A BALANCE BETWEEN BENEFITS

3 reasons to choose Reima shoes

1. Good fit for healthy feet

Age-appropriate design in shoes that are easy to put on. Reima's footwear supports the normal movement of feet and the Happy Fit insoles help you find the right size.

2. Easy care for carefree steps

The right footwear for any season and weather. Many styles can be machine washed for easier care. Find simple care instructions on the hangtags and online.

3. Sensible protection for better sensations

Always the right level of cushioning, insulation and protection: more sensory feedback for babies' first steps, more cushioning as the child grows. Warming soles and proper insulation for winters, waterproofed sneakers and boots for midseasons. We've thought of everything so you won't have to.

Splash on, it's spring

DREAMING OF BIG PUDDLES?

On stormy days, what better fun than jumping into your Reima boots and finding the best place to wade! When it's not pouring, kids can explore the city streets wearing Reimatec shoes. Check out our spring collection for boots, hikers, and sneakers that take kids from slush to sunshine.

Record-breaking protection

1. Elastic laces - no knots, just pull on and secure with strap
2. Waterproof membrane protects from splashes
3. Flexible midsole cushions the impact on hard surfaces
4. Outsole with rubber lugs for a good grip

DON'T RUN IN THE RAIN

Reimatec sneakers are just right to keep the toes dry during school days and walks in the park. The name of this style, Enkka, is Finnish slang for "a record". Your kid can try setting their next personal rainy-day spurt record wearing them!

The adventure is outdoors

FREEDOM & FUN FOR FEARLESS FEET

Wandering close to home, or perhaps on another continent?

Summer adventures are most fun in shoes that let kids' feet breathe and move naturally. We can especially recommend Reima barefoot shoes. Their flat, thin soles let your kids enjoy the feel of all possible summer terrains.

One step closer to nature

1. Waterproof membrane - no need to avoid small puddles
2. All toes can grow straight, thanks to the wide last
3. Thin, flexible rubber sole for great grip
4. Zero heel for a natural gait
5. Contains recycled fibers

FREE TO GROW AND GO

Reimatec barefoot shoes Tallustelu are entirely zero heel, without toe rise. This frees kids to stand, walk and run naturally, while the spacious last lets the toes grow straight. Plus, the waterproof membrane frees you from worrying about sudden rains or small puddles!

TALSI IS FINNISH FOR "WALK"

We named these sandals so, because they're just right for walking. Kids can conquer the city streets, stone steps of historical temples, and pebbled beach roads, all confidently and in full comfort.

Born for the beach

ALL YOU NEED IS SOME VITAMIN SEA

Hello sunshine! The best fun happens where the water is, so grab your floaters, boards, or snorkels and let's go. Reima sandals and swim shoes are super easy to dress and comfy to wear - and they're ready to get wet, too.

ABOUT FOOTWEAR MEASUREMENTS

For good development and motor skills of the feet, it is important to choose the right size and shape of shoe for a child. It is also essential to follow the growth of the feet and ensure that the shoes fit properly. The correct shoe size can easily be measured by taking out the insole, so that the child can step on top of the insole. In total, the length of the foot + 1.5 cm for growth and operating reserve is necessary for children's shoes.

Most Reima shoes have the "Happy Fit" measuring system in the removable insoles to help our customers find the correct fitting. Socks have an important job to do too, as ordinary cotton socks absorb moisture, making skin unpleasantly cold when wet. Technical Reima socks, which wick moisture away from the skin, are an excellent alternative.
