Performance Light Boxer

188742

10000 White 15000 Black 15700 Grey Melange 21120 Eclipse

Performance Light Eco Baselayers are seamless, lightweight and are made from recycled yarns offering a reduced carbon footprint. They provide the highest breathability through integrated ventilation zones that rapidly wick moisture, keeping the skin feeling cool and dry during the sweatiest workouts. The seamless constructions offer perfect freedom of movement, and our integrated ODLO ZEROSCENT anti-odour technology neutralizes bad odour from the outset keeping the baselayer fresher for longer. The perfect year-round baselayer for any high intensity sporty activities.

Features

- Recycled yarns
- Ventilation zones

Benefits

- Organic Body Mapping
- Freedom of Movement
- Enhanced Moisture Management

Performance X-Light Boxer

188482

10000 White 15000 Black 21120 Eclipse 40453 Patina Green

This extra lightweight baselayer features ODLO's Ceramicool technology which actively reduces skin temperature by up to 1°C, keeping you cool and dry during any high-intensity sports in warm spring and summer temperatures. The new performance x-light baselayer is crafted from recycled yarns to reduce ecological footprint but retains the same technical yarn performance. Integrated ventilation zones offer the highest breathability and enhanced moisture management. The seamless constructions allow perfect freedom of movement, and integrated ODLO ZEROSCENT anti-odour technology neutralizes bad odour from the outset keeping the baselayer fresher for longer.

Performance Light Panty
188741

10000 White 15000 Black 21121 Afterparty

Performance Light Eco Baselayers are seamless, lightweight and are made from recycled yarns offering a reduced carbon footprint. They provide the highest breathability through integrated ventilation zones that rapidly wick moisture, keeping the skin feeling cool and dry during the sweatiest workouts. The seamless constructions offer perfect freedom of movement, and our integrated ODLO ZEROSCENT anti-odour technology neutralizes bad odour from the outset keeping the baselayer fresher for longer. The perfect year-round baselayer for any high intensity sporty activities.

Performance X-Light Brief
188491

This extra lightweight baselayer features ODLO's Ceramicool technology which actively reduces skin temperature by up to 1°C, keeping you cool and dry during any high-intensity sports in warm spring and summer temperatures. The new performance x-light baselayer is crafted from recycled yarns to reduce ecological footprint but retains the same technical yarn performance. Integrated ventilation zones offer the highest breathability and enhanced moisture management. The seamless constructions allow perfect freedom of movement, and integrated ODLO ZEROSCEN anti-odour technology neutralizes bad odour from the outset keeping the baselayer fresher for longer.

Ascent 3L Waterproof Jacket Hardshell
529922

Our new Ascent 3L waterproof jacket is the ultimate all-rounder. Lightweight, robust yet incredibly packable it has all the features you need for your outdoor adventures and is crafted from recycled Nylon. The 3L fully taped construction provides 20k waterproofing and 20k breathability. A fully adjustable hood protects you from the worst weather conditions whilst the adjustable hem and cuffs keep allow you to fine-tune the fit. Pit zips provide cooling and two water-resistant zippered hand pockets and two water resistant zippered external chest pockets ensure your essentials are also protected. A C0 water repellent finish offers the final protection to provide a water shedding finish.

Tous les produits

Certains produits

The Xalp pro waterproof jacket is made for trail runners looking for the perfect balance between protection, durability and performance. We have used a 2.5 layer 20/20 waterproof woven fabric for the areas requiring maximum protection. For the rear area where you need maximum breathability and stretch, while still being waterproof we've used our award winning dual dry 20/50 waterproof knit fabric. The jacket is fully seam sealed, has an adjustable hood with a stowage option, an adjustable elasticated hem and reflective details for low light visibility. The fit of this jacket is designed to be worn over a trail pack and to enable access during your run to water bottles, gels or other essentials stored in the front pack straps we have an engineered two zippered access points, which double up as extra ventilation zones. The only waterproof trail jacket you will need.

Zeroweight Engineered Chill-Tec Tank Crew Neck
315722

The design team at ODLO has engineered a mesh graphic into this lightweight recycled polyester melange fabric, not only creating a great-looking singlet, but also one that keeps you cool when the temperatures rise. The mesh graphic is very functional, ensuring a high level of breathability and allowing air currents to pass over the skin creating cooling by convection. The engineers of active layers have added bonded tapes along the side seams and hem with laser-cut ventilation. With a regular fit and reflective details, this is great looking, highly functional singlet built for runners looking for something special.

21121 Afterparty Keystyle

The Zeroweight print jacket is a stylish anorak silhouette made from a technical, lightweight, windresistant, water-repellent, recycled mini ripstop fabric. We've added reflective details for 360 degree low light visibility, fit adjustment and hood if you're looking for a little more protection. There is a zippered kangaroo style pocket for your run essentials, in which you can also pack the jacket for transportation. The Zeroweight jacket is designed for faster runs when you need lightweight protection from the elements and dont want to compromise on style or performance.

Zeroweight Chill-Tec T-Shirt Crew Neck L/S
315701

With our most breathable, lightweight, cooling fabric in the running collection the new zeroweight chill tec long sleeve tee is built for high performance. Our new chill tec fabric ensures maximum cooling by allowing air currents to pass over your skin reducing the build up of warmth and moisture, this combined with a regular fit ensures maximum warm weather running comfort. Add in reflective details and bonded side seams with extra laser cut ventilation to complete this high performance package.

Add in reflective details and bonded side seams with extra laser cut ventilation to complete this high performance package.

Zeroweight Engineered Chill-Tec Tank Crew Neck
315721

The design team at ODLO has engineered a mesh graphic into this lightweight recycled polyester melange fabric, not only creating a great-looking singlet, but also one that keeps you cool when the temperatures rise. The mesh graphic is very functional, ensuring a high level of breathability and allowing air currents to pass over the skin creating cooling by convection. The engineers of active layers have added bonded tapes along the side seams and hem with laser-cut ventilation. With a regular fit and reflective details, this is great looking, highly functional singlet built for runners looking for something special.

With 4 pockets to store whatever you need with an easy access to it. One stretch mesh pocket on the upper rear and 1 stretch mesh pocket on the side of right leg you. Additional two pockets on the side of the left leg, solid drop in pocket with zip pocket on the top give you enough storage space for your cycling essentials. We've used our new recycled fabrics and combined it with the new Oldo gold gender-specific padding for up to 6 hours in the saddle. There is an integrated silicon gripper on the lower leg to keep the shorts in place. No need to wear a traditional 3 pocket jersey with these bib tights just grab a tee shirt, stow your gear in the cargo bibs and enjoy your ride.

Explorer Short

This CERAMICCOOL running socks offer a bodymapped padding system for enhanced comfort and cushioning. Thicker and softer material on the heel and toe area helps reducing the impact of each step, protecting against blisters while the breathable mesh material and the Ceramicool yarns keep your feet cool and wick sweat away. Integrated and very functional Polypropylene yarn is resistant to absorbing moisture and therefore ensures a very fast drying pair of socks. The seamless toe construction gives the socks an optimal fit while the Integrated ODLO ZEROSCENT anti-odour technology controls and eliminates bad odour from its very beginning. Finally, the socks are made and crafted in EUROPE.

WINDPROOF

2 MID LAYER

INSULATES AND KEEPS YOU WARM

THERMOREGULATION

1 BASE LAYER

KEEPS YOU DRY, COOLS WHEN HOT, INSULATES WHEN COLD

MOISTURE
MANAGEMENT

The Art of Layering

It's what's inside. What you choose to wear, from your sports underwear through to the outer layer will directly impact your performance and well-being during your next sporty adventure on colder days.

The number one mistake consumers make is wearing too many layers. By loading up on clothing and sweating through the garments, you ultimately feel clammy and miserable. ODLO's latest innovation "**Advanced Microclimate Management**" addresses this and is the ultimate solution to physical comfort.

The right layering system offers, no matter what the conditions, an optimal micro climate that manages both body heat and moisture between the different layers, so that sport enthusiasts stay warm and dry all day long. Through their elaborate mix of functional materials and innovative technologies, ODLO's inner layers deliver a perfect balance of breathability, flexibility, insulation and warming properties. Perfect Microclimate Management, achieved through ODLO's advanced layers that complement each other, which will make you feel comfortable and perform better. Will you make the inside count on the outside?

SPORTS UNDERWEAR CONCEPT OVERVIEW

PERFORMANCE

ACTIVE SPINE LIGHT

ACTIVE SPINE WARM's little sister is a lightweight base-layer which helps you to perform at your best. A printed posture-control frame around the shoulders ensures that you straighten up naturally during your training. The improved posture allows you to enjoy better breathing and reduces any muscle fatigue, which will lend you more power for your performance.

BLACKCOMB

Stylish, tailored and multi-functional, the Blackcomb range, worn next to the skin, keeps you warm, protected and sweat free whether skiing or during whatever other activities you undertake in the great outdoors. Comfort across a wide range of body movements is fully assured through the use of seamless knitting technology, whilst a number of clever 'zones', which feature different properties, have been strategically incorporated into the design to optimise ventilation and provide superior moisture management.

PERFORMANCE WARM

PERFORMANCE WARM is the best performance sports underwear, bar none, and, as the name says, it is "made to perform". The Performance Warm line is also built using the Organic Bodymapping principle, which guarantees optimum temperature regulation and freedom of movement. The line features incomparable sweat wicking and quick-drying characteristics. This makes it the first choice for performance sports on cool days. The athletic design of the Performance Warm line perfectly reflects the Organic Bodymapping approach.

PERFORMANCE LIGHT

PERFORMANCE LIGHT, with its seamless construction and integrated bodymapped functional zones, provides maximum breathability and the best moisture wicking properties where it is needed. It is the right choice for fluctuating temperatures and demanding physical activities – a versatile range of performance sports underwear that can be worn all year round.

ACTIVE

ACTIVE EVERYDAY

Performance Underwear is becoming ever more important as many people like to use it for everyday wear and not just during physical activity. ODLO is responding to this trend with a year-round line: Active Everyday. With it, men are getting particular attention from ODLO in this new collection on the topic of support. In this underwear line that is versatile for both sport and everyday wear, ODLO is providing the "Happy Balls" concept. This underwear uses a special pouch technology that provides extra support and keeps everything fresh thanks to a cooling layer in the lower pouch area. The lady bottoms are invisible underneath your tights and make panty lines a thing of the past.

ACTIVE WARM

ODLO's ACTIVE WARM sports underwear range, also known as the Originals, has been a customer favourite for decades. ACTIVE WARM is ideal for all low- to medium-intensity sports and offers good insulation against the cold. Soft stitching and a fleecy brushed interior provide maximum comfort and a very soft handfeel. Its optimum moisture management and fast drying properties mean you stay pleasantly warm and dry, even when the weather turns colder.

ACTIVE WARM Originals

The Heritage range provides the same comfort as the Active Warm. It combines a super soft handfeel, optimal thermal insulation and fast drying properties with a touch of ODLO Heritage in terms of design.

ACTIVE X-WARM

ACTIVE X-WARM has been designed to provide excellent insulation, even when temperatures plummet. Soft insulation pads are integrated into the garments to ensure that particularly exposed, sensitive areas of the body are protected from the cold. Its excellent moisture management properties guarantee you stay warm and dry at all times.

ACTIVE LIGHT (F-DRY)

ODLO F-dry is an all-around quality sports baselayer which is suitable for a wide range of activities. It is characterised by outstanding moisture management and the highest wearing comfort. F-Dry will keep you dry and comfortable 365 days a year. The polypropylene on the inside of the fabric and the polyester on the outside create a push-pull effect. The polypropylene can't absorb any moisture and so pushes it to the outside, where it evaporates and creates a comfortable cooling sensation. The super soft fabric is equipped with a bio-based finish made from organic and recycled components.

NATURAL

NATURAL + KINSHIP WARM

NATURAL (+) KINSHIP WARM is a must for environmentally conscious sports enthusiasts that like to stay comfortably cosy. The unsurpassed comfort is attained by the super soft fabric quality with 50% extra fine

merino wool. This allows the fabric to hug your skin smoothly. The blend of performance and natural fibres has an odour-resistant function and regulates body temperature optimally - no matter if the day is cold or warm. NATURAL (+) KINSHIP WARM likewise boasts a highly sophisticated seamless jacquard weave construction. This means the design is not printed on the fabric, but is achieved through the seamless knit technology. The design of the NATURAL (+) KINSHIP line has been inspired by ODLO's Norwegian roots. ODLO has picked up a Scandinavian knit pattern and re-interpreted it to create a subtle, modern look.

NATURAL 100% MERINO WARM

ODLO 100% Merino is the 200g, all-year-round, quality material for nature lovers. It stands out thanks to its natural body temperature control and anti-odour properties. The super fine 17.5 Micron quality is currently the finest 100% Merino wool available on the market. These fine fibres adapt to the shape of the skin and create an ultimately soft and soothing sensation.

NATURAL + LIGHT

ODLO Natural + Light is a collection created from a mix of two natural materials, both plant and animal fibres. Firstly, our 100% guaranteed mulesing-free origin Merino Wool - at 17.5 Microns provides the garments with body temperature control and natural anti-odour properties. Secondly, we have incorporated Tencel into this collection, whose natural fibres come from the wood pulp of Eucalyptus. It is the most environmentally-friendly fibre originating from plants. The length of these fibres gives the material a soft and silky feel. A first layer that becomes a natural second skin.

REVELSTOKE PERFORMANCE WOOL

Traditional wool fabric is knit from single ply yarns in which wool fibers are drawn into fine strands and twisted together for strength. NuYarn eliminates the twist in the yarn. Fibers are placed around a core at a parallel orientation, and draw out into a super fine fiber with zero twist. NuYarn uses a nylon core for added strength, hidden inside the fine merino-wrapped fiber. This super fine fiber is then doubled up to create strong two-ply-yarns to be knitted into fabric. The resulting merino outperforms the world's best ringspun merino fabrics in almost every performance metric.

LABELS

PRODUCT CLASSIFICATION

GOOD

Fundamental piece that offers a solution to your most central needs.

BETTER

Pinnacle-inspired piece that shares key technologies and features with more details.

BEST

Pinnacle piece that combines innovation and knowhow made to inspire and lead the trend.

TEMPERATURE CONTROL SYSTEM (TCS)

X-LIGHT

X-LIGHT

Keeps the body cool and dry. Breathable, extremely lightweight sportswear for warm temperatures and intense activities. The x-light underwear is defined by high-moisture wicking and quick drying properties.

LIGHT

LIGHT

Light provides optimum comfort in all situations and in all weather conditions throughout the entire year. High elasticity and fast drying distinguish ODLO's light underwear.

WARM

WARM

Highly functional sportswear with excellent thermal insulation that keeps the body warm when it's cold outside. With the fabric's effective moisture wicking properties, the skin is kept dry and warm. Warm thermal quality is ideal for all winter activities.

X-WARM

X-WARM

Sports clothing for extreme cold: Extra-warm [X-Warm] inserts protect sensitive areas of the body at very cold temperatures. Good moisture wicking ensures additional comfort when wearing.

MEMBERSHIP

FAIR WEAR FOUNDATION

When ODLO joined the Fair Wear Foundation (FWF) in 2008 it was the first company specializing in functional clothing to become a member. The FWF is committed, as an independent non-profit organization, to the improvement of working conditions in the garment industry throughout the world. With the help of factory audits (social audits) and a complaint procedure, corporate audits (management system audits) of their members, and through extensive consultations with stakeholders in the manufacturing countries, the FWF verifies whether companies comply with the established code of conduct.

TESTED FOR HARMFUL SUBSTANCES

OEKO-TEX 100

ODLO's Functional Underwear bears the Oeko-Tex[®] label "Confidence in Textiles", which certifies textiles tested for harmful substances in accordance with the Oeko-Tex Standard 100. Our product meets the current human-ecological requirements: no carcinogenic ingredients, no formaldehyde, free of allergy-causing dyes, skin-friendly pH value.

PACKAGING

THE GREEN DOT

All of ODLO's underwear packaging is marked with the "Green Dot" and is, thus, completely recyclable.

DYNAMIC LAYERING SYSTEM

DYNAMIC LAYERING SYSTEM

The ODLO Dynamic Layering System ensures that regardless of weather conditions, the various layers work perfectly together to meet your needs and create a highly enhanced level of functionality and wearer comfort.

PACK ME!

PACK ME!

This product is made to take up very little space when transported.

REMOVABLE PADDING

REMOVABLE PADDING

Removable padding for perfect adaption of the bra to consumer's personal preferences.

REVERSIBLE

REVERSIBLE

This product is made to be worn in two ways.

SPRAY PROTECTION

SPRAY PROTECTION

Water repellent 3-layer material protects your lower back and your valuables from water and dirt.

50+ UV-PROTECTION

UVP

ODLO offers clothing with lasting protection that continues for the product's entire life cycle, without the aid of chemical treatments. The use of very dense fabric allows for effective protection against UV radiation.

WATCH COMPATIBLE

WATCH COMPATIBLE CUFF

Integrated cuff solution made for additional comfort while wearing a sport watch.

LABELS

ODLO TECHNOLOGIES

COOLING

CERAMICOOL

CERAMICOOL

CERAMICOOL is an active cooling technology, which cools your skin temperature by up to 1°C and facilitates optimal physical performance during your activity.

LINENCOOL

LINENCOOL

LINENCOOL offers better moisture management and cooling properties than other natural blends. The smooth and cozy touch keeps you comfortable while doing sports in hot weather conditions.

WARMING

CERAMIWARM

CERAMIWARM

CERAMIWARM is an active warming technology, which warms your skin by up to 3°C by using ambient heat and your own body's energy. It is characterized by high wearing comfort and ultimate lightness.

YAKWARM

YAKWARM

ODLO YAKWARM offers better moisture management and warming properties than other natural blends. Due to the high natural content, it also prevents the build up of unpleasant odours.

MOISTURE

F-DRY

F-DRY

ODLO F-DRY is the all-around quality Sports Underwear, suitable for a wide range of activities and characterized by outstanding moisture management and the highest wearing comfort. *F-DRY* will keep you dry and comfortable 365 days a year.

INSULATION

N-THERMIC

N-THERMIC

NATURAL - THERMIC utilizes natural insulation combined with lightweight fabrics for a perfect microclimate by leveraging the properties of the natural materials for perfect thermoregulation.

S-THERMIC

S-THERMIC

SYNTHETIC - THERMIC utilizes synthetic insulation combined with extremely breathable fabrics for a perfect microclimate by transporting excess heat and moisture to the outside.

I-THERMIC

I-THERMIC

A battery powered innovation utilizing an intelligent thermo technology that knows how and when to keep you warm, using thermal sensors and automated heat adjustment where the heating areas are fully integrated into the knitting construction.

COMPRESSION

ACTIVE SPINE

ACTIVE SPINE

The *ODLO* patented posture technology that provides spinal stability by aligning the shoulders, spine and torso. It combines advanced biomechanics and industry-leading knitting technology to deliver an active posture system inspired by the natural function of the human spine.

MUSCLE FORCE

MUSCLE FORCE

A unique compression with seam-free integrated functional zones delivers improved blood and oxygen circulation and reduces muscle vibration by 42%.

SUPPORT

HAPPY BALLS

A special pouch technology that provides extra support and keeps everything fresh thanks to a cooling layer in the lower pouch area.

PROTECTION

WINDSHIELD

PERFORMANCE WINDSHIELD SUW provides performance conscious athletes protection and comfort in intense headwind-facing sports.

LOGIC WINDPROOF

Effective protection against wind-chill. Depending on the wind speed, the perceived temperature can often be significantly lower than the measured external temperature. *LOGIC WINDPROOF* from ODLO reduces the effects of wind-chill. This material is extremely breathable, windproof and water repellent.

LOGIC WATERPROOF

Protects against rain, wind and weather. The innovative material technology in *LOGIC WATERPROOF* effectively protects the body like a third layer from external influences. The material is waterproof, windproof and breathable.

ODLO ZEROSCENT

Counteracts the unpleasant smell of sweat. The functional treatment effect, silver ions applied to the material, stops the multiplication of bacteria and effectively prevents unpleasant odors. The effect is completely skin-compatible, durable and offers optimal climate comfort.

CYCLING PADDINGS

PADDING: GOLD

This is our most sophisticated padding, which with extreme anatomical construction provides more riding comfort due to perfect body alignment to the pedalling movement, 3D light mesh ensures additional breathability and the Air Plus fabric guarantees you enjoyable rides due to the superb moisture management.

PADDING: SILVER

ODLO Silver padding is the best combination of comfort and stable support. Featuring increased ventilation, the silver padding boasts a high density and peerless moisture management, making it ideal for long-distance rides.

PADDING: BRONZE

ODLO Bronze padding provides an all-around support level for all kinds of athletes and activities, including road, city and Mountain biking.

ODLO SIZE TABLE

	XS	S	M	L	XL	XXL
F/B/E CUP AF	70	75	80	85	90	95

HOW TO MEASURE

For a perfect fit, a new band should be on the loosest hook and feel firm but comfortable.

Your breasts should be fully contained within your bra's cups, with no excess cleavage coming over the top.

Straps are at their perfect length when the breast feels supported in its natural position - usually half way between the shoulder and elbow.

OUR PATH TOWARD SUSTAINABILITY

Our goal is for all our materials to be **100% environmentally friendly** by 2030.

Learn more

In 2021, we processed **250 tonnes of recycled polyester**.

We've been awarded the **Fair Wear Foundation's Leader Status** for the 6th consecutive years

Our supply chain is **transparent and traceable**.

We've been producing our **Performance Warm Eco** and **Active Warm Eco** products from recycled polyester since 2021.

50% of our raw materials are sustainable (recycled or made from natural fibers).

We only use certified **mulesing-free wool** and we don't pluck downs from living animals.
