WHETHER YOU GO CLIMBING, GRAVEL RIDING, RACING, TOURING, MOUNTAIN BIKING OR USE YOUR BIKE TO GET AROUND TOWN: BBB CYCLING IS PART OF YOUR RIDE

We are thrilled to present our latest collection of exceptional cycling products in this Dealerbook. With a deep understanding of the needs and desires of cyclists, we present to you a range of new, updated and continued products that combine our brand identity: functional, smart and fair price as well as looking for sustainable solutions, wherever we can. From high-performance pumps, durable tools, and cutting-edge helmets to functional accessories and comfortable apparel, this book showcases our entire product range.

SUSTAINABILITY

At BBB Cycling, we are committed to a sustainable future. We believe that cycling has a positive impact on the world. That's why we develop products that can support all types of cyclists in a sustainable way. Smart products that have a long lifespan with minimal impact on the environment. Sustainability of our products and our practices is central to our company.

Carbon footprint

We are strongly committed to reducing our carbon footprint. BBB Cycling operates carbon neutral since 2018. But being carbon neutral by compensating isn't enough, that's why we strive to make our operations net zero in 2030. Besides that, we focus on reducing the carbon footprint throughout the total value chain as much as possible without compromising on quality, safety or accessibility.

Product development

Many aspects come into play on the path to a sustainable range of products, including design, reparability, material choices, circularity aspects, production methods, and packaging. When it comes to material choices, we embrace the use of recycled and plant-based materials instead of plastics derived from fossil fuels. This helps reduce the demand for new raw materials.

We literally make thousands of products. Different products have to meet different needs, like safety, durability, wear or weather resistance. And each product is composed with different materials. This means there is not one solution to regreen all our products. For every single product we research, rethink and redesign to find the best sustainable solution.

Packaging

In our efforts to minimize the use of resources and reduce waste, we pay close attention to our packaging. By redesigning products and packaging, we strive for efficient use of materials and transportation with the lowest possible environmental footprint. We use recycled cardboard and feature minimal printing using sustainable soy ink. We replace plastic with recycled plastic and aim to eliminate it where possible.

We do it together

We see sustainability as an opportunity to work together with employees, resellers and production and logistic partners to rethink together what we do. We are aware of our responsibility throughout the value chain. This means making sure our partners pay fair wages, offer safe working conditions and are checked on this. In making the transition to a sustainable way of working, being transparent and open for feedback is key. If you have any questions or remarks or suggestions that could change the world for the better, please do not hesitate to contact us.

THE BBB CYCLING BACKYARD CREW

The BBB Cycling Backyard Crew consists of pros, adventurers, discoverers, survivors, fanatics, and life lovers on a bike.

We support these ambassadors and teams not only to become the best, but to develop. We give them the possibility to ride with our products, whatever their starting point might be.

Our backyard crew consists of inspiring people that are like-minded. Every member of our backyard crew is working on his own journey through the world of cycling. May it be as a professional cycling team on world tour level, or as an individual chasing their dreams on the bike.

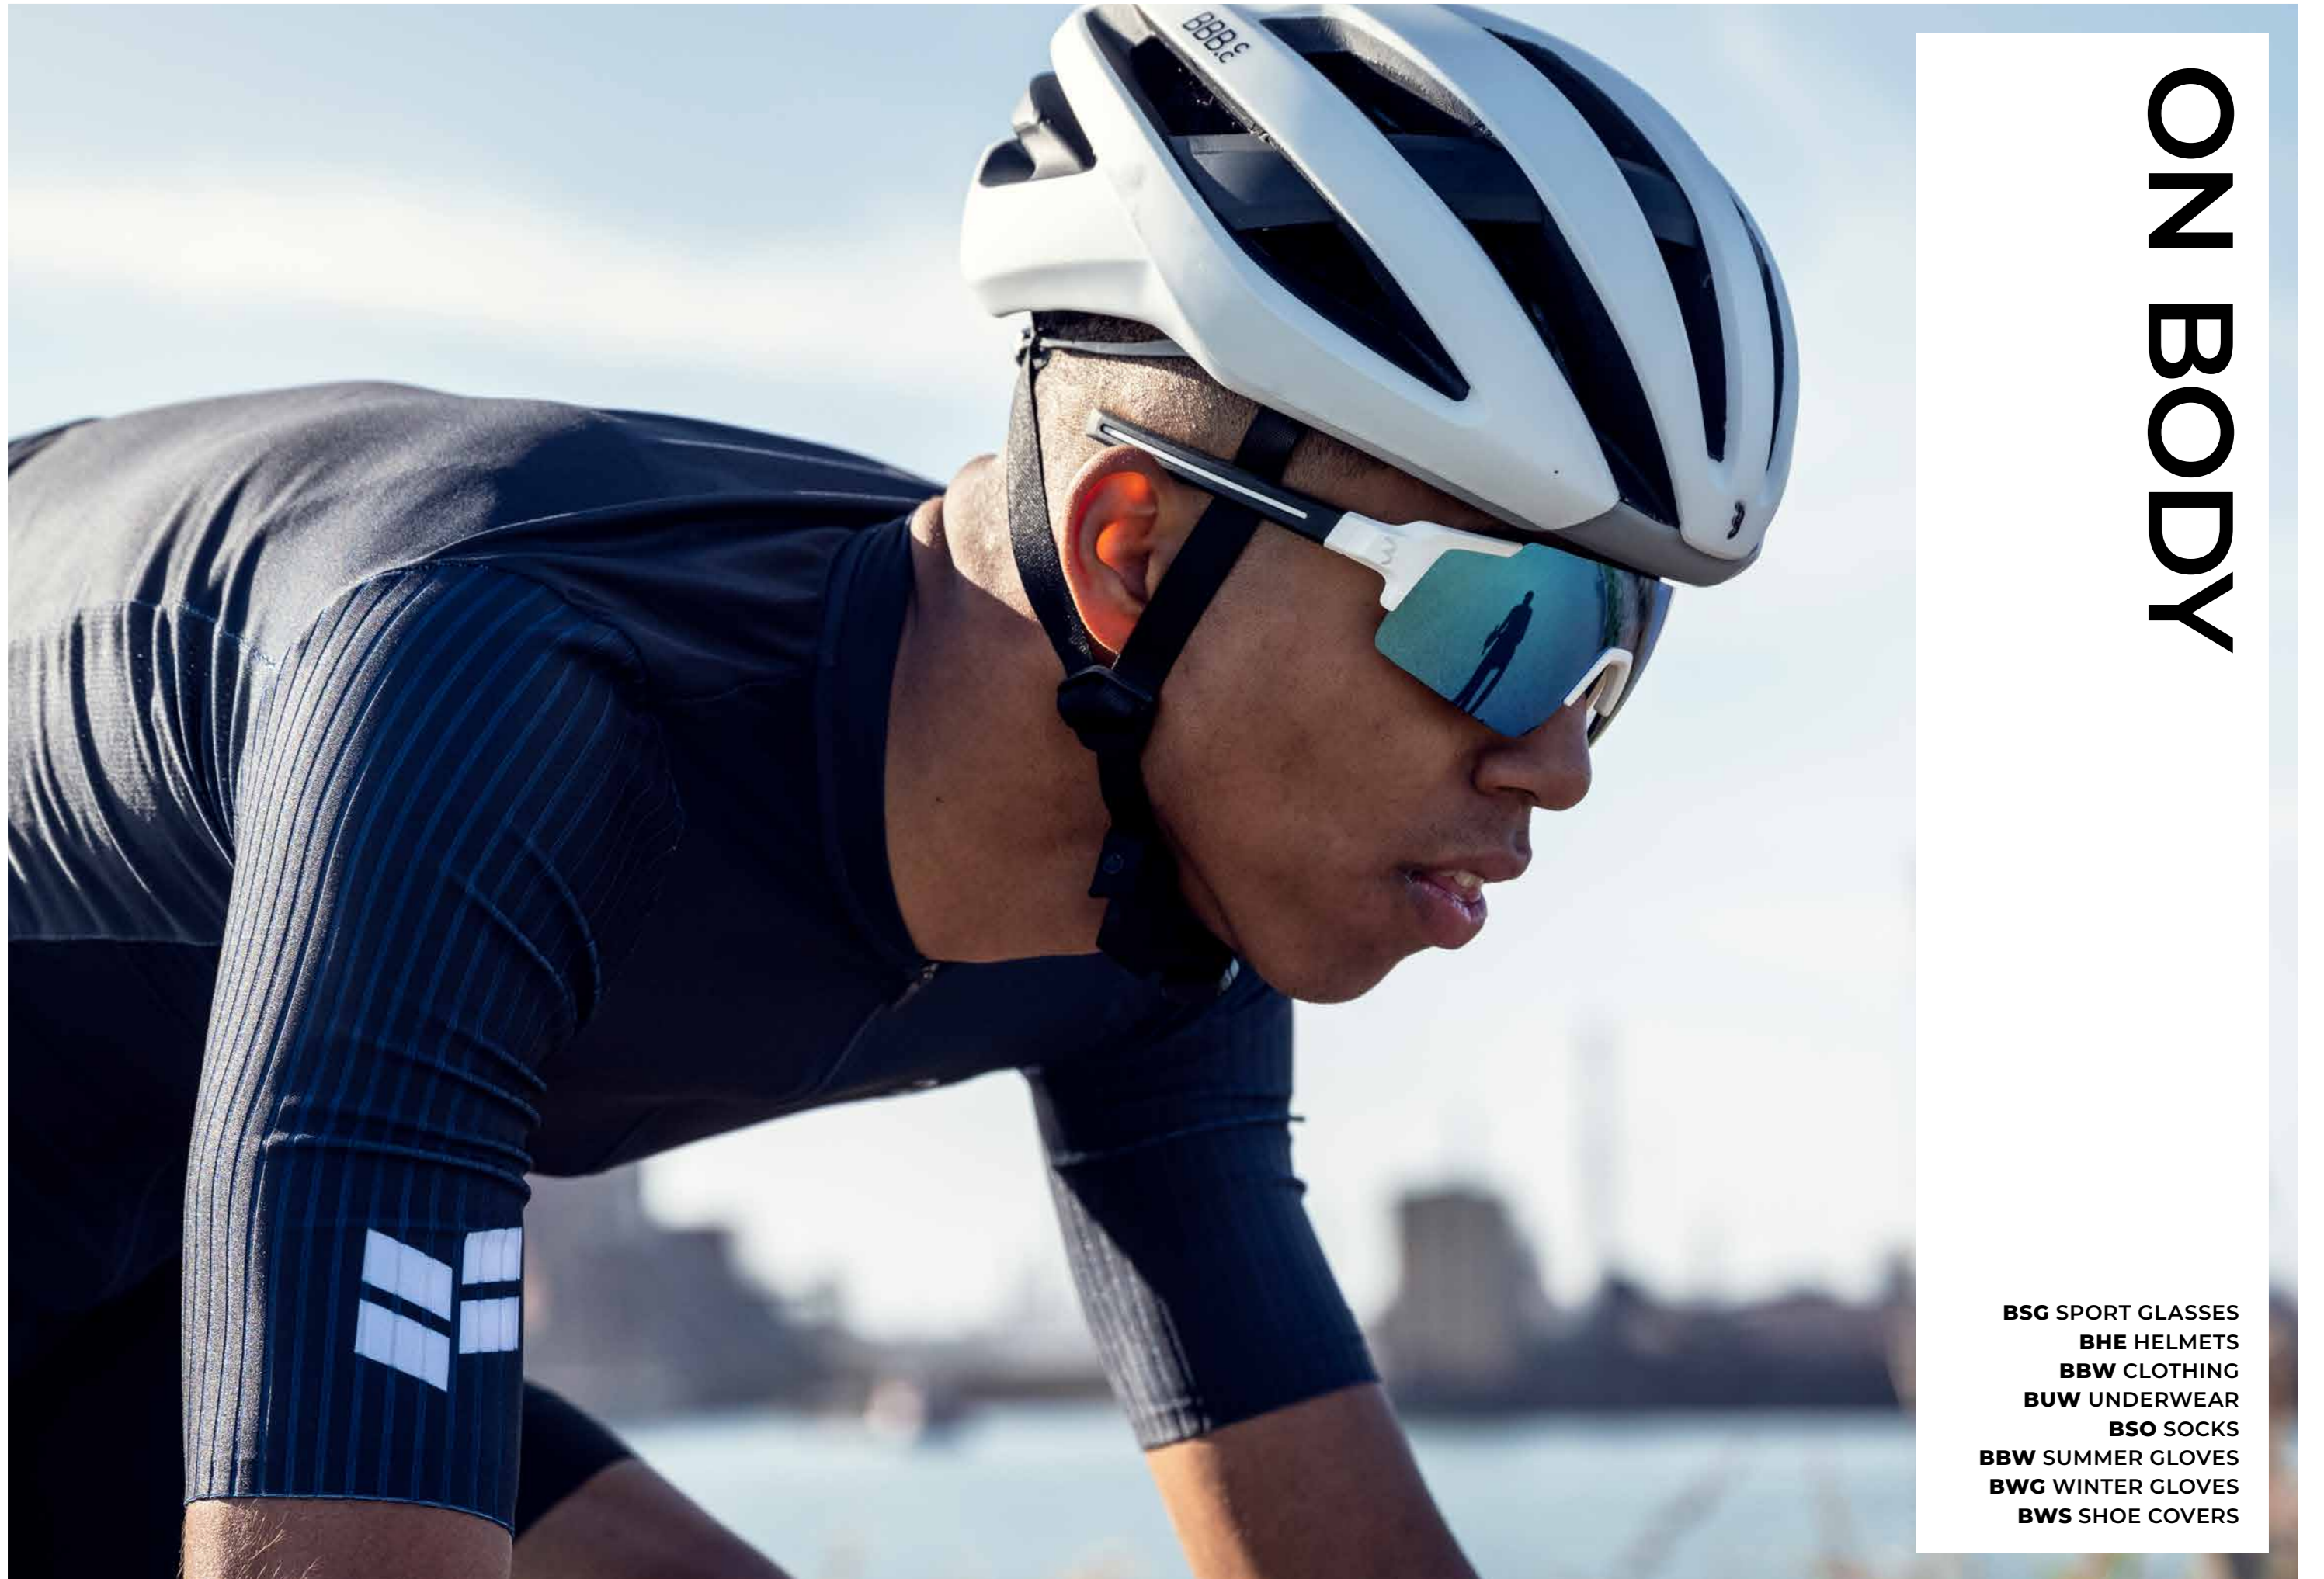

Get to know our Backyard Crew via: bbbicycling.com/backyard-crew.

SHARE OUR PASSION

Our extensive product range makes it easy for cyclists to choose BBB Cycling as their go to brand where they can simply orientate and select from a wide variety of products. We are determined to have every item in stock, enabling us to supply the requested products to our customers. After all, we encourage people to ride their bicycles and challenge them to set new goals and above all enjoy cycling.

Together with you we want to offer cyclists thoughtfully designed innovative and sustainable products that improve the entire cycling experience.

We are 'Part of your ride'.

- BSO** SOCKS
- BBW** SUMMER GLOVES
- BWG** WINTER GLOVES
- BWS** SHOE COVERS

NEW!

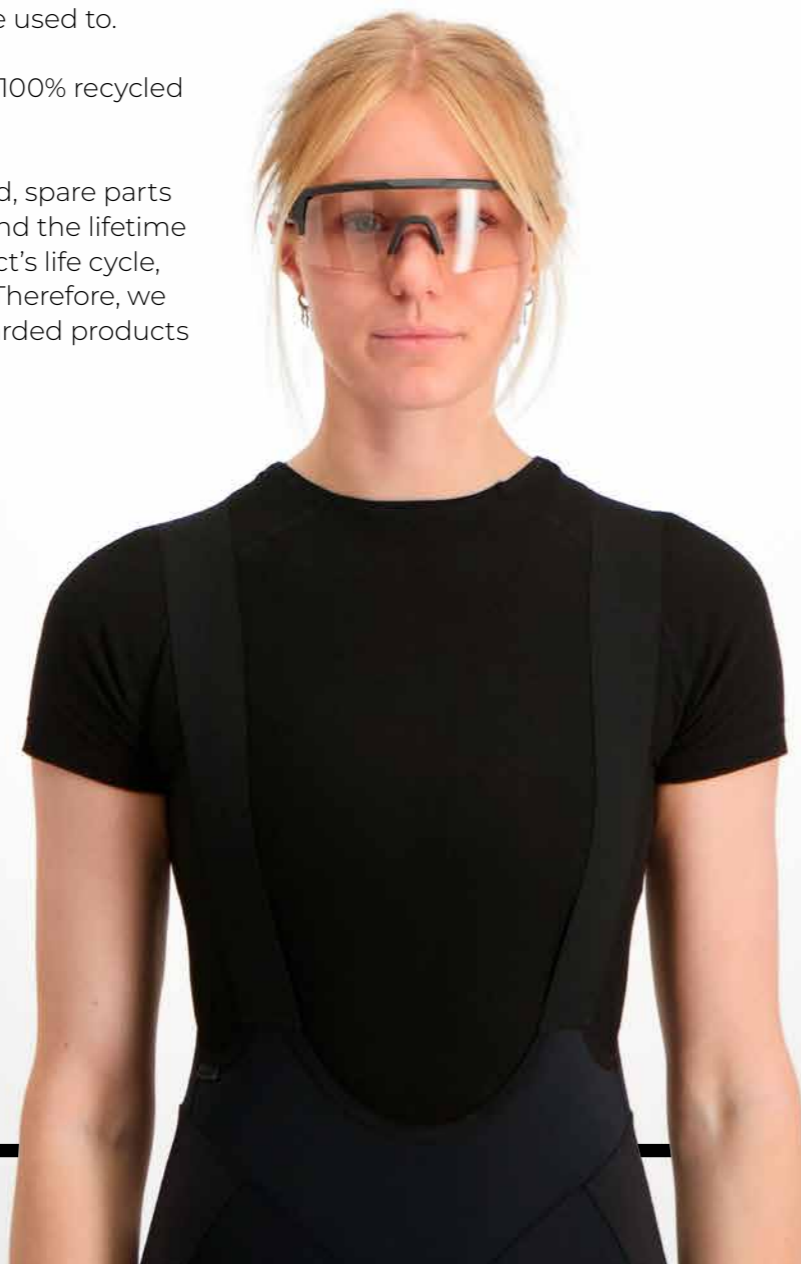

All about our cycling glasses

Eye protection: not only useful when the sun is shining, but also when little critters are trying to fly into your eyes and mud and dust are flying around your ears. And you also earn bonus points for style and looks. That is almost as important. Whichever one you choose, they all come in a pouch or a case for the more luxurious models. So that they are safe when you take them with you.

The frame of almost all our glasses will be made of RILSAN® Clear G850 Rnew® from 2024. This sustainable material uses 45% biobased raw materials derived from the castor plant. Using this material helps us reduce the carbon footprint of this product, while maintaining the high performance properties you are used to.

The cleaning pouch is made of 100% recycled PET (rPET) bottles.

If your lenses become damaged, spare parts and lenses are available to extend the lifetime of the product. After the product's life cycle, these glasses can be recycled. Therefore, we ask you to dispose of your discarded products properly.

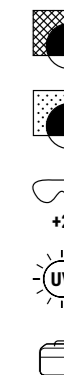

FULLVIEW HC | BSG-70

With the High Contrast (HC) lens you will see the world as never before

- » Large size Toric Multi Layer Coating (MLC) lens for an uncompromised field of vision
- » The anti-scratch, anti-fog, and oleophobic layer give you a clear view on the road
- » Made of high-end unbreakable Grilamid
- » Rubber temple tips for good grip on the head
- » Adjustable rubber nose piece

Starting from 2024 this frame will be made of a bio based material.

Adjustable nose piece	Yes
Material lens	Polycarbonate (PC)
Lens type	MLC (MultiLayer Coating), High contrast
Lens category	0, 1, 3
Lens coating	Oleophobic
Included spare lenses	Clear, Yellow
Color name	matt black/red MLC, matt black/silver mirror, matt white/blue MLC, transparent/silver mirror

FULLVIEW PH MLC | BSG-70PH

Photochromic lenses with a light transmission of 63-16% (Cat.1-3)

- » Large size Toric Multi Layer Coating (MLC) lens for an uncompromised field of vision
- » The anti-scratch, anti-fog, and oleophobic layer give you a clear view on the road
- » Made of high-end unbreakable Grilamid
- » Rubber temple tips for good grip on the head
- » Adjustable rubber nose piece

Starting from 2024 this frame will be made of a bio based material.

Adjustable nose piece	Yes
Material lens	Polycarbonate (PC)
Lens type	MLC (MultiLayer Coating), Photochromic (PH)
Lens category	1, 2, 3
Lens coating	Anti-fog, Oleophobic
Color name	matt black/gold MLC

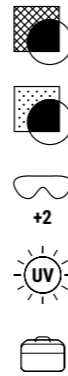

COMMANDER | BSG-61

3 step temple length adjustment system

- » Blocking system prevents the temple tips from damaging the lenses while folded inwards
- » Adjustable rubber nose piece
- » Comes with three lenses; smoke/mlc, yellow and clear (cat. 3/1/0)
- » Futuristic design with genius lens changing system

Adjustable nose piece	Yes
Material lens	Polycarbonate (PC)
Lens type	MLC (MultiLayer Coating), Smoke
Lens category	0, 1, 3
Lens coating	Anti-fog, Hydrophobic
Included spare lenses	Clear, Yellow
Color name	glossy black/silver MLC, glossy white/silver MLC

COMMANDER PH | BSG-61PH

Photochromic lenses with a light transmission of 85-17%

- » 3 step temple length adjustment system
- » Block system prevents the temple tips from damaging the lenses while folded inwards
- » Adjustable rubber nose piece
- » Futuristic design with genius lens changing system

Adjustable nose piece	Yes
Material lens	Polycarbonate (PC)
Lens type	Photochromic (PH)
Lens category	0, 1, 2, 3
Lens coating	Anti-fog, Hydrophobic
Color name	glossy metallic black

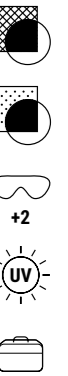

FULLVIEW | BSG-63

The frameless design gives an open and lightweight feel

- » Made of high-end unbreakable Grilamid
- » Adjustable rubber nose piece
- » Comes with three lenses; smoke/mlc, yellow and clear (cat. 3/1/0)

Adjustable nose piece	Yes
Material lens	Polycarbonate (PC)
Lens type	MLC (MultiLayer Coating), Smoke
Lens category	0, 1, 3
Included spare lenses	Clear, Yellow
Color name	glossy black/flash mirror, glossy white/flash mirror, glossy cobalt blue/blue MLC

FULLVIEW PH | BSG-63PH

Photochromic lenses with a light transmission of 85-17% (Cat. 0-3)

- » The frameless design gives an open and lightweight feeling
- » Made of high-end unbreakable Grilamid
- » Adjustable rubber nose piece
- » One lens provides you with category 0, 1, 2 and 3 levels of eye protection

Adjustable nose piece	Yes
Material lens	Polycarbonate (PC)
Lens type	Photochromic (PH)
Lens category	0, 1, 2, 3
Lens coating	Anti-fog
Color name	glossy metallic black

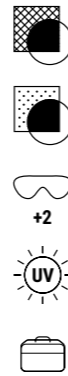

FUSE | BSG-65

Semi-flat and centered (Toric) lens that doesn't deform your vision while the lens has a big and modern look. For an uncompromised field of vision.

- » Rubber nose piece with infinite adjustment options for an ideal fit
- » With strategically placed air vents to prevent the lens from fogging up
- » Frame made of high-end unbreakable Grilamid
- » Comes with three lenses; smoke/mlc, yellow and clear (cat. 3/1/0)

Starting from 2024 this frame will be made of a bio based material.

Adjustable nose piece	Yes
Material lens	Polycarbonate (PC)
Lens type	MLC (MultiLayer Coating), Smoke
Lens category	0, 1, 3
Included spare lenses	Clear, Yellow
Color name	matt black/flash mirror, matt white/orange MLC, matt black/gold MLC, transparent grey/silver MLC, matt white/flash mirror

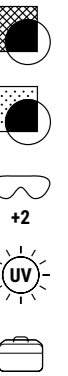

IMPULSE | BSG-62

Sports glasses with special magnetic lens changing system

- » Interchangeable polycarbonate lenses
- » Soft touch temple tips for a firm fit and comfortable wear
- » Comes with three lenses; smoke/mlc, yellow and clear (cat. 3/1/0)

Starting from 2024 this frame will be made of a bio based material.

Adjustable nose piece	Yes
Material lens	Polycarbonate (PC)
Lens type	MLC (MultiLayer Coating), Smoke
Lens category	0, 1, 3
Included spare lenses	Clear, Yellow
Color name	glossy black/silver MLC, glossy white/silver MLC

FUSE PH | BSG-65PH

Semi-flat and centered (Toric) lens that doesn't deform your vision while the lens has a big and modern look

- » Rubber nose piece with infinite adjustment options for an ideal fit
- » With strategically placed air vents to prevent the lens from fogging up
- » Frame made of high-end unbreakable Grilamid
- » With a choice of two variants of photochromic lenses, an '4 seasons' or 'summer' PH

Starting from 2024 this frame will be made of a bio based material.

Adjustable nose piece	Yes
Material lens	Polycarbonate (PC)
Lens type	Photochromic (PH)
Lens category	0, 1, 2, 3
Lens coating	Anti-fog
Color name	matt black, matt black/blue MLC, matt black/red MLC

IMPULSE PH | BSG-62PH

Sports glasses with special magnetic lens changing system

- » Photochromic lenses with a light transmission of 85-17% (Cat.0-3)
- » Soft touch temple tips for a firm fit and comfortable wear

Starting from 2024 this frame will be made of a bio based material.

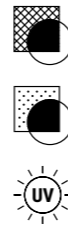

Adjustable nose piece	Yes
Material lens	Polycarbonate (PC)
Lens type	Photochromic (PH)
Lens category	0, 1, 2, 3
Lens coating	Anti-fog
Color name	glossy metallic black

CHESTER | BSG-69

“Hidden” full frame design with large size Toric lens

- » With MLC coating for an even coloured lens
- » Made of high-end unbreakable Grilamid
- » Rubber temple tips for good grip on the head
- » Adjustable rubber nose piece

Starting from 2024 this frame will be made of a bio based material.

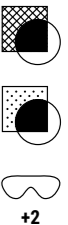

Adjustable nose piece	Yes
Material lens	Polycarbonate (PC)
Lens type	MLC (MultiLayer Coating)
Lens category	3
Color name	matt black/blue MLC, blue/silver MLC, neon yellow/fluor MLC, matt white/flash mirror, glossy black/flash mirror, matt black/orange-red MLC

IMPRESS | BSG-58

Frame made out of lightweight Hi-impact PC material

- » Adjustable rubber nose piece
- » Comes with three lenses; smoke/mlc, yellow and clear (cat. 3/1/0)

Adjustable nose piece	Yes
Material lens	Polycarbonate (PC)
Lens type	MLC (MultiLayer Coating), Smoke
Lens category	0, 1, 3
Included spare lenses	Clear, Yellow
Color name	matt black/flash mirror, matt white/flash mirror, glossy red/red MLC, neon yellow/flash mirror, glossy black/blue MLC

CHESTER PH | BSG-69PH

Photochromic lenses with a light transmission of 82-17% (Cat.0-3)

- » “Hidden” full frame design with large size Toric lens
- » Made of high-end unbreakable Grilamid
- » Rubber temple tips for good grip on the head
- » Adjustable rubber nose piece
- » Also available in version with color coating (PH MLC)

Starting from 2024 this frame will be made of a bio based material.

Adjustable nose piece	Yes
Material lens	Polycarbonate (PC)
Lens type	MLC (MultiLayer Coating), Photochromic (PH)
Lens category	3
Color name	matt black/gold MLC, glossy black

IMPRESS PH | BSG-58PH

Photochromic lenses with a light transmission of 85-17%

- » Frame made out of lightweight Hi-impact PC material
- » Adjustable rubber nose piece

Adjustable nose piece	Yes
Material lens	Polycarbonate (PC)
Lens type	Photochromic (PH)
Lens category	0, 1, 2, 3
Color name	matt black

IMPRESS SMALL | BSG-68

Sports glasses especially designed for cyclists with a smaller head

- » Frame made of lightweight Hi-impact PC material
- » Adjustable rubber nose piece
- » Comes with three lenses; smoke/mlc, yellow and transparent (cat. 3/1/0)

Adjustable nose piece	Yes
Material lens	Polycarbonate (PC)
Lens type	MLC (MultiLayer Coating), Smoke 0, 1, 3
Lens category	0, 1, 3
Included spare lenses	Clear, Yellow
Color name	matt black/smoke, glossy black/smoke, glossy red/smoke, matt white/smoke

IMPRESS DISPLAY BOX | BSG-60D

Display box with 12pcs

- » Choice out of a Smoke, Yellow or Clear lens
- » No spare lenses included

Adjustable nose piece	Yes
Material lens	Polycarbonate (PC)
Lens category	0, 1, 3
Color name	smoke, clear, yellow

IMPRESS SMALL PH | BSG-68PH

Photochromic lenses with a light transmission of 85-17%. (Cat.0-3)

- » Sport glasses especially designed for cyclists with a smaller head
- » Frame made of lightweight Hi-impact PC material
- » Adjustable rubber nose piece

Adjustable nose piece	Yes
Material lens	Polycarbonate (PC)
Lens type	Photochromic (PH)
Lens category	0, 1, 2, 3
Color name	matt black

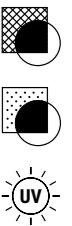

SPECTRE | BSG-66

Casual style sports glasses with sportive features

- » Rubber temple tips and nose piece for a comfortable and secure fit
- » Made of high-end unbreakable Grilamid

Starting from 2024 this frame will be made of a bio based material.

Adjustable nose piece	No
Material lens	Polycarbonate (PC)
Lens type	MLC (MultiLayer Coating), Smoke
Lens category	3
Color name	matt black/flash mirror, matt tortoise/silver MLC, matt black/gold MLC

SPECTRE PH | BSG-66PH

Photochromic lenses with a light transmission of 85-17% (cat. 0-3)

- » Casual style sports glasses with sportive features
- » Rubber temple tips and nose piece for a comfortable and secure fit
- » Made of high-end unbreakable Grilamid

Starting from 2024 this frame will be made of a bio based material.

Adjustable nose piece	No
Material lens	Polycarbonate (PC)
Lens category	0, 1, 2, 3
Color name	matt black

KIDS | BSG-54

Sunglasses specially designed for children

- » Durable frame with one piece polycarbonate lens

Adjustable nose piece	No
Material lens	Polycarbonate (PC)
Lens type	Smoke
Lens category	3
Color name	glossy black/smoke, glossy red/smoke, glossy white/smoke, matt green/smoke, neon yellow/smoke

TOWN | BSG-56

Sportive casual sunglasses with polycarbonate frame

- » Polarized lenses reduce glare on surfaces like flat roads

Adjustable nose piece	No
Material lens	Polycarbonate (PC)
Lens type	MLC (MultiLayer Coating), Polarized, Smoke
Lens category	3
Color name	glossy black/zilver MLC, matt black/smoke, matt black/red/red MLC

IMPULSE READER PH | BSG-64PH

Lenses with reading area for people with far-sighted vision

- » Available in +1.5, +2.0, +2.5
- » Photochromic lenses with a light transmission of 85-17%
- » Sports glasses with special magnetic lens changing system
- » Soft touch temple tips for a firm fit and comfortable wear

Starting from 2024 this frame will be made of a bio based material.

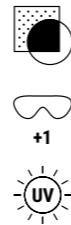

Adjustable nose piece	Yes
Material lens	Polycarbonate (PC)
Lens type	Photochromic (PH)
Color name	matt black

IMPRESS READER | BSG-59

Lenses with reading area for people with far-sighted vision

- » Frame made of lightweight Hi-impact PC material
- » Adjustable rubber nose piece
- » Comes with an additional clear lens for dark conditions

Adjustable nose piece	Yes
Material lens	Polycarbonate (PC)
Lens type	Smoke
Lens category	0, 3
Included spare lenses	Clear
Color name	glossy black/flash mirror

SPECTRE READER PH | BSG-67PH

Lenses with reading area for people with far-sighted vision

- » Available in +1.5, +2.0, +2.5
- » Photochromic lenses with a light transmission of 85-17%. (Cat.0-3)
- » Casual style sports glasses with sportive features
- » Rubber temple tips for a comfortable and secure fit
- » Rubber nosepiece for a comfortable fit

Adjustable nose piece	No
Material lens	Polycarbonate (PC)
Lens type	Photochromic (PH)
Lens category	0, 1, 2, 3
Color name	matt anthracite

IMPRESS READER PH | BSG-59PH

Photochromic lenses with a light transmission of 85-17%

- » Frame made of lightweight Hi-impact PC material
- » Adjustable rubber nose piece
- » Lenses with reading area for people with far-sighted vision
- » One lens provides you with category 1, 2 and 3 levels of eye protection

Adjustable nose piece	Yes
Material lens	Polycarbonate (PC)
Lens type	Photochromic (PH)
Lens category	0, 1, 2, 3
Color name	matt black

IMPULSE OPTIC | BSG-71

With insert frame for prescription lenses, suited for lenses with a dioptre from -6 to +6

- » Comes with three interchangeable lenses; smoke/mlc, yellow and clear (cat. 3/1/0)
- » Soft touch temple tips and adjustable nose piece for a firm fit and comfortable wear
- » Outer lenses are easy to switch by the magnetic lens exchange system

Starting from 2024 this frame will be made of a bio based material.

Adjustable nose piece	Yes
Material lens	Polycarbonate (PC)
Lens type	Smoke
Lens category	0, 1, 3
Included spare lenses	Clear, Yellow
Color name	matt black/flash mirror

IMPULSE OPTIC PH | BSG-71PH

With insert frame for prescription lenses, suited for lenses with a dioptrre from -6 to +6

- » Photochromic lenses with a light transmission of 85-17% (cat. 0-3)
- » Soft touch temple tips and adjustable nose piece for a firm fit and comfortable wear
- » Outer lenses are easy to switch by the magnetic lens exchange system

Starting from 2024 this frame will be made of a bio based material.

Adjustable nose piece	Yes
Material lens	Polycarbonate (PC)
Lens type	Photochromic (PH)
Lens category	0, 1, 2, 3
Lens coating	Anti-fog
Color name	matt black

NOFOG | BSG-100

100% plant based lens cleaner with anti-fog properties

- » Comes as a spray can with pump
- » 100% biodegradable within 28 days
- » Produced in a 100% CO2 neutral facility
- » 100% recycled PET packaging
- » 100% free of microplastics

Volume (ml)

OPTIC SET | BSG-72

With insert frame for prescription lenses, suited for lenses with a dioptrre from -6 to +6

- » Nosepiece with 4mm extra offset
- » Fits into several of our sports glasses frames: BSG-61/62/64/69/71

Adjustable nose piece	No
Color name	transparent

FEATURES SPORT GLASSES

Lenses with 100% UV protection.

Sport glasses with interchangeable lenses. Yellow and Clear lenses included.

Sport glasses with interchangeable lenses. Clear lenses included.

Special Hydrofobic coating. In rain, the water will slide of the lenses while riding.

Including carrying case.

PH LENSES – PHOTOCROMIC
Automatically adapt to changing light conditions. They turn dark when it's bright and become virtually clear in low light conditions. Especially the range of light transmittance is unique. BBB's lenses can adapt from allowing 85% - 17% of the available light to pass through.

PC LENSES
All our lenses are made of high quality polycarbonate material irrespective of its finish. A very strong material that due to its properties offers a lot off safety because it high resistance to fracturing from for example stone-chips from the road.

PZ LENSES – POLARIZED
The ideal choice on bright sunny days. Polarized lenses provide a clear view while effectively eliminating glare. PZ lenses allow only direct light to pass through, resulting in a more relaxed and improved view. This prevents distractions from reflection from flat roads, tree leaves or water.

MULTI LAYER COATING (MLC)
A 9-layer coating give MLC lenses their renowned brightness and contrast for the sharpest view under any circumstances. Also the MLC coating lends itself very well in circumstances to reduce glare from road surfaces or snow.

RILSAN® CLEAR G850 RNEW®
The frame of almost all our glasses will be made of RILSAN® Clear G850 Rnew® from 2024. This sustainable material uses 45% biobased raw materials derived from the castor plant. Using this material helps us reduce the carbon footprint of this product, while maintaining the high performance properties you are used to.

NEW!

DISTRICT LED FACESHIELD | BHE-163

Bicycle helmet with integrated LED lighting and faceshield

The visor, protects your face from wind, dust and insects, making your ride more pleasant and safe. It also provides an extra layer of protection from the elements, such as rain and sunlight.

Adjustable visor with enough space under the lens for normal glasses.

Our durable helmet offers lasting protection and eco-consciousness.

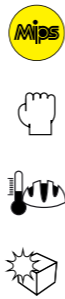

12 front and 10 rear USB rechargeable LED lights.

MAESTRO MIPS | BHE-10

The helmet for winners! Choose the Maestro when you go for extra safety at every fall angle due to MIPS and optimal ventilation during all your rides.

- » With MIPS layer for extra safety
- » Large vents optimize air flow and ventilation on all rides
- » The HaloGuard construction gives strength and safety
- » A very aerodynamic helmet due to its compact profile
- » The Omega fit system is integrated with the MIPS layer for optimal safety and comfort

Air vents	17
Internal structure	HaloGuard
Shell construction	InMold (multi-shell)
Retention system	Omega
Dividers	Sliding system
MIPS	B1
Complies with	EN-1078
Weight (g)	305, 335, 370
Sizes	S, M, L
Color name	matt black, matt white, neon yellow, matt olive green

MAESTRO | BHE-09

The helmet for winners! When you go for safety and optimal ventilation during all your rides.

- » Helmet with the perfect balance between aerodynamics and ventilation
- » HaloGuard inner cage for optimal ventilation and safety
- » Omega Fit System, adjust height and circumference easily for maximum comfort
- » Lightweight multi angle strap dividers
- » Lightweight adjustable straps for a perfect and comfortable fit

Air vents	17
Internal structure	HaloGuard
Shell construction	InMold (multi-shell)
Retention system	Omega
Dividers	Sliding system
Complies with	EN-1078
Weight (g)	270, 295, 325
Sizes	S, M, L
Color name	glossy black, glossy white, matt black, matt grey

HAWK MIPS | BHE-153

Lightweight helmet due to its compact design

- » With 21 air vents for great ventilation
- » With MIPS layer for extra safety
- » SpiderWeb inner reinforcement structure for extra safety
- » The fit system can easily be adjusted with one hand
- » Reflective elements on the rear provide extra visibility on the road

Air vents	21
Internal structure	Spiderweb
Shell construction	InMold (single shell)
Retention system	Omega
MIPS	C2
Complies with	EN-1078
Weight (g)	295, 320
Sizes	M, L
Color name	matt black, matt white, matt blue

HAWK | BHE-151

Road helmet with 21 air vents for great ventilation

- » Lightweight helmet due to its compact design
- » SpiderWeb inner reinforcement structure for extra safety
- » The fit system can easily be adjusted with one hand
- » Reflective elements on the rear provide extra visibility

Air vents	21
Internal structure	Spiderweb
Shell construction	InMold (single shell)
Retention system	Omega
Dividers	Sliding system
Complies with	EN-1078
Weight (g)	265, 290
Sizes	M, L
Color name	matt black, matt olive green, glossy white

DUNE MIPS 2.0 | BHE-22B

Versatile helmet with MIPS technology for extra protection

- » With removable rear light bracket for the BLS-147 Spot or BLS-236 Slide.
- » With removable visor
- » Lowered rear and temple provide extra protection
- » The 14 vents provide great ventilation
- » The fit system can easily be adjusted with one hand

Air vents	14
Shell construction	InMold (single shell)
Dividers	Sliding system
MIPS	C2
Complies with	AS/NZL-2063, CPSC, EN-1078
Weight (g)	270, 320, 350
Sizes	S, M, L
Color name	matt grey/white, matt black, neon yellow

CONDOR 2.0 MIPS | BHE-174

Hybrid helmet with MIPS technology for extra protection

- » The Omicron fit system is adjustable in height and circumference for optimal comfort and safety
- » With stylish and easy to remove visor
- » The insectnet on the most frontal air wholes keeps insect out of your helmet
- » With integrated bracket for our Spot rear light
- » Certified according to the CE, CPSC and AS standards

Air vents	13
Shell construction	InMold (single shell)
Retention system	Omicron
Dividers	Sliding system
MIPS	B1
Complies with	EN-1078
Weight (g)	330, 355
Sizes	M, L
Color name	matt black, matt white

KITE 2.0 | BHE-29B

Allround road and mountain bike helmet with removable visor

- » Lowered rear and temple provide extra protection
- » With removable rear light bracket for our Spot rear light
- » Fitted with the new Omicron fit system, adjustable in height and circumference
- » The insect net keeps the bugs out of the helmet
- » Complies with CE/CPSC and AS standard

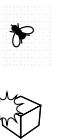

Air vents	14
Shell construction	InMold (single shell)
Retention system	Omicron
Dividers	Sliding system
Complies with	AS/NZL-2063, CPSC, EN-1078
Weight (g)	260, 300, 310
Sizes	S, M, L
Color name	matt black, matt white, glossy blue, neon yellow, glossy red, matt grey

CONDOR 2.0 | BHE-173

Hybrid helmet with replaceable visor

- » Equipped with thick padding for a comfortable fit
- » The Omicron fit system is adjustable in height and circumference for optimal comfort and safety
- » With integrated bracket for our Spot rear light
- » Certified according to the CE, CPSC and AS standards

Air vents	13
Shell construction	InMold (single shell)
Retention system	Omicron
Dividers	Sliding system
Complies with	EN-1078
Weight (g)	315, 340
Sizes	M, L
Color name	matt black, glossy black, glossy white

SHORE | BHE-59

Robust mountain bike helmet with adjustable visor

- » Extra coverage at rear and temple area
- » The Omicron fit system is in height and circumference adjustable for maximum comfort and safety
- » Highly ventilated helmet
- » Lightweight multi angle strap dividers
- » Quick drying padding for extra comfort

Shell construction	InMold (multi-shell)
Retention system	Omicron
Dividers	Sliding system
Complies with	AS/NZL-2063, EN-1078
Weight (g)	355, 385
Sizes	M, L
Color name	matt black, matt heritage blue, matt grey

INDRA FACESHIELD | BHE-56F

Speed pedelec and cycling helmet especially designed according to the NTA-8776 regulations

- » Adjustable visor with Smoke or Clear lens and room underneath for your normal glasses
- » Offers the rider up to 40% more protection than conventional helmets
- » Double In-mold shell for optimal strength and durability
- » Venturi ventilation system increases the airflow over the head
- » Omega Fit System, adjust height and circumference easily for maximum comfort

Air vents	8
Shell construction	InMold (multi-shell)
Retention system	Omega
Dividers	Sliding system
Complies with	EN-1078, NTA-8776
Weight (g)	385, 410
Sizes	M, L
Color name	matt black/smoke, matt black/transparent

NANGA | BHE-54

Mountain bike helmet with lower rear and temples for extra protection

- » With a large visor to protect your eyes against the sun
- » ABS shell for more durability than conventional helmets
- » Including camera mount to fit a camera or BBB headlight on the helmet
- » Easy TwistClose adjustment system, can be adjusted with one hand

Air vents	15
Shell construction	Hard Shell (ABS)
Dividers	Sliding system
Complies with	EN-1078
Weight (g)	391, 404
Sizes	M, L
Color name	matt black, matt olive green, matt grey/white

INDRA SPEED 45 | BHE-56

Speed pedelec and cycling helmet designed according to the NTA-8776 regulations

- » Offers you up to 40% more protection than conventional helmets
- » Double In-mold shell for optimal strength and durability
- » Venturi ventilation system increases the airflow over the head
- » Omega Fit System, adjust height and circumference easily for maximum comfort
- » Optimized quick drying padding design for optimum airflow

Air vents	8
Shell construction	InMold (multi-shell)
Retention system	Omega
Dividers	Sliding system
Complies with	EN-1078, NTA-8776
Weight (g)	310, 350
Sizes	M, L
Color name	matt black

MOVE FACESHIELD | BHE-57

Speed pedelec and e-bike helmet to use in and around the city

- » Offers you up to 40% more protection than conventional helmets
- » Adjustable visor with clear lens and room underneath for your normal glasses
- » Double In-mold shell for optimal strength and durability
- » With integrated LED rearlight
- » Designed according to the NTA-8776 regulations

Air vents	12
Shell construction	InMold (multi-shell)
Dividers	Sliding system
Complies with	EN-1078, NTA-8776
Weight (g)	360, 380
Sizes	M, L
Color name	matt black, neon yellow, matt grey

DISTRICT LED | BHE-162

E-bike helmet with integrated lights

- » Durable hardshell for a longer product lifetime
- » 12 front and 10 rear USB rechargeable LED lights
- » Flash mode activates when battery is low, extending runtime with over 4 hours
- » Sustainable choice by the partial recycled EPS construction

Air vents	14
Shell construction	Hard Shell (ABS)
Dividers	Sliding system
Complies with	AS/NZL-2063, EN-1078
Sizes	M/L
Color name	matt black

DISTRICT LED FACESHIELD | BHE-163

E-bike helmet with faceshield and integrated lights

- » Durable hardshell for a longer product lifetime
- » 12 front and 10 rear USB rechargeable LED lights
- » Flash mode activates when battery is low, extending runtime with over 4 hours
- » Adjustable transparent (cat. 0) faceshield fits over regular glasses
- » Sustainable choice by the partial recycled EPS construction

Shell construction	Hard Shell (ABS)
Dividers	Sliding system
Complies with	AS/NZL-2063, EN-1078
Sizes	M/L
Color name	matt black

GRID | BHE-161

A city- and e-bike helmet that will get you through city traffic safely and in style.

- » Its 10 vents provide both style and good ventilation
- » With rear LED light for extra safety
- » Reflective elements on the rear for extra visibility

Air vents	10
Shell construction	InMold (single shell)
Dividers	Sliding system
Complies with	EN-1078
Weight (g)	295, 330
Sizes	M, L
Color name	matt black, neon yellow, matt grey/white

GRIDECO | BHE-161ECO

Helmet made out of 40% recycled and natural materials.

- » Made of cork, recycled PC, PET bottles and bamboo fiber
- » Its 10 vents provide both style as good ventilation.
- » With rear LED light and reflective elements for extra safety
- » The fit system can easily be adjusted with one hand
- » With removable cork visor and comes with extra padding

Air vents	10
Shell construction	InMold (single shell)
Dividers	Sliding system
Complies with	EN-1078
Weight (g)	305, 340
Sizes	M, L
Color name	matt black

WAVE | BHE-150

Comfortable fitting youth helmet that improves your appearance

- » ABS shell for more durability than conventional helmets
- » Added safety due to the reflective straps and decals
- » Simple to operate fit system, can be adjusted with one hand

Air vents	10
Shell construction	Hard Shell (ABS)
Dividers	Sliding system
Complies with	EN-1078
Weight (g)	380, 420
Sizes	S, M
Color name	matt green, matt black

SONAR | BHE-171

Youth helmet with rear LED light for extra safety

- » Low coverage at the rear provides extra protection
- » Reflective elements on the rear for extra visibility
- » The 10 vents provide good ventilation
- » The fit system can easily be adjusted with one hand

Air vents	10
Shell construction	InMold (single shell)
Dividers	Sliding system
Complies with	EN-1078
Weight (g)	260
Sizes	M
Color name	matt black, glossy blue, glossy red, matt white

HERO | BHE-172

Allround helmet specifically designed for small children

- » Comes with chin pad for extra comfort
- » Fit system can be easily adjusted
- » Reflective elements on the rear for extra visibility
- » The insect net in the padding keeps the bugs out of the helmet
- » The in-mold construction provides superior safety

Air vents	11
Shell construction	Infusion
Dividers	Sliding system
Complies with	EN-1078
Weight (g)	229, 249
Sizes	S, M
Color name	green avocado, dark grey sloth, dark orange tiger, firefighter, astronaut, pink palmtrees

AEROTOP | BHE-62

Wind tunnel tested time trial and triathlon helmet

- » The front air vent and inner air channels provide ventilation at high speed
- » Features a hydrophobic anti-fog coating, clear faceshield separately available
- » Omega Fit System, adjust height and circumference easily for maximum comfort
- » Easy adjustable strap dividers
- » Optimized quick drying padding design for optimum airflow

Air vents	1
Shell construction	InMold (single shell)
Retention system	Omega
Dividers	Sliding system
Complies with	EN-1078
Weight (g)	354
Sizes	M
Color name	matt black

FEATURES HELMETS

When you are cycling intensively, you produce a lot of heat. Overheating your body will reduce your performance. Because of the large surface of your head, up to 40% of the bodies heat can be dissipated by your head. Wearing a helmet reduces the ability for the body to accommodate that. That's why we have invented the Airflow Cooling System (ACS) helmet. Due to the special design of the shape of the foam and padding, the air is drawn in and channelled to pass around and over your head. This guarantees optimum balance between safety and wearer comfort.

Anti insect net inside the helmet.

Reflective accents.

Lenses with 100% UV protection.

Complies with NTA-8776 the Dutch Speed Pedelec helmet standard.

Washable pads. Replacement pads are available for all helmets.

HELMETSHIELD | BHE-76

Universal silicon helmet cover

- » Protects your head against rain, cold and wind
- » Fits on almost any helmet

Sizes	Universal
Color name	black

NEW!

POWERFIT 2.0 | BBW-428

Raised waist with suspenders for perfect fit to the body

A newly designed raised waist ensures a great fit and provides full support for the entire body. Combined with braces, it stays perfectly close to your body while cycling.

Lightweight and breathable braces.

Originals padding. Made from one piece of foam, for a great fit and optimal freedom of movement.

Powerband at the bottom.

AEROTECH | BBW-406

Lightweight jersey with aerodynamic sleeves

- » Lightweight and aerodynamic design for optimal performance
- » Enhanced breathability with subtle mesh panels on the sides
- » Increased visibility with additional reflection at the back
- » Secure fit with a silicone gripper at the bottom

Composition	86% Polyester 14% Elasthane
Materials	Aerolite

Sizes	M, L
Color name	black

CLACCICO WINTER | BBW-495

Cycling cap to protect you against the elements

- » Front panel is made of wind blocker material
- » Additional windproof ear-panel to cover up those ears, with small perforation
- » Made of thermo fabric to keep your head warm
- » Comfortable and elastic for optimal comfort
- » Reflective print at the bottom to keep you seen

Temperature	- 0 °C, 0 - 5 °C
Windproof	Yes
Reflective	Silver
Thermo	Yes

THERMAL CAP | BBW-299

Cycling cap made of Thermo fabric

- » Longer back end with small insert for ponytail
- » Flat lock stitched seams for extra comfort
- » Fits comfortably under your helmet
- » One size fits all

Composition	94% polyester, 6% elasthane
Materials	Thermofabric
Temperature	0 - 5 °C, 5 - 10 °C
Windproof	No
Thermo	Yes
Sizes	Universal
Color name	black

FIRHAT | BBW-494

Great moister wicking and fast drying fabric to give you a comfortable feeling

- » Comfortable to wear thanks to the seamless construction

Materials	Far Infrared
Temperature	- 0 °C, 0 - 5 °C
Windproof	No
Thermo	Yes
Sizes	M, L
Color name	black

FULLHEAD | BBW-100

Balaclava for cyclists made of Thermo material

- » Flat lock stitched seams for extra comfort
- » One size fits all

Composition	94% polyester, 6% elasthane
Materials	Thermofabric
Temperature	- 0 °C
Windproof	No
Thermo	Yes
Sizes	Universal
Color name	black

THERMAL HEADBAND | BBW-300

Headband made of Thermo fabric

- » Longer back end with small insert for ponytail
- » Flat lock stitched seams for extra comfort
- » Fits comfortably under your helmet
- » One size fits all

Composition	94% polyester, 6% elastane
Materials	Thermofabric
Temperature	5 - 10 °C
Windproof	No
Thermo	Yes
Sizes	Universal
Color name	black

CLASSICO | BBW-253

Cycling cap that keeps rain and sweat out of your eyes

- » Four-panel construction
- » Elastic stretch at the back
- » One size fits all

Composition	100% polyester
Temperature	5 - 10 °C, 10 - 15 °C, 15 - 20 °C
Windproof	No
Thermo	No
Sizes	Universal
Color name	black, white

COMFORTCAP | BBW-293

Cycling cap to keep sweat out of your eyes

- » Lycra band for a perfect fit
- » Mesh top panel for extra ventilation
- » One size fits all

Composition	80% polyester, 20% elastane
Temperature	10 - 15 °C, 15 - 20 °C, 20 - 25 °C
Windproof	No
Thermo	No
Sizes	Universal
Color name	white, black

FIRNECK | BBW-492

Far Infrared basically reflects your own body heat to keep you warm

- » Great moisture wicking and fast drying fabric to give you a comfortable feeling
- » Comfortable to wear thanks to the seamless construction

Composition	34% FIR polyester, 6% elastane, 60% polyamide
Materials	Far Infrared
Temperature	- 0 °C, 0 - 5 °C, 5 - 10 °C
Windproof	No
Thermo	Yes
Sizes	Universal
Color name	black/red

COMFORTHEAD | BBW-99

Bandana with high moisture absorbing capacity

- » Fast drying fabric
- » Seamless construction
- » One size fits all

Composition	100% polyester
Temperature	10 - 15 °C, 15 - 20 °C, 20 - 25 °C
Windproof	No
Thermo	No
Sizes	Universal
Color name	black, white

COMFORTNECK | BBW-297

The ComfortNeck can be worn in several different ways

- » Fast drying fabric
- » Seamless construction
- » One size fits all

Composition	100% polyester
Temperature	5 - 10 °C, 10 - 15 °C
Windproof	No
Thermo	No
Sizes	Universal
Color name	black/grey

COLDSHIELD WB LEGWARMERS | BBW-360

Made out of a soft thermo fabric combined with a wind blocker panel at the knee area

- » Made with smart windpanels that do not limit your freedom of movement while still protecting your knees
- » Subtle silicone print on the inside which prevents the leg warmers from moving
- » Made with flatlock stitching to offer great comfort
- » Additional durable reflective added at the legs to make you visible in the dark

Temperature	10 - 15 °C
Windproof	Yes
Reflective	Silver
Thermo	Yes
Sizes	S, M, L, XL
Color name	black

COLDSHIELD WB KNEE WARMERS | BBW-361

Made out of a soft thermo fabric combined with a wind blocker panel at the knee area

- » Made with smart windpanels that do not limit your freedom of movement
- » Subtle silicone print on the inside which prevents the knee warmers from moving
- » Made with flatlock stitching to offer great comfort
- » Additional durable reflective added at the legs to make you visible in the dark

Temperature	10 - 15 °C
Windproof	Yes
Reflective	Silver
Thermo	Yes
Sizes	S, M, L, XL
Color name	black

COMFORTLEGS | BBW-91

Comfortable leg warmers to keep your legs warm

- » Anatomic panel shape for a comfortable fit
- » Flatlock stitched seams for extra comfort
- » Silicone grip on top

Composition	85% polyamide, 15% elasthane
Materials	Thermofabric
Windproof	No
Thermo	Yes
Sizes	S, M, L, XL
Color name	black

COMFORTKNEE | BBW-93

Comfortable knee warmer

- » Made out of a soft thermo fabric
- » Anatomically shaped with a comfortable fit
- » Elastic top and bottom hem with silicone gripper on the inside
- » Made with flatlock seems to offer great comfort

Composition	85% polyamide, 15% elasthane
Materials	Thermofabric
Windproof	No
Thermo	Yes
Sizes	S, M, L, XL
Color name	black

COMFORTARMS | BBW-92

Comfortable armwarmers

- » Made out of a soft thermo fabric
- » Anatomically shaped with a comfortable fit.
- » Elastic top hem with silicone gripper on the inside
- » Made with flatlock seems to offer great comfort.

Composition	85% polyamide, 15% elasthane
Materials	Thermofabric
Windproof	No
Thermo	Yes
Sizes	S, M, L, XL
Color name	black

INNERSHORTS PRO | BUW-61

Lightweight breathable inner shorts with padding

- » Made of quick drying Polyester and spandex material
- » With extra comfortable multi stretch padding
- » Perfect for mountain biking, commuting or hybrid biking

Sizes	XS, S, M, L, XL, XXL, XXXL, XXXXL
Color name	black

COOLLAYER | BUW-07

Allround base layer jersey with seamless body

- » Coolskin is an ultralight and open polypropylene fiber that keeps you cool and dry in warm conditions
- » The open mesh structure promotes airflow between the fabric and the skin
- » The push-pull effect sucks sweat away from your skin and pushes it to the outer layer
- » Flat lock stitched seams for extra comfort

Composition	63% polypropylene, 37% polyamide
Materials	Coolskin
Sizes	XS/S, M/L, XL/XXL
Color name	black

INNERSHORTS | BUW-65

Lightweight breathable inner shorts with padding

- » Made of quick drying Polyester and spandex material
- » Elastic, anti-bacterial padding
- » Perfect for mountain biking, commuting or hybrid biking

Sizes	XS/S, M/L, XL/XXL, XXXL
Color name	black, white

MESH LAYER | BUW-09

Base layer jersey with lightweight open mesh structure for hot weather conditions

- » Made of a technical ultralight and open mesh that keeps you cool and dry thanks to reduced contact area
- » The open mesh structure promotes airflow between the fabric and the skin
- » The push-pull effect sucks sweat away from your skin and pushes it to the outer layer
- » Flat lock stitched seams for extra comfort

Composition	93% polyester, 7% elasthane
Sizes	XS/S, M/L, XL/XXL
Color name	white

FIR LAYER | BUW-20

Far InfraRed technology keeps your body warm and exceptionally comfortable by improving body's metabolism and microcirculation

- » The innovative seamless body construction incorporates rib zones for enhanced body support and increased thermal efficiency
- » 3D mesh zones provides improved perspiration control

Composition	65% polyester, 27% polyamide, 8% elasthane
Materials	Far Infrared
Thermo	Yes
Sizes	XS/S, M/L, XL/XXL
Color name	black

MESH LAYER | BUW-10

Base layer jersey with lightweight open mesh structure for hot weather conditions

- » Made of a technical ultralight and open mesh that keeps you cool and dry thanks to reduced contact area
- » The open mesh structure promotes airflow between the fabric and the skin
- » The push-pull effect sucks sweat away from your skin and pushes it to the outer layer
- » Flat lock stitched seams for extra comfort

Composition	93% polyester, 7% elasthane
Sizes	XS/S, M/L, XL/XXL
Color name	white

NEW!

ECOFEET | BSO-21, 22

Eco-conscious summer cycling sock

This sock is made from COOLMAX® EcoMade yarn made from recycled PET bottles, resulting in a super-comfortable and sustainable choice.

Cuff height of 180 mm.

"Smart design: the various structures in the sock prevent it from shifting while wearing."

MERINO WINTERFEET | BSO-18

The Merino wintersock which last longer

- » Made with high-quality fibers, both natural and artificial, for enhanced durability
- » Cushioned toes and heels for extra comfort
- » Antibacterial
- » Cuff height of 180 mm

Composition	44% Merinowool, 40% Polyamide, 14% Polyester (graphene), 2% Elasthane
Thermo	Yes
Sock height (cm)	18
Sizes	35/38
Color name	black

FIRFEET | BSO-16

Cycling socks with Far InfraRed technology for cold weather conditions

- » Sole made of extra warm fabric for great insulation
- » Far InfraRed technology improving body's metabolism and microcirculation
- » Open structure on top of the sock allows moisture to evaporate easily
- » Seamless toe construction

Composition	41% cotton, 31% polyamide, 25.8% polyester, 2% elasthane, 0.2% ceramic powder
Materials	Far Infrared
Thermo	Yes
Sock height (cm)	15
Sizes	35/38, 39/43, 44/47
Color name	black/red

ECOFEET 18 CM | BSO-21

Sustainable summer cycling sock

- » Made with COOLMAX® EcoMade fibers, from 97% recycled resources
- » Combination of open structure and COOLMAX® EcoMade for enhanced airflow
- » Moisture-wicking technology keeps feet dry and comfortable
- » Smart design keeps the sock in place during activities
- » Cuff height of 180mm

Composition	45% Coolmax Ecomade, 28% Polyamide, 20% Polyester, 8% Elasthane
Thermo	No
Sock height (cm)	18
Sizes	35/38, 39/43, 44/47
Color name	black, white

ECOFEET 18 CM 3P | BSO-22

Multipack with sustainable summer cycling socks

- » Made with COOLMAX® EcoMade fibers, from 97% recycled resources
- » Combination of open structure and COOLMAX® EcoMade for enhanced airflow
- » Moisture-wicking technology keeps feet dry and comfortable
- » Smart design keeps the sock in place during activities
- » Cuff height of 180mm

Composition	45% Coolmax Ecomade, 28% Polyamide, 20% Polyester, 8% Elasthane
Thermo	No
Sock height (cm)	18
Sizes	35/38, 39/43, 44/47
Color name	black, white

COMBIFEET | BSO-06

Set of two pairs of high-tech cycling socks

- » Elastic middle part for a perfect and tight fit around the feet
- » Open structure knitting for breathability
- » Reinforced cuff area

Composition	49% CoolPlus polyester, 24% polyester, 22% polyamide, 5% elasthane
Materials	Coolplus
Thermo	No
Sock height (cm)	10
Sizes	35/38, 39/43, 44/47
Color name	black, white

COMBIFEET 13 CM 3P | BSO-20

Multipack with summer cycling socks

- » Made of Coolplus fibers, which offers faster evaporation
- » Elastic middle part for the perfect fit around the foot
- » Keeps your skin dry and cool for longer periods
- » Open structure knitting for breathability
- » Cuff height of 130mm

Composition	49% CoolPlus polyester, 24% polyester, 22% polyamide, 5% elasthane
Materials	Coolplus
Thermo	No
Sock height (cm)	13
Sizes	35/38, 39/43, 44/47
Color name	black, white

MATERIALS CLOTHING / SHOE COVERS / GLOVES / SOCKS

AEROLITE

High-performance fabric with excellent dissipation of moisture and maximum breathability for a high comfort level. Muscular compression and excellent stretch ensure maximum freedom of movement.

AIRDRY

The ultimate in breathability. This four-way stretch polyester mesh has excellent ventilation properties.

AMARA

Maintenance free, vegan suede for a very natural feel.

AQUATECH 10.000

A 100% wind and waterproof breathable membrane for ultimate protection. The microscopic pores are impervious to water (10.000mm/H2O) but allow vapor to pass through from the inside (10.000g/m2/24H). So you will stay dry and avoid overheating.

CARVICO ATLANTA PLUS

High-performance fabric, perfect muscular compression

CARVICO REVOLUTIONAL ENERGY

Excellent muscular compression.

CLARINO

Artificial leather which simulates suede and top-grain leather.

COMFORTPLUS

Very lightweight Polyester material that controls the body temperature perfectly by absorbing and expelling body transpiration.

COOLMAX

Garments made with COOLMAX® fiber transport moisture away from the body to the surface of the breathable fabric where it evaporates quickly. This creates a highly desired cooling effect that helps the wearer stay dry and comfortable to optimize performance.

COOLPLUS

Cool Plus textiles wick sweat away from your skin very quickly for faster evaporation. This keeps your skin dry and cool for longer periods and the fabric does not stick to your body.

HALUCIN ISOLATION

A very soft and flexible isolation made with the intention to keep great dexterity.

MEMORYFOAM

Open channel foam, through which air can move. It also uses your bodyheat to shape to your Preference and body.

FIR

Where normal insulation works through little air bubbles, works Far InfraRed through a whole other concept. The body emits infrared energy in the form of heat that goes straight through normal insulation. Special ceramic microparticles in the fabric of products with the Far InfraRed technology, work like a shield to bounce this energy back to the skin. A second level of insulation that is not affected by moist. Keeping your body warm and comfortable without thick layers of clothing.

COOLSKIN

An ultralight and open polypropylene fiber blend, which is specifically developed and engineered to keep you cool and dry in warm conditions. The open hexagon mesh structure promotes airflow between the fabric and the skin while the push-pull effect of the fabric dissipates moisture away from your skin to the next layer.

DIAMONDSOFT

A high-end technical fabric, 100% polyester laminated with a warm fleece inner liner. The characteristics of this material result in not only a warm jersey that dissipates moisture well, it also spreads the moisture more evenly and quickly over the whole of the fabric.

MESH/ SUPER MESH

An open material, which helps your body transport your sweat. The difference between the two mesh is the more open the structure, the more breathable the fabric is.

NEOPRENE

Water and windproof material with an isolation property.

NEOSKIN

Special anti-bacterial coated neoprene with a soft, smooth surface that water drops on and rolls immediately off.

PORON XRD

PORON® foam is a great for shock absorption, especially when you compare it to regular foams which reflect shocks.

PRIMALOFT

Primaloft is an insulation material that is very breathable and allows the moisture vapor to pass through. This means that even if you get sweaty, the insulation will protect you from getting cold. Primaloft retains body heat perfectly, without being bulky.

PU

Vegan leather, which is washable without getting hard or dry.

SOFTSHELL

Great in most cycling conditions (except heavy rainfall). They are super breathable, relatively lightweight and extremely comfortable.

THERMO+

High-tech fabric that enhances the dissipation of moisture. Excellent insulating features and features a durable water repellent coating.

THERMOFABRIC

Elastic, anti-bacterial fabric. Excellent insulating breathing and moisture transport features. Perfect for semi-cold conditions.

THERMOLITE

Lightweight polyester type fabric with excellent insulating and moisture transport features. Its hollow-core fibers trap air for greater insulation. The larger surface area allows faster evaporation, by speeding moisture away from the skin to the surface of the fabric where it can evaporate more quickly.

TRILITE

A breathable (20.000g/m2/24H) high-end, a lightweight 3-layer material, with wind- and waterproof(20.000mm/H2O) features keeping you dry and warm. A PolyUrethane (PU) membrane is bonded between the highly elastic inner and outer layer material.

TRIOXX

A breathable (20.000g/m2/24H) high-end 3-layer material, with wind and waterproof (20.000mm/H2O) features. The elastic outer material is fixed to the Polyurethane (PU) membrane and is protected on the inside by a fleece layer. Due to this 3-layer technology, your body will be warm and dry during exercise.

WATERFLEX

Advanced coated material of outer polyurethane (PU) rubber with inner Micro-fleece gives the highest level of water resistance, durability, and flexibility.

FEATURES CLOTHING / SHOE COVERS / GLOVES / SOCKS

Designed for men.

Designed for women.

Unisex design.

3 back pockets.

Water repellent.

Water resistant.

Memory foam inserts.

Gel inserts.

Reflective accents.

Touch screen compatible thumb and index finger.

Reinforced.

Terry towel sweat wipe thumb.

Finger straps provide easier glove removal.

Anti-slip palm.

Highly breathable mesh with quick dry function thanks to reduced contact area.

GLOVES SIZING CHART

Just like a jersey, the size of your glove depends on your physical structure. To assist you finding the right size of gloves we have made a glove sizing chart. To determine your glove size you can measure the length and diameter of your hand as illustrated below and by using the corresponding explanation

- A) Measure from the tip of your longest finger to the base of your palm at the wrist to determine the length of your hand. This is your hand length measurement
- B) Wrap the tape measure around your hand at the widest part of the palm and make a fist before taking the measurement.

Use these measurements of your hand to determine your glove size in the gloves sizing chart. Remember the gloves size chart is a reference, based on our average glove. Since we offer a wide range of gloves in different styles and materials, you should always try the gloves at your local BBB Cycling bikeshop. Then we can ensure the best fit and comfort.

GLOVES SIZE	INCHES		CENTIMETERS	
	(A) WIDTH	(B) LENGTH	(A) WIDTH	(B) LENGTH
XS	7"	6.2"	17,8	15,7
S	7.5"	6.7"	19,1	17
M	8"	7.2"	20,3	18,3
L	8.5" - 9"	7.8"	21,6 - 22,9	19,7
XL	9.5" - 10"	8.3"	24,0 - 25,4	21,1
XXL	10.5" - 11"	8.9"	26,7 - 27,9	22,5
XXXL	11.5" - 12"	9.4"	29,2 - 30,5	23,9

CLOTHING SIZING CHART

The size of any individual person depends on his or her physical structure. To assist you finding the right size of garment we refer you to the european sizing chart. Our jerseys are designed to fit both competitive use as well as recreational use. Apply measurements A & B for jersey's and jacket's. They correspond to the measurement of your chest circumference. Use measurements C & D for shorts, bib-shorts, tights, bib-tights. They correspond to the measurement of your waist circumference for men and hips circumference for women.

MATERIALS PADDING

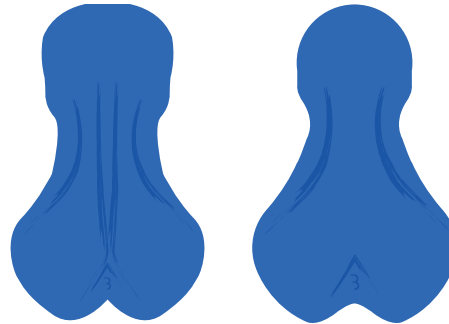

Our cycling shorts provide maximum comfort with chamois suitable for every cyclist. We utilize the "single-piece foam cutting" technique to cut foam from a single piece, enhancing comfort. We have developed chamois for different levels of protection in our Originals, Performance, and Premium segments, for both men and women.

ORIGINAL PADDING Regal 65

Our various Originals padding is designed for medium-long distances (up to 4 hours), has a smooth finish and features a single piece foam cut rubber layer that offers the right protection and support where needed.

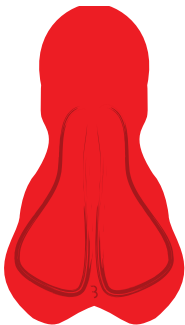

- Top layer** 88% polyester, 12% elastane (grey)
- 1st foam layer** 3 mm open cell polyester, Density 65
- 2nd foam layer** 12 mm polyurethane cut from one piece, Density 65

PERFORMANCE PADDING Valkyrie 90

Our Performance 3D pads with high foam density are designed for long distances (up to 6 hours). The largest share of the protective, high density foam concentrates on the area where it's most needed, which offers simultaneous comfort and a superb fit, as well as outstanding agility. Available in specific designs for men and women.

- Micro cube top layer** 88% polyester, 12% elastane (Blue, mens and womens)
- 1st foam layer** perforated 3 mm open cell polyester, density 65
- 2nd foam layer** 12 mm polyurethane cut from a single piece, density 90

PREMIUM PADDING K-5 120

Our Premium pre-formed, double density pads are designed for long distances (up to 8 hours). The protective, high density 14mm foam concentrates on the area where it's most needed, offering incredible comfort. The Premium pad is anatomically preformed, and offers optimal comfort.

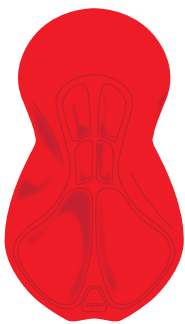

- Carbonium anti-static top layer** 77% polyester, 21% elastane, 2% carbon (red)
- 1st foam layer** perforated 3 mm open cell polyester, density 65
- 2nd foam layer** 14 mm polyurethane cut from a single piece, density 120

UNDERWEAR PADDING Dune 65

A medium-density foam pad, using single piece cutting technology that offers a high degree of protection whilst improving the maximum breathability using high performance material. The middle section in the perineal area and the use of soft fabric reduces chafing and skin irritation.

- Grey top layer** 88% polyester, 12% elastane
- 1st foam layer** 3 mm polyurethane, density 65
- 2nd foam layer** 12 mm polyurethane, density 65*

ELITE 3D PADDING

A 3D shaped padding developed for maximum support and comfort. The 3D cutting technique makes this pad smooth and seamless, lightweight and extremely breathable. It has 4-way stretch and the soft anti-bacterial fabric of the top layer absorbs and wicks moisture away from the skin.

EXPLORER COMFORT | BBW-64

Technically designed glove with reinforcements for shifters and brakes

- » Soft artificial suede palm with gel foam padding to offer great comfort
- » Additional sticky gripper at the palm and index finger
- » Fabric on the palm runs all the way to the top of the fingers for optimal freedom of movement when changing gears
- » Soft and small velcro at the inside of the wrist, which gives great freedom of movement
- » Adventure proof upper which keeps your padding in place

Padding	Full padding
Closure system	Velcro
Antislip	Yes
Sizes	S, M, L, XL, XXL
Color name	black

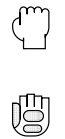

**EXPLORER CONNECTION | BBW-63**

Technically designed glove with reinforcements for shifters and brakes

- » Soft artificial suede palm with sticky gripper for optimal connection with your handlebar
- » Palm comes all the way to the top at your shifting fingers, to avoid limitation in movement
- » Easy access by the folded cuff, which prevents irritation at pressure points
- » Light weight upper for optimal ventilation

Padding	No padding
Closure system	Cuff
Antislip	Yes
Sizes	S, M, L, XL, XXL
Color name	black

**COURSE | BBW-62**

The upper is designed for pure comfort and freedom of movement

- » Palm without padding to create great grip on your handlebar
- » Thin and breathable palm with extra antislip gripper for good handlebar connection
- » Easy access due to the rolled cuff, which prevents irritation
- » Pullers to take the gloves off easily

Composition	51% Polyamid, 29% Polyester, 11% Polyurethan, 9% Elasthan
Padding	No padding
Closure system	Cuff
Antislip	Yes
Sizes	S, M, L, XL, XXL
Color name	black, white

HIGHCOMFORT 2.0 | BBW-59

Soft touch palm with Memory Foam padding for high comfort and silicone anti-slip print.

- » Microfiber thumb for sweat wipe.
- » Finger straps provide easier glove removal.
- » Lycra top area offers excellent comfort and freedom of movement
- » With reflective striping.
- » Velcro strap closure.

Composition	80% polyester, 10% polyamide, 10% elastane
Padding	Full padding
Closure system	Velcro
Reflective	Black
Antislip	Yes
Sizes	S, M, L, XL, XXL
Color name	black, navy blue, grey, red

PAVE | BBW-61

Very comfortable and breathable upper

- » Easy access due to the folded lycra cuff, which prevents irritation at pressure points
- » Technical seamless palm, with heat pressed padding
- » Palm has an additional gripper and finger pullers

Composition	44% Polyamid, 38% Polyester, 16% Elasthan, 2% Polyurethan
Padding	Medium padding
Closure system	Cuff
Antislip	Yes
Sizes	XS, S, M, L, XL, XXL
Color name	black, grey, olive green

SPEED | BBW-60

Clarino palm with Gel Foam padding for high comfort

- » Longer cuffs and one piece upper without wiping surface
- » Finger straps provide easier glove removal
- » Easy entrance strapless closure

Composition	50% polyester, 40% polyamide, 10% elastane
Padding	Full padding
Closure system	Cuff
Antislip	No
Sizes	S, M, L, XL, XXL
Color name	black

COOLDOWN | BBW-56

Maximum ventilation due to open mesh top

- » Breathable palm with foam padding
- » Microfiber moisture wipe thumb
- » Easy pull off straps

Composition	7% polyamide, 93% polyester
Padding	Medium padding
Closure system	Velcro
Antislip	No
Sizes	S, M, L, XL, XXL
Color name	black, red, neon yellow, white

AIRSUPPORT | BBW-65

Soft artificial suede palm with gel foam padding to support your hands and offer great comfort

- » Real summer upper, which offers protection and great breathability
- » Soft and small velcro on the inside of the wrist, which gives great freedom of movement
- » Easy to use finger pullers on the inside of the glove

Padding	Medium padding
Closure system	Velcro
Antislip	No
Sizes	XS, S, M, L, XL, XXL
Color name	black, grey, white

KIDS | BBW-45

Breathable cycling gloves especially designed for children

- » Amara palm with extra foam cushioning
- » Microfiber Wristlock system

Composition	66% polyamide, 5% polyester, 20% polyurethane, 9% elastane
Padding	Medium padding
Closure system	Velcro
Antislip	No
Sizes	S, M, L, XL
Color name	black, red

SUBZERO FULL FINGERS | BWG-34

Eurotex layer made of tough Polyurethane stops cold air and water from entering, keeping your hands warm and dry

- » Clarino reinforced thumb and forefinger
- » Touch screen compatible thumb and index finger
- » Anti-slip palm material with Clarino reinforced gel inserts
- » Comfortable extra long cuff with fleece lining
- » Reflective insert panel at the back of the hand for extra visibility

Composition	68% Polyester, 17% Polyurethan, 6% Polyethylen, 5% Polyamid, 4% Elasthan; Lining: 100% Polyester
Materials	Primaloft
Waterproofness	Waterproof
Windproof	Yes
Condition	Extreme cold and wet days
Touchscreen compatible	Yes
Puller loops	No
Sizes	XS, S, M, L, XL, XXL, XXXL
Color name	black

WATERSHIELD | BWG-32

Competition glove designed to protect in all winter conditions

- » Anatomically pre-curved fingers with knuckle stretch zones for a perfect fit on the handlebar
- » Reflective piping for added visibility
- » 45 mm neoprene cuff with velcro strap
- » Foam padding and silicone prints on palm side for grip and comfort

Composition	Shell: 58% polyamid, 32% polyurethan, 5% polyester, 3% elasthan, 2% polyethylen. Lining: 100% polyester
Waterproofness	Waterproof
Windproof	Yes
Condition	Extreme cold and wet days
Touchscreen compatible	Yes
Puller loops	No
Sizes	XS, S, M, L, XL, XXL, XXXL
Color name	black, neon yellow

SUBZERO 2 X 2 | BWG-35

The split design gives the warmth of a mitten but with added dexterity when operating gears and brakes

- » Eurotex layer made of tough Polyurethane stops cold air and water from entering, keeping your hands warm and dry
- » Clarino reinforced thumb and index finger
- » Anti-slip palm material with Clarino reinforced gel inserts
- » Comfortable extra long cuff with fleece lining
- » Reflective insert panel at the back of the hand for extra visibility

Composition	71% Polyester, 16% Polyurethan, 6% Polyethylen, 4% Elasthan, 3% Polyamid; Lining: 100% Polyester
Materials	Primaloft
Waterproofness	Waterproof
Windproof	Yes
Condition	Extreme cold and wet days
Touchscreen compatible	No
Puller loops	No
Sizes	XS, S, M, L, XL, XXL, XXXL
Color name	black

COLDSHIELD REFLECTIVE | BWG-38

Made with Halucin isolation that is specifically used for its great dexterity

- » Strategically placed Poron XRD foam. For shock absorption and maximum support
- » With big and soft velcro to wear this glove over your jacket
- » Big reflective area gives you a lot of extra visibility

Composition	31% Polyester, 23% Polyamid, 20% Polyurethan, 15% Polyethylen, 6% Elastodien, 5% Elasthan
Materials	Poron XRD
Waterproofness	Water repellent
Windproof	Yes
Condition	Rainshower on winter days
Touchscreen compatible	Yes
Sizes	XS, S, M, L, XL, XXL, XXXL
Color name	black

PROSHIELD | BWG-39

Designed to keep your hands warm on your bike

- » Made with a power insert to keep your hands dry
- » Made with Halucin isolation, which is specifically used for its great dexterity.
- » Strategically placed Poron XRD foam. For shock absorption and maximum support
- » Reflective panel at the side and subtle reflective stitching at the knuckles

Composition	28% Polyester, 27% Polyurethan, 17% Polyethylen, 14% Polyamid, 12% Elastodien, 2% Elasthan
Materials	Poron XRD
Waterproofness	Weatherproof
Windproof	Yes
Condition	Extreme cold and wet days
Touchscreen compatible	Yes
Puller loops	No
Sizes	XS, S, M, L, XL, XXL, XXXL
Color name	black

COLDSHIELD | BWG-37

Made with Halucin isolation that is specifically used for its great dexterity

- » Strategically placed Poron XRD foam. For shock absorption and maximum support
- » With big and soft velcro to wear this glove over your jacket
- » Reflective panel at the side and subtle reflective stitching at the knuckles

Composition	32% Polyester, 23% Polyurethane, 18% Polyamide, 17% Polyethylene, 6% Elastodiene, 4% Elasthane
Waterproofness	Water repellent
Windproof	Yes
Condition	Rainshower on winter days
Touchscreen compatible	Yes
Sizes	XS, S, M, L, XL, XXL, XXXL
Color name	black

NEOSHIELD | BWG-26

High quality neoprene cycling glove, ideal for wet conditions

- » Anatomically pre-curved fingers for a perfect fit on the handlebar
- » Extra long neoprene cuff to keep the wind and rain out
- » Silicone print at palm for great grip

Composition	70% chloroprene rubber, 15% polyurethane
Materials	Multistretch Nylon Neoprene
Waterproofness	Water resistant
Windproof	Yes
Condition	Rainshower on winter days
Touchscreen compatible	No
Puller loops	No
Sizes	XS/S, M/L, XL/XXL, XXXL
Color name	black

RACESHIELD | BWG-11

Thermo fabric glove for mild winter conditions

- » Extra long 40 mm cuff
- » Anti-slip silicone prints on the palm and on the fingers for better grip
- » Flat lock stitched seams for extra comfort

Composition	70% polyamide, 30% elastane
Waterproofness	Not waterproof
Windproof	No
Condition	Changeable seasons
Touchscreen compatible	Yes
Puller loops	No
Sizes	XS, S, M, L, XL, XXL
Color name	black, grey melange

CONTROLZONE | BWG-36

Lightweight softshell glove for mild weather conditions

- » Made with breathable windproof material, because of the membrane
- » Foam padded palm for optimal contact and grip with your handlebar
- » Thin neoprene cuff and puller that can be worn underneath your jacket.
- » Reflective elements on the sides of the glove for extra visibility

Composition	40% Polyurethane, 45% Polyester, 10% Polyamide, 5% Elastane
Waterproofness	Not waterproof
Windproof	Yes
Condition	Changeable seasons
Touchscreen compatible	Yes
Sizes	XS, S, M, L, XL, XXL, XXXL
Color name	black, neon yellow

INNERSHIELD | BWG-27

Lightweight inner gloves to wear underneath an outer glove

- » Far InfraRed technology keeps your hands warm and exceptionally comfortable by improving body's metabolism and microcirculation
- » Seamless construction
- » Ideal for wearing under an outer glove on extra cold days
- » One size fits all

Composition	52% cotton, 28% polyester, 20% elastane
Materials	Far Infrared
Waterproofness	Not waterproof
Windproof	No
Condition	Changeable seasons
Touchscreen compatible	No
Puller loops	No
Sizes	Universal
Color name	black

RACESHIELD WB 2.0 | BWG-33

Thermo fabric glove with water repellent windblocker at the back of the hand for cold but dry winter conditions

- » With reflective prints at the back of the hand
- » Extra-long 40 mm cuff
- » Touch screen compatible thumb and index finger
- » Anti-slip silicone prints on the palm and on the fingers for the best possible grip

Composition	20% polyester, 50% polyamide, 30% elastane
Waterproofness	Water resistant
Windproof	Yes
Condition	Changeable seasons
Touchscreen compatible	Yes
Puller loops	No
Sizes	XS, S, M, L, XL, XXL, XXXL
Color name	black

NEW!

**RACEFLEX ZIPPERLESS
BWS-29**

**Aerodynamic
waterproof
pre-shaped
shoe covers**

Unleash superior performance with RaceFlex: the aerodynamic and lightweight shoe cover built for champions. Stay protected from the elements with taped seams, reinforced construction, and a zipperless design, while achieving maximum speed and comfort.

Silicone gripper ensures the shoe cover stays in place while ensuring the best possible fit to your calf.

Windproof and waterproof with taped seams.

Reinforced at the nose and heel.

ARCTICDUTY | BWS-28

Made of thick neoprene with Neoskin for the best protection against rain and cold

- » The shoe cover has a thermal layer on the inside to keep your feet warm
- » Glued seams make them leakproof
- » Reinforced parts at the nose, heel and sides of the shoe cover
- » Reflective print elements on the shin, nose and back of the shoe cover

Waterproofness	Waterproof
Windproof	Yes
Condition	Extreme cold and wet days
Sizes	38/40, 41/43, 44/46, 47/49
Color name	black

ULTRAWEAR ZIPPERLESS EXT | BWS-26

Made of thick neoprene with Neoskin for the best protection against rain and cold

- » Glued seams make them leakproof
- » With a raised cuff, and no zipper all weak spots of shoe covers are eliminated
- » Reinforced parts on the heel and the nose of the shoe cover
- » Reflective print elements on the side of the shoe cover
- » Note! Put on these overshoes before putting on your cycling shoes. Like the example in the video.

Waterproofness	Waterproof
Windproof	Yes
Condition	Extreme cold and wet days
Sizes	37/38, 39/40, 41/42, 43/44, 45/46, 47/48
Color name	black

WATERFLEX 3.0 | BWS-23

WaterFlex material, outer polyurethane(PU) rubber with inner MicroFleece. Water-resistant, flexible and durable

- » 38 mm wide Velcro strap allows you to use these shoe covers for (inline)skates
- » All seams are covered inside with waterproof tape
- » Two reinforced parts between sole and zipper as well as on the nose
- » Industrial strength YKK zipper
- » All seams are covered from the inside with water resistant tape

Composition	50% polyester, 50% polyurathene
Materials	Waterflex
Waterproofness	Water resistant
Condition	Rainshower on winter days
Sizes	37/38, 39/40, 41/42, 43/44, 45/46, 47/48
Color name	black, neon yellow

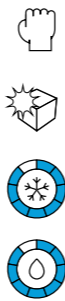

HARDWEAR | BWS-04

Designed to protect you against cold and wet conditions

- » Neoskin waterproof layer on top of 3 mm neoprene protects against the cold and rain
- » Glued seams make them 100% leak proof
- » Industrial strength YKK-zipper
- » Two reinforced parts between sole and zipper as well as on the nose

Composition	80% chloroprene rubber, 19% polyamide, 1% polyurethane
Materials	Neoskin
Waterproofness	Waterproof
Condition	Changeable seasons
Sizes	37/38, 39/40, 41/42, 43/44, 45/46, 47/48
Color name	black

FREEZE | BWS-21

Stretchable soft shell material, with inner membrane which will block the cold wind

- » 38 mm wide Velcro strap allows you to use these shoe covers for (inline)skates
- » Reflective artwork for extra visibility
- » All seams are covered inside with waterproof tape
- » Industrial strength YKK-zipper with stormflap inside
- » All seams are covered from the inside with water resistant tape

Composition	48% polyester, 27% polyurathene, 20% SBR, 5%elasthane
Windproof	Yes
Condition	Changeable seasons
Sizes	37/38, 39/40, 41/42, 43/44, 45/46, 47/48
Color name	black

MULTIFLEX | BWS-27

Designed for easy acces with different type of shoes

- » With the double velcro at the back, bigger calf sizes will no longer be an issue
- » Outside made of advanced coated polyurethane rubber material
- » Inner made of micro-fleece that gives the highest level of flexibility and comfort
- » Taped seams make them wind and waterproof
- » Reinforced nosepiece to protect the shoe cover against possible damage

Composition	50% Polyester 50% Polyurethane
Materials	Waterflex
Waterproofness	Waterproof
Condition	Changeable seasons
Sizes	39/43, 44/48
Color name	black

HEAVYDUTY OSS | BWS-02B

Tough shoe cover designed to give the best protection against the cold

- » 3 mm multi stretch neoprene with nylon reinforcements on both sides
- » Industrial strength YKK zipper
- » Velcro strap allows these shoecovers to be used with (in-line) skates
- » Extra 3M reflective reinforcement between the sole and zipper

Composition	70% styrene butadiene rubber, 30% polyamide
Waterproofness	Water resistant
Condition	Changeable seasons
Sizes	37/38, 39/40, 41/42, 43/44, 45/46, 47/48
Color name	black

MULTIFLEX HV | BWS-27HV

Made of advanced coated material that gives the highest level of water resistance, durability, and flexibility

- » Taped seams make these shoe covers wind- and waterproof
- » Designed for easy acces with different types of shoes
- » Reinforced nosepiece to keep shoe cover in place, and protect against possible damage
- » Easy access and adjustability because of the double velcro on the back
- » Taped seams make the cover shoes wind and waterproof

Composition	50% Polyester 50% Polyurethane
Materials	Waterflex
Waterproofness	Waterproof
Windproof	Yes
Condition	Changeable seasons
Sizes	39/43, 44/48
Color name	neon yellow

RACEFLEX ZIPPERLESS | BWS-29

Aerodynamic and lightweight shoe cover that protects against rain

- » Stay protected from wind and water with taped seams
- » Zipperless design eliminates weak spots in the shoe cover
- » High-end aerodynamic model, with pre-curved shape for enhanced performance
- » Designed with a velcro at the bottom for easier acces
- » Reinforced at the nose and heel for added durability and strength

Composition	43% Polyester, 40% PU, 7% Elastin, 10% PU Adhesive
Waterproofness	Waterproof
Windproof	Yes
Sizes	39/40, 41/42, 43/44, 45/46, 47/48
Color name	black

PHALANX | 146 | 147

High performance road saddle for competitive cycling posture

- » Ideal for the more flexible rider with center channel for reduced pressure under the pubic arch
- » Carbon reinforced shell
- » Superlight EVA foam with hard density for good support on long rides
- » Durable synthetic cover with low friction panels on the side

Posture	Competitive (30°), Sportive (45°)
Material rails	Hollow titanium
Material cover	Synthetic
Material foam	Lightweight EVA
Material shell	Carbon reinforced Nylon
Pressure relieve system	Anatomic channel
Density	1/9
W x L (mm)	155 x 165
Weight (g)	256
Color name	black

ECHO | BSD-151 | 152

High performance MTB saddle for competitive cycling posture

- » Central channel for reduced pressure under the pubic arch
- » Glassfiber reinforced shell
- » Durable synthetic cover
- » Moderate density PU foam for comfort on all rides

Posture	Competitive (30°), Sportive (45°)
Material rails	Hollow CrMo
Material cover	Synthetic
Material foam	Lightweight PU
Material shell	Carbon reinforced Nylon
Pressure relieve system	Anatomic channel
Density	3/9
W x L (mm)	145 x 265
Weight (g)	259
Color name	black

ECHELON | BSD-141 | 142 | 143

High performance road/MTB saddle for competitive cycling posture

- » Pressure relieving cut-out which keeps the blood flow intact and eliminates pressure points under the pubic arch
- » Carbon reinforced shell
- » Superlight EVA foam with hard density for good support on long rides
- » Durable waterproof synthetic cover
- » Anatomic hole

Posture	Competitive (30°), Sportive (45°)
Material rails	Hollow CrMo
Material cover	Synthetic
Material foam	Lightweight PU
Material shell	Carbon reinforced Nylon
Pressure relieve system	Anatomic cut out
Density	2/9
W x L (mm)	145 x 265
Weight (g)	278
Color name	black

SPORT COMFORT 2.0 | BSD-135 | 136 | 137

With anatomic cut-out for riding in casual clothing as well as sportive cycling clothing

- » Moderate density PU foam for comfort on all rides
- » Durable two-tone synthetic leather cover
- » Lightweight glassfiber reinforced shell for long lasting comfort

Posture	Sportive (45°)
Material rails	Boron
Material cover	Synthetic leather
Material foam	PU
Material shell	Glassfiber reinforced Nylon
Pressure relieve system	Anatomic cut out
Density	5/9
Color name	black

ECHELON COMFORT | BSD-156 | 157 | 158

Ergonomic cut-out for comfortable pressure relief in the pubic arch to keep bloodflow intact

- » Moderate density foam padding for excellent comfort and support on all your rides
- » Durable and lightweight glass fiber shell, providing comfort and optimal quality
- » With durable and waterproof synthetic cover

Posture	Sportive (45°)
Material rails	CrMo
Material cover	Synthetic
Material foam	Lightweight PU
Material shell	Glassfiber reinforced Nylon
Pressure relieve system	Anatomic cut out
Density	3/9
Color name	black

LADYSPORT | BSD-67

Road/MTB saddle designed for women with sportive cycling posture

- » Highly padded saddle with anatomic cut-out for pressure relief in pubic area
- » Nylon shell
- » Light foam with moderate density for optimal comfort
- » Polypropylene (PP) shell

Posture	Competitive (30°), Sportive (45°)
Material rails	Boron
Material cover	Synthetic
Material foam	PU
Material shell	Nylon
Pressure relieve system	Anatomic cut out
Density	5/9
W x L (mm)	162 x 256
Weight (g)	264
Color name	black

MULTIDENSITY | BSD-12 | 13

Saddle for active cycling posture

- » Sportive saddle with anatomic cut-out for riding in casual clothing as well as cycling clothing
- » Double density shell and high density foam
- » Luxurious Sutex cover with durable synthetic leather side panels

Posture	Relaxed (75°)
Material rails	Boron
Material cover	Synthetic leather
Material foam	PU
Material shell	PP
Pressure relieve system	Anatomic cut out
Density	5/9
W x L (mm)	170 x 270
Weight (g)	410
Color name	black

COMFORTPLUS UPRIGHT LEATHER | BSD-107

Ergonomic city saddle for upright cycling posture

- » Plus channel and lowered nose for pressure relief under pubic arch and tailbone
- » Polypropylene (PP) shell with elastomer suspension and integrated bumpers for extra protection
- » Genuine leather cover with durable synthetic side panels
- » Triple Density foam: high density EVA + moderate density PU and soft Memory foam top layer

Posture	Upright (90°)
Material rails	CrMo
Material cover	Genuine leather
Material foam	Triple density foam: EVA + PU + Memoryfoam
Material shell	PP
Pressure relieve system	Anatomic channel
Density	9/9
W x L (mm)	225 x 265
Weight (g)	835
Color name	black

SPORTPLUS ACTIVE LEATHER | BSD-113 | 114

Ergonomic touring saddle for active cycling posture

- » The distinctive Plus channel combined with anatomic cut-out provides optimal pressure distribution
- » Polypropylene (PP) shell with elastomer suspension and integrated bumpers for extra protection
- » Triple Density foam: high density EVA + moderate density PU and soft Memory foam top layer
- » Genuine leather cover with durable synthetic side panels
- » Anatomic hole

Posture	Active (60°)
Material rails	CrMo
Material cover	Genuine leather
Material foam	Triple density foam: EVA + PU + Memoryfoam
Material shell	PP
Pressure relieve system	Anatomic cut out
Density	7/9
W x L (mm)	170 x 265
Weight (g)	470
Color name	black

SOFTSHAPE ACTIVE | BSD-121 | 122

Touring saddle for Active cycling posture

- » Large anatomic cut-out provides pressure relief in the pubic area
- » Super soft Memory foam for ultimate comfort
- » Polypropylene (PP) shell with integrated bumpers for extra protection
- » Durable two-tone synthetic leather cover

Posture	Active (60°)
Material rails	CrMo
Material cover	Synthetic leather
Material foam	Dual density: PU + Memoryfoam
Material shell	PP
Pressure relieve system	Anatomic cut out
Density	8/9
Weight (g)	530
Color name	black

COMFORTPLUS RELAXED LEATHER | BSD-103

Ergonomic city saddle for relaxed cycling posture

- » Plus channel and lowered nose for pressure relief under pubic arch and tailbone
- » Polypropylene (PP) shell with elastomer suspension and integrated bumpers for extra protection
- » Genuine leather cover with durable synthetic side panels
- » Triple Density foam: high density EVA + moderate density PU and soft Memory foam top layer

Posture	Relaxed (75°)
Material rails	CrMo
Material cover	Genuine leather
Material foam	Triple density foam: EVA + PU + Memoryfoam
Material shell	PP
Pressure relieve system	Anatomic channel
Density	8/9
W x L (mm)	205 x 265
Weight (g)	680
Color name	black

SOFTSHAPE RELAXED | BSD-124

City saddle for relaxed cycling posture

- » Super soft Memory foam for ultimate comfort
- » Polypropylene (PP) shell with elastomer suspension and integrated bumpers for extra protection
- » Durable two-tone synthetic leather cover

Posture	Relaxed (75°)
Material rails	Boron
Material cover	Synthetic leather
Material foam	Dual density: PU + Memoryfoam
Material shell	PP
Pressure relieve system	Anatomic cut out
Density	9/9
W x L (mm)	205 x 265
Weight (g)	795
Color name	black

SOFTSHAPE RELAXED ANATOMIC | BSD-125

City saddle for relaxed cycling posture

- » Large anatomic cut-out provides pressure relief in the pubic area
- » Super soft Memory foam for ultimate comfort
- » Polypropylene (PP) shell with elastomer suspension and integrated bumpers for extra protection
- » Durable two-tone synthetic leather cover

Posture	Relaxed (75°)
Material rails	Boron
Material cover	Synthetic leather
Material foam	Dual density: PU + Memoryfoam

NEW!

LIFTPOST | BSP-51

Experience ultimate control and versatility with LiftPost: the internal routed dropper seatpost. With 150mm stepless travel, smooth adjustability, and easy maintenance, it's the perfect addition to enhance your riding performance.

Easy-to-reach lever on the front under the saddle.

HANDLEPOST | BSP-52

Upgrade your ride with HandlePost: the cable-free dropper seatpost. With 100mm stepless travel, convenient lever placement, and easy maintenance, enjoy seamless saddle height adjustments for optimal control and comfort.

CANDLEPOST | BSP-44

Seatpost for personalised comfort and vibration reduction

- » Reduces vibrations and absorbs shocks
- » Adjustable 40mm spring suspension for personalized comfort
- » The seatpost clamp has 8mm offset on the seatpost center
- » 350mm length suitable for various bike sizes
- » Certified to use on all types of bikes including E-bike (EN-15194)

Length Seatpost (mm)	350
Offset (mm)	8
Seatpost material	6061 T6 Aluminium
Carbon rails compatible	Yes
Seatpost suspension	Yes
Suspension Travel (mm)	40
Clamp mechanism	Dual bolt
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Weight (g)	496, 534, 588
Sizes	27.2mm, 30.9mm, 31.6mm
Color name	black

NEW

ACTIONPOST | BSP-42

Extra long seatpost (400mm)

- » Comes with extra elastomers to optimize the suspension for the rider's weight
- » Suited for all types of bikes
- » Certified for use on E-bike (EN-15194)

Length Seatpost (mm)	400
Offset (mm)	20
Seatpost material	6061 T6 Aluminium
Carbon rails compatible	No
Seatpost suspension	Yes
Suspension Travel (mm)	20
Clamp mechanism	Single bolt
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Weight (g)	495, 489, 500
Sizes	27.2mm, 30.9mm, 31.6mm
Color name	black

COMFORTPOST | BSP-41

Reduces vibrations and absorbs shocks

- » Adjustable suspension
- » With protection sleeve
- » Extra long (400mm)
- » Comes with extra coils to optimize the suspension for the rider's weight
- » Certified for use on E-bike (EN-15194)

Length Seatpost (mm)	400
Offset (mm)	20
Seatpost material	6061 T6 Aluminium
Carbon rails compatible	No
Seatpost suspension	Yes
Suspension Travel (mm)	20
Clamp mechanism	Single bolt
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Weight (g)	685
Sizes	27.2mm, 30.9mm, 31.6mm
Color name	black

HANDLEPOST | BSP-52

Cable-free dropper seatpost with 100mm stepless travel

- » Durable air-oil cartridge
- » Easy-to-reach lever on the front under the saddle
- » Smooth 100mm stepless travel for adjustable saddle height
- » The seatpost clamp has 15mm offset on the seatpost center
- » Easy disassembly for cleaning and cartridge replacement

Offset (mm)	15
Seatpost material	6061 T6 Aluminium, 7075 T6 Aluminium
Carbon rails compatible	Yes
Clamp mechanism	Dual bolt
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Weight (g)	621, 567, 588
Sizes	27.2mm, 30.9mm, 31.6mm
Color name	black

DROPCONTROL LEFT | BSP-57

Dropper post remote lever for the left side of the handlebar

- » All-in-one package with cable and housing included
- » Compatible with almost any dropper post on the market
- » Compatible with external and internal cable routing
- » Quick and easy installation
- » Designed for Ø 22.2 handlebars

Material	6061 T6 Aluminium
-----------------	-------------------

LIFTPOST | BSP-51

Internal routed dropper seatpost with 150mm stepless travel

- » Durable air-oil cartridge
- » Complete with remote lever and cable set
- » Smooth 150mm stepless travel for adjustable saddle height
- » The seatpost clamp has 0mm offset on the seatpost center
- » Easy disassembly for cleaning and cartridge replacement

Length Seatpost (mm)	470
Offset (mm)	0
Seatpost material	6061 T6 Aluminium
Carbon rails compatible	Yes
Clamp mechanism	Dual bolt
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Weight (g)	642, 664
Sizes	30.9mm, 31.6mm
Color name	black

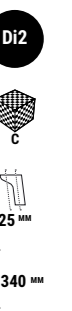

FLYPOST | BSP-31

Full carbon fiber seatpost with integrated head

- » Minimal weight while maintaining outstanding durability and strength
- » UD carbon finish
- » Dual bolt adjustable clamp

Length Seatpost (mm)	340
Offset (mm)	25
Seatpost material	Carbon
Carbon rails compatible	Yes
Seatpost suspension	No
Clamp mechanism	Dual bolt
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Weight (g)	208, 212
Sizes	25.4mm, 27.2mm
Color name	carbon

DROPCONTROL UNI | BSP-56

Universal dropper post remote lever for both left and right sides of the handlebar

- » All-in-one package with cable and housing included
- » Compatible with almost any dropper post on the market
- » Compatible with external and internal cable routing
- » Quick and easy installation
- » Designed for Ø 22.2 handlebars

Material	6061 T6 Aluminium
-----------------	-------------------

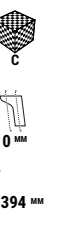

FLYPOST | BSP-35

Full carbon fiber seatpost with integrated head

- » Minimal weight while maintaining outstanding durability and strength
- » UD carbon finish
- » Dual bolt adjustable clamp

Length Seatpost (mm)	394
Offset (mm)	0
Seatpost material	Carbon
Carbon rails compatible	Yes
Seatpost suspension	No
Clamp mechanism	Dual bolt
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Weight (g)	215
Sizes	27.2mm
Color name	carbon

ELITEPOST Z | BSP-16

Extra long seatpost (400mm)

- » Made of 2014 T6 aluminium
- » Dual bolt adjustment clamp
- » Certified to use on all types of bikes including MTB and E-bike

Length Seatpost (mm)	400
Offset (mm)	0
Seatpost material	2014 T6 Aluminium
Carbon rails compatible	Yes
Seatpost suspension	No
Clamp mechanism	Dual bolt
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Weight (g)	262, 286, 289
Sizes	27.2mm, 30.9mm, 31.6mm
Color name	black

SKYSCRAPER | BSP-20

Compatible with all bikes

- » Cold-forged 6061 T6 aluminium
- » 2-screw Micro-adjust system
- » Extra long seatpost (400mm)

Length Seatpost (mm)	400
Offset (mm)	0
Seatpost material	6061 T6 Aluminium
Carbon rails compatible	Yes
Seatpost suspension	No
Clamp mechanism	Dual bolt
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Weight (g)	295
Sizes	25.0mm, 25.4mm, 25.6mm, 25.8mm, 26.0mm, 26.2mm, 26.4mm, 26.6mm, 26.8mm, 27.0mm, 27.2mm, 28.6mm, 28.8mm, 29.0mm, 29.2mm, 29.4mm, 29.6mm, 29.8mm, 30.0mm, 30.2mm, 30.4mm, 30.6mm, 30.8mm, 30.9mm, 31.0mm, 31.2mm, 31.4mm, 31.6mm, 32.0mm, 34.9mm
Color name	black

ELITEPOST | BSP-14

Lightweight one-piece 3D forged seatpost

- » 2014 T6 aluminium
- » Matt black with black artwork
- » Dual bolt adjustment clamp

Length Seatpost (mm)	350
Offset (mm)	15
Seatpost material	2014 T6 Aluminium
Carbon rails compatible	Yes
Seatpost suspension	No
Clamp mechanism	Dual bolt
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Weight (g)	250
Sizes	27.2mm, 31.6mm
Color name	black

COLLARCLAMP | BSP-88

Screw-on seatpost clamp with rubber cover to prevent water and dust entering the seat tube

- » Versatile clamp for carbon and aluminum seatposts
- » Made from durable 6061 T6 aluminium
- » Rubber cover keeps water and dust out of the seattube
- » Available in sizes 31.8 (27.2) and 34.9 (30.9, 31.6)

Seatpost material	6061 T6 Aluminium
Clamp mechanism	Single bolt
Weight (g)	25, 27
Sizes	31.8mm, 34.9mm
Color name	black

TOPPOST | BSP-15

Low profile seatpost

- » 6061 T6 aluminium
- » Dual bolt adjustable clamp
- » Extra long seatpost(400mm)

Length Seatpost (mm)	400
Offset (mm)	15
Seatpost material	6061 T6 Aluminium
Carbon rails compatible	Yes
Seatpost suspension	No
Clamp mechanism	Dual bolt
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Weight (g)	315
Sizes	27.2mm, 30.9mm, 31.6mm
Color name	black

LIGHTSTRANGLER | BSP-85

Lightweight and easy to use seatpost clamp

- » Screw-on seatpost clamp
- » For carbon and aluminium seatposts
- » The double cylinder mechanism distributes the clamp force evenly

Seatpost material	6061 T6 Aluminium
Clamp mechanism	Single bolt
Weight (g)	17
Sizes	28.6mm, 31.8mm, 34.9mm, 35.8mm
Color name	glossy black

**THESTRANGLER | BSP-80***Screw-on seatpost clamp*

- » For aluminium seatposts
- » 6061 T6 aluminium

Seatpost material	6061 T6 Aluminium
Clamp mechanism	Single bolt
Weight (g)	20
Sizes	28.6mm, 31.8mm, 34.9mm
Color name	black

**SMOOTHLEVER | BSP-87***Quick release seatpost clamp*

- » Special smooth design to avoid any leg interaction
- » For aluminium seatposts

Seatpost material	6061 T6 Aluminium
Clamp mechanism	Single bolt
Weight (g)	42
Sizes	28.6mm, 31.8mm, 34.9mm
Color name	black

**POSTFIX | BSP-97***Aluminium collar that clamps your seatpost*

- » Will be installed on top of the frame seat post clamp
- » Prevents the seat post from slipping
- » For carbon and aluminium seatposts

Weight (g)	5
Sizes	27.2mm, 31.6mm
Color name	black

**SHIFTFIX | BSP-90***aluminium front derailleur clamp*

- » For frame tube diameters: 31,8 and 34,9 mm

Seatpost material	6061 T6 Aluminium
Clamp mechanism	Single bolt
Weight (g)	25
Sizes	34,9mm, 31,8mm
Color name	black

**LIGHTLEVER | BSP-86***Lightweight clamp with CNC machined quick release lever*

- » Equally divides the clamping forces
- » For carbon and aluminium seatposts

Seatpost material	6061 T6 Aluminium
Clamp mechanism	Single bolt
Weight (g)	31
Sizes	28.6mm, 31.8mm, 34.9mm
Color name	glossy black

**FRAMEFIX | BSP-94***aluminium race number clamp for mounting on the brake axle*

- » Perfect solution to eliminate cable ties on frame
- » Butterfly nut for fast and easy installation

Clamp mechanism	Single bolt
Weight (g)	11
Color name	black

NUMBERFIX | BSP-95

aluminium race number clamp for mounting on the seatpost

- » Perfect solution to eliminate cable ties on frame
- » Self tapping bolts for fast and easy installation
- » Rubber O-rings securely fit around the seatpost
- » Rubber protection inside for extra grip and to prevent seatpost damage

Weight (g) 11
Color name black

AEROFIX | BSP-96

aluminium race number clamp for mounting on the seatpost

- » Special design for aero shaped seatposts
- » Perfect solution to eliminate cable ties on frame
- » Self tapping bolts for fast and easy installation
- » Rubber O-rings securely fit around the seatpost
- » Rubber protection inside for extra grip and to prevent seatpost damage

Weight (g) 11
Color name black

OFFSET
The seatpost setback or offset is the distance between the centerline of the seatpost and the centerline of the saddle rail clamp, where the saddle is clamped to the seatpost. A number of seatposts have a 'zero offset' in other words, the saddle rail clamp is exactly in line with the seatpost. In the case of a 15mm offset, the center of the saddle rail clamp is 15 mm behind the center of the seatpost.

LENGTH
The length of the seat post is measured from in between the saddle rails until the lower end of the seat post. The lengths vary between 340 - 400 mm to ensure a good riding position on the bike.

DIAMETER
The diameter is the outer diameter of the seatpost.

SUSPENSION
Suspension seatposts are specially designed to provide maximum comfort during the ride. The suspension mechanism absorbs vibrations and shocks.

CARBON
Carbon is known as a lightweight and excellent material for absorbing vibrations from the road surface, which increases the level of comfort. In addition, carbon is produced in a mold so that there are no welding lines. This increases the strength of the material and provides a reliable and lightweight seatpost.

2014 T6 ALUMINIUM
2014 T6 aluminum is a lightweight and also very strong aluminum that is often used in the aviation industry.

6061 T6 ALUMINIUM
6061 T6 aluminum is a commonly used material and very strong. Due to the special hardening process, the material is suitable for every type of bicycle.

FEATURES SEATPOSTS

NEW!

ERGOBASE | BPD-47

Ergonomic pedal with Nylon body for E-bikes and Cargo bikes

Ultimate comfort and control with ErgoBase: the ergonomic pedal designed for E-bikes and Cargo bikes. Its large platform, superior grip, and dual reflectors ensure optimal performance and safety on every ride.

Superior grip in any weather with molded pins and anti-slip surface.

Enhanced visibility with dual reflectors for added safety.

This pedal is EN15194 and Zedler Advanced XXL certified.

TRAILMOUNT | BPD-71

SPD compatible MTB pedal with aluminium cage

- » The cage provides extra support and protection
- » Open design for easy mud release
- » Adjustable tension
- » Sealed cartridge needle bearing on crank side, cartridge ball bearing on the outside
- » SPD compatible BBB Click & Go cleats included

Pedal type	Clipless
Shaft material	CrMo
Material pedal body	Aluminium
Bearing type	Cartridge ball bearing, Cartridge needle bearing
Clipless system	SPD
Including cleats	Yes
Mounting system	Allen key 6mm
Weight (g)	360
Color name	matt black

FORCEMOUNT | BPD-14

SPD compatible MTB pedal

- » Adjustable tension
- » Open design for easy mud release
- » CNC machined CrMo axle
- » Sealed plain bearing on crank side, cartridge bearing on the outside
- » SPD compatible BBB Click & Go cleats included

Pedal type	Clipless
Shaft material	CrMo
Material pedal body	Aluminium
Bearing type	Cartridge ball bearing, Cartridge needle bearing
Clipless system	SPD
Including cleats	Yes
Mounting system	Allen key 6mm
Weight (g)	294

TOUCHMOUNT | BPD-74

SPD compatible MTB pedal

- » Adjustable tension
- » Strong aluminium body
- » Durable ball bearings
- » Cleats included

Pedal type	Clipless
Shaft material	CrMo
Material pedal body	Aluminium
Bearing type	Loose ball
Clipless system	SPD
Including cleats	Yes
Mounting system	15mm wrench, Allen key 8mm
Weight (g)	407
Color name	black

DUALCHOICE TRAIL | BPD-62

Pedal with two functions. One side is SPD compatible and one side is platform for flat soled shoes

- » Platform side with pins for extra grip
- » Durable matt black aluminium body with CrMo spindle
- » Maintenance-free sealed bearings
- » Adjustable tension
- » Inc. SPD compatible BBB Click&Go cleats

Pedal type	One Side Clipless
Shaft material	CrMo
Material pedal body	Aluminium
Bearing type	Cartridge ball bearing, Cartridge needle bearing
Clipless system	SPD
Including cleats	Yes
Mounting system	Allen key 6mm
Weight (g)	412
Color name	matt black

DUALCHOICE | BPD-61

Pedal with two functions. One side SPD compatible click mechanism, other side equipped with anti-slip aluminium cage for street shoes.

- » Durable aluminium body with CrMo spindle
- » Maintenance-free sealed bearings
- » Adjustable tension
- » Inc. SPD compatible BBB Click&Go cleats

Pedal type	One Side Clipless
Shaft material	CrMo
Material pedal body	Aluminium
Bearing type	Cartridge ball bearing, Cartridge needle bearing
Clipless system	SPD
Including cleats	Yes
Mounting system	15mm wrench, Allen key 6mm
Weight (g)	435
Color name	black

DUALCHOICE CLASSIC 2.0 | BPD-23B

Pedal with two functions: one side is SPD compatible and the other side is for normal shoes

- » Fast clip-in / clip-out mechanism with adjustable tension
- » Maintenance-free sealed industrial bearings
- » High-strength CrMo spindle
- » SPD cleats included for under your shoes
- » Dual reflectors provide extra visibility

Pedal type	One Side Clipless
Shaft material	CrMo
Material pedal body	Aluminium
Bearing type	Cartridge ball bearing
Clipless system	SPD
Including cleats	Yes
Mounting system	15mm wrench, Allen key 6mm
Weight (g)	379
Color name	black

CLICK & GO | BPD-01

Compatible with all SPD shoes and pedals

- » Tough and light CrMo for long-lasting durability
- » Hardened steel bolts included
- » Float: 4°

Clipless system	SPD
Float (degrees)	4°
Weight (g)	53
Color name	silver

ENIGMA | BPD-38

*Large concave platform 95*100mm(L*W)*

- » Tapered pins for maximum grip
- » Only 399 grams/pair
- » Sealed cartridge + DU bearing
- » Durable anodized aluminium body

Pedal type	Flat
Shaft material	CrMo
Material pedal body	Aluminium
Bearing type	Cartridge ball bearing, DU bearing
Weight (g)	399
Color name	matt black, matt red, matt grey

COOLRIDE | BPD-36

Big platform provides firm grip and control

- » One-piece aluminium body
- » CrMo Axle
- » Double sealed bearings

Pedal type	Flat
Shaft material	CrMo
Material pedal body	Aluminium
Bearing type	Cartridge ball bearing
Mounting system	Allen key 8mm
Weight (g)	441
Color name	black, red, neon yellow

MOUNTAINHIGH | BPD-32

Heavy-duty construction withstands the rough demands of freeriding

- » Durable aluminium body with CrMo spindle
- » Replaceable / removable grip pins

Pedal type	Flat
Shaft material	Boron steel
Material pedal body	Aluminium
Bearing type	DU bearing
Mounting system	15mm wrench
Weight (g)	592
Color name	matt black

ROADCLIP | BPD-02A

Compatible with Look DELTA-pedals and BBB BPD-05 RoadDynamic

- » Float: 9°

Clipless system	Look Delta
Float (degrees)	9°
Weight (g)	92
Color name	red

TRAILRIDE | BPD-35

One piece composite body with anti-slip pin design

- » Maintenance free sealed DU bushed bearings and CNC machined CrMo axle
- » Dual built-in reflectors for extra visibility

Pedal type	Flat
Mounting system	15mm wrench
Weight (g)	335
Color name	black

ROADCLIP | BPD-02F

Compatible with Look DELTA-pedals and BBB BPD-05 RoadDynamic

- » Fixed cleats, 0° float

Clipless system	Look Delta
Float (degrees)	0°
Weight (g)	92
Color name	black

REBEL | BPD-51

Fiber reinforced body

- » Stainless steel wide contact area
- » CrMo Axle
- » Double sealed bearings
- » Cartridge bearing and DU bearing
- » 7° floating cleats (BPD-04A) included

Pedal type	Clipless
Shaft material	CrMo
Material pedal body	PA+GF
Bearing type	Cartridge ball bearing
Clipless system	Look Keo
Including cleats	Yes
Weight (g)	255
Color name	matt black

MULTICLIP | BPD-04A

Compatible with Look KEO pedal systems

- » Float: 7.0°
- » Rubber anti-slip surface

Clipless system	Look Keo
Float (degrees)	7°
Weight (g)	49
Color name	red

MULTICLIP | BPD-04F*Compatible with Look KEO pedal systems (BPD-51)*

- » Fixed cleats, 0° float
- » Rubber anti-slip surface

Clipless system	Look Keo
Float (degrees)	0°
Weight (g)	49

ERGOBASE | BPD-47*Ergonomic pedal with Nylon body for E-bikes and Cargo bikes*

- » The large platform provides optimal comfort
- » Superior grip in any weather with molded pins and anti-slip surface
- » Enhance visibility with dual reflectors for added safety.
- » This pedal is EN15194 and Zedler Advanced XXL certified

Pedal type	Flat
Material pedal body	PA
Bearing type	DU bearing

NEW

**POWERCLIP** | BPD-06A*SPD SL Compatible cleats*

- » 6 degrees float
- » With rubber anti-slip surface

Clipless system	SPD-SL
Float (degrees)	6°
Weight (g)	62
Color name	red

ERGORIDE | BPD-46*Durable and lightweight one-piece body*

- » Rubber anti-slip surface
- » Dual reflectors provide extra visibility
- » Suited for used on E-bikes (EN15194)
- » Boron Axle

Pedal type	Flat
Shaft material	Boron steel
Material pedal body	Aluminium
Bearing type	DU bearing
Mounting system	15mm wrench
Weight (g)	484
Color name	black

NEW

**POWERCLIP** | BPD-06F*SPD SL compatible cleats*

- » 0 degree float
- » With rubber anti-slip surface

Clipless system	SPD-SL
Float (degrees)	0°
Weight (g)	62
Color name	black

ERGOBASE HP | BPD-49*Ergonomic pedal with aluminium body for E-bikes and Cargo bikes*

- » The large platform provides optimal comfort
- » Superior grip in any weather with molded pins and anti-slip surface
- » Enhance visibility with dual reflectors for added safety.
- » This pedal is EN15194 and Zedler Advanced XXL certified

Shaft material	CrMo
Material pedal body	Aluminium
Bearing type	Cartridge ball bearing

NEW

EASYBASE 2.0 | BPD-48*Durable and lightweight one-piece body*

- » Large anti-slip surface with special sand paper-like surface
- » Comfortable with sandals and heels.
- » Dual built-in reflectors for extra visibility.
- » Maintenance free DU bearings.

Pedal type	Flat
Shaft material	Boron steel
Material pedal body	PA
Bearing type	DU bearing
Mounting system	15mm wrench
Weight (g)	315
Color name	black

STEADYRIDER | BPD-44*Durable and lightweight one-piece body*

- » Rubber anti-slip surface
- » Boron Axle
- » Dual reflectors provide extra visibility

Pedal type	Flat
Shaft material	Boron steel
Material pedal body	PA
Bearing type	Loose ball
Mounting system	15mm wrench
Weight (g)	328
Color name	black

COMFORTLIGHT | BPD-43*aluminium body with a durable and lightweight cage*

- » Rubber anti-slip surface
- » CrMo Axle
- » Cartridge bearing and DU bearing
- » Dual reflectors provide extra visibility

Pedal type	Flat
Shaft material	CrMo
Material pedal body	Aluminium
Mounting system	15mm wrench
Weight (g)	260
Color name	black

CLASSICRIDE 2.0 | BPD-17B*Maintenance-free sealed industrial bearings*

- » High-strength CrMo spindle
- » Serrated top pattern and bottom to anchor shoes in all weather conditions
- » Dual reflectors provide extra visibility
- » Compatible with NoseTight and Bike & Tight

Pedal type	Flat
Shaft material	CrMo
Material pedal body	Aluminium
Bearing type	Cartridge ball bearing
Mounting system	15mm wrench, Allen key 6mm
Weight (g)	287
Color name	black

STEADYREST | BPD-45*aluminium body with a durable and lightweight cage*

- » Rubber anti-slip surface
- » Boron Axle
- » Dual reflectors provide extra visibility

Pedal type	Flat
Shaft material	Boron steel
Material pedal body	Aluminium
Bearing type	Loose ball
Mounting system	15mm wrench
Weight (g)	370
Color name	black

MOUNT & GO 2.0 | BPD-15B*Lightweight pedal with plastic body and metal cage*

- » High-strength CrMo spindle
- » Serrated top and bottom pattern to anchor shoes in all weather conditions
- » Dual reflectors provide extra visibility
- » Compatible with NoseTight and Bike & Tight

Pedal type	Flat
Shaft material	CrMo
Material pedal body	PA
Bearing type	DU bearing
Mounting system	15mm wrench, Allen key 6mm
Weight (g)	235
Color name	black

**BIGFEET 2.0** | BPD-16B

High-strength cold-forged aluminium body with metal cage for optimal power distribution and stiffness

- » Extra strong with minimum weight
- » Serrated top pattern and bottom to anchor shoes in all weather conditions
- » Dual reflectors provide extra visibility
- » High-strength CrMo spindle with smooth running loose ball bearings
- » Compatible with NoseTight and Bike & Tight

Pedal type	Flat
Shaft material	CrMo
Material pedal body	Aluminium
Bearing type	Loose ball
Mounting system	15mm wrench, Allen key 6mm
Weight (g)	250
Color name	black

**NOSETIGHT** | BPD-95

Strapless toe clips

- » Compatible with the BPD-15 Mount & Go, BPD-16 BigFeet and BPD-17 ClassicRide

Weight (g)	113
Color name	black

**FEETREST** | BPD-90

Adapter that fits on one side of a SPD-compatible pedal that allows you to use ordinary street shoes

- » Dual reflectors provide extra visibility
- » Easy installation and removal

Weight (g)	68
Color name	black

**BIKE & TIGHT** | BPD-30

Extra durable industrial-strength nylon straps

- » Made to withstand frequent use
- » Retains strength even when exposed to the elements
- » Heavy-duty high grade buckles

Weight (g)	47
Color name	black

RIDER | BHS-09

Lightweight 3D forged one-piece construction stem for 31.8mm handlebars

- » 3D forged one-piece construction with GoPro fit frontcap system
- » Polished artwork with hand soft sandblasted finish
- » Stainless steel bolts
- » Compatible with BHS-91 Stemfix and BHS-92 GoFix bracket
- » Certified to use on all types of bikes including MTB and E-bikes

Bar center diameter (mm)	31.8
Di2 Compatible	No
Fork pipe diameter (mm)	28.6mm (1 1/8")
Material	6061 T6 Aluminum
Stem type	Fixed
Angle (degrees)	-7 / +7
Bracket included	BHS-92 Gofix
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Compatible with	BHS-92 Gofix, BHS-91 Stemfix
Weight (g)	137
Sizes	50mm, 60mm, 70mm, 80mm, 90mm, 100mm, 110mm, 120mm
Color name	black

ROADFORCE II | BHS-08

Lightweight and durable stem for 31.8mm handlebars

- » Lightweight and durable road bike stem
- » Designed for 31.8 mm handlebars
- » 6° angle for optimal riding position and comfort
- » Certified to use on all types of bikes, including MTB and E-bikes

Bar center diameter (mm)	31.8
Di2 Compatible	No
Fork pipe diameter (mm)	28.6mm (1 1/8")
Material	6061 T6 Aluminum
Stem type	Fixed
Angle (degrees)	-6 / +6
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Compatible with	BHS-91 Stemfix, BHS-92 Gofix
Weight (g)	, 162
Sizes	40mm, 50mm, 60mm, 70mm, 80mm, 90mm, 100mm, 110mm, 120mm, 130mm
Color name	, black

HIGHRISE | BHS-24

Lightweight, durable, and stiff one-piece construction stem for 25.4mm handlebars

- » Lightweight, durable and stiff one-piece construction
- » Black on black decals
- » Stainless steel bolts
- » +35° angle
- » Certified to use on all types of bikes including MTB and E-bikes

Bar center diameter (mm)	25.4
Di2 Compatible	No
Fork pipe diameter (mm)	28.6mm (1 1/8")
Material	6061 T6 Aluminum
Stem type	Fixed
Angle (degrees)	+35
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Weight (g)	162
Sizes	70mm, 90mm, 110mm
Color name	black

HIGHRISE OS | BHS-25

Lightweight and durable one-piece construction high-rise stem for 31.8mm handlebars

- » Lightweight, durable and stiff one-piece construction
- » Black on black decals
- » Stainless steel bolts
- » +35° angle
- » For 31.8 mm handlebars

Bar center diameter (mm)	31.8
Di2 Compatible	No
Fork pipe diameter (mm)	28.6mm (1 1/8")
Material	6061 T6 Aluminum
Stem type	Fixed
Angle (degrees)	+35
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Compatible with	BHS-91 Stemfix, BHS-92 Gofix
Weight (g)	178
Sizes	70mm, 90mm, 110mm
Color name	black

ROADFORCE OS | BHS-08OS

Lightweight, durable, and stiff one-piece construction stem for 35mm handlebars

- » Lightweight, durable and stiff one-piece construction
- » For 35.0mm handlebars
- » +/- 7° angle
- » Certified to use on all types of bikes including MTB and E-bikes

Bar center diameter (mm)	35
Di2 Compatible	No
Fork pipe diameter (mm)	28.6mm (1 1/8")
Material	6061 T6 Aluminum
Stem type	Fixed
Angle (degrees)	-7 / +7
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Compatible with	BHS-91 Stemfix, BHS-92 Gofix
Sizes	40mm, 60mm
Color name	black

DOWNFORCE | BHS-36

Lightweight, durable, and stiff one-piece construction stem for 31.8mm handlebars

- » Lightweight, durable and stiff one-piece construction
- » Black on black decals
- » Stainless steel bolts
- » Voor 31.8 mm sturen
- » +17/-17° angle for a more aggressive or more upright riding position

Bar center diameter (mm)	31.8
Di2 Compatible	No
Fork pipe diameter (mm)	28.6mm (1 1/8")
Material	6061 T6 Aluminum
Stem type	Fixed
Angle (degrees)	-17 / +17
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Compatible with	BHS-91 Stemfix, BHS-92 Gofix
Weight (g)	162
Sizes	60mm, 70mm, 80mm, 90mm, 100mm, 110mm
Color name	black

TOPRISE | BHS-26

Handlebar stem with +30° angle and 40mm rise to provide a more upright riding position.

- » The +30° angle and 40mm rise provides a more upright riding position.
- » Unique star nut free mounting system
- » Certified to use on all types of bikes including MTB and E-bike
- » Di2 compatible
- » Modern forged one-piece design

Bar center diameter (mm)	31.8
Di2 Compatible	Yes
Fork pipe diameter (mm)	28.6mm (1 1/8")
Material	6061 T6 Aluminum
Stem type	Fixed
Angle (degrees)	+30
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Weight (g)	265
Sizes	70mm, 90mm, 110mm
Color name	black

HIGHSIX OS | BHS-30

Angle-adjustable stem for 35mm handlebars, for personalized rider comfort

- » Suited for 35.0mm handlebars
- » Adjustable stem with -40°/+40° angle adjustment
- » Stainless steel bolts

Bar center diameter (mm)	35
Di2 Compatible	No
Fork pipe diameter (mm)	28.6mm (1 1/8")
Material	6061 T6 Aluminum
Stem type	Adjustable
Angle (degrees)	-40 / +40
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Weight (g)	272
Sizes	90mm, 110mm
Color name	black

HIGHSIX | BHS-28

Angle-adjustable stem for 25.4mm handlebars, for personalized rider comfort

- » High angle for comfortable riding and improved steering control
- » Low angle for speed and reduced wind resistance
- » Stainless steel bolts
- » -40° - +40° angle
- » Certified for use on E-bikes (EN-15194)

Bar center diameter (mm)	25.4
Di2 Compatible	No
Fork pipe diameter (mm)	28.6mm (1 1/8")
Material	6061 T6 Aluminum
Stem type	Adjustable
Angle (degrees)	-40 / +40
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Weight (g)	264
Sizes	90mm, 110mm, 130mm
Color name	black

HIGHFIX | BHS-34

Angle-adjustable stem with 40mm rise for 25.4mm handlebars

- » High angle for comfortable riding and improved steering control
- » Low angle for speed and reduced wind resistance
- » For direct mount on the steerer tube, 28.6 mm
- » Stainless steel bolts
- » Adjustable stem with -40°/+60° angle and 40mm rise

Bar center diameter (mm)	25.4
Di2 Compatible	No
Fork pipe diameter (mm)	28.6mm (1 1/8")
Material	6061 T6 Aluminum
Stem type	Adjustable
Angle (degrees)	-40 / +60
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Weight (g)	283
Sizes	80mm, 100mm, 120mm
Color name	black

HIGHSIX OS | BHS-29

Angle-adjustable stem for 31.8mm handlebars

- » High angle for comfortable riding and improved steering control
- » Low angle for speed and reduced wind resistance
- » Stainless steel bolts
- » For 31.8 mm handlebars
- » Adjustable stem with -40° - +40° angle

Bar center diameter (mm)	31.8
Di2 Compatible	No
Fork pipe diameter (mm)	28.6mm (1 1/8")
Material	6061 T6 Aluminum
Stem type	Adjustable
Angle (degrees)	-40 / +40
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Compatible with	BHS-91 Stemfix, BHS-92 Gofix
Weight (g)	264
Sizes	90mm, 110mm, 130mm
Color name	black

HIGHFIX OS | BHS-35

Angle-adjustable stem with 40mm rise for 31.8mm handlebars

- » High angle for comfortable riding and improved steering control
- » Low angle for speed and reduced wind resistance
- » For direct mount on the steerer tube, 28.6 mm
- » Stainless steel bolts
- » For 31.8 mm handlebars

Bar center diameter (mm)	31.8
Di2 Compatible	No
Fork pipe diameter (mm)	28.6mm (1 1/8")
Material	6061 T6 Aluminum
Stem type	Adjustable
Angle (degrees)	-40 / +60
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Compatible with	BHS-91 Stemfix, BHS-92 Gofix
Weight (g)	285
Sizes	80mm, 100mm, 120mm
Color name	black

JUMPER | BHS-38Di2

Lightweight and stiff 3D forged one-piece construction for 31.8mm handlebars

- » 3D forged one-piece construction with GoPro fit frontcap system
- » Hand soft sandblasted finish
- » Stainless steel bolts
- » Di2 compatible
- » Compatible with BHS-91 Stemfix and BHS-92 GoFix bracket

Bar center diameter (mm)	31.8
Di2 Compatible	Yes
Fork pipe diameter (mm)	28.6mm (1 1/8")
Material	6061 T6 Aluminum
Stem type	Fixed
Angle (degrees)	0
Bracket included	BHS-92 Gofix
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Compatible with	BHS-92 Gofix, BHS-91 Stemfix
Weight (g)	161
Sizes	45mm, 55mm, 65mm
Color name	black

FEATURES SEATPOSTS / STEMS / HANDLEBARS

Length: 580mm

Handlebar diameter: 25.4mm

Stem angle: 35°

Made of Aluminum: AL

Offset: 15mm

Di2 compatible: Di2

HORIZON | BHB-09

Flat MTB handlebar for aggressive riding style

- » Made out of lightweight and super strong aluminium
- » Extra wide, 760 mm, for optimal control
- » Can be shortened to your own preference

Material	6061 T6 Aluminum
Bar center diameter (mm)	31.8
Rise (mm)	0
Backsweep (degrees)	9
Upsweep (degrees)	0
Di2 Compatible	No
Width (mm)	760
Weight (g)	331
Color name	black

ASCENSION | BHB-11Di2

MTB handlebar with 15 mm rise

- » Made out of lightweight and super strong aluminium
- » Di2 compatible
- » Extra wide, 760 mm, for optimal control
- » Can be shortened to your own preference

Material	6061 T6 Aluminum
Bar center diameter (mm)	31.8
Rise (mm)	15
Backsweep (degrees)	9
Upsweep (degrees)	5
Di2 Compatible	Yes
Width (mm)	780
Weight (g)	337
Color name	black

HORIZON | BHB-09Di2

Flat MTB handlebar for agilis riding style

- » Made out of lightweight and super strong aluminium
- » Di2 compatible
- » Extra wide, 760 mm, for optimal control
- » Can be shortened to your own preference

Material	6061 T6 Aluminum
Bar center diameter (mm)	31.8
Rise (mm)	0
Backsweep (degrees)	9
Upsweep (degrees)	0
Di2 Compatible	Yes
Width (mm)	780
Weight (g)	335
Color name	black

SKYBAR | BHB-07

Riserbar with rise of 35 mm

- » Made out of lightweight and super strong aluminium
- » Extra wide, 760 mm, for optimal control
- » Can be shortened to your own preference

Material	6061 T6 Aluminum
Bar center diameter (mm)	31.8
Rise (mm)	35
Backsweep (degrees)	9
Upsweep (degrees)	5
Di2 Compatible	No
Width (mm)	760
Weight (g)	377
Color name	black

ASCENSION | BHB-11

MTB handlebar with 15 mm rise

- » Made out of lightweight and super strong aluminium
- » Extra wide, 760 mm, for optimal control
- » Can be shortened to your own preference

Material	6061 T6 Aluminum
Bar center diameter (mm)	31.8
Rise (mm)	15
Backsweep (degrees)	9
Upsweep (degrees)	5
Di2 Compatible	No
Width (mm)	760
Weight (g)	335
Color name	black

SKYBAR 35MM | BHB-12

Handlebar for 35mm stems

- » 30mm rise for a more upright riding position
- » 800mm wide handlebar
- » Possible to shorten the width with max. 100mm
- » Di2 compatible

Material	6061 T6 Aluminum
Bar center diameter (mm)	35
Rise (mm)	30
Backsweep (degrees)	8
Upsweep (degrees)	6
Di2 Compatible	Yes
Width (mm)	800
Weight (g)	370
Color name	black

RACER | BHB-35

Oversized for strength, stiffness and lightweight

- » Compact drop and ergonomic shaped bar
- » Made out of lightweight and super strong aluminium
- » Partly flattened at the top

Material	6061 T6 Aluminum
Bar center diameter (mm)	31.8
Reach (mm)	70
Drop (mm)	125
Flare angle (degrees)	0
Di2 Compatible	Yes
Width (mm)	380, 400, 420, 440
Weight (g)	337
Color name	black

Di2

MULTIBAR OS | BHB-300S

Multi-position handlebar designed to offer maximum comfort.

- » The ergonomic design of these handlebars allows multiple hand positions.
- » Combine with the MultiFoam (BHG-27) or Exclusive (BHG-29) grips for maximum comfort.

Material	6061 T6 Aluminum
Bar center diameter (mm)	31.8
Width (mm)	570
Weight (g)	570
Color name	black

31.8mm

GRAVELLER | BHB-36

Flared drops provide more control on gravel roads

- » Also suited for beachracers
- » Compact drop and ergonomic shaped bar
- » Di2 compatible
- » More space for bikepacking handlebar bags

Material	6061 T6 Aluminum
Bar center diameter (mm)	31.8
Reach (mm)	70.2
Drop (mm)	130
Flare angle (degrees)	16
Di2 Compatible	Yes
Width (mm)	420, 440
Weight (g)	310, 320
Color name	black

Di2

AEROMAX | BHB-60

Separate armrest clamps for maximum adjustability

- » Extra long J-bend bars
- » Multi adjustable arm pads and replaceable foam pads
- » Convenient clamping mechanism compatible with 31,8/25,4mm handlebars
- » Easy clamp mechanism compatible with 25,4 / 31.8 mm handlebars

Material	6061 T6 Aluminum
Bar center diameter (mm)	25.4, 31.8
Aerobar bend type	J-bend
Aerobar length (mm)	350
Armpad material	PU
Replaceable armpad	Yes
Weight (g)	512
Color name	black

25.4mm

31.8mm

MULTIBAR | BHB-30

Multi-position handlebar designed to offer maximum comfort.

- » The ergonomic design of these handlebars allows multiple hand positions.
- » Combine with the MultiFoam (BHG-27) or Exclusive (BHG-29) grips for maximum comfort.

Material	6061 T6 Aluminum
Bar center diameter (mm)	25.4
Di2 Compatible	No
Width (mm)	570
Weight (g)	570
Color name	black

25.4mm

AEROBASE | BHB-52

Convenient clamping mechanism compatible with 25,4/31,8 mm handlebars

- » Foam padded arm supports
- » Adjustable extension length and multiple possible positions for arm pads

Material	6061 T6 Aluminum
Bar center diameter (mm)	25.4, 31.8
Aerobar bend type	Ergo-bend
Aerobar length (mm)	365
Armpad material	EVA
Replaceable armpad	Yes
Weight (g)	504
Color name	black

25.4mm

31.8mm

**AEROLIGHT | BHB-58**

Convenient clamping mechanism compatible with 25,4/31,8 mm handlebars

- » Foam padded arm supports
- » Adjustable extension length and multiple possible positions for arm pads

Material	6061 T6 Aluminum
Bar center diameter (mm)	25,4, 31,8
Aerobar bend type	S-bend
Aerobar length (mm)	333
Armpad material	EVA
Replaceable armpad	Yes
Weight (g)	470
Color name	black

**UNIFIX | BHB-90**

Can be used to fix a bottle cage, bag etc.

Material	Aluminium
Weight (g)	47,54
Size	22,2 - 25,4 mm, 25,4 - 31,8 mm
Color name	black

**AEROCOMFORT | BHB-59**

Comfortable bend with in width adjustable arm pads

- » 35mm rise for extra comfortable position
- » Foam padded arm rests
- » Foam sleeves on the bars for extra comfort
- » Easy to install system compatible with 31,8, 25,4 and 22,2mm handlebars

Material	6061 T6 Aluminum
Bar center diameter (mm)	22,2, 25,4, 31,8
Aerobar bend type	Ergo-bend
Aerobar length (mm)	282
Armpad material	EVA
Replaceable armpad	No
Weight (g)	541
Color name	black

**BARMOUNT | BHB-91**

Alloy bracket for 70mm wide handlebar

- » A solution to mount more accessories on the cockpit
- » For mounting on 31,8mm handlebars
- » Can be mounted left as well as right from the bracket

Material	6061 T6 Aluminum
Bar center diameter (mm)	31,8
Color name	black

NEW!

ROYAL RIBBON | BHT-18

Comfortably soft and durable handlebar tape with a special gel strip

Indulge in luxurious comfort with RoyalRibbon Gel: soft and durable handlebar tape. Featuring a special gel strip, anti-slip pattern, and extra damping, it provides superior grip and support for an enhanced cycling experience.

200 cm long roll to ensure complete coverage on all handlebars.

Gel backing layer for extra damping and residue-free application.

Anti-slip pattern to provide superior hold.

ROYALRIBBON GEL | BHT-18

Comfortably soft and durable handlebar tape with a special gel strip

- » Soft and brushed microfiber PU texture for impressive grip and comfort
- » Anti-slip pattern to provide superior hold
- » Gel backing layer for extra damping and residue-free application
- » 200 cm long roll to ensure complete coverage on all handlebars
- » Finishing tape and handlebar plugs included

Tape thickness (mm)	2.5
Material	Microfiber, PU Foam
Grip	Best
Damping	Average
Fixation	Gel
Handlebar plugs included	Yes
Finishing tape included	Yes
Color name	black, grey

NEW

REFLECTRIBBON GEL | BHT-17

Anti-slip diamond cut pattern design to provide superior hold

- » Special shock proof microfiber material absorbs shock for more riding comfort
- » Each roll is long enough to ensure complete coverage on all handlebar sizes
- » Stretch material and gel backing makes it easy to (re)wrap around the handlebars
- » Finish tape and handlebar plugs included

Tape thickness (mm)	2.5
Material	PU Foam
Grip	Best
Damping	Much
Fixation	Gel
Handlebar plugs included	Yes
Finishing tape included	Yes
Color name	black, silver

GRAVELRIBBON GEL | BHT-16

Extra thick 3.5mm comfortable tape with gel backing

- » Anti-slip diamond cut pattern design to provide superior hold
- » Stretch material and gel backing makes it easy to wrap around the handlebars
- » Each roll is long enough to ensure complete coverage on all handlebar sizes
- » Finishing tape and handlebar plugs included

Tape thickness (mm)	3.5
Material	PU Foam
Grip	Best
Damping	Much
Fixation	Gel
Handlebar plugs included	Yes
Finishing tape included	Yes
Weight (g)	110
Color name	black, grey, sand yellow

ULTRARIBBON GEL | BHT-15G

Gel backing for extra damping and easy to apply without residue afterwards

- » High-end tape made of strong and resilient polyurethane gives optimal damping
- » Anti-slip pattern to provide superior hold
- » The surface is easy to clean and assures perfect grip in every weather condition
- » Each roll is long enough to ensure complete coverage on all handlebar sizes
- » Finish tape and handlebar plugs included

Tape thickness (mm)	2.5
Material	PU Foam
Grip	Best
Damping	Much
Fixation	Gel
Handlebar plugs included	Yes
Finishing tape included	Yes
Weight (g)	88
Color name	white, black

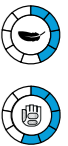

SPEEDRIBBON | BHT-12

Microfiber handlebar tape

- » Perforated surface for ventilation and moisture absorption
- » Washable leather look surface
- » Each roll is long enough to ensure complete coverage on all handlebar sizes
- » Waterproof adhesive
- » Finish tape and handlebar plugs included

Tape thickness (mm)	2.5
Material	Microfiber
Grip	Good
Damping	Average
Fixation	Glue strip
Handlebar plugs included	Yes
Finishing tape included	Yes
Weight (g)	71
Color name	black, white, brown

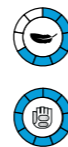

ULTRARIBBON | BHT-15

High-end tape made of strong and resilient polyurethane

- » Anti-slip BBB cut pattern design to provide superior hold
- » Special shock proof microfiber material absorbs shock for more riding comfort
- » The surface is easy to clean and assures perfect grip in every weather condition
- » Each roll is long enough to ensure complete coverage on all handlebar sizes
- » Finish tape and handlebar plugs included

Tape thickness (mm)	2.5
Material	PU Foam
Grip	Best
Damping	Much
Fixation	Glue strip
Handlebar plugs included	Yes
Finishing tape included	Yes
Weight (g)	63
Color name	black, white

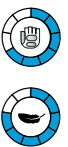

RACERIBBON GEL | BHT-05

Extra thick 3,5 mm comfortable tape with gel backing

- » EVA-foam gives you a firm no-slip and shock absorbent grip
- » Stretch material makes it easy to wrap around the handlebars
- » Finish tape and handlebar plugs included

Tape thickness (mm)	3.5
Material	DuraCork
Grip	Better
Damping	Much
Fixation	Gel
Handlebar plugs included	Yes
Finishing tape included	Yes
Weight (g)	90
Color name	black, white

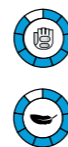

FLEXRIBBON GEL | BHT-14

High-end tape made of strong and resilient polyurethane with gel backing

- » Anti-slip diamond cut pattern design to provide superior hold
- » Special shock proof microfiber material absorbs shock for more riding comfort
- » Each roll is long enough to ensure complete coverage on all handlebar sizes
- » Stretch material makes it easy to wrap around the handlebars
- » Finish tape and handlebar plugs included

Tape thickness (mm)	2.5
Material	PU Foam
Grip	Best
Damping	Much
Fixation	Gel
Handlebar plugs included	Yes
Finishing tape included	Yes
Weight (g)	92
Color name	black, blue, red, neon yellow, white

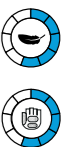

RACERIBBON CARBON | BHT-04

Carbon structure

- » The surface is easy to clean and assures perfect grip in every weather condition
- » Each roll is long enough to ensure complete coverage on all handlebar sizes
- » Waterproof adhesive
- » Finish tape and handlebar plugs included

Tape thickness (mm)	2.5
Material	PU Foam
Grip	Good
Damping	Average
Fixation	Glue strip
Handlebar plugs included	Yes
Finishing tape included	Yes
Weight (g)	54
Color name	black, white

RACERIBBON | BHT-01

EVA-foam gives you a firm no-slip and shock absorbent grip

- » Each roll is long enough to ensure complete coverage on all handlebar sizes
- » Waterproof adhesive
- » Stretch material makes it easy to wrap around the handlebars
- » Finish tape and handlebar plugs included

Tape thickness (mm)	2.5
Material	Cork, EVA Foam
Grip	Better
Damping	Average
Fixation	Glue strip
Handlebar plugs included	Yes
Finishing tape included	Yes
Weight (g)	61
Color name	black, blue, red, yellow, white, black cork, white cork, green, grey, olive green, golden brown

ENDCAPS | BHT-90S

Chrome-look secure fitting plugs with BBB-logo for handlebar tape

- » 2 pieces a set

Weight (g)	8
Color name	chrome

ENDCAPS | BHT-91S

Matt black secure fitting plugs with BBB-logo for handlebar tape

- » 2 pieces a set

Weight (g)	9
Color name	black

ENDCAPS | BHT-92S

High gloss black secure fitting plugs with BBB-logo for handlebar tape

- » 2 pieces a set

Weight (g)	10
Color name	carbon

SCREWON | BHT-96

Screw on plugs for handlebar tape, gives a secure hold to all tapes

- » Stainless steel bolts
- » 2 pieces a set

Weight (g)	19
Color name	black, chrome

FEATURES HANDLEBAR TAPES

COMFORT

A handlebar tape absorbs the uncomfortable vibrations. A handlebar tape that offers little damping gives a lot of feedback about the driving surface and you mainly use it on smooth asphalt roads. If you are going for longer bike rides or riding on rough terrain, more damping is pleasant and offers more advantages compared to the feedback that you receive via the handlebars about the driving surface. All our bar tapes have a comfort level between 1 and 9 to give an indication of the amount of comfort.

GRIP

Grip is the most important specification of a handlebar tape. A little less comfort is annoying, but losing grip on the handlebars could be fatal. All our bar tapes have a grip level between 1 and 9 to give an indication of the amount of grip. This does not mean that the handlebar tapes with the best grip also suit you best. Some cyclists would like to have freedom of movement and being able to easily move their hands on the handlebars.

MATERIAL

The materials used for handlebar tapes are fundamental to the level of comfort. BBB handlebar tapes are made of PU, EVA and Microfiber. Each material has its own advantages. PU or polyurethane is mainly used in handlebar tapes with a lot of flexibility. PU can be wrapped tightly around the handlebars very easily without creating wrinkles. In addition, PU is easy to clean and repels water and mud. EVA or Ethylene vinyl acetate is a proven good material and offers very high comfort and damping capacity. In addition, it provides a firm grip and a comfortable contact surface for the hands. Microfiber is known as a strong and abrasion-resistant material. A microfiber handlebar tape lasts a long time, is very easy to clean and maintains a good appearance.

THICKNESS

The thickness of the handlebar tape has a significant impact on comfort, with personal preference playing a major role. In fact, the thickness of the handlebar tape determines the thickness of your handlebar. A thicker handlebar tape means a larger contact surface, distributing your weight and improving blood circulation, thus reducing hand fatigue. However, a handlebar tape that makes your handlebar too thick can also be uncomfortable. Individuals with smaller hands may find it difficult to wrap their hands comfortably around the handlebar. In such cases, opting for a thinner handlebar tape is advisable. The thickest handlebar tapes are 3.5mm and are specifically designed to provide extra comfort and absorb vibrations. The remaining handlebar tapes are 2.5mm thick and can be considered a balanced and comfortable thickness.

BACKING LAYER

As a backing layer there is a choice between gel and glue. A gel backing layer provides extra damping and also ensures that the handlebar tape is easy to apply. If you are not satisfied with the result, you can easily reapply the handlebar tape. An adhesive backing layer does not provide extra cushioning, but simply ensures that the handlebar tape is properly fixed.

**ERGOSTYLE | BHG-82**

Comfortable ergonomically designed kraton grips with soft gel support and special one screw locking system

- » Screw-on interface prevents slippage on the handlebar, and locks the end-cap or bar-end
- » Very comfortable due to the special anatomic shape and hand support

Length Grips (mm)	133 mm
Lockring	Yes
Material	Gel, Kraton
Compatible with	Bar ends
Handlebar plugs included	Yes
Ergonomic grip	Yes
Weight (g)	192
Color name	black/grey

**ERGOSTYLE | BHG-83**

Comfortable ergonomically designed kraton grips with soft gel support and special one screw locking system

- » Screw-on interface prevents slippage on the handlebar, and locks the end-cap or bar-end
- » Very comfortable due to the special anatomic shape and hand support
- » Special version for twist grip gear systems

Length Grips (mm)	92 mm / 133 mm
Lockring	Yes
Material	Gel, Kraton
Compatible with	Bar ends, Gripshift
Handlebar plugs included	Yes
Ergonomic grip	Yes
Weight (g)	178
Color name	black/grey

**ERGOSTYLESET | BHG-87**

Combination set of comfortable ergonomically designed kraton grips with soft gel support and 85 mm bar-ends

- » Special one screw locking system prevents slippage on the handlebar, and locks the end-cap or bar-end
- » Very comfortable due to the special anatomic shape and hand support

Length Grips (mm)	133 mm
Lockring	Yes
Material	Gel, Kraton
Handlebar plugs included	No
Ergonomic grip	Yes
Bar ends included	Yes
Weight (g)	250
Color name	black/grey

ERGOSTYLESET | BHG-88

Combination set of comfortable ergonomically designed Kraton grips with soft gel support and 85 mm bar-ends

- » Special one screw locking system prevents slippage on the handlebar, and locks the end-cap or bar-end
- » Very comfortable due to the special anatomic shape and hand support
- » Special version for twist grip gear systems

Length Grips (mm)	92 mm / 133 mm
Lockring	Yes
Material	Gel, Kraton
Compatible with	Gripshift
Handlebar plugs included	No
Ergonomic grip	Yes
Bar ends included	Yes
Weight (g)	285
Color name	black/grey

MAMBA | BHG-102

Ergonomically designed kraton/cork grips with gel palm support.

- » Special inside lockring mechanism allows you to secure your grip and end cap.
- » Special version for twist grip gear systems.
- » Very comfortable due to the anatomic shape and hand support

Length Grips (mm)	92 mm
Lockring	Yes
Material	DuraCork, Gel, Kraton
Compatible with	Bar ends, Gripshift
Handlebar plugs included	Yes
Ergonomic grip	Yes
Weight (g)	117, 111
Color name	black/dark grey, cork/black

MAMBA | BHG-100

Ergonomically designed kraton/cork grips with gel palm support

- » Special inside lockring mechanism allows you to secure your grip and end cap
- » Very comfortable due to the special anatomic shape and hand support
- » Screw-on interface prevents slippage on the handlebar

Length Grips (mm)	130 mm
Lockring	Yes
Material	DuraCork, Gel, Kraton
Compatible with	Bar ends
Handlebar plugs included	Yes
Ergonomic grip	Yes
Weight (g)	147, 135
Color name	black/dark grey, cork/black

MAMBA DELUXE | BHG-106

Ergonomically designed kraton grips with artificial leather cover

- » Special inside lockring mechanism allows you to secure your grip
- » Very comfortable due to the special anatomic shape and hand support
- » Easy assembly

Length Grips (mm)	130 mm
Lockring	Yes
Material	Kraton
Ergonomic grip	Yes
Weight (g)	195
Color name	black

MAMBA | BHG-101

Ergonomically designed kraton/cork grips with gel palm support

- » Special inside lockring mechanism allows you to tighten your grip and end cap
- » Special version for twist grip gear systems
- » Screw-on interface prevents slippage on the handlebar

Length Grips (mm)	92 mm / 130 mm
Lockring	Yes
Material	DuraCork, Gel, Kraton
Compatible with	Bar ends, Gripshift
Handlebar plugs included	Yes
Ergonomic grip	Yes
Weight (g)	132, 125
Color name	black/dark grey, cork/black

MAMBA DELUXE | BHG-107

Ergonomically designed kraton grips with artificial leather cover

- » Special inside lockring mechanism allows you to secure your grip
- » Special version for twist grip gear systems.
- » Very comfortable due to the anatomic shape and hand support.

Length Grips (mm)	92 mm / 130 mm
Lockring	Yes
Material	Kraton
Compatible with	Gripshift
Ergonomic grip	Yes
Weight (g)	179
Color name	black

ERGOFIX | BHG-71

Ergonomically designed kraton grips with gel palm support

- » Very comfortable due to the anatomic shape and hand support
- » Lock-on grips with aluminium clamp
- » Screw-on interface prevents slippage on the handlebar

Length Grips (mm)	133 mm
Lockring	Yes
Material	Gel, Kraton
Handlebar plugs included	No
Ergonomic grip	Yes
Weight (g)	132
Color name	black

BOA | BHG-103

Ergonomically designed kraton/cork grips with gel palm support.

- » Very comfortable due to the anatomic shape and hand support.
- » Two end-caps included

Length Grips (mm)	130 mm
Material	Gel, Kraton
Ergonomic grip	Yes
Weight (g)	128
Color name	black/dark grey

LEATHERFIX | BHG-16

Ergonomically designed kraton grips with real leather cover

- » Perfect fit and extra support to the palm
- » Screw-on interface prevents slippage on the handlebar

Length Grips (mm)	135 mm
Lockring	Yes
Material	Kraton, Leather
Compatible with	Bar ends
Handlebar plugs included	Yes
Ergonomic grip	Yes
Weight (g)	198
Color name	black

BOA | BHG-104

Ergonomically designed kraton/cork grips with gel palm support.

- » Very comfortable due to the anatomic shape and hand support
- » Special version for twist grip gear systems
- » Two end-caps included

Length Grips (mm)	92 mm / 130 mm
Material	Gel, Kraton
Compatible with	Gripshift
Ergonomic grip	Yes
Weight (g)	123
Color name	black/dark grey

LEATHERFIX | BHG-16N

Ergonomically designed kraton grips with real leather cover

- » Special version for twist grip gear systems
- » Perfect fit and extra support to the palm
- » Screw-on interface prevents slippage on the handlebar

Length Grips (mm)	92 mm / 135 mm
Lockring	Yes
Material	Kraton, Leather
Compatible with	Bar ends, Gripshift
Handlebar plugs included	Yes
Ergonomic grip	Yes
Weight (g)	180
Color name	black

BOA | BHG-105

Ergonomically designed kraton/cork grips with gel palm support.

- » Very comfortable due to the anatomic shape and hand support
- » Special version for twist grip gear systems.

Length Grips (mm)	92 mm
Material	Gel, Kraton
Compatible with	Gripshift
Ergonomic grip	Yes
Weight (g)	96
Color name	black/dark grey

STICKYFIX | BHG-35

Silicone surface finish gives excellent gripping traction and has vibration damping abilities

- » Screw-on interface prevents slippage on the handlebar
- » Lock-on grips with aluminium clamp
- » Two end-caps included

Lockring	Yes
Material	Silicone
Compatible with	Bar ends
Handlebar plugs included	Yes
Weight (g)	108
Color name	black

VIPER | BHG-97

Kraton grips with gel palm support and surface pattern gives excellent gripping traction.

- » Surface pattern gives excellent gripping traction
- » Two end-caps included
- » Made out of soft dual-density material

Length Grips (mm)	130 mm
Lockring	No
Material	Gel, Kraton
Compatible with	Bar ends
Handlebar plugs included	Yes
Weight (g)	121
Color name	black/grey, black/white, black/neon yellow, black/blue, black/red

PYTHON | BHG-95

Designed for the optimal combination of grip and feel

- » Keeps your grip under the most extreme circumstances
- » Slip-free hexagon surface
- » Available in 6 different colours

Length Grips (mm)	142 mm
Lockring	Yes
Material	Vexk
Weight (g)	79
Color name	black, red, white, neon yellow, moss green, blue

VIPER | BHG-98

Kraton grips with gel palm support and surface pattern gives excellent gripping traction.

- » Surface pattern gives excellent gripping traction
- » Two end-caps included
- » Made out of soft dual-density material

Length Grips (mm)	92 mm
Lockring	No
Material	Gel, Kraton
Compatible with	Bar ends, Gripshift
Handlebar plugs included	Yes
Ergonomic grip	No
Weight (g)	82
Color name	black/grey, black/white, black/neon yellow, black/red

COBRA | BHG-96

Ergonomic and super comfortable co-molded kraton grips with gel palm support

- » Co-molded kraton grips with gel palm support
- » Very comfortable due to the slight anatomic shape
- » Optimal for long endurance, hand draining rides
- » Slip-free hexagon surface

Length Grips (mm)	142 mm
Lockring	Yes
Material	Gel, Kraton
Ergonomic grip	Yes
Weight (g)	126
Color name	black/dark grey, black/neon yellow, black/red, black/blue

CRUISER | BHG-91

Kraton rubber grip for high comfort

- » Slip-free hexagon surface

Length Grips (mm)	130 mm
Material	Kraton
Weight (g)	91
Color name	black

CRUISER | BHG-92

Kraton rubber grip for high comfort

- » Slip-free hexagon surface
- » Special version for twist grip gear systems
- » With integrated end-caps

Length Grips (mm)	92 mm / 130 mm
Material	Kraton
Compatible with	Gripshift
Ergonomic grip	No
Weight (g)	79
Color name	black

FOAMGRIP | BHG-28G

Comfortable grips with shock and vibration damping abilities

- » Special version for twist grip gear systems
- » Two end-caps included

Length Grips (mm)	92 mm
Material	Soft Foam
Compatible with	Bar ends, Gripshift
Handlebar plugs included	Yes
Weight (g)	21
Color name	black

CRUISER | BHG-93

Kraton rubber grip for high comfort

- » Slip-free hexagon surface
- » Special version for twist grip gear systems
- » With integrated end-caps

Length Grips (mm)	92 mm
Material	Kraton
Compatible with	Gripshift
Weight (g)	66
Color name	black

FOAMWAVE | BHG-32

Lightweight, ergonomic and comfortable soft foam grips with shock and vibration damping properties

- » Two end-caps included

Length Grips (mm)	128 mm
Material	Soft Foam
Compatible with	Bar ends
Handlebar plugs included	Yes
Weight (g)	39
Color name	black

FOAMGRIP | BHG-28

Comfortable grips with shock and vibration damping abilities

- » Two end-caps included

Length Grips (mm)	130 mm
Material	Soft Foam
Compatible with	Bar ends
Handlebar plugs included	Yes
Weight (g)	31
Color name	black

MULTIFOAM | BHG-27

High-quality foam grips, perfect for the BBB MultiBar (BHB-30 and BHB-300S) and other trekking handlebar

- » Comfortable 400 mm long soft foam grips with shock and vibration damping properties
- » Two end-caps included

Length Grips (mm)	400 mm
Material	Soft Foam
Compatible with	Bar ends
Handlebar plugs included	Yes
Weight (g)	74
Color name	black

EXCLUSIVE | BHG-29

High-quality foam grips, perfect for the BBB MultiBar (BHB-30 and BHB-30OS) and other trekking handlebar

- » 400 mm long comfortable foam grips with real leather cover provides shock and vibration damping
- » Two end-caps included

Length Grips (mm)	400 mm
Material	Leather, Soft Foam
Compatible with	Bar ends
Handlebar plugs included	Yes
Weight (g)	17
Color name	black

**CLASSIC | BBE-07**

Super comfortable bar ends with a slightly curved shape

- » One-piece design for ultimate durability.
- » Gentle curved design follows the contours of your hand.
- » Superior strength and stiffness.
- » Made from 3D forged 6061 T6 aluminum.

Length (mm) (BarEnds)	150 mm
Material	6061 T6 Aluminum
Weight (g)	144
Color name	black

**TRAILMONKEY | BBE-01**

Comfortable bar ends to combat every trail!

- » Ergonomic design for maximum comfort.
- » One-piece clamp with hex bolts for secure handlebar mounting.
- » Made from 3D forged 6061 T6 aluminum.
- » Made from 3D forged 6061 T6 aluminum.

Length (mm) (BarEnds)	100 mm
Material	6061 T6 Aluminum
Weight (g)	118
Color name	black

**THREE-D | BBE-05**

Straight bar ends with an anatomically shaped end for maximum comfort and grip

- » One-piece design for ultimate durability.
- » Made from 3D forged 6061 T6 aluminum.

Length (mm) (BarEnds)	105 mm
Material	6061 T6 Aluminum
Weight (g)	129
Color name	black

**THREE-D FORGED | BBE-08**

Straight bar ends with an anatomically shaped end for maximum comfort and grip

- » One-piece design for ultimate durability.
- » Lightweight with superior strength and stiffness.
- » Anatomically shaped for a firm and comfortable grip.
- » Follows the natural contours of your hands
- » Made from 3D forged 6061 T6 aluminum.

Length (mm) (BarEnds)	105 mm
Material	6061 T6 Aluminum
Weight (g)	119
Color name	black

LIGHTCURVED | BBE-18

Super comfortable bar ends with a slightly curved shape

- » One-piece design for ultimate durability.
- » Lightweight with superior strength and stiffness.
- » Anatomically shaped for a firm and comfortable grip.
- » Made from 3D forged 6061 T6 aluminum.

Length (mm) (BarEnds)	150 mm
Material	6061 T6 Aluminum
Weight (g)	134
Color name	black

LIGHTSTRAIGHT | BBE-17

Simple but comfortable bar ends

- » One-piece design for ultimate durability.
- » Lightweight with superior strength and stiffness.
- » Anatomically shaped for a firm and comfortable grip.
- » Made from 3D forged 6061 T6 aluminum.

Length (mm) (BarEnds)	95 mm
Material	6061 T6 Aluminum
Weight (g)	104
Color name	black

PLUG & PLAY | BBE-50

Bar ends caps to give your bike a nice and classy finish

- » High-quality replacement end plugs.
- » Durable and lightweight.
- » One size fits all

Material	Nylon
Weight (g)	6
Color name	black

**CITYKICK | BKS-05**

Universal kickstand, can be installed on almost all city and trekking bikes

- » Adjustable length, without use of any tools
- » Quick Fold Mechanism (QFM), easy to fold away and deploy
- » Extra wide composite footrest for more stability

Mounting system	Chain stay (non drive side)
Materials	Steel
Amount of bolts	Single bolt
Adjustable	Length
Wheel size (inch)	26,27,5,28,29
Weight (g)	322
Color name	black

**CONNECTKICK 18 | BKS-06**

Direct mount on your bicycle with 18mm mount system

- » Adjustable length without the use of any tools
- » Quick Fold Mechanism (QFM), easy to fold away and deploy
- » Extra stable due to the big composite footrest

Mounting system	Chain stay (non drive side)
Materials	Steel
Amount of bolts	Two bolt
Adjustable	Length
Wheel size (inch)	26,27,5,28,29
Weight (g)	307
Color name	black

**CONNECTKICK 40 | BKS-07**

Direct mount on your bicycle with 40mm mount system

- » Adjustable length without the use of any tools.
- » Quick Fold Mechanism (QFM), easy to fold away and deploy
- » Extra stable due to the big composite footrest.

Mounting system	Chain stay (non drive side)
Materials	Steel
Amount of bolts	Two bolt
Adjustable	Length
Wheel size (inch)	26,27,5,28,29
Weight (g)	318
Color name	black

**UNIKICK CLAMPMOUNT | BKS-08**

Kickstand with universal clamp mount and adjustable length

- » Adjustable in length without the use of any tools.
- » Quick-Fold Mechanism (QFM); easy to open/close function.
- » Extra stable due to the big composite footrest.

Mounting system	Chain stay (non drive side)
Materials	Steel
Amount of bolts	Three bolts
Adjustable	Length
Wheel size (inch)	20,22,24,26,27,5,28,29
Weight (g)	385,375
Color name	matt black

SIDEKICK | BKS-01

Universal and adjustable kickstand, can be installed on almost all sport bikes

- » Kickstand adjustable in length and angle
- » Quick Fold Mechanism (QFM), easy to fold away and deploy
- » Extremely stable design

Mounting system	Chain stay (non drive side)
Materials	Steel
Amount of bolts	Three bolts
Adjustable	Angle, Length
Wheel size (inch)	26,27,5,28,29
Weight (g)	265
Color name	black

MULTIKICK | BKS-04

Universal and adjustable kickstand, can be installed on almost all sport bikes

- » Multi-adjustable length and angle
- » Quick Fold Mechanism (QFM), easy to fold away and deploy

Mounting system	Chain stay (non drive side)
Materials	Steel
Amount of bolts	Three bolts
Adjustable	Angle, Length
Wheel size (inch)	26,27,5,28,29
Weight (g)	278
Color name	black

QUICKKICK KIDS | BKS-02K

Kids version kickstand for installation on the wheel quick release

- » Also compatible with disc brake bikes
- » Quick Fold Mechanism (QFM), easy to fold away and deploy

Mounting system	Quick releases
Materials	Steel
Amount of bolts	Single bolt
Adjustable	Length
Wheel size (inch)	16,18,20,22
Weight (g)	165
Color name	black

**LIGHTBLOCK | BQR-11**

Lightweight fully CNC machined levers

- » Durable titanium axle
- » Corrosion-resistant springs

Length Quick Release (mm)	100 mm, 130 mm
Weight (g)	52
Color name	black

**WHEELBLOCK | BQR-01**

Durable and lightweight aluminium

- » Jam-free mechanism
- » Corrosion-resistant springs

Length Quick Release (mm)	100 mm, 135 mm
Weight (g)	87
Color name	black

**WHEELFIXED | BQR-03**

Fixation with a hex key, that prevents a fast theft of your wheels

- » Longer nut makes it possible to use these quick releases safely on most mountain bikes and road bikes
- » Durable and lightweight aluminium
- » Corrosion-resistant springs

Length Quick Release (mm)	100 mm, 135 mm
Weight (g)	78
Color name	black

NEW!

SIGNAL PRO | BLS-168

The enhanced, more robust version of our Signal rear light

This light increases your safety by illuminating x5 brighter than the other Signals. You will be visible from behind and the side, thanks to its 270 degree angle. The battery features a sophisticated indicator, and boasts an extra long run time. This is the ideal bike light as it is ultra user-friendly and has nifty strap.

5x brighter

The two COB* strips are efficient and increase visibility.

The 8 LEDs on either side of the light not only display the actual battery status but also make you visible from the side.

* COB stands for Chip on Board. This means the LED chips are mounted directly on the circuit board which yields brighter, more even light than traditional LEDs.

STRIKEDUO 2000 | BLS-173

2000 Lumen headlight with dual LED and USB-C

- » Our most powerful headlight with an oval beam pattern for optimal sight on- and offroad
- » Aluminum casing for optimal durability and performance
- » Long runtimes due to the high quality and high capacity (6700mAh) batteries
- » Strap bracket included. Fits on Ø22-52mm and is aerobar compatible
- » Remote control included for easy handling of the light

Modes	Boost, City, Dayflash, Flash, High, Low, Standard
Light source	LED
Max. burn time (hours)	200
Max. lumen in steady mode (lm)	2000
Charge time (hours)	4:30
USB type	USB-C
Waterproof level	IPX4
Weight (g)	218

STRIKEDUO 1600 | BLS-172

1600 Lumen headlight with dual LED and USB-C

- » Oval beam pattern for optimal sight on- and offroad
- » Aluminum casing for optimal durability and performance
- » Long runtimes due to the high quality and high capacity (5200mAh) batteries
- » Strap bracket included. Fits on Ø22-52mm and is aerobar compatible

Modes	Boost, City, Dayflash, Flash, High, Low, Standard
Max. burn time (hours)	160
Max. lumen in steady mode (lm)	1600
Charge time (hours)	4:00
USB type	USB-C
Waterproof level	IPX4
Weight (g)	214

STRIKEDUO 1200 | BLS-171

1200 Lumen headlight with dual LED and USB-C

- » Oval beam pattern for optimal sight on- and offroad
- » Aluminum casing for optimal durability and performance
- » Long runtimes due to the high quality and high capacity (3200mAh) batteries
- » Fits on Ø22-52mm handlebars and is aerobar compatible
- » StrapFix secures the light in a steady position on your handlebar

Modes	Boost, City, Dayflash, Flash, High, Low, Standard
Light source	LED
Max. burn time (hours)	100
Max. lumen in steady mode (lm)	1200
Charge time (hours)	2:30
USB type	USB-C
Waterproof level	IPX4
Weight (g)	185

ADVENTURESTRIKE 600 | BLS-162

600 Lumen headlight with unmatched power-to-size ratio

- » Comes with BLS-196 HelmetMount 2.0 to mount it on your helmet
- » The 3 modes can be easy operated by the button on top of the light
- » Aluminium head with AirFlow Cooling System (ACS) for optimal performance

Modes	Boost, City, High
Light source	LED
Max. burn time (hours)	25
Max. lumen in steady mode (lm)	600
Charge time (hours)	3:30
USB type	Micro USB
Waterproof level	IPX4
Weight (g)	95

STUD 50 | BLS-230

Powerful headlight to see and to be seen in and around the city

- » The special design offers great side visibility and a light beam that does not blind upcoming traffic
- » With aluminium heatsink for optimal heat dissipation
- » Memory mode: the light goes on in the last used mode
- » With multi color battery indicator
- » USB cable included

Modes	Flash, High, Low, Standard
Light source	LED
Max. burn time (hours)	30
Max. lumen in steady mode (lm)	200
USB type	Micro USB
Waterproof level	IPX4

NANOSTRIKE 600 | BLS-161

600 Lumen headlight with unmatched power to size ratio

- » Day Flash mode (400lm) for daytime visibility
- » City mode (15Lm) with very long runtime to bring you home
- » Strap bracket included (StrapFix, BLS-192) that fits on Ø22-52mm and is aero compatible
- » Aluminium head with AirFlow Cooling System (ACS) for optimal performance

Modes	Boost, City, Dayflash, Flash, Low, Standard
Light source	LED
Max. burn time (hours)	80
Max. lumen in steady mode (lm)	600
Charge time (hours)	3:45
USB type	Micro USB
Waterproof level	IPX4
Weight (g)	95

STUD 33 | BLS-143

The special design offers great side visibility and a light beam that does not blind upcoming traffic

- » Easy to mount on the handlebar with the strap
- » Memory mode: the light goes on in the last used mode
- » With battery indicator
- » USB-cable included

Modes	Flash, High, Low, Standard
Light source	LED
Max. burn time (hours)	10
Max. lumen in steady mode (lm)	130
Charge time (hours)	2:00
USB type	Micro USB
Waterproof level	IPX5
Weight (g)	71

NANOSTRIKE 400 | BLS-130

Headlight with extreme power to size ratio

- » Day Flash mode (400lm) for daytime visibility
- » City mode (15Lm) for a very long runtime to bring you home
- » With strap bracket to mount it almost everywhere on the bike
- » Aluminium head with AirFlow Cooling System (ACS) for optimal performance
- » Memory mode: The light goes on in the last used mode

Modes	Boost, City, Dayflash, Flash, High, Standard
Light source	LED
Max. burn time (hours)	48
Max. lumen in steady mode (lm)	400
Charge time (hours)	3:30
USB type	Micro USB
Waterproof level	IPX4
Weight (g)	65

STRIKEDUO 1600 COMBO | BLS-175

Incl. remote control (BLS-179)

- » USB-cables included

USB type	Micro USB, USB-C
Waterproof level	IPX4, IPX7
Weight (g)	143

STRIKEDUO 1200 COMBO | BLS-174

Set of StrikeDuo 1200 (BLS-171) headlight with Signal (BLS-167) rear light. Incl. remote control (BLS-179)

» USB-cables included

USB type	Micro USB, USB-C
Waterproof level	IPX4, IPX7
Weight (g)	114

STUD 50 COMBO | BLS-231

Set of the Stud 50 (BLS-230) headlight and Slide (BLS-236) rear light

» USB-cables included

NEW

NANOSTRIKE 600 COMBO | BLS-165

Set of NanoStrike 600 (BLS-161) headlight with Signal (BLS-137) rear light

» Micro USB-cable included

USB type	Micro USB
Weight (g)	124

STUD 33 COMBO | BLS-144

Set of the Stud 33 (BLS-143) headlight and Salute (BLS-145) rear light

» Micro USB-cables included

Weight (g)	97
-------------------	----

NEW

NANOSTRIKE 400 COMBO | BLS-164

Set of NanoStrike 400 (BLS-130) headlight with Spark 2.0 (BLS-151) rear light

» Micro USB-cables included

USB type	Micro USB
Weight (g)	117

SIGNAL PRO | BLS-168

The bigger, brighter and better brother of our iconic Signal rear light

- » Provides you optimal day time visibility due to its 250 Lumen Day Flash mode
- » The 8 LEDs on both sides will show you the real time battery status
- » Experience 270-degree visibility and dynamic flash patterns with the efficiency of Two COB areas
- » Easy operation, even with winter gloves
- » Strapmount fits on Ø 5 - 45 mm and has self locking USB port for optimal waterproofness

Modes	Dayflash, Flash, High, Low, Steady Flash
Light source	COB
Max. burn time (hours)	21
Max. lumen in steady mode (lm)	80
Charge time (hours)	2:10
USB type	USB-C
Waterproof level	IPX7

NEW

SIGNALBRAKE | BLS-167

The g-sensor activates the 50 Lumen brake light when it detects a deceleration

- » The light automatically goes to standby mode when the bike stands still for three minutes
- » Runtime Safety mode: extends runtime with at least four hours of flash
- » Memory mode: the light goes on in the last used mode
- » Strap mount fits on Ø 5 - 42 mm seatposts
- » Self locking USB port for optimal waterproofness

Modes	Dayflash, Flash, Steady Flash, Steady
Light source	COB
Max. burn time (hours)	42
Max. lumen in steady mode (lm)	20
Charge time (hours)	1:45
USB type	Micro USB
Waterproof level	IPX7
Weight (g)	34

SIGNAL | BLS-138

Set of Signal headlight with Signal rear light BLS-136 / BLS-137

USB type	Micro USB
Weight (g)	58

SIGNAL | BLS-137

Large COB LED area for optimal (side) visibility

- » Strapmount fits on Ø 5 - 42 mm and has self locking USB port for optimal waterproofness
- » Runtime Safety mode: Extends runtime with at least 4 hours in Flash mode
- » Day Flash mode (50lm) for daytime visibility
- » Memory mode: The light goes on in the last used mode
- » Micro USB-cable included

Modes	Dayflash, Flash, High, Low, Standard
Light source	COB
Max. burn time (hours)	31
Max. lumen in steady mode (lm)	20
Charge time (hours)	1:45
USB type	Micro USB
Waterproof level	IPX7
Weight (g)	29

SPIRIT | BLS-226

Innovative 8 LED battery indicator will show you the battery status every time you use the light

- » Self locking USB port for optimal waterproofness and protection
- » Strapmount fits on bars of almost any diameter
- » With the memory mode the light goes on in the last used mode
- » Runtime Safety mode that extends runtime with at two extra hours of flash to bring you home safely
- » Including saddle rails bracket for the rear light (BLS-229)

Modes	Dayflash, Flash, High, Low, Steady Flash, Sweep, Round Pulse, Dynamic circle, Pulse
Light source	LED
Max. burn time (hours)	40
Max. lumen in steady mode (lm)	12
Charge time (hours)	2
USB type	Micro USB
Waterproof level	IPX7
Weight (g)	28

SIGNAL | BLS-136

Large COB LED area for optimal (side) visibility

- » Strapmount fits on Ø 5 - 42 mm and has self locking USB port for optimal waterproofness
- » Runtime Safety mode: Extends runtime with at least 4 hours in Flash mode
- » Day Flash mode (100lm) for daytime visibility
- » Memory mode: The light goes on in the last used mode
- » Micro USB-cable included

Modes	Dayflash, Flash, High, Low, Standard
Light source	COB
Max. burn time (hours)	35
Max. lumen in steady mode (lm)	57
Charge time (hours)	1:45
USB type	Micro USB
Waterproof level	IPX7
Weight (g)	29

SPIRIT | BLS-225

Innovative 8 LED battery indicator will show you the battery status every time you use the light

- » Self locking USB port for optimal waterproofness and protection
- » Strapmount fits on bars of almost any diameter
- » With the memory mode the light goes on in the last used mode
- » Runtime Safety mode that extends runtime with at two extra hours of flash to bring you home safely

Modes	Dayflash, Flash, High, Low, Steady Flash, Sweep, Round Pulse, Dynamic circle, Pulse
Light source	LED
Max. burn time (hours)	40
Max. lumen in steady mode (lm)	30
Charge time (hours)	2:00
USB type	Micro USB
Waterproof level	IPX7
Weight (g)	28

SPIRIT | BLS-227

Rechargeable with the supplied micro USB cable

» Including saddle rails bracket for the rear light (BLS-229)

Weight (g)	56
-------------------	----

SPARK 2.0 | BLS-152

Runtime Safety mode: Extends runtime with at least 2 hours of Flash

- » Day Flash mode (20lm) for daytime visibility
- » Strapmount fits on Ø5-42mm and has self locking USB port for optimal waterproofness
- » Memory mode: The light goes on in the last used mode
- » Seatpost angle correction

Modes	Dayflash, Flash, High, Low
Light source	LED
Max. burn time (hours)	28
Max. lumen in steady mode (lm)	10
Charge time (hours)	1:45
USB type	Micro USB
Waterproof level	IPX7
Weight (g)	23

SPARK 2.0 | BLS-151

Runtime Safety mode: Extends runtime with at least 2 hours of Flash

- » Day Flash mode (100lm) for daytime visibility
- » Strapmount fits on Ø5-42mm and has self locking USB port for optimal waterproofness
- » Memory mode: The light goes on in the last used mode

Modes	Dayflash, Flash, High, Low
Light source	LED
Max. burn time (hours)	27
Max. lumen in steady mode (lm)	45
Charge time (hours)	1:45
USB type	Micro USB
Waterproof level	IPX4
Weight (g)	26

SPARK 2.0 COMBO | BLS-153

Set of Spark 2.0 (BLS-151) headlight with Spark 2.0 (BLS-152) rear light

» Micro USB-cables included

USB type	Micro USB
Weight (g)	59

SLIDE | BLS-236

Compact USB rechargeable rearlight for visibility with multiple mounting options

- » Strap bracket included for fast and flexible mounting, fits on Ø 5 - 45 mm
- » Unique sliding system to cover the USB port
- » Runtime Safety mode: Extends runtime with at least 3 hours in Flash mode
- » The innovative 8 LED battery indicator will show you the battery status every time you put the light on or off
- » With the memory mode the light goes on in the last used mode

Modes	Dayflash, Flash, High, Low, Steady Flash
Light source	LED
Max. lumen in steady mode (lm)	16
Charge time (hours)	1
USB type	Micro USB
Waterproof level	IPX4

SLIDE | BLS-235

Compact and multifunctional headlight with clip and strap

- » Unique waterproof sliding system to cover the USB port
- » Runtime Safety mode: Extends runtime with at least 3 hours in Flash mode
- » The innovative 4 LED battery indicator will show you the battery status every time you put the light on or off
- » With the memory mode the light goes on in the last used mode

Modes	Dayflash, Flash, High, Low, Steady Flash
Light source	LED
Max. burn time (hours)	48
Max. lumen in steady mode (lm)	50
Charge time (hours)	1
USB type	Micro USB
Waterproof level	IPX4

SLIDE | BLS-237

Set of Slide front and rear light (BLS-235 & BLS-236)

» Micro USB-cables included

USB type	Micro USB
Waterproof level	IPX4

HELMETMOUNT 2.0 | BLS-196

Compatible with all BBB headlights with TightFix system

» The angle of the light can be adjusted for optimal usage
» Also suitable for GoPro mounting

Weight (g)	40
-------------------	----

SALUTE | BLS-145

Fits perfectly on seatposts due to the sloped backside

» Runtime Safety mode that extends runtime with three extra hours of flash mode to bring you home safely
» Strapmount fits on Ø5-42mm bars
» Self-locking USB port for optimal waterproofness and protection
» With the memory mode the light goes on in the last used mode
» Contains day flash mode for daytime visibility

Modes	Dayflash, Flash, High, Low
Light source	LED
Max. burn time (hours)	28
Max. lumen in steady mode (lm)	8
USB type	Micro USB
Waterproof level	IPX5
Weight (g)	26

TIGHTFIX | BLS-191

Mount compatible for all BBB headlights with Tightfix system

» Fits on Ø 22 - 32 mm

Weight (g)	28
-------------------	----

CENTERMOUNT 2.0 | BLS-195

Fits on Ø31.8 and Ø35.0mm handlebars

» Can be used in left and right sided orientation
» Also suitable for GoPro mounting
» Compatible with all BBB Cycling headlights with TightFix system

Weight (g)	40
-------------------	----

STRAPFIX | BLS-192

Mount compatible for all BBB headlights with Tightfix system

» Fits on Ø 22 - 45 mm
» Aerobar compatible

Weight (g)	24
-------------------	----

STRAPFIX STRIKEDUO | BLS-194

Compatible for all BBB headlights with Tightfix system

- » Aerobar compatible
- » Fits on Ø 22 - 45 mm bars

Weight (g) 32

STRIKEDUO REMOTE | BLS-179

Operate your StrikeDuo headlight from your handlebar

- » 30 cm long cable to attach it anywhere
- » USB-C connection
- » Compatible with StrikeDuo headlights

USB type USB-C
Weight (g) 95

GOMOUNT | BLS-99

Compatible with all BBB headlights with TightFix system

- » Extender to provide maximum adjustability included
- » Compatible with BBB Stems (BHS-09, BHS-37 and BHS-38Di2)
- » Bracket to install lights on a camera mount
- » The bracket is compatible with BBB lights which have the TightFix system

Weight (g) 14

SPIRIT | BLS-225D

Innovative 8 LED battery indicator will show you the battery status every time you use the light

- » Self locking USB port for optimal waterproofness and protection
- » Strapmount fits on bars of almost any diameter
- » With the memory mode the light goes on in the last used mode
- » Runtime Safety mode that extends runtime with at two extra hours of flash to bring you home safely

Modes Dayflash, Flash, High, Low, Steady Flash, Sweep, Round Pulse, Dynamic circle, Pulse
Light source LED
Max. burn time (hours) 40
Max. lumen in steady mode (lm) 30
Charge time (hours) 2:00
USB type Micro USB
Waterproof level IPX7

CROWNFIX | BLS-193

Strong and durable alloy bracket

- » Adjustable light angle
- » Compatible with all BBB headlights with TightFix system
- » GoPro compatible

Weight (g) 29

SPIRIT | BLS-226D

Innovative 8 LED battery indicator will show you the battery status every time you use the light

- » Self locking USB port for optimal waterproofness and protection
- » Strapmount fits on bars of almost any diameter
- » With the memory mode the light goes on in the last used mode
- » Runtime Safety mode that extends runtime with at two extra hours of flash to bring you home safely

Modes Dayflash, Flash, High, Low, Steady Flash, Sweep, Round Pulse, Dynamic circle, Pulse
Light source LED
Max. burn time (hours) 40
Max. lumen in steady mode (lm) 12
Charge time (hours) 2:00
USB type Micro USB
Waterproof level IPX7

SPARK 2.0 DISPLAYBOX | BLS-151D

Display box with 12 pieces of the Spark 2.0

» Runtime Safety mode: Extends runtime with at least 2 hours of Flash

Modes	Dayflash, Flash, High, Low
Light source	LED
Max. lumen in steady mode (lm)	45
Charge time (hours)	1:45
USB type	Micro USB
Waterproof level	IPX4
Weight (g)	26

FEATURES LIGHTS

BBB lights with Lithium batteries have integrated smart technology. An electronic system continuously monitors the strength of the battery and modifies the power output to maintain a stable light output. This prevents a sudden total loss of light without warning and above all lengthens the duration that you have a safe and usable beam of light.

1500 LUMEN

Max lumen.

Quick and easy rechargeable by usb design.

High power head lights also produce a lot of heat. Therefore BBB head lights are equipped with ACS (Airflow Cooling System). Due to the design of the aluminum casing, the passing airflow cools down the light significantly. Enough to prevent overheating of the LED. For the worst case scenarios the light is protected against overheating and will shut down before the heat can do any damage to the light

SPARK 2.0 DISPLAYBOX | BLS-152D

Display box with 12 pieces of the Spark 2.0

» Runtime Safety mode: Extends runtime with at least 2 hours of Flash» Seatpost angle correction

Modes	Dayflash, Flash, High, Low
Light source	LED
Max. lumen in steady mode (lm)	10
Charge time (hours)	1:45
USB type	Micro USB
Waterproof level	IPX7
Weight (g)	23

LIGHT CONCEPTS

If you want to choose the most suitable light set for your bicycle, it's important to have correct and comparable product data. Because there is no international standard for lights, BBB mentions various values. With these values you can always compare our products.

To fully understand the values mentioned in the chart, we have added the explanation of these values:

Lumen is the best known unit to compare lights. The number shows the total amount of light (in all directions) emitted by the light.

Candela is the unit of luminous intensity. Candela indicates the amount of light emitted by a light-source in a certain direction. The in the chart noted Candela values are measured at the center of the beam.

Lux is the amount of light (lumens) projected on a certain area. For example, if you have a light source of 1000 lumens, spread over 1 m², this square meter is illuminated with 1000 lux. When the same 1000 lumens are spread over 10 m², the same source illuminates a square meter with only 100 lux.

However, when comparing Lux values for different light sets, it's important to know the distance from the light source. The larger the distance from the source, the lower the Lux value will be. BBB measures the Lux value at 1 and 10 meters. The Lux value at 1 meter is equal to the value for Luminous intensity (Candela).

The beam distance shows how far the light bundle will be visible on the road. The beam distance is tested according the FL1 standard. You can find BBB values mentioned above in the chart on the next page.

NEW!

DISCGUARD | BFD-65

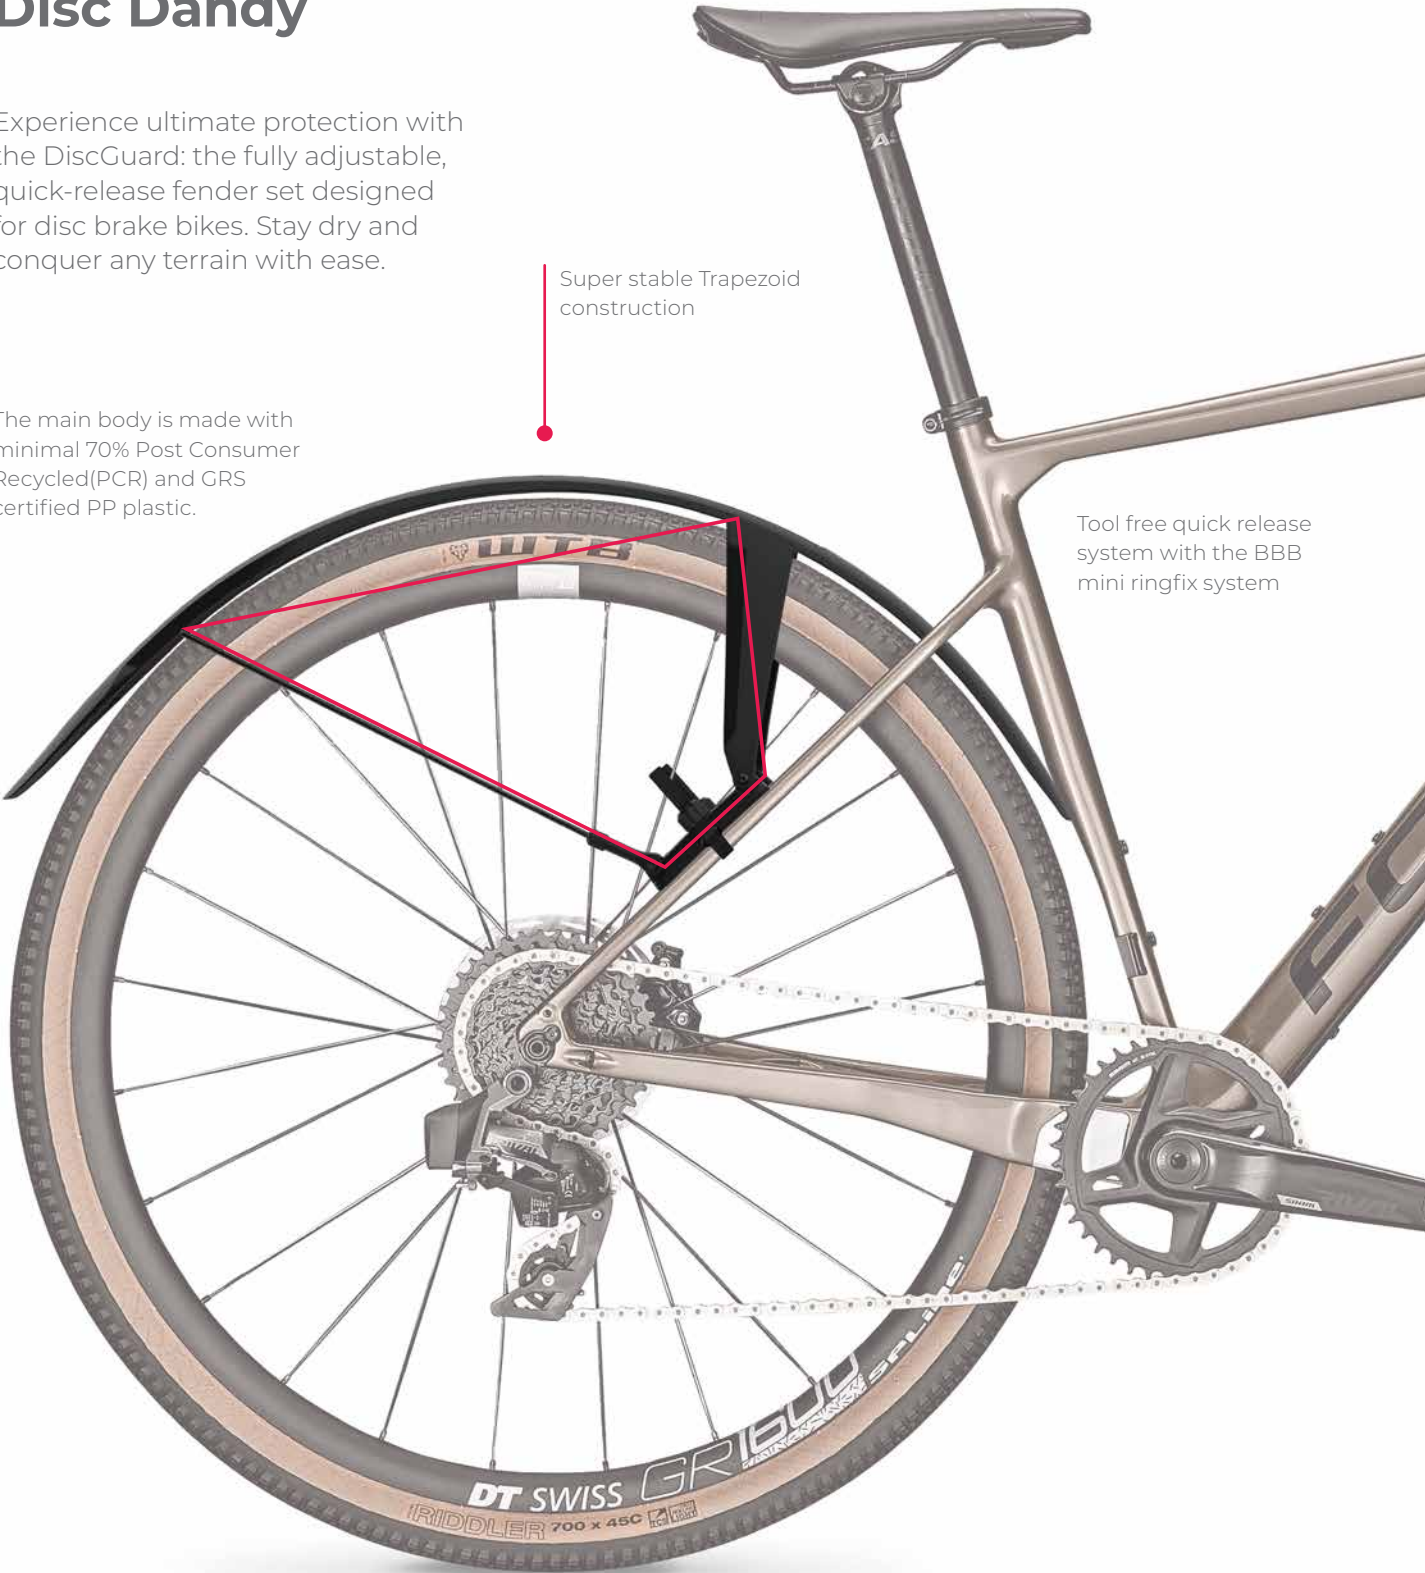

Road Ready, Gravel Grindy, Disc Dandy

Experience ultimate protection with the DiscGuard: the fully adjustable, quick-release fender set designed for disc brake bikes. Stay dry and conquer any terrain with ease.

The main body is made with minimal 70% Post Consumer Recycled(PCR) and GRS certified PP plastic.

Super stable Trapezoid construction

Tool free quick release system with the BBB mini ringfix system

DISCGUARD | BFD-65S

Quick-release full-coverage fender set for disc brake bikes

NEW

- » Fully adjustable: angle, height and length
- » Tool-free mounting system on seat stay and fork for quick installation
- » Large rubber mounting surface does not slip down or damage frame
- » Optional extenders included for added versatility
- » Made with 75% durable and strong GRS certified recycled PP material

Material	PA, STS, Recycled PP
Mounting location	Seat stays, Fork
Mounting system	Quick releases
Max. tire width (inch)	1.6
Wheel size (inch)	28
Quick release type	Mini Ringfix

FULLGUARD REAR | BFD-61R

Full-coverage rear (E-) MTB fender that protects against water and dirt

NEW

- » Stable chainstay mounted fender for hardtail and full suspension bikes.
- » Large rubber mounting surface with angle adjustment to prevent sliding
- » Quick-release Mini-RingFix system for easy and fast mounting
- » Maximum tire width of 76mm or 3.0 inches and length adjustable with the extension part
- » Made with 75% durable and strong GRS certified recycled PP material

Material	PP, Recycled PP
Mounting location	Seat stays
Mounting system	Quick releases
Max. tire width (inch)	3
Wheel size (inch)	27, 5, 28, 29
Max. tire width (mm)	76
Quick release type	Mini Ringfix

DISCGUARD | BFD-65R

Quick-release full-coverage rear fender for disc brake bikes

NEW

- » Fully adjustable: angle, height and length via an extension part
- » Quick-release seat stay mounting system for easy installation and removal
- » Large rubber mounting surface does not slip down or damage frame
- » Optional extenders included for added versatility
- » Made with 75% durable and strong GRS certified recycled PP material

Material	PA, STS, Recycled PP
Mounting location	Seat stays
Mounting system	Quick releases
Max. tire width (inch)	1.6
Wheel size (inch)	28
Quick release type	Mini Ringfix

FULLGUARD FRONT | BFD-61F

Full-coverage front (E-) MTB fender that protects against water and dirt

NEW

- » Stable fork mounted fender for hardtail and full suspension bikes.
- » Large rubber mounting surface with angle adjustment to prevent sliding
- » Quick-release Mini-RingFix system for easy and fast mounting
- » Maximum tire width of 76mm or 3.0 inches and length adjustable with the extension part
- » Made with 75% durable and strong GRS certified recycled PP material

Material	Recycled PP
Mounting location	Front fork, Seat stays
Mounting system	Quick releases
Max. tire width (inch)	3
Wheel size (inch)	27, 5, 28, 29
Quick release type	Mini Ringfix

DISCGUARD | BFD-65F

Quick-release full-coverage front fender for disc brake bikes

NEW

- » Fully adjustable: angle and height
- » Quick-release fork mounting system for easy installation and removal
- » Large rubber mounting surface does not slip down or damage frame
- » Optional extenders included for added versatility
- » Made with 75% durable and strong GRS certified recycled PP material

Material	PA, STS, Recycled PP
Mounting location	Fork
Mounting system	Quick releases
Max. tire width (inch)	1.6
Wheel size (inch)	28
Quick release type	Mini Ringfix

GRANDPROTECT | BFD-16R

MTB rear fender with TPR mud flaps

NEW

- » Two-tone composite material
- » Special design to provide full coverage against dirt and debris
- » Ringfix Aero quick release system with pre applied seatpost protection sticker

Starting from 2024 this fender will be made of a two-tone recycled PP composite material and the Ringfix Aero will come with the integrated light mount

Material	PP, TPR
Mounting location	Seatpost
Mounting system	Quick releases
Wheel size (inch)	28, 29
Max. tire width (mm)	65
Quick release type	Ringfix Aero
Weight (g)	230
Color name	black

GRANDPROTECT | BFD-16F

MTB front fender with TPR mud flaps

- » Two-tone composite material
- » Special design to provide full coverage against dirt and debris
- » Turnfix release system
- » Suitable for bikes with suspension forks

Starting from 2024 this fender will be made of a two-tone recycled PP composite material

Material	PP, TPR
Mounting location	Front fork
Mounting system	Fixed
Wheel size (inch)	28, 29
Max. tire width (mm)	65
Quick release type	Turnfix
Weight (g)	196
Color name	black

MTBPROTECTOR | BFD-13R

MTB rear fender with TPR mud flaps

- » Two-tone composite material
- » Special design to provide full coverage against dirt and debris
- » Ringfix Aero quick release system with pre applied seatpost protection sticker

Starting from 2024 this fender will be made of a two-tone recycled PP composite material and the Ringfix Aero will come with the integrated light mount

Material	PP, TPR
Mounting location	Seatpost
Mounting system	Quick releases
Wheel size (inch)	26
Max. tire width (mm)	65
Quick release type	Ringfix
Weight (g)	228
Color name	black

GRANDPROTECT XL | BFD-16XLR

MTB rear fender with XL sized TPR mud flaps

- » Two-tone composite material
- » Special design to provide full coverage against dirt and debris
- » Ringfix Aero quick release system with pre applied seatpost protection sticker

Starting from 2024 this fender will be made of a two-tone recycled PP composite material and the Ringfix Aero will come with the integrated light mount

Material	PP, TPR
Mounting location	Seatpost
Mounting system	Quick releases
Wheel size (inch)	28, 29
Max. tire width (mm)	65
Quick release type	Ringfix Aero
Weight (g)	251
Color name	black

MTBPROTECTOR | BFD-13F

MTB front fender with TPR mud flaps

- » Two-tone composite material
- » Special design to provide full coverage against dirt and debris
- » Turnfix release system for easy and fast attachment
- » Suitable for bikes with suspension forks

Starting from 2024 this fender will be made of a two-tone recycled PP composite material

Material	PP, TPR
Mounting location	Front fork
Mounting system	Quick releases
Wheel size (inch)	26
Max. tire width (mm)	65
Quick release type	Turnfix
Weight (g)	188
Color name	black

GRANDPROTECT XL | BFD-16XLF

MTB front fender with XL sized TPR mud flaps

- » Two-tone composite material
- » Special design to provide full coverage against dirt and debris
- » Turnfix release system
- » Suitable for bikes with suspension forks

Starting from 2024 this fender will be made of a two-tone recycled PP composite material

Material	PP, TPR
Mounting location	Front fork
Mounting system	Quick releases
Wheel size (inch)	28, 29
Max. tire width (mm)	65
Quick release type	Turnfix
Weight (g)	217
Color name	black

HIGHPROTECTOR | BFD-15R

MTB rear fender

- » Two-tone composite material
- » Special design to provide full coverage against dirt and debris

Starting from 2024 this fender will be made of a two-tone recycled PP composite material

Material	PP
Mounting location	Seatpost
Mounting system	Fixed
Wheel size (inch)	24, 26
Max. tire width (mm)	65
Weight (g)	171
Color name	black

HIGHPROTECTOR | BFD-15F

MTB front fender with mud flaps

- » Two-tone composite material
- » Special design to provide full coverage against dirt and debris
- » Suitable for bikes with suspension forks

Starting from 2024 this fender will be made of a two-tone recycled PP composite material

Material	PP
Mounting location	Front fork
Mounting system	Fixed
Wheel size (inch)	24, 26
Max. tire width (mm)	65
Weight (g)	258
Color name	black

ROADPROTECTOR | BFD-21R

Elegant rear fender for road bikes

- » Protects against water spray and road grime
- » Easy and secure quick release system

Starting from 2024 this fender will be made of a two-tone recycled PP composite material and the Ringfix Aero will come with the integrated light mount

Material	PP
Mounting location	Rear brake bolt
Mounting system	Quick releases
Wheel size (inch)	28
Max. tire width (mm)	28
Quick release type	Easy Quick-release
Weight (g)	100
Color name	black

GRAVELCATCHER | BFD-51

Protects against water spray and grime

- » Adjustable by hand and tool, to be perfectly placed above your tire
- » Ringfix Aero quick release system with pre-applied seatpost protection sticker
- » Fits on regular and aero seatposts

Starting from 2024 this fender will be made of a two-tone recycled PP composite material and the Ringfix Aero will come with the integrated light mount

Material	PP
Mounting location	Seatpost
Mounting system	Quick releases
Wheel size (inch)	27, 5, 28
Max. tire width (mm)	55
Quick release type	Ringfix Aero
Weight (g)	176
Color name	black

ROADPROTECTOR | BFD-21F

Elegant front fender for road bikes

- » Protects against water spray and road grime
- » Easy and secure quick release system

Starting from 2024 this fender will be made of a two-tone recycled PP composite material

Material	PP
Mounting location	Front brake bolt
Mounting system	Quick releases
Wheel size (inch)	28
Max. tire width (mm)	28
Quick release type	Easy Quick-release
Weight (g)	91
Color name	black

ROADCATCHER | BFD-04

High-tech rear fender for road bikes

- » Protects against water spray and road grime
- » Adjustable, by hand and tool, to be perfectly aligned with your tire
- » Ringfix Aero quick release system with pre-applied seatpost protection sticker
- » Fits on regular and aero seatposts

Starting from 2024 this fender will be made of a two-tone recycled PP composite material and the Ringfix Aero will come with the integrated light mount

Material	PP
Mounting location	Seatpost
Wheel size (inch)	27, 5, 28
Max. tire width (mm)	28
Quick release type	Ringfix Aero
Weight (g)	176
Color name	black

FATFENDER | BFD-35R

Lightweight durable polypropylene rear fender special designed for fatbikes

- » Ringfix quick release system One-joint adjustability

Material	PP
Mounting location	Seatpost
Mounting system	Quick releases
Wheel size (inch)	26, 27, 5, 28, 29
Max. tire width (mm)	127
Quick release type	Ringfix
Weight (g)	186
Color name	black

FATFENDER | BFD-35F

Lightweight durable polypropylene fender special designed for fatbikes

- » Downtube mounted fender
- » Dual elastomer strap attachment

Material	PP
Mounting location	Downtube
Mounting system	Quick releases
Wheel size (inch)	26, 27, 5, 28, 29
Max. tire width (mm)	127
Quick release type	Rubber Strap
Weight (g)	106
Color name	black

MUDCATCHER II | BFD-03

Easy to install downtube mounted fender due to two elastomer straps

- » Made with composite material with softer TPR flap
- » Suited for extreme mountain biking

Starting from 2024 this fender will be made of a two-tone recycled PP composite material and softer TPR flap

Material	NBR, PP, TPR
Mounting location	Downtube
Mounting system	Quick releases
Wheel size (inch)	22, 24, 26, 27, 5, 28
Quick release type	Rubber Strap
Weight (g)	75
Color name	black

FLEXFENDER | BFD-31

Lightweight durable polypropylene fender

- » Can be mounted both as front fender or rear fender
- » Extra coverage for front fork stanchions
- » 4 mounting tie wraps included

Material	PP
Mounting location	Front fork, Rear fork
Mounting system	Fixed
Wheel size (inch)	12, 5, 16, 18, 20, 22, 24, 26, 27, 5, 28, 29
Weight (g)	38
Color name	black

CITYGUARD | BFD-40

Set of front and rear fenders to provide full protection against water and debris

- » Suitable for kids-, urban- and trekking bikes
- » Mounts to braze-on eyelets and brake bolt
- » Solid construction with stainless steel stays

Material	PA, PP, STS
Mounting location	Fork, Rear fork
Mounting system	Fixed
Wheel size (inch)	22, 28
Max. tire width (mm)	48
Weight (g)	375, 446
Color name	black

MUDCATCHER XL | BFD-18

Downtube mounted fender

- » Tapered design for better protection where needed
- » Can be mounted in multiple ways

Starting from 2024 this fender will be made of a two-tone recycled PP composite material

Material	NBR, PP, TPR
Mounting location	Downtube
Mounting system	Quick releases
Wheel size (inch)	26, 27, 5, 28, 29
Quick release type	Rubber Strap
Weight (g)	130
Color name	black

RAINPROTECTORS | BFD-25

A set with front and rear fender

- » Two-tone composite material
- » Special geometry provides a wide area of protection against dirt and water in combination with a perfect fit on almost every bike, even with wider tires

Starting from 2024 these fenders will be made of a two-tone recycled PP composite material

Material	PP
Mounting location	Front brake bolt, Rear brake bolt
Mounting system	Fixed
Wheel size (inch)	26, 27, 5, 28
Max. tire width (mm)	48
Weight (g)	336
Color name	black

RAINWARRIORS | BFD-01

A set of front and rear fender

- » The specially engineered geometry provides a wide area of protection against dirt and water
- » Composite material

Starting from 2024 these fenders will be made of a two-tone recycled PP composite material

Material	PP
Mounting location	Front brake bolt, Rear brake bolt
Mounting system	Fixed
Wheel size (inch)	24, 26, 27, 5, 28
Weight (g)	340, 300
Color name	black

ROADPROTECTOR BRACKET | BFD-21FB

Extra long bracket for RoadProtector BFD-21F front fender

- » Protection cover and bolts included
- » Standard size bracket also separately available

Material	Aluminium
Mounting location	Front fork
Mounting system	Fixed bracket
Weight (g)	6
Color name	black

RINGFIX AERO | BFD-91A

RingFix quick release system for fast and easy installation on the seatpost

- » Aero version fits seatpost diameters 25,0 - 57,3 mm
- » Includes an extra-long 185 mm strap to fit securely around aero seatposts

Quick release type	Ringfix Aero
Weight (g)	69
Color name	black

LIGHTBRIDGE | BFD-50B

Rear fender bridge with light mount

- » Fender bridge with foldable and angle adjustable light bracket
- » Compatible with BFD-04/13R/16R/16XLR/51 rear fenders
- » The light mount works with strap mounted lights

Material	PA
----------	----

MINIFIX AERO | BFD-92

MiniFix Aero quick release system

- » Fits (aero) diameters of 10,0 - 35,0 mm
- » TPR inlay designed to fit around a wide variety of both aerodynamic and round seat-posts of different diameters.
- » Can accommodate a M5 nut for universal mounting purposes

Material	TPR
Mounting system	Quick releases
Quick release type	Ringfix Aero
Weight (g)	11
Color name	black

AWARDED!

DOUBLE SHOT | BMP-102

The smallest pump in the world due to its innovative 2-piece design

The DoubleShot is small, very small! This extremely small mini pump can easily fit in your back pocket without you even noticing it. But don't let this little buddy fool you. The DoubleShot has an impressive pump volume. 35 cc per stroke, your tire will be filled before you know it! The Innovative 2-piece design contains 4 shafts that allow this incredible pump volume. With the DoubleShot, you will be on your way again in no time!

Double T-handle, for extra leverage/punch/ power and effortless pumping.

Only 120mm long, fits in your saddle pack due to its innovative 2-piece design.

Tubeless friendly and easy to use due to the special push-on pumphead.

reddot winner 2023

SINGLESHOT | BMP-101

Lightweight and extremely small minipump with large pump volume

- » 160mm long, extremely small minipump for easy carrying in your back pocket
- » With dual chamber technology for an impressive pump volume of 30 cc per stroke
- » Easy to use due to the special tubeless friendly push-on pump head
- » The aluminum body and shaft provide optimal durability while maintaining a low weight for easy carrying

Max. air pressure (Bar)	8
Max. air pressure (PSI)	116
Compatible valves	Presta/French
Valve connection	Direct
Material	Aluminium
Pressure type	High pressure
Type pumphead	Push-On
Type gauge	None
Color name	black

DOUBLESLOT | BMP-102

The smallest pump in the world!

- » 120mm short pump can be easily stored in any saddlebag or in your back pocket
- » Four chamber technology for an impressive pump volume of 35 cc per stroke
- » Easy to use due to the special tubeless friendly push-on pump head
- » Two handles and long hose for easy and comfortable operating despite its small size
- » The aluminum body and shaft provide optimal durability while maintaining a low weight for easy carrying

Max. air pressure (Bar)	8
Max. air pressure (PSI)	116
Compatible valves	Presta/French
Valve connection	Direct
Material	Aluminium
Pressure type	High pressure
Type pumphead	Push-On
Type gauge	None
Color name	black

SINGLESLOT MTB | BMP-103

Lightweight minipump for high volume tires

- » 172mm long high-volume mini pump for easy carrying in your back pocket
- » Dual chamber technology gives 60CC pump volume per stroke, ideal for large volume tires
- » Easy to use due to the special tubeless friendly push-on pump head
- » Durable aluminium body and shaft give a low weight for easy carrying

Max. air pressure (Bar)	4
Max. air pressure (PSI)	60
Compatible valves	Presta/French
Valve connection	Direct
Material	Aluminium
Pressure type	High volume
Type pumphead	Push-On

NANOROAD | BMP-48

Tiny but full of power!

- » Telescopic, lightweight 6061 T6 aluminium mini pump
- » Extreme compact design with high pumping volume
- » Pumphead with thumblock lever system

Max. air pressure (Bar)	8
Max. air pressure (PSI)	116
Compatible valves	Presta/French, Schrader/ Automotive
Valve connection	Direct
Material	Aluminium
Pressure type	High pressure
Type pumphead	Thumblock
Type gauge	None
Weight (g)	95
Color name	black

WINDWAVE | BMP-54

Lightweight mini pump with super comfortable handle to increase your power

- » Durable and lightweight composite barrel
- » Metal piston shaft provides fast high-volume pumping
- » DualHead pumphead with thumblock lever

Max. air pressure (Bar)	7
Max. air pressure (PSI)	100
Compatible valves	Dunlop, Presta/French, Schrader/ Automotive
Valve connection	Direct
Material	Steel, Composite
Pressure type	High volume
Type pumphead	Thumblock
Type gauge	None
Weight (g)	111
Color name	black

EASYROAD | BMP-49

Easy pumping of your road bike

- » Lightweight 6063 T6 aluminium mini pump with extractable hose
- » Lock system prevents the handle from sliding down
- » TwistHead pumphead; Unique screw-on valve system

Max. air pressure (Bar)	9
Max. air pressure (PSI)	130
Compatible valves	Presta/French, Dunlop, Schrader/ Automotive
Valve connection	With hose
Material	Aluminium
Pressure type	High pressure, High volume
Type pumphead	Twisthead
Type gauge	None
Weight (g)	96
Color name	black

WINDRUSH S | BMP-55

Lightweight mini pump with super comfortable handle to increase your power

- » Lightweight 6061 T6 aluminium barrel
- » Metal piston shaft provides fast high-volume pumping
- » DualHead pumphead with thumblock lever

Max. air pressure (Bar)	7
Max. air pressure (PSI)	100
Compatible valves	Dunlop, Presta/French, Schrader/ Automotive
Valve connection	Direct
Material	Aluminium, Steel
Pressure type	High volume
Type pumphead	Thumblock
Type gauge	None
Weight (g)	121
Color name	grey

SAMURAI | BMP-50

Telescopic aluminium mini pump

- » Lightweight 6061 T6 aluminium mini pump with extractable hose
- » Dual function, high volume and high pressure
- » Lock system prevents the handle from sliding down

Max. air pressure (Bar)	9
Max. air pressure (PSI)	130
Compatible valves	Dunlop, Presta/French, Schrader/ Automotive
Valve connection	With hose
Material	Aluminium
Pressure type	High pressure, High volume
Type pumphead	Twisthead
Type gauge	None
Weight (g)	123
Color name	grey, black

WINDGUN S | BMP-57

Lightweight mini pump with pressure gauge that displays bar and psi

- » Lightweight 6061 T6 aluminium barrel
- » The integrated pressure gauge displays both bar and psi
- » Aluminium shaft provides fast high-volume pumping

Max. air pressure (Bar)	7
Max. air pressure (PSI)	100
Compatible valves	Dunlop, Presta/French, Schrader/ Automotive
Valve connection	Direct
Material	Aluminium
Pressure type	High volume
Type pumphead	Thumblock
Type gauge	Analog
Weight (g)	136
Color name	grey

TRAVELLER TELESCOPIC | BMP-53

The best of both worlds

- » Unique telescopic combination of a mini pump and floor pump
- » Twistable foot rest for stable and powerful pumping, integrated with precision pressure gauge
- » Lightweight 6061 T6 aluminium barrel

Max. air pressure (Bar)	8
Max. air pressure (PSI)	116
Compatible valves	Dunlop, Presta/French, Schrader/ Automotive
Valve connection	With hose
Material	Aluminium
Pressure type	High volume
Type pumphead	Twisthead
Type gauge	Analog
Weight (g)	248
Color name	black

PRESSUREGAUGE | BMP-90

Keep your head cool when the pressure is high

- » Digital tire pressure meter
- » Turns off automatically to save power

Max. air pressure (Bar)	11
Max. air pressure (PSI)	160
Compatible valves	Presta/French, Schrader/ Automotive
Valve connection	Direct
Type gauge	Digital
Weight (g)	30
Color name	black

DUALPRESSURE | BMP-39

Fight against the pressure

- » Special high pressure and low pressure function, which makes this pump usable for both shocks and forks as well as tires
- » Fine-tuning pressure bleeder valve for precise air regulation
- » Precision 1.5-inch analog gauge protected by a rubber housing

Max. air pressure (Bar)	21
Max. air pressure (PSI)	300
Compatible valves	Presta/French, Schrader/ Automotive
Valve connection	With hose
Material	Aluminium
Pressure type	High pressure, High volume
Type pumphead	Twisthead
Type gauge	Analog
Weight (g)	206
Color name	black

GADGETGAUGE | BMP-92

Digital tire pressure meter

- » Fine-tuning pressure bleeder valve for precise air delivery
- » Rotatable head for easy pressure reading
- » Auto off power-saver function

Max. air pressure (Bar)	11
Max. air pressure (PSI)	160
Compatible valves	Presta/French, Schrader/ Automotive
Valve connection	Direct
Type gauge	Digital
Color name	black

AIRSHOCK | BMP-29

Air suspension pump

- » Specifically designed for suspensions, fits most shocks and forks
- » Fine-tuning pressure bleeder valve for precise air regulation
- » Precision 1.5-inch analog gauge protected by a rubber housing

Max. air pressure (Bar)	28
Max. air pressure (PSI)	405
Compatible valves	Schrader/Automotive
Valve connection	With hose
Material	Aluminium
Pressure type	High pressure
Type pumphead	Twisthead
Type gauge	Analog
Weight (g)	150
Color name	black/silver

AIRPUSH | BMP-111

Push on CO2 pump

- » Contains easy to operate push system to release the air from the cartridge
- » Pumphead made of special anti-freeze material
- » Threadless valvehead and tubeless friendly
- » 16 gram cartridge and protective cover included

CO2 volume (gr)	16
Compatible valves	Presta/French, Schrader/ Automotive
Valve connection	Direct
Color name	black

AIRPUSH | BMP-111D

Display box with AirPush Minipumps

- » Contains 20 pieces in a display box

NEW

AIRSPEED | BMP-32

Inflate your tire in seconds

- » CO2 cartridge inflator
- » Simple and safe operation
- » 16 gram cartridge and protective cover included

CO2 volume (gr)	16
Compatible valves	Presta/French, Schrader/ Automotive
Valve connection	Direct
Material	Aluminium
Pressure type	High pressure
Weight (g)	74
Color name	black

EASYAIR | BMP-34

Inflate your tire in seconds

- » CO2 cartridge inflator
- » Full aluminium pumphead
- » The pumphead can be mounted without opening the cartridge to regulate the air pressure in your tire easy

CO2 volume (gr)	16
Compatible valves	Presta/French, Schrader/ Automotive
Valve connection	Direct
Material	Aluminium
Pressure type	High pressure
Weight (g)	84
Color name	black

CO2 BLASTER | BMP-335

Inflate your tire in seconds

- » CO2 cartridge inflator and slim, elegant and lightweight aluminium mini pump combined
- » Simple and safe operation
- » 16 gram cartridge and protective cover included

Max. air pressure (Bar)	8
Max. air pressure (PSI)	116
CO2 volume (gr)	16
Compatible valves	Presta/French, Schrader/ Automotive
Valve connection	Direct
Material	Aluminium
Pressure type	High pressure
Type gauge	None
Weight (g)	125
Color name	black

AIRTANK | BMP-35

Fast, easy and practical

- » Replacement cartridges (threaded) for BBB AirSpeed (BMP-32), EasyAir (BMP-34) and CO2Blaster (BMP-335)
- » Volume of 16 gram
- » Available in packs of 2 or 10 cartridges
- » Perfect for inflating a road tire

CO2 volume (gr)	25
Weight (g)	116, 580
Color name	silver

AIRTANK DISPLAY BOX | BMP-36D

Co2 cartridges, sold per piece, in a displaybox

Weight (g)	58
Color name	silver

AIRTANK XL | BMP-38

Fast, easy and practical

- » Pótpatron (menetes) a BBB AirSpeed, EasyAir és CO2Blaster-hez.
- » 25 grammos kapacitás.
- » Tökéletes egy MTB gumibroncs felpumpálásához
- » Egyetlen patron képes egy 29" x 2.45 MTB köpenyt 2.2 bar / 30 psi-ig felpumpálni

Weight (g)	99
Color name	silver/blue

AIRTANK XL DISPLAY BOX | BMP-38D

Fast, easy and practical

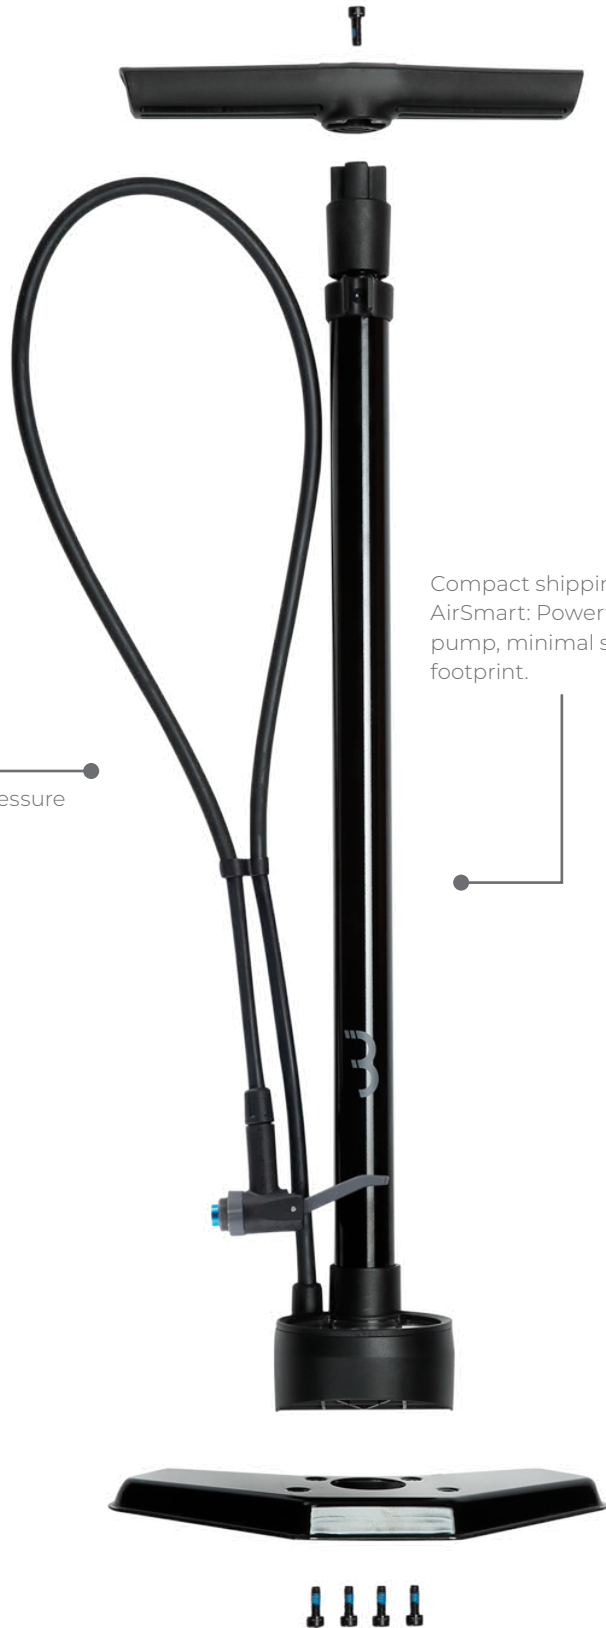

- » Pótpatron darabonkénti eladáshoz displayes kiszerezésben
- » 25 grammos kapacitás.
- » Tökéletes egy MTB gumibroncs felpumpálásához
- » Egyetlen patron képes egy 29" x 2.45 MTB köpenyt 2.2 bar / 30 psi-ig felpumpálni

Weight (g)	99
Color name	silver/blue

NEW!**AIRSMART | BFP-42**

Compact shipping. AirSmart: Powerful pump, minimal storage footprint

Featuring a high-quality, easy-to-read pressure gauge and ergonomic handle for effortless pumping. The 120cm high-pressure rubber hose and premium pump head ensure seamless connections. With a steel barrel and foot for extra stability, achieve optimal inflation power with confidence.

Compact shipping.
AirSmart: Powerful
pump, minimal storage
footprint.

With a 120cm high-pressure
rubber hose.

The high quality aluminium
head easily flips around
between Dunlop and
Presta to Schrader and
has a long reach due to it's
1200mm long hose.

AIRWAVE | BFP-20

Lightweight floor pump with 70 cm high pressure rubber hose

- » Compact floor pump
- » Accurate 2.5 Inch dual-tone pressure gauge with indicator displays both bar and psi
- » Ergonomic “boomerang” type handle, natural pumping position for increased pumping power
- » 70 cm high pressure rubber hose

Max. air pressure (Bar)	9
Max. air pressure (PSI)	130
Compatible valves	Dunlop, Presta/French, Schrader/ Automotive
Material	Composite
Base material	Composite
Type pumphead	DualHead 3.0
Type gauge	Analog
Weight (g)	880
Color name	black

AIRSMART | BFP-42

The new generation of floor pumps

- » High quality and easy-to-read pressure gauge
- » Pump with power in a natural position with ergonomic handle
- » With a 120cm high-pressure rubber hose and premium pump head
- » Steel barrel and foot for extra stability
- » Black glossy finish

Max. air pressure (Bar)	8
Max. air pressure (PSI)	120
Compatible valves	Dunlop, Presta/French, Schrader/ Automotive
Material	Steel, Aluminium, Composite
Base material	Steel
Type pumphead	Fliphead
With gauge	Yes
Type gauge	Analog

AIRBOOST 2.0 | BFP-28

Compact floorpump with 90 cm high pressure rubber hose

- » Accurate 3 Inch pressure gauge with indicator displays both Bar and PSI
- » Steel barrel with strong and stable composite base
- » Ergonomic “boomerang” type handle, natural pumping position for increased pumping power
- » Dualhead 3.0 pumphead with thumblock lever
- » 90 cm high-pressure rubber hose

Max. air pressure (Bar)	11
Max. air pressure (PSI)	160
Compatible valves	Dunlop, Presta/French, Schrader/ Automotive
Material	Steel, Composite
Base material	Composite
Type pumphead	DualHead 3.0
With gauge	Yes
Type gauge	Analog
Color name	black, red, yellow

AIRSWITCH HP/HV | BFP-41

The next generation in floor pumps

- » Two-in-one floorpump with high volume (HV) and high pressure (HP)
- » High-quality and easy-to-read pressure gauge with dual-scale pressure reading
- » Ergonomic boomerang type handle, natural pumping position for increased pumping power
- » Including a 120cm high-pressure rubber hose and high-end pump head.

Max. air pressure (Bar)	11
Max. air pressure (PSI)	160
Compatible valves	Dunlop, Presta/French, Schrader/ Automotive
Material	Aluminium, Steel
Base material	Steel
Type pumphead	Fliphead Pro
With gauge	Yes
Type gauge	Two-stage
Color name	matt black

AIRSTEEL | BFP-27

Extra long floor pump with 90 cm high pressure rubber hose

- » Extra long floor pump
- » Accurate 3 Inch dual-tone pressure gauge displays both bar and psi
- » DualHead 3.0 pumphead with thumblock lever
- » Ergonomic “boomerang” type handle, natural pumping position for increased pumping power
- » Steel barrel and steel foot for extra stability

Max. air pressure (Bar)	11
Max. air pressure (PSI)	160
Compatible valves	Dunlop, Presta/French, Schrader/ Automotive
Material	Steel
Base material	Steel
Type pumphead	DualHead 3.0
With gauge	Yes
Type gauge	Analog
Color name	black, yellow

HOSEKIT 3.0 | BFP-97

Replacement pumphead with 120 cm high pressure rubber hose

- » 120 cm high pressure rubber hose
- » Dualhead 3.0 pumphead with thumblock lever

Compatible valves	Dunlop, Presta/French, Schrader/ Automotive
Type pumphead	DualHead 3.0
Color name	black

DUALHEAD 3.0 | BFP-96

Replacement pumphead for all our floorpumps

- » Replacement pumphead for all BBB floorpumps
- » Thumblock lever for easier and faster mounting on the valve
- » Compatible with Presta, Schräder and Dunlop valves

Compatible valves	Dunlop, Presta/French, Schrader/ Automotive
Material	Composite
Type pumphead	DualHead 3.0
Weight (g)	73
Color name	black

AIRPIPE | BFP-94

Pumphead specifically designed for difficult-to-reach places

- » 90° pumphead adapter for all BBB floorpumps
- » Easy and quick in use
- » Specifically designed for difficult-to-reach places (for example road cycling disc wheels)

Compatible valves	Presta/French
Material	Aluminium
Weight (g)	12
Color name	black

DUALHEAD 2.0 | BFP-93

Reserve pumphead for your floorpumps

- » Fits Presta, Schräder and Dunlop valves

Compatible valves	Dunlop, Presta/French, Schrader/ Automotive
Material	Composite
Type pumphead	Thumblock
Weight (g)	28
Color name	black

DUNLOPCLIP | BFP-95

Adapter for the Dunlop valve

- » Specifically designed to create a perfect and quick fit between pumphead and Dunlop valve
- » Easy and quick in use

Compatible valves	Dunlop
Material	Composite
Weight (g)	16
Color name	black

VALVEKIT | BFP-90

Valve kit for our DualHead, ThreadHead and AutoHead floor pumps

- » Valve kit for BBB DualHead, ThreadHead and AutoHead floor pumps
- » Valve adapters for: sports balls, inflatable boats, inflatable swimming pools, etc.
- » Dunlop valve adapter included
- » Kit mounts conveniently on the hose of all BBB floor pumps

Compatible valves	Dunlop, Presta/French, Schrader/ Automotive
Weight (g)	9
Color name	black

FLIPHEAD PRO | BFP-99

High-end aluminum FlipHead for bicycle pumps

- » 120 cm high pressure hose
- » Easy to use thumblock lever

Compatible valves	Dunlop, Presta/French, Schrader/ Automotive
Material	Aluminium, Composite
Type pumphead	Fliphead Pro

COMPTANK | BWB-01

Always stay hydrated

- » Dishwasher safe and BPA free polypropylene (PP) material
- » SoftLock valve, comfortable and with rotation lock closure

Bottle volume	550 ml / 18.6 oz
Material	PP
Valve	SoftLock
Cap closure system	Twist
Dust cap	No
BPA free	Yes
Odour and taste free	Yes
Thermal	No
Dishwasher safe	Yes
Weight (g)	57
Color name	black/grey, black/blue, neon yellow, magenta, white/black, navy blue, black/red, clear/black, red, smoke

COMPTANK XL DISPLAY BOX | BWB-05D

Always stay hydrated

- » Display box with BBB CompTank XL bottles
- » 12 pieces a display box

Bottle volume	750 ml / 26.4 oz
Weight (g)	62
Color name	mixed colours

COMPTANK DISPLAY BOX | BWB-01D

Always stay hydrated

- » Display box with BBB CompTank bottles
- » 12 pieces a display box

Weight (g)	57
Color name	mixed colours

AUTOTANK | BWB-11

Easy to use, easy to store

- » Bottle with special AutoClose valve, always open and still closed on the bike
- » Easy drinking, no spills on the bike, lockable when needed

Bottle volume	550 ml / 18.6 oz
Material	PP
Valve	AutoClose
Cap closure system	Twist
Dust cap	No
BPA free	Yes
Odour and taste free	Yes
Thermal	No
Dishwasher safe	Yes
Weight (g)	62
Color name	neon yellow, white, clear, black, striped black/red

COMPTANK XL | BWB-05

Always stay hydrated

- » Dishwasher safe and BPA free polypropylene (PP) material
- » SoftLock valve, comfortable and with rotation lock closure

Bottle volume	750 ml / 26.4 oz
Material	PP
Valve	SoftLock
Cap closure system	Twist
Dust cap	No
BPA free	Yes
Odour and taste free	Yes
Thermal	No
Dishwasher safe	Yes
Weight (g)	62
Color name	black/grey, black/blue, black/red, clear/black, neon yellow, magenta, white/grey, navy blue, red, smoke

AUTOTANK MUDCAP AUTOCLOSE | BWB-12

Easy to use, easy to store

- » Bottle with special AutoClose valve, always open and still closed on the bike
- » Including Mudcap to keep mouthpiece clean
- » Including Mudcap to keep mouthpiece clean
- » Easy drinking, no spills on the bike, lockable when needed

Bottle volume	550 ml / 18.6 oz
Material	PP
Valve	AutoClose
Cap closure system	Twist
Dust cap	Yes
BPA free	Yes
Odour and taste free	Yes
Thermal	No
Dishwasher safe	Yes
Weight (g)	67
Color name	transparent, black

AUTOTANK XL | BWB-15

Easy to use, easy to store

- » Bottle with special AutoClose valve, always open and still closed on the bike
- » Easy drinking, no spills on the bike, lockable when needed

Bottle volume	750 ml / 26.4 oz
Material	PP
Valve	AutoClose
Cap closure system	Twist
Dust cap	No
BPA free	Yes
Odour and taste free	Yes
Thermal	No
Dishwasher safe	Yes
Weight (g)	68
Color name	neon yellow, white, clear, black, striped black/red

THERMOTANK REFLECTIVE | BWB-53

Keep it cool or keep it warm, whatever your want!

- » Thermo bottle with double wall construction, 3M insulation and highly reflective material
- » Keeps your drink cool up to twice as long as a normal bottle
- » Bottle with special AutoClose valve, always open and still closed on the bike
- » Adding high visibility in low light conditions

Bottle volume	500 ml / 18 oz
Material	PP
Valve	AutoClose
Cap closure system	Twist
BPA free	Yes
Odour and taste free	Yes
Thermal	Yes
Dishwasher safe	Yes
Weight (g)	82
Color name	silver

AUTOTANK XL MUDCAP AUTOCLOSE | BWB-16

Easy to use, easy to store

- » Bottle with special AutoClose valve, always open and still closed on the bike
- » Easy drinking, no spills on the bike, lockable when needed
- » Dishwasher safe and BPA free polypropylene (PP) material

Bottle volume	750 ml / 26.4 oz
Material	PP
Valve	AutoClose
Cap closure system	Twist
Dust cap	Yes
BPA free	Yes
Odour and taste free	Yes
Thermal	No
Dishwasher safe	Yes
Weight (g)	73
Color name	transparent, black

THERMOTANK | BWB-52

Keep it cool or keep it warm, whatever your want!

STEELCAGE | BBC-51

Classic bottle cage with a modern touch, made to last

Slim and stylish, SteelCage redefines bottle cage design. With a 4.5mm tube, extended mounting range, and extra strap compatibility, it's the ultimate choice for MTB riders, Gravelers, and Travelers seeking secure hydration on every adventure.

Durable and strong 4.5mm Stainless Steel tubing.

Fully open design backplate allows for 30mm mounting range.

STEELCAGE | BBC-51

NEW

Classic bottle cage with a modern touch, made to last

- » Classic bottle cage with a modern touch, made to last
- » Durable and strong 4.5mm Stainless Steel tubing
- » Fully open design backplate allows for 30mm mounting range

Bottle cage type	Side load, Top load
Material	Stainless steel
Bolt type	Stainless Steel

FASTCAGE | BBC-41

Simple, stylish en practical, what more do you need

- » Glassfiber reinforced composite bottle cage

Bottle cage type	Top load
Material	PA+GF
Weight (g)	42
Sizes	Universal
Color name	white, black

DUALCAGE | BBC-39

Easy access to maintain your speed

- » Lightweight dual composite bottle cage
- » Easy dual access to water bottle, from the front as well as the sides

Bottle cage type	Side load, Top load
Material	PA+GF
Bolt type	Stainless Steel
Weight (g)	33
Sizes	Universal
Color name	dark grey/black, white/black, blue/black, red/black, green/black, orange/black, yellow/black, magenta/black

FLEXCAGE | BBC-36

Flexible but strong, to hold your bottle in place

» Lightweight composite bottle cage

Bottle cage type	Top load
Material	PA+GF
Bolt type	Stainless Steel
Weight (g)	42
Sizes	Universal,
Color name	matt black/yellow, matt black/ grey, matt black/blue, matt black/ red, glossy black

FUEL TANK | BBC-03

Fuel your tank!

» Standard version bottle cage
» Durable and lightweight aluminium

Bottle cage type	Top load
Material	Aluminium
Bolt type	Stainless Steel
Weight (g)	72
Sizes	Universal
Color name	glossy black, blue, red, white, silver, matt black, matt titanium, blue anodised, red anodised

DUALATTACK | BBC-40

Choose your side!

» Lightweight dual composite bottle cage
» Especially suited for smaller-sized and full-suspension frames
» Easy dual access to water bottle, from the front as well as the sides

Bottle cage type	Side load
Material	PA+GF
Bolt type	Stainless Steel
Weight (g)	42
Sizes	Universal
Color name	black/dark grey, black/white, black/red

FIBERCAGE | BBC-37

Light and secure

» UD carbon fiber bottle cage
» Unique design holds water bottle securely while allowing fast and easy bottle retrieval

Bottle cage type	Top load
Material	Carbon
Weight (g)	24
Sizes	Universal
Color name	matt black/black, matt black/red, matt black/white

ECOTANK | BBC-01

Exactly what you need

» Classic bottle cage

Bottle cage type	Top load
Material	Aluminium
Bolt type	Stainless Steel
Weight (g)	67
Sizes	Universal
Color name	silver, matt black

SIDECARBON LEFT | BBC-38L

Your bottle will never be left behind!

» UD carbon fiber bottle cage
» Especially suited for smaller-sized and full-suspension frames

Bottle cage type	Side load
Material	Carbon
Weight (g)	29
Sizes	Universal
Color name	matt black

SIDECARBON RIGHT | BBC-38R

Keep your bottle stored the right way!

- » UD carbon fiber bottle cage
- » Especially suited for smaller-sized and full-suspension frames

Bottle cage type	Side load
Material	Carbon
Weight (g)	29
Sizes	Universal
Color name	matt black

DUALMOUNT | BBC-113

Fits directly on AdaptRail system or on fork mounts with the included MiniRail

- » Mounts two bottle cages side by side or a bottle cage and StackRack
- » Bikepacking specific solution to bring extra bottles or other accessories

Material	Aluminium
Bolt type	Stainless Steel
Weight (g)	58
Sizes	Universal
Color name	matt black

ADAPTRAIL | BBC-120

Fitting and measuring

- » Relocate bottle cages for easier accessibility and use your frame space efficiently
- » Mount AdaptRail accessories like StrapPlate or DualMount
- » Size S gives you the option to position your bottle cage up or down
- » Size M and L allow to mount a bottle cage combined with a StrapPlate
- » Size L allows mounting two bottle cages below each other

Material	Aluminium
Bolt type	Stainless Steel
Weight (g)	53, 72, 97
Sizes	S, M, L
Color name	matt black

STACKRACK | BBC-81

For next level bike packing adventures

- » Lightweight cargo carrying rack
- » Multiple mounting options possible
- » Smart shaped rack holds a wide variety of cargo shapes

Material	Aluminium
Weight (g)	169
Sizes	Universal
Color name	matt black

STRAPPLATE | BBC-112

Versatile mounting strap

- » Versatile strap down accessory solution for quick access
- » Wide velcro strap with friction material on inside to hold items in place
- » Allows to bring extra items like spare inner tube on a ride

Material	Aluminium
Bolt type	Stainless Steel
Weight (g)	57
Sizes	Universal
Color name	matt black

HAULERMOUNT | BBC-111

Add an extra bottle cage to your bike

- » Fits on AdaptRail system or mounts directly on bottle cage mounting points
- » Versatile strap down accessory solution for quick access
- » Wide velcro strap with friction material on inside to hold items in place
- » Allows to bring extra items like spare inner tube on a ride

Weight (g)	54
Sizes	Universal
Color name	grey

**CAGEFIX** | BBC-110

A bottle cage that can be placed everywhere on your bike

- » Set of 2 brackets to mount your bottle cage anywhere you want
- » TPR inlay designed to fit around a wide variety of aero tubes as well as round tubes

Material	PP
Weight (g)	26
Sizes	Universal
Color name	black

**CO2HOLD** | BBC-90

Simple but clever Co2 holder

- » Bracket with mounts for two CO2 cartridges to store them both safely and within reach

Weight (g)	11
Sizes	Universal
Color name	matt black

**UNIHOLD** | BBC-95

Mount your bottle cage wherever you want

- » Universal aluminium seatpost and handlebar clamp
- » Can be used to mount a bottle cage on your bike
- » Available in 25,4 - 31,8 mm

Material	Aluminium
Bolt type	Stainless Steel
Weight (g)	20
Sizes	Universal
Color name	black

BARRELPACK M | BSB-151M*Durable water repellent tarpaulin and polyester fabric*

- » Taped waterproof zippers with easy to use zipper pullers
- » Mesh side pocket for quick storage for items like gloves
- » Stiff polyester handlebar straps fits both small round bars and wide aero bars
- » Key clip inside to attach your keys or other item for extra security.

Waterproofness	Weatherproof

PATRON I7 | BSM-04

Turn your iPhone 6/6S/7/8 or SE(2020) into a high-end bicycle computer

- » Full iPhone operability
- » Two rear case shells included; for on and off the bike

Compatible with	BBB Phone Mounts
Mounting location	Handlebar, Stem, Top cap
Materials	Polycarbonate, Polypropylene, TPU
Touchscreen compatible	Yes
Weight (g)	45
Color name	black

SPACERFIX | BSM-92

Mounting bracket for BBB phone mounts

- » Sleek, simplistic mounting bracket
- » Fits on 1.1/8" steerer tubes underneath the topcap

Compatible with	BBB Phone Mounts
Materials	Nylon
Weight (g)	23
Color name	black

WARDEN | BSM-41

Turn your own smartphone case into a bicycle mountable case

- » Easy-to-install 3M™ VHB adhesive backplate
- » Choose your own case, it will adhere to most flat/hard/non-porous surfaces

Compatible with	BBB Phone Mounts
Mounting location	Handlebar, Stem, Top cap
Materials	Nylon
Weight (g)	80
Color name	black

FRONTFIX | BSM-94

Lightweight aluminium CNC machined adjustable smartphone mount bracket

- » Nylon bracket insert to prevent wear on your smartphone case
- » Easy to use clamping mechanism compatible with 25.4/31.8 mm road handlebars

Compatible with	BBB Phone Mounts
Mounting location	Handlebar
Materials	Aluminum 6061 T6, Nylon
Weight (g)	56
Color name	black

PHONEFIX | BSM-91

Mounting bracket for BBB phone mounts

- » Fits diameters up to 38 mm
- » Mountable on stem or handlebar

Compatible with	BBB Phone Mounts
Mounting location	Stem, Handlebar
Materials	Nylon
Weight (g)	42
Color name	black

NANOBOARD 14 | BCP-36W

Easy operation by a single button

- » Wireless computer can be mounted on handlebars and stems
- » Waterproof casing

Amount of functions	14
Wireless	Yes
Sensors included	Speed sensor
Operation buttons	1
Settingbox compatible	Yes
Mounting location	Handlebar, Stem
Materials	Nylon, TPU
Weight (g)	66
Color name	black

DASHBOARD 10 | BCP-15W

Easy to read full-sized display

- » Easy operation by a single button
- » Wireless computer can be mounted on handlebars and stems
- » Waterproof casing

Amount of functions	10
Wireless	Yes
Sensors included	Speed sensor
Operation buttons	1
Settingbox compatible	No
Mounting location	Handlebar, Stem
Materials	Nylon
Weight (g)	74
Color name	black/grey

NANOBOARD 11 | BCP-35W

Easy operation by a single button

- » Wireless computer can be mounted on handlebars and stems
- » Waterproof casing

Amount of functions	11
Wireless	Yes
Sensors included	Speed sensor
Operation buttons	1
Settingbox compatible	Yes
Mounting location	Handlebar, Stem
Materials	Nylon, TPU
Weight (g)	66
Color name	black/silver

DASHBOARD 10 | BCP-06

Easy to read full-sized display

- » Easy operation by a single button
- » Computer can be mounted on handlebars and stems
- » Waterproof casing

Amount of functions	10
Wireless	No
Sensors included	Speed sensor
Operation buttons	1
Settingbox compatible	No
Mounting location	Handlebar, Stem
Materials	Nylon
Weight (g)	64
Color name	black/grey

DASHBOARD 12 | BCP-16W

Easy to read full-sized display

- » Easy operation by a single button
- » Wireless computer can be mounted on handlebars and stems
- » Waterproof casing

Amount of functions	12
Wireless	Yes
Sensors included	Speed sensor
Operation buttons	1
Settingbox compatible	No
Mounting location	Handlebar, Stem
Materials	Nylon
Weight (g)	74
Color name	black/grey

DASHBOARD 7 | BCP-05

Easy to read full-sized display

- » Easy operation by a single button
- » Computer can be mounted on handlebars and stems
- » Waterproof casing

Amount of functions	7
Wireless	No
Sensors included	Speed sensor
Operation buttons	1
Settingbox compatible	No
Mounting location	Handlebar, Stem
Materials	Nylon
Weight (g)	64
Color name	black/grey

SMARTMAGNET | BCP-68

Wheel magnet for use with any speed sensor

» Fits most common round and aero spokes

Sensor compatibility	Speed sensor
Mounting location	Spoke
Weight (g)	3
Color name	silver

CADENCEMAGNET | BCP-69

» Industrial rubber band for extra durability
 » Does not leave any marks on the crank

Sensor compatibility	Cadence sensor
Mounting location	Crank arm
Weight (g)	4
Color name	black

ERGOMOUNT DUO | BCP-96

Lightweight 6061 T6 Aluminium CNC machined computer bracket

» Fits all Garmin quartermount, Mio cyclo and Wahoo computers.
 » Easy to use clamping mechanism compatible with 25,4/31,8 mm handlebars
 » Go-Pro bracket underneath

Mounting location	Handlebar
Materials	Aluminum 6061 T6
H x W x L (mm)	40 x 55 x 140
Weight (g)	62
Color name	black

Bluetooth Smart technology connects to your smartphone and other Bluetooth Smart ready enabled devices, giving you low-power consumption data transmission.

ANT+ compatibility gives you an interference and cross-talk free communication between your computer and transmitting accessories like heart rate belts and cadence meters.

A reliable and stable connection, without the worry of flat batteries. No-nonsense is what you get with our wired computers.

Away with tangled cables and rubbing marks on your frame, wireless cycling computers keep your bike neat, have the same features as wired computers, but without the hassle.

NEW!

DROPVIEW | BBM-03 / MULTIVIEW | BBM-04

Elevate your cycling experience with our new mirrors

Featuring wide-view, super convex anti-glare blue glass, its optimal size ensures clear visibility. With a universal design for left or right handlebars, easy inner handlebar-end mounting, and compatibility with flat and urban handlebars, safety and style merge seamlessly.

Easy inner handlebar-end mounting system (Ø 16-23mm).

Wide view convex and anti glare blue glass.

E-bike certified	Yes
Sizes	Left, Right
Color name	black

E-VIEW | BBM-01

Multi adjustable bicycle mirror with anti-glare coating

- » Certified for E-bike and Speed pedelec
- » Inner handlebar-end mounting system
- » Available in a left and right model

Inner handlebar diameter (mm)	14,9, 19
Anti glare	Yes
Speed Pedelec certified	Yes
E-bike certified	Yes
Sizes	Left, Right
Color name	black

MULTIVIS | BBP-71*Reflective stickers suited for use on your frame and rims*

- » Can be applied on other products like helmets, shoes and other bike components
- » 23 stickers in 7 different shapes

Usage type	Reflection stickers
Color name	black

ROLLVIS | BBP-72*Black reflective sticker rol*

- » Stickers suited for use on your frame and rims
- » Can be applied on other products like helmets, shoes and other bike components
- » 40 mm wide and 1 m long reflection rol

Usage type	Reflection stickers
Color name	black

STAYGUARD | BBP-12M*Neoprene cover protects your chainstay from chain-slap scratches*

- » Extra tough yet flexible material with anti-slip on the inside
- » Large velcro strap keeps StayGuard securely attached to your bike's chainstay
- » Size: 250x110/90mm

Usage type	Chain stay protection
H x W x L (mm)	110 x 90 x 250
Weight (g)	15
Color name	black

STAYGUARD | BBP-12L*Neoprene cover protects your chainstay from chain-slap scratches*

- » Extra tough yet flexible material with anti-slip on the inside
- » Large velcro strap keeps StayGuard securely attached to your bike's chainstay
- » Size: 250x130mm

Usage type	Chain stay protection
H x W x L (mm)	130 x 130 x 250
Weight (g)	20
Color name	black

STAYSKIN | BBP-21

Prevent damages caused by repeated contact to your bike frame or parts

- » Water and heat resistant protective sticker, suitable for all weather conditions
- » Easy installation due to flexible material

Usage type	Chain stay protection
Weight (g)	17
Color name	black

BIKESKIN | BBP-51

Prevent damages caused by repeated contact to your bike frame or parts

- » Water and heat resistant protective sticker, suitable for all weather conditions
- » Easy installation

Usage type	Chain stay protection, Frame protection
Weight (g)	12
Color name	carbon fiber print

CARBONSKIN | BBP-56

Thick extra durable adhesive pads for protecting your bike's paint

- » Set includes: stay guard protection, 4 x 30 mm pads, 4 x 20 x 40 mm pads and a 85 x 122 mm square, to cut out self-made shapes
- » Rugged water resistant and flexible pads, suitable for all weather condition

Usage type	Chain stay protection, Frame protection
Weight (g)	18
Color name	real carbon fiber layer

TUBESKIN | BBP-60

Thick adhesive pad to protect your downtube's paint against flying dirt and debris

- » Extra strong adhesive, stays attached even under the most extreme conditions

Usage type	Frame protection
Weight (g)	11
Color name	transparent

CLEARSKIN | BBP-57

Thick extra durable adhesive pads for protecting your bike's paint

- » Set includes: stay guard protection, 4 x 30 mm pads, 4 x 20 x 40 mm pads and a 85 x 122 mm square, to cut out self-made shapes
- » Rugged water resistant and flexible pads, suitable for all weather condition

Usage type	Chain stay protection, Frame protection
Weight (g)	12
Color name	transparent

FRAMESKIN | BBP-61

Thick extra wide adhesive pad to protect your frame's paint against flying dirt and debris

- » Extra strong adhesive, stays attached even under the most extreme conditions

Usage type	Frame protection
Weight (g)	16
Color name	transparent

Extra tools	Brake pad spreader, Tire lever
Chain breaker	Yes
Weight (g)	200
Color name	black/silver

MINIFOLD S | BTL-40S

Strong tools combined with a lightweight aluminium side plates

» 9 functions

Hex size (mm)	2, 2, 5, 3, 4, 5, 6, 8
Screwdriver type	Flat (SL-6), Philips (PH-3)
Weight (g)	111
Color name	black/silver

TORXFOLD | BTL-143

High-end folding tool with durable aluminium side plates

» Includes 8 different sizes of torx keys

Torx size	T9, T10, T15, T20, T25, T27, T30, T40
Weight (g)	125
Color name	black/silver

NEW!

SMARTLIFT | BTL-82

Smart tire lever multitool to remove and install your tire

Experience the ultimate tire tool innovation with SmartLift. Effortlessly remove and install tires with these tire levers. The convenient installation hook ensures quick fitting on the rim. Integrated storage keeps presta valve core and tubeless tire plugs at your fingertips. Plus, enjoy the added versatility of the built-in valve core tool. Tire maintenance made smarter.

Integrated storage for presta valve core and tubeless tire plugs. (Tubeless tire plug and valve core not included)

Includes a built-in valve core tool for added versatility.

CASSETTEREMOVER SET | BTL-194

Including BTL-12S Lockout, BTL-122 T-Rex and BTL-211 GuidePin

- » Shimano/SRAM compatible
- » Thru axle, 12mm, compatible
- » 10,11,12 Speed compatible

Speed compatibility	10, 11, 12
Color name	silver

LOCKOUT | BTL-12C

Removes cassette lock-rings of Campagnolo compatible cassettes

- » With kraton handle for a firm and comfortable grip

Speed compatibility	7, 8, 9, 10, 11
Weight (g)	295
Color name	black/silver

T-REXGRIP | BTL-122

Get a perfect grip on your cassette with these easy to use cassette pliers

- » Suitable for sprockets from 11-26 teeth
- » Fits with a spring to lock the sprocket fast and firm without slipping away
- » With kraton handle for a firm and comfortable grip

Material	Kraton, Steel
Speed compatibility	7, 8, 9, 10, 11, 12
Weight (g)	326
Color name	black/blue

LOCKOUT | BTL-12S

Removes cassette lock-rings of Shimano compatible cassettes and center lock disc brake hub systems

- » With kraton handle for a firm and comfortable grip

Speed compatibility	7, 8, 9, 10, 11, 12
Weight (g)	301
Color name	black/blue

TURNTABLE | BTL-11

Effectively holds the sprockets when removing the cassette lock-ring

- » Also removes freewheel sprockets
- » 7, 8, 9 and 10-speed compatible

Speed compatibility	7, 8, 9, 10
Weight (g)	194
Color name	black/blue

GUIDEPIN | BTL-211

12mm adapter for cassette locking tools

- » The aluminium adapter stays in place due to a magnet
- » Shimano/SRAM/Campagnolo compatible
- » Compatible with: BTL-12S/12C/107S/108C

Axle size (mm)	12
Weight (g)	12
Color name	black

TURNTABLE II | BTL-11S

Effectively holds the sprockets when removing the cassette lock-ring

- » Also removes freewheel sprockets
- » 7, 8, 9, 10 and 11 speed compatible

Speed compatibility	7, 8, 9, 10, 11
Weight (g)	295
Color name	black/blue

NAUTILUS II | BTL-05

Easy-to-use high-end chain tool

- » Can be adjusted to any chainsize
- » With kraton handle for a firm and comfortable grip
- » Integrated chain hook holds links during assembly

Speed compatibility	7, 8, 9, 10, 11, 12
Weight (g)	97
Color name	black

PROFICONNECT | BTL-55

Professional chain rivet tool

- » Compatible with any chain, including 12 speed
- » Fully adjustable to the size of the chain
- » Integrated chain hook holds links during assembly
- » With kraton handle for a firm and comfortable grip
- » With adapter for Campagnolo chains

Speed compatibility	7, 8, 9, 10, 11, 12
Weight (g)	330
Color name	black

HANDYHOOK | BTL-121

Great tool to keep the chain in place while replacing or checking the length of the chain

Weight (g)	11
Color name	black/silver

RE-LINK | BTL-213

Ergonomic dual-function chain link tool compatible with all chains (1-12s)

- » Dual-function tool: open and close chain links with the same movement
- » Ergonomic design with a 90-degree bend for comfortable handling
- » Durable construction from extra hardened steel
- » Eco-friendly grips made from GRS certified recycled plastic

Material	Steel
Speed compatibility	1, 7, 8, 9, 10, 11, 12

BRACKETGRIP | BTL-120

Bottom bracket tool compatible with 16-notch 48,5 mm outer diameter cups

- » Extra long: 33 cm
- » With kraton handle for a firm and comfortable grip

Weight (g)	310
Color name	black/blue

LINKFIX | BTL-77

Chain link tool with dual function

- » With kraton handle for a firm and comfortable grip

Speed compatibility	7, 8, 9, 10, 11, 12
Weight (g)	147
Color name	black/blue

BRACKETGRIP | BTL-116

Bottom bracket tool compatible with 16-notch 39/41 mm outer diameter cups

- » With kraton handle for a firm and comfortable grip
- » Extra long 33 cm handle
- » Compatible with Shimano Dura Ace BB-9000, XTR 980 BB93, Ultegra 6800 and 105 5800 BBR60

Weight (g)	395
Color name	black/blue

CHAINCHECKER | BTL-125

Easy to use chain wear checking tool

- » Integrated chain hooks hold links during assembly
- » Added valve tool and 5/6/8 mm allen keys makes this a unique multi-tool

Speed compatibility	7, 8, 9, 10, 11, 12
Weight (g)	30
Color name	silver

BRACKETGRIP | BTL-27L

Bottom bracket tool compatible with 16-notch 44 mm outer diameter cups like the Shimano and Campagnolo

- » With kraton handle for a firm and comfortable grip
- » Extra long 33 cm handle

Weight (g)	312
Color name	black/blue

BRACKETGRIP DUB | BTL-193

Bottom bracket tool compatible with 12-notch 46mm outer diameter cups: SRAM DUB

- » With kraton handle for a firm and comfortable grip
- » Extra long: 33cm

Color name _____ black _____

MULTIHOOK | BTL-24

For easy assembly of bottom bracket lock rings

- » Fits most lock-ring sizes
- » With kraton handle for a firm and comfortable grip

Weight (g) _____ 201 _____
Color name _____ black/blue _____

CRANKGRIP | BTL-102

Designed specifically for the removal of the dust cover from a HollowTech II crankset

- » Can be used without any extra tools

Weight (g) _____ 12 _____
Color name _____ black _____

POWERPULL | BTL-14

Separates the crank from the bike's bottom bracket

- » Due to the removable cap the puller can be used on ISIS, Octalink en Square tapered spindles
- » Without the cap the tool can be used on Squared tapered spindles
- » With the cap the tool can be used on ISIS and Octalink spindles

Bottom bracket standard _____ ISIS, Octa, Square Tapered _____
Weight (g) _____ 92 _____
Color name _____ black _____

ULTRAGRIP | BTL-38

Bottom bracket tool set for Campagnolo Ultra-Torque

- » Compatible with 16-notch 44 mm outer diameter cups
- » Bottom bracket tool to assemble the cups and extra long allen key to mount the fixing bolt
- » With kraton handle for a firm and comfortable grip

Weight (g) _____ 696 _____
Color name _____ black/blue _____

Chainring nut wrench

- » For easy mounting of the chainring nuts
- » Compatible with Shimano and Campagnolo chainring nuts

Weight (g) _____ 33 _____
Color name _____ black _____

PULLSTAR | BTL-20L

Bottom bracket tool for Shimano cartridge type bottom brackets

- » Compatible with traditional, Octalink and ISIS models
- » Screw-on blocking mechanism
- » Extra long 33 cm handle allows you to apply more torque
- » With kraton handle for a firm and comfortable grip

Bottom bracket standard _____ ISIS, Octa _____
Weight (g) _____ 456 _____
Color name _____ black/blue _____

DUALFORCE | BTL-101

Ergonomic double-sided allen wrench

- » 6 mm and 8 mm allen keys
- » Remove and replace your pedals quickly and easily
- » With kraton handle for a firm and comfortable grip

Hex size (mm) _____ 6, 8 _____
Weight (g) _____ 196 _____
Color name _____ black/blue _____

HI TORQUE L | BTL-10D

Ergonomic double-sided pedal wrench

- » Extra wide and strong hooks
- » Extra long: 33 cm

Weight (g)	320
Sizes	15mm
Color name	black/blue

DISCSTRAIGHT | BTL-74

Disc brake rotor straightening tool

- » Ideal solution when replacement disc is not available
- » With kraton handle for a firm and comfortable grip

Weight (g)	247
Color name	black/blue

NEEDLEDRIVER HYDRAULIC | BTL-160

Professional hydraulic needle driver

- » Can be used for both needle and banjo hose barbs
- » Compatible with most brake systems

Weight (g)	134
Color name	black

DISCDOCTOR | BTL-212

Compact disc brake multitool with 6 functions

- » Removable shim for easy caliper aligning
- » Rotor truing fork and wear gauge function for all common rotors
- » Convenient piston spreader for brake maintenance
- » Stay on top of brake pad wear with the built-in gauge
- » With handy valve core tool

Material	Steel
-----------------	-------

NEW

HOSECUTTER HYDRAULIC | BTL-161

Cuts a smooth and clean cross section in hydraulic brake hose

- » Specific tool for synthetic hydraulic brake hoses
- » Long grips for easy leverage
- » Blade is safely hidden when in locked mode

Weight (g)	63
Color name	blue

PROFICUT | BTL-54

Professional cable cutter

- » Ultra-sharp hardened steel blades
- » Crimper for cable ends
- » With kraton handle for a firm and comfortable grip

Material	Kraton, Nylon, Steel
Weight (g)	292
Color name	black/blue

PISTONFIX | BTL-115

Handy tool to pre-set the hydraulic piston when replacing worn out pads

- » With kraton handle for a firm and comfortable grip

Weight (g)	206
Color name	black/blue

FASTCUT | BTL-16

Ultra-sharp blades cut bike cables effortlessly

- » Industrial grade hardened steel
- » With kraton handle for a firm and comfortable grip

Weight (g)	171
Color name	black/silver

CABLEPULLER | BTL-195

Inner cable puller compatible for all common cable diameters

- » Made of high quality steel
- » Two stage operation
- » Can pull the cable up to 33mm

Weight (g)	229
Color name	silver

CABLEGUIDESET | BTL-184

Complete internal cable routing tool

- » A strong magnet, four individual adapters and two 2.5 m magnetic lead wires included
- » Suitable for shifting- /braking cables, outer cables, hydraulic hoses and Di2 wires
- » Compatible with carbon fiber, titanium and aluminum bicycle frames with a minimum 6 mm hole

Weight (g)	64
Color name	silver

HIGHTORQUE | BTL-175

1/2" ratcheting torque wrench, adjustable with increments of 0.25 Nm

- » Suitable for both left as well as right-hand threads
- » Click-indicator for when the torque setting is reached
- » Total length of 355mm for maximal leverage
- » Individually calibrated by a computer for the best and most precise quality
- » Protection case included

Square bit driver (inch)	1/2
Weight (g)	780
Color name	chrome

TORQUESET DELUXE | BTL-173

Torque tool with 1/4" drive, adjustable with increments of 0.2Nm

- » Click-mechanism to indicate when torque setting is reached
- » Each torque wrench is individually calibrated by computer and can be re-calibrated
- » Protection case included

Hex size (mm)	3, 4, 5, 6, 8
Torx size	T25, T30
Square bit driver (inch)	1/4
Weight (g)	503
Color name	chrome

TORQUETUNE | BTL-182

Adjustable torque wrench with bits included in the foldable handle

- » Foldable design for use as a driver or T-wrench
- » Click-mechanism to indicate when torque setting is reached
- » Hex keys 2.5, 3, 4, 5, 6 and T25 torx included
- » Bit storage located in the handle

Hex size (mm)	2, 5, 3, 4, 5, 6
Hex bit driver (inch)	1/4
Torx size	T25
Material	Nylon, Steel
Weight (g)	183
Color name	black

TORQUESET | BTL-73

Torque tool with 1/4" drive adjustable with increments of 0.5 Nm

- » Click-mechanism to indicate when torque setting is reached
- » Individually calibrated by computer
- » Protection case included

Hex size (mm)	3, 4, 5, 6, 8
Torx size	T25, T30
Square bit driver (inch)	1/4
Weight (g)	483
Color name	black

TORQUEFIX | BTL-119

Do you know your own power? To make sure all your bolts are tightened at the right torque

- » Click-mechanism to indicate when torque setting is reached
- » Hex keys 2, 3, 4, 5, 6 and T25 torx included
- » Available in 4, 5 and 6 Nm

Hex size (mm)	2, 3, 4, 5, 6
Torx size	T25
Weight (g)	146
Color name	black/blue

HEX T | BTL-45

T-handle allen wrench

- » With ball head for hard to reach bolt heads
- » Handle made of durable composite material

Hex size (mm)	2, 2.5, 3, 4, 5, 6, 8
Material	Steel
Weight (g)	20, 22, 28, 56, 70, 88, 178
Sizes	2mm, 2.5mm, 3mm, 4mm, 5mm, 6mm, 8mm
Color name	black/silver

TORX T | BTL-46

T-handle torx wrench

- » Compatible with torx bolts with and without pin
- » Handle made of durable composite material

Torx size	T25, T30, T40
Material	Steel
Weight (g)	66, 84, 146
Sizes	T25, T30, T40
Color name	black/silver

COMBOSTAR | BTL-28C

Portable hex and torx key set combination

- » Kraton grip in the middle for extra comfort

Hex size (mm)	4, 5
Torx size	T25
Weight (g)	61
Color name	black

HEX T SET | BTL-45S

T-handle hex and torx wrench set including holder

- » With ball head for hard to reach bolt heads
- » Handle made of durable composite material
- » Contents: 2, 2.5, 3, 4, 5, 6, 8 and 10mm hex and T25 torx.

Hex size (mm)	2, 2.5, 3, 4, 5, 6, 8, 10
Torx size	T25
Material	Steel
Weight (g)	1084
Color name	black/silver

HEXSET | BTL-118

9-piece L-shaped allen wrenches set

- » Ball end for hard to reach bolt heads and a straight tip on the short arm for high torque applications
- » Comes with a handy portable tool organizer, labeled for easy access and storage

Hex size (mm)	1, 5, 2, 2.5, 3, 4, 5, 6, 8, 10
Material	Steel
Weight (g)	416
Color name	black

THREESTAR | BTL-28

Portable Hex key set

- » Kraton grip in the middle for extra comfort

Hex size (mm)	2, 2.5, 3, 4, 5, 6
Weight (g)	63, 65
Sizes	2/2.5/3mm, 4/5/6mm
Color name	black

HEXAGON | BTL-13

Extra long and strong allen key

- » Available in 8 mm
- » With hard rubber sleeve for better grip

Hex size (mm)	8
Weight (g)	110
Sizes	8mm
Color name	black/silver

TORXSTAR | BTL-28T

Portable torx key set

- » Kraton grip in the middle for extra comfort

Torx size	T25, T30, T40
Weight (g)	68
Sizes	T25/30/40
Color name	black

DRIVEFORCE | BTL-104

Ergonomic 1/2" driver wrench for all 1/2" sockets

- » Extra long 33 cm
- » With kraton handle for a firm and comfortable grip

Square bit driver (inch)	1/2
Weight (g)	321
Color name	black/blue

BRACKETPLUG DUB | BTL-105D

Designed for the installation and removal of 12 Notch 46 mm bottom bracket cups

- » Compatible with the SRAM DUB standard
- » Compatible with the BTL-104 DriveForce and a 24mm wrench

Square bit driver (inch)	1/2
Weight (g)	138
Color name	grey

BRACKETPLUG | BTL-105

Designed for the installation and removal of 16-notch 44mm outer diameter cups

- » Compatible with the BTL-104 DriveForce and a 24mm wrench
- » Compatible with Shimano Hollowtech II

Square bit driver (inch)	1/2
Weight (g)	220
Color name	silver

LOCKPLUG | BTL-108C

Designed for the installation and removal of cassette lockrings of Campagnolo compatible cassettes

- » With guide pin
- » Compatible with the BTL-104 DriveForce and a 24 mm wrench

Square bit driver (inch)	1/2
Weight (g)	103
Color name	silver

BRACKETPLUG | BTL-109

Designed for the installation and removal of Shimano cartridge type bottom brackets

- » Compatible with traditional, Octalink and ISIS models
- » Compatible with the BTL-104 DriveForce and a 24 mm wrench

Square bit driver (inch)	1/2
Weight (g)	124
Color name	silver

LOCKPLUG | BTL-106S

Designed for the installation and removal of Shimano HG cassette lockrings and center lock disc brake hub systems

- » Compatible with the BTL-104 DriveForce and a 24 mm wrench

Square bit driver (inch)	1/2
Weight (g)	57
Color name	silver

HEXPLUG | BTL-110

8 mm allen key socket

- » Compatible with the BTL-104 DriveForce and a 24 mm wrench

Square bit driver (inch)	1/2
Weight (g)	75
Color name	silver

LOCKPLUG | BTL-107S

Designed for the installation and removal of Shimano HG cassette lockrings and center lock disc brake hub systems

- » With guide pin
- » Compatible with the BTL-104 DriveForce and a 24 mm wrench

Square bit driver (inch)	1/2
Weight (g)	83
Color name	silver

HEXPLUG | BTL-111

10 mm allen key socket

- » Compatible with the BTL-104 DriveForce and a 24 mm wrench

Square bit driver (inch)	1/2
Weight (g)	78
Color name	silver

DIRECTPLUG SHIMANO XTR | BTL-199

Directmount Chaining tool for Shimano XTR with 41mm /16 notch locking

- » Operate with 44mm BB tool (BTL-27L) or 36mm spanner (BTL-56)
- » Compatible with: XTR: FC-M9100/M9120/M9130, XT: FC-M8100/M8120/M8130, SLX: FC-M7100/M7120/M7130, Deore 12s: FC-M6100/M6120

Material	Steel
Weight (g)	117
Color name	black

DIRECTPLUG BOSCH GEN.3/4 | BTL-200

Bosch Lockring tool for Bosch Gen. 3 & 4 chainrings with 43mm /8 notch locking

- » Operate with 1/2" driver(BTL-104/ BTL-175) or 24mm spanner

Square bit driver (inch)	1/2
Weight (g)	201
Color name	black

LOCKOUT | BTL-128E

Removes cassette lock-rings of Bosch mid-motor sprockets

- » Extra-long, for increased leverage
- » With kraton handle for a firm and comfortable grip

Weight (g)	305
Color name	black/blue

CUPOUT | BTL-113

22 mm cup remover

- » To remove press fit bottom bracket systems using the 24 mm spindle

Weight (g)	221
Color name	silver

CUPOUT | BTL-114

25,4 mm cup remover

- » Designed to remove 1", 1-1/8" and 1-1/4" headsets and PressFit 30 (PF30) and BB30 bottom bracket bearings

Weight (g)	303
Color name	silver

HEADFIX | BTL-56

High quality headset wrench

- » With kraton handle for a firm and comfortable grip

Headfix size	32/36, 36/40
Weight (g)	293, 297
Sizes	32/36mm, 36/40mm
Color name	silver

CONASET | BTL-25S

5-piece set of versatile and durable cone wrenches

Cone size (mm)	13, 14, 15, 16, 17
Weight (g)	690
Color name	black/blue

CONEFIX | BTL-25

Versatile and durable cone wrench

- » Available in different sizes

Cone size (mm)	13, 14, 15, 16, 17
Weight (g)	133, 130, 132
Sizes	13mm, 14mm, 15mm, 16mm, 17mm
Color name	black/blue

PROTUNE | BTL-183

Professional spoke wrench

- » Spoke nipple locking system for easy truing

Spoke wrenches	3.23 mm (0.127 inch), 3.30 mm (0.130 inch), 3.45 mm (0.136 inch)
Weight (g)	17
Sizes	3.2mm, 3.3mm, 3.5mm
Color name	black, green, red

TENSIONGAUGE | BTL-186

Spoke tension meter for checking, truing and building wheels

- » Compatible with all spoke shapes and material

Weight (g)	150
Color name	black

PROTUNE SET | BTL-183S

Professional spoke wrench set

- » Spoke nipple locking system for easy truing

Spoke wrenches	3.23 mm (0.127 inch), 3.30 mm (0.130 inch), 3.45 mm (0.136 inch)
Weight (g)	51
Color name	black, green, red

EASYLIFT | BTL-81

Easy to use tire levers

- » Click-together system for portability
- » 3 pieces a set

Material	Nylon
Weight (g)	35
Color name	black, red/white/blue, red/white/green, black/red/yellow, neon yellow

TURNER II | BTL-15

Compact CrMo spoke wrench

Spoke wrenches	3.23 mm (0.127 inch), 3.30 mm (0.130 inch), 3.45 mm (0.136 inch), 3.96 mm (0.156 inch)
Weight (g)	36
Color name	silver

EASYLIFT DISPLAY BOX | BTL-81D

Display box with 48 sets of 3 pcs EasyLift tire levers.

Weight (g)	1840
Color name	black/blue/red/green

SPOKEHOLDER | BTL-214

Universal spoke plier compatible with round and flat spokes

- » Securely holds spokes in place when building or truing wheels
- » Prevents twisted spokes and damage to spoke nipple threads
- » Compatible with J-bend and straight pull spokes
- » Suitable for round and flat spokes up to 2.4mm (13G)
- » Features ergonomic handles for comfortable and efficient use

Material	Steel
-----------------	-------

SMARTLIFT | BTL-82

Smart tire lever multitool to remove and install your tyre

- » Effortless tire removal with two included tire levers.
- » Convenient tire installation hook for quick and easy fitting of the tire on the rim
- » Integrated storage for presta valve core and tubeless tire plugs
- » Includes a built-in valve core tool for added versatility

Material	Nylon
-----------------	-------

SMARTLIFT DISPLYBOX 24 | BTL-82D

SmartLift Displaybox 24 pcs.

- » Smart tire lever multitool to remove and install your tyre» Includes a built-in valve core tool for added versatility

PROFILIFT | BTL-79

Professional tire lever

- » Composite side for bike wheels, metal side for heavy duty purposes
- » Comfortable grip

Weight (g)	79
Color name	black

PUNCTUREPLUGGER | BTL-185

Tubeless tire repair kit

- » Separate reamer and insertion tool
- » Includes 6 tire plugs (3 x 1.5mm and 3 x 3.5mm)
- » CNC machined handle with storage container for the plugs
- » High-quality and durable tool made from aluminum and steel

Weight (g)	55
Color name	black

EASYTIRE | BTL-78

The tool helps to put tires on the rim

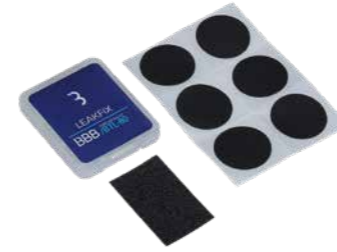

- » Perfect help for tight tires/wheel combination
- » Fully composite to prevent wheel or tire damage

Weight (g)	120
Color name	black

LEAKFIX | BTL-80

Tube repair kit with adhesive patches

Weight (g)	8
Sizes	Universal
Color name	black

LEAKFIX DISPLAY BOX | BTL-80D

Display box with 50 pcs of BTL-80 LeakFix.

Weight (g)	489
Color name	black

THRUGRIP | BTL-123

This transport kit consists of 2 pistonpads and a chainguide

- » The pistonpads can be used for keeping the brakepads spread while the wheels are out
- » With use of the O-ring the pistonpads can be held in place in almost all brake systems
- » The chainguide can keep the chain clear and guided on axles up to 12 mm

Weight (g)	50
Color name	black/silver

CHAINGRIP | BTL-50

Quick-release axle system keeps the chain under tension when the wheel is removed

- » Easy for transportation and cleaning of the bike

Weight (g)	115, 122
Sizes	130mm, 135mm
Color name	black/silver

FORKGRIP | BTL-49

Quick release axle system protects the front fork when the wheel is removed

- » With disc brake pad adapter which retains the brake pads when the disc is removed

Weight (g)	84
Color name	black/silver

TOOTHBRUSH | BTL-17

Extra thick brushes suited for a variety of cassette cleaning jobs

- » Durable nylon brushes stay stiff
- » Washable

Material	Nylon
Weight (g)	35
Color name	black

FRAMESET | BTL-190

Durable and washable brushes and mitt to wash your whole bike

Weight (g)	150
Color name	black

BRIGHT & FRESH | BTL-21

Tool for cleaning your chain

- » Smooth internal chain guide mechanism
- » No chain disassembly required
- » Rinse the cleaner well with water after use. Because fumes from the degreaser can damage the plastic.

Weight (g)	290
Color name	clear

BIOSUPERWASH | BTL-251

Bio Superwash effortlessly cleans grease and dirt from your bike without the use of any chemicals.

- » Contains natural wax to protect the paint
- » Highly concentrated for smaller packaging
- » PH-neutral
- » 100% biodegradable within 28 days
- » 100% free from microplastics

Volume (L)	1
Color name	blue

BIODRIVETRAIN CLEANER | BTL-250

Bio Drivetrain Cleaner is a plant-based degreaser.

- » Can be used undiluted without any problems
- » 100% plant-based
- » 100% recycled PET packaging
- » 100% free from microplastics

Volume (L)	1
Color name	red

BIOSUPERWASH | BTL-251W

Sustainable wash for bicycle cleaning

- » Contains natural wax to protect the paint
- » Highly concentrated for smaller packaging solutions
- » PH-neutral
- » 100% biodegradable within 28 days
- » 100% free from microplastics

Volume (L)	5
Color name	blue

BIODRIVETRAIN CLEANER | BTL-250W

Sustainable plant-based degreaser

- » Can be used undiluted without any problems
- » Made with 100% plant-based ingredients
- » Packaging made from 100% recycled PET material
- » 100% free from microplastics

Volume (L)	5
Color name	red

DEADBLOW | BTL-187

Anti-rebound hammer provides sustained impact and force without vibrations

- » Soft rubber head for surface protection

Weight (g)	513
Color name	black

ALLROUNDKIT | BTL-91

Extra strong toolbox with the 16 most common tools for your bike maintenance

- » Protective foam inserts keeps the tools in place
- » Extra space to add additional tools to meet your specific needs

Weight (g)	4270
Color name	black

STEERERTUBE | BTL-188

Sawguide ensures a straight cut for steertubes, seatposts or handlebars

- » Can be mounted on a vise
- » Suited for Ø 20 - 33 mm bars

Weight (g)	427
Color name	silver

CHAIN&CASSETTE SET | BTL-225

All tools you need to perform maintenance on the chain, cassette and more

- » Comes in a luxury toolbox for storage and transport
- » With protective foam inserts to protects your tools and keep them all in place

Weight (g)	2100
Color name	black

MULTITUBE | BTL-189

Sawguide ensures a straight cut, for round or aero shaped steertubes, seatposts or handlebars

- » Can be mounted on a vise
- » Suited for Ø 21.5 - 45 mm bars and aerobar tube length: 30 - 80 mm

Weight (g)	445
Color name	silver

BEARINGPRESS SET | BTL-231

Bearing press set compatible for all 22/24/29/30mm spindle standards

- » Two sided aluminium CNC machined cups for a perfect fit on both bottom bracket cups and bearings
- » Supports all (serviceable) BBB cycling bottom brackets
- » Luxury and comfortable handles with an offset for easy usage
- » 240mm long thread fits any bottom bracket width
- » Comes in a luxury toolbox for storage and transport

Weight (g)	1270
Color name	black

PADALIGN | BTL-196

Derailleur pad alignment tool

- » Long and stiff profile with accurate gauge for high precision
- » Rubber ends on the gauge to prevent damage to the rim
- » Made of high quality steel and lasts a lifetime

Weight (g)	295
Color name	black

BEARING REMOVER GXP/BB90 | BTL-232

Extracts bearings with minimal stress for your frame and Bottom bracket Cups

- » Bearing extractor with special extractor plates for 22 and 24mm bearings
- » Extractor Cup (diameter 37mm) with O-ring to protect your bottom bracket cup and frame
- » Easy to use with a 5mm allen key and holding the cup by hand or 17mm spanner
- » Made out of aluminium by CNC for the highest precision and quality

Weight (g)	57
Color name	blue

BEARING REMOVER DUB/BB30 | BTL-233

Extracts bearings with minimal stress for your frame and BB Cups

- » Bearing extractor with special extractor plates for 29 and 30mm bearings
- » Extractor Cup (diameter 42 mm) with O-ring to protect your bottom bracket cup and frame
- » Easy to use with a 5mm allen key and holding the cup by hand or 17mm spanner
- » Made out of aluminium by CNC for the highest precision and quality

Weight (g)	65
Color name	blue

BRACKETKIT | BTL-95

Extra strong toolbox with all the necessary tools to remove and install your press-fit bottom bracket

- » Suitable for: BB30, PF30, PF86-92, BB90-95 and GXP
- » Protective foam inserts keeps the tools in place
- » Set contains: 2 bearing press cups, 1 bearing removal tool and 1 cup press rod.

Weight (g)	1540
Color name	black

TOOLS & TUBES | BTL-18

Storage can, to fit in your bottle cage

- » Durable composite material
- » Internal storage tray for small parts
- » Perfect to organise your inner tube, tools, Co2 inflator etc.

Weight (g)	67, 73
Sizes	S, L
Color name	black

SOFTCASE | BTL-181

Storage can, to fit in your bottle cage

- » Waterproof fabrics and zippers
- » Perfect to organize your inner tube, tools, Co2 inflator etc.
- » Internal (zippered) compartments

Weight (g)	35
Sizes	L
Color name	black

WALLMOUNT DELUXE | BTL-150

Stylish horizontal bike storage to hang on beams and walls

- » Protective foam pads to protect the bike from scratches
- » Folds out of the way when not in use, a space saving option for storing your bike
- » Angle adjustable hook

Max. load (kg)	20
Max. steer width (cm)	70
Weight (g)	1163
Color name	black

WALLMOUNT | BTL-93

Horizontal bike storage to hang on beams and walls

- » Protective plastic cover to protect the bike from damage
- » Folds out of the way when not in use, a space saving option for storing your bike
- » Angle adjustable hook

Max. load (kg)	15
Max. steer width (cm)	70
Weight (g)	874
Color name	black

PEDALPARKER | BTL-153

Minimalistic pedal wall mount

- » Foldable hook for easy adaptation to different bikes and compact storage
- » Rubberized hook to protect pedal and crank finish from scratches
- » Includes two support profiles for stable wheel placement
- » Compatible with all pedal types: Flat, SPD, Clipless
- » Plugs and screws included for hassle-free installation

Material	Rubber, Steel
Max. load (kg)	20

NEW

PARKINGLOT SWIVEL | BTL-127

Robust and stylish solution to store your bike of up to 20 Kg

- » Including rear wheel backplate to keep the bike stable and to protect the wall
- » Fits tires up to 3" inch
- » Made of steel to last a life time

Material	Steel
Max. load (kg)	20
Weight (g)	2070
Color name	black

PARKINGLOT | BTL-126

Stylish vertical bike storage to hang on beams and walls

- » A space saving option for storing bikes
- » Fits Road and MTB tires up to 3"
- » Protects your wheel and wall with a wide contact point

Material	Steel
Max. load (kg)	20
Weight (g)	672
Color name	black

NEW

BIOHANDWASH | BTL-259

Natural hand cleaning soap

- » Powerful salt scrub for effortless hand cleaning
- » Effectively removes dirt and oils from your hands
- » Refreshing lemon scent for a pleasant experience
- » Clean and bright white color

Volume (ml)	500
--------------------	-----

PARKINGHOOK | BTL-26

Heavy-duty wall or ceiling mount for storage of bicycles

- » Variable angle bracket fits nearly all tire sizes

Max. load (kg)	15
Weight (g)	310
Color name	black

NEW

BIOBEARINGGREASE | BTL-261

Bio-based bearing grease for a smooth and protected bike

- » Low friction grease keeps high loaded bearings and axles run smooth
- » Resin free mix that easily attaches
- » Effective against water and dirt, providing high corrosion protection
- » All-weather performance from -20°C to 70°C for reliable use
- » Made with 100% plant-based ingredients

Volume (ml)	50
--------------------	----

SPINDLESTAND | BTL-155

Portable workstand for bikes with hollow crankset

- » Including 13/17/20mm spacers for compatibility with different cranksets
- » One wheel off the ground and free pedal movement
- » Rubber feet for anti-slip and protection for the floor
- » Durable powder coated finish
- » Foldable for easy storage & transport

Weight (g)	1575
Color name	black

NEW

BIOPASTE | BTL-262

Universal assembly paste to mount and protect bike parts

- » Prevents squeaking and protects screw connections for smooth rides
- » Protects against corrosion and moisture for long-lasting performance
- » Prevents bike parts from different metals to cold weld together
- » Made with 100% plant-based ingredients
- » 100% biodegradable within 28 days

Volume (ml)	50
--------------------	----

PROFIMOUNT | BTL-36

High-end bike repair stand with excellent stability

- » Completely adjustable and foldable
- » Convenient frame / seatpost clamping mechanism
- » Carrying bag included

Max. load (kg)	23
Weight (g)	5500
Color name	black/silver

NEW

BIOCARBONPASTE | BTL-263

Specific assembly paste for mounting carbon bike parts

- » Fine structure paste for necessary grip on your components
- » Prevents damages and squeaking noises for smooth rides
- » Ideal for mounting carbon seatposts, stems and handlebars
- » Made with 100% plant-based ingredients
- » 100% biodegradable within 28 days

Volume (ml)	50
--------------------	----

DISCSTOP HP | BBS-50

Made of our high performance Organic compound

- » Gives the best result in all-round competitive cross country conditions.
- » Easy installation due to the sloping bottom.
- » Direct ready to use

Amount (pieces)	2
Disc brake pad type	Organic High Performance
Pad springs included	Yes
Compatible with brands	Shimano, SRAM / Avid
Compatible with	Shimano XT M755, SRAM Mech 9.0. Hope Mono M4, Tech M4 and The Cleg. TrickStuff C41. Promax DSK-922. Grimeca System 8.
Weight (g)	19
Color name	blue

DISCSTOP HP | BBS-52

Made of our high performance Organic compound

- » Gives the best result in all-round competitive cross country conditions.
- » Easy installation due to the sloping bottom.
- » Direct ready to use

Disc brake pad type	Organic High Performance
Pad springs included	Yes
Compatible with brands	Shimano
Compatible with	Shimano: Deore M575, M525, M515LA, M515, M505, M495, MT500, MT400, T615, Sora R317, Nexave C501, C601, Tourney TX805, LX T675, Altus M315, M365, M375, Alivio M395, M4050, Acera M3050, M486, M485, M475, M465, M447, M446, M445, M416A, M416, M415, M355, MT200, Tektro: Volans HD-T710, Vela HD-T290, Orion SL HD-M740, Orion HD-M720, HD-M730, Mira MD-C400, Junior HD-M282, HDC330 HD-M330, HDC300 WS HD-M301, HDC300 HD-M300, HDC, Gemini SL HD-M520, HD-M521, Gemini HD-M500, HD-M501, HD-M510, Draco WS HD-M351, Draco 2 HD-M352, Draco HD-M350, Dorado HD-E715, Auriga Twin HD-T525, Auriga Tune HD-T530, Auriga SUB HD-T520, Auriga E-Twin HD-E525, Auriga E-Tune HD-E530, Auriga E-SUB HD-E520, Auriga E-Comp HD-E500, Auriga Comp, Auriga HD-M290, HD-M291, Aries MD-M300, Aquila MD-M500, C550, C605, C605 SLC, C610, C610 SLC, C705, C710, C800, C801, C811, HD-E350, HD-T285, M280, M285, M290, M300, M352, M600, M802, MD-C510, MD-M280, MD-U510, Giant: MPH Root, Conduct, TRP: Spyre SLC MD-C605SLC, MD-C610SLC, Spyre MD-C605, MD-C610, Spyke MD-M600, Slate X2 HD-M801, Parabox R, Hylex RS HD-C801, Hylex, HY/RD HD-C705, HD-C710, Dash Sport, RST: D-power QDH-01, Promax: Solve, Lucid, F1, E-Capsule, Decode R DSK-718R, DSK-909, DSK-920M, DSK-920T, DSK-923, DSK-925, DSK-926, DSK-927, DSK-927T, DSK-936, Clarks: S2, Bengal: Helix 7B, Ares Pro, Ares 5

Weight (g)	16
Color name	blue

DISCSTOP HP SINTERED | BBS-561S

Made of our sintered compound braking surface

- » Able to handle longer periods of braking in both dry and wet conditions
- » Easy installation due to the sloping bottom
- » Direct ready to use

Amount (pieces)	2
Disc brake pad type	Sintered High Performance
Pad springs included	Yes
Compatible with brands	Shimano
Compatible with	Shimano: Dura-Ace R9270, R9170, R9100, Ultegra R8170, R8070, RS805, R8000, 105 R7070, Tiagra R4770, GRX RX810, RX400, Metrea U5000, Altus UR300, Alfine S7000, XTR M9100, XT M8110-R, SLX M7110-R, RS805, RS505, RS405, RS305, Tektro:R510, R310, Rever: MCX2, Attack-U, Attack-S, TRP:HD-C810, HD-C811, HD-T910
Weight (g)	20
Color name	copper

DISCSTOP HP | BBS-38

Made of our high performance Organic compound

- » Gives the best result in all-round competitive cross country conditions.
- » Easy installation due to the sloping bottom.
- » Direct ready to use

Amount (pieces)	2
Disc brake pad type	Organic High Performance
Pad springs included	Yes
Compatible with brands	SRAM / Avid
Compatible with	SRAM: Red eTap AXS <07-2019, Red, Force 1, Force, Rival 1, Rival, Apex, Hydro R, CX 1, Level Ultimate, Level TLM, S-700
Weight (g)	20
Color name	blue

DISCSTOP HP SINTERED | BBS-38S

Made of our sintered compound braking surface

- » Able to handle longer periods of braking in both dry and wet conditions
- » Easy installation due to the sloping bottom
- » Direct ready to use

Amount (pieces)	2
Disc brake pad type	Sintered High Performance
Pad springs included	Yes
Compatible with brands	SRAM / Avid
Compatible with	SRAM: Red eTap AXS <07-2019, Red, Force 1, Force, Rival 1, Rival, Apex, Hydro R, CX 1, Level Ultimate, Level TLM, S-700
Color name	copper

DISCSTOP COOLFIN | BBS-39C

Innovative design with cooling fins for optimal heat dissipation

- » New organic compound for maximum durability and better braking power
- » Modular and sustainable design with separate coolfins and replaceable brake pads
- » Spare brake pads separately available

Amount (pieces)	2
Disc brake pad type	Organic Coolfin
Pad springs included	Yes
Compatible with brands	SRAM / Avid
Compatible with	SRAM: Guide Ultimate, Guide RSC, Guide RS, Guide R, Avid: XO Trail, Elixer 9 Trail, Elixer 7 Trail
Weight (g)	29
Color name	black/steel blue

DISCSTOP HP SINTERED | BBS-39S

Made of our sintered compound braking surface

- » Able to handle longer periods of braking in both dry and wet conditions
- » Easy installation due to the sloping bottom
- » Direct ready to use

Amount (pieces)	2
Disc brake pad type	Sintered High Performance
Pad springs included	Yes
Compatible with brands	SRAM / Avid
Compatible with	Avid-SRAM XO Trail, Elixer 7 Trail, Elixer 9 Trail, Guide Ultimate, Guide RSC, Guide RS, Guide R and Trail-4-Piston.
Weight (g)	23
Color name	copper

DISCSTOP COOLFIN | BBS-39CP

New organic compound for maximum durability and better braking power

- » These replaceable pads should only be used with BBS-39C Coolfins

Amount (pieces)	2
Disc brake pad type	Organic Coolfin
Pad springs included	Yes
Compatible with brands	SRAM / Avid
Compatible with	BBS-39C
Weight (g)	14
Color name	steel blue

DISCSTOP | BBS-42T

The all-round organic compound provides good performance in all kinds of conditions

- » Suited for normal use on a mountain bike or trekking bike
- » Durable, economical and free of noise

Amount (pieces)	2
Disc brake pad type	Organic
Pad springs included	Yes
Compatible with brands	SRAM / Avid
Compatible with	Avid mechanical 2002-2004, Ball Bearing (BB)7, Juicy 7, Juicy 5, Juicy 3, Juicy Ultimate and Juicy Carbon. Promax DSK-905.
Weight (g)	22
Color name	blue

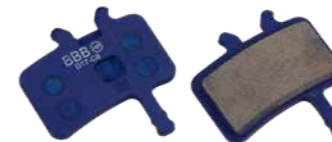

DISCSTOP HP | BBS-39

Made of our high performance Organic compound

- » Gives the best result in all-round competitive cross country conditions.
- » Easy installation due to the sloping bottom.
- » Direct ready to use

Amount (pieces)	2

DISCSTOP | BBS-67T

The all-round organic compound provides good performance in all kinds of conditions

- » Suited for normal use on a mountain bike or trekking bike
- » Durable, economical and free of noise

Amount (pieces)	2
Disc brake pad type	Organic
Pad springs included	Yes
Compatible with	Formula Mega, The One, C1, R1, RRI, RX, RO, T1, Cura and Cura-E.
Weight (g)	20
Color name	blue

DISCSTOP HP | BBS-66

Made of our high performance Organic compound

- » Gives the best result in all-round competitive cross country conditions.
- » Easy installation due to the sloping bottom.
- » Direct ready to use

Amount (pieces)	2
Disc brake pad type	Organic High Performance
Pad springs included	Yes
Compatible with	Formula ORO and K18.
Weight (g)	20
Color name	blue

DISCSTOP HP | BBS-67

Made of our high performance Organic compound

- » Gives the best result in all-round competitive cross country conditions.
- » Easy installation due to the sloping bottom.
- » Direct ready to use

Amount (pieces)	2
Disc brake pad type	Organic High Performance
Pad springs included	Yes
Compatible with	Formula Mega, The One, C1, R1, RRI, RX, RO, T1, Cura and Cura-E.
Weight (g)	22
Color name	blue

DISCSTOP HP SINTERED | BBS-67S

Made of our sintered compound braking surface

- » Able to handle longer periods of braking in both dry and wet conditions
- » Easy installation due to the sloping bottom
- » Direct ready to use

Amount (pieces)	2
Disc brake pad type	Sintered High Performance
Pad springs included	Yes
Compatible with	Formula Mega, The One, C1, R1, RRI, RX, RO, T1, Cura and Cura-E.
Weight (g)	24
Color name	copper

DISCSTOP HP | BBS-75

Made of our high performance Organic compound

- » Gives the best result in all-round competitive cross country conditions.
- » Easy installation due to the sloping bottom.
- » Direct ready to use

Amount (pieces)	2
Disc brake pad type	Organic High Performance
Pad springs included	Yes
Compatible with	Tektro IO and Novela < 2010.
Weight (g)	20
Color name	blue

DISCSTOP HP | BBS-68

Made of our high performance Organic compound

- » Gives the best result in all-round competitive cross country conditions.
- » Easy installation due to the sloping bottom.
- » Direct ready to use

Amount (pieces)	2
Disc brake pad type	Organic High Performance
Compatible with	Formula: Cura 4
Weight (g)	29
Color name	blue

DISCSTOP | BBS-76T

The all-round organic compound provides good performance in all kinds of conditions

- » Suited for normal use on a mountain bike or trekking bike
- » Durable, economical and free of noise

Amount (pieces)	2
Disc brake pad type	Organic High Performance
Pad springs included	Yes
Compatible with	Tektro IOX, Lyra MD-C500, Novela MD-M311 and Novela > 2010.
Weight (g)	15
Color name	blue

DISCSTOP HP SINTERED | BBS-68S

Made of our sintered compound braking surface

- » Able to handle longer periods of braking in both dry and wet conditions
- » Easy installation due to the sloping bottom
- » Direct ready to use

Amount (pieces)	2
Disc brake pad type	Sintered High Performance
Compatible with	Formula: Cura 4
Weight (g)	31
Color name	copper

DISCSTOP HP | BBS-76

Made of our high performance Organic compound

- » Gives the best result in all-round competitive cross country conditions.
- » Easy installation due to the sloping bottom.
- » Direct ready to use

Amount (pieces)	2
Disc brake pad type	Organic High Performance
Pad springs included	Yes
Compatible with	Tektro IOX, Lyra MD-C500, Novela MD-M311 and Novela > 2010.
Weight (g)	15
Color name	blue

DISCSTOP HP | BBS-77

Made of our high performance Organic compound

- » Gives the best result in all-round competitive cross country conditions.
- » Easy installation due to the sloping bottom.
- » Direct ready to use

Amount (pieces)	2
Disc brake pad type	Organic High Performance
Pad springs included	Yes
Compatible with	Tektro Volans, Auriga E-SUB, Auriga SUB, Auriga TWIN and Suntour DB8.
Weight (g)	21
Color name	blue

DISCSTOP HP | BBS-48

Made of our high performance Organic compound

- » Gives the best result in all-round competitive cross country conditions.
- » Easy installation due to the sloping bottom.
- » Direct ready to use

Amount (pieces)	2
Disc brake pad type	Organic High Performance
Compatible with	Hayes Mechanical, SOLE hydraulic, MX2, MX3, MX4, MX5, GX2, Sole mechanical, CX pro.comp.expert, Cannondale Helix 6, Bengal ares, MB series, strida, Helix 5, Helix 7, Helix 7L and Helix 7.5.
Weight (g)	14
Color name	blue

DISCSTOP E-BIKE | BBS-78E

Made of our specifically engineered organic E-bike compound

- » Durable design for use on heavier bikes
- » E-bike specific: This product complies to the NEN-EN 15194:2017 regulations for e-bikes

Amount (pieces)	2
Disc brake pad type	E-bikes
Pad springs included	Yes
Compatible with	Tektro Dorado HD-E710.
Weight (g)	23
Color name	green

DISCSTOP HP | BBS-492

Made of our high performance Organic compound

- » Gives the best result in all-round competitive cross country conditions.
- » Easy installation due to the sloping bottom.
- » Direct ready to use

Amount (pieces)	2
Disc brake pad type	Organic High Performance
Pad springs included	Yes
Compatible with	Hayes Stroker Ryde and Dyno.
Weight (g)	21
Color name	blue

DISCSTOP HP | BBS-45

Made of our high performance Organic compound

- » Gives the best result in all-round competitive cross country conditions.
- » Easy installation due to the sloping bottom.
- » Direct ready to use
- » Note: These disc brake pads are for stainless steel rotors only.
- » Hayes: MX1, HFX MAG, HFX 9

Amount (pieces)	2
Disc brake pad type	Organic High Performance
Compatible with	Hayes: MX1, HFX MAG, HFX 9
Weight (g)	22
Color name	blue

DISCSTOP HP | BBS-58

Made of our high performance Organic compound

- » Gives the best result in all-round competitive cross country conditions.
- » Easy installation due to the sloping bottom.
- » Direct ready to use

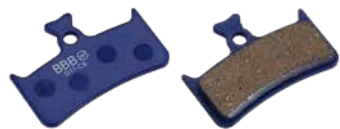

Amount (pieces)	2
Disc brake pad type	Organic High Performance
Pad springs included	Yes
Compatible with	Hope Tech X2, Mini X2 and Tech V2.
Weight (g)	23
Color name	blue

DISCSTOP HP | BBS-591

Made of our high performance Organic compound

- » Gives the best result in all-round competitive cross country conditions.
- » Easy installation due to the sloping bottom.
- » Direct ready to use

Amount (pieces)	2
Disc brake pad type	Organic High Performance
Pad springs included	Yes
Compatible with	Hope: RX4-SH, RX4+, Tech 3 E4, Stealth E4, Race Evo E4, Tech M4, Tech Evo M4, Race Evo M4, Mono M4 (2004)
Weight (g)	20
Color name	blue

BLEEDKIT SHIM. COMP | BBS-103

Complete Shimano compatible disc brake bleed kit

- » Compatible with Shimano MTB and Road groupsets
- » Mineral oil compatible

Compatible with	Shimano
Compatible with oil type	Mineral
Weight (g)	250
Color name	transparent

BLEEDKIT | BBS-101

Complete disc brake bleed kit for multiple brands

- » Suitable for DOT and Mineral oil
- » Compatible with Shimano MTB, Hayes, Magura and Avid/SRAM

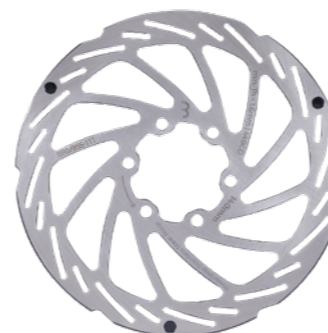

Compatible with	Shimano: MTB only. Hayes: Nine. Magura: Louise, Clara, Julie, Rim brakes and Gustav M. Avid / SRAM: Code 5, Code R, Juicy J3, J5, J7, Ultimate. Elixer E5, E7, E9, ER, CR, XX, XO (non-BleedingEdge™).
Compatible with oil type	DOT, Mineral
Weight (g)	97
Color name	transparent

POWERSTOP | BBS-111 | 112 | 113 | 114 | 115

Industrial-grade stainless steel disc

- » Compatible with most disc brake systems
- » Designed for great power-modulation, long durability and high performance
- » Rounded edges for improved safety and easy installation
- » Wear-out indicators to show when to replace disc

Amount (pieces)	1
Compatibility	6-bolt
Wear-out indicator	Yes
Disc diameter (mm)	140, 160, 180, 203, 220
Weight (g)	105, 150, 190, 200, 246
Color name	silver

BLEEDKIT | BBS-102

Complete SRAM compatible disc brake bleed kit

- » Bleeding Edge and legacy Avid/SRAM adapters included
- » DOT oil compatible

Compatible with oil type	DOT
Weight (g)	77
Color name	transparent

CENTERSTOP | BBS-121

Designed for great power-modulation, long durability and high performance

- » Rounded edges for improved safety and easy installation
- » Wear-out indicators to show when to replace disc
- » Compatible with Centerlock-hub

Amount (pieces)	1
Compatibility	Center-lock
Wear-out indicator	Yes
Disc diameter (mm)	140, 160, 180, 203, 220
Weight (g)	138, 158, 176, 211, 322
Color name	silver

CENTERBLOCK | BBS-131

Rotor lockring for Centerlock hubs

- » Compatible with Quickrelease axles and 12mm Tru-axles
- » Tool fit size: Shimano Cassette lockring - BTL-106S/107S

Compatibility	Center-lock
Weight (g)	22
Color name	matt black

CENTERFIT | BBS-90

Hub rotor adapter

- » Extra slim locking design, road bike compatible
- » Converts 6-bolt rotors to centerlock
- » Compatible with all 1.8mm BBB Powerstop discs
- » Tool fit size: 16 notch 44mm - BTL-27L/38/105

Compatible with	1,8mm Max. rotor thickness
Weight (g)	38
Color name	silver

CENTERBLOCK | BBS-132

Rotor lockring for Centerlock hubs

- » Compatible with 15 and 20mm Tru-axles
- » Tool fit size: 16 notch 44mm - BTL-27L/38/105

Compatibility	Center-lock
Weight (g)	24
Color name	matt black

POWERMOUNT | BBS-91

Adapter for 180 mm discs

- » Converts Postmount (PM) 160 mm to Postmount (PM) 180 mm
- » 2 bolts included

Amount (pieces)	1
Adapter size	160 - 180 mm
Adapter system	Postmount (PM) -> Postmount (PM)
Mount location	Front fork, Rear fork
Weight (g)	39
Color name	black

6-BOLT SHIMSET | BBS-130

Spacer for centering your rotor between the pads

Amount (pieces)	4
Compatibility	6-bolt
Weight (g)	2
Color name	silver

POWERMOUNT | BBS-92

Adapter for 203 mm discs

- » Converts Postmount (PM) 160 mm to Postmount (PM) 203 mm
- » 2 bolts included

Adapter size	160 - 203 mm, 160 - 220 mm
Adapter system	Postmount (PM) -> Postmount (PM)
Mount location	Front fork, Rear fork
Weight (g)	37, 49
Color name	black

POWERMOUNT | BBS-93F

Adapter for 160 mm discs

- » Converts International Standard (IS) 160 mm to Postmount (PM) 160 mm
- » IS front fork mount to PM caliper
- » 2 bolts included

Adapter size	160 - 160 mm
Adapter system	International Standard (IS) -> Postmount (PM)
Mount location	Front fork
Weight (g)	29
Color name	black

POWERMOUNT | BBS-94R

Adapter for 180 mm discs

- » Converts International Standard (IS) 160 mm to Postmount (PM) 180 mm
- » IS rear frame mount to PM caliper
- » 2 bolts included

Adapter size	160 - 180 mm
Adapter system	International Standard (IS) -> Postmount (PM)
Mount location	Rear fork
Weight (g)	38
Color name	black

POWERMOUNT | BBS-93R

Adapter for 160 mm discs

- » Converts International Standard (IS) 160 mm to Postmount (PM) 160 mm
- » IS rear frame mount to PM caliper
- » 2 bolts included

Adapter size	160 - 160 mm
Adapter system	International Standard (IS) -> Postmount (PM)
Mount location	Rear fork
Weight (g)	31
Color name	black

POWERMOUNT | BBS-95F

Adapter for 203 mm discs

- » Converts International Standard (IS) 160 mm to Postmount (PM) 203 mm
- » IS front fork mount to PM caliper
- » 2 bolts included

Adapter size	160 - 203 mm
Adapter system	International Standard (IS) -> Postmount (PM)
Mount location	Front fork
Weight (g)	38
Color name	black

POWERMOUNT | BBS-94F

Adapter for 180 mm discs

- » Converts International Standard (IS) 160 mm to Postmount (PM) 180 mm
- » IS front fork mount to PM caliper
- » 2 bolts included

Adapter size	160 - 180 mm
Adapter system	International Standard (IS) -> Postmount (PM)
Mount location	Front fork
Weight (g)	32
Color name	black

POWERMOUNT | BBS-95R

Adapter for 203 mm discs

- » Converts International Standard (IS) 160 mm to Postmount (PM) 203 mm
- » IS rear frame mount to PM caliper
- » 2 bolts included

Adapter size	160 - 203 mm
Adapter system	International Standard (IS) -> Postmount (PM)
Mount location	Rear fork
Weight (g)	47
Color name	black

POWERMOUNT | BBS-96F

Adapter for 140 mm discs

- » Converts Flatmount (FM) 140 mm to Postmount (PM) 140 mm
- » FM front fork mount to PM caliper
- » 2 bolts included

Adapter size	140 - 140 mm
Adapter system	Flatmount (FM) -> Postmount (PM)
Mount location	Front fork
Weight (g)	47
Color name	black

POWERMOUNT | BBS-97R

Adapter for 160 mm discs

- » Converts Flatmount (FM) 140 mm to Postmount (PM) 160 mm
- » FM rear frame mount to PM caliper
- » 2 bolts included

Adapter size	140 - 160 mm
Adapter system	Flatmount (FM) -> Postmount (PM)
Mount location	Rear fork
Weight (g)	38
Color name	black

POWERMOUNT | BBS-96R

Adapter for 140 mm discs

- » Converts Flatmount (FM) 140 mm to Postmount (PM) 140 mm
- » FM rear frame mount to PM caliper
- » 2 bolts included

Adapter size	140 - 140 mm
Adapter system	Flatmount (FM) -> Postmount (PM)
Mount location	Rear fork
Weight (g)	42
Color name	black

POWERMOUNT | BBS-98F

Adapter for both 140 as well as 160mm discs

- » Converts Flatmount (FM) to Flatmount (FM) 140 or 160mm
- » Including all necessary bolts

Adapter size	140 - 140 mm, 140 - 160 mm
Adapter system	Flatmount (FM) -> Flatmount (FM)
Mount location	Front fork
Color name	black

POWERMOUNT | BBS-97F

Adapter for 160 mm discs

- » Converts Flatmount (FM) 140 mm to Postmount (PM) 160 mm
- » FM front fork mount to PM caliper
- » 2 bolts included

Adapter size	140 - 160 mm
Adapter system	Flatmount (FM) -> Postmount (PM)
Mount location	Front fork
Weight (g)	68
Color name	black

POWERMOUNT | BBS-98R

Adapter for 160 mm discs

- » Converts Flatmount (FM) 140 mm to Flatmount (FM) 160 mm
- » Bolts included
- » 2 bolts included

Adapter size	140 - 160 mm
Adapter system	Flatmount (FM) -> Flatmount (FM)
Mount location	Rear fork
Weight (g)	17
Color name	black

POWERMOUNT | BBS-99

Adapter for 203/220 mm discs

- » Converts Postmount (PM) 180 mm to Postmount (PM) 203 mm or 220 mm
- » 2 bolts included

Adapter size	180 - 203 mm, 180 - 220 mm, 203 - 220 mm
Adapter system	Postmount (PM) -> Postmount (PM)
Mount location	Front fork, Rear fork
Weight (g)	32, 34
Color name	black

HAVE A BRAKE

Hitting the brakes is an essential part of enjoying your ride. Whatever system you're using, we have a range of multiple award winning disc brake pads available. All due to their unique compounds, each specially developed for their own purpose. All our disc brake pads come in a complete set to replace one caliper.

DISCSTOP

Brakepads with an organic compound. Suited for normal use on a mountainbike or trekking bike. Durable, economical and free of noise.

DISCSTOP E-BIKE

Brakepads which are developed to compliment the commuting e-bike lifestyle. Made of an organic compound specially developed for the use on a e-bike or speed pedelec. The compound focuses on durability and stopping heavier bikes.

DISCSTOP HP

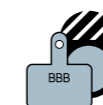

High end brakepads with an organic compound. These brakepads perform best in dry conditions and give the best stopping power, which makes them ideally suited for competitive XC-use. Easy installation due to the sloping bottom.

DISCSTOP SINTERED

Our copper-backed brakepads feature a sintered compound braking surface. Which is able to handle longer periods of braking in both dry and wet conditions and are therefore more suitable for highspeed and downhill applications.

DISCSTOP COOLFIN

Heatsinks combined with organic compound gives these pads excellent heat dissipation increasing reliability and life-span while retaining braking power. Spare-pads are available making them the sustainable choice for enthusiast cyclists.

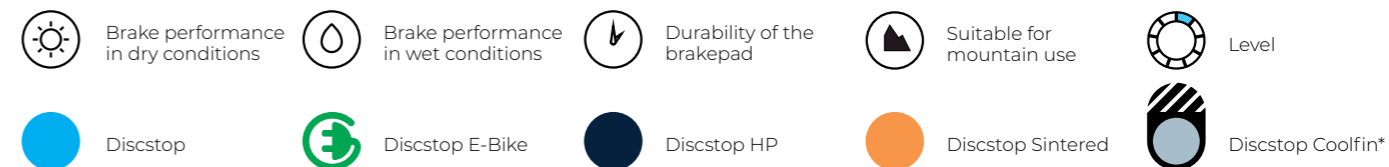

COLOR-CODES

Color-codes will point you straight to the packaging of the pads that are compatible with your brakes.

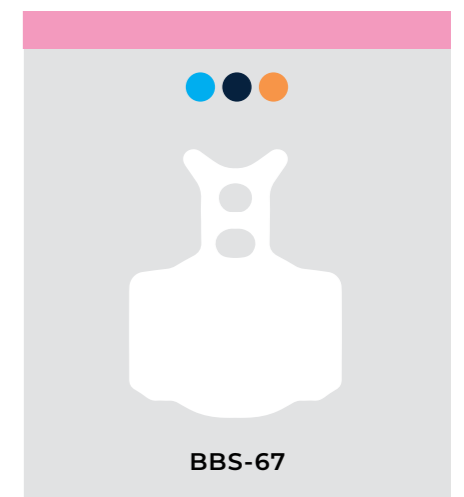

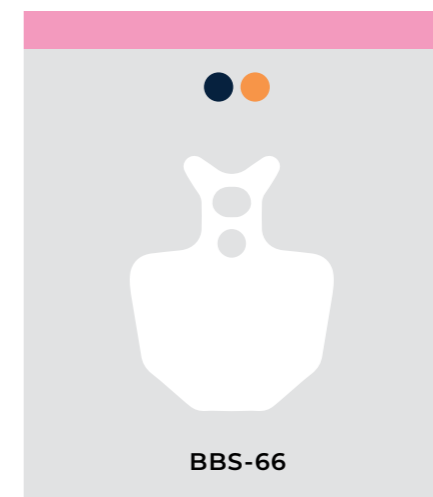

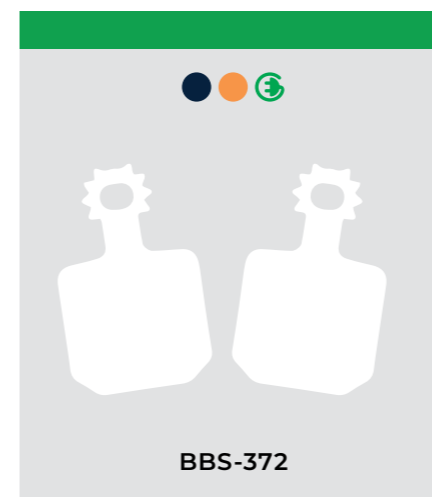

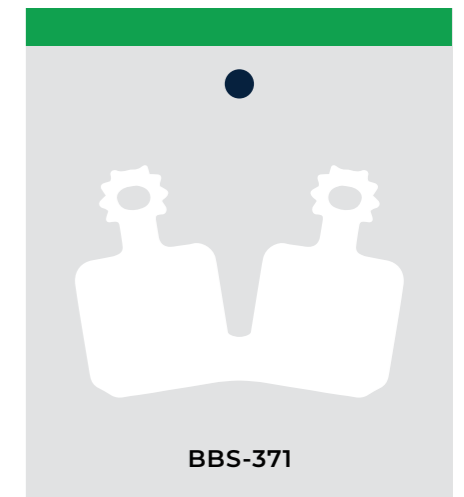

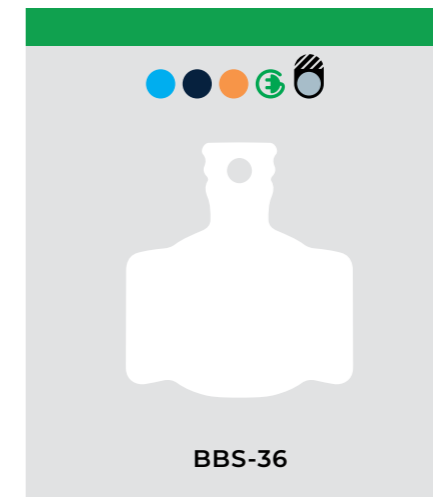

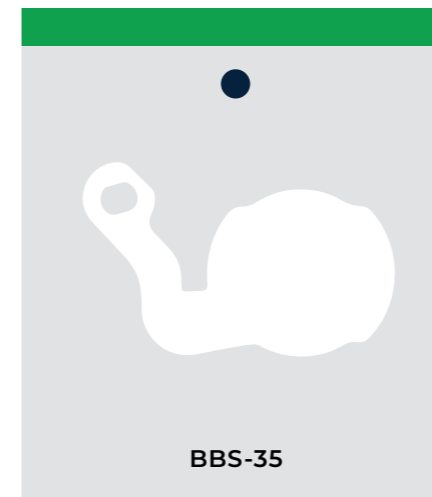

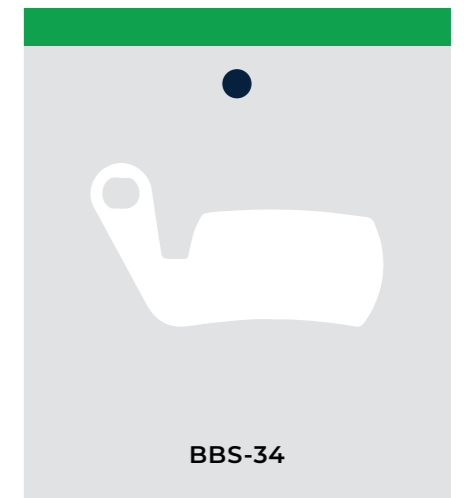

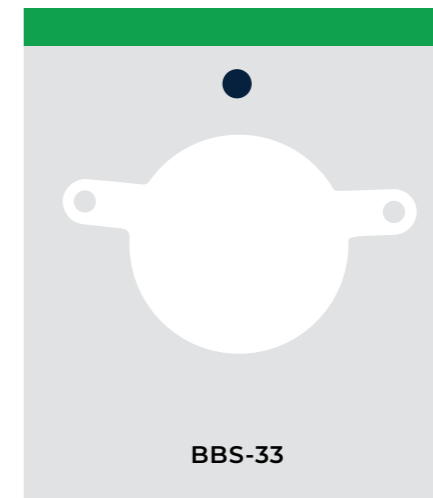

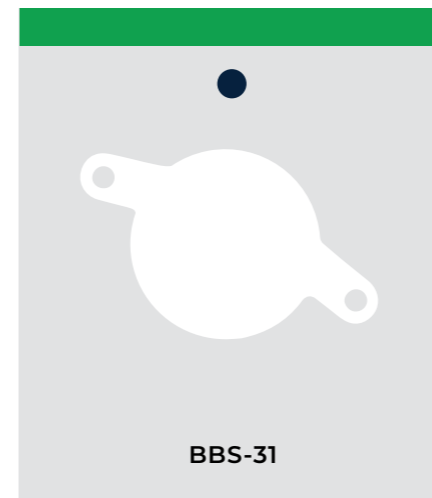

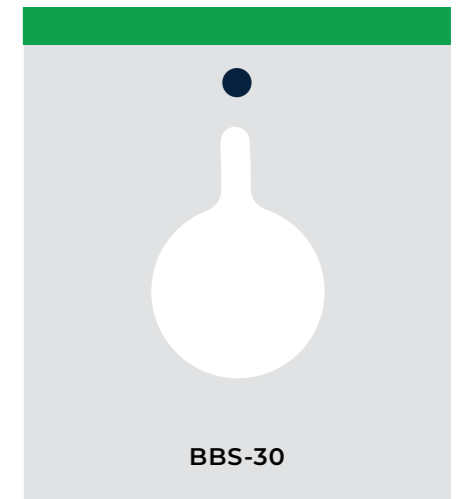

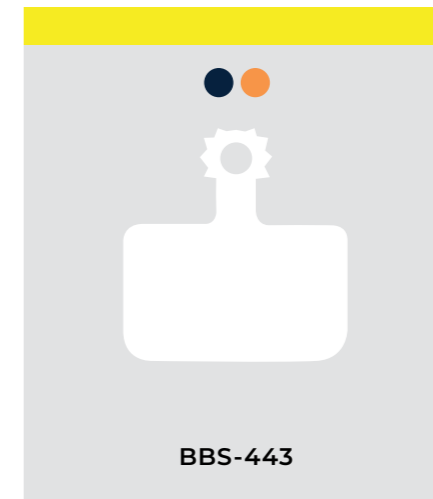

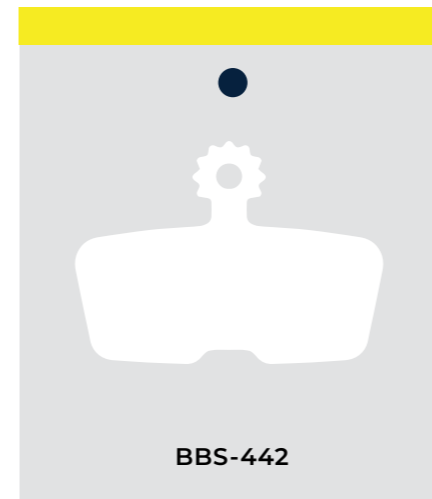

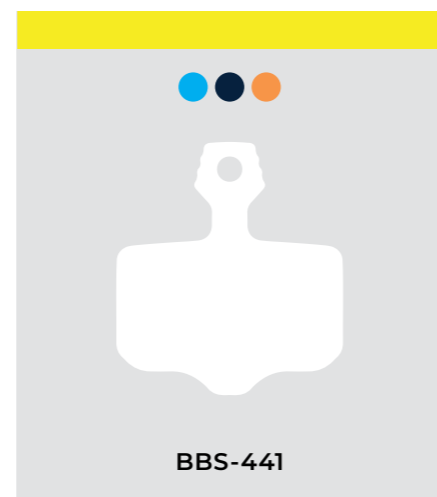

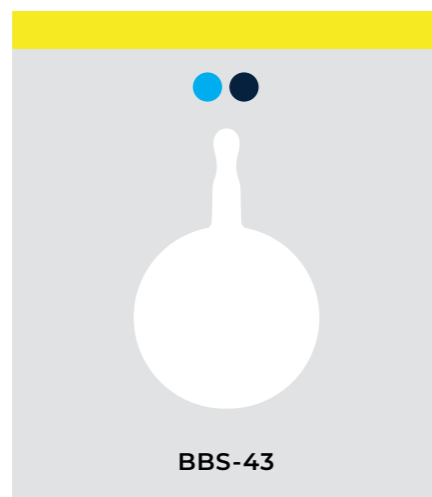

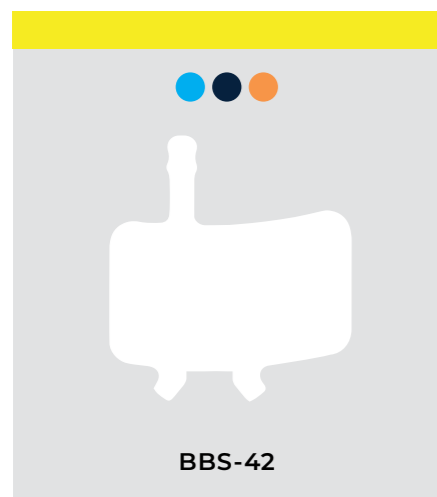

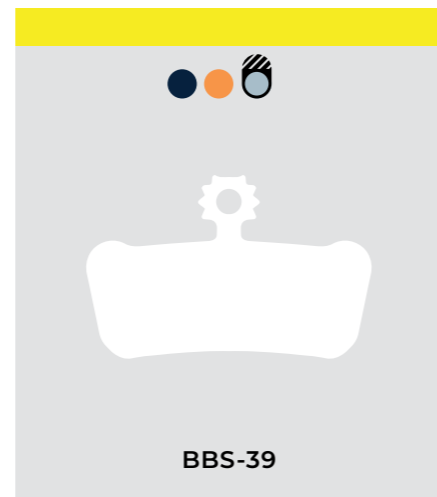

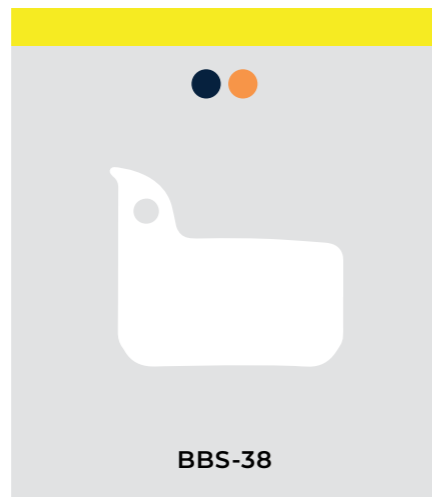

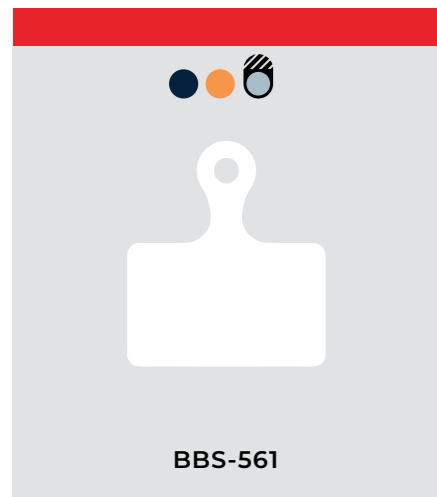

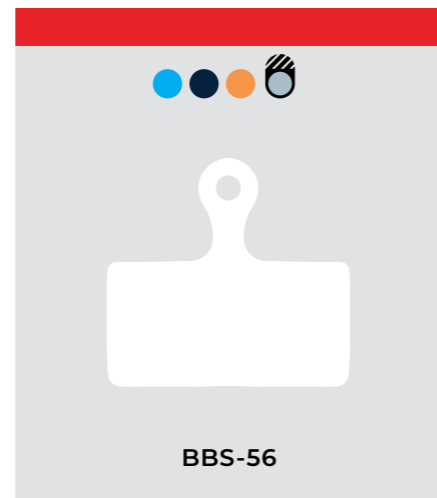

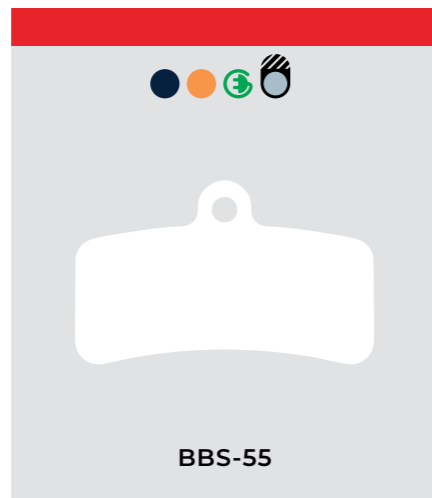

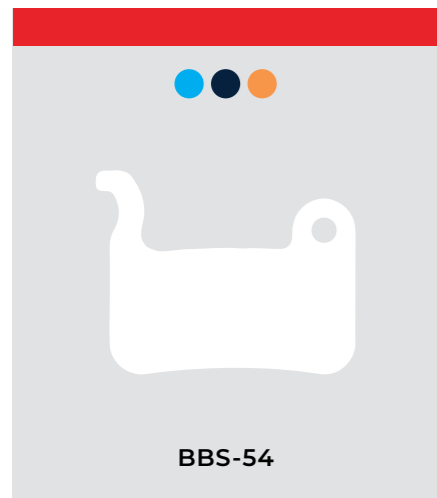

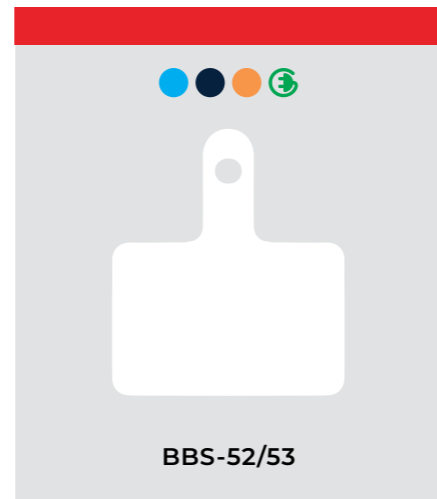

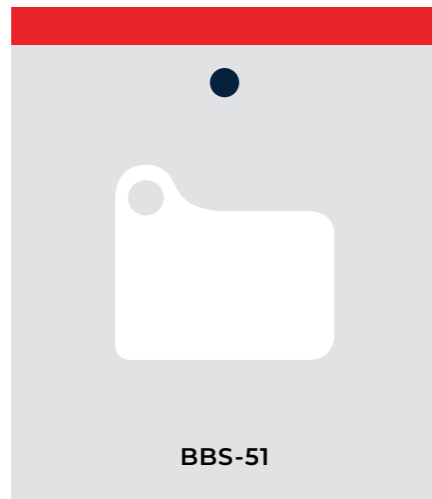

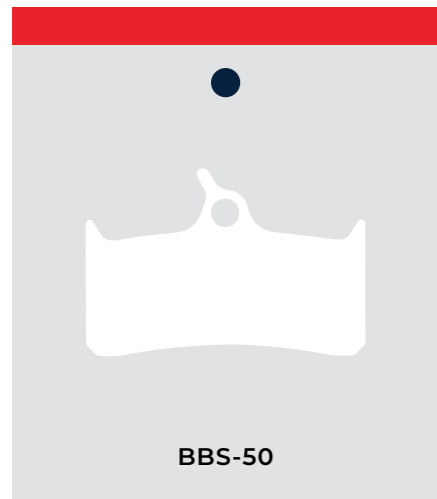

ICONS EXPLAINED

These icons will tell you how suitable the pads are in different conditions.

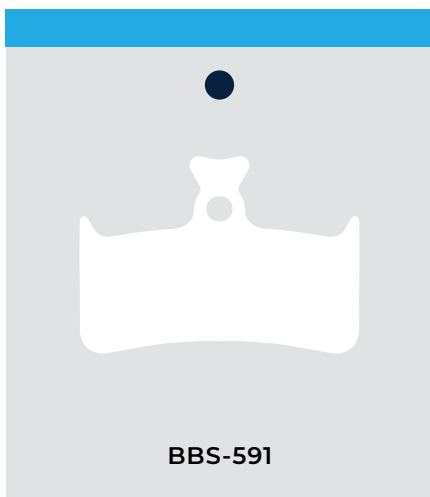

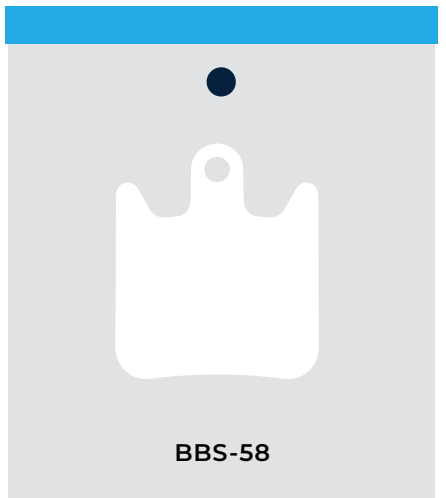

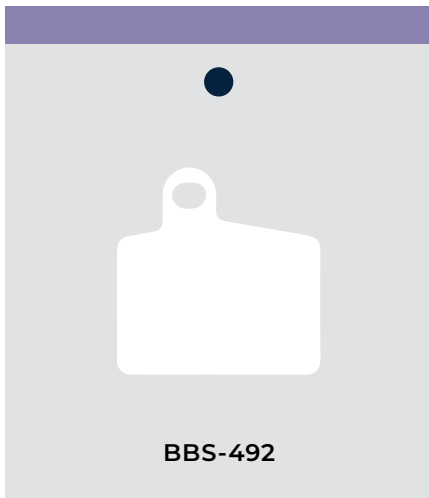

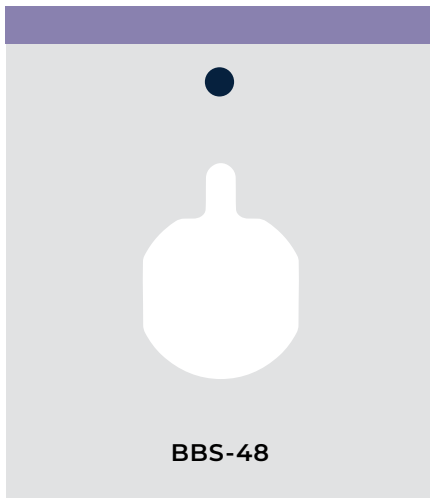

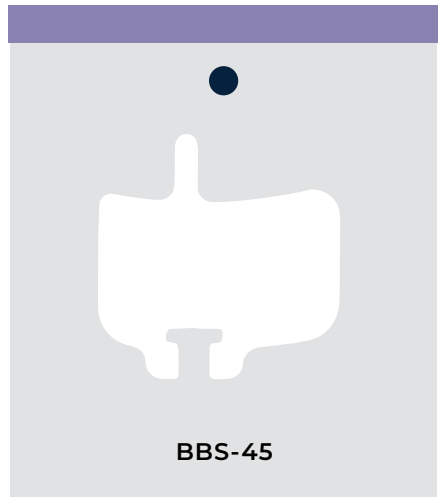

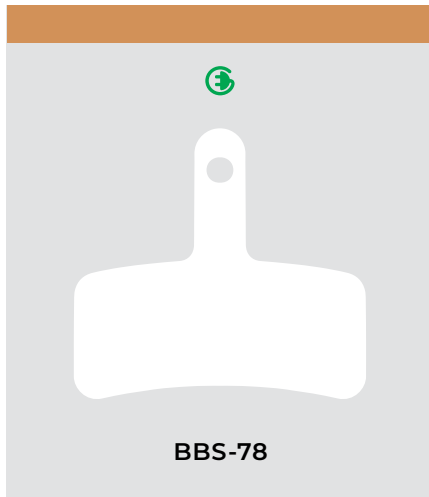

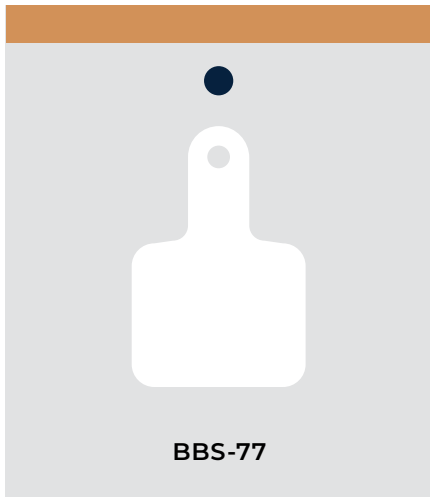

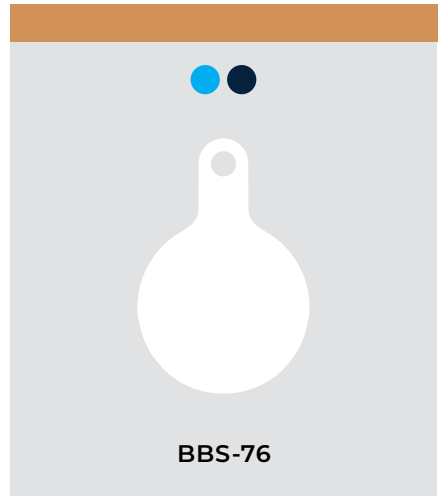

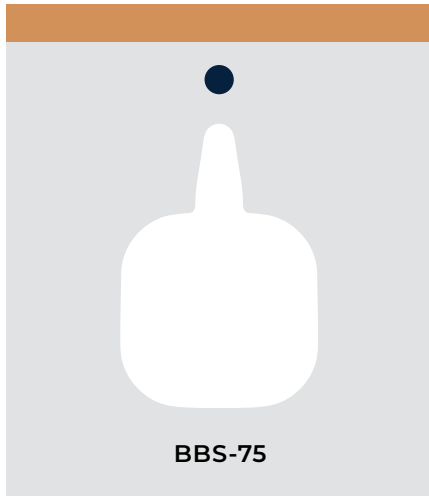

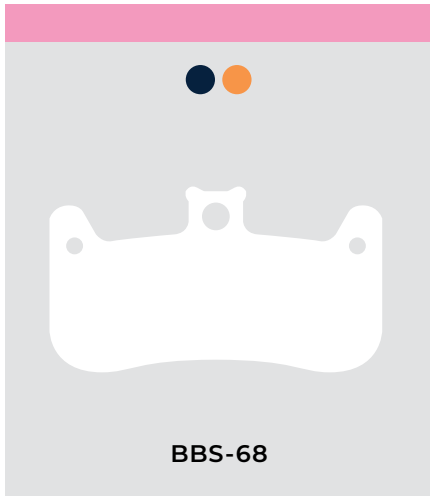

* Please note not all brakes are compatible with coolfins, check our site for the latest known compatibility

ALL BBB DISCSTOP BRAKE PADS ARE E-BIKE READY AND CAN CONFIDENTLY BE USED ON E-BIKES.

ALL BBB DISCSTOP BRAKE PADS ARE E-BIKE READY AND CAN CONFIDENTLY BE USED ON E-BIKES.

ALL BBB DISCSTOP BRAKE PADS ARE E-BIKE READY AND CAN CONFIDENTLY BE USED ON E-BIKES.

**CARBSTOP | BBS-29**

Specifically designed for carbon rims

- » Compatible with BBB TechStop, Shimano, Shimano direct mount, SRAM and Campagnolo cartridges
- » 4-in-1 back design
- » Special compound for increased brake performance and durability
- » The triple fase profile design provides up to 20% more brake power in wet conditions

Amount (pieces)	4
Rim brake type	Caliper
Rim brake pad type	Carbon
Cartridge type	Yes
Weight (g)	28
Color name	grey

**CANTISTOP | BBS-08**

Special compound for optimum gripping power and minimal wear

- » Special contour facilitates easy water and grit removal
- » Size: 65 mm

Amount (pieces)	4
Rim brake type	Cantilever
Rim brake pad type	Standard
Weight (g)	133
Color name	black

**VEESTOP | BBS-04**

Special compound for optimum gripping power and minimal wear

- » Compatible with V-brake systems

Amount (pieces)	4
Rim brake type	V-Brake
Rim brake pad type	Standard
Weight (g)	128
Color name	black

**VEESTOP | BBS-05**

Cartridge-type

- » Special compound for optimum gripping power and minimal wear
- » Compatible with V-brake systems

Amount (pieces)	4
Rim brake type	V-Brake
Rim brake pad type	Standard
Cartridge type	Yes
Weight (g)	112
Color name	black

VEESTOP | BBS-06

Replacement pads for BBB VeeStop (BBS-05)

» Special compound for optimum gripping power and minimal wear

Amount (pieces)	4
Rim brake type	V-Brake
Rim brake pad type	Standard
Cartridge type	Yes
Weight (g)	24
Color name	black

TRISTOP | BBS-16

Available: 2 pairs (4 pcs).

» Compatible with V-brake systems

Amount (pieces)	4
Rim brake type	V-Brake
Rim brake pad type	Standard
Weight (g)	135
Color name	black

CANTISTOP | BBS-07

Special compound for optimum gripping power and minimal wear

» Special contour facilitates easy water and grit removal
» Size: 72 mm

Amount (pieces)	4
Rim brake type	Cantilever
Rim brake pad type	Standard
Weight (g)	83
Color name	black

TRISTOP | BBS-16T

» Compatible with V-brake systems
» Available: 2 pairs (4 pcs).

Amount (pieces)	4
Rim brake type	V-Brake
Rim brake pad type	Standard
Weight (g)	135
Color name	grey

TRISTOP | BBS-14T

Cartridge type brake shoe set

» Compatible with V-brake systems
» Available: 2 pairs (4 pcs).

Amount (pieces)	4
Rim brake type	V-Brake
Rim brake pad type	Standard
Cartridge type	Yes
Weight (g)	126
Color name	grey

CANTISTOP DELUXE | BBS-18T

Cantilever type brake shoe set

» Available: 2 pairs (4 pcs).

Amount (pieces)	4
Rim brake type	Cantilever
Rim brake pad type	Standard
Weight (g)	90
Color name	grey

TRISTOP | BBS-15T

Replacement pads for BBB TriStop (BBS-14HP/14T)

» Available: 2 pairs (4 pcs).

Amount (pieces)	4
Rim brake type	V-Brake
Rim brake pad type	Standard
Cartridge type	Yes
Weight (g)	40
Color name	grey

ESTOP | BBS-04E

Special compound for E-bike use, provides better modulation and durability

» Compatible with V-brake systems
» E-bike specific: This product complies to the NEN-EN 15194:2017 regulations for e-bikes
» Reinforced internal structure for more brake power

Amount (pieces)	4
Rim brake type	V-Brake
Rim brake pad type	E-bike
Weight (g)	157
Color name	green

HYDROSTOP | BBS-09E

Compatible with Magura hydraulic brakes

- » Special compound for E-bike use, provides better modulation and durability
- » E-bike specific: This product complies to the NEN-EN 15194:2017 regulations for e-bikes

Amount (pieces)	4
Rim brake type	Hydraulic
Rim brake pad type	E-bike
Weight (g)	37
Color name	green

HYDROSTOP | BBS-09

Compatible with Magura hydraulic brakes

- » Special compound for optimum gripping power and minimal wear

Amount (pieces)	4
Rim brake type	Hydraulic
Rim brake pad type	Standard
Weight (g)	41
Color name	black

ROADSTOP DELUXE | BBS-01D

Dual-function brake pads provide superior performance in all weather conditions

- » Optimum water removal due to special aqua-guide system Anti-squeal design
- » Special compound for optimum gripping power and minimal wear

Amount (pieces)	4
Rim brake type	Caliper
Rim brake pad type	Standard
Weight (g)	92
Color name	black

ROADSTOP | BBS-02

Compatible with Shimano and SRAM brake systems

- » Cartridge-type
- » Special compound for optimum gripping power and minimal wear

Amount (pieces)	4
Rim brake type	Caliper
Rim brake pad type	Standard
Cartridge type	Yes
Weight (g)	70
Color name	silver, black

ROADSTOP | BBS-03A

Replacement pads for cartridge

- » Compatible with BBB Roadstop (BBS-02), Shimano 105, Ultegra and Dura-ace and SRAM

Amount (pieces)	4
Rim brake type	Caliper
Rim brake pad type	Standard
Cartridge type	Yes
Weight (g)	25
Color name	black

ROADSTOP | BBS-03C

Replacement pads for cartridge

- » Compatible with BBB RoadStop (BBS-02C), Campagnolo Super Record, Record, Chorus, Athena, Centaur and Veloce

Amount (pieces)	4
Rim brake type	Caliper
Rim brake pad type	Standard
Cartridge type	Yes
Weight (g)	25
Color name	black

TECHSTOP | BBS-22HP

Compatible with Shimano and SRAM brake systems

- » Cartridge-type
- » The triple fase profile design provides up to 30% more brake power in dry and wet conditions
- » Available: 2 pairs (4 pcs).

Amount (pieces)	4
Rim brake type	Caliper
Rim brake pad type	High Performance
Cartridge type	Yes
Weight (g)	71
Color name	black

TECHSTOP | BBS-22T

Compatible with: Shimano / SRAM brake systems.

- » Lightweight open cartridge.
- » DirectMount compatible (front brake).
- » Available: 2 pairs (4 pcs).

Amount (pieces)	4
Rim brake type	V-Brake
Rim brake pad type	Standard
Cartridge type	Yes
Weight (g)	83
Color name	grey

TECHSTOP | BBS-27

Compatible with BBB TechStop, Shimano, Shimano direct mount, SRAM and Campagnolo cartridges

» 4-in-1 back design

Amount (pieces)	4
Rim brake type	Caliper
Cartridge type	Yes
Weight (g)	38
Color name	black

TECHSTOP | BBS-27T

Compatible with BBB TechStop, Shimano, Shimano direct mount, SRAM and Campagnolo cartridges

» 4-in-1 back design

Amount (pieces)	4
Rim brake type	Caliper
Rim brake pad type	Standard
Cartridge type	Yes
Weight (g)	38
Color name	grey

ULTRASTOP | BBS-28HP

Compatible with BBB TechStop, Shimano, Shimano direct mount, SRAM and Campagnolo cartridges

- » 4-in-1 back design
- » The triple fase profile design provides up to 20% more brake power in wet conditions
- » Resistant to high temperatures

Amount (pieces)	4
Rim brake type	Caliper
Rim brake pad type	High Performance
Cartridge type	Yes
Weight (g)	29
Color name	blue

SPEEDWIRE POLISHED | BCB-13

- » Compatible with Shimano and SRAM.
- » Polished treatment minimizes friction, almost as low as PTFE-coated cables.
- » Higher durability because there is no coating that can wear out.
- » Golden color for easy identification.
- » Pre-stretched to minimize stretching while mounted on the bike.

Amount (pieces)	1
Material	Stainless steel
Cable quality	Polished
Cable head type	Shimano MTB, Shimano Road, SRAM
Size	1.1 x 2350mm
Weight (g)	16
Color name	gold

SPEEDWIRE POLISHED C | BCB-13C

- » Compatible with Campagnolo.
- » Polished treatment minimizes friction, almost as low as PTFE-coated cables.
- » Higher durability because there is no coating that can wear out.
- » Golden color for easy identification.
- » Pre-stretched to minimize stretching while mounted on the bike.

Amount (pieces)	1
Material	Stainless steel
Cable quality	Polished
Cable head type	Campagnolo
Size	1.1 x 2350mm
Weight (g)	17
Color name	gold

SPEEDWIRE TEFLON | BCB-10

- » Compatible with Shimano and SRAM
- » Innovative construction for precision shifting
- » PTFE-coated
- » Pre-stretched to minimize stretching while mounted on the bike

Amount (pieces)	1
Material	Stainless steel
Cable quality	Teflon coated
Cable head type	Shimano MTB, Shimano Road, SRAM
Size	1.1 x 2350mm
Weight (g)	16
Color name	black

SPEEDWIRE TEFLON C | BCB-10C

- » Compatible with Campagnolo
- » Innovative construction for precision shifting
- » PTFE-coated
- » Pre-stretched to minimize stretching while mounted on the bike

Amount (pieces)	1
Material	Stainless steel
Cable quality	Teflon coated
Cable head type	Campagnolo
Size	1.1 x 2350mm
Weight (g)	16
Color name	black

SPEEDWIRE | BCB-11

- » Compatible with Shimano and SRAM
- » Provides precision shifting
- » Slick-Stainless (STS)
- » Pre-stretched to minimize stretching while mounted on the bike

Amount (pieces)	1
Material	Stainless steel
Cable quality	Slick
Cable head type	Shimano MTB, Shimano Road, SRAM
Size	1.1 x 2350mm
Weight (g)	18
Color name	silver

SPEEDWIRE C | BCB-12C

- » Compatible with Campagnolo
- » Provides precision shifting
- » Slick-Stainless (STS)
- » Pre-stretched to minimize stretching while mounted on the bike

Amount (pieces)	1
Material	Stainless steel
Cable quality	Slick
Cable head type	Campagnolo
Size	1.1 x 2350mm
Weight (g)	17
Color name	silver

SHIFTLINE LC | BCB-15

- » Ø 4 mm, 2500 mm long shift cable housing
- » Special polymer compound liner for reduced friction
- » Pre-lubricated core liner gives you the perfect greased cable right out of the box

Amount (pieces)	1
Lubricated core	Yes
Size	4x2500mm
Weight (g)	91
Color name	black

BRAKEWIRE POLISHED ROAD | BCB-23R

- » Compatible with Shimano and SRAM road.
- » Polished treatment minimizes friction, almost as low as PTFE-coated cables.
- » Higher durability because there is no coating that can wear out.
- » Golden color for easy identification.
- » Pre-stretched to minimize stretching while mounted on the bike.

Amount (pieces)	1
Material	Stainless steel
Cable quality	Polished
Cable head type	Shimano Road, SRAM
Size	1.5 x 2350mm
Weight (g)	32
Color name	gold

BRAKEWIRE POLISHED ROAD C | BCB-23C

- » Wire with golden color for easy identification, compatible with Campagnolo
- » Polished treatment minimizes friction, almost as low as PTFE-coated cables
- » Higher durability because there is no coating that can wear out
- » Golden color for easy identification
- » Pre-stretched to minimize stretching while mounted on the bike

Amount (pieces)	1
Material	Stainless steel
Cable quality	Polished
Cable head type	Campagnolo
Size	1.5 x 2350mm
Weight (g)	32
Color name	gold

BRAKEWIRE TEFLON MTB | BCB-20M

- » Universal mountain bike brake cable
- » Innovative construction for precise braking
- » PTFE-coated
- » Pre-stretched to minimize stretching while mounted on the bike

Amount (pieces)	1
Material	Stainless steel
Cable quality	Teflon coated
Cable head type	Universal
Size	1.5 x 2350mm
Weight (g)	31
Color name	black

BRAKEWIRE TEFLON ROAD | BCB-20R

- » Compatible with Shimano and SRAM road
- » Innovative construction for precise braking
- » PTFE-coated
- » Pre-stretched to minimize stretching while mounted on the bike

Amount (pieces)	1
Material	Stainless steel
Cable quality	Teflon coated
Cable head type	Shimano Road, SRAM
Size	1.5 x 2350mm
Weight (g)	31
Color name	black

BRAKEWIRE TEFLON ROAD C | BCB-20C

- » Innovative construction for precise braking
- » PTFE-coated
- » Pre-stretched to minimize stretching while mounted on the bike

Amount (pieces)	1
Material	Stainless steel
Cable quality	Teflon coated
Cable head type	Campagnolo
Size	1.5 x 2350mm
Weight (g)	31
Color name	black

BRAKEWIRE MTB | BCB-21M

- » Universal mountain bike brake cable
- » Designed for responsive braking
- » Slick-Stainless (STS)
- » Pre-stretched to minimize stretching while mounted on the bike

Amount (pieces)	1
Material	Stainless steel
Cable quality	Slick
Cable head type	Universal
Size	1.5 x 2350mm
Weight (g)	32
Color name	silver

BRAKEWIRE ROAD | BCB-21R

- » Designed for responsive braking
- » Slick-Stainless (STS)
- » Pre-stretched to minimize stretching while mounted on the bike

Material	Stainless steel
Cable quality	Slick
Cable head type	Shimano Road, SRAM
Size	1.5 x 2350mm
Weight (g)	27
Color name	silver

BRAKEWIRE ROAD C | BCB-22C

- » Designed for responsive braking
- » Slick-Stainless (STS)
- » Pre-stretched to minimize stretching while mounted on the bike

Amount (pieces)	1
Material	Stainless steel
Cable quality	Slick
Cable head type	Campagnolo
Size	1.5 x 2350mm
Weight (g)	27
Color name	silver

STOPLINE LC | BCB-25

- » 5 mm brake cable housing
- » Special polymer compound liner for reduced friction
- » Pre lubricated core liner gives you the perfect greased cable right out of the box

Amount (pieces)	1
Lubricated core	Yes
Size	5x2500mm
Weight (g)	161
Color name	black

HYDROGUIDE | BCB-94

- » Guide stickers for (hydraulic) cables
- » 3M adhesive
- » 3 pieces per set

Amount (pieces)	3
Weight (g)	3
Color name	black

CABLEWRAP | BCB-90B

- » Rubber cable covers to protect the frame paint
- » For 5 mm brake cables

Amount (pieces)	2
Size	5mm
Weight (g)	1
Color name	black

LINEADJUSTER | BCB-95

- » In-line cable adjuster
- » Allows fine tuning of derailleur or brake settings
- » Improved design needs no ferrule
- » 2 pieces per set

Amount (pieces)	2
Size	4mm, 5mm
Weight (g)	6, 5
Color name	black

CABLEWRAP | BCB-90D

- » Rubber cable covers to protect the frame paint
- » For 4 mm derailleur cables

Amount (pieces)	2
Size	4mm
Weight (g)	1
Color name	black

CABLESTOP | BCB-97

- » Aluminium inner cable ends
- » Fit both brake and derailleur cables
- » 40 pcs per set

Amount (pieces)	40
Material	Aluminium
Weight (g)	6
Color name	black, silver

VEEPIPE | BCB-91

- » aluminium V-brake pipes
- » Rubber covers included
- » 2 pieces per set

Amount (pieces)	2
Material	Aluminium
Weight (g)	13
Color name	silver

ADJUSTER | BCB-96

- » Fine tune adjuster for derailleur cables
- » For non-threaded cable stops
- » 2 pieces per set

Amount (pieces)	2
Weight (g)	6
Color name	black

ADJUSTER | BCB-93

- » Fine tune adjuster for derailleur cables
- » Fit in the frame
- » 2 pieces per set

Amount (pieces)	2
Weight (g)	4
Color name	black

CABLECONNECT | BCB-98

- » Prevents cable slapping
- » Fits 4 and 5 mm cables
- » Rotates 360 degrees

Amount (pieces)	4
Weight (g)	1
Color name	black

CABLECAP KIT | BCB-99

- » Kit includes all ferrules for a single bike
- » 6 x sealed 5mm endcaps
- » 10 x sealed 4mm endcaps
- » 2 x 1.6mm cable tips
- » 2 x 1.2mm cable tips

Weight (g)	12
Color name	black

WORKSHOP SPEEDWIRE | BCB-31

- » Compatible with: Shimano/SRAM.

Material	Stainless steel
Cable quality	Slick
Cable head type	Shimano MTB, Shimano Road, SRAM
Size	1.1x2000mm
Weight (g)	14
Color name	silver

WORKSHOP SPEEDWIRE | BCB-31L

- » Compatible with: Shimano/SRAM.

Material	Stainless steel
Cable quality	Slick
Cable head type	Shimano MTB, Shimano Road, SRAM
Size	1.1x2350mm
Weight (g)	16
Color name	silver

WORKSHOP SPEEDWIRE C | BCB-32C

- » Compatible with: Campagnolo.

Material	Stainless steel
Cable quality	Slick
Cable head type	Campagnolo
Size	1.1x2350mm
Weight (g)	14
Color name	silver

WORKSHOP SPEEDWIRE TEFLON | BCB-35

- » Compatible with: Shimano/SRAM.

Material	Stainless steel
Cable quality	Teflon coated
Cable head type	Shimano MTB, Shimano Road, SRAM
Size	1.1x2350mm
Weight (g)	16
Color name	black

WORKSHOP SPEEDWIRE POLISHED | BCB-36

- » 50 pack
- » Compatible with: Shimano/SRAM.

Material	Stainless steel
Cable quality	Polished
Cable head type	Shimano MTB, Shimano Road, SRAM
Size	1.1 x 2350mm
Weight (g)	17
Color name	gold

WORKSHOP BRAKEWIRE MTB | BCB-41F

- » Compatible with: Universal/MTB.

Material	Stainless steel
Cable quality	Slick
Cable head type	Universal
Size	1.5x1100mm
Weight (g)	16
Color name	silver

WORKSHOP BRAKEWIRE MTB | BCB-41R

- » Compatible with: Universal/MTB.

Material	Stainless steel
Cable quality	Slick
Cable head type	Universal
Size	1.5x1700mm
Weight (g)	24
Color name	silver

WORKSHOP BRAKEWIRE MTB | BCB-41L

- » Compatible with: Universal/MTB.

Material	Stainless steel
Cable quality	Slick
Cable head type	Universal
Size	1.5x2350mm
Weight (g)	27
Color name	silver

WORKSHOP BRAKEWIRE ROAD | BCB-43SF

- » 100 pack
- » Compatible with: Shimano Road/SRAM Road.

Material	Stainless steel
Cable quality	Slick
Cable head type	Shimano Road, SRAM
Size	1.5x900mm
Weight (g)	24
Color name	silver

WORKSHOP BRAKEWIRE ROAD | BCB-43SR

» Compatible with: Shimano/SRAM.

Material	Stainless steel
Cable quality	Slick
Cable head type	Shimano Road, SRAM
Size	1.5x1700mm
Weight (g)	23
Color name	silver

WORKSHOP BRAKEWIRE POLISHED ROAD | BCB-47R

» 100 pack
» Compatible with: Shimano Road/SRAM Road.

Material	Stainless steel
Cable quality	Polished
Cable head type	Shimano Road, SRAM
Size	1.5 x 2350mm
Weight (g)	32
Color name	gold

WORKSHOP BRAKEWIRE ROAD C | BCB-42CR

» Compatible with: Campagnolo.

Material	Stainless steel
Cable quality	Slick
Cable head type	Campagnolo
Size	1.5x1700mm
Weight (g)	23
Color name	silver

WORKSHOP STOPLINE LC | BCB-50LC

» Brake outer cable with lubricated core liner.

Lubricated core	Yes
Size	5mmx50mtr
Weight (g)	61
Color name	black

WORKSHOP BRAKEWIRE TEFLON MTB | BCB-45M

» Compatible with: Universal/MTB.

Material	Stainless steel
Cable quality	Teflon coated
Cable head type	Universal
Size	1.5x2350mm
Weight (g)	31
Color name	black

WORKSHOP STOPLINE LC | BCB-50WLC

» Brake outer cable with lubricated core liner.

Lubricated core	Yes
Size	5mmx50mtr
Weight (g)	58
Color name	white

WORKSHOP BRAKEWIRE TEFLON ROAD | BCB-46R

» Compatible with: Shimano Road/SRAM Road.

Material	Stainless steel
Cable quality	Teflon coated
Cable head type	Shimano Road, SRAM
Size	1.5x2350mm
Weight (g)	31
Color name	black

WORKSHOP STOPLINE | BCB-51

» Coiled brake cable.

Size	5mmx50mtr
Weight (g)	56
Color name	black, pearl silver

WORKSHOP STOPLINE | BCB-51G

» Coiled brake cable.

Size	5mmx50mtr
Weight (g)	56
Color name	grey

WORKSHOP STOPLINE | BCB-51W

» Coiled brake cable.

Size	5mmx50mtr
Weight (g)	56
Color name	white

WORKSHOP SHIFTLINE | BCB-52

» Linear shift outer cable.

Size	4mmx50mtr
Weight (g)	34
Color name	black, pearl silver

WORKSHOP SHIFTLINE | BCB-52G

» Linear shift outer cable.

Size	4mmx50mtr
Weight (g)	34
Color name	grey

WORKSHOP SHIFTLINE | BCB-52W

» Linear shift outer cable.

Size	4mmx50mtr
Weight (g)	33
Color name	white

WORKSHOP SHIFTLINE LC | BCB-53LC

» Shift outer cable with lubricated core liner.

Lubricated core	Yes
Size	4mmx50mtr
Weight (g)	34
Color name	black

WORKSHOP SHIFTLINE LC | BCB-53WLC

» Shift outer cable with lubricated core liner.

Size	4mmx50mtr
Weight (g)	34
Color name	white

WORKSHOP SHIFTLINE | BCB-54

» Oversized linear outer shift cable.

Size	5mmx50mtr
Weight (g)	40
Color name	black, pearl silver

CABLEEND WORKSHOP | BCB-150

- » Cable ferrules
- » Nylon
- » Fits 4 mm housing
- » 150 pack

Amount (pieces)	150
Weight (g)	29
Color name	black

CABLEEND AL WORKSHOP | BCB-151

- » Cable ferrules
- » Aluminum
- » Fits 4 mm housing
- » 100 pack

Amount (pieces)	100
Weight (g)	49
Color name	black

CABLEEND S-AL WORKSHOP | BCB-152

- » Sealed cable ferrules
- » Protection against contamination
- » Aluminum
- » 100 pack

Amount (pieces)	100
Weight (g)	75
Color name	black

CABLEEND N-AL WORKSHOP | BCB-153

- » Nosed cable ferrules
- » Protection for Teflon cables
- » Aluminum
- » Fits 4 mm housing
- » 50 pack

Amount (pieces)	50
Weight (g)	32
Color name	black

CABLESTOP WORKSHOP | BCB-154

- » Cable crimp
- » Aluminum
- » Fits up to 1.2 mm cables
- » 500 pack

Amount (pieces)	500
Weight (g)	43
Color name	black, silver

CABLEEND WORKSHOP | BCB-160

- » Cable ferrules
- » Copper
- » Fits 5 mm housing
- » 150 pack

Amount (pieces)	150
Weight (g)	54
Color name	silver

CABLEEND AL WORKSHOP | BCB-161

- » Cable ferrules
- » Aluminum
- » Fits 5 mm housing
- » 100 pack

Amount (pieces)	100
Weight (g)	31
Color name	black

CABLEEND S-AL WORKSHOP | BCB-162

- » Sealed cable ferrules
- » Protection against contamination
- » Aluminum
- » Fits 5 mm housing
- » 100 pack

Amount (pieces)	100
Weight (g)	77
Color name	black

CABLEEND N-AL WORKSHOP | BCB-163

- » Nosed cable ferrules
- » Protection for Teflon cables
- » Aluminum
- » Fits 5 mm housing
- » 50 pack

Amount (pieces)	50
Weight (g)	24
Color name	black

CABLESTOP WORKSHOP | BCB-164

- » Cable crimp
- » Aluminum
- » Fits up to 1.6 mm cables
- » 500 pack

Amount (pieces)	500
Weight (g)	65, 64
Color name	black, silver

CABLEDONUT WORKSHOP | BCB-170

- » Frame protector
- » Protects your frame paint

Amount (pieces)	150
Size	1-1.8mm
Weight (g)	35
Color name	black

CABLEWRAP WORKSHOP | BCB-171

- » Frame protector
- » Protects your frame paint

Amount (pieces)	25
Size	4-5mm
Weight (g)	16
Color name	black

CABLEWRAP WORKSHOP | BCB-172

- » Frame protector
- » Protects your frame paint

Amount (pieces)	25
Size	4-5mm
Weight (g)	20
Color name	white

CABLEWRAP WORKSHOP | BCB-175

- » Frame protector
- » Protects your frame paint.
- » Silicone
- » Fits 4-5mm housing.

Amount (pieces)	50
Size	4-5mm housing
Weight (g)	10
Color name	black

CABLECONNECT WORKSHOP | BCB-173

- » Housing connector
- » Prevents cable slapping
- » Nylon
- » Fits 4-5mm housing
- » 50 pack

Amount (pieces)	50
Size	4-5mm
Weight (g)	17
Color name	black

BRAKEBARREL WORKSHOP | BCB-174

- » Brake adjusting barrel.
- » aluminium.
- » Fits M7 threaded brake levers.
- » 20 pack

Amount (pieces)	20
Size	M7
Weight (g)	64
Color name	black

MECHANICAL SPAREPARTS BOX | BCB-190

- » Spare part kit for mechanical brake and shift systems
- » Includes ferrules for different applications
- » Good for up to 10 replacements

Weight (g)	108
Color name	black

HYDROLINE WORKSHOP | BCB-200

- » Lightweight hydraulic hose.
- » Inner diameter (mm): 2.1.

Weight (g)	20
Color name	black

HYDROLINE WORKSHOP | BCB-201

- » Lightweight hydraulic hose.
- » Inner diameter (mm): 2.3.

Weight (g)	20
Color name	black

HOSE BARB WORKSHOP | BCB-210

- » Compatible with: SRAM/Avid.

Amount (pieces)	50
Weight (g)	34
Color name	copper

HOSE BARB WORKSHOP | BCB-211

- » Compatible with: Magura.

Amount (pieces)	50
Size	2.1-2.2mm
Weight (g)	41
Color name	copper

HOSE BARB WORKSHOP | BCB-212

- » Compatible with: Shimano.

Amount (pieces)	50
Material	Brass
Size	2.3mm
Weight (g)	19
Color name	copper

HOSE BARB WORKSHOP | BCB-213

- » Stainless steel hose barb
- » For 2.1mm inner diameter hose for Shimano systems (SM-BH90)
- » 50 pieces in a bottle

Amount (pieces)	50
Material	Stainless steel
Size	2.1mm

NEW

COMPRESSION OLIVE WORKSHOP | BCB-220

- » Compatible with: SRAM/Avid.

Amount (pieces)	50
Size	5mm
Weight (g)	30
Color name	copper

COMPRESSION OLIVE WORKSHOP | BCB-221

» Compatible with: Magura.

Amount (pieces)	50
Size	5mm
Weight (g)	32
Color name	copper

COMPRESSION OLIVE WORKSHOP | BCB-222

» Compatible with: Shimano.

Amount (pieces)	50
Size	5mm
Weight (g)	30
Color name	copper

COMPRESSION NUT WORKSHOP | BCB-230

» Compatible with: SRAM/Avid.

Amount (pieces)	25
Weight (g)	71
Color name	silver

COMPRESSION NUT WORKSHOP | BCB-231

» Compatible with: Magura.

Amount (pieces)	25
Weight (g)	72
Color name	silver

COMPRESSION NUT WORKSHOP | BCB-232

» Compatible with: Shimano.

Amount (pieces)	25
Weight (g)	84
Color name	silver

BANJO WORKSHOP | BCB-240

» Compatible with: SRAM/Avid.

Amount (pieces)	25
Weight (g)	154
Color name	silver

BANJO WORKSHOP | BCB-241

» Compatible with: Magura.

Amount (pieces)	25
Size	2.1-2.2mm
Weight (g)	153
Color name	silver

BANJO WORKSHOP | BCB-242

» Compatible with: Shimano.

Amount (pieces)	25
Size	2.3mm
Weight (g)	170
Color name	silver

BANJO NUT WORKSHOP | BCB-250

- » Banjo nut.
- » Stainless steel.
- » Fits 5 mm hose.
- » M8 x 0.75mm
- » 25 pack

Amount (pieces)	25
Size	5mm
Weight (g)	83
Color name	silver

COPPER O-RING WORKSHOP | BCB-251

- » O-ring
- » Copper
- » Suitable for DOT and Mineral Oil
- » OD 9 x ID 6 x 1mm
- » 100 pack

Amount (pieces)	100
Size	OD9mm ID6mm x 1mm
Weight (g)	32
Color name	copper

PADPIN WORKSHOP | BCB-260

- » Brakepad bolt.
- » Stainless steel.
- » M4 x 0.7mm
- » 50 pack

Amount (pieces)	50
Weight (g)	104
Color name	silver

PADPIN WORKSHOP | BCB-261

- » Brakepad bolt.
- » Stainless steel.
- » M4 x 0.7mm
- » 50 pack

Amount (pieces)	50
Weight (g)	118
Color name	silver

HYDRAULIC SPAREPARTS BOX | BCB-290

- » Spare part kit for hydraulic brake systems
- » Compatible with common SRAM/Avid, Magura and Shimano systems

Weight (g)	361
Color name	transparent

FITTINGKIT | BCB-280

- » Complete fitting kit to service your hydraulic brake system
- » Compatible with SRAM Bleeding Edge

Size	2,1mm
Weight (g)	6
Color name	silver

FITTINGKIT | BCB-282

- » Complete fitting kit to service your hydraulic brake system
- » Compatible with Shimano 2.1mm hydraulic systems

Size	2,1mm
Weight (g)	3
Color name	silver

ROLLERBOYS 10T | BDP-01

- » Composite material provided by EMS Swiss, with 40% glass-fiber mixture
- » Special teeth pattern for quick shifting performance
- » Complete set of bushings for different shifting systems included

Compatible with brands	Campagnolo, Shimano, SRAM
Part materials	Crivory EMS
Bearings material	CrMo
Gears	7-speed, 8-speed, 9-speed, 10-speed
Pulley size	10T
Narrow wide	No
Weight (g)	22
Color name	black

ROLLERBOYS CERAMIC 10T | BDP-11

- » Equipped with low friction ceramic bearings for ultra-smooth glide and exceptional durability
- » Special teeth pattern for quick shifting performance
- » Lubricated with special ceramic light oil for extra smoothness
- » Composite material provided by EMS Swiss, with 40% glass-fiber mixture
- » Complete set of bushings for different shifting systems included

Compatible with brands	Campagnolo, Shimano, SRAM
Part materials	Crivory EMS
Bearings material	Ceramic
Gears	7-speed, 8-speed, 9-speed, 10-speed
Pulley size	10T
Narrow wide	No
Weight (g)	22
Color name	black

ROLLERBOYS 11T | BDP-02

- » Composite material provided by EMS Swiss, with 40% glass-fiber mixture
- » Special teeth pattern for quick shifting performance
- » Complete set of bushings for different shifting systems included

Compatible with brands	Campagnolo, Shimano, SRAM
Part materials	Crivory EMS
Bearings material	CrMo
Gears	9-speed, 10-speed, 11-speed
Pulley size	11T
Narrow wide	No
Weight (g)	23
Color name	black

ROLLERBOYS CERAMIC 11T | BDP-12

- » Equipped with low friction ceramic bearings for ultra-smooth glide and exceptional durability
- » Special teeth pattern for quick shifting performance
- » Lubricated with special ceramic light oil for extra smoothness
- » Composite material provided by EMS Swiss, with 40% glass-fiber mixture
- » Complete set of bushings for different shifting systems included

Compatible with brands	Campagnolo, Shimano, SRAM
Part materials	Crivory EMS
Bearings material	Ceramic
Gears	9-speed, 10-speed, 11-speed
Pulley size	11T
Narrow wide	No
Weight (g)	23
Color name	black

ROLLERBOYS 11T SR | BDP-05

- » Composite material provided by EMS Swiss, with 40% glass-fiber mixture
- » Complete set of bushings for different shifting systems included
- » Equipped with special internal lubricant system
- » Compatible with SRAM

Compatible with brands	SRAM
Part materials	Grivory EMS
Bearings material	CrMo
Gears	9-speed, 10-speed, 11-speed
Pulley size	11T
Narrow wide	No
Weight (g)	79
Color name	black

ROLLERBOYS 12T SR | BDP-06

- » 12x12T CrMo derailleur pulleys
- » Narrow Wide tooth profiling ensures ultimate chain retention
- » Composite material provided by EMS Swiss, with 40% glass-fiber mixture
- » Sealed bearings
- » Compatible with SRAM 1X11

Compatible with brands	SRAM
Part materials	Grivory EMS
Bearings material	CrMo
Gears	11-speed
Pulley size	12T
Narrow wide	Yes
Weight (g)	26
Color name	black

ROLLERBOYS CERAMIC 12T NW SR | BDP-16

- » 12x12T Ceramic derailleur pulleys
- » Equipped with low friction ceramic bearings for ultra-smooth glide and exceptional durability
- » Narrow Wide tooth profiling ensures ultimate chain retention
- » Lubricated with special ceramic light oil for extra smoothness
- » Composite material provided by EMS Swiss, with 40% glass-fiber mixture
- » Compatible with SRAM 1X11

Compatible with brands	SRAM
Part materials	Grivory EMS
Bearings material	Ceramic
Gears	11-speed
Pulley size	12T
Narrow wide	Yes
Weight (g)	26
Color name	black

ROLLERBOYS 11T-13T | BDP-08

- » 11x13T CrMo derailleur pulleys
- » Composite material provided by EMS Swiss, with 40% glass-fiber mixture
- » Sealed bearings with aluminium cover for optimal durability
- » Compatible with 11-speed Shimano GRX (810/815)

Compatible with brands	Shimano
Part materials	Grivory EMS
Bearings material	CrMo
Gears	11-speed
Pulley size	11/13T
Narrow wide	No
Weight (g)	27
Color name	black

ROLLERBOYS CERAMIC 11T-13T | BDP-18

- » 11x13T Ceramic derailleur pulleys
- » Ceramic bearing for minimal resistance and exceptional durability
- » Composite material provided by EMS Swiss, with 40% glass-fiber mixture
- » Sealed bearings with aluminium cover for optimal durability
- » Lubed with special ceramic oil for an even lower resistance
- » Compatible with 11-speed Shimano GRX (810/815)

Compatible with brands	Shimano
Part materials	Grivory EMS
Bearings material	Ceramic
Gears	11-speed
Pulley size	11/13T
Narrow wide	No
Weight (g)	26
Color name	black

ROLLERBOYS 13T-13T | BDP-09

- » 13x13T CrMo derailleur pulleys
- » Composite material provided by EMS Swiss, with 40% glass-fiber mixture
- » Sealed bearings with aluminium cover for optimal durability
- » Compatible with 12-speed Shimano MTB groupsets

Compatible with brands	Shimano
Part materials	Grivory EMS
Bearings material	CrMo
Gears	12-speed
Pulley size	13T
Narrow wide	No
Weight (g)	30
Color name	black

ROLLERBOYS CERAMIC 13T | BDP-19

- » 11x13T Ceramic derailleur pulleys
- » Ceramic bearing for minimal resistance and exceptional durability
- » Composite material provided by EMS Swiss, with 40% glass-fiber mixture
- » Sealed bearings with aluminium cover for optimal durability
- » Lubed with special ceramic oil for an even lower resistance
- » Compatible with 12-speed Shimano MTB groupsets

Compatible with brands	Shimano
Part materials	Grivory EMS
Bearings material	Ceramic
Gears	12-speed
Pulley size	13T
Narrow wide	No
Weight (g)	29
Color name	black

ROLLERBOYS 12T-14T SR | BDP-07

- » 12x14T CrMo derailleur pulleys
- » Narrow Wide tooth profiling ensures ultimate chain retention.
- » Composite material provided by EMS Swiss, with 40% glass-fiber mixture
- » Sealed bearings
- » Compatible with SRAM 12-speed MTB.

Compatible with brands	SRAM
Part materials	Grivory EMS
Bearings material	CrMo
Gears	12-speed
Pulley size	12/14T
Narrow wide	Tension pulley only
Weight (g)	26
Color name	black

ROLLERBOYS CERAMIC 12T-14T SR | BDP-17

- » 12x14T Ceramic derailleur pulleys
- » Equipped with low friction ceramic bearings for ultra-smooth glide and exceptional durability
- » Narrow Wide tooth profiling ensures ultimate chain retention
- » Composite material provided by EMS Swiss, with 40% glass-fiber mixture
- » Lubricated with special ceramic light oil for extra smoothness

- » Reinforced chain plates for E-bike use
- » Closing link included
- » E-bike specific: This product complies to the NEN-EN 15194:2017 regulations for e-bikes

Amount of links	136
Closing link type	Smartlink
Gears	11-speed
Part finish	Harden treatment, Nickel plating silver
Complies with	NEN-EN 15194:2017
Chain size	1/2"x11/128"
Weight (g)	316

POWERLINE | BCH-112

- » Closing link: SmartLink (BCH-11S)
- » 11-speed compatible

Compatible with brands	Campagnolo, Shimano, SRAM
Amount of links	114
Closing link type	Smartlink
Gears	11-speed
Part finish	Nickel plating silver
Chain size	1/2"x11/128"
Weight (g)	265

POWERLINE | BCH-122

- » Closing link: SmartLink (BCH-12S)
- » 12-speed compatible

Compatible with brands	Campagnolo, Shimano, SRAM
Amount of links	126
Closing link type	Smartlink
Gears	12-speed
Part finish	Nickel plating silver
Chain size	1/2"x11/128"

E-POWERLINE E-BIKE 12 SPEED | BCH-12E

- » Reinforced chain plates for E-bike use
- » Closing link included
- » E-bike specific: This product complies to the NEN-EN 15194:2017 regulations for e-bikes

Amount of links	136
Closing link type	Smartlink
Gears	12-speed
Part finish	Harden treatment, Nickel plating silver
Complies with	NEN-EN 15194:2017
Chain size	1/2"x11/128"

SPRINGLINK | BCH-01

- » Closing link compatible with BBB SingleLine chains (BCH-010/011/01E)

Compatible with	BCH-010, BCH-11
Closing link type	Springlink
Gears	Single speed
Part finish	Nickel plating silver
Chain size	1/2"x1/8"

SPRINGLINK E-BIKE | BCH-01EL

- » Spare chain link for your bike chain
- » Compatible with our own E-powerline chain
- » Strong and reliable
- » Complies to all E-bike specific standards

Compatible with	BCH-01E
Closing link type	Springlink
Gears	Single speed
Part finish	Nickel plating silver
Chain size	1/2"x1/8"

SPRINGLINK E-BIKE NARROW | BCH-01ENL

- » Spare chain link for your bike chain
- » Compatible with our own E-powerline chain
- » Strong and reliable
- » Complies to all E-bike specific standards

Compatible with	BCH-01EN
Closing link type	Springlink
Gears	Single speed
Part finish	Nickel plating silver
Chain size	1/2"x3/32"

SMARTLINK II | BCH-10S

- » Closing link compatible with all BBB 10-speed chains

Closing link type	Smartlink
Gears	10-speed

SMARTLINK | BCH-11S

- » Closing link compatible with all BBB 11-speed chains

Closing link type	Smartlink
Gears	11-speed

SMARTLINK | BCH-12S

- » Closing link compatible with all BBB 12-speed chains

Closing link type	Smartlink
Gears	12-speed

SMARTLINK | BCH-01S

- » Closing link compatible with BBB SingleLine chains (BCH-010/011)

Closing link type	Smartlink
Gears	Single speed
Chain size	1/2"x1/8"

SMARTLINK II | BCH-08

- » Closing link compatible with all BBB 8-speed chains

Closing link type	Smartlink
Gears	8-speed

SMARTLINK II | BCH-09

- » Closing link compatible with all BBB 9-speed chains

Closing link type	Smartlink
Gears	9-speed

BIOWAX | BCH-201

- » Bike chain lubricant for all weather types that performs exceptionally well in cold and wet conditions
- » Reduces friction and offers long lasting protection against corrosion
- » Easy to use liquid wax that penetrates deeply between the links and provides a water and dirt-repellent protective layer
- » Made with 100% plant-based ingredients
- » 100% biodegradable within 28 days

Type of lubricant	Wax
Suitable for weather	All weather
Volume (ml)	100

BIOBIKELUBE | BCH-202

- » E-bike specific bio chain lube optimized to deliver long-term performance
- » Reduces friction and offers long lasting protection against corrosion
- » Thick lube offers better pressure resistance for high torque E-bike chains
- » All weather performance for year round use
- » Made with 100% plant-based ingredients
- » 100% biodegradable

Type of lubricant	Oil
Suitable for weather	All weather
Volume (ml)	100

BIOLUBE | BCH-203

- » Bio-based bike chain lubricant that offers performance in all weather conditions
- » Reduces friction and protects against corrosion in all temperatures (-15 °C / 50 °C)
- » Natural oils provide smoother shifting and reduce drag
- » Penetrates deep in the chain links and makes your chain more quiet
- » Made with 100% plant-based ingredients
- » 100% biodegradable within 28 days

Type of lubricant	Oil
Suitable for weather	All weather
Volume (ml)	100

BIOWAX PRO | BCH-204

- » High-performance bike chain lubricant made from plant-based materials
- » The higher adhesive strength reduces friction even under high watt performances
- » Mixture of natural oils and wax for long lasting all weather performance
- » Performance boost with friction-reducing additives
- » Penetrates deep in the chain links and makes your chain more quiet
- » Made with over 80% plant-based materials

Type of lubricant	Oil
Suitable for weather	All weather
Volume (ml)	100

ROUNDAABOUT 4 | BCR-04

MTB chainrings

- » Compatible with Shimano and SRAM
- » CNC machined 7075 T6 aluminium

Amount (pieces)	1
Compatible with brands	Shimano, SRAM
Part materials	7075 T6 Aluminium
Crankset type	Triple
Gears	9-speed, 10-speed
Arm quantity	4 arm crankset
Bolt Circle Diameter (mm)	104
Weight (g)	86, 104, 108
Sizes	42T, 44T, 46T
Color name	black

COMPACTGEAR | BCR-33C

Road chainrings

- » Compatible with Campagnolo
- » CNC machined 7075 T6 aluminium

Compatible with brands	Campagnolo
Part materials	7075 T6 Aluminium
Crankset type	Compact
Gears	10-speed, 11-speed
Arm quantity	5 arm crankset
Bolt Circle Diameter (mm)	110
Weight (g)	105, 153, 154
Sizes	42T, 52T, 53T

COMPACTGEAR | BCR-34C

Road chainrings

- » Compatible with Campagnolo
- » CNC machined 7075 T6 aluminium

Amount (pieces)	1
Compatible with brands	Campagnolo
Part materials	7075 T6 Aluminium
Crankset type	Compact
Gears	11-speed
Arm quantity	5 arm crankset
Bolt Circle Diameter (mm)	110
Weight (g)	93, 105, 141, 151, 155
Sizes	39T, 42T, 50T, 52T, 53T

COMPACTGEAR | BCR-36S

Road chainrings

- » Compatible with Shimano
- » CNC machined 7075 T6 aluminium

Amount (pieces)	1
Compatible with brands	Shimano
Part materials	7075 T6 Aluminium
Crankset type	Compact
Gears	10-speed
Arm quantity	5 arm crankset
Bolt Circle Diameter (mm)	110
Weight (g)	30, 40, 50, 60
Sizes	34T, 36T, 38T, 39T, 42T
Color name	black

COMPACTGEAR | BCR-37S

Road chainrings

- » Compatible with Shimano
- » CNC machined 7075 T6 aluminium

Amount (pieces)	1
Compatible with brands	Shimano
Part materials	7075 T6 Aluminium
Crankset type	Compact
Gears	10-speed
Arm quantity	5 arm crankset
Bolt Circle Diameter (mm)	110
Weight (g)	40, 44, 46
Sizes	46T, 50T, 52T
Color name	black

MTBGEAR | BCR-41X

MTB chainrings

- » Compatible with SRAM
- » CNC machined 7075 T6 aluminium

Amount (pieces)	1
Compatible with brands	SRAM
Part materials	7075 T6 Aluminium
Crankset type	Double
Gears	10-speed
Arm quantity	4 arm crankset
Bolt Circle Diameter (mm)	120
Weight (g)	250
Sizes	38T, 40T, 42T
Color name	black

MTBGEAR | BCR-42X

MTB chainrings

- » Compatible with SRAM
- » CNC machined 7075 T6 aluminium

Amount (pieces)	1
Compatible with brands	SRAM
Crankset type	Double
Gears	10-speed
Arm quantity	4 arm crankset
Bolt Circle Diameter (mm)	80
Weight (g)	250
Sizes	24T, 28T
Color name	black

MTBGEAR | BCR-43X

MTB chainrings

- » Compatible with SRAM
- » CNC machined 7075 T6 aluminium

Amount (pieces)	1
Compatible with brands	SRAM
Part materials	7075 T6 Aluminium
Crankset type	Double
Gears	10-speed
Arm quantity	4 arm crankset
Bolt Circle Diameter (mm)	104
Weight (g)	80, 86
Sizes	38T, 40T
Color name	black

MTBGEAR | BCR-44

MTB chainrings

- » Narrow Wide tooth profiling ensures ultimate chain retention
- » Compatible with Shimano and SRAM
- » CNC machined 7075 T6 aluminium

Amount (pieces)	1
Compatible with brands	Shimano, SRAM
Part materials	7075 T6 Aluminium
Crankset type	Compact, Double, Triple
Gears	10-speed, 11-speed, 9-speed
Arm quantity	4 arm crankset
Bolt Circle Diameter (mm)	104
Weight (g)	35, 40, 47, 54
Sizes	30T, 32T, 34T, 36T
Color name	black

HEXSTARS | BCR-51

Chainring bolts

» Available in two colours

Amount (pieces)	5
Compatible with brands	Campagnolo, Shimano, SRAM
Part materials	7075 T6 Aluminium
Arm quantity	5 arm crankset
Weight (g)	10
Color name	black, silver

SINGLESTARS | BCR-60S

Allen chainring bolts set

» Screws directly into the thread of the chainring
» Compatible with Shimano and SRAM

Amount (pieces)	4
Compatible with brands	Shimano, SRAM
Part materials	7075 T6 Aluminium
Crankset type	Compact, Double, Triple
Arm quantity	4 arm crankset
Weight (g)	4
Color name	black

TRIPLESTARS | BCR-52

Chainring bolts

» Screws directly into the thread of the chainring

Amount (pieces)	5
Compatible with brands	Campagnolo, Shimano, SRAM
Part materials	7075 T6 Aluminium
Crankset type	Triple
Arm quantity	5 arm crankset
Weight (g)	5
Color name	black

SHIMSTARS | BCR-61

5 piece custom bolt cap set to keep the original aesthetics of your crankset

» Plastic caps are easily mounted onto the bolts
» Compatible with Shimano

Amount (pieces)	5
Compatible with brands	Shimano
Crankset type	Compact
Arm quantity	5 arm crankset
Weight (g)	10
Color name	grey

FOURSTARS | BCR-59S

Allen chainring bolts set

» Compatible with Shimano

Amount (pieces)	4
Compatible with brands	Shimano
Part materials	7075 T6 Aluminium
Crankset type	Double
Arm quantity	4 arm crankset
Weight (g)	8
Color name	black

SHIMSTARS | BCR-62

5 piece custom bolt cap set to keep the original aesthetics of your crankset

» Plastic caps are easily mounted onto the bolts
» Compatible with Shimano

Amount (pieces)	5
Compatible with brands	Shimano
Crankset type	Double, Triple
Arm quantity	5 arm crankset
Weight (g)	8
Color name	grey

SINGLESTARS | BCR-60

Allen chainring bolts set

» Compatible with Shimano and SRAM

Amount (pieces)	4
Compatible with brands	Shimano, SRAM
Part materials	7075 T6 Aluminium
Crankset type	Compact, Double, Triple
Arm quantity	4 arm crankset
Weight (g)	7
Color name	black

SHIMSTARS | BCR-63

4 piece custom bolt cap set to keep the original aesthetics of your crankset

» Plastic caps are easily mounted onto the bolts
» Compatible with Shimano

Amount (pieces)	4
Compatible with brands	Shimano
Crankset type	Compact
Arm quantity	4 arm crankset
Weight (g)	8
Color name	grey

E-BIKE SPROCKET | BCR-70E

E-bike sprockets

- » Compatible with Bosch Gen. 2 systems
- » Hardened steel for longer durability
- » Lockring included
- » E-bike specific: This product complies to the NEN-EN 15194:2017 regulations for e-bikes

Amount (pieces)	1
Compatible with	Bosch Generation 2 systems
Gears	10-speed, 11-speed, 8-speed, 9-speed, Single speed
Weight (g)	24, 30, 36, 42, 49, 56, 64
Sizes	14T, 15T, 16T, 17T, 18T, 19T, 20T
Color name	black

CHAINWATCH | BCR-80A

Chain drop protector

- » Almost invisible installed on the front derailleur
- » Compatible with chain rings within the range of 53-34T
- » Bolts and washers to fit various front derailleurs included

Part materials	7075 T6 Aluminium
Weight (g)	4
Color name	black

E-BIKEMOUNT | BCR-71E

Chainring spider for Bosch gen. 3

- » Compatible with 4-arm chainrings (BCD 104mm)
- » 52mm chainline
- » Durable steel spider

Compatible with	Bosch gen. 3
Crankset type	Single
Arm quantity	4 arm crankset
Bolt Circle Diameter (mm)	104

E-BIKEMOUNT | BCR-72E

Chainring spider for Bosch gen. 4

- » Compatible with 4-arm chainrings (BCD 104mm)
- » 52mm chainline
- » Durable steel spider

Compatible with	Bosch gen. 4
Crankset type	Single
Arm quantity	4 arm crankset
Bolt Circle Diameter (mm)	104

E-BIKEGEAR | BCR-75E

Universal E-bike chainring to use on a compatible spider

- » Compatible with Bosch systems (gen. 3 and gen. 4) in combination with a spider.
- » Compatible with all 1-8 speed (1/2"x3/32") and 9-12 speed (1/2"x11/128") chains
- » Made from hardened steel for an extra long lifetime
- » Chainring bolts not included

Part materials	Carbon steel
Crankset type	Single
Gears	Single speed, 7-speed, 8-speed, 9-speed, 10-speed, 11-speed, 12-speed
Arm quantity	4 arm crankset
Bolt Circle Diameter (mm)	104

TURNAROUND | BHP-01

A-head headset

- » Cartridge type, industrial sealed bearings
- » RoundHead (BAP-02) included
- » 36° x 36° sealed bearings
- » 6061 T6 aluminium

Headset type	External Cup (EC) / Non-Threaded
Fork size (inch)	1
Headtube upper/inner diameter (mm)	30.2
Headtube lower/inner diameter (mm)	30.2
Bearings material	CrMo
Cone spacer diameter (mm)	43.1
Cone spacer height (mm)	8
Crown race included	Yes
Weight (g)	250

INTEGRATED | BHP-40

Integrated headset

- » Bearing diameter: 1.1/8" - 41.8 mm
- » 45°x45° sealed bearings
- » Open crown for easy installation

Headset type	Integrated (IS)
Fork size (inch)	1.1/8
Headtube upper/inner diameter (mm)	42
Headtube lower/inner diameter (mm)	42
Bearings included	BHP-181
Bearings material	CrMo
Cone spacer diameter (mm)	46
Cone spacer height (mm)	8
Crown race included	Yes
Weight (g)	75

TURNAROUND | BHP-02

A-head headset

- » Cartridge type, industrial sealed bearings
- » RoundHead (BAP-02) included
- » 36° x 36° sealed bearings
- » 6061 T6 aluminium

Headset type	External Cup (EC) / Non-Threaded
Fork size (inch)	1.1/8
Headtube upper/inner diameter (mm)	34
Headtube lower/inner diameter (mm)	34
Bearings included	BHP-180
Bearings material	CrMo
Cone spacer diameter (mm)	47
Cone spacer height (mm)	8
Crown race included	Yes
Weight (g)	118

INTEGRATED | BHP-41

Integrated headset

- » Bearing diameter: 1.1/8" - 41.0 mm
- » 36°x45° sealed bearings
- » Open crown for easy installation

Headset type	Integrated (IS)
Fork size (inch)	1.1/8
Headtube upper/inner diameter (mm)	41.2
Headtube lower/inner diameter (mm)	41.2
Bearings included	BHP-182
Bearings material	CrMo
Cone spacer diameter (mm)	45
Cone spacer height (mm)	15
Crown race included	Yes
Weight (g)	80

THREADAROUND | BHP-15

Threaded headset

- » Cartridge type, industrial sealed bearings
- » 6061 T6 aluminium

Headset type	External Cup (EC) / Threaded
Fork size (inch)	1
Headtube upper/inner diameter (mm)	30.2
Headtube lower/inner diameter (mm)	30.2
Bearings material	CrMo
Cone spacer diameter (mm)	45.8
Cone spacer height (mm)	8
Crown race included	Yes
Weight (g)	113

INTEGRATED | BHP-42

Integrated headset

- » Bearing diameter: 1.1/8" - 41.8 mm
- » 45°x45° sealed bearings
- » Open crown for easy installation

Headset type	Integrated (IS)
Fork size (inch)	1.1/8
Headtube upper/inner diameter (mm)	42
Headtube lower/inner diameter (mm)	42
Bearings included	BHP-181
Bearings material	CrMo
Cone spacer diameter (mm)	46
Cone spacer height (mm)	15
Crown race included	Yes
Weight (g)	84

INTEGRATED TAPERED | BHP-45

Integrated tapered headset

- » Bearing diameter: 1.1/8" - 1.1/4" - 41.8 - 46.8 mm
- » 45°x45° sealed bearings
- » Open crown for easy installation

Headset type	Integrated (IS)
Fork size (inch)	1.1/8 - 1.1/4
Headtube upper/inner diameter (mm)	42
Headtube lower/inner diameter (mm)	47
Bearings included	BHP-181, BHP-183
Bearings material	CrMo
Cone spacer diameter (mm)	46
Cone spacer height (mm)	15
Crown race included	Yes
Weight (g)	84

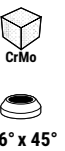

SEMI-INTEGRATED | BHP-51

Semi-integrated headset

- » Bearing diameter: 1.1/8" - 41.0 mm
- » Open crown for easy installation

Headset type	Zero Stack (ZS) / Semi-Integrated
Fork size (inch)	1.1/8
Headtube upper/inner diameter (mm)	44
Headtube lower/inner diameter (mm)	44
Bearings included	BHP-182
Bearings material	CrMo
Cone spacer diameter (mm)	50
Cone spacer height (mm)	8
Crown race included	Yes
Weight (g)	85

INTEGRATED TAPERED | BHP-46

Integrated tapered headset

- » Bearing diameter: 1.1/8-1.5" - 41.8 - 51.8 mm
- » 36°x45° sealed lower bearing and 45°x45° sealed upper bearing
- » Open crown for easy installation

Headset type	Integrated (IS)
Fork size (inch)	1.1/8 - 1.1/2
Headtube upper/inner diameter (mm)	42
Headtube lower/inner diameter (mm)	52
Bearings included	BHP-181, BHP-185
Bearings material	CrMo
Cone spacer diameter (mm)	46
Cone spacer height (mm)	8
Crown race included	Yes
Weight (g)	72

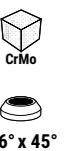

SEMI-INTEGRATED TAPERED | BHP-53

Semi-integrated tapered headset

- » Bearing diameter: 1.1/8" - 1.5" - 41.0 - 51.8 mm
- » Open crown for easy installation

Headset type	Zero Stack (ZS) / Semi-Integrated
Fork size (inch)	1.1/8 - 1.1/2
Headtube upper/inner diameter (mm)	44
Headtube lower/inner diameter (mm)	44
Bearings included	BHP-182, BHP-185
Bearings material	CrMo
Cone spacer diameter (mm)	50
Cone spacer height (mm)	15
Crown race included	Yes
Weight (g)	130

SEMI-INTEGRATED | BHP-50

Semi-integrated headset

- » Inner bearing diameter: 1.1/8"
- » Open crown for easy installation

Headset type	Zero Stack (ZS) / Semi-Integrated
Fork size (inch)	1.1/8
Headtube upper/inner diameter (mm)	41.4
Headtube lower/inner diameter (mm)	41.4
Bearings material	Retainer ball bearing
Cone spacer diameter (mm)	46
Cone spacer height (mm)	15
Crown race included	Yes
Weight (g)	105

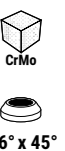

SEMI-INTEGRATED TAPERED | BHP-54

Semi-integrated tapered headset

- » Bearing diameter: 1.1/8-1.5" - 41.0-51.8 mm.
- » Open crown for easy installation

Headset type	Zero Stack (ZS) / Semi-Integrated
Fork size (inch)	1.1/8 - 1.1/2
Headtube upper/inner diameter (mm)	56
Headtube lower/inner diameter (mm)	44
Bearings included	BHP-182, BHP-185
Bearings material	CrMo
Cone spacer diameter (mm)	50
Cone spacer height (mm)	15
Crown race included	Yes
Weight (g)	121

SEMI-INTEGRATED TAPERED | BHP-55

Semi-integrated tapered headset

- » Bearing diameter: 1.1/8-1.5" - 41.0-51.8 mm.
- » Open crown for easy installation

36° x 45°

Headset type	Zero Stack (ZS) / Semi-Integrated
Fork size (inch)	1.1/8 - 1.1/2
Headtube upper/inner diameter (mm)	44
Headtube lower/inner diameter (mm)	55
Bearings included	BHP-182, BHP-185
Bearings material	CrMo
Cone spacer diameter (mm)	50
Cone spacer height (mm)	15
Crown race included	Yes
Weight (g)	111

ULTRASPACE | BHP-35

Ultra-lightweight UD carbon spacers

- » Unique design saves up to 38% on weight compared to ordinary carbon spacers
- » Set of 4 spacers: 5, 10, 15, 20 mm

1.1/8"

Fork size (inch)	1.1/8
Weight (g)	17

ROUNDHEAD | BAP-02

Headset cap to upgrade your bike

- » 6061 T6 aluminium
- » Steel bolt with anti-rust coating

1.1/8"

Fork size (inch)	1.1/8
Weight (g)	35

LIGHTSPACE | BHP-36

Ultra-lightweight aluminium spacers

- » Unique design saves up to 38% on weight compared to ordinary aluminium spacers
- » Set of 4 spacers: 5, 10, 15, 20 mm

1.1/8"

Fork size (inch)	1.1/8
Weight (g)	25

POWERHEAD | BAP-03

Expander clamping mechanism equally divides the forces

- » Expander type for safe and easy assembly
- » 40 mm plug for extra grip
- » Suitable for aluminium and carbon forks

1.1/8"

Fork size (inch)	1.1/8
Weight (g)	58

EXTENDER | BHP-20

Steerer tube extension for steel steerer tubes

- » Threaded and threadless headset compatible
- » RoundHead (BAP-02) included

1"

Fork size (inch)	1
Weight (g)	220

EXTENDER | BHP-21

Steerer tube extension for steel steerer tubes

- » Threaded and threadless headset compatible
- » RoundHead (BAP-02) included

Fork size (inch)	1.1/8
Weight (g)	254

OEM HEADSET REPLACEMENT BEARINGS | BHP-180

20 pcs. headset replacement bearings.

- » Bearing diameter: 1.1/8" - 41.5 x 6.5 mm.
- » 36°x36° sealed bearings.
- » MR043

Weight (g)	20
------------	----

TUBEEXTEND | BHP-22

Aluminium steerer tube extension

- » Total extension of 67 mm
- » RoundHead (BAP-02) included

Fork size (inch)	1.1/8
Weight (g)	183

OEM HEADSET REPLACEMENT BEARINGS | BHP-181

20 pcs. headset replacement bearings.

- » Bearing diameter: 1.1/8" - 41.8 x 8 mm.
- » 45°x45° sealed bearings.
- » MR121

Fork size (inch)	1.1/8
Bearings material	CrMo
Weight (g)	23

OEM ALUSPACE | BHP-33OEM

50 pack

- » Diameter: 1.1/8".

Fork size (inch)	1.1/8
Weight (g)	5, 10, 15, 19

OEM HEADSET REPLACEMENT BEARINGS | BHP-182

20 pcs. headset replacement bearings.

- » Bearing diameter: 1.1/8" - 41 x 6.5 mm.
- » 36°x45° sealed bearings.
- » MR122

Fork size (inch)	1.1/8
Bearings material	CrMo
Weight (g)	21

OEM HEADSET REPLACEMENT BEARINGS | BHP-183

20 pcs. headset replacement bearings.

- » Bearing diameter: 1.1/4" - 46.8 x 7 mm.
- » 45°x45° sealed bearings.
- » MR168

Fork size (inch)	1.1/4
Bearings material	CrMo
Weight (g)	27

OEM WORKSHOP DISPLAY BEARINGS | BHP-191

Workshop display for replacement bearings.

- » For storage of 5 tubes of 20 replacement bearings.

OEM HEADSET REPLACEMENT BEARINGS | BHP-184

20 pcs. headset replacement bearings.

- » Bearing diameter: 1.3/8" - 48.9 x 6.5 mm.
- » 36°x45° sealed bearings.
- » MR031

Fork size (inch)	1.3/8
Bearings material	CrMo
Weight (g)	25

OEM HEADSET REPLACEMENT BEARINGS | BHP-185

20 pcs. headset replacement bearings.

- » Bearing diameter: 1.5" - 51.8 x 8 mm.
- » 36°x45° sealed bearings.
- » MR127

Fork size (inch)	1.1/2
Bearings material	CrMo
Weight (g)	33

BOTTOMFIT PF30 | BBO-09

High-end PF30 bottom bracket

- » 3-piece threaded design
- » Self-aligning bearings increases durability
- » Chrome steel BB30 6806RS bearings
- » Fully CNC machined

Part materials	6061 T6 Aluminium, 7075 T6 Aluminium
Bearings material	CrMo
Bracket Shell type	PF30 - Press fit 30
Bracket Shell Diameter (mm)	46
Bracket Shell width (mm)	68, 73mm
Bracket spindle diameter (mm)	30
Weight (g)	133

BOTTOMPRESS PF30 MTB | BBO-05

Press Fit bottom bracket PF30 standard for MTB

- » Chrome steel BB30 bearings
- » Cup diameter of 46 mm

Part materials	Glassfiber reinforced Nylon
Bearings material	CrMo
Bracket Shell type	PF30 - Press fit 30
Bracket Shell Diameter (mm)	46
Bracket Shell width (mm)	68, 73mm
Bracket spindle diameter (mm)	30
Weight (g)	88

BOTTOMPRESS PF30 ROAD | BBO-01

Press Fit bottom bracket PF30 standard for road bikes

- » Chrome steel BB30 bearings
- » Cup diameter of 46 mm

Part materials	Glassfiber reinforced Nylon
Bearings material	CrMo
Bracket Shell type	PF30 - Press fit 30
Bracket Shell Diameter (mm)	46
Bracket Shell width (mm)	68
Bracket spindle diameter (mm)	30
Weight (g)	84

BOTTOMBEAR BB30 | BBO-19

Chrome steel BB30 bearings

- » Inner diameter of 30 mm and outer diameter of 41,96 mm
- » Co-molded bearing shields
- » Wave washer included

Amount (pieces)	2
Bearings material	CrMo
Bracket Shell type	BB30 - Direct fit 30
Bracket Shell width (mm)	68, 73mm
Bracket spindle diameter (mm)	30
Weight (g)	63

BOTTOMFIT BB86/92 | BBO-29

High-end BB86/92 bottom bracket

- » 3-piece threaded design
- » Self-aligning bearings increases durability
- » Chrome steel 24377RS bearings

Part materials	6061 T6 Aluminum, 7075 T6 Aluminium
Bearings material	CrMo
Bracket Shell type	BB86 - Shimano press fit Road, BB92 - Shimano press fit Road
Bracket Shell Diameter (mm)	41
Bracket Shell width (mm)	86, 5mm, 89, 5mm, 92mm
Bracket spindle diameter (mm)	24
Weight (g)	126

BOTTOMFIT BB86/92 GXP | BBO-29SR

Universal BSA bottom bracket for 24/22mm (GXP) spindles

- » 3-piece threaded design
- » Self-aligning bearings increases durability
- » Chrome steel 24377RS & 22378RSL/115 bearings

Part materials	6061 T6 Aluminum, 7075 T6 Aluminium
Bearings material	CrMo
Bracket Shell type	BB86 - Shimano press fit Road, BB92 - Shimano press fit Road
Bracket Shell Diameter (mm)	41
Bracket Shell width (mm)	86, 5mm, 89, 5mm, 92mm
Bracket spindle diameter (mm)	24-22
Weight (g)	133

BOTTOMPRESS BB92 | BBO-25

Press Fit bottom bracket for BB92 standard for MTB

- » Chrome steel bearings
- » Cup diameter of 41 mm

Bearings material	CrMo
Bracket Shell type	BB92 - Shimano press fit Road
Bracket Shell Diameter (mm)	41
Bracket Shell width (mm)	89, 5mm, 92mm
Bracket spindle diameter (mm)	24
Weight (g)	89

BOTTOMPRESS BB86 | BBO-21

Press Fit bottom bracket for BB86 standard for road bikes

- » Chrome steel bearings
- » Cup diameter of 41 mm

Bearings material	CrMo
Bracket Shell type	BB86 - Shimano press fit Road
Bracket Shell Diameter (mm)	41
Bracket Shell width (mm)	86, 5mm
Bracket spindle diameter (mm)	24
Weight (g)	86

BOTTOMBEAR BB90-95 | BBO-26

Press fit BB90-95 cartridge bearings

- » Inner diameter of 24 mm and outer diameter of 37 mm
- » Spacers for adapting to BB95 included

Bearings material	CrMo
Bracket Shell type	BB90 - Trek Direct fit Road, BB95 - Trek Direct fit MTB
Bracket Shell Diameter (mm)	37
Bracket Shell width (mm)	90mm, 95mm
Bracket spindle diameter (mm)	24
Weight (g)	29

BOTTOMTHREAD BSA | BBO-39

Universal BSA bottom bracket for 24mm spindles

- » Co-molded bearing shields
- » Chrome steel 24377RS bearings
- » Wave washers included

Part materials	7075 T6 Aluminium, Glassfiber reinforced Nylon
Bearings material	CrMo
Bracket Shell type	BSA - English Threaded
Bracket Shell width (mm)	68, 73mm
Bracket spindle diameter (mm)	24
Weight (g)	99

BOTTOMTHREAD BSA DUB | BBO-38

Universal BSA DUB bottom bracket

- » Co-molded bearing shields
- » Chrome steel 2940RV bearings
- » Wave washers included

Part materials	6061 T6 Aluminum, 7075 T6 Aluminium
Bearings material	CrMo
Bracket Shell type	BSA - English Threaded
Bracket Shell width (mm)	68, 73mm
Bracket spindle diameter (mm)	29
Weight (g)	98

BOTTOMTHREAD BSA GXP | BBO-39SR

BSA bottom bracket, GXP compatible

- » Co-molded bearing shields
- » Chrome steel 24377RS & 22378RSL/115 bearings
- » Wave washers included

Part materials	7075 T6 Aluminium, Glassfiber reinforced Nylon
Bearings material	CrMo
Bracket Shell type	BSA - English Threaded
Bracket Shell width (mm)	68, 73mm
Bracket spindle diameter (mm)	24-22
Weight (g)	113

BOTTOMFIT PF30-29 DUB | BBO-78

Allows the installation of DUB cranksets into PF30 shells without adapters

- » 3-piece threaded design
- » Self-aligning bearings increases durability
- » Fully CNC machined
- » Chrome steel 2940RV bearings
- » Wave washers included

Part materials	6061 T6 Aluminum, 7075 T6 Aluminium
Bearings material	CrMo
Bracket Shell type	PF30 - Press fit 30
Bracket Shell Diameter (mm)	46
Bracket Shell width (mm)	68, 73mm
Bracket spindle diameter (mm)	29
Weight (g)	164

BOTTOMFIT PF30-24 | BBO-79

Allows the installation of 24 mm spindle cranksets into PF30 shells without adapters

- » Self-aligning bearings increases durability
- » Fully CNC machined 3-piece threaded design
- » Chrome steel 24377RS bearings
- » Wave washers included

Part materials	6061 T6 Aluminum, 7075 T6 Aluminium
Bearings material	CrMo
Bracket Shell type	PF30 - Press fit 30
Bracket Shell Diameter (mm)	46
Bracket Shell width (mm)	68, 73mm
Bracket spindle diameter (mm)	24
Weight (g)	167

BOTTOMFIT BB30-29 DUB | BBO-88

Allows the installation of DUB cranksets into BB30 shells without adapters

- » Easy-to-install threaded design
- » Self-aligning bearings increases durability
- » Fully CNC machined
- » Chrome steel 2940RV bearings
- » Wave washers included

Part materials	6061 T6 Aluminum
Bearings material	CrMo
Bracket Shell type	BB30 - Direct fit 30
Bracket Shell Diameter (mm)	42
Bracket Shell width (mm)	68, 73mm
Bracket spindle diameter (mm)	29
Weight (g)	136

BOTTOMFIT BB30-24 | BBO-89

Allows the installation of 24 mm spindle cranksets into BB30 shells without adapters

- » Easy-to-install threaded design
- » Self-aligning bearings increases durability
- » Fully CNC machined
- » Chrome steel 24377RS bearings
- » Wave washers included

Part materials	6061 T6 Aluminum, 7075 T6 Aluminium
Bearings material	CrMo
Bracket Shell type	BB30 - Direct fit 30
Bracket Shell Diameter (mm)	42
Bracket Shell width (mm)	68, 73mm
Bracket spindle diameter (mm)	24
Weight (g)	157

BOTTOMBEAR ULTRA TORQUE | BBO-41

Press Fit stainless steel cartridge bearings

- » Compatible with Campagnolo Ultra Torque crank sets
- » Size: 37 x 25 x 6 mm

Part materials	Stainless steel
Bearings material	CrMo
Bracket spindle diameter (mm)	25
Compatible with	Campagnolo Ultra Torque
Weight (g)	34

BOTTOMADAPT BB30/PF30 | BBO-16

30 mm to 24 mm reducer

- » Allows the installation of 24 mm spindle crank sets into BB30 and PF30 shells (BB30 or PF30 BB required, not included)
- » Alloy spacer with plastic cover

Bracket Shell type	BB30 - Direct fit 30, PF30 - Press fit 30
Bracket spindle diameter (mm)	24
Weight (g)	87

BOTTOMADAPT BB386/392 EVO | BBO-17

30 mm to 24 mm reducer, for BB386/392 EVO

- » Allows the installation of 24 mm spindle crank sets into a BB386 EVO shell (PF30/BB386 EVO BB required, not included)
- » Alloy spacer with plastic cover

Bracket Shell type	BB386, BB392
Bracket Shell width (mm)	86, 5mm, 89, 5mm, 92mm
Bracket spindle diameter (mm)	24
Weight (g)	13

OEM BOTTOM BRACKET SHIM 0.5 - 30 | BBO-111

20 pcs. Bottom bracket spacers.

- » Use to adjust chainline or remove sideplay
- » Outer diameter (mm): 37
- » Inner diameter (mm): 30
- » Thickness (mm): 0.5

Weight (g)	1
-------------------	---

OEM BOTTOM BRACKET SHIM 1 - 30 | BBO-112

20 pcs. Bottom bracket spacers.

- » Use to adjust chainline or remove sideplay
- » Outer diameter (mm): 37
- » Inner diameter (mm): 30
- » Thickness (mm): 1

Weight (g) _____ 3

OEM BOTTOM BRACKET SHIM 1 - 24 | BBO-122

20 pcs. Bottom bracket spacers.

- » Use to adjust chainline or remove sideplay
- » Outer diameter (mm): 30.
- » Inner diameter (mm): 24
- » Thickness (mm): 1

Weight (g) _____ 2

OEM BOTTOM BRACKET SHIM 2.5 - 30 | BBO-113

20 pcs. Bottom bracket spacers.

- » Use to adjust chainline or remove sideplay
- » Outer diameter (mm): 37
- » Inner diameter (mm): 24
- » Thickness (mm): 2.5

Weight (g) _____ 3

OEM BOTTOM BRACKET SHIM 2.5 - 24 | BBO-123

20 pcs. Bottom bracket spacers.

- » Use to adjust chainline or remove sideplay
- » Outer diameter (mm): 30
- » Inner diameter (mm): 24
- » Thickness (mm): 2,5

Weight (g) _____ 2

SHIMSET | BBO-91

Bottom bracket spacer set

- » Use to adjust chainline or remove sideplay

Bracket spindle diameter (mm) _____ 24
Weight (g) _____ 2

OEM WAVE WASHER 24 | BBO-125

20 pcs. Bottom bracket spacers.

- » Use to adjust chainline or remove sideplay
- » Recommended for cranksets without a pinch-bolt design.
- » Inner diameter (mm): 24
- » Thickness (mm): 1-2,5

Weight (g) _____ 1

OEM BOTTOM BRACKET SHIM 0.5 - 24 | BBO-121

20 pcs. Bottom bracket spacers.

- » Use to adjust chainline or remove sideplay
- » Outer diameter (mm): 30.
- » Inner diameter (mm): 24
- » Thickness (mm): 0,5

Weight (g) _____ 1

OEM WAVE WASHER 30 | BBO-126

20 pcs. Bottom bracket spacers.

- » Use to adjust chainline or remove sideplay
- » Recommended for cranksets without a pinch-bolt design.
- » Inner diameter (mm): 30
- » Thickness (mm): 1-2,5

Weight (g) _____ 1

OEM BOTTOM BRACKET BEARING BB30 | BBO-102

20 pcs. Bottom bracket bearings.

- » Chrome steel BB30 6806R bearings.
- » Bearing diameter (mm): 42 x 7.
- » Inner diameter (mm): 30

Weight (g) 23

OEM BOTTOM BRACKET BEARING | BBO-105

20 pcs. Bottom bracket bearings.

- » Chrome steel 24377RS bearings.
- » Bearing dimensions (mm): 37 x 7.
- » Inner diameter (mm): 24

Weight (g) 23

OEM BOTTOM BRACKET BEARING DUB | BBO-103

20 pcs. Bottom bracket bearings

- » Chrome steel DUB 2940RV bearings
- » Bearing diameter (mm): 40 x 6.8
- » Inner diameter (mm): 29

Bearings material CrMo

RIMTAPE | BTI-91

High-pressure rim tapes made of strong nylon material

- » For road bikes
- » Elastic characteristics for a tight secure fit around your rims
- » With valve hole
- » 2 pieces per set

Tube type	Road
Wheel size (inch)	28
Rimtape type	Elastic Nylon
Tape Width (mm)	16
Weight (g)	32
Color name	black

RIMTAPE | BTI-92

High-pressure rim tapes made of strong nylon material

- » For 29" mountain bikes and 28" trekking bikes
- » Elastic characteristics for a tight secure fit around your rims
- » With valve hole
- » 2 pieces per set

Tube type	MTB, Road
Wheel size (inch)	28, 29
Rimtape type	Elastic Nylon
Tape Width (mm)	18, 22, 25
Weight (g)	35, 43, 48
Color name	black

RIMTAPE | BTI-93

High-pressure rim tapes made of strong nylon material

- » For 26" mountain bikes
- » Elastic characteristics for a tight secure fit around your rims
- » With valve hole
- » 2 pieces per set

Tube type	MTB
Wheel size (inch)	26
Rimtape type	Elastic Nylon
Tape Width (mm)	18
Weight (g)	31
Color name	black

RIMTAPE | BTI-94

High-pressure rim tapes made of strong nylon material

- » For 27,5" mountain bikes
- » Elastic characteristics for a tight secure fit around your rims
- » With valve hole
- » 2 pieces per set

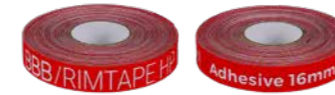

Tube type	MTB
Wheel size (inch)	27,5
Rimtape type	Elastic Nylon
Tape Width (mm)	22, 25
Weight (g)	40, 45
Color name	red

RIMTAPE | BTI-95

High-pressure adhesive rim tape

- » 10 meter roll

Tube type	Kids/Others, MTB, Road, Urban
Wheel size (inch)	12, 5, 16, 18, 20, 22, 24, 26, 27, 5, 28, 29
Rimtape type	Adhesive tape
Tape Width (mm)	16, 18, 22, 25
Weight (g)	120, 127, 134, 149
Color name	red

RIMTAPE | BTI-96

High-pressure adhesive rim tape

- » 45 meter roll

Tube type	Kids/Others, MTB, Road, Urban
Wheel size (inch)	12, 5, 16, 18, 20, 22, 24, 26, 27, 5, 28, 29
Rimtape type	Adhesive tape
Tape Width (mm)	16, 18, 22, 25
Weight (g)	419, 425, 432, 441
Color name	red

RIMTAPE | BTI-98

High-pressure adhesive rim tape

- » 2 meter roll
- » 2 rolls per set

Tube type	Kids/Others, MTB, Road, Urban
Wheel size (inch)	12, 5, 16, 18, 20, 22, 24, 26, 27, 5, 28, 29
Rimtape type	Adhesive tape
Tape Width (mm)	16, 18, 22, 25
Weight (g)	27, 32, 43, 49
Color name	white

TUBELESS RIMTAPE | BTI-150

Adhesive rim tape for tubeless conversion

- » 4.5 meter roll

Tube type	MTB, Road
Wheel size (inch)	12, 5, 16, 18, 20, 22, 24, 26, 27, 5, 28, 29
Rimtape type	Adhesive tape
Tape Width (mm)	18, 22, 25, 28, 31, 34
Weight (g)	27, 33, 35, 43, 47, 51
Color name	yellow

TUBELESS RIMTAPE | BTI-151

Adhesive rim tape for tubeless conversion

» 10 meter roll

Tube type	MTB, Road
Wheel size (inch)	12, 5, 16, 18, 20, 22, 24, 26, 27, 5, 28, 29
Rimtape type	Adhesive tape
Tape Width (mm)	18, 22, 25, 28, 31, 34
Weight (g)	44, 55, 62, 69, 76, 83
Color name	yellow

TUBELESS RIMTAPE | BTI-152

Adhesive tape for tubeless conversion

» 50 meter roll of rimtape

Rimtape type	Adhesive tape
---------------------	---------------

TUBELESS VALVES | BTI-159

Removable core

» Brass valve shaft
» Rubber squared base for a better seal

Tube type	MTB, Road
Removable valve	Yes
Weight (g)	16, 28
Color name	black

AL VALVE | BTI-160

Full aluminum tubeless valve set

» Universal fit through the round shaped rubber that will seal-off every tubeless rim
» With integrated tool to take out the valve core
» Tire insert compatible due to its triple airway passage
» Hex key fixation for easy (dis)assembly

Removable valve	Yes
Weight (g)	9, 11
Color name	black

VALVEEXTENDER | BTI-97

Aluminium valve extender

» Ideal for high profile carbon rims

Tube type	MTB, Road
Weight (g)	13
Color name	black

VALVEEXTEND | BTI-99

Aluminium valve extender

» For inner tubes with removable valve core
» Ideal for deep section carbon wheels
» Tool included

Tube type	MTB, Road
Weight (g)	10, 14
Color name	black

VALVECORE SET | BTI-161

Set with four Presta valve cores

» Comes with multifunctional valve core tool

Removable valve	Yes
Weight (g)	7
Color name	silver

VALVECORE 50PCS | BTI-162

Workshop bottle with 50 pieces Presta valve cores

Weight (g)	85
-------------------	----

BIOSEAL | BTI-180

Anti-puncture sealant for tubeless and innertube systems, seals up holes to 6 mm

- » Contains natural latex and cellulose fibers from sugar beet
- » Last 2-7 months
- » 100% biodegradable within 28 days

Volume (ml) _____ 80

BIOSEAL | BTI-181

Anti-puncture sealant for tubeless and innertube systems, seals up holes to 6 mm

- » Contains natural latex and cellulose fibers from sugar beet
- » Last 2-7 months
- » 100% biodegradable within 28 days

Volume (ml) _____ 500

BIOSEAL | BTI-181W

Anti-puncture sealant for tubeless and inner tube systems

- » Contains natural latex and cellulose fibers from sugar beet
- » Long-lasting formula keeps you sealed for 2-7 months
- » 100% biodegradable within 28 days

Volume (L) _____ 5

BIKETUBE - ROAD

- » Presta valved road tubes.
- » SuperLite version with lightweight butyl rubber compound (BTI-72 and BTI-73).

Also available: OEM Display Box BTI-71D, 20pcs.

BIKETUBE - MTB

- » Presta and Schrader valved mountainbike tubes.
- » SuperLite version with lightweights butyl rubber compound (BTI-89S).

BIKETUBE - TREKKING

- » Schrader and Dunlop valved trekking tubes (BTI-82, BTI-83 and BTI-84).

BIKETUBE - KIDS/OTHERS

- » Inner tubes for wheel sizes from 12,5" to 24" with Presta, Schrader and Dunlop valves.
- » Available with bent valve for easy access (BTI-01).

SEALANT INJECTOR | BTI-190

Complete tubeless sealant injector set

- » Easy and clean way to inject sealant into your wheel set-up
- » Plastic needle is ideal to remove old (still liquid) sealant without removing the tire
- » Kit includes: 60ml syringe, two hoses, valve core removal tool, hose-stoppers, plastic needle

PRESTA

Available in: 33 mm, 48 mm, 60 mm and 80mm lengths. R - Removable valve for use with extenders.

SCHRADER

Available in: 33 mm, 48 mm, 60 mm and 80 mm lengths.

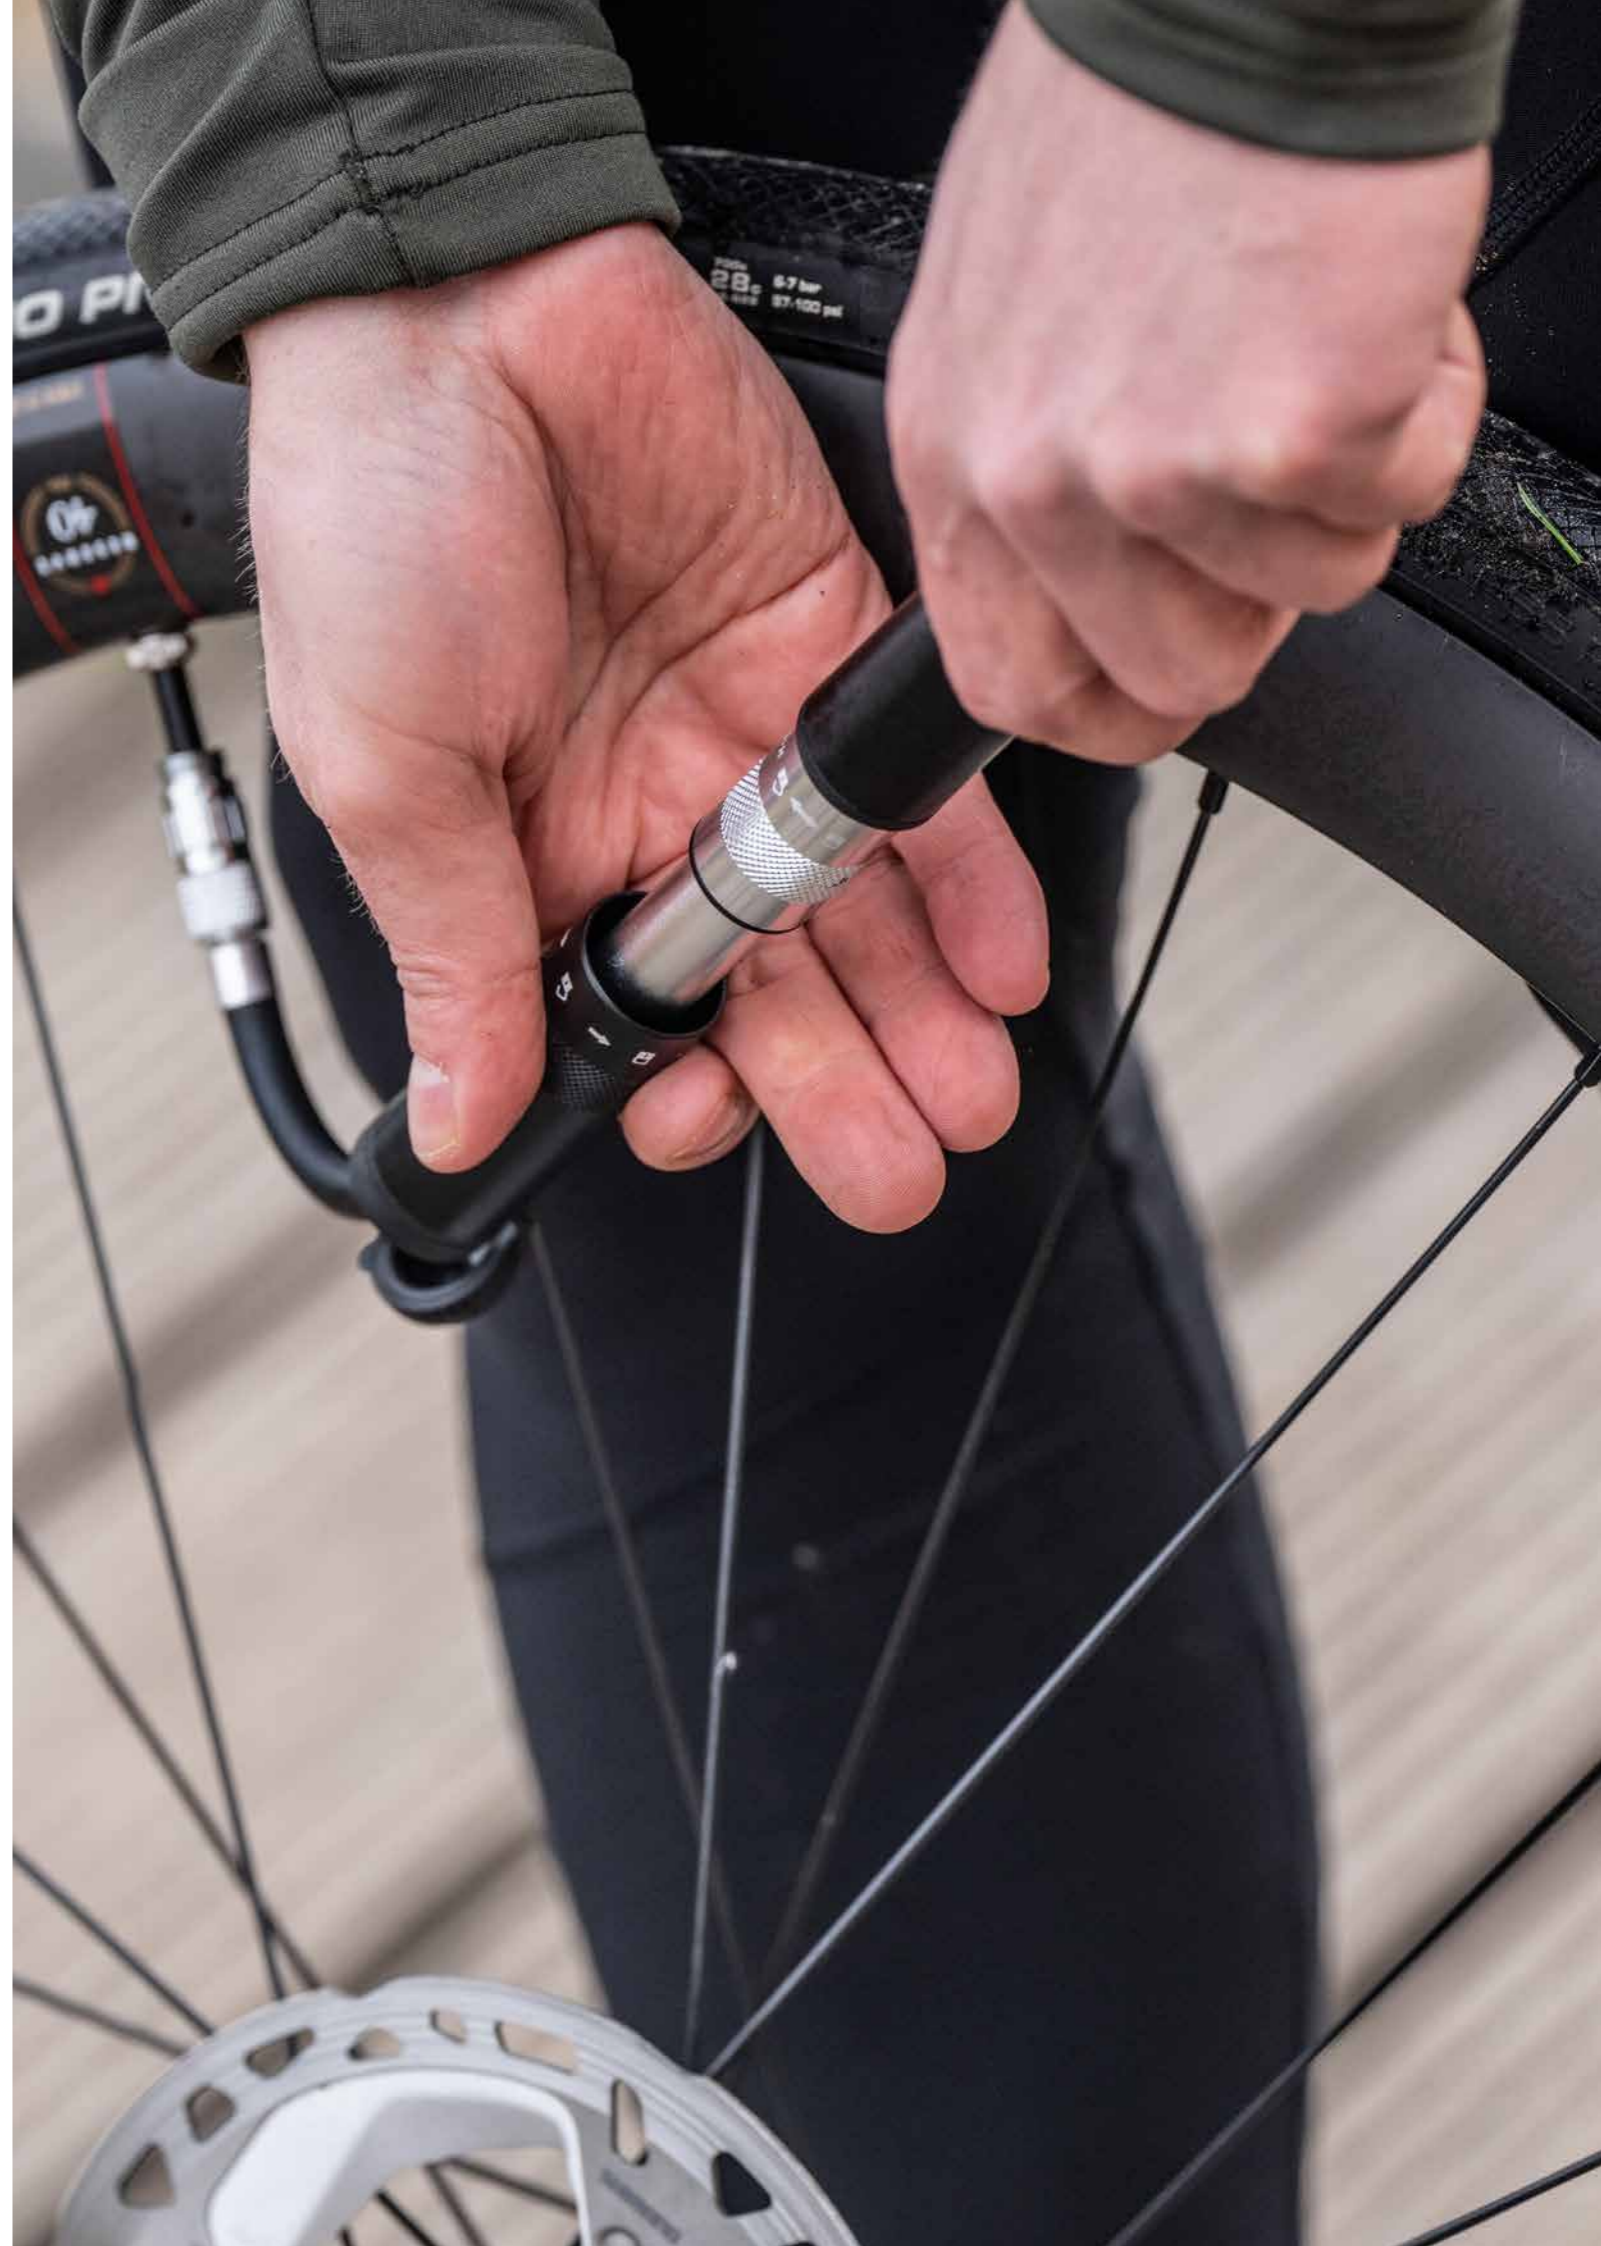

DUNLOP

Available in: 31 mm and 40 mm lengths. BV - Bent Valve.

SUPER LIFE

SuperLife innertubes with lightweight molded butyl rubber compound (BTI-72, BTI-73 and BTI-89S). Also available with removable valve for valve extenders (FV 33R and FV 48R).

Are you searching for marketing materials like; logos, pictures, videos and the guidelines around how to use these assets? There is no need to look any further. From now on all these things are available for you on our WebDam server. This online tool can easily be reached with only the use of a login and password.

On WebDam you will find assets like:

- Advertisements
- Catalog pdf files
- Product images
- Lifestyle images
- Videos
- Logos
- Posters
- Sponsor images

All kinds of necessary content can be transferred through WebDam. So, if you have any questions for additional content, we most likely will add this to WebDam for you.

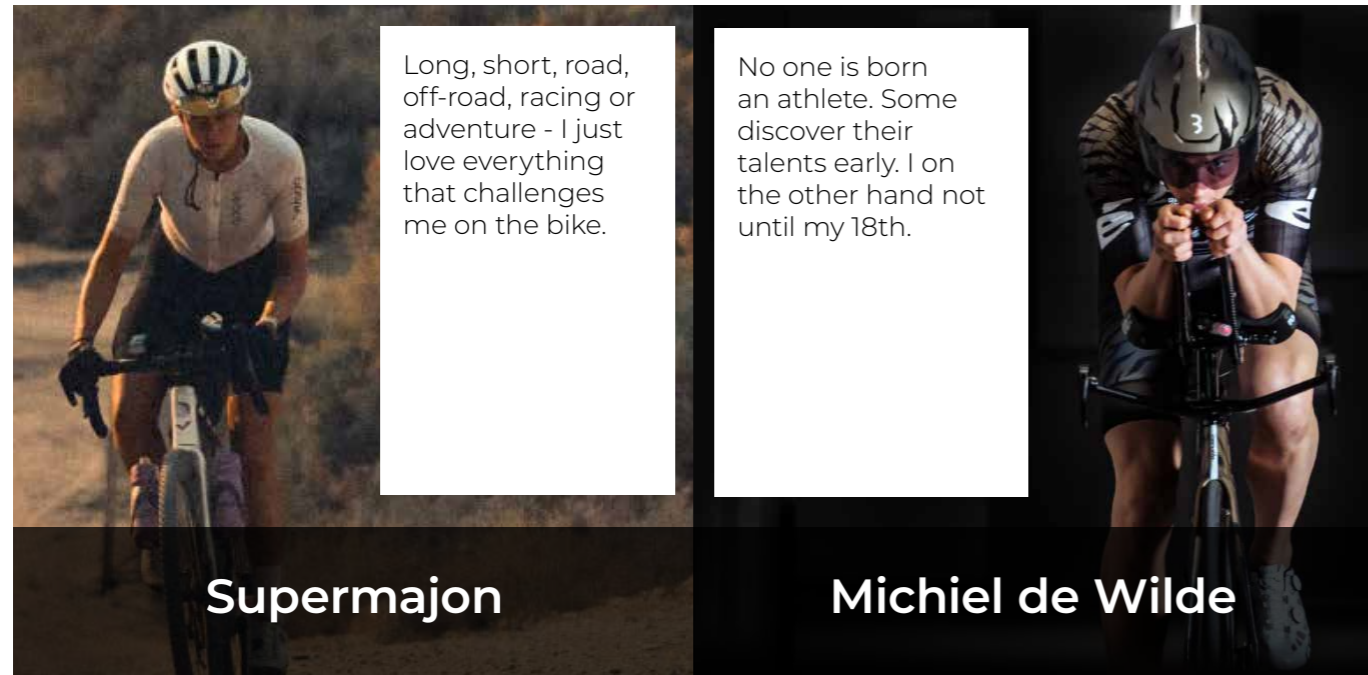

HOW TO ACCESS WEBDAM

STEP 1 Type the following address in your browser; <https://bbbcycling.webdamdb.com>

STEP 2 Login with your credentials.

STEP 3 Now you can search through our files in the WebDam structure.

The BBB Cycling Backyard Crew consists of pros, adventurers, discoverers, survivors, fanatics, and life lovers on a bike. People who like to sit in the saddle as long and often as possible. Who enjoy a social ride but are also capable to drive themselves to the limit. On tarmac, on gravel, or in the forest. Enthusiastic people who know how to inspire others to cycle more often

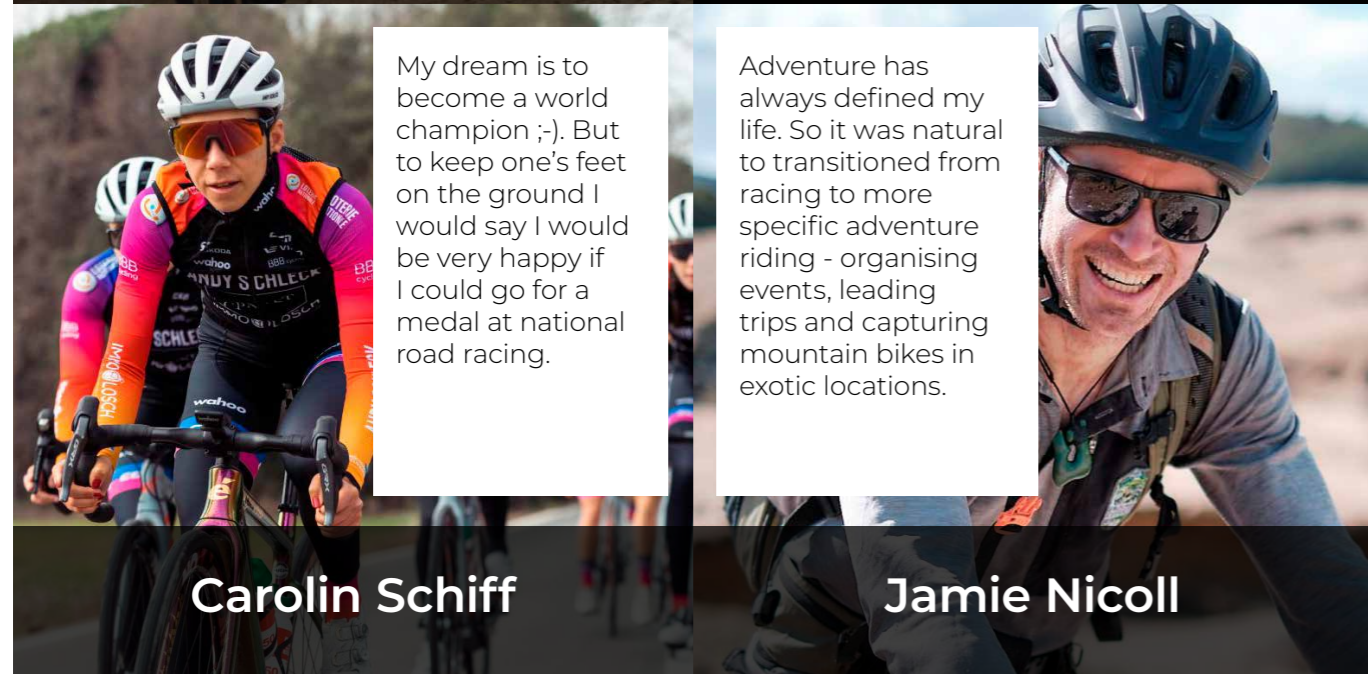

Long, short, road, off-road, racing or adventure - I just love everything that challenges me on the bike.

No one is born an athlete. Some discover their talents early. I on the other hand not until my 18th.

Supermajon

Michiel de Wilde

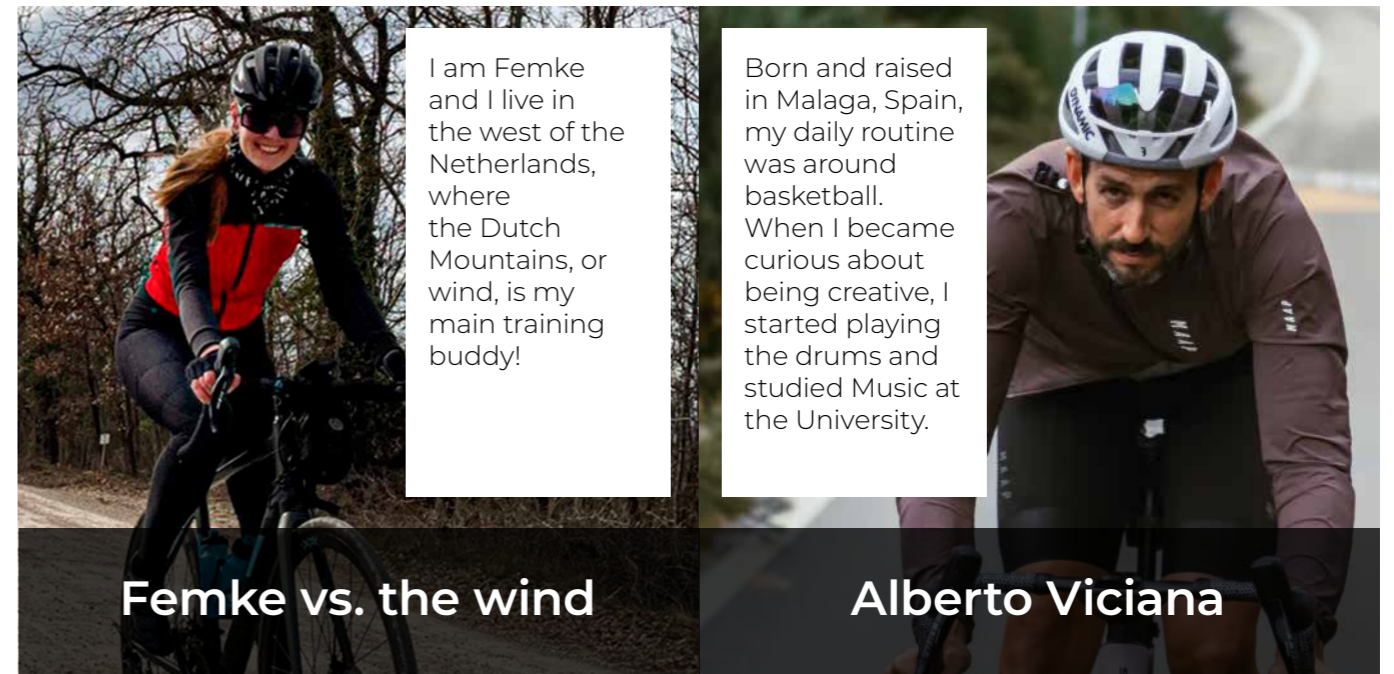

My dream is to become a world champion ;-). But to keep one's feet on the ground I would say I would be very happy if I could go for a medal at national road racing.

Adventure has always defined my life. So it was natural to transitioned from racing to more specific adventure riding - organising events, leading trips and capturing mountain bikes in exotic locations.

Carolin Schiff

Jamie Nicoll

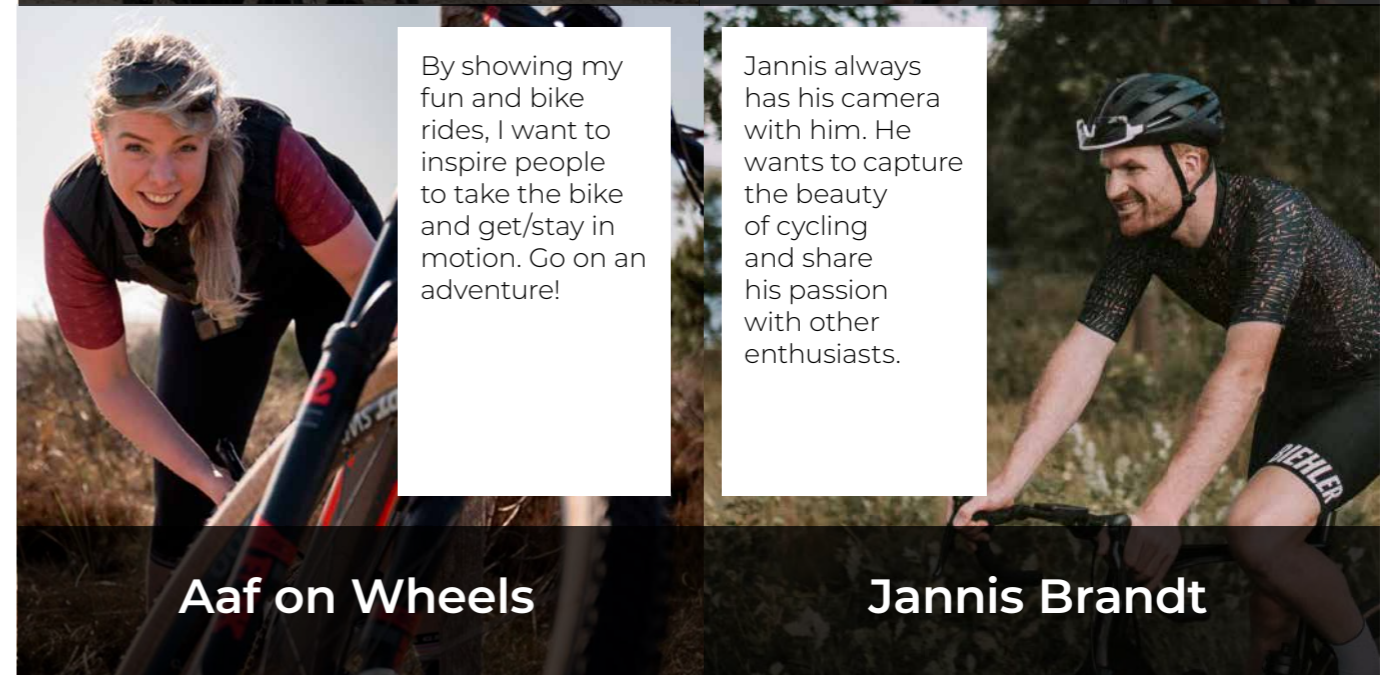

I am Femke and I live in the west of the Netherlands, where the Dutch Mountains, or wind, is my main training buddy!

Born and raised in Malaga, Spain, my daily routine was around basketball. When I became curious about being creative, I started playing the drums and studied Music at the University.

Femke vs. the wind

Alberto Viciano

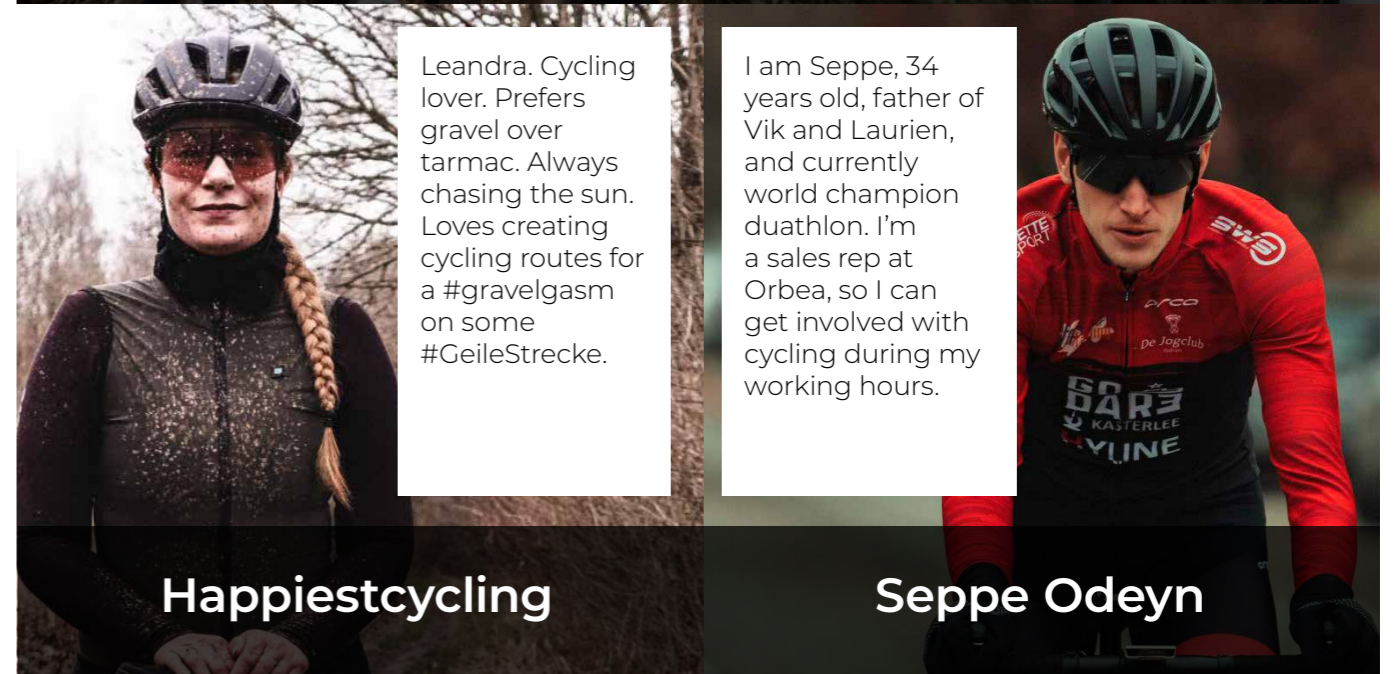

By showing my fun and bike rides, I want to inspire people to take the bike and get/stay in motion. Go on an adventure!

Jannis always has his camera with him. He wants to capture the beauty of cycling and share his passion with other enthusiasts.

Aaf on Wheels

Jannis Brandt

Leandra. Cycling lover. Prefers gravel over tarmac. Always chasing the sun. Loves creating cycling routes for a #gravelgasm on some # GeileStrecke.

I am Seppe, 34 years old, father of Vik and Laurien, and currently world champion duathlon. I'm a sales rep at Orbea, so I can get involved with cycling during my working hours.

Happiestcycling

Seppe Odeyn

BBB Cycling

BBB Cycling is there for every cyclist. We are out there on each and every ride, bringing fun to cycling, and making sure cyclists are spending more time on their bikes together with their friends. Riding your bike is something special. It makes you feel carefree and lets you enjoy the moment. It's exactly this feeling that we treasure and want to elevate with our products. Products designed in the Netherlands and that received more than 100 product and innovation awards. Items that will surprise you with their price-quality level and the always present smart adjustment. With this kind of products we are serving the needs of cycling enthusiasts from all over the world and are proud to be 'Part of your Ride'.

Scan the QR code and discover our dealer app! Explore our extensive range of bicycle accessories on your mobile or desktop. Download the app now!
