

Shaping our Vision

In a rapidly evolving and competitive market, Reusch's new headquarters in Vignate represents a clear investment in the future and a commitment to being an even stronger, more reliable partner across Europe and beyond.

The **15,900 m²** facility, located just six minutes from the previous site, centralizes operations, improves efficiency, and reinforces synergies with the German warehouse.

Its operational core is a 19-meter-high warehouse with a three-level, **2,500 m²** mezzanine dedicated to storage and logistics, equipped with modern packing and invoicing stations to ensure precision and ergonomic workflows.

Sustainability played a central role in the design. The building is powered by **780 solar panels** generating **416,000 kWh** per year, supported by automated LED lighting, high-performance insulation, and modern heat pumps for maximum energy efficiency. Safety is ensured through advanced security systems and a **700 m³** underground fire tank.

More than a new building, the Vignate headquarters reflects Reusch's commitment to innovation, sustainability, and long-term partnerships — a place built to work better with and for its partners, and to support future growth with confidence.

REUSCH ADVANCED HEAT R-TEX® XT MITTEN 64 01 597

A skier is shown from the chest up, wearing a light green ski jacket with black accents on the shoulders and sleeves. He is also wearing a black helmet and large, reflective blue-green ski goggles. His hands are in black ski gloves, and he is holding two black ski poles. The background is a vast, snowy mountain range under a bright sky, with a soft, hazy atmosphere. The overall scene conveys a sense of adventure and winter sports.

Alpine Down

Long-lasting
natural warmth.

REUSCH VOLCANO PRO GORE-TEX + GORE WARM TECHNOLOGY MITTEN 65 01 600

65 01 600 REUSCH VOLCANO PRO GORE-TEX + GORE WARM TECHNOLOGY MITTEN

The Volcano: Reusch's warmest gloves, for extremely cold temperatures and for those who won't let cold hands cut their ski day short. These mittens feature the Heat Capture System to keep warmth inside, a heating pocket which stores warmth and builds an impassable barrier for snow, wind and cold. The premium PrimaLoft® Gold and Down insulation guarantee even more warmth and coziness. Stretchable softshell upper with sheepskin palm offers unrestricted movement and confident grip. The gloves' Gore-Tex membrane provides waterproofing, windproofing and breathability. Extra soft lining ensures comfort during long days on the mountain. Conquer the cold with Reusch Volcano!

Kids

A photograph of two young children playing in a snowy field. The child on the left is wearing a blue beanie, a yellow and blue jacket, and blue pants. The child on the right is wearing a colorful knit beanie, a pink and purple jacket, and pink and purple pants. They are both holding snowballs and looking at each other with smiles. The background is a snowy forest with evergreen trees.

The next adventure
for the next generation.

A male cyclist is shown in a dynamic, forward-leaning position on a road bike. He is wearing a black helmet, dark sunglasses, a white long-sleeved jersey with black accents, black cycling pants, and black gloves. The road is wet and reflective, with some fallen leaves scattered on the surface. The background features a vast, open landscape with rolling hills and mountains in the distance, some of which are covered in snow. The sky is overcast and grey. The overall mood is one of intense focus and physical exertion.

Biking

Pure motion,
perfect control.

Every detail tells a story of warmth.

**Reusch introduces Headwear & More,
a new collection designed to bring
warmth, coziness, and a touch of
timeless style to every winter day.**

From beanies to hats, caps, earmuffs, and headbands, the line embodies the same care, quality, and refined aesthetics that define Reusch.

Available for both adults and juniors, each design features soft materials and natural tones — crafted to feel just right, wherever winter takes you.

A new chapter in the Reusch story, built around authentic warmth and effortless everyday comfort.

For those who live the mountain, the *Headwear & More* collection follows the rhythm of winter and those who embrace it every day.

Balaclavas, face covers, helmet covers, neckwarmers, and sporty beanies — all designed to protect and accompany you when temperatures drop.

For those who seek performance and enjoy every moment outdoors, the pieces combine functional materials with Reusch's distinctive style.

Stay warm,
stay active.

Technologies

Since the foundation of our company 90 years ago, we have acquired extensive knowledge and skills to develop and produce outstanding products. As leading winter sport glove brand we follow our guiding principle to achieve excellence in every aspect. We see it as our duty to produce the best glove in terms of fitting, materials, performance and comfort. In short: gloves with Reusch quality.

In close cooperation with some of the world's best winter sports athletes, and in constant examination of the market's needs and desires, we make sure to develop the best glove for all snow enthusiast out there.

SHELL

Determines the glove's durability, weather protection, breathability, comfort and appearance.

MEMBRANE

Guarantees that the glove remains waterproof and windproof.

LINING

Absorbs perspiration and ensures a comfortable feel against the skin.

INSULATION

Stores body heat and keeps hands comfortably warm.

**FIND OUT
MORE**

The outer material defines the look of a glove,
its durability, weather resistance, breathability and wearing comfort.

WATER REPELLENT SHELL

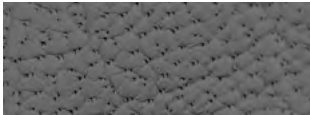

Gloves with water-repellent fabrics offer reliable resistance to water penetration. Moreover, water-repellent fabrics ensure improved abrasion resistance and are, therefore, very long-lasting.

SOFTSHELL

Softshell fabrics are highly breathable and 4-way stretchable to ensure maximum freedom of movement. As their name implies, these fabrics are characterized by their softness and high wearing comfort.

SOFTSHELL PREMIUM

Our exclusive selection of highest-quality softshell fabrics offers maximum wearing comfort and supreme softness. These fabrics are highly breathable and 4-way stretchable to ensure maximum freedom of movement.

LEATHER

A premium shell material that is abrasion-resistant, durable, soft, windproof and water-repellent, comes in sheepskin (extremely soft and smooth), goatskin (extremely robust) and cowhide (soft and robust), and its outer appearance may change over time without affecting performance.

RE:KNIT

Made of 100% knit material with an entirely seamless, one-piece backhand and gusset construction that requires only one thread per colour, generates no production waste, and provides seamless comfort along with unlimited freedom of movement.

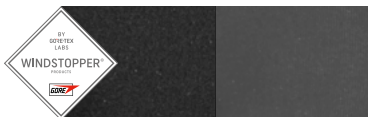

ALPINE MELANGE

A windproof, water resistant and breathable shell guarantees maximum wearing comfort and contains 35% wool for added softness and warmth.

MELANGE FABRIC

Two differently colored polyester fibers form a very soft melange yarn that is windproof, water-resistant and highly breathable, creating unique color effects.

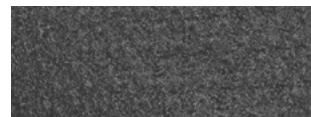

WINDSTOPPER® BY GORE-TEX LABS

Absolute windproofness and extreme breathability protect hands from the chilling effects of wind and weather while allowing moisture vapor to escape easily, keeping hands dry and warm.

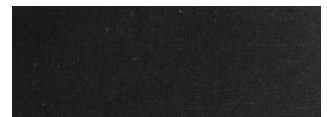

POLARTEC HARDFACE

Increased abrasion resistance and water repellency combine with breathable, moisture-wicking and quick-drying properties.

WOOL

An extra-warm material with high heat retention, outstanding comfort and a high moisture-wicking capacity.

FLEECE

Strong and long-lasting material that is windproof and water-resistant, available in a variety of textures including twill or plain woven textile styles.

The membrane keeps the gloves guaranteed **waterproof, windproof and breathable.**

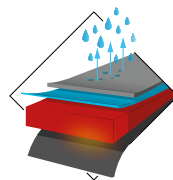

GORE-TEX

Gloves engineered with Gore-Tex inserts offer enduring weather protection and comfort with balanced heat transfer and optimum moisture management—even in harsh conditions.

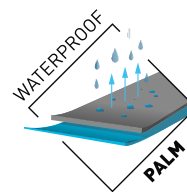

**GORE-TEX GLOVES +
GORE WARM
TECHNOLOGY**

The warmest GORE-TEX gloves available, designed to keep hands warmer for longer through a system in which inner lining, membrane and outer material are engineered to deliver higher insulation performance.

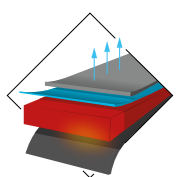

R-TEX® XT

An insert membrane that is waterproof, windproof and breathable, very thin, soft and stretchable, providing unlimited ease of movement and quick moisture wicking.

DRY PALM®

Dry PALM® is waterproof on the palm and perfectly breathable on the backhand, and is used exclusively on the palm side.

STORMBLOXX™

Laminated on the inside of the shell material or lining, it serves as a wind breaker, is windproof and water-repellent, and is highly breathable and quick-drying.

The lamination adds structural strength and **enhances resistance to wind and moisture.**

The insulation layer defines the glove's heat retention capacity in order to **keep the hands warm**.

DOWN

This insulation offers the best warmth-to-weight ratio thanks to its soft, light and fluffy nature with excellent heat-retention capacity, protected by a breathable and waterproof “down-proof bag”.

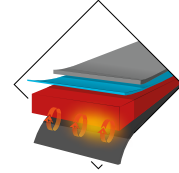

WOOL

An extra-warm material with high heat retention, outstanding comfort and a high moisture-wicking capacity.

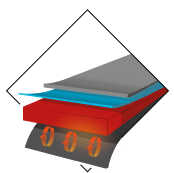

POLARTEC® ALPHA™

A synthetic fiber insulation that provides warmth without weight, is highly packable, quick drying and breathable, and was originally developed for the U.S. Special Forces.

R-LOFT™

A very soft, extra-warm synthetic insulation with high volume and low weight that ensures optimal heat retention and provides maximum wearing comfort.

TECFILL

A synthetic fiber insulation that is compact and solid while offering an adequate amount of warmth.

PRIMALOFT® GOLD

A high-quality insulation that keeps hands warm, dry and comfortable, offers protection in extreme conditions, is the most thermally efficient synthetic option, water-repellent, breathable and soft, and is the most widely used PrimaLoft® insulation in the range.

**PRIMALOFT® GOLD
WITH CROSS CORE™
TECHNOLOGY**

An innovative synthetic insulation that delivers unprecedented lightweight warmth by fusing aerogel technology with PrimaLoft® Gold, while ensuring wet-weather protection.

The first layer plays an important role for **moisture management, hygiene and wearing comfort of the glove**. It provides a gentle touch in direct **skin contact, absorbs sweat and releases it on the outside**.

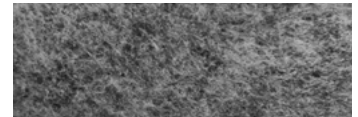

MICROACTIVE

A very soft polyester lining that offers high wearing comfort while preventing skin irritations, absorbs moisture from the skin and transports it to the surface, and provides temperature-regulating and anti-static capabilities.

SOFTPLUSH

An extremely soft material with a super gentle touch and outstanding comfort, featuring a high-loft structure for extra warmth and the ability to absorb moisture from the skin and transport it to the surface.

WOOL BLEND

An extra-warm lining with 20% wool that offers high heat retention, outstanding comfort and a high moisture-wicking capacity.

WINDSTOPPER® BY GORE-TEX LABS

Offers absolute windproofness, is extremely breathable, and is designed for exceptional skin comfort.

HEAT CERAMIC

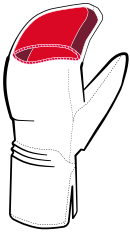

Equipped with ceramic particles on the inner side of the lining, it increases thermal resistance by up to 18%, conducts deep heat through infrared radiation and enhances blood circulation.

FLEECE

A fleece made of recycled polyester fibers that is extremely soft and comfortable in direct skin contact and offers good moisture-wicking abilities.

Thanks to **exclusive solutions and technologies**,
Reusch gloves guarantee **warmth and performance**
in any kind of weather condition and situation.

THERMOHOODS

Dryfleece material covering the fingertips offers additional warmth in this highly sensitive area and is placed on top of the insulation layer.

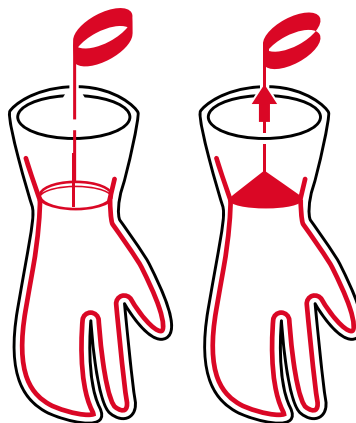

HEATING POCKET

A small pocket on the back of the hand for inserting a heat pad to provide additional warmth and comfort. The pocket can also be used to hold a ski pass or other small items.

REUSCH HEATING PADS

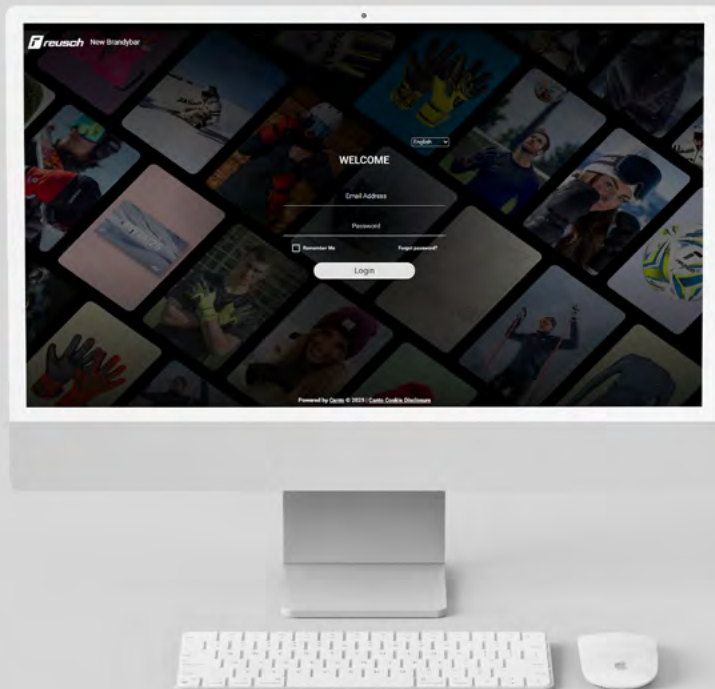

Offers eight hours of warmth with a heating capacity of up to 55°C. Use the odourless heating pads, which are automatically activated by air and must be disposed of in household waste after use.

HEAT CAPTURE SYSTEM TECHNOLOGY

A patented technology featuring an inner-cuff gaiter construction that stores warmth and enhances comfort, creates an impassable barrier against snow, wind and cold, and automatically loosens when the leash is released.

PATENTED IN EUROPE

CANTO.

WE EMBRACE INNOVATIVE SOLUTIONS.

Canto is our central hub for managing and sharing digital assets like product images, videos, logos, texts and documents like product descriptions.

The goal of this platform is to simplify how our partners, both retailers and distributors, access and use our content, ensuring they always work with the most updated and brand-approved materials.

GO TO THE LINK TO ENTER IN REUSCH CANTO.

DISTRIBUTOR PORTAL:

<https://reusch.canto.global/v/Distributor>

RETAILER PORTAL:

<https://reusch.canto.global/v/Retail>

Get your access from your Reusch contact.

VIRTUAL SHOWROOM.

A virtual catalogue at your finger tips.

The platform offers details, pictures and descriptions of each single article as well as product and information videos, key campaign visuals and a download section including presentations, catalogues and simply all relevant documents for clients, sales force and business partners.

BEST PRACTICES.**

Care Instructions

As leading winter sports glove brand we see it as our duty to produce the best gloves in terms of fitting, materials, performance and comfort. Read through our care instructions step by step and learn more about how to treat your gloves right.

1. AVOID WASHING

- Always check the glove care label thoroughly. Each model is different and can have different specifications.
- In general, we advise against hand-washing or machine-washing your gloves.
- Beware that washing gloves can harm the material properties and the functionality of the gloves.
- If you need to clean your gloves, you can use a wet cloth.

2. DRYING AT ROOM TEMPERATURE

- Let the gloves dry at room temperature.
- Keep away from radiators or other sources of direct heat.
- Direct contact with radiators deteriorates especially the palm material and harms its durability.

3. LEATHER TREATMENT

- Clean full-leather gloves only by wiping them with a wet tissue.
- After drying, treat leather gloves with dubbin or a similar type of regular leather care product.
- Be aware of any instructions written on the used leather care product.
- The Reusch Leather Care wax enhances the durability of the leather and maintains its smoothness.
- Store the wax at room temperature.
- Being a natural material, the outer appearance of leather can change slightly over time. Nevertheless, this does not affect its performance in any way.

04. STORAGE

- Do not expose gloves to UV-radiation like intense sun light or light from fluorescent tubes.
- Store the gloves in a cool, dark and dry place.

FOLLOWING THIS BASIC RULES WHEN USING, CLEANING, DRYING AND STORING THE GLOVES WILL HELP MAXIMIZING THEIR PERFORMANCE AND DURABILITY.

i

IMPORTANT WEARING TIPS:

- **Never grab the skis on their sharp edges**, as these can scratch or cut the upper material of the glove.
- Many gloves come with an integrated storm leash that can easily be fastened around the wrist.
- Small woven loops on the inside of the cuff make it possible to add external storm leashes.

LEASHES

The leashes of our gloves are designed to **BREAK UNDER A LOAD OF 10-18 KG.**

This is not a weakness, but a deliberate safety feature.

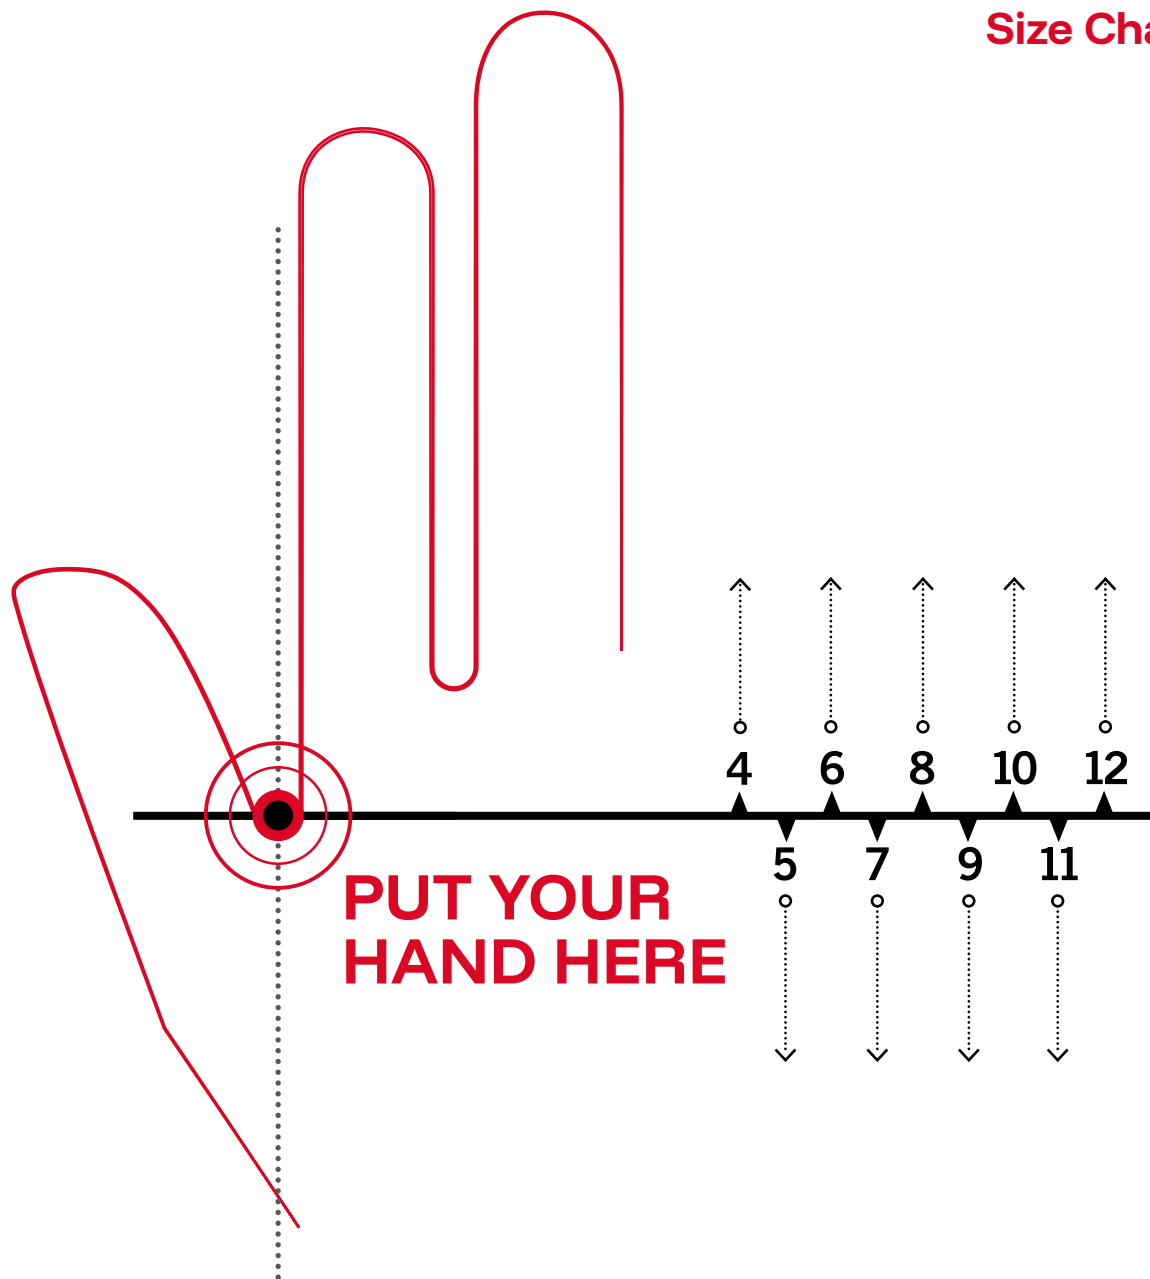

The reason for this is:

1. TO PREVENT ACCIDENTS: The leash is designed to tear under heavy loads to prevent serious injuries that could occur when the glove gets caught on ski lifts, tree branches or other objects.

2. SAFETY: An intact leash under excessive load could result in injury to the wrist or hand.

Therefore, if the leash breaks under loads greater than 10 kg, this is not a reason for complaint, but an indication that the safety system is working as intended.

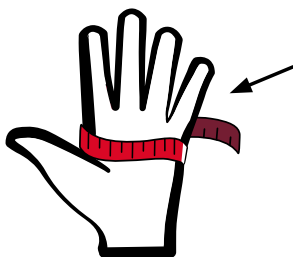

If you have any further questions, please do not hesitate to contact us.

Besides the size table shown below, the size can also be determined as follows: use a measurement tape or any yarn to measure the circumference of your hand.

Place the tape where the hand is widest. Kids sizes can be derived from the kids' age according to the tables below.

HOW TO MEASURE THE HAND CIRCUMFERENCE.

UNISEX	
SIZE	CM (HAND CIRCUMFERENCE)
6	15,20
6,5	16,50
7,0	17,80
7,5	19,10
8,0	20,30
8,5	21,60
9,0	22,90
9,5	24,20
10,0	25,40
10,5	26,70
11,0	27,90
11,5	29,20
12,0	30,50

JUNIOR	
SIZE	AGE
3,5	5 - 6
4,0	6 - 7
4,5	7 - 8
5,0	8 - 9
5,5	9 - 10
6,0	10 - 12
6,5	12 - 14
7,0	14 - 16

BABY	
SIZE	AGE
0	0 - 1
I	1 - 2
II	2 - 3
III	3 - 4
IV	4 - 5
V	5 - 6

IMPORTANT: all charts and figures are helpful tools to find the right size, however it is of utmost importance to try a glove on to find your individual, preferred fit.
