

K2

25/26 SKI COLLECTION

THE ORIGINAL AMERICAN SKI BRAND.

**FOUNDED IN 1962 IN WASHINGTON STATE.
IT STARTED WITH A SHOP. A GARAGE. A BARN. AN ISLAND.
IT STARTED WITH AN IDEA. IT STARTED WITH BELIEF. IT
STARTED WITH MADNESS AND MISTAKES. FROM A GARAGE
BRAND TO A GARAGE BRAND GONE GLOBAL. FOR NOW AND
ALWAYS, K2 CONTINUES TO THRIVE WITH INNOVATION,
CRAFTSMANSHIP, AND COMMITMENT.**

COLLECTIVE PROGRESS: TOGETHER, DRIVING CHANGE FOR THE OUTDOORS

Like-minded people driving progress for the outdoors, together

K2 believes that protecting the places we love is a shared responsibility. Through our **Collective Progress** initiative, we're bringing together passionate people, partners, and ideas to reduce our impact, safeguard natural resources, and inspire the next generation of outdoor enthusiasts.

Carbon Reduction

We're committed to lowering our carbon footprint through the use of cleaner energy, sustainable materials, and more efficient production processes.

Sustainable Materials

By integrating flax, bio-resins, recycled materials, and eco-friendly technologies across our ski and boot lines, we're reducing waste and using materials that give back to the earth.

Product Lifecycle & Repairability

We focus on durability, repairability, and recycling to extend the life of our products and reduce waste. Our products are built to last and designed to be easily repaired or recycled.

Community & Partnerships

Working with like-minded organizations and communities, we're fostering collaboration that drives environmental awareness and action within the outdoor industry.

An aerial photograph of a vast, snow-covered mountain slope. In the background, jagged, snow-capped mountain peaks rise against a clear blue sky. The slope is dotted with numerous small figures of skiers and several ski lift gondolas. Two prominent ski lift cables run diagonally across the frame, with gondolas visible at various points. The overall scene conveys a sense of a large, open ski resort.

POLES

FREERIDE FLIPJAW

Forged out of tough 7075 aluminum and featuring K2's proprietary Flipjaw locking mechanism, the Freeride Flipjaw seamlessly transitions from early-morning skin tracks to afternoon resort laps. Ditch those featherweight touring poles for something that is equally at home on the skin track and the chairlift.

FEATURES
Flipjaw Adjustment Mechanism

- GRIP:** Freeride Dual Injection
- SHAFT:** Adjustable 7075 Aluminum
- BASKET:** 70mm Freeride
- SIZES (CM):** Adjustable: 100-120, 110-135
- COLORS:** Brown, Purple

FREERIDE 18

With a comfy dual injection rubber grip and a bombproof 18mm diameter aluminum shaft, the Freeride 18 is built to last. Listen, you can get some crazy bells and whistles on poles these days, all you really need is a comfy grip paired with durable aluminum. Keep things sturdy and simple - drop in with the Freeride 18.

FEATURES
Freeride Dual Injection

- GRIP:** Freeride Dual Injection
- SHAFT:** 18mm 7075 Aluminum
- BASKET:** 70mm Freeride + 95mm Powder
- SIZES (CM):** 110, 115, 120, 125, 130
- COLORS:** Khaki, Dark Green

FREERIDE 16

With a comfy grip and lightweight 16mm aluminum shaft, the Freeride 16 is built with female skiers in mind. Whether you're rallying pow stashes far from the lift or shoving off for another park lap, reach for the reliable Freeride 16 and let the good times roll. Available in shorter lengths for smaller skiers.

FEATURES
Velcro Adjustable Strap

- GRIP:** Freeride Dual Injection
- SHAFT:** 16mm Aluminum
- BASKET:** 70mm Freeride
- SIZES (CM):** 95, 100, 105, 110, 115, 120
- COLORS:** Strazz

POWER CARBON

All carbon ski poles are basically the same, right? Wrong. Take a look at the lightweight Power Carbon - with a slick pole strap adjustment system and ultra-comfy Ripcord grip, you'll be wondering what exactly you've been wrapping your fingers around all these years. You're picky about your skis, boots, and goggles - why not be just as discerning when it comes to your poles?

FEATURES
Carbon Web

- GRIP:** Ripcord
- SHAFT:** 14mm Carbon Web
- BASKET:** 70mm Freeride
- SIZES (CM):** 110, 115, 120, 125, 130
- COLORS:** Orange, Red

POWER COMPOSITE

With a thermo-formed Performance Rubber grip and lightweight-yet-durable 16mm composite shaft, the Power Composite represents that perfect balance between lightweight performance and durable practicality.

FEATURES
100% Composite

- GRIP:** Performance Rubber
- SHAFT:** 16mm Composite
- BASKET:** 60mm All Mountain
- SIZES (CM):** 110, 115, 120, 125, 130, 135
- COLORS:** Yellow, Slate

POWER ALUMINUM

Save some coin without sacrificing proper pole plants. You might have just used "whatever is lying around" in the past, but that ain't cutting it now. Get your hands on a pair of durable Power Aluminum poles, featuring a robust 18mm-diameter shaft, and push off into your next on-mountain adventure.

FEATURES
Nesting Baskets

- GRIP:** Performance Rubber
- SHAFT:** 18mm Aluminum
- BASKET:** 60mm Performance
- SIZES (CM):** 110, 115, 120, 125, 130, 135
- COLORS:** White, Green, Blue

STYLE CARBON

Harnessing the comfort and customization of our Ripcord grip, the Style Carbon offers a featherweight feel and full-carbon shaft for female skiers who demand the best from their gear. Understated styling, lightweight performance, and the durability to last for seasons of use. Available in shorter lengths for smaller skiers.

FEATURES

Carbon Web

- GRIP:** Ripcord
- SHAFT:** 14mm Carbon Web
- BASKET:** 60mm All Mountain
- SIZES (CM):** 105, 110, 115, 120
- COLORS:** Chrome

STYLE COMPOSITE

The Style Composite is K2's sensible, lightweight pole offering for the ladies. Equipped with an ergonomic Performance Rubber grip and a 16mm shaft diameter that reduces weight without sacrificing durability, these poles will have you focusing on your skiing, not your gear. Available in shorter lengths for smaller skiers.

FEATURES

100% Composite

- GRIP:** Performance Rubber
- SHAFT:** 16mm Composite
- BASKET:** 60mm All Mountain
- SIZES (CM):** 105, 110, 115, 120
- COLORS:** White, Burgundy

STYLE ALUMINUM

For the female skier who doesn't want to worry about the durability of her ski poles, we offer the Style Aluminum. Built with a strong but lightweight 16mm aluminum shaft, these poles strike the perfect balance of reliable performance and incredible value. Available in shorter lengths for smaller skiers.

FEATURES

Nesting Baskets

- GRIP:** Performance Rubber
- SHAFT:** 16mm Aluminum
- BASKET:** 60mm Performance
- SIZES (CM):** 105, 110, 115, 120
- COLORS:** Black, Blue

LOCKJAW CARBON PLUS

You've been checking the forecast, and everything is lining up. Stable, cold snow lies just a few hours' skin from the trailhead. Scoop up the Lockjaw Carbon Plus and take a hike (in a good way). With an extended Adventure Ultra Light EVA foam grip, articulating powder baskets, proven Lockjaw 6000 locking mechanism, and built-in bubble inclinometer, these poles are as adventure-ready as you are.

FEATURES

Lockjaw 6000 Adjustment Mechanism, Bubble Inclinometer

- GRIP:** Adventure Ultra Light EVA
- SHAFT:** Adjustable Carbon Web
- BASKET:** 95mm Articulating
- SIZES (CM):** Adjustable: 105-145
- COLORS:** Yellow

LOCKJAW CARBON

With a carbon upper and aluminum lower, the Lockjaw Carbon is ready for big days in the backcountry. Featuring our bombproof Lockjaw 6000 adjustment mechanism, elongated EVA foam grips for easy sidehilling, and an integrated bubble inclinometer to help keep you safe, the Lockjaw Carbon proves that poles are more than just pointy sticks to keep you upright.

FEATURES

Lockjaw 6000 Adjustment Mechanism, Bubble Inclinometer

- GRIP:** Adventure Ultra Light EVA
- SHAFT:** Adjustable Carbon Upper/7075 Aluminum Lower
- BASKET:** 95mm Powder
- SIZES (CM):** Adjustable: 90-130, 105-145
- COLORS:** White

LOCKJAW ALUMINUM

Sometimes you just need a reliable adjustable pole to get you into the backcountry. Look no further than the Lockjaw Aluminum: reliable, wallet-friendly, and available with an optional extended EVA foam grip. Complete your kit and hit the skin track.

FEATURES

Lockjaw Adjustment Mechanism, Bubble Inclinometer

- GRIP:** Adventure Ultra Light EVA
- SHAFT:** Adjustable 7075 Aluminum
- BASKET:** 95mm Powder
- SIZES (CM):** Adjustable: 105-145
- COLORS:** Gunmetal

SWIFT STICK

Why run a pair of trekking poles in the summer and then have to buy a pair of ski poles for the skin track? If your life revolves around the trails – during summer and winter – get the four-piece, collapsible, adjustable Swift Stick. With our Flipjaw telescoping design, Adventure EVA foam grip, and sturdy aluminum construction, the Swift Stick will be your number one companion, regardless of the season.

FEATURES
Flipjaw Adjustment Mechanism, Bubble Inclinometer

- GRIP:** Adventure Ultra Light EVA
- SHAFT:** Adjustable 7075 Aluminum
- BASKET:** 95mm Powder
- SIZES (CM):** Adjustable: 110-130
- COLORS:** Grey

SPROUT

Nothing is worse than buying a bunch of gear for your kid, only to have them outgrow it within a year. Pick up the adjustable Sprout and rest easy, knowing that your pint-sized shredder's poles will last for more than a season.

FEATURES
Flipjaw Adjustment Mechanism, Nesting Baskets

- GRIP:** Rubber
- SHAFT:** Adjustable 14mm Aluminum Upper/16mm Aluminum Lower
- BASKET:** 50mm Performance
- SIZES (CM):** Adjustable: 75-105
- COLORS:** Seafoam, Off White

DECOY/CHARM

With two colorways – his and hers – the Decoy and Charm poles add a dash of style to any kid's setup. Plus, these poles are built out of sturdy aluminum, meaning they can withstand the rowdiest of on-snow antics.

FEATURES
Nesting Baskets

- GRIP:** Rubber
- SHAFT:** 16mm Aluminum
- BASKET:** 60mm Performance
- SIZES (CM):** 75, 80, 85, 90, 95, 100, 105
- COLORS:** Blue, Purple

Black, Grey, Red/White/Blue

COMPRESSION TOURING SOCK

The last thing you need on a long mission in the backcountry is wet, cold and blistered feet. 100% ready for the skin track.

KEY FEATURES
Touring Fit – Premium Materials – Zonal Compression – 51% Merino Wool – 42% Polyamide – 7% Elastane

COLORS
Brown, Navy

BIG STEP IN COMFORT SOCK

Looking for that ultra plush sock that'll keep your feet fitting snug in your boots? Look no further than the Big Step In Comfort sock, with padding in alllllllllllll the right places.

KEY FEATURES
Comfort Fit – 57% Acrylic – 39% Polyamide – 4% Elastane

COLORS
Military Green, Red, Black

CORTEX SOCK

Have a ripper in your life? Give them the gift of high-performance ski socks. Built with dual compression zones to reduce foot swell, and instep compression these socks will keep them carving from dawn to dusk.

KEY FEATURES
Performance – Dual Compression Zones

COLORS
Black/Military Green, Anthracite/Blue

KNIT BEANIE

The do-anything, for-anyone hat. Say goodbye to the days of cold ears – a timeless essential for every cold-weather wardrobe.

KEY FEATURES
100% Acrylic Cuff Beanie

COLORS
Black, Military Green, Cream, Brown, Hunter Orange

OLD SCHOOL BEANIE

An essential. This cold weather beanie has some serious retro vibes and a fluffy pompom on top. Heritage meets style.

KEY FEATURES
100% Acrylic POM Beanie

COLORS
Black/White, Cream/Green, Red/White/Blue

NEW SCHOOL BEANIE

All-new for 25 the new school beanie is for the cool kid in your life. Designed to keep your head warm, but keep you looking cool.

KEY FEATURES
100% Acrylic Cuff Beanie – Heavy Weight – OSFM

COLORS
Black Merle, Grey Merle

CORD RIP BEANIE

Designed with vertical cord to keep you looking up, and riding straight. Because how could you ride on if your head's not warm.

KEY FEATURES
100% Acrylic Cuff Beanie – Heavy Weight – OSFM

COLORS
Military Green, Red/Blue

GRAPHIC BEANIE

Hoping to sport even more of the deuce logo? This is the hat for you, in a tonal moss color, rock the graphic beanie this season.

KEY FEATURES
100% Acrylic Cuff Beanie – Light Weight – OSFM

COLORS
Moss

LARGE JACQUARD BEANIE

Scully's are all the rage with the youth, but real ones know this is just a rework of a classic 80's style. Get your hands on the jacquard beanie today.

KEY FEATURES
Short Skully – No Fold – 100% Acrylic

COLORS
Black

STRAIGHT LINE BEANIE

UNSTRUCTURED TWILL 5 PANEL

No structure. No problem. A 5-panel hat for any moment.

KEY FEATURES
Unstructured Melton Wool Construction – Self Fabric Applique – Snapback Closure

COLORS
Black/Khaki, Bone/Military Green

NECK GAITER

Shield your face from the wind and keep warm on the slopes.

KEY FEATURES
100% Acrylic – One Size Fits All

COLORS
Black, Military Green

CHAIN LOGO HOODIE

Work from home has never been so cozy. A classic K2 stamp allows you to represent your favorite brand day-in-day-out.

KEY FEATURES
70% Cotton – 30% Polyester

COLORS
Black, Heather Grey, Military Green

CORDUROY SNAPBACK

Retro-inspired Corduroy Snapback Hat with the classic K2 embroidered front logo, and snapback closure.

KEY FEATURES
Mesh Flipdown 5.5 Panel Construction – Embroidered Front Logo – Snapback Closure

COLORS
Black, Brown, Navy

STONEWASH SNAPBACK

Lock in your style with the Stone Wash Snapback Hat.

KEY FEATURES
100% Acrylic – One Size Fits All

COLORS
Black, Mustard, Military Green

PERFORMANCE BALACLAVA

Shield your face from the wind and keep warm on the slopes.

KEY FEATURES
100% Acrylic – One Size Fits All

COLORS
Black, Military Green, Multi

WOMEN’S CHAIN LOGO HOODIE

With classic K2 chain logo hits on the sleeve and an on-trend color palette, the K2 Chain Logo Hoodie is a year-round everyday staple.

KEY FEATURES
70% Cotton – 30% Polyester

COLORS
Black, Heather Grey

LOUD & PROUD HOODIE

Our work-from-home essential. Featuring a classic K2 stamp, it's the perfect way to rep your favorite brand all day, every day.

KEY FEATURES
70% Cotton – 30% Polyester

COLORS
Black, Heather Grey, Navy

EMBROIDERED FULL ZIP HOODIE

Casual, comfortable and great for everyday wear. Made in a soft cotton blend, it can be worn as a light outer layer or under a jacket.

- KEY FEATURES**
70% Cotton – 30% Polyester
- COLORS**
Black, Heather Grey

EMBROIDERED CREWNECK SWEATSHIRT

A K2 classic: a small front chest K2 logo that reflects our legacy as the original American ski and snowboard brand.

- KEY FEATURES**
70% Cotton – 30% Polyester
- COLORS**
Black, Heather Grey

LOUD & PROUD TSHIRT

Keep it casual, keep it classic. A large-scale K2 screenprint allows you to represent your favorite brand day-in-day-out.

- KEY FEATURES**
100% Cotton
- COLORS**
Black, Navy, Military Green, White

EMBROIDERED LONG SLEEVE TSHIRT

A subtle front chest hit that embodies K2's heritage as the original American ski and snowboard brand, dating back to 1962.

- KEY FEATURES**
100% Cotton
- COLORS**
Black, Military Green, White

EMBROIDERED TSHIRT

A subtle front chest hit that embodies K2's heritage as the original American ski and snowboard brand, dating back to 1962.

- KEY FEATURES**
100% Cotton
- COLORS**
Black, Heather Grey, White, Military Green

HERITAGE TSHIRT

This front hit is clean and embodies K2's heritage as the original American ski and snowboard brand, dating back to 1962.

- KEY FEATURES**
100% Cotton
- COLORS**
Black, Heather Grey, White

WOMEN'S HERITAGE TSHIRT

This front hit is clean and embodies K2's heritage as the original American ski and snowboard brand, dating back to 1962.

- KEY FEATURES**
100% Cotton

SKI TECHNOLOGY: CONSTRUCTION

CONSTRUCTION		Triaxially Braided K2-patented process that interlocks strands of fiberglass around a milled core for pronounced torsional strength while retaining the flex patterns inherent in a wood ski.
		Metal Laminate A metal laminate construction, denoted by “Ti” in the name, uses a sheet of Titanal above and below the core to give the ski a damp, precise and accurate feel.
		Hybritech Sidewall Blending a sidewall construction underfoot with a cap construction in the extremities. The sidewall section gives the ski accuracy, power, and edge grip while the capped region reduces the swing weight and increases overall durability.
		DuraCap Construction A molding process that envelopes the core and internal materials with the top layer of the ski. Duracap skis are generally lighter overall, with enhanced durability and forgiveness.
		TwinTech Sidewalls A Durable, Full sidewall construction providing great edge feel and performance with added top sheet resistant to ski vs. ski impact damage.
WOMEN'S SPECIFIC		Stance Forward More than simply moving the mounting point on a men's ski, the overall shape, sidecut, and flex are designed around the biomechanics of how women stand and pressure the ski during a turn.
		Correct Flex Eliminates the overly stiff mid-section typically found on shorter lengthed skis. K2 addresses this with an insert that leaves a smooth, consistent flex profile optimized on every size from longest to shortest.
FREERIDE		Torsion Control Design Designed to enhance stability and control in all snow types, TCD combines a progressive torsional flex with a balanced and even longitudinal profile. Torsionally stiffest in the forebody and center of the ski, then easing throughout the tail, K2 skis with TCD have both precise, accurate turn initiation and smooth, consistent turn release in all snow types.
		Ti Y-Beam Y-Beam Technology is a unique shape of titanal that places metal furthest away from the neutral axis in the tip to provide precision and pull at the top of the turn. Underfoot, the metal extends edge to edge for power. In the tail, it tapers in to allow the ski to break free on the back end. 
		Spectral Braid An extension of K2's Torsion Control Design, Spectral Braid is a first of its kind variable angle reinforcement that allows for precision tuned torsion and flex by altering the fiber orientation along the length of the ski. Lively, energetic, and remarkably composed; Mindbender skis with K2's Spectral Braid have stability and control in spades while remaining hyper-maneuverable. 
		Uni Directional Flax Flax improves a skis ability to track in variable terrain resulting in improved suspension and composure.

CARVING		Dark Matter Damping A space age sandwich of high modulus carbon and a polymeric damper, strategically placed along the skis edge. Edge contact on rough and firm snow is dramatically enhanced improving grip and control. 
		Titanal I-Beam Titanal runs from tip to tail along the center of the ski, optimally shaped for stability and precision through the entire turn.  Carbon I-Beam Full length uni-directional carbon running from tip to tail, providing increased accuracy and energy along the entire length of the ski. 
		Spectral Braid An extension of K2's Torsion Control Design, Spectral Braid is a first of its kind variable angle reinforcement that allows for precision tuned torsion and flex by altering the fiber orientation along the length of the ski. Lively, energetic, and remarkably composed.
FREESTYLE		Carbon Boost Braid Longitudinal carbon stringers woven into the K2's patented Triaxial Braid for added pop and rebound. 
		Uni Directional Flax Flax improves a skis ability to track in variable terrain resulting in improved suspension and composure.
		Triaxially Braided K2-patented process that interlocks strands of fiberglass around a milled core for pronounced torsional strength while retaining the flex patterns inherent in a wood ski. 
TOURING		TwinTech Sidewalls A Durable, Full sidewall construction providing great edge feel and performance with added top sheet resistant to ski vs. ski impact damage.
		Titanal Touring Tech First of its kind, Titanal laminate developed specifically for K2 Touring skis that dramatically increases damping and predictability on lightweight carbon constructions, while enhancing stability and edge grip.
		Carbon Overdrive A proprietary construction that delivers incredibly high performance at extremely low weights.
		Snowphobic Topsheet Hydrophobic, snow shedding top material that helps prevent snow from sticking to the tops of your skis.

SKI TECHNOLOGY: ROCKER PROFILES

Once thought of as a powder-specific feature, K2 pioneered the use of rocker on all-mountain and piste skis, with the rest of the ski industry following in our footsteps. Today, almost all of our skis are built with rocker, with the height and length optimized on each model for maximum performance and enjoyment.

SPEED ROCKER
Short, low rise in the tip with camber throughout and a flat tail for quick turn initiation, precise steering, and maximum stability on groomed snow.

POWDER ROCKER
High and long rise in the tip, low camber underfoot, and a medium-height, long rise in the tail to maximize float in soft snow.

POWDER TWIN ROCKER
High and long rise in both the tip and tail for maximum float in soft snow.

ALL-TERRAIN ROCKER
Gradual rise in the tip for great versatility in all conditions, with a low, short rise in the tail for added control in variable snow.

ALL-TERRAIN TWIN ROCKER
Gradual, extended rise in the tip and tail for added versatility and control in all conditions.

CATCH FREE ROCKER
Effortless turn initiation at slow to moderate speeds thanks to a medium-height, gradual rise in the tip and a low, gradual rise in the tail.

SKI TECHNOLOGY: SKI CORES

K2 uses a variety of wood species in cores to fine tune the energy, rebound and power each core gives a ski.

ASPEN
Lightweight and resilient, great all-around material.

ASPEN MICRO BLOCK
Many small stringers of Aspen give a consistent flex, smooth feel, and damp ride.

MAPLE
Energetic, tough, dense wood that absorbs impact.

PAULOWNIA
Lively, low density wood with excellent strength to weight ratio.

FIR
Stiff, strong and dense wood for solid edge to edge performance.

BALSA
Ultra-light and responsive, balsa cores are a key component to our class leading performance to weight ratio.

TWO PIECE BOOT TECHNOLOGY

SHELLS

POWERLITE SHELL

K2's highest-performance shell design, utilizing shell walls of varying thicknesses and four different types of TPU to provide the ultimate combination of light weight and responsiveness.

POWERLITE TOUR SHELL

K2's highest-performance touring shell design, utilizing shell walls of varying thicknesses to provide the ultimate combination of light weight and responsiveness. Completely heat moldable. Eco-Friendly Pebax Upper Cuff and Shell. Consistent flex across a wide range of temperatures. Bootfitter Friendly.

LINERS

BOA® TOURFIT LINER

BOA liner increases adjustability and even hold across the entire foot. Features stiffer foam with asymmetric tongue for added power and energy transmission. Completely heat moldable with pre-molded ankle pocket.

TOURFIT LT

Lightweight construction that offers same performance features in the pro model. Stiffer foam with asymmetric tongue for added power and energy transmission. Completely heat moldable with pre molded ankle pocket

TOURFIT

Lightweight, hard charging construction inspired by the Lux Fit Tour liners. Pre molded ankle bumps for added fit and fully heat moldable with asymmetric tongue.

POWERFIT PRO

Pre-molded and lasted with Ultralon heat-moldable foam. Featuring stiffer foam and a stiff, asymmetric tongue for added power and energy transmission, pre-molded ankle pockets, and a high-density power collar.

PRECISIONFIT PRO

Pre-molded and lasted with Ultralon heat-moldable foam. Featuring an asymmetric tongue, pre-molded ankle pockets, and a high-density power collar for a firm-but-comfortable performance fit.

POWERFIT PRO TOUR

Pre-molded and lasted with Ultralon heat-moldable foam. Featuring stiffer foam and a stiff, asymmetric tongue for added power and energy transmission, pre-molded ankle pockets, and a high-density power collar. Includes a tour notch at the back of the ankle for increased comfort and range of motion while hiking and skinning.

PRECISIONFIT PRO TOUR

Pre-molded and lasted with Ultralon heat-moldable foam. Features an asymmetric tongue, high-density power collar, and a tour notch at the back of the ankle for increased comfort and range of motion while hiking and skinning.

LUXFIT PRO

Pre-molded and lasted with Ultralon heat-moldable foam. Features medium-density foam, pre-molded ankle pockets, and a medium-density collar, providing an ideal blend of performance and comfort.

LUXFIT PRO TOUR

Pre-molded and lasted with Ultralon heat-moldable foam. Features medium-density foam, pre-molded ankle pockets, and a medium-density collar, providing an ideal blend of performance and comfort. Includes a tour notch at the back of the ankle for increased comfort and range of motion while hiking and skinning.

CUSHFIT PRO

Maintains the renowned comfort of the original Cushfit liner, but with a notable increase in support and performance thanks to the use of Ultralon foam, similar to what is used in our Powerfit Pro and Precisionfit Pro liners.

CUSHFIT PLUS

Lasted with a blend of open-cell and EVA foam for an extremely comfortable, warm, and supportive fit.

CUSHFIT COMFORT

Same great fit and out-of-the-box feel as our classic Cushfit liner, but with additional foam in key areas for increased comfort and compliance.

CUSHFIT JR

A scaled-down version of our adult Cushfit liner built for our youth boots.

FEATURES

PEBAX

Lightweight, eco-friendly material used in the cuff of select boot models for energetic and consistent flex across a wide range of temperatures.

FASTFIT INSTEP

Softer TPU material is used in the instep area of select models' shells for quick and easy entry and exit.

HANDS FREE ENTRY

Dual material overlap for hassle-free entry and exit.

ENERGY INTERLOCK

A rivet-free technology that integrates the cuff and shell, putting less stress on the boot's lower shell and producing a smooth, progressive flex.

POWERFUSE SPYNE

A co-injected Y-shaped support in the rear of the boot that adds strength and power to the Energy Interlock in order to maximize fore/aft flex efficiency and lateral stiffness, providing enhanced responsiveness and energy transfer to the ski.

CUFF ALIGNMENT INDEX

Single-sided alignment system for +/- 1 degree of lateral cuff adjustment

DUAL CUFF ALIGNMENT INDEX

Dual-sided alignment system for +/- 2 degrees of lateral cuff adjustment.

FULLY HEAT-MOLDABLE

Both the boot's shell and cuff are capable of being heat-molded to a variety of foot shapes for a true custom fit.

WOMEN'S-SPECIFIC LAST

A lower cuff height, lower-volume shell, and narrower heel to accommodate women's lower leg and foot shapes.

WOMEN'S ADJUSTABLE CUFF

Allows for quick adjustment of the cuff opening to accommodate a variety of lower leg shapes.

APRÈS MODE 2.0

A new and improved walk mode offering a massive 50-degree range of motion. A lever on the back of the boot unlocks the upper cuff from the lower shell, allowing for increased comfort and convenience when walking from the car to the lift.

INTEGRATED TECH FITTINGS

Tech fittings in the toe and heel are fully integrated into the shell injection, allowing for compatibility with both tech bindings and alpine DIN bindings.

FRICTION FREE CUFF PIVOT

An easy-hinging cuff pivot designed to provide minimal resistance while in walk mode.

GRIPWALK OUTSOLES

Removable and interchangeable rockered soles designed to work with Marker's GripWalk binding system for better grip and comfort while walking, standing, and hiking.

REPLACEABLE OUTSOLES

Dual-injected TPU for secure footing, direct power transfer to the ski, and increased wear resistance.

CANTABLE OUTSOLES

Shims can easily be placed underneath the outsoles to cant the boots for a customized fit.

NAVICULAR PUNCH

A strategic bump built into the boot mold to alleviate pressure commonly experienced during ankle flexion.

ASYMMETRICAL TOE BOX

Fits the natural curvature of your toes for added comfort and to ensure a proper fit.

POWER WEDGE

A removable spoiler that fits between the liner and the back of the boot cuff that allows for adjustment of the boot's forward lean angle, ranging from 12 to 14 degrees.

THERM-IC BLUETOOTH HEATED LINER

Control your Therm-ic heated boot liners using the free Therm-ic Heat Control app on your smartphone. Available for iPhone and Android devices.

SWITCHBACK BUCKLE

Buckles lock in the forward position when touring to increase ROM. Toe buckle flipped on toebox for increased clearance in variable terrain. Magnesium buckles and wire bails for additional weight savings.

DYNAFIT TECH FITTING

Dynafit tech fittings in the toe and heel are fully integrated into the shell injection.

VIBRAM OUTSOLE

Designed with adventure in mind. Superior grip and durability. K2 exclusive tread pattern. 9523 iso DIN.

HONEYCOMB BOOTBOARD

Stay Warmer, Longer. Traps heat and insulates like a down jacket. Retains heat 15% better than traditional bootboard. Boot-fitter friendly

POWERLOCK 2.0 WALK MECHANISM

Improved walk mechanism with locking lever, 9-15 degrees of forward lean adjustability and 60 degrees ROM.

MULTIFIT LAST

The MultiFit Last was developed in conjunction with the BOA Fit System to accommodate a variety of foot shapes ranging from 97mm to 104mm eliminating the need for multiple last options.

BOA FIT SYSTEM

The BOA Fit System provides a performance fit engineered to enhance feel and responsiveness while reducing pressure points by incrementally modulating the Alpine boot closure with precise micro-adjustments.

LINER TOE SHIM

Designed to create the perfect fit for a variety of foot shapes. These 4mm toe shims can be added to the liner on all BOA boots to decrease the volume between the toe-box and instep.

HARSH MELLOW MODULAR INSERTS

The honeycomb boot board includes two modular heel inserts. A soft Harsh Mellow insert for a high level of damping or a more rigid insert for improved power transfer.

THREE PIECE BOOT TECHNOLOGY

SHELLS

REVOLVE

Revolver Shell, offers the same fit and feel as the Raichle boots of years past, updated to withstand the rigors of today. Precise, snug, and proven, this 99mm last shell has become the definitive freestyle boot of the modern era.

REVOLVE PLUS

The Revolver Plus Shell takes the same 99mm last and opens up the toe box for a roomier feel out of the box. The Pillar Shell uses the original 3-piece design and adds replaceable soles for extended longevity and increased traction.

LINERS

INTUITION PRO TOUR WRAP

Slip-on the Intuition Pro Tour Wrap and get ready to motor on up the skin track. Crafted out of Intuition® Foam, and featuring a tour notch and lace-up system, the Intuition Pro Tour Wrap offers the added comfort and performance your boot is missing.

INTUITION PRO WRAP

Slip into the Intuition Pro Wrap, and experience unmatched ankle retention and pressure-free performance. Crafted out of Intuition® Foam, the Intuition Pro Wrap offers the added comfort and performance your boot is missing.

INTUITION WRAP

The Intuition Wrap Liner's laminates are specifically engineered to be our lightest weight liner for increased maneuverability while maintaining it's warmth and custom moldable fit right out of the box.

METHOD

The Method Shell adds much needed depth to the FL3X line. Designed for those with a wider foot, the Method shell incorporates a higher volume fit and a 102mm last.

DIVERGE TOUR

The Diverge Tour Shell offers a smooth stride and articulated purchase in any situation. Walk farther and more comfortably than ever before. Featuring a higher back cuff and lightweight Grilamid™ plastic, this construction will take you anywhere.

INTUITION PRO TOUR TONGUE

With a Tour Flex Notch, removable external J-Bars, and lacing system, the Intuition Pro Tour Tongue makes walking a blister-free experience in an enveloping snug fit, while giving you the performance you need to send it on the downhill.

INTUITION PRO TONGUE

Crafted out of Intuition® Foam, the Intuition Pro Tongue Liner's laminate is specifically engineered to provide energy transfer to the shell while maintaining warmth in a custom, moldable fit. Slip-on the Intuition Pro Tongue liner and feel the power of the highest performing liner that we've ever created.

INTUITION TONGUE

The Intuition Tongue Liner's laminates use multi-layered construction in a traditional tongue liner, designed to provide targeted comfort and performance in a familiar way.

FEATURES

RIBBED TONGUE

100% Ribbed tongue enables smoother, more natural linear flex from your shin to your toe. The tongue bends like a flexible straw, never bottoming out while providing smooth rebound. No more shin bang!

EASY ON/OF

The front of the shell opens a full 90° to slide your foot in and out with ease in all temperatures. Like putting on slippers!

MOLDABLE

Utilizing the QuickFit™ System, all FL3X boots – shells included – can be molded to the exact needs of your foot. Not all feet are the same; and with FL3X, we pride ourselves on creating boots that allow a personalized, 1-to-1 fit experience.

ADJUSTABLE FLEX

The boot's flex is rated on a simple scale of 4-12 (12=stiffest). Change a boot's flex by simply switching the tongue. (Competitor's boots require permanent cutting.)

INFINITE PIVOT

Unlike traditional designs, the rear cuff never bottoms out. It pivots infinitely forward with your calf for less shell distortion, no shin pain and more control.

CUSTOMIZABLE

All parts are sold separately for unlimited personalization and repair using a standard phillips head screwdriver.

LADDER BUCKLE

The ladder buckle features an intuitive, easy to remember, macro-size adjustment, plus a micro-twist for fine adjustment with a light, easy-to-handle aluminum lever.

FORWARD LEAN & CUFF ALIGNMENT

Tool-less forward angle adjustment. Original & Soul shells: 2mm or 4mm. Easy, precise lateral angle adjustment. Revolver & Revolver Plus shells: 12mm.

WOMEN'S CUFF

The women's cuff is anatomically shaped to match a female's specific calf shape for increased comfort and control.

SHOCK ABSORBER BOOT BOARD

Soft rubber layer in the sole of the shell absorbs vibrations, impact and shock for a smooth ride.

WIDETRACK BUCKLE

Durable aluminum levers with a minimalistic lightweight design. This adjustment mechanism is engineered to increase precision and durability while maintaining on-the-fly, single-handed micro adjustment.

45 DEGREE HEEL LOCK

Keep heels where they belong. Placing the middle buckle at an optimal 45 degree angle creates a solid lock for the heel to stay put when pressuring the tips and tails of the skis.

GRIPWALK OUTSOLE

Designed for a better purchase on unstable & slippery terrain. The convex shape and ribbed tread add both comfort & grip for getting from house to hill to peak! Sold separately. Available for Revolver Plus and Method models.

J-BAR

An additional j-shaped piece of foam is inserted internally on both sides of the ankle area to dramatically increase ankle hold down, to keep your feet perfectly in place for precise control.

POWER WEDGE

Dial in you forward lean angle with this removable velcro spoiler.

WIDE TOE

A thinner foam is used in the front of the liner to increase space without sacrificing control for people with wider feet or who prefer a little more toe room.

INTUITION

All boot liners are built using authentic Intuition™ closed cell foam. It is body heat activated to mold 100% to your feet and shells during use, or can be instantly heat molded by a shop in minutes for a light, warm and super comfortable fit.

WOMEN'S LINER

The women's cuff is anatomically shaped to match a women's-specific calf shape for increased comfort and control.

TECH FITTINGS

Compatible with all pin-tech bindings, the in-molded tech fittings open up a new world of possibilities for FL3X Boots. One boot – any objective.

MID GRIP

Whether you are climbing grated stairs or scrambling on top of a mountain, a dual material or single material midgrip gives you the confidence to stay on your feet.

WALK MODE

Flip the lever up to ascend with ease. And when it's time to send it, flip the lever down, lock the cuff in place, and push into the fluid, progressive flex you've come to expect from FL3X. Works great for après bar sessions too.

DUAL MATERIAL OUTSOLES

No slipping getting in-between you and the ground. A firm TPU and a softer material combat wear and keep your feet underneath you on any surface.

POWER WRAP

An additional layer of ergonomically shaped EVA is wrapped around the outside of the upper liner to increase energy transfer and horsepower to the shell.

POLE TECHNOLOGY

POLE CONSTRUCTION	 <div>CARBON WEB</div>	Carbon Web External carbon strands are precisely laminated onto the carbon shaft creating K2's lightest weight, most durable, and stiffest shaft offered.
	 <div>100% COMPOSITE</div>	100% Composite Full composite construction for a great combination of weight, durability, and cost.
	 <div>ALUMINUM 7075/6061</div>	Aluminum 7075 or 6061 High strength aircraft grade aluminum for a seamless, durable tubing shaft.
GRIP TECH	 <div>RIP CORD GRIP</div>	Rip Cord Grip System Safety releasable strap mechanism integrated into grip top. Unique lightweight cored out grip design removes material where possible. Utilizing a slim, neoprene padded right/left strap for comfort and ease of entry. Push button hinging grip top allows for easy strap adjustment and removes the need for buckles and Velcro, creating the most comfortable and streamlined strap ever.
	 <div>UTILITY HOOK</div>	Utility Hook Stubborn boot buckles, heel risers and walk mode levers are no match for the utility hook grip. Flip your pole over and use the notch on the front of the grip to flip, clip, pull and buckle up your gear on the fly.
ADJUSTMENT TECH	 <div>LOCKJAW 6000</div>	LockJaw 6000 Completely redesigned with a T6 6000 series aluminum lever and body linked together with Teflon bushings to optimize clamp force with minimum lever pressure. The minimalist design achieves a reduced weight of 25% from its plastic equivalent and is the most durable, non-slip adjustment mechanism in K2 poles.
	 <div>LOCKJAW</div>	LockJaw Adjustment Mechanism Refined over several generations, the tried and true lockjaw system continues to define the standard for length adjustment mechanisms. Simple, lightweight and durable, the Lockjaw is the workhorse of the K2 pole line.
	 <div>FLIPJAW ADJUSTMENT</div>	FlipJaw Adjustment Mechanism Length adjustment mechanism connecting a smaller diameter upper shaft with larger diameter, more durable lower shaft.
GENERAL TECH	 <div>BUBBLE INCLINOMETER</div>	Bubble Inclinometer Quick and accurate slope angle measurement in the palm of your hand.
	 <div>ALL SEASON KIT</div>	All Season Kit Change up the tips and baskets, without any tools, to make them compatible for backcountry exploration in the summer or winter.
	 <div>NESTING BASKETS</div>	Nesting Baskets Notches in the basket to couple the pair of poles for easy carry or storage.
		Backup Probe Want to check the snowpack without having to take off your pack and dig for a probe? No problem, just screw the two lower pole segments together and you have a 200cm backup probe at the ready. With gear this versatile, you're always prepared for the unexpected.
		Powder Basket The newly redesigned powder basket has a 95mm diameter for float in deep snow and a smooth flex to conform to harder terrain during long skin tracks and traverses.
		Articulating Powder Basket - The 80mm ball and socket articulating basket features 50 degrees of unhindered movement, allowing the basket to effortlessly match the snow's surface during traverses or when conditions turn hard.

HELMET TECHNOLOGY

HELMET CONSTRUCTION	 <div>MIPS</div>	MIPS The MIPS BPS System is designed to add protection against the rotational motion transmitted to the brain from angled impacts to the head. The rotational motion is a combination of rotational energy and rotational forces from angular acceleration that both affect the brain and increases the risk for minor and severe brain injuries. MIPS' added protection system has been proven to reduce the rotational motion when implemented in a helmet by absorbing and redirecting energies and forces otherwise transmitted to the brain.
	 <div>HYBRID</div>	Hybrid This unique construction features the best of both In-Mold and Hard-Shell constructions. The primary In-Mold construction makes the helmet incredibly light, while the secondary Hard-Shell upper allows for more advanced Active Matrix Venting and increased durability.
	 <div>IN-MOLD</div>	In-Mold In-Mold is the premium construction for ultra-lightweight performance and is characterized by an EPS liner that is molded directly to a lightweight poly-carbonate (PC) shell. The result is a construction so light you'll forget it's even there.
	 <div>HARD SHELL</div>	Hard Shell Hard-Shell helmets are built to last and will look good no matter how many trips they make in and out of your gear bag. Hard-Shell helmets protect you from impact thanks to lightweight EPS foam bonded to an injection molded and durable ABS shell.
	 <div>DUAL ACTIVE</div>	Dual Active Perfect combination of user/switch regulated Active Matrix Venting and integrated Passive Channel Venting.
	 <div>PASSIVE VENTING</div>	Passive Channel Venting Channels on the inside surface of the EPS direct air-flow between your head and the helmet, removing moisture and excess heat for all day comfort.
	 <div>ACTIVE MATRIX</div>	Active Matrix Climate control at the flip of a switch, Active Matrix Venting allows you to regulate the airflow of the helmet vent system with the push of a finger.
LINER SYSTEMS	 <div>CONVERTIBLE LINER</div>	Convertible Full Wrap Liner Same coverage as a full-wrap but easily pops out, leaving the fit system and minimal padding to accommodate warm days and wearing a thin beanie under the helmet.
	 <div>FULL WRAP LINER</div>	Full Wrap Liner A comfortable, washable, full-coverage, breathable liner design that wicks away moisture to prevent overheating and seamlessly integrates fit and audio systems.
	 <div>TECH FORM LINER</div>	Tech Form Liner Compression formed, precise fit liner with removable ear pad and neck roll for a convertible customized fit.
FIT SYSTEMS	 <div>BOA®</div>	BOA® All the benefits of the 360 K2dialed Fit System with the precision and quality that you have come to expect from Boa® Technologies.
	 <div>360 K2 DIALED</div>	360 K2Dialed The 360 K2Dialed Fit System is an evolution of the K2dialed Fit System, delivering unparalleled comfort around your entire head. An intricate web design results in 360 degrees of even pressure distribution for a secure and snug fit that you customize with the twist of a dial.
	 <div>K2 DIALED</div>	K2Dialed The K2Dialed Fit System creates a custom-fitting helmet no matter what your head shape. An ergonomically inspired three-point adjustable interface maximizes fit and customization with the twist of a dial. This allows for the ultimate convenience of being able to make fit adjustments on the fly.
AUDIO TECH	 <div>BLUETOOTH COMPATIBLE</div>	Aftermarket Bluetooth Speaker Compatible All K2 Helmets are now compatible with Outdoor Tech® Bluetooth audio systems, as well as other after-market audio options.
	 <div>BASELINE AUDIO</div>	Baseline Audio Systems Pre-installed audio kit with a low-profile speaker that easily connects to your mobile device without hindering the fit or comfort. The on-cord controller is designed for on-the-go usability at your fingertips for talk or tunes.
GENERAL TECH	 <div>BIKE CERTIFIED</div>	Bike Certified Certified by North American bicycle helmet safety standard and European bicycle and skateboard helmet safety standard.
	 <div>MAGNA SNAP</div>	Magna Snap Magnetic retention clip that easily flips up and over the goggle strap for a secure hold that you don't have to fumble for.
	 <div>REMOVABLE EAR PADS</div>	Removable Ear Pads Ability to easily remove ear pads for reduced bulk while retaining the fit system.
	 <div>REMOVABLE GOGGLE/HEADLAMP CLIPS</div>	Removable Goggle and Headlamp Clips Customized fit for tool-free, on-the-go versatility.
	 <div>POWFLY</div>	PowFly Waterproof breathable cover for Route adds protection against the elements of winter weather.

SKI SPECS

MODEL	SIZES (CM)	DIMENSIONS (MM)	ROCKER	RADIUS	CORE	BINDING	FEATURES
MINDBENDER							
MINDBENDER 116C	177,182, 187, 194	143 - 116 - 132	Powder Rocker	22.5 @ 187	Aspen Microblock	N/A	Spectral Braid, Bio Resin, Uni-Directional Flax
MINDBENDER 108Ti	172, 179, 186, 193	137 - 108 - 125	All-Terrain Rocker	20.9 @ 186	Aspen Microblock	N/A	Ti Y-Beam, Powerwall
MINDBENDER 106C	169, 176, 183, 189	137 - 106 - 127	All-Terrain Rocker	18.9 @ 183	Aspen Microblock	N/A	Spectral Braid, Bio Resin, Uni-Directional Flax
MINDBENDER 99Ti	166, 172, 178, 184, 190	134 - 99 - 120	All-Terrain Rocker	16.7 @178	Aspen Microblock	N/A	Ti Y-Beam, Powerwall
MINDBENDER 96C	166, 172, 178, 184	131 - 96 - 119	All-Terrain Rocker	15.4 @ 178	Aspen Microblock	N/A	Spectral Braid, Bio Resin, Uni-Directional Flax
MINDBENDER 90C	160, 166, 172, 178	132 - 90 - 117	All-Terrain Rocker	14.1 @ 172	Aspen Microblock	N/A	Spectral Braid, Bio Resin
MINDBENDER 89Ti	164, 170, 176, 182, 188	130 - 89 - 114	All-Terrain Rocker	15.4 @ 176	Aspen Microblock	N/A	Ti Y-Beam, Powerwall, Correct Flex
MINDBENDER 85	156, 163, 170, 177	128 - 85 - 115	All-Terrain Rocker	18.0 @ 170	Aspen Microblock	N/A	Bio Resin, Slantwall
MINDBENDER W							
MINDBENDER 116C W	163, 170, 177	143 - 116 - 132	Powder Rocker	17.7 @170	Aspen Microblock	N/A	Spectral Braid, Bio Resin, Uni-Directional Flax
MINDBENDER 106C W	155, 162, 169, 176	137 - 106 - 127	All-Terrain Rocker	15.7 @ 169	Aspen Microblock	N/A	Spectral Braid, Bio Resin, Uni-Directional Flax
MINDBENDER 99Ti W	154, 160, 166, 172, 178	134 - 99 - 120	All-Terrain Rocker	15.4 @ 166	Aspen Microblock	N/A	Ti Y-Beam, Powerwall, Correct Flex
MINDBENDER 96C W	148, 154, 160, 166, 172	131 - 96 - 119	All-Terrain Rocker	14.1 @ 166	Aspen Microblock	N/A	Spectral Braid, Bio Resin, Uni-Directional Flax
MINDBENDER 90C W	148, 154, 160, 166, 172	132 - 90 - 117	All-Terrain Rocker	13.0 @ 166	Aspen Microblock	N/A	Spectral Braid, Bio Resin
MINDBENDER 89Ti W	146, 152, 158, 164, 170, 176	130 - 89 - 114	All-Terrain Rocker	13.1 @ 164	Aspen Microblock	N/A	Ti Y-Beam, Powerwall, Correct Flex
MINDBENDER 85 W	149, 156, 163, 170	128 - 85 - 115	All-Terrain Rocker	10.7 @156	Aspen Microblock	N/A	Bio Resin, Slantwall
RECKONER							
RECKONER 124	159, 169, 179, 189	150 - 124 - 148	Powder Twin Rocker	18.0 @ 169	Aspen	N/A	Spectral Braid, Carbon Boost, Triaxial Braided Core, TwinTech Sidewalls, Bio Resin
RECKONER KF	172, 178, 184, 191	137 - 114 - 134	Powder Twin Rocker	23.0 @ 184	Aspen	N/A	Spectral Braid, Carbon Braided Core, Uni-Directional Flax, Carbon Boost , Twin Tech Sidewalls, Bio Resin
RECKONER 110	170, 177, 184, 191	138 - 110 - 135	Powder Twin Rocker	22.0 @ 184	Aspen	N/A	Spectral Braid, Carbon Boost, Triaxial Braided Core, TwinTech Sidewalls, Bio Resin
RECKONER 102	170, 177, 184, 191	134 - 102 - 127	All-Terrain Twin Rocker	17.7 @ 177	Aspen Microblock	N/A	Spectral Braid, Carbon Boost, Triaxial Braided Core, TwinTech Sidewalls, Bio Resin
RECKONER 92	149, 159, 169, 179	124 - 92 - 114	All-Terrain Twin Rocker	16.9 @ 169	Aspen Microblock	N/A	Triaxial Braid, Hybritech Sidewall, Bio Resin
RECKONER 110 W	156, 163, 170, 177	138 - 110 - 135	Powder Twin Rocker	18.0 @ 170	Aspen	N/A	Spectral Braid, Carbon Boost, Triaxial Braided Core, TwinTech Sidewalls, Bio Resin
RECKONER 102 W	149, 156, 163, 170, 177	134 - 102 - 127	All-Terrain Twin Rocker	14.3 @ 163	Aspen Veneer	N/A	Spectral Braid, Carbon Boost, Triaxial Braided Core, TwinTech Sidewalls, Bio Resin
RECKONER 92 W	149, 159, 169	124 - 92 - 114	All-Terrain Twin Rocker	14.6 @ 159	Aspen Microblock	N/A	Triaxial Braid, Hybritech Sidewall, Bio Resin
OMEN							
OMEN TEAM	163, 170, 177, 184, 188	125 - 95 - 119	All-Terrain Twin Rocker	20.0 @ 184	Aspen Microblock	N/A	Carbon Boost Briad, Triaxial Braided Core, TwinTech Sidewalls, Bio Resin
OMEN 90	149, 159, 169, 179, 185	119 - 90 - 113	All-Terrain Twin Rocker	16.0 @ 169	Aspen Microblock	N/A	K2 Carbon Braided Core, Triaxial Braided Core, TwinTech Sidewalls, Bio Resin
OMEN 85	139, 149, 159, 169	111 - 86 - 106	All-Terrain Twin Rocker	16.0 @ 159	Aspen Microblock	N/A	K2 Carbon Braided Core, Bio Resin
OMEN 90 W	149, 159, 169	119 - 90 - 113	All-Terrain Twin Rocker	14.0 @ 159	Aspen Microblock	N/A	K2 Carbon Braided Core, Triaxial Braided Core, TwinTech Sidewalls, Bio Resin
OMEN 85 W	149, 159, 169	111 - 86 - 106	All-Terrain Twin Rocker	16.0 @ 159	Aspen Microblock	N/A	K2 Carbon Braided Core, Bio Resin
