Spring / Summer 2025

NEXT LEVEL MERINO

# WELCOME TO THE SUPER.NATURAL SPRING/ SUMMER 2025 WORKBOOK!

**WILL YOU STAY IN YOUR BOX?  
OR ARE YOU READY FOR NEWS?  
THAT'S THE QUESTION!**

To aid in your decision-making process, we are thrilled to unveil some exciting additions to our Spring/Summer 2025 collection:

**EXPANSION OF CATEGORIES** We have broadened our offerings in running, fitness, yoga, hiking, and leisure wear to cater to your diverse lifestyle needs.

**INTRODUCING BIO SUPER.WOOL JERSEY** Building upon the success of bio super.wool, we are introducing bio super.wool jersey in our t-shirt segment for the first time. Get ready for white, great, opaque t-shirts that redefine comfort and style!

**MEET MERINO.UNIVERSAL** Your ultimate sports companion, adaptable to any environment – whether you are outdoors, traveling, training, or hitting the gym, merino.universal has got you covered.

**STAY COOL WITH AIR WOOL.MESH** Don't let sweat dampen your style. Our air.wool mesh technology ensures you stay cool and chic during even the most intense workouts.

**EXPANDED KIDS LINE** We are proud to announce the expansion of our kids' line, now offering a range of base layers, tee shirts, hoodies, sweatpants, and socks for the little adventurers in your life.

These are just a taste of the exciting innovations we have been working on. We invite you to explore each offering – you are sure to be pleasantly surprised by what you find.

As we embark on this new season together, we are filled with anticipation and excitement. Thank you for joining us on this journey – we couldn't do it without you!

## MAIN FABRICS

### SIERRA

140GSM LIGHTWEIGHT JERSEY / ADVANCED WOOL 140

*50% finest merino wool, 50% Performance Polyester*

For everyday wear in all weather conditions, the products from our 140 light-weight series are the perfect companions. Whether for strenuous activities or relaxation afterward, the innovative super.natural mixed fibers ensure fast drying and pleasantly cool comfort on warm days.

### TUNDRA

175GSM MIDWEIGHT JERSEY / ADVANCED WOOL 175

*50% finest merino wool, 50% Performance Polyester*

The innovative super.natural mixed fibers combine merino wool and polyester for a comfortable, light feeling on warmer days and warmth on cooler days. Our bottoms feature ELASTIC WOOL JERSEY 175, ensuring flexibility and comfort.

### ARCTIC

230GSM HEAVYWEIGHT JERSEY / ADVANCED WOOL 230

*50% finest merino wool, 50% Performance Polyester*

For cold weather, our ARCTIC series provides perfect insulation without sacrificing comfort. Our bottoms feature ELASTIC WOOL JERSEY 230, ensuring warmth and flexibility.

### WOOL SUPER.BRUSH

250GSM COZY FLEECE

*30% finest merino wool, 67% Performance Polyester, 3% Elastane*

Brushed inside for extra coziness, this functional and comfortable fabric is perfect for sweaters, hoodies, and pants, offering ultimate comfort and warmth.

### WOOL SUPER.STRETCH

220GSM PONTE ROMA

*50% finest merino wool, 50% Performance Polyester*

This stretchy and functional fabric is ideal for form-fitting pieces that require movement without losing shape, ensuring the best body climate and comfort.

---

### **BIO SUPER.WOOL JERSEY**

175GSM JERSEY

*50% finest merino wool, 50% biodegradable Polyester*

Functional, comfortable, and sustainable, this fabric is perfect for ecological, non-see-through tees and long sleeves.

---

### **BIO SUPER.WOOL**

248GSM PONTE ROMA

*50% finest merino wool, 50% biodegradable Polyester*

Sustainable and comfortable, this fabric is perfect for sweaters, hoodies, and pants, offering cozy ecological comfort and lifestyle.

---

### **FRESH WOOL MESH**

120GSM EYELET

*48% finest merino wool, 48% Performance Polyester, 3% Elastane, 1% Nylon*

Breathable and quick-drying, this fabric is used for high-performance shirts and breathable inserts.

---

### **AIR WOOL.MESH**

100GSM MESH

*56% finest merino wool (17.5μ), 39% polyamide, 5% lycra*

High-tech and fashionable, this breathable and stretchy fabric is used for high-performance underwear, shirts, and high-tech tights.

---

### **LIGHT TECHNO BI-ELASTIC**

SUPERLIGHT WOVEN FABRIC

*78% Nylon, 22% Elastane*

Next-level Windstopper fabric used as a windbreaker insert for tees, long sleeves, jackets, and shorts.

INTRODUCING OUR INNOVATIVE

# BIO SUPER.WOOL

super.natural  
Innovation

At super.natural, we are excited to unveil our latest breakthrough: the bio super.wool line. This innovative collection combines 50% finest mulesing-free merino wool with 50% biodegradable synthetic fiber, PrimaLoft® BIO™.

## THE BIO SUPER.WOOL DIFFERENCE

Our bio super.wool line isn't just about style – it's a commitment to sustainability and functionality. By harnessing the power of natural and biodegradable materials, we are setting new standards in eco-friendly fashion.

## WHY CHOOSE BIO SUPER.WOOL?

With reduced CO2 emissions throughout its lifecycle and full biodegradability, bio super.wool products minimize environmental impact at every stage. From production to disposal, this innovative textile fiber ensures a greener future for fashion.

INTRODUCING OUR

## JERSEY COLLECTION

This season, we are thrilled to introduce our bio super.wool jersey garments. Crafted with the same dedication to sustainability and performance, these jerseys offer the perfect blend of style, comfort, and eco-consciousness.

### LIGHTWEIGHT AND BREATHABLE

Experience the ultimate in comfort with our bio super.wool jerseys. Lightweight and breathable, they are perfect for all-day wear, whether you're hitting the gym or exploring the outdoors.

### NON-SHEER

Even in light colors, our bio super.wool jerseys maintain their integrity, ensuring you stay confident and comfortable in every situation.

**JOIN THE REVOLUTION** and start embracing a more sustainable future with our bio super.wool collection. Discover the perfect combination of style, performance, and eco-friendliness, and make a statement that's as good for the planet as it is for your wardrobe.

LEARN MORE:

# PRIMALOFT® BIO™ INSULATION

## OUR LATEST INNOVATION

Designed for nature – We are proud to introduce you to our innovation relating to 2nd layer and processing of sustainable fabrics.

One of our highlights is the use of PrimaLoft® Bio™, a synthetic fiber that meets both the high technical standard of our super.natural products as well as the progressive sustainability approach of being made from 100% recycled materials.

Products made with PrimaLoft® Bio™ Fibers have been specifically developed to return to materials found in nature, with the aim to reduce the environmental impact of microfibers and garments throughout their life.

**super.natural**

WOMEN

# BASE LAYER

Merino sheep possess a light, ultra-breathable coat that shields them from the scorching summer sun. As winter arrives, they naturally grow an extra layer of wool, enabling them to endure very cold temperatures. Inspired by nature's adaptability, super.natural offers a range of merino-mix base layers in various styles: short and long sleeves, pants, and different fabric weights – all crafted to regulate your body's temperature, regardless of weather conditions or climate zones.

## GRAMMAGES

### ■ SIERRA 140

The Sierra Nevada, characterized by gentle warmth and scorching heat, inspires our SIERRA 140 collection. Crafted from 140g lightweight fabric, these base layers are exceptionally breathable, odor-resistant, and moisture-resistant – ideal for all your outdoor adventures on warm summer days.

### ■ TUNDRA 175

Designed for both chilly winters and balmy summers, our TUNDRA 175 collection is a versatile companion year-round. Whether you're hiking, skiing, or simply enjoying the outdoors, the 175g midweight fiber ensures pleasantly light comfort in any environment.

### ■ ARCTIC 230

For harsh winter conditions with icy temperatures, our ARCTIC 230 collection offers unparalleled warmth and protection. Imagine braving -15-degree weather while feeling warm and cozy – our 230g heavyweight fiber delivers dependable insulation even in the most extreme cold.

MEN

## BASE LAYER

Merino sheep possess a light, ultra-breathable coat that shields them from the scorching summer sun. As winter arrives, they naturally grow an extra layer of wool, enabling them to endure very cold temperatures. Inspired by nature's adaptability, super.natural offers a range of merino-mix base layers in various styles: short and long sleeves, pants, and different fabric weights – all crafted to regulate your body's temperature, regardless of weather conditions or climate zones.

### GRAMMAGES

#### ■ SIERRA 140

The Sierra Nevada, characterized by gentle warmth and scorching heat, inspires our SIERRA 140 collection. Crafted from 140g lightweight fabric, these base layers are exceptionally breathable, odor-resistant, and moisture-resistant – ideal for all your outdoor adventures on warm summer days.

#### ■ TUNDRA 175

Designed for both chilly winters and balmy summers, our TUNDRA 175 collection is a versatile companion year-round. Whether you're hiking, skiing, or simply enjoying the outdoors, the 175g midweight fiber ensures pleasantly light comfort in any environment.

#### ■ ARCTIC 230

For harsh winter conditions with icy temperatures, our ARCTIC 230 collection offers unparalleled warmth and protection. Imagine braving -15-degree weather while feeling warm and cozy – our 230g heavyweight fiber delivers dependable insulation even in the most extreme cold.

## super.natural **PARTNERS**

45 years of experience and know how. You are in good hands, exploring the mountains with the hiking, mountain, skiing, bike- and canyoning-guides of the Bergschule Kleinwalsertal.

Tourist attraction, spectator magnet, talent factory for the sport stars of tomorrow. The Veltins Eis Arena is the meeting point for the absolute world elite of the ski sport.

The High Zürs Ski Guides is a team of professional, experienced ski and mountain guides with the highest level of qualification. They are the world leading brand in ski guiding.

## MERINO WOOL – A MARVEL OF NATURE

Merino sheep, originating from North Africa, are one of the oldest and most resilient breeds globally, renowned for their unique attributes. Well-suited to various climates, they endure both icy cold and intense heat with ease. Their natural fur texture enables them to handle temperature fluctuations of up to 40 degrees – a quality beneficial to humans as well. Merino wool provides a cooling effect in warmer temperatures and warmth on colder days.

Sourced mulesing-free and cruelty-free, the fine merino wool is obtained from living sheep, ensuring ecological sustainability as the sheep's fur naturally regrows. At super.natural, we prioritize ethical sourcing, obtaining our merino wool from African farms and partnering with the German worsted yarn manufacturer Südwolle. Südwolle, a leader in worsted fabrics, adheres to stringent eco-certifications such as Bluesign and Oeko-Tex standards.

**THE IDEA**

Founded in Switzerland in 2012, super.natural aims to harness the advantages of merino wool and synthetic fiber. Our brand ethos, #merinomadebetter, embodies the seamless integration of natural and synthetic fibers, offering maximum comfort and functionality. The blend of merino wool and synthetic fiber eliminates the drawbacks of each, resulting in the perfect fusion of both materials.

**THE PRODUCTS**

Our foundational BASE products, comprising 50% merino wool and 50% Polyester, underpin the super.natural brand. However, recognizing the versatility of this unique fiber blend, we have expanded beyond solely sportswear. Our timeless collection caters to everyday wear, providing an irresistible blend of comfort, style, and functionality for any wardrobe.

**CONVENTIONAL WOOL**

- itchy
- slow drying properties
- high-maintenance

**MERINO WOOL**

- soft wearing comfort
- breathable
- temperature and moisture regulating
- anti-odor
- natural UV protection
- fire resistant
- low-maintenance

## COMFY TO WEAR, EASY TO CARE.

Merino wool can absorb up to a third of its own weight in moisture, while polyester speeds up the removal of the moisture from the material. This combination offers you optimal comfort – with no trace of dampness.

The innovative combination of fibers can withstand a regular wash up to 40° C – no need for a separate wool wash. Our merino mix is incredible easy to care for.

The stabilising effect of the synthetic fibers means you can also put super.natural products in the dryer.

The fiber mix combines the natural elasticity of merino wool with the durability of polyester, enabling a uniquely stable shape and impressive longevity.

The tightly-knit connection between the materials creates an extremely soft surface that doesn't itch and offers incredible natural comfort.

The antibacterial effect of the enzyme keratin, which is a natural component of merino wool, prevents unpleasant odors from developing – even after profuse sweating or wearing the product multiple times.

Merino wool regulates temperature: it cools you down in hot temperatures and during increased activity, and warms you up in cold weather or when you take a break.

# STILL HAVE QUESTIONS?

You might find the answer you're looking for here:

## Do merino mix products start to smell more quickly than 100% merino?

Merino mix products can remove existing moisture from the material more quickly than 100% merino wool. To benefit from merino wool's antibacterial effect, you only need a proportion of 30% wool. The rapid moisture transportation of our fiber mix removes bacteria from what would be a fertile breeding ground, meaning unpleasant smells develop much more slowly. You won't have to worry about odors even after sweat-inducing activities or wearing the items multiple times.

---

## What is mulesing? Is this procedure also a problem with super.natural products?

Mulesing, an unpleasant procedure to prevent flystrike in merino sheep, predominantly occurs in Australia. It involves the removal of strips of skin from around the hind legs and buttocks of the sheep – an incredibly painful process and a very controversial topic in sheep farming. To counteract the issue of mulesing, the wool used in super.natural products comes exclusively from African farms. As the flies are not present in this region, mulesing is not necessary.

## How do I look after super.natural products properly?

super.natural products can simply be put in the washing machine at 40° C, and can even be tumble dried. Unlike 100% merino wool products, they can be cared for just like your usual clothes without the risk of shrinkage or of holes appearing. However, to best protect the odor-blocking enzymes in the merino fibers, it is recommended to use a wool detergent.

---

## Why don't super.natural products itch?

The quality of wool is measured using its fiber strength. That means that the thinner the fibers, the softer it feels, and the higher the quality. super.natural uses merino wool with a measurement of 17 microns, which puts the wool in the 'fine' quality class. As a comparison, conventional sheep's wool measures at 30-50 microns.
