HOW TO CHOOSE

PROTECTION, SIMPLIFIED. HERE'S HOW TO CHOOSE THE GEAR THAT LETS YOU RIDE SMARTER, NOT SOFTER

Every rider crashes differently. That’s why every piece of Leatt protection is built to respond the moment you need it most.

Our mission isn't just impact protection; it's keeping you riding longer, harder, and safer. From the first neck brace to today's advanced FlexMesh, every design is guided by one simple truth: the better it feels, the more you'll wear it - and the better you'll ride.

THREE QUICK DECISIONS

RIDING SCENARIO	FIT PREFERENCE	PROTECTION PRIORITY
MX/Enduro ADV MTB Bike-Park Gravity	Over-Gear Under-Jersey Strap-On	Max Impact Ventilation Agility Comfort

STEP 1. START WITH YOUR RIDING STYLE

EVERY RIDER FACES DIFFERENT RISKS. BEGIN BY IDENTIFYING HOW YOU RIDE

MOTO-X / ENDURO	ADVENTURE / DUAL SPORT	MTB / DOWNHILL / ENDURO	JUNIOR / YOUTH
High speed, roost, and big impacts.	All-day comfort, ventilation, and weather resistance.	Lightweight, pedal-friendly protection that moves with you.	Simplified fit, all-in-one comfort, and easy adjustability.

STEP 2. PICK YOUR ARMOR TIER

ONCE YOU KNOW YOUR STYLE, CHOOSE THE LEVEL OF COVERAGE THAT FITS YOUR NEEDS

NEED	STYLE	RIDER TYPE	RIDER BENEFIT
MAXIMUM ARMOR	HARDSHELL	RACERS & HIGH-SPEED RIDERS	FOR THOSE WHO CRASH HARD AND GET BACK UP. THE STRONGEST COVERAGE AND DEFLECTION FOR EXTREME CONDITIONS
BALANCED ARMOR	HYBRID	ENDURO / ADV RIDERS	WHEN YOU WANT IMPACT PROTECTION WITHOUT LOSING MOBILITY - THE PERFECT MIDDLE GROUND
AGILITY ARMOR	SOFT SHELL	TRAIL / MTB	FOR RIDERS WHO MOVE FAST AND CLIMB LONG - SOFT, FLEXIBLE ARMOR THAT DISAPPEARS ONCE YOU'RE RIDING
STEALTH ARMOR	ULTRA-LIGHT SOFTSHELL	EVERYDAY / TRAINING	WHEN PROTECTION SHOULD FEEL INVISIBLE, NOT OPTIONAL: UNDER-JERSEY COVERAGE FOR DAILY RIDES

STEP 3. ADD ESSENTIAL GEAR

PROTECTION DOESN'T STOP AT THE TORSO. COMPLETE YOUR SETUP WITH THE RIGHT ADD-ONS

 NECK DEFENCE Redirects crash forces away from life-changing spinal injuries.	 KNEE BRACES Prevent ligament injuries that end riding seasons before they start.	 WRIST & SHOULDER SUPPORT Helps you recover stronger or protect weakened joints.	 IMPACT PANTS & SHORTS Absorb hip and tailbone impacts, reducing fatigue on long rides.	 KIDNEY BELTS Stabilize your core for endurance and off-road control.
---	---	--	---	---

STEP 4. LEVEL UP TO THE RIGHT BUILD

NOW TAILOR YOUR PROTECTION TO YOUR EXACT NEEDS

FULL UPPER-BODY COVERAGE	MODULAR SETUPS	HIGH-RISK OR RECOVERY	HOT WEATHER COMFORT
Choose a Body Protector 6.5, 5.5 Evo, or ReaFlex for maximum armor in a single piece.	Prefer to mix gear with jerseys or packs? Opt for Chest Protectors like the 4.5, 3.5, or ReaFlex CP.	Prioritize medical-grade braces such as C-Frame, X-Frame, or Z-Frame, and add Wrist 5.5 for stability.	When staying cool matters most, ReaFlex and AirFit Evo are designed to be slim, ventilated, and easy to wear for long days in the heat.

KEY TECHNOLOGIES

EVERY PROTECTOR HERE IS CE-TESTED AND DESIGNED FOR REAL RIDING ACTION

 SLIMMEST Low profile, well ventilated soft impact gel that hardens upon impact.	 MOST COMFORTABLE Lightweight, ventilated soft impact foam.	 RELIABLE PROTECTION Well ventilated impact absorbing polymer cell structure.	 MAX PROTECTION & VENTILATION A dual density, impact absorbing polymer with optimal ventilation.

NEW PROTECTION

2027 RANGE OVERVIEW

NEW PROTECTION

2027 RANGE OVERVIEW

2.5 HYBRID CHEST PROTECTOR

PAGE 52

ROOST-PROOF FRONT, FLEXIBLE BACK

Combining a hard-shell chest plate with a CE Level 1 soft back panel, the 2.5 Hybrid balances deflection and ventilation. Now available in adult sizing for riders who want MTB-ready comfort and moto-level coverage.

ADV 5.5 NECK BRACE

PAGE 12

SAME PROVEN 5.5, RESIZED TO FIT COMFORTABLE OVER ADV JACKETS AND PROTECTORS

Sized for real-world adventure. Built on the proven 5.5 platform, this ADV-specific brace is designed to fit comfortably over bulky jackets and body protectors. The same levels of protection, now for riders who spend long days in ADV gear.

KNEE GUARD FLEXMESH EXT LITE

PAGE 59

STRAP-ONLY, OVER-PANTS GUARD WITH SHIN COVERAGE - CONVENIENT AND SIMPLE TO USE

Featuring a strap-only design with shin coverage that fits easily over jeans or riding pants. Built for bike park riders and rental fleets, with durable FlexMesh hard caps that slide on impact and resist wear.

ALSO AVAILABLE IN JUNIOR SIZING

PAGE 83

2.5 WOMENS BODY PROTECTOR

PAGE 30

ANATOMICAL FIT, ALL DAY COMFORT

The Body Protector 2.5 is now available in a women's-specific design, with a chest plate shaped for comfort and freedom of movement. Same trusted Leatt protection, now made for the ladies.

ELBOW GUARD FLEXMESH LITE

PAGE 59

STRAP-ONLY, OVER-JERSERY GUARD; QUICK ON/OFF - CONVENIENT AND SIMPLE TO USE

This lightweight, sleeve-free design fits quickly over a jersey or jacket. Ideal for bike park rentals or riders who prefer maximum ventilation with reliable hard-cap coverage.

ALSO AVAILABLE IN JUNIOR SIZING

PAGE 83

KIDNEY BELT 2.5 FLEXMESH

PAGE 69

LIGHT, BREATHABLE LUMBAR SUPPORT

Light, cool, and supportive. Breathable FlexMesh material makes this comfortable enough for all-day wear, while offering the lower-back support riders need on rough terrain.

FUSION VEST 1.5 MINI

PAGE 75

COMBINES 1.5 NECK BRACE WITH MINII CHEST PROTECTION IN ONE CONVENIENT, YOUTH-SIZED VEST

The Fusion Vest 1.5 Mini combines the 1.5 Neck Brace and 1.5 Mini Chest Protector in a single piece. Parents get peace of mind with fewer straps to adjust, and kids get proven Leatt protection that's easy to wear.

ALSO INCLUDED IN:

PROTECTION KIT 1.5 MAX MINI

2.5 HYBRID MINI CHEST PROTECTOR

PAGE 83

STRAP-ONLY, OVER-JERSERY GUARD; QUICK ON/OFF - CONVENIENT AND SIMPLE TO USE

Combining a hard-shell chest plate with a CE Level 1 soft back panel, the 2.5 Hybrid balances deflection and ventilation. Now available in mini sizing for beginner riders who want MTB-ready comfort and moto-level coverage.

PROTECTION KIT 1.5 PRO MINI

PAGE 79-80

MODULAR KIT WITH CHEST GUARD, ELBOW AND KNEE GUARDS; UPGRADABLE WITH A NECK BRACE LATER

Modular starter set. Includes the 1.5 Mini Chest Guard, plus 1.5 Mini Elbow and Knee Guards. Perfect for parents who want to start with chest-first coverage, with room to add a neck brace later.

1.5 Mini Chest Guard with polymer front plate and soft lining | 1.5 Mini Elbow and Knee Guards for basic limb protection | Designed for easy and fast kit-up | Compatible with the 1.5 Mini Neck Brace for future upgrade

INCLUDED IN KIT:

1.5 Mini Chest Protector

1.5 Mini Elbow Guard

1.5 Mini Knee Guard

PROTECTION KIT 1.5 MAX MINI

PAGE 75; 79-80

COMPLETE SET WITH FUSION VEST 1.5 MINI, ELBOW AND KNEE GUARDS IN ONE BOX

Modular starter set. Includes the 1.5 Mini Chest Guard, plus 1.5 Mini Elbow and Knee Guards. Perfect for parents who want to start with chest-first coverage, with room to add a neck brace later.

1.5 Mini Chest Guard with polymer front plate and soft lining | 1.5 Mini Elbow and Knee Guards for basic limb protection | Designed for easy and fast kit-up | Compatible with the 1.5 Mini Neck Brace for future upgrade

INCLUDED IN KIT:

1.5 Mini Fusion Vest

1.5 Mini Elbow Guard

1.5 Mini Knee Guard

NECK BRACES & FUSION VESTS

NECK PROTECTION THAT WORKS WITH HOW YOU RIDE

Leatt pioneered the neck brace, proven to reduce forces to the spine in serious crashes. Fusion models take that protection further, combining a neck brace with chest and back armor for all-in-one coverage. Whether you race, adventure ride, or are just starting out, there's a brace that fits your gear and riding style.

BRACE & VEST TECH

Reduces forces during an impact by transferring the load safely to other body structures and away from the fragile bones of the neck

1WAY ADJUSTABLE FOR BEST FIT

One way neck brace adjust-ability:
1) Rear size adjustment

2WAY ADJUSTABLE FOR BEST FIT

Two-way neck brace adjust-ability:
1) Thoracic angle adjustment
2) Rear size adjustment

3WAY ADJUSTABLE FOR BEST FIT

Maximum level of neck brace adjust-ability.
1) Thoracic angle adjustment
2) Rear size adjustment
3) Front size adjustment

Impact tested and certified to comply with the European personal protective equipment regulation*

NECK BRACE
REPLACEMENT PROGRAM

There are more than one million Leatt neck braces protecting riders around the world. We are proud of this, but we realize that many of these neck braces are getting old.

We are offering a great opportunity for riders around the world to replace their outdated neck brace with a new neck brace, complete with the latest designs and technology.

NEW

ADV 5.5 NECK BRACE

SAME PROVEN 5.5, RESIZED TO FIT COMFORTABLE OVER ADV JACKETS AND PROTECTORS

Designed to fit comfortable over ADV jackets and protectors | Independently lab and rider tested, proven to reduce neck forces and neck injuries through transferring the load during an accident away from the fragile bones in the neck | Up to 89% reduction in critical cervical spine injuries | Collarbone injuries up to 45% MORE likely WITHOUT a neck brace | Independent Moto motorcycle study by Action Sports EMS | Engineered collarbone cut-out to keep your helmet rim away from your most fragile bones | Optimal helmet rim striking platform is designed to redistribute neck forces and provides the helmet with freedom of movement | CoreFlex split rear folding thoracic strut is designed to work with the body's natural movements for a more comfortable fit and breakaway before applying excessive pressure to the back | Sliding front and rear SureFit adjusters offers three-way adjustability for that perfect fit | Composite matrix platform allows for efficient reduction in neck forces | Sculptured, split front for improved comfort and fit | Low-profile push-button open/closure system | Easy-to-use emergency release mechanism | Injected, durable and easy-to-clean foam padding | CE tested and certified to the PPE Regulation (EU) 2016/425 | Weight: from 600g (1.32lbs) | Sizing: S/M - L/XL | Plastic-free packaging

CARBON 6.5 NECK BRACE

CARBON MATRIX DESIGN, ULTRA-LIGHT, FULLY ADJUSTABLE - TOP CHOICE FOR RACERS

Independently lab and rider tested, proven to reduce neck forces and neck injuries through transferring the load during an accident away from the fragile bones in the neck. | Up to 89% reduction in critical cervical spine injuries | Collarbone injuries up to 45% MORE likely WITHOUT a neck brace | Independent Moto motorcycle study by Action Sports EMS | Engineered collarbone cut-out to keep your helmet rim away from your most fragile bones | Optimal helmet rim striking platform is designed to redistribute neck forces and provides the helmet with freedom of movement | CoreFlex split rear folding thoracic strut is designed to work with the body's natural movements for a more comfortable fit and breakaway before applying excessive pressure to the back | Sliding front and rear SureFit adjusters offers three-way adjustability for that perfect fit | Carbon matrix platform allows for efficient reduction in neck forces | Sculptured, split front for improved comfort and fit | Low-profile push-button open/closure system | Easy-to-use emergency release mechanism | Injected, durable and easy-to-clean foam padding | CE tested and certified to the PPE Regulation (EU) 2016/425 | Weight: from 600g (1.32lbs) | Sizing: S/M - L/XL | Plastic-free packaging

NECK BRACES & FUSION VESTS

2027 RANGE OVERVIEW

5.5 NECK BRACE

COMPOSITE CHASSIS, PROVEN CE-CERTIFIED PROTECTION - THE MOST POPULAR ALL-ROUND BRACE

Independently lab and rider tested, proven to reduce neck forces and neck injuries through transferring the load during an accident away from the fragile bones in the neck | Up to 89% reduction in critical cervical spine injuries | Collarbone injuries up to 45% MORE likely WITHOUT a neck brace | Independent Moto motorcycle study by Action Sports EMS | Engineered collarbone cut-out to keep your helmet rim away from your most fragile bones | Optimal helmet rim striking platform is designed to redistribute neck forces and provides the helmet with freedom of movement | CoreFlex split rear folding thoracic strut is designed to work with the body's natural movements for a more comfortable fit and breakaway before applying excessive pressure to the back | Sliding front and rear SureFit adjusters offers three-way adjustability for that perfect fit | Composite matrix platform allows for efficient reduction in neck forces | Sculptured, split front for improved comfort and fit | Low-profile push-button open/closure system | Easy-to-use emergency release mechanism | Injected, durable and easy-to-clean foam padding | CE tested and certified to the PPE Regulation (EU) 2016/425 | Weight: from 600g (1.32lbs) | Sizing: S/M - L/XL | Plastic-free packaging

4.5 NECK BRACE

COMPOSITE SHELL, GREAT ADJUSTABILITY - MID-LEVEL PRICE POINT

Independently lab and rider tested, proven to reduce neck forces and neck injuries through transferring the load during an accident away from the fragile bones in the neck | Up to 89% reduction in critical cervical spine injuries | Collarbone injuries up to 45% MORE likely WITHOUT a neck brace | Independent Moto motorcycle study by Action Sports EMS | Engineered collarbone cut-out to keep your helmet rim away from your most fragile bones | Optimal helmet rim striking platform is designed to redistribute neck forces and provides the helmet with freedom of movement | CoreFlex split rear folding thoracic strut is designed to work with the body's natural movements for a more comfortable fit and break away before applying excessive pressure to the back | Two-way adjustability for the rear to ensure a great fit | Composite matrix platform allows for efficient reduction in neck forces | Sculptured, split front for improved comfort and fit | Injected, durable and easy-to-clean foam padding | CE tested and certified to the PPE Regulation (EU) 2016/425 | Weight: from 575g (1.3lbs) | Sizing: S/M - L/XL - XXL | Plastic free packaging

3.5 NECK BRACE

LIGHTWEIGHT POLYMER, SIMPLE FIT, CE-CERTIFIED - BEST FOR NEW RIDERS OR YOUTH

Independently lab and rider tested, proven to reduce neck forces and neck injuries through transferring the load during an accident away from the fragile bones in the neck | Up to 89% reduction in critical cervical spine injuries | Collarbone injuries up to 45% MORE likely WITHOUT a neck brace | Independent Moto motorcycle study by Action Sports EMS | Engineered collarbone cut-out to keep your helmet rim away from your most fragile bones | Optimal helmet rim striking platform is designed to redistribute neck forces and provides the helmet with freedom of movement | CoreFlex split rear folding thoracic strut is designed to work with the body's natural movements for a more comfortable fit and break away before applying excessive pressure to the back | One-way adjustability for the rear to ensure a great fit | Composite matrix platform allows for efficient reduction in neck forces | Sculptured, split front for improved comfort and fit | Injected, durable and easy-to-clean foam padding | CE tested and certified to the PPE Regulation (EU) 2016/425 | Weight: from 485g (1lbs) | Sizing: S/M - L/XL - XXL | Plastic-free packaging"

3.0 FUSION VEST

NECK BRACE INTEGRATED WITH CHEST/BACK PROTECTION FOR RIDERS

Independently lab and rider tested, proven to reduce neck forces and neck injuries through transferring the load during an accident away from the fragile bones in the neck | Up to 89% reduction in critical cervical spine injuries | Collarbone injuries up to 45% MORE likely WITHOUT a neck brace | Independent Moto motorcycle study by Action Sports EMS | Hard shell and 3DF AirFit ventilated soft impact foam for torso and shoulder protection | Easy-to-use, no-tool, sizing adjustments and 3D design for perfect fit and comfort | CE tested and certified to the PPE Regulation (EU) 2016/425 | CE tested and certified as impact protection: Chest EN1621-3 Level 1 | Back EN1621-2 Level 1 | Shoulder EN1621-1 Level 1 | Flank protection | ISR rated | FFM-French Federation Certified | Weight: 2.500g (5.5lbs) | Unisex Fit (160-196cm) | Sizing: S/M - L/XL - XXL | Plastic-free packaging

KNEE, WRIST & SHOULDER BRACE TECH

KNEE, WRIST & SHOULDER BRACE

SUPPORT WHERE YOU NEED IT MOST

Ligament injuries are the most common and hardest to recover from. Leatt knee braces are CE-certified medical devices designed to reduce these risks, while wrist and shoulder braces add stability and confidence when recovering from injury.

REAFLEX

Low profile, well ventilated soft impact gel that hardens upon impact

Impact tested and certified to comply with the European personal protective equipment regulation

Certified as a medical device by the FDA

WRIST, KNEE & SHOULDER BRACE

Every Leatt protector - whether it's soft ReaFlex, hybrid FlexMesh Pro, or ventilated 3DF - follows the same philosophy: **absorb** what you can, **deflect** what you must, and always let the rider **move naturally**.

THAT'S THE SCIENCE OF THRILL IN MOTION

PROTECTION COMPARISON	3DF	REAFLEX	FLEXMESH	FLEXMESH PRO
	MOST COMFORTABLE	SLIMMEST	RELIABLE PROTECTION	MAX PROTECTION & VENTILATION
MATERIAL	Impact Foam	Impact Gel	Single High-Density Polymer cell structure	Dual high/low-Density Polymer cell structure
CE CERTIFICATION LEVEL	Level 1 & 2	Level 1	Level 1	Level 1 & 2
FLEXIBILITY	★★★★★	★★★★★	★★★★★	★★★★★
LOW PROFILE	★★★★★	★★★★★	★★★★★	★★★★★
VENTILATION	★★★★★	★★★★★	★★★★★	★★★★★
PROTECTION LEVEL	★★★★★	★★★★★	★★★★★	★★★★★

HARDSHELL PROTECTION

MAXIMUM ARMOR. MAXIMUM DEFLECTION.

Hardshell protectors use rigid polymer plates to spread and deflect impact forces. They're the choice for riders who face high-speed roost, big hits, and want the most coverage possible. While usually less comfortable than softshell, they deliver the strongest external defence and roost protection, and are ideal for motocross, enduro racing, or aggressive park riding.

HARD SHELL PROTECTION TECH

MOISTURECOOL
WICKING FABRIC

Moisture wicking fabric which helps maintain a comfortable body temperature

Impact tested and certified to comply with the European personal protective equipment regulation*

Hardshell thermoplastic polymer protector

BraceOn

Elastic straps on the shoulders of the body or chest protector used for securing a Leatt neck brace

SOFT SHELL PROTECTION

FLEXIBLE COMFORT. SERIOUS PROTECTION.

Softshell protection uses advanced impact foams and gels that remain flexible while riding, but stiffen instantly upon impact. This makes them slim, breathable, and comfortable enough for all-day use. They're ideal for enduro, trail, and gravity MTB where mobility and ventilation are as important as safety.

SOFT SHELL PROTECTION TECH

Impact tested and certified to comply with the European personal protective equipment regulation*

BraceOn

Elastic straps on the shoulders of the body or chest protector used for securing a Leatt neck brace

MOISTURECOOL
WICKING FABRIC

Moisture wicking fabric which helps maintain a comfortable body temperature

Lightweight, ventilated soft impact foam

REFLEX

Low profile, well ventilated soft impact gel that hardens upon impact

SOFT SHELL PROTECTION

HYBRID PROTECTION TECH

HYBRID PROTECTION

THE BEST OF BOTH WORLDS.

Hybrid protection combines rigid hardshell plates in the zones that take direct hits, with soft, ventilated impact foam elsewhere. This gives you roost and slide protection where you need it most, plus flexibility and airflow where comfort matters. Perfect for riders who want a balance of coverage, deflection, and freedom of movement.

Impact tested and certified to comply with the European personal protective equipment regulation*

Moisture wicking fabric which helps maintain a comfortable body temperature

BraceOn

Elastic straps on the shoulders of the body or chest protector used for securing a Leatt neck brace

IMPACT RANGE

PROTECTION WHERE YOU FEEL IT MOST

Not every impact comes to your chest or shoulders. Leatt’s impact shorts and pants add protection to hips, thighs, coccyx, and kidneys - areas that take repeated hits in crashes and long rides. Low profile and ventilated, they reduce fatigue and increase comfort without bulk.

WHICH IS RIGHT FOR YOU?
