KEY
STYLE

This extra lightweight baselayer features ODLO's Ceramicool technology which actively reduces skin temperature by up to 1°C, keeping you cool and dry during any high-intensity sports in warm spring and summer temperatures. The Performance Cool baselayer is crafted from recycled yarns to reduce ecological footprint but retains the same technical yarn performance. Integrated ventilation zones offer the highest breathability and enhanced moisture management. The seamless constructions allow perfect freedom of movement and integrated ODLO ZEROSCENT anti-odour technology neutralizes bad odour from the outset keeping the baselayer fresher for longer.

Performance Light Eco Panty
188741

Performance Dry Baselayers are seamless, lightweight and are made from recycled yarns offering a reduced carbon footprint. They provides the highest breathability through integrated ventilation zones that rapidly wick moisture, keeping the skin feeling cool and dry during the sweatiest workouts. The seamless constructions offer perfect freedom of movement and our integrated ODLO ZEROSCENT anti-odour technology neutralizes bad odour from the outset keeping the baselayer fresher for longer. The perfect year-round baselayer for any high intensity sporty activities.

Features

- Recycled yarns
- Ventilation zones

Benefits

- Organic Body Mapping
- Freedom of Movement
- Enhanced Moisture Management

PERFORMANCE X-LIGHT SS21 WOMEN TOP
73% Polyester (recycled), 27% Polyamide

10000 White 15000 Black 21074 Aqua Haze 30875 Living Coral

This extra lightweight baselayer features ODLO's Ceramicool technology which actively reduces skin temperature by up to 1°C, keeping you cool and dry during any high-intensity sports in warm spring and summer temperatures. The Performance Cool baselayer is crafted from recycled yarns to reduce ecological footprint but retains the same technical yarn performance. Integrated ventilation zones offer the highest breathability and enhanced moisture management. The seamless constructions allow perfect freedom of movement and integrated ODLO ZEROSCENTM anti-odour technology neutralizes bad odour from the outset keeping the baselayer fresher for longer.

Material Information

Description:
Main Fabric:

PERFORMANCE LIGHT BOTTOMS MEN SOLID SS23 pure antibac
72% Polyester (recycled), 20% Polyamide, 8% Elastane

15000
Black

Performance Dry Baselayers are seamless, lightweight and are made from recycled yarns offering a reduced carbon footprint. They provides the highest breathability through integrated ventilation zones that rapidly wick moisture, keeping the skin feeling cool and dry during the sweatiest workouts. The seamless constructions offer perfect freedom of movement and our integrated ODLO ZEROSCENT anti-odour technology neutralizes bad odour from the outset keeping the baselayer fresher for longer. The perfect year-round baselayer for any high intensity sporty activities.

Features

- Recycled yarns
- Ventilation zones

Benefits

- Organic Body Mapping
- Freedom of Movement
- Enhanced Moisture Management

Sizes: S, M, L, XL, XXL

Ascent 3L Waterproof Jacket Hardshell
528871

Our Ascent 3L waterproof jacket is an incredibly versatile all-rounder. Lightweight, robust yet incredibly packable it has all the features you need for your outdoor adventures and is crafted from recycled Nylon. The 3L fully taped construction provides 20k waterproofing and 20k breathability. A fully adjustable hood protects you from the worst weather conditions whilst the adjustable hem and cuffs keep out unwanted gusts of wind. Pit zips provide core ventilation and two water-resistant zipped hand pockets and a water resistant zipped external chest pocket ensure your essentials are also protected from the elements. A CO water repellent finish offers the final protection to provide a water shedding finish.

Features

- Water column 20,000 mm
- Permeability 20,000 g/m²/24h

Ascent Short 560502

The Ascent Short is built for demanding adventures where comfort and durability are paramount. Crafted from a combination of partially recycled Polyamide and elastane we have created a versatile stretch short that allows for incredible freedom of movement without sacrificing durability. An integrated belt enables fine-tuning of the fit. Two zippered hand pockets, a rear zippered pocket and a zippered pocket on the right thigh provide storage solutions. A CO water repellent finish provides a water shedding finish.

Ascent Light Short 560562

Featuring 2-way stretch and a lightweight fabrication the Ascent Light Short combines great freedom of movement with comfort. The Ascent Light Short are a great choice for multiple summer activities.

Zeroweight Engineered Chill-Tec T-Shirt Crew Neck S/S
315201

All products

Some products

The design team at ODLO has engineered a mesh graphic into this lightweight recycled polyester melange fabric, not only creating a great-looking tee but also one that keeps you cool when the temperatures rise. The mesh graphic is highly functional, ensuring a high level of breathability and allowing air currents to pass over the skin creating cooling by convection. The engineers of active layers have added bonded hems on the sleeves and bonded tapes along the side seams with laser-cut ventilation. With a regular fit and reflective details, this is a great looking, highly functional tee built for runners looking for something special.

All products

Some products

The design team at ODLO has engineered a mesh graphic into this lightweight recycled polyester melange fabric, not only creating a great-looking tee but also one that keeps you cool when the temperatures rise. The mesh graphic is highly functional, ensuring a high level of breathability and allowing air currents to pass over the skin creating cooling by convection. The engineers of active layers have added bonded hems on the sleeves and bonded tapes along the side seams with laser-cut ventilation. With a regular fit and reflective details, this is a great looking, highly functional tee built for runners looking for something special.

This Ceramicool Reflective performance socks offer a bodymapped padding system for enhanced comfort and cushioning. Thicker and softer material on the heel and toe area help reduce the impact, protecting against blisters while the breathable mesh material and the Ceramicool yarns keep your feet cool and wick sweat away. Integrated and highly functional Polypropylene yarn is resistant to absorbing moisture absorption and ensures a very fast drying pair of socks. The seamless toe construction gives the socks a optimal fit while the Integrated ODLO ZEROSCENT anti-odour technology controls and eliminates bad odour from its very beginning. Lastly we have intergrated reflective yarns into the cuff area of the sock to eliminate irritation on the skin and increase low light visibility. These socks are made and crafted in EUROPE.

Carry Over

POS Packaging:

Hanger card

Material Information

Description:

Main Fabric:

SOCKS CERAMICOOOL INVISIBLE pure antibac
95% Polyamide, 5% Elastane

**Performance Wool Hike Socks Quarter
766190**

60212
Black, Odlo
Graphite Grey

60296
Black, Arctic

60297
Black, Blue
Heron

These CERAMICOOOL hiking socks offer a body-mapped padding system for enhanced comfort and cushioning. Thicker and softer material on the heel and toe area helps reduce the impact of each step, protecting against blisters while the breathable mesh material and the Ceramicool yarns keep your feet cool and wick sweat away. Integrated and very functional Polypropylene yarn is resistant to absorbing moisture and therefore ensures a very fast drying pair of socks. The seamless toe construction gives the socks an optimal fit while the Integrated ODLO ZEROSCENT anti-odour technology controls and eliminates bad odour from its very beginning. Finally, the socks are made and crafted in EUROPE.

Features

- Seamless toe construction

Benefits

- Active Cooling
- Enhanced Moisture Management
- Enhanced Comfort
