BASE BOOK

BASE LAYER

Merino sheep possess a light, ultra-breathable coat that shields them from the scorching summer sun. As winter arrives, they naturally grow an extra layer of wool, enabling them to endure very cold temperatures. Inspired by nature’s adaptability, **super.natural** offers a range of merino-mix base layers in various styles: short and long sleeves, pants, and different fabric weights – all crafted to regulate your body’s temperature, regardless of weather conditions or climate zones.

GRAMMAGES

■ SIERRA 140

The Sierra Nevada, characterized by gentle warmth and scorching heat, inspires our **SIERRA 140** collection. Crafted from **140g lightweight fabric**, these base layers are exceptionally breathable, odor-resistant, and moisture-resistant.

■ TUNDRA 175

Our **TUNDRA 175** collection is a versatile companion year-round. Whether you’re hiking, skiing, or simply enjoying the outdoors, the **175g midweight fiber** ensures pleasantly light comfort in any environment.

■ ARCTIC 230

For harsh winter conditions with icy temperatures, our **ARCTIC 230** collection offers unparalleled warmth and protection. Our **230g heavyweight fiber** delivers dependable insulation even in the most extreme cold.

■ BASE+ 255

For those who feel the chill even more – our **Base+** delivers unmatched warmth and softness on the coldest days. Crafted with our innovative **WOOL SUPER.BRUSH fabric**, it’s brushed inner layer offers extra insulation and comfort.

■ MERINO.LUX

MERINO.LUX stands for elegant comfort. Crafted from a premium **220g blend of finest merino wool (16.5µ)** and **Lycra**, it offers a flattering fit. Ideal for fitted silhouettes and elevated baselayers: soft and stretchy with a touch of elegance.

■ BIO BASE

BIO BASE is our most natural take on performance wear. Made from **100% natural fibers**, this fabric is breathable, soft, and naturally temperature-regulating. Free from synthetics, it is ideal for conscious layering.

TIMES ARE CHANGING.

AND WITH THEM, THE DEMANDS FOR FUNCTION, STYLE, AND SUSTAINABILITY EVOLVE.

At **super.natural**, we constantly think about where the journey is heading – and how we can help shape it. We may not have all the answers yet, but with our Fall/Winter 26/27 collection, we're coming closer than ever.

FUNCTION MEETS STYLE.

We've refined our product groups and enhanced our proven styles with new, functional details. The result: performance and comfort taken to the next level – **MERINO NEXT LEVEL.**

Our Workbook is designed to spark new ideas and provide fresh perspectives. Be inspired by materials that tell stories and designs that unite function with emotion.

THE DEMANDS FOR FUNCTION, STYLE, AND SUSTAINABILITY EVOLVE.

MAIN FABRICS

SIERRA **140GSM LIGHTWEIGHT JERSEY / ADVANCED WOOL 140**
50% finest merino wool, 50% performance polyester
For everyday wear in all weather conditions, the products from our 140 lightweight series are the perfect companions. Whether for strenuous activities or relaxation afterward, the innovative **super.natural** mixed fibers ensure fast drying and pleasantly cool comfort on warm days.

TUNDRA **175GSM MIDWEIGHT JERSEY / ADVANCED WOOL 175**
50% finest merino wool, 50% performance polyester
The innovative **super.natural** mixed fibers combine merino wool and polyester for a comfortable, light feeling on warmer days and warmth on cooler days. Our bottoms feature ELASTIC WOOL JERSEY 175, ensuring flexibility and comfort.

ARCTIC **230GSM HEAVYWEIGHT JERSEY / ADVANCED WOOL 230**
50% finest merino wool, 50% performance polyester
For cold weather, our ARCTIC series provides perfect insulation without sacrificing comfort. Our bottoms feature ELASTIC WOOL JERSEY 230, ensuring warmth and flexibility.

WOOL SUPER.BRUSH **250GSM COZY FLEECE**
30% finest merino wool, 67% performance polyester, 3% elastane
Brushed inside for extra coziness, this functional and comfortable fabric is perfect for sweaters, hoodies, and pants, offering ultimate comfort and warmth.

WOOL SUPER.BRUSH DWR **250GSM COZY FLEECE, DURABLE WATER REPELLENT FINISH**
30% finest merino wool, 67% performance polyester, 3% elastane
A durable water-repellent finish on our cozy WOOL SUPER.BRUSH fabric ensures that water simply rolls off the outside of your clothing. The perfect combination of comfort and functionality. Plus point: the finish is environmentally friendly (fluoride-free and without PFOA, PFOS, DSDMAC).

WOOL SUPER.STRETCH **220GSM PONTE ROMA**
32% finest merino wool, 63% polyester, 5% elastane
This stretchy and functional fabric is ideal for form-fitting pieces that require movement without losing shape, ensuring the best body climate and comfort.

MERINO.LUX **220GSM PONTE ROMA**
36% finest merino wool (16.5μ), 46% performance polyester, 18% lycra
This super-stretchy fabric is extremely high-quality thanks to its composition of fine merino wool and Lycra. Perfect for fitted styles, but comfortable and luxurious at the same time.

BIO SUPER.WOOL JERSEY175GSM JERSEY

50% finest merino wool, 50% biodegradable polyester

Functional, comfortable, and sustainable, this fabric is perfect for ecological, non-see-through tees and long sleeves.

BIO SUPER.WOOL248GSM PONTE ROMA

50% finest merino wool, 50% biodegradable polyester

Sustainable and comfortable, this fabric is perfect for sweaters, hoodies, and pants, offering cozy ecological comfort and lifestyle.

FRESH WOOL MESH120GSM EYELET

48% finest merino wool, 48% performance polyester, 3% elastane, 1% nylon

Breathable and quick-drying, this fabric is used for high-performance shirts and breathable inserts.

AIR WOOL.MESH100GSM MESH

56% finest merino wool (17.5μ), 39% polyamide, 5% lycra

High-tech and fashionable, this breathable and stretchy fabric is used for high-performance underwear, shirts, and high-tech tights.

LIGHT TECHNO BI-ELASTICSUPERLIGHT WOVEN FABRIC

78% nylon, 22% elastane

Next-level Windstopper fabric used as a windbreaker insert for tees, long sleeves, jackets, and shorts.

SUPER COTTON.WOOL165GSM JERSEY

45% finest merino wool (16.5μ), 55% organic cotton

This fabric merges the natural benefits of merino wool with the comfort of organic cotton. Shape-retaining and non-sheer.

PRIMALOFT® RISE LOOSE FILL80GSM

100% recycled polyester

This fabric provides elevated loft with fill power and thermal values comparable to high-quality natural down. It is a vegan-friendly down-alternative that provides elevated warmth and comfort equivalent to 650 fill power. It is made from 100% recycled material.

INTRODUCING OUR BIO COTTON WOOL MIX

A natural blend of organic cotton and premium wool – for unbeatable comfort and performance. This fabric combines the softness and breathability of bio cotton with the natural thermoregulating properties of wool. No microplastics. No compromises. 100% natural – made to feel good for you and the planet.

M FROSTY BIO C LS

INTRODUCING OUR

BIO COTTON WOOL MIX

A natural blend of organic cotton and premium wool – for unbeatable comfort and performance. This fabric combines the softness and breathability of bio cotton with the natural thermoregulating properties of wool. No microplastics. No compromises. 100% natural – made to feel good for you and the planet.

INTRODUCING OUR
XMAS SPECIAL

Celebrate the season in super.natural style.

With an order of 36 pieces of one print, you'll receive a premium Christmas envelope and exclusive holiday stickers – free of charge. Designed to bring a festive yet sophisticated touch to your retail space, perfectly matching the clean aesthetic of **super.natural**. Create a warm, inspiring holiday atmosphere that turns every purchase into a special gift.

ENJOY A TEE BUNDLE WITH EVERY ORDER OF 36+ PIECES:

MERINO WOOL – A MARVEL OF NATURE

Merino sheep, originating from North Africa, are one of the oldest and most resilient breeds globally, renowned for their unique attributes. Well-suited to various climates, they endure both icy cold and intense heat with ease. Their natural fur texture enables them to handle temperature fluctuations of up to 40 degrees – a quality beneficial to humans as well. Merino wool provides a cooling effect in warmer temperatures and warmth on colder days.

Sourced mulesing-free and cruelty-free, the fine merino wool is obtained from living sheep, ensuring ecological sustainability as the sheep's fur naturally regrows. At **super.natural**, we prioritize ethical sourcing, obtaining our merino wool from African farms and partnering with the German worsted yarn manufacturer Südwolle. Südwolle, a leader in worsted fabrics, adheres to stringent eco-certifications such as Bluesign and Oeko-Tex standards.

THE IDEA

Founded in Switzerland in 2012, **super.natural** aims to harness the advantages of merino wool and synthetic fiber. Our brand ethos, #merinomadebetter, embodies the seamless integration of natural and synthetic fibers, offering maximum comfort and functionality. The blend of merino wool and synthetic fiber eliminates the drawbacks of each, resulting in the perfect fusion of both materials.

THE PRODUCTS

Our foundational BASE products, comprising 50% merino wool and 50% Polyester, underpin the **super.natural** brand. However, recognizing the versatility of this unique fiber blend, we have expanded beyond solely sportswear. Our timeless collection caters to everyday wear, providing an irresistible blend of comfort, style, and functionality for any wardrobe.

CONVENTIONAL WOOL

- itchy
- slow drying properties
- high-maintenance

MERINO WOOL

- soft wearing comfort
- breathable
- temperature and moisture regulating
- anti-odor
- natural UV protection
- fire resistant
- low-maintenance

COMFY TO WEAR, EASY TO CARE.

Merino wool can absorb up to a third of its own weight in moisture, while polyester speeds up the removal of the moisture from the material. This combination offers you optimal comfort – with no trace of dampness.

The innovative combination of fibers can withstand a regular wash up to 40° C – no need for a separate wool wash. Our merino mix is incredible easy to care for.

The stabilising effect of the synthetic fibers means you can also put **super.natural** products in the dryer.

The fiber mix combines the natural elasticity of merino wool with the durability of polyester, enabling a uniquely stable shape and impressive longevity.

The tightly-knit connection between the materials creates an extremely soft surface that doesn't itch and offers incredible natural comfort.

The antibacterial effect of the enzyme keratin, which is a natural component of merino wool, prevents unpleasant odors from developing – even after profuse sweating or wearing the product multiple times.

Merino wool regulates temperature: it cools you down in hot temperatures and during increased activity, and warms you up in cold weather or when you take a break.

STILL HAVE QUESTIONS?

You might find the answer you're looking for here:

Do merino mix products start to smell more quickly than 100% merino?

Merino mix products can remove existing moisture from the material more quickly than 100% merino wool. To benefit from merino wool's antibacterial effect, you only need a proportion of 30% wool. The rapid moisture transportation of our fiber mix removes bacteria from what would be a fertile breeding ground, meaning unpleasant smells develop much more slowly. You won't have to worry about odors even after sweat-inducing activities or wearing the items multiple times.

What is mulesing? Is this procedure also a problem with super.natural products?

Mulesing, an unpleasant procedure to prevent flystrike in merino sheep, predominantly occurs in Australia. It involves the removal of strips of skin from around the hind legs and buttocks of the sheep – an incredibly painful process and a very controversial topic in sheep farming. To counteract the issue of mulesing, the wool used in **super.natural** products comes exclusively from African farms. As the flies are not present in this region, mulesing is not necessary.

How do I look after super.natural products properly?

super.natural products can simply be put in the washing machine at 40° C, and can even be tumble dried. Unlike 100% merino wool products, they can be cared for just like your usual clothes without the risk of shrinkage or of holes appearing. However, to best protect the odor-blocking enzymes in the merino fibers, it is recommended to use a wool detergent.

Why don't super.natural products itch?

The quality of wool is measured using its fiber strength. That means that the thinner the fibers, the softer it feels, and the higher the quality. **super.natural** uses merino wool with a measurement of 17 microns, which puts the wool in the 'fine' quality class. As a comparison, conventional sheep's wool measures at 30-50 microns.
