows for great air permeability in order to prevent overheating during activities. For added heat regulation an additional stretch knit fabric is placed under the arms to allow warm air to escape. The hand pockets and inner chest pocket have brushed comfort linings to keep your hands cosy as well as protecting your smartphone's battery. An adjustable hood and lower hem allows you to fine-tune the fit for optimum comfort and to keep out cold blasts of air.

Ascent S-Thermic Waterproof Jacket Insulated
528821

Looking for a jacket to keep you warm AND dry during the colder winter months? Then look no further than our Ascent S-Thermic Waterproof. The lightweight matte outer fabric is fully waterproof and even has stretch properties for added comfort and mobility. The 3-point adjustable, and insulated, hood keeps you snug whilst a waterproof centre front zip and hand pockets keep out the worst of the weather. The hand pockets and inner chest pocket have brushed comfort linings to keep your hands cosy as well as protecting your smartphone's battery. Sandwiched between the outer / lining fabrics we have incorporated 60g G-Loft Eco insulation for an even distribution of warmth throughout the entire jacket. Unlike other synthetic insulations G-Loft provides unparalleled breathability which, in turn, keeps you warm without ever overheating.

Ascent N-Thermic Hooded Jacket Insulated
528851

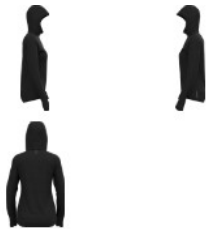

Heading into extreme cold environments this winter? If so then our Ascent N-Thermic Hooded jacket could be the right choice for you - the heavyweight fill is perfectly suited to extreme cold environments. As with our Ascent N-Thermic Hybrid, the unique engineered, and stretch, construction means that there is NO stitching in any of the down baffles, this means that not only do you have greatly reduced instances of down leakage, or snagged stitching, but you also have a much stronger baffle construction - meaning that the down will remain in its place for the lifetime of the garment. The down itself is eco-friendly sourced - Neokdun 750 fill-power recycled down - and has a generous differential fill of 160g in the body and 140g in the sleeves and hood. The hand pockets have a brushed back lining for added comfort and there is also an additional zipped internal security pocket for valuables.

Ascent N-Thermic Hybrid Jacket Insulated
528841

The cleverly crafted lightweight Ascent N-Thermic Hybrid down jacket provides core warmth for the outdoor user during the colder months. The unique engineered, and stretch, fabric construction means that there is NO stitching in any of the down baffles, this means that not only do you have greatly reduced instances of down leakage, or snagged stitching, but you also have a much stronger baffle construction - meaning that the down will remain in its place for the lifetime of the garment. The down itself is eco-friendly sourced - Neokdun 750 fill-power recycled down - with a fill of 60g throughout the garment. For added heat regulation an additional stretch knit fabric is placed under the arms to allow warm air to escape. The same stretch knit fabric is also used as an inner baffle lining for a higher degree of comfort whilst the hand pockets and inner chest pocket have brushed back linings for added comfort.

**Ascent Warm Pants Regular Length
560461**

Our Ascent Warm Pant offers a great blend of warmth, protection and durability for those challenging winter conditions. The 4-way stretch nylon double weave (240g m/2) allows for great mobility whilst also protecting you from the elements - a brushed back finish provides warmth and a CO DWR (durable water repellent) finish keeps moisture away. Featuring two zippered hand pockets and a right hand thigh pocket - storage is not an issue for those essential items. Zipped lower leg gussets allow you to customise the fit depending on your choice of footwear.

Ski Bluebird S-Thermic Jacket Insulated
528761

15000
Black

Looking for an athletic looking ski jacket to hit the slopes in this winter? The SKI BLUEBIRD S-thermic jacket is crafted from a laminated face fabric (waterproof fabric) treated with PFC FREE DWR and with critical seams taped (hood and shoulders), that keeps you dry when the snow falls, while providing great freedom of movement thanks to the 4-way stretch. The high performing G-Loft insulation (80g body, 60g sleeves & hood) retains warmth while delivering optimum moisture management, even in wet conditions. The jacket comes with specific features such as inside goggle pockets with integrated wipe, ski skirt, ski pass pocket, under arm ventilating zips, cuff lining with thumb holes, RECCO rescuing system, and a helmet compatible hood that ensures protection even under harsh weather. Both the face fabrics as well as the insulation are notably recycled, and the insulation is made in Europe.

Ski Cocoon S-Thermic Jacket Insulated
528751

15000
Black

21092
Gray Ridge

Looking for an extra-warm ski jacket that will keep you just as toasty on the slopes as in the city afterwards? The SKI COCOON S-thermic jacket is the fusion of a puffy winter jacket with dedicated ski features to hit the ski pistes in style and confidence. It is crafted from a laminated face fabric (waterproof fabric) treated with PFC FREE DWR and with critical seams taped (hood and shoulders), that keeps you dry when the snow falls, while providing great freedom of movement thanks to the 4-way stretch. To achieve the puffy look, Thermoplume® insulation from PrimaLoft is used (200g body, 150g sleeves & hood), as it mimics the look & feel of down, delivers similar warmth levels, but outperforms down in wet conditions due to its hydrophobic properties. The jacket comes with specific features such as inside goggle pockets with integrated wipe, ski skirt with a garage so it can be nicely stored when not used, ski pass pocket, 3-point adjustable hood, cuff lining with thumb holes, and RECCO rescuing system. Both the face fabrics as well as the insulation are notably recycled, and the insulation is made in Europe.

Ski Bluebird S-Thermic Pants Regular Length
560381

Looking for an athletic yet warm ski pant to hit the slopes in this winter? The SKI BLUEBIRD S-thermic pant is crafted from a laminated face fabric (waterproof fabric) treated with PFC FREE DWR and with critical seams taped (gusset), that keeps you dry when the snow falls, while providing great freedom of movement thanks to the 4-way stretch. The high performing G-Loft insulation (60g) retains warmth while delivering optimum moisture management, even in wet conditions. The pant comes with specific ski features such as snow gaiter, adjustable waist, leg ventilating zippers, RECCO rescuing system, and reinforced inserts on the bottom leg. Both the face fabrics as well as the insulation are notably recycled, and the insulation is made in Europe.

Severin N-Thermic Hooded Jacket Insulated
528861

Our midweight Severin N-Thermic Hooded jacket strikes the perfect balance of warmth to weight. Warm enough for cold weather activities but not too warm to cause overheating. The super tough, and robust, outer fabric offers great durability whilst the matte and sheen finish creates a unique optic. The down is eco-friendly sourced - Neokdun 750 fill-power recycled down - and has a differential fill of 100g in the body and 80g in the sleeves and hood. An adjustable hood allows for an optimum fit and the hand pockets and inner chest pocket have brushed linings for added comfort. Internally, a stretch knit fabric is used as an inner baffle collar for a higher degree of comfort, great for keeping out cold wind and spindrift.

Severin N-Thermic Vest
528911

Our midweight Severin N-Thermic Hooded vest strikes the perfect balance of warmth to weight. Warm enough for cold weather activities when you only need to insulate your core. The super tough, and robust, outer fabric offers great durability whilst the matte and sheen finish creates a unique optic. The down is eco-friendly sourced - Neokdun 750 fill-power recycled down and has a differential fill of 100g in the body and 80g in the sleeves and hood. An adjustable hood allows for an optimum fit and the hand pockets and inner chest pocket have brushed linings for added comfort. The main fabric is a brushed power stretch fleece with a light DWR water resistant coating. Multiple storage options include a stretch mesh tunnel for your jacket, 1 zip pocket and 2 stretch mesh pockets. For extra comfort and safety on those long runs, we've added a bonded waistband with external drawcord and multiple reflective details. Whether you're tearing up the trails or flying through the streets, these AXALP winter tights do the job.

Zeroweight Insulator Jacket
314142

When the temperatures really start to drop and you don't want any excuses not to go for that run grab our Zeroweight insulator jacket. It combines super lightweight, highly breathable Freundenberg thermal insulation which uses reclaimed plastic bottles as the raw material to create the polyester fibres. The insulation zones are placed to keep you warm under cold conditions, with our 4 way stretch softshell keeping the wind and rain at bay on the non insulated areas of the jacket. Lastly to make sure you have the right balance of protection, freedom of movement and warmth we've added our high stretch, brushed ceramiwarm jersey on the underside of the sleeves and under the arms. There are 2 zippered pockets for your running essentials, reflective elements for those darker training days, plus a lightly insulated hood. With this jacket you really have zero excuses not to get out and enjoy your run, no matter how low the thermometer drops.

Zeroweight Insulator Vest
314152

When the temperatures really start to drop and you don't want any excuses not to go for that run grab our Zeroweight insulator vest. It combines super lightweight, highly breathable Freundenberg thermal insulation which uses reclaimed plastic bottles as the raw material to create the polyester fibres. The insulation zones are placed to keep you warm under cold conditions, with our 4 way stretch softshell keeping the wind and rain at bay on the non insulated areas of the jacket. Lastly to make sure you have the right balance of protection, freedom of movement and warmth we've added our high stretch, brushed ceramiwarm jersey under the arms. There are 2 zippered pockets for your running essentials, reflective elements for those darker training days and a lower collar to enable you to wear this style with your favourite zippered midlayer. With this insulated vest you really have zero excuses not to get out and enjoy your run, no matter how low the thermometer drops.

Dual Dry Waterproof Insulated Jacket
323142

This ISPO Gold Award winning waterproof jacket with ODLO Dual Dry Technology is designed for demanding athletes who want the ultimate balance between protection and breathability. With a 20,000mm waterproof rating, 50,000 MVP breathability and weighing only 136 grams in size large, it is the market leader in featherlight, waterproof running jackets. 360 reflectivity, fully seam sealed, waterproof zipper, and an adjustable running fit hood with rain visor complete this high performance package. On top of all these great features we have now made featherlight Octa insulation into this high performance package really giving you the best of both worlds. The ultimate combination of protection and warmth for those high performance wet winter runs.

Zeroweight Pro Warm Jacket
315612

ODLO PRO series is crafted for the demanding athlete. This fully softshell jacket has all the features you need to keep running whatever the weather. The lightweight, windproof, water resistant, 4 way stretch fabric has body mapped ventilation zones, 360 degree reflectivity and a zippered chest pocket. High stretch internal sleeves hold in the heat and include a thumbhole for increased cold weather comfort. We've also included a built in watch window so you don't need to get undressed to check your performance. The front zipper has a magnetic collar fastener to allow extra ventilation via the zipper while keeping the collar in place as you crank up the pace and waistband adjustment to get the perfect fit.

The main fabric is a brushed power stretch fleece with a light DWR water resistant coating. Multiple storage options include a stretch mesh tunnel for your jacket, 1 zip pocket and 2 stretch mesh pockets. For extra comfort and safety on those long runs, we've added a bonded waistband with external drawcord and multiple reflective details. Whether you're tearing up the trails or flying through the streets, these AXALP winter tights do the job.

Zeroweight Insulator Vest
314151

10197 Cinder
15001 Black - Black
21091 Misty Lilac

When the temperatures really start to drop and you don't want any excuses not to go for that run grab our Zeroweight insulator vest. It combines super lightweight, highly breathable Freundenberg thermal insulation which uses reclaimed plastic bottles as the raw material to create the polyester fibres. The insulation zones are placed to keep you warm under cold conditions, with our 4 way stretch softshell keeping the wind and rain at bay on the non insulated areas of the jacket. Lastly to make sure you have the right balance of protection, freedom of movement and warmth we've added our high stretch, brushed ceramiwarm jersey under the arms. There are 2 zippered pockets for your running essentials and reflective elements for those darker training days. With this insulated vest you really have zero excuses not to get out and enjoy your run, no matter how low the thermometer drops.

Zeroweight Windproof Kb Pants 3/4
622762

Classic style in a performance package. The zeroweight knickerbocker is crafted using our 3 layer brushed softshell for warmth, protection and comfort. We've added multiple storage options in the form of zippered hand pockets, a zippered thigh pocket and a mesh drop in pocket. The waistband has a 2 point velcro adjustment for a great fit and is secured with double press studs.

Zeroweight Insulator Short
622752

The Zeroweight Insulator shorts are a truly protective piece for colder days on the cross country slopes. Ideally worn over tights, they can quickly be put on or taken off without taking your skis off thanks to the full zippers on both sides. The shorts are insulated using recycled synthetic yarns, protecting you from the cold, while keeping the shorts light and packable. The rear portion of these shorts uses ceramiwarm brushed jersey for high stretch, warmth and performance. An internal key pocket can be found on the inside of the bonded elastic waistband, which has an external drawcord for fit adjustment.

Brensholmen Jacket
612661

Versatility and functionality are the Brensholmen jacket's main attributes. It is constructed with a fully windproof and water resistant softshell material in the front and a light, breathable jersey in the back that perfectly combines weather protection and moisture management on the cross country slopes. Two zippered hand pockets and reflective elements make this also an ideal running style on cold and dark winter days.

412131

Designed to be worn either as an outer layer when the temperatures drop or as a layering piece under a windproof jacket or vest. Constructed from our popular recycled Ceramiwarm, brushed fleece which gives you the right balance between warmth, comfort and breathability. There are 3 rear pockets, a secure zippered pocket, reflective details and a rear hem elastic gripper for keeping the jersey in place when on the bike. Given it's versatility we are convinced the Zeroweight ceramiwarm full zip jersey will quickly become a favorite in your winter cycling wardrobe.

Zeroweight Pro X-Warm Bib Long
422511

15000
Black
Keystyle

Cold, windy or wet weather bike rides demand a lot from your legs, keeping them warm without overheating is key. Our Zeroweight X-warm bib tights utilise a snug fitting, brushed nylon power stretch as the main fabric combined with Italian mesh bibs for support and comfort. We've integrated a recycled, windproof, water resistant, high stretch, brushed softshell to ensure maximum protection for your thighs, without impacting freedom of movement. As with all our Zeroweight bibs we use Odlo Gold level padding developed by Elastic interface, tested for up to 6 hours in the saddle. And as this a winter tight there are highly reflective black reflective tapes on the lower legs for side on visibility and on the rear upper portion of these bib tights.

Ride 365 Waterproof Pants Regular Length
422480

15000
Black

The RIDE EASY WATERPROOF pants will be your best ally to bike through tempestuous & wet weather. Crafted from a 2.5L fabric (20.000 water column / 20.000 water permeability), these pants will keep you dry in the rain with great breathability. They come with valuable features such as the waist velcro straps for an adjustable fit, pre-shaped knees aiding on-saddle freedom of movement, and reflective details for extra visibility. Last but not least, we've equipped these pants with long length calf zippers, so you pull these pants over your shoes if you get caught out in the rain.

This CERAMICOOOL running socks offer a bodymapped padding system for enhanced comfort and cushioning. Thicker and softer material on the heel and toe area helps reducing the impact of each step, protecting against blisters while the breathable mesh material and the Ceramicool yarns keep your feet cool and wick sweat away. Integrated and very functional Polypropylene yarn is resistant to absorbing moisture and therefore ensures a very fast drying pair of socks. The seamless toe construction gives the socks an optimal fit while the Integrated ODLO ZEROSCENT anti-odour technology controls and eliminates bad odour from its very beginning. Finally, the socks are made and crafted in EUROPE.

This CERAMICOOL running socks offer a bodymapped padding system for enhanced comfort and cushioning. Thicker and softer material on the heel and toe area helps reducing the impact of each step, protecting against blisters while the breathable mesh material and the Ceramicool yarns keep your feet cool and wick sweat away. Integrated and very functional Polypropylene yarn is resistant to absorbing moisture and therefore ensures a very fast drying pair of socks. The seamless toe construction gives the socks an optimal fit while the Integrated ODLO ZEROSCENT anti-odour technology controls and eliminates bad odour from its very beginning. Finally, the socks are made and crafted in EUROPE.

MOISTURE
MANAGEMENT

The Art of Layering

It's what's inside. What you choose to wear, from your sports underwear through to the outer layer will directly impact your performance and well-being during your next sporty adventure on colder days.

The number one mistake consumers make is wearing too many layers. By loading up on clothing and sweating through the garments, you ultimately feel clammy and miserable. ODLO's latest innovation "**Advanced Microclimate Management**" addresses this and is the ultimate solution to physical comfort.

The right layering system offers, no matter what the conditions, an optimal micro climate that manages both body heat and moisture between the different layers, so that sport enthusiasts stay warm and dry all day long. Through their elaborate mix of functional materials and innovative technologies, ODLO's inner layers deliver a perfect balance of breathability, flexibility, insulation and warming properties. Perfect Microclimate Management, achieved through ODLO's advanced layers that complement each other, which will make you feel comfortable and perform better. Will you make the inside count on the outside?

SPORTS UNDERWEAR CONCEPT OVERVIEW

PERFORMANCE

ACTIVE SPINE LIGHT

ACTIVE SPINE WARM's little sister is a lightweight base-layer which helps you to perform at your best. A printed posture-control frame around the shoulders ensures that you straighten up naturally during your training. The improved posture allows you to enjoy better breathing and reduces any muscle fatigue, which will lend you more power for your performance.

BLACKCOMB

Stylish, tailored and multi-functional, the Blackcomb range, worn next to the skin, keeps you warm, protected and sweat free whether skiing or during whatever other activities you undertake in the great outdoors. Comfort across a wide range of body movements is fully assured through the use of seamless knitting technology, whilst a number of clever 'zones', which feature different properties, have been strategically incorporated into the design to optimise ventilation and provide superior moisture management.

PERFORMANCE WARM

PERFORMANCE WARM is the best performance sports underwear, bar none, and, as the name says, it is "made to perform". The Performance Warm line is also built using the Organic Bodymapping principle, which guarantees optimum temperature regulation and freedom of movement. The line features incomparable sweat wicking and quick-drying characteristics. This makes it the first choice for performance sports on cool days. The athletic design of the Performance Warm line perfectly reflects the Organic Bodymapping approach.

PERFORMANCE LIGHT

PERFORMANCE LIGHT, with its seamless construction and integrated bodymapped functional zones, provides maximum breathability and the best moisture wicking properties where it is needed. It is the right choice for fluctuating temperatures and demanding physical activities – a versatile range of performance sports underwear that can be worn all year round.

ACTIVE

ACTIVE EVERYDAY

Performance Underwear is becoming ever more important as many people like to use it for everyday wear and not just during physical activity. ODLO is responding to this trend with a year-round line: Active Everyday. With it, men are getting particular attention from ODLO in this new collection on the topic of support. In this underwear line that is versatile for both sport and everyday wear, ODLO is providing the "Happy Balls" concept. This underwear uses a special pouch technology that provides extra support and keeps everything fresh thanks to a cooling layer in the lower pouch area. The lady bottoms are invisible underneath your tights and make panty lines a thing of the past.

ACTIVE WARM

ODLO's ACTIVE WARM sports underwear range, also known as the Originals, has been a customer favourite for decades. ACTIVE WARM is ideal for all low- to medium-intensity sports and offers good insulation against the cold. Soft stitching and a fleecy brushed interior provide maximum comfort and a very soft handfeel. Its optimum moisture management and fast drying properties mean you stay pleasantly warm and dry, even when the weather turns colder.

ACTIVE WARM Originals

The Heritage range provides the same comfort as the Active Warm. It combines a super soft handfeel, optimal thermal insulation and fast drying properties with a touch of ODLO Heritage in terms of design.

ACTIVE X-WARM

ACTIVE X-WARM has been designed to provide excellent insulation, even when temperatures plummet. Soft insulation pads are integrated into the garments to ensure that particularly exposed, sensitive areas of the body are protected from the cold. Its excellent moisture management properties guarantee you stay warm and dry at all times.

ACTIVE LIGHT (F-DRY)

ODLO F-dry is an all-around quality sports baselayer which is suitable for a wide range of activities. It is characterised by outstanding moisture management and the highest wearing comfort. F-Dry will keep you dry and comfortable 365 days a year. The polypropylene on the inside of the fabric and the polyester on the outside create a push-pull effect. The polypropylene can't absorb any moisture and so pushes it to the outside, where it evaporates and creates a comfortable cooling sensation. The super soft fabric is equipped with a bio-based finish made from organic and recycled components.

NATURAL

NATURAL + KINSHIP WARM

NATURAL (+) KINSHIP WARM is a must for environmentally conscious sports enthusiasts that like to stay comfortably cosy. The unsurpassed comfort is attained by the super soft fabric quality with 50% extra fine

merino wool. This allows the fabric to hug your skin smoothly. The blend of performance and natural fibres has an odour-resistant function and regulates body temperature optimally - no matter if the day is cold or warm. NATURAL (+) KINSHIP WARM likewise boasts a highly sophisticated seamless jacquard weave construction. This means the design is not printed on the fabric, but is achieved through the seamless knit technology. The design of the NATURAL (+) KINSHIP line has been inspired by ODLO's Norwegian roots. ODLO has picked up a Scandinavian knit pattern and re-interpreted it to create a subtle, modern look.

NATURAL 100% MERINO WARM

ODLO 100% Merino is the 200g, all-year-round, quality material for nature lovers. It stands out thanks to its natural body temperature control and anti-odour properties. The super fine 17.5 Micron quality is currently the finest 100% Merino wool available on the market. These fine fibres adapt to the shape of the skin and create an ultimately soft and soothing sensation.

NATURAL + LIGHT

ODLO Natural + Light is a collection created from a mix of two natural materials, both plant and animal fibres. Firstly, our 100% guaranteed mulesing-free origin Merino Wool - at 17.5 Microns provides the garments with body temperature control and natural anti-odour properties. Secondly, we have incorporated Tencel into this collection, whose natural fibres come from the wood pulp of Eucalyptus. It is the most environmentally-friendly fibre originating from plants. The length of these fibres gives the material a soft and silky feel. A first layer that becomes a natural second skin.

REVELSTOKE PERFORMANCE WOOL

Traditional wool fabric is knit from single ply yarns in which wool fibers are drawn into fine strands and twisted together for strength. NuYarn eliminates the twist in the yarn. Fibers are placed around a core at a parallel orientation, and draw out into a super fine fiber with zero twist. NuYarn uses a nylon core for added strength, hidden inside the fine merino-wrapped fiber. This super fine fiber is then doubled up to create strong two-ply-yarns to be knitted into fabric. The resulting merino outperforms the world's best ringspun merino fabrics in almost every performance metric.

LABELS

TEMPERATURE CONTROL SYSTEM (TCS)

X-LIGHT

X-LIGHT

Keeps the body cool and dry. Breathable, extremely lightweight sportswear for warm temperatures and intense activities. The x-light underwear is defined by high-moisture wicking and quick drying properties.

LIGHT

LIGHT

Light provides optimum comfort in all situations and in all weather conditions throughout the entire year. High elasticity and fast drying distinguish ODLO's light underwear.

WARM

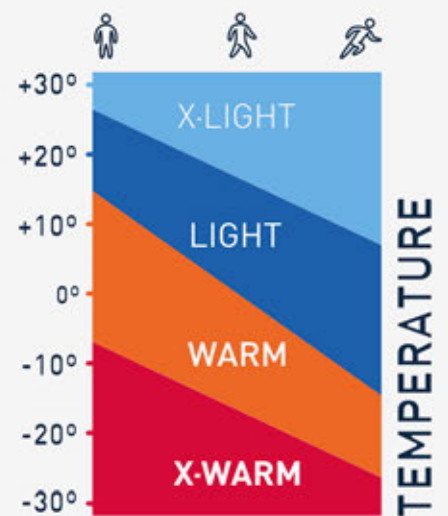

WARM

Highly functional sportswear with excellent thermal insulation that keeps the body warm when it's cold outside. With the fabric's effective moisture wicking properties, the skin is kept dry and warm. Warm thermal quality is ideal for all winter activities.

X-WARM

X-WARM

Sports clothing for extreme cold: Extra-warm [X-Warm] inserts protect sensitive areas of the body at very cold temperatures. Good moisture wicking ensures additional comfort when wearing.

MEMBERSHIP

FAIR WEAR FOUNDATION

When ODLO joined the Fair Wear Foundation (FWF) in 2008 it was the first company specializing in functional clothing to become a member. The FWF is committed, as an independent non-profit organization, to the improvement of working conditions in the garment industry throughout the world. With the help of factory audits (social audits) and a complaint procedure, corporate audits (management system audits) of their members, and through extensive consultations with stakeholders in the manufacturing countries, the FWF verifies whether companies comply with the established code of conduct.

TESTED FOR HARMFUL SUBSTANCES

OEKO -TEX 100

ODLO's Functional Underwear bears the Oeko-Tex® label "Confidence in Textiles", which certifies textiles tested for harmful substances in accordance with the Oek-Tex Standard 100. Our product meets the current human-ecological requirements: no carcinogenic ingredients, no formaldehyde, free of allergy-causing dyes, skin-friendly pH value.

PACKAGING

THE GREEN DOT

All of ODLO's underwear packaging is marked with the "Green Dot" and is, thus, completely recyclable.

SYNTHETIC - THERMIC utilizes synthetic insulation combined with extremely breathable fabrics for a perfect microclimate by transporting excess heat and moisture to the outside.

I-THERMIC

I-THERMIC

A battery powered innovation utilizing an intelligent thermo technology that knows how and when to keep you warm, using thermal sensors and automated heat adjustment where the heating areas are fully integrated into the knitting construction.

COMPRESSION

ACTIVE SPINE

ACTIVE SPINE

The *ODLO* patented posture technology that provides spinal stability by aligning the shoulders, spine and torso. It combines advanced biomechanics and industry-leading knitting technology to deliver an active posture system inspired by the natural function of the human spine.

MUSCLE FORCE

MUSCLE FORCE

A unique compression with seam-free integrated functional zones delivers improved blood and oxygen circulation and reduces muscle vibration by 42%.

SUPPORT

HAPPY BALLS

A special pouch technology that provides extra support and keeps everything fresh thanks to a cooling layer in the lower pouch area.

PROTECTION

WINDSHIELD

PERFORMANCE WINDSHIELD SUW provides performance conscious athletes protection and comfort in intense headwind-facing sports.

LOGIC WINDPROOF

Effective protection against wind-chill. Depending on the wind speed, the perceived temperature can often be significantly lower than the measured external temperature. *LOGIC WINDPROOF* from ODLO reduces the effects of wind-chill. This material is extremely breathable, windproof and water repellent.

LOGIC WATERPROOF

Protects against rain, wind and weather. The innovative material technology in *LOGIC WATERPROOF* effectively protects the body like a third layer from external influences. The material is waterproof, windproof and breathable.

ODLO ZEROSCENT

Counteracts the unpleasant smell of sweat. The functional treatment effect, silver ions applied to the material, stops the multiplication of bacteria and effectively prevents unpleasant odors. The effect is completely skin-compatible, durable and offers optimal climate comfort.

CYCLING PADDINGS

PADDING: GOLD

This is our most sophisticated padding, which with extreme anatomical construction provides more riding comfort due to perfect body alignment to the pedalling movement, 3D light mesh ensures additional breathability and the Air Plus fabric guarantees you enjoyable rides due to the superb moisture management.

PADDING: SILVER

ODLO Silver padding is the best combination of comfort and stable support. Featuring increased ventilation, the silver padding boasts a high density and peerless moisture management, making it ideal for long-distance rides.

PADDING: BRONZE

ODLO Bronze padding provides an all-around support level for all kinds of athletes and activities, including road, city and Mountain biking.

HOW TO MEASURE

1. BUST

Measure around the fullest part of your bust, keeping the measuring tape horizontal.

2. WAIST

Measure around the narrowest part (typically where your body bends side to side), keeping the tape horizontal.

3. HIP

Measure around the fullest part of your hips, keeping the tape horizontal.

4. INSEAM

Measure from the top of your inner leg to the bottom of your leg.

ODLO SIZE TABLE

	XS	S	M	L	XL	XXL
F/B/E CUP AF	70	75	80	85	90	95

HOW TO MEASURE

For a perfect fit, a new band should be on the loosest hook and feel firm but comfortable.

Your breasts should be fully contained within your bra's cups, with no excess cleavage coming over the top.

Straps are at their perfect length when the breast feels supported in its natural position - usually half way between the shoulder and elbow.

OUR PATH TOWARD SUSTAINABILITY

Our goal is for all our materials to be **100% environmentally friendly** by 2030.

Learn more

In 2021, we processed **250 tonnes of recycled polyester**.

We've been awarded the **Fair Wear Foundation's Leader Status** for the 6th consecutive years

Our supply chain is **transparent** and **traceable**.

We've been producing our **Performance Warm Eco** and **Active Warm Eco** products from recycled polyester since 2021.

50% of our raw materials are sustainable (recycled or made from natural fibers).

We only use certified **mulesing-free wool** and we don't pluck downs from living animals.
