REIMA EA 2025 FOOTWEAR COLLECTION

# For kids on the move

## **AWARD-WINNING SHOES FROM THE KIDSWEAR SPECIALIST**

We're Reima, the number one kidswear brand from Finland. Since 1944 we've been innovating long lasting clothes and unique footwear that let kids of all ages, shapes and sizes feel comfortable and confident exploring the outdoors. They're a perfect match for the fall Reima clothes collection, creating a total tip-to-toe look and outdoor-ready protection.

### **WELL-BEING STARTS FROM THE FEET**

Reima shoes are the perfect companion for active kids: designed to enable free movement and healthy growth of the feet.

Because we start our creation from children's needs, our shoes are always age-appropriate. They let kids kick, hop, and run, safely and in full comfort, year round. Reima has a shoe for every activity, in any type of weather!

### **HAPPY STEPS INTO AUTUMN**

Getting kids back to school is easy peasy with our weatherproof shoes. Whatever the forecast says, Reima takes them bravely through it all!

Whether looking for a flexible barefoot style or a more cushioned shoe, you're sure to find your favorite pair, functional and feature-loaded down to the last detail.

# Reima Barefoot shoes

## ONE STEP CLOSER TO NATURE

Designed to mimic the feeling of walking barefoot, light and flexible Reima minimalist footwear encourages healthy foot and posture development in kids. Kids can maintain their natural stance and gait while exploring the world safely and comfortably in Reima barefoot shoes.

### 1. FOR STRONGER FEET

Reima barefoot shoes feature a very flexible, thin sole. It lets kids sense the ground better while also strengthening the small muscles of their feet.

### 2. FOR FREE GROWTH

The wide toe box has enough room for the toes to grow straight – we hope future generations would never have to experience painful bunions!

### 3. FOR A NATURAL POSTURE

The sole is completely flat and equally thick at ball and heel. This helps kids enjoy a natural stance and gait, supporting normal movement of the entire body.

BAREFOOT

# Reima Rolling Steps soles

## **JUMP, SKIP AND HOP WITH EASE**

Barefoot shoes are a great start for little kids' growing feet. But kids move in many ways and places, and sometimes their shoes need more cushioning and bounce. That's when Reima Rolling Steps soles are needed.

### **1. FOR A SMOOTHER STEP**

The Reima Rolling Steps sole is shaped so that it doesn't interfere with or block the child's gait. It enables undisturbed movement for shoes with thicker soles.

### **2. FOR SHOCK ABSORPTION**

When running and jumping on hard surfaces such as asphalt and concrete, bigger kids – roughly at the point of entering school age – may start to need cushioning to avoid injuries.

### **3. FOR COMFORT IN ACTIVITIES**

Reima Rolling steps shoes are designed to feel comfortable and dynamic on foot with fluid, rolling strides and just enough bounce to inspire playful adventuring.

### MEASURING THE FOOT

Have your child stand on a paper, heel against the wall. Mark the foot length on paper and measure the distance on the end of the sheet.

## FOOTWEAR

EU size	US size	UK size	CN size	JP size	Recommended foot length (mm)

34/35	2.5/3.5	2/3	205 (1,5)	21/22	209-221

### KEEPING HEALTHY KIDS' FEET HEALTHY

To help a child's motor skills develop normally, it's important to choose the right size and shape of shoe. Parents must also follow the growth of the feet to make sure the shoes fit properly.

#### Happy Fit makes measuring easy

You can check the shoe size by taking out the insole, so that the child can stand on it. In total, the length of the foot + 1.5 cm for growth and operating reserve is necessary. Most Reima shoes have the "Happy Fit" print in the removable insoles to help you find the correct size.

#### Smaller allowance for barefoot shoes

For barefoot shoes, a smaller reserve is recommended. The extra space for growth and movement in barefoot/ minimalist shoes should ideally be around 1.0 - 1.2 cm.

#### Go for technical socks

A 100% cotton sock will feel cold when it gets sweaty. Socks with synthetics that wick moisture away from the skin are a better choice for waterproof shoes. In cold times, socks with wool will be warm even when moist.
