DEALER BOOK 2025

Dear reader,

In this dealerbook we proudly present our collection for model year 2025. It showcases our newest innovations, improved designs, and trusted favorites. Customer feedback, insights from cyclists and developments in the cycling world have led to several strong new items for 2025.

The highlight of our new collection is the Valor Flux. Our product team has dedicated countless hours designing these cutting-edge sport glasses to perfection. The result? A modern look with optimal vision and comfort. A stylish new frame, equipped with a high-end lens, the Flux. This lens also features in other models. We hope you are as excited as we are to showcase them to the public.

We also want to emphasize our continued commitment to sustainability. The steps we've taken in recent years in terms of material choice and design have led to a solid selection of sustainable options, both within existing and new products. Seeing this reflected in this book motivates us to accelerate even further in this area, together with our suppliers - and with you.

We hope you enjoy this dealer book. If you have feedback, questions or comments, please reach out to us through your usual contact or at info@bbbicycling.com.

Best regards,
The BBB Cycling team

**We are
BBB Cycling**

‘Part of your ride’ for over 25 years

As we are cyclists ourselves, we know what it’s like to ride your bike to work through all kinds of weather, improve that personal best or ride further than you ever did. At these moments you have to be able to rely on your gear and they just have to work.

With a down-to-earth Dutch mentality, we design products that make every ride more fun, safer, or faster. Our parts, clothing, accessories, and tools serve all types of cyclists around the world. Smart details and stuff that works in the real world, that is what fuels our satisfaction.

Since our founding in 1998, we’ve grown into a brand with over 1500 unique products sold in more than 40 different countries worldwide. Our team of designers and product developers at our headquarters in The Netherlands continuously work on new product ideas and improving existing products. New products often start with an idea from a colleague, ambassador, dealer, or distributor. Feedback, openness, and creative thinking help us along the way.

Whether it’s climbing, gravel riding, racing, touring, mountainbiking or bike travel, we are there. Sometimes in plain sight, sometimes more in the background. As an indispensable part of every ride. For over 25 years we are ‘Part of your ride’. And we are proud of that!

LET'S

MAKE

IT

SMARTER

Smart choices for a sustainable future

At BBB Cycling, we are committed to a sustainable future. We believe in the benefit of the bike, for your health and for your planet. That's why we design and develop products that support all types of cyclists in a sustainable way. Products that are accessible, smart and made to last, with the least amount of impact. Not just once, but every day, because it is part of who we are and how we work.

Sustainable design

We literally make thousands of products. Different products have to meet different needs, like safety, durability, wear or weather resistance. So each product is composed of different materials and this means there is not one solution to regreen all our products in one go. For every single product we research, rethink and redesign to find the best sustainable solution. For some products, this aspect may be the material used or the reparability of the product. For others, we may opt for a long lifespan or reduce the size of the packaging. This reduces the demand for new raw materials.

Material choice and packaging

With smart material choices, we can make a difference. We strive for products that are as sustainable as possible, without compromising on quality. Examples of this include using recycled materials in a growing part of our fenders, gloves, jerseys and socks, using bio-based materials in the frames of our glasses and in our latest helmet,

and PFAS-free water repellent coatings. To minimize the use of raw materials, we carefully consider our packaging. By redesigning them, we ensure efficient material usage and transportation. We replace plastic with recycled plastic and eliminate it wherever possible. We are working towards extending this across our entire range.

CO2 neutral operation

BBB Cycling operates carbon neutral since 2018. We register our CO2 footprint and compensate for it by investing in projects that remove CO2 from the air, such as planting trees or restoring landscapes. We do this with our partner Commonland. But being CO2 neutral by offsetting is not enough. We thoroughly examine emissions and practices throughout the supply chain. We do this together with colleagues, customers, manufacturers, and logistics partners who share the same mindset as we do. We aim to further reduce our CO2 emissions, without compromising on quality, safety, or accessibility.

We're in this together

In addition to the work we do ourselves to become more sustainable, we also collaborate with organizations that care as much about people and the environment as we do. That's why we join forces with BEAT Cycling Club, who strive to become the most sustainable cycling team in the world. We support Team AMANI, a team fighting for diversity and equality in the cycling world. On our journey towards a sustainable future, we believe it's important to be open and transparent. Your feedback is therefore more than welcome. If you have any comments or questions that can help us make the world a better place, please don't hesitate to contact us.

Backyard Crew

The Backyard Crew of BBB Cycling consists of a good mix of pros, adventurers, explorers, survivors, fanatics, and life lovers on a bike. These people want nothing more than to cover as many kilometers as possible. They enjoy pleasant group rides, but do not shy away from the challenge of pushing themselves to the limit. Whether riding on smooth asphalt, gravel, or through forests, these enthusiasts know how to inspire others with their passion and encourage them to ride more often. We support these ambassadors by providing them with the best products, whatever their starting point might be.

We are proud that World Tour teams like Visma | Lease a Bike, continental teams like BEAT Cycling Club, and the international Team AMANI extensively use and test our products. Their feedback is invaluable in improving and developing our products. Our products are tested not only on the road but also on gravel and sand at the highest level. This allows us to confidently say that our products are made to last, in all conditions.

NEW!

VALOR FLUX | BSG-81

Pro-quality performance within innovative design

Cycling glasses with our new FLUX lenses which deliver pro-level contrast, clarity, and color enhancement. A lightweight frame constructed from sustainable bio-based materials for a comfortable fit.

The lightweight frame is made of sustainable Bio based material.

The lens with oleophobic coating on the outside and anti-fog coating on the inside offers clear vision in all circumstances.

VALOR FLUX | BSG-81

Pro-quality cycling glasses with a large cylindrical FLUX-lens

- » The FLUX lenses offer world class contrast, clarity, color enhancement and long time wearing comfort
- » The lightweight frame is made of sustainable bio-based material
- » The Anti-fog coating on the inside of the lens keeps your lens clear in all circumstances
- » The Oleophobic coating on the outside repels water and mud from the lens
- » Transparent spare lens(cat. 0) included for cloudy days

Adjustable nose piece	Yes
Material frame	Rilsan Bio-Based
Lens type	High contrast
Lens category	0, 3
Lens coating	Anti-fog, Oleophobic
Included spare lenses	Clear
Color name	matt grey, black, matt black, matt transparent green

NEW

**VALOR PH | BSG-81PH**

Pro-quality photochromic cycling glasses for any conditions

- » Photochromic lenses with a light transmission of 63-16% (Cat.1-3)
- » Great combination of function and looks with a photochromic lens with gold MLC coating
- » The lightweight frame is made of sustainable bio-based material
- » The Anti-fog coating on the inside of the lens keeps your lens clear in all circumstances
- » The Oleophobic coating on the outside repels water and mud from the lens

Adjustable nose piece	Yes
Material frame	Rilsan Bio-Based
Lens type	High contrast
Lens category	1, 2, 3
Lens coating	Anti-fog, Oleophobic
Included spare lenses	Clear
Color name	glossy black

NEW

FULLVIEW HC | BSG-70

FULL GAS, FULL FOCUS, FULL VIEW

- » With the High Contrast (HC) lens you will see the world as never before
- » Large size Toric Multi Layer Coating (MLC) lens for an uncompromised field of vision
- » The anti-scratch, anti-fog, and oleophobic layer give you a clear view on the road
- » Frame made of Rilsan, a sustainable bio-based and virtually unbreakable material that consists for 45% of Castor beans
- » Rubber temple tips and adjustable rubber nose piece for good grip on the head

Adjustable nose piece	Yes
Material frame	Rilsan Bio-Based
Lens type	MLC (MultiLayer Coating), High contrast
Lens category	0, 1, 3
Lens coating	Oleophobic
Included spare lenses	Clear, Yellow
Color name	matt black/red MLC, matt black/silver mirror, matt white/blue MLC, transparent/silver mirror

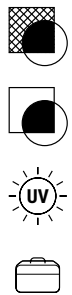

FULLVIEW PH | BSG-70PH

FULL GAS, FULL FOCUS, FULL VIEW

- » Photochromic lenses with a light transmission of 63-16% (Cat.1-3)
- » Large size Toric Multi Layer Coating (MLC) lens for an uncompromised field of vision
- » The anti-scratch, anti-fog, and oleophobic layer give you a clear view on the road
- » Frame made of Rilsan, a sustainable bio-based and virtually unbreakable material that consists for 45% of Castor beans
- » Rubber temple tips and adjustable rubber nose piece for good grip on the head

Adjustable nose piece	Yes
Material frame	Rilsan Bio-Based
Lens type	MLC (MultiLayer Coating), Photochromic (PH)
Lens category	1, 2, 3
Lens coating	Anti-fog, Oleophobic
Color name	matt black/gold MLC

FUSE | BSG-65

Cycling glasses with smart technology and a futuristic design.

- » Semi-flat and centered (Toric) lens that doesn't deform your vision while the lens has a big and modern look
- » Rubber nose piece with infinite adjustment options for an ideal fit
- » With strategically placed air vents to prevent the lens from fogging up
- » Frame made of Rilsan, a sustainable bio-based and virtually unbreakable material that consists for 45% of Castor beans
- » Comes with three lenses; smoke/mlc, yellow and clear (cat. 3/1/0)

Adjustable nose piece	Yes
Material frame	Rilsan Bio-Based
Lens type	MLC (MultiLayer Coating), Smoke
Lens category	0, 1, 3
Included spare lenses	Clear, Yellow
Color name	matt black/flash mirror, matt white/orange MLC, matt black/gold MLC, transparent grey/silver MLC, matt white/flash mirror

**FUSE PH | BSG-65PH**

Cycling glasses with smart technology and a futuristic design.

- » Semi-flat and centered (Toric) lens that doesn't deform your vision while the lens has a big and modern look
- » Rubber nose piece with infinite adjustment options for an ideal fit
- » With strategically placed air vents to prevent the lens from fogging up
- » Frame made of Rilsan, a sustainable bio-based and virtually unbreakable material that consists for 45% of Castor beans
- » With a choice of two variants of photochromic lenses, an '4 seasons' or 'summer' PH

Adjustable nose piece	Yes
Material frame	Rilsan Bio-Based
Lens type	Photochromic (PH)
Lens category	0, 1, 2, 3
Lens coating	Anti-fog
Color name	matt black, matt black/blue MLC, matt black/red MLC

CHESTER FLUX | BSG-74

The security and stability of full frame glasses with the high contrast of our FLUX-lens

- » The Anti-fog coating on the inside of the lens keeps your lens clear in all circumstances
- » The Oleophobic coating on the outside of the lens keeps your lens clear of water and mud.
- » Sustainable choice due to its Bio based frame
- » Different FLUX lenses available

Adjustable nose piece	Yes
Material frame	Rilsan Bio-Based
Lens type	High contrast
Lens category	3
Lens coating	Anti-fog, Oleophobic
Included spare lenses	Clear
Color name	black, glossy black

CHESTER | BSG-69

The security and stability of full frame glasses with the fast looks of a frameless one!

- » "Hidden" full frame design with large size Toric lens
- » With MLC coating for an even coloured lens
- » Frame made of Rilsan, a sustainable bio-based and virtually unbreakable material that consists for 45% of Castor beans
- » Rubber temple tips for good grip on the head
- » Adjustable rubber nose piece

Adjustable nose piece	Yes
Material frame	Rilsan Bio-Based
Lens type	MLC (MultiLayer Coating)
Lens category	3
Color name	matt black/blue MLC, blue/silver MLC, neon yellow/fluor MLC, matt white/flash mirror, glossy black/flash mirror, matt black/orange-red MLC

CHESTER PH | BSG-69PH

The security and stability of full frame glasses with the fast looks of a frameless one!

- » Photochromic lenses with a light transmission of 82-17% (Cat.0-3) or 63-13% (Cat.1-3) for the PH MLC Gold.
- » "Hidden" full frame design with large size Toric lens
- » Frame made of Rilsan, a sustainable bio-based and virtually unbreakable material that consists for 45% of Castor beans
- » Rubber temple tips and adjustable rubber nose piece for good grip on the head
- » Also available in version with color coating (PH MLC)

Adjustable nose piece	Yes
Material frame	Rilsan Bio-Based
Lens type	MLC (MultiLayer Coating), Photochromic (PH)
Lens category	0, 1, 2, 3
Color name	matt black/gold MLC, glossy black

**CHESTER NARROW | BSG-73**

The same look and feel as the regular Chester but with smaller fit.

- » Chester with reduced width and height for the smaller faces
- » "Hidden" full frame design with large size Toric lens
- » With adjustable nose piece and rubber temples for a perfect fit.
- » Biobased frame made from Castor beans
- » With a full MLC coating for an even coloured lens

Adjustable nose piece	Yes
Material frame	Rilsan Bio-Based
Lens type	Smoke, MLC (MultiLayer Coating)
Lens category	3
Color name	black, matt white, matt almond

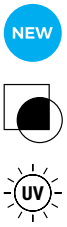

CHESTER NARROW PH | BSG-73PH

The same look and feel as the regular Chester PH but with smaller fit.

- » Chester with reduced width and height for the smaller faces
- » Photochromic lenses with a light transmission of 85-17%. (Cat.0-3)
- » With adjustable rubber nose piece for a perfect fit
- » Biobased frame made from Castor beans

Adjustable nose piece	Yes
Material frame	Rilsan Bio-Based
Lens type	Photochromic (PH)
Lens category	0, 1, 2, 3
Color name	glossy black

IMPULSE | BSG-62

Sports glasses with special magnetic lens changing system

- » Interchangeable polycarbonate lenses
- » Soft touch temple tips for a firm fit and comfortable wear
- » Comes with three lenses; smoke/mlc, yellow and transparent (cat. 3/1/0)
- » Block system prevents the spectacle arms from damaging the lens while folded inwards.
- » Frame made of Rilsan, a sustainable bio-based and virtually unbreakable material that consists for 45% of Castor beans

Adjustable nose piece	Yes
Material frame	Rilsan Bio-Based
Lens type	MLC (MultiLayer Coating), Smoke
Lens category	0, 1, 3
Included spare lenses	Clear, Yellow
Color name	glossy black/silver MLC, glossy white/silver MLC

IMPULSE PH | BSG-62PH

Sports glasses with special magnetic lens changing system

- » Photochromic lenses with a light transmission of 85-17% (Cat.0-3)
- » Soft touch temple tips for a firm fit and comfortable wear
- » A "Quick-snap" system to easily change the lenses
- » Block system prevents the spectacle arms from damaging the lens while folded inwards.
- » Frame made of Rilsan, a sustainable bio-based and virtually unbreakable material that consists for 45% of Castor beans

Adjustable nose piece	Yes
Material frame	Rilsan Bio-Based
Lens type	Photochromic (PH)
Lens category	0, 1, 2, 3
Lens coating	Anti-fog
Color name	glossy metallic black

**COMET | BSG-75**

Quality sports glasses for a friendly price

- » Sustainable choice due to its Bio based frame
- » With adjustable rubber nose piece for a perfect fit
- » Soft touch temple tips for a firm fit and comfortable wear
- » The Block and Lock system in the temples prevents damaging the lens while folded inwards.
- » Transparent spare lens(cat. 0) included for cloudy days

Adjustable nose piece	Yes
Material frame	Bio-based
Lens type	Smoke, MLC (MultiLayer Coating)
Lens category	3
Included spare lenses	Clear
Color name	matt olive green, black, glossy black, matt transparent grey, matt white

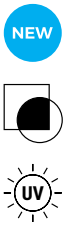

COMET PH | BSG-75PH

Quality photochromic sports glasses for a friendly price

- » Photochromic lenses with a light transmission of 82-17% (Cat.0-3)
- » Sustainable choice due to its Bio based frame
- » With adjustable rubber nose piece for a perfect fit
- » Soft touch temple tips for a firm fit and comfortable wear
- » The Block and Lock system in the temples prevents damaging the lens while folded inwards.

Adjustable nose piece	Yes
Material frame	Bio-based
Lens type	Photochromic (PH)
Lens category	0, 1, 2, 3
Color name	black

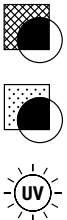

SPECTRE | BSG-66

Casual style sports glasses with sportive features

- » Rubber temple tips and nose piece for a comfortable and secure fit
- » Frame made of Rilsan, a sustainable bio-based and virtually unbreakable material that consists for 45% of Castor beans
- » Rubber temple tips and nose piece for a comfortable and secure fit

Adjustable nose piece	No
Material frame	Rilsan Bio-Based
Lens type	MLC (MultiLayer Coating), Smoke
Lens category	3
Color name	matt black/flash mirror, matt tortoise/silver MLC, matt black/gold MLC

**SPECTRE PH | BSG-66PH**

Casual style sports glasses with sportive features

- » Photochromic lenses with a light transmission of 85-17% (cat. 0-3)
- » Frame made of Rilsan, a sustainable bio-based and virtually unbreakable material that consists for 45% of Castor beans
- » Rubber temple tips and nose piece for a comfortable and secure fit
- » Frame made of high-end unbreakable Grilamid

Adjustable nose piece	No
Material frame	Rilsan Bio-Based
Lens category	0, 1, 2, 3
Color name	matt black

**TOWN R | BSG-56RE**

Sportive casual sunglasses with recycled polycarbonate frame

- » This frame is made of recycled material which comes from used and collected glasses
- » Polarized lenses reduce glare on surfaces like flat roads

Adjustable nose piece	No
Material frame	Recycled Polycarbonate (PC)
Lens type	MLC (MultiLayer Coating), Polarized
Lens category	3
Color name	black

KIDS | BSG-54

Sunglasses specially designed for children

» Durable frame with one piece polycarbonate lens

Adjustable nose piece	No
Material frame	Polycarbonate (PC)
Lens type	Smoke
Lens category	3
Color name	glossy black/smoke, glossy red/smoke, glossy white/smoke

IMPULSE READER PH | BSG-64PH

For cyclists who want to read with focus and ride in style.

- » Lenses with reading area for people with far-sighted vision
- » Available in +1.5, +2.0, +2.5
- » Photochromic lenses with a light transmission of 85-17%. (Cat.0-3)
- » Sports glasses with special magnetic lens changing system
- » Soft touch temple tips for a firm fit and comfortable wear

Adjustable nose piece	Yes
Material frame	Rilsan Bio-Based
Lens type	Photochromic (PH)
Color name	matt black

SPECTRE READER PH | BSG-67PH

Casual style sports glasses with sportive features

- » Available in +1.5, +2.0, +2.5
- » Photochromic lenses with a light transmission of 85-17%. (Cat.0-3)
- » Casual style sports glasses with sportive features
- » Rubber temple tips for a comfortable and secure fit
- » Rubber nosepiece for a comfortable fit

Adjustable nose piece	No
Material frame	Grilamid
Lens type	Photochromic (PH)
Lens category	0, 1, 2, 3
Color name	matt anthracite

**COMET READER | BSG-76**

Bi-focal cycling glasses for far-sighted cyclists.

- » Lenses with reading area for people with far-sighted vision
- » Sustainable choice due to its Bio based frame
- » With transparent spare lens (cat. 0) for cloudy days
- » With adjustable rubber nose piece for a perfect fit
- » Available in +1.5, +2.0, +2.5

Adjustable nose piece	Yes
Material frame	Bio-based
Lens type	Smoke, MLC (MultiLayer Coating)
Lens category	0, 3
Included spare lenses	Clear
Color name	black

**COMET READER PH | BSG-76PH**

Bi-focal and photochromic cycling glasses for far-sighted cyclists.

- » Lenses with reading area for people with far-sighted vision
- » Sustainable choice due to its Bio based frame
- » One lens provides you with category 0 to 3 of eye protection
- » With adjustable rubber nose piece for a perfect fit
- » Available in +1.5, +2.0, +2.5

Adjustable nose piece	Yes
Material frame	Bio-based
Lens type	Photochromic (PH)
Lens category	0, 1, 2, 3
Color name	black

**IMPULSE OPTIC | BSG-71**

Sports glasses for cyclists who need prescription lenses

- » With insert frame for prescription lenses, suited for lenses with a dioptré from -6 to +6
- » Comes with three interchangeable lenses; smoke/mlc, yellow and clear (cat. 3/1/0)
- » Soft touch temple tips and adjustable nose piece for a firm fit and comfortable wear
- » Outer lenses are easy to switch by the magnetic lens exchange system
- » Frame made of Rilsan, a sustainable bio-based and virtually unbreakable material that consists for 45% of Castor beans

Adjustable nose piece	Yes
Material frame	Rilsan Bio-Based
Lens type	Smoke
Lens category	0, 1, 3
Included spare lenses	Clear, Yellow
Color name	matt black/flash mirror

IMPULSE OPTIC PH | BSG-71PH

Sports glasses for cyclists who need prescription lenses

- » With insert frame for prescription lenses, suited for lenses with a dioptre from -6 to +6
- » Photochromic lenses with a light transmission of 85-17% (cat. 0-3)
- » Soft touch temple tips and adjustable nose piece for a firm fit and comfortable wear
- » Outer lenses are easy to switch by the magnetic lens exchange system
- » Frame made of Rilsan, a sustainable bio-based and virtually unbreakable material that consists for 45% of Castor beans

Adjustable nose piece	Yes
Material frame	Rilsan Bio-Based
Lens type	Photochromic (PH)
Lens category	0, 1, 2, 3
Lens coating	Anti-fog
Color name	matt black

OPTIC SET | BSG-72

Complete set of an optic lens frame and a nosepiece

- » With insert frame for prescription lenses, suited for lenses with a dioptre from -6 to +6
- » Nosepiece with 4mm extra offset
- » Fits into several of our sports glasses frames: BSG-61/62/64/69/71

Adjustable nose piece	No
Color name	transparent

NOFOG 100ML | BSG-100

100% plant based lens cleaner with anti-fog properties

- » Comes as a spray can with pump
- » 100% biodegradable within 28 days
- » Produced in a 100% CO2 neutral facility
- » 100% recycled PET packaging
- » 100% free of microplastics

Adjustable nose piece	No
Volume (ml)	100
Color name	transparent

FEATURES SPORT GLASSES

Lenses with 100% UV protection.

Sport glasses with interchangeable lenses. Yellow and Clear lenses included.

Sport glasses with interchangeable lenses. Clear lenses included.

Special Hydrofobic coating. In rain, the water will slide of the lenses while riding.

Including carrying case.

PH LENSES – PHOTOCROMIC
Automatically adapt to changing light conditions. They turn dark when it's bright and become virtually clear in low light conditions. Especially the range of light transmittance is unique. BBB's lenses can adapt from allowing 85% - 17% of the available light to pass through.

PC LENSES
All our lenses are made of high quality polycarbonate material irrespective of its finish. A very strong material that due to its properties offers a lot off safety because it high resistance to fracturing from for example stone-chips from the road.

PZ LENSES – POLARIZED
The ideal choice on bright sunny days. Polarized lenses provide a clear view while effectively eliminating glare. PZ lenses allow only direct light to pass through, resulting in a more relaxed and improved view. This prevents distractions from reflection from flat roads, tree leaves or water.

MULTI LAYER COATING (MLC)
A 9-layer coating give MLC lenses their renowned brightness and contrast for the sharpest view under any circumstances. Also the MLC coating lends itself very well in circumstances to reduce glare from road surfaces or snow.

RILSAN® CLEAR G850 RNEW®
The frame of almost all our glasses will be made of RILSAN® Clear G850 Rnew® from 2024. This sustainable material uses 45% biobased raw materials derived from the castor plant. Using this material helps us reduce the carbon footprint of this product, while maintaining the high performance properties you are used to.

NEW!**DICE** | BHE-180

Helmet with the lowest possible carbon footprint

Dice is an eco-friendly cycling helmet designed for your urban adventures with sustainability in mind. Crafted from recycled EPS, ABS, PET bottles, and bamboo fiber which can be completely dismantled and recycled.

Each part and material can be completely dismantled and recycled at the end of the helmets product life.

Putting the helmet On or Off is a piece of cake with the magnetic Fidlock buckle.

MAESTRO MIPS | BHE-10

The helmet for winners! Choose the Maestro when you go for extra safety at every fall angle due to MIPS and optimal ventilation during all your rides.

- » With MIPS layer for extra safety
- » Large vents optimize air flow and ventilation on all rides
- » The HaloGuard construction gives strength and safety
- » A very aerodynamic helmet due to its compact profile
- » The Omega fit system is integrated with the MIPS layer for optimal safety and comfort

Air vents	17
Internal structure	HaloGuard
Shell construction	InMold (multi-shell)
Retention system	Omega
Dividers	Sliding system
MIPS	B1
Complies with	EN-1078
Weight (g)	235, 345, 355
Sizes	S, M, L
Color name	matt black, matt white, neon yellow, matt olive green

MAESTRO | BHE-09

The helmet for winners! When you go for safety and optimal ventilation during all your rides.

- » Helmet with the perfect balance between aerodynamics and ventilation
- » HaloGuard inner cage for optimal ventilation and safety
- » Omega Fit System, adjust height and circumference easily for maximum comfort
- » Lightweight multi angle strap dividers
- » Lightweight adjustable straps for a perfect and comfortable fit

Air vents	17
Internal structure	HaloGuard
Shell construction	InMold (multi-shell)
Retention system	Omega
Dividers	Sliding system
Complies with	EN-1078
Weight (g)	295, 305, 315
Sizes	S, M, L
Color name	glossy black, glossy white, matt black, matt grey

HAWK MIPS | BHE-153*Lightweight helmet due to its compact design*

- » With 21 air vents for great ventilation
- » With MIPS layer for extra safety
- » SpiderWeb inner reinforcement structure for extra safety
- » The fit system can easily be adjusted with one hand
- » Reflective elements on the rear provide extra visibility on the road

Air vents	21
Internal structure	Spiderweb
Shell construction	InMold (single shell)
Retention system	Omega
Dividers	Sliding system
MIPS	C2
Complies with	EN-1078
Weight (g)	295, 320
Sizes	M, L
Color name	matt black, matt white, matt blue

**HAWK | BHE-151***Road helmet with 21 air vents for great ventilation*

- » Lightweight helmet due to its compact design
- » SpiderWeb inner reinforcement structure for extra safety
- » The fit system can easily be adjusted with one hand
- » Reflective elements on the rear provide extra visibility

Air vents	21
Internal structure	Spiderweb
Shell construction	InMold (single shell)
Retention system	Omega
Dividers	Sliding system
Complies with	EN-1078
Weight (g)	265, 290
Sizes	M, L
Color name	matt black, matt olive green, glossy white

DUNE MIPS 2.0 | BHE-22B

Versatile helmet with MIPS technology for extra protection

- » With removable rear light bracket for the BLS-147 Spot or BLS-236 Slide.
- » With removable visor
- » Lowered rear and temple provide extra protection
- » The 14 vents provide great ventilation
- » The fit system can easily be adjusted with one hand

Air vents	14
Shell construction	InMold (single shell)
Dividers	Sliding system
MIPS	C2
Complies with	AS/NZL-2063, CPSC, EN-1078
Weight (g)	270, 320, 350
Sizes	S, M, L
Color name	matt grey/white, matt black, neon yellow

KITE 2.0 | BHE-29B

Allround road and mountain bike helmet with removable visor

- » Lowered rear and temple provide extra protection
- » With removable rear light bracket for our Spot(BLS-147) or Slide(BLS-236) rear light

Complies with	EN-1078
Weight (g)	354
Sizes	M
Color name	matt black

HELMETSHIELD | BHE-76*Universal silicon helmet cover*

- » Protects your head against rain, cold and wind
- » Fits on almost any helmet

Sizes	Universal
Color name	black

FEATURES HELMETS

When you are cycling intensively, you produce a lot of heat. Overheating your body will reduce your performance. Because of the large surface of your head, up to 40% of the bodies heat can be dissipated by your head. Wearing a helmet reduces the ability for the body to accommodate that. That's why we have invented the Airflow Cooling System (ACS) helmet. Due to the special design of the shape of the foam and padding, the air is drawn in and channelled to pass around and over your head. This guarantees optimum balance between safety and wearer comfort.

Anti insect net inside the helmet.

Reflective accents.

Lenses with 100% UV protection.

Complies with NTA-8776 the Dutch Speed Pedelec helmet standard.

Washable pads. Replacement pads are available for all helmets.

NEW!

COMFORTBRIEF | BUW-66

Invisible comfort for every ride

Cycling underwear with nearly seamless design and female-specific padding for ultimate comfort. Made from quick-drying, stretchable, ultra-thin fabric, it's barely noticeable and perfect under everyday attire. Experience unparalleled comfort on every ride.

The almost seamless design provides comfort during your ride.

Thanks to the quick-drying, stretchy, and ultra-thin fabric, you barely notice it's there.

Increased comfort is provided by the padding specifically designed for women.

Color name	black

**FULLHEAD | BBW-100**

Balaclava for cyclists made of Thermo material

- » Flat lock stitched seams for maximum comfort
- » One size fits all

Composition	94% polyester, 6% elasthane
Windproof	No
Thermo	Yes
Sizes	Universal
Color name	black

**THERMAL HEADBAND | BBW-300**

Underhelmet headband made of Thermo fabric

- » Longer back end with small insert for ponytail
- » Flat lock stitched seams for maximum comfort
- » Longer back end with small insert for ponytail
- » One size fits all

Composition	94% polyester, 6% elasthane
Windproof	No
Thermo	Yes
Sizes	Universal
Color name	black

FIRNECK | BBW-492

Sportive scarf with FIR technology to keep your neck warm during your rides

- » Far Infrared basically reflects your own body heat to keep you warm
- » Great moisture wicking and fast drying fabric to give you a comfortable feeling
- » Comfortable to wear thanks to the seamless construction

Composition	34% FIR polyester, 6% elastane, 60% polyamide
Windproof	No
Thermo	Yes
Sizes	Universal
Color name	black/red

COMFORTNECK | BBW-297

Multifunctional neck warmer for during the colder rides

- » The ComfortNeck can be worn in several different ways
- » Fast drying fabric
- » Seamless construction
- » One size fits all

Composition	100% polyester
Windproof	No
Thermo	No
Sizes	Universal
Color name	black/grey

COMFORTCAP | BBW-293

Underhelmet summer hat

- » Cycling cap to keep sweat out of your eyes
- » Lycra band for a perfect fit
- » Mesh top panel for extra ventilation
- » One size fits all

Composition	80% polyester, 20% elastane
Windproof	No
Thermo	No
Sizes	Universal
Color name	white, black

COMFORTHEAD | BBW-99*Comfortable bandana with high moisture absorbing capacity*

- » High moisture absorbing capacity
- » Fast drying fabric
- » Comfortable to wear under your cycle helmet.
- » One size fits all

Composition	100% polyester
Windproof	No
Thermo	No
Sizes	Universal
Color name	black, white

**COLDSHIELD WB LEGWARMERS | BBW-360***Legwarmers with wind protection*

- » Made out of a soft thermo fabric combined with a wind blocker panel at the knee area
- » Made with smart windpanels that do not limit your freedom of movement while still protecting your knees
- » Subtle silicone print on the inside which prevents the leg warmers from moving
- » Made with flatlock stitching to offer great comfort
- » Additional durable reflective added at the legs to make you visible in the dark

Composition	85% Polyamide, 15% Elastane
Windproof	Yes
Thermo	Yes
Sizes	S, M, L, XL
Color name	black

COLDSHIELD WB KNEE WARMERS | BBW-361*Knee warmers with wind protection*

- » Made out of a soft thermo fabric combined with a wind blocker panel at the knee area
- » Made with smart windpanels that do not limit your freedom of movement
- » Subtle silicone print on the inside which prevents the knee warmers from moving
- » Made with flatlock stitching to offer great comfort
- » Additional durable reflective added at the legs to make you visible in the dark

Composition	85% Polyamide, 15% Elastane
Windproof	Yes
Thermo	Yes
Sizes	S, M, L, XL
Color name	black

**COMFORTLEGS | BBW-91**

Comfortable leg warmers to keep you legs nice and warm in uncertain weather conditions

- » Flat lock stitched seams for maximum comfort
- » Anatomic panel shape for a comfortable fit
- » Silicone anti-slip strip on top.

Composition	85% polyamide, 15% elasthane
Windproof	No
Thermo	Yes
Sizes	S, M, L, XL
Color name	black

**COMFORTKNEE | BBW-93**

Comfortable knee warmers to keep your arms nice and warm in uncertain weather conditions

- » Flat lock stitched seams for maximum comfort
- » Anatomic panel shape for a comfortable fit
- » Silicone anti-slip strip on top.

Composition	85% polyamide, 15% elasthane
Windproof	No
Thermo	Yes
Sizes	S, M, L, XL
Color name	black

**COMFORTARMS | BBW-92**

Comfortable arm warmers to keep your arms nice and warm in uncertain weather conditions

- » Flat lock stitched seams for maximum comfort
- » Anatomic panel shape for a comfortable fit
- » Silicone anti-slip strip on top.

Composition	85% polyamide, 15% elasthane
Windproof	No
Thermo	Yes
Sizes	S, M, L, XL
Color name	black

INNERSHORTS PRO | BUW-61

Versatile inner shorts: ideal for any ride

- » Made of quick drying Polyester and spandex material
- » With extra comfortable multi stretch padding
- » Perfect for mountain biking, commuting or hybrid biking

Sizes	XS, S, M, L, XL, XXL, XXXL
Color name	black

INNERSHORTS | BUW-65

Versatile cycling innershorts for added comfort

- » Made of quick drying Polyester and spandex material
- » Elastic, anti-bacterial padding
- » Perfect for commuting or hybrid biking

Sizes	XS/S, M/L, XL/XXL, XXXL
Color name	black, white

COMFORTBRIEF | BUW-66

Cycling underwear designed to be worn under your everyday attire

- » The nearly seamless design provides comfort during your ride
- » With its quick-drying, stretchable, and ultra-thin fabric, you'll hardly notice you wear it
- » Enhanced comfort is provided by the female-specific cycling padding

Composition	87% Polyamide 13% Elasthane
Padding type	Underwear padding
Sizes	M/L, XL/XXL, XXXL
Color name	crème

FIRLAYER | BUW-20

Technical long sleeve base layer with FarInfraRed (FIR) technology for cold weather conditions

- » Far InfraRed technology keeps your body warm and exceptionally comfortable by improving body's metabolism and microcirculation
- » The innovative seamless body construction incorporates rib zones for enhanced body support and increased thermal efficiency
- » 3D mesh zones provides improved perspiration control

Composition	65% polyester, 27% polyamide, 8% elasthane
Materials	Far Infrared
Thermo	Yes
Sizes	XS/S, M/L, XL/XXL
Color name	black

COOLLAYER | BUW-07

Allround knitted base layer jersey with seamless design

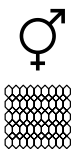

- » Coolskin is an ultralight and open polypropylene fiber that keeps you cool and dry in warm conditions
- » The open mesh structure promotes airflow between the fabric and the skin
- » The push-pull effect sucks sweat away from your skin and pushes it to the outer layer
- » Flat lock stitched seams for extra comfort

Composition	63% polypropylene, 37% polyamide
Materials	Coolskin
Sizes	XS/S, M/L, XL/XXL
Color name	black

MESHLAYER | BUW-09

Base layer jersey with lightweight open mesh structure for hot weather conditions

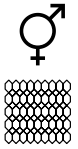

- » Made of a technical ultralight and open mesh that keeps you cool and dry thanks to reduced contact area
- » The open mesh structure promotes airflow between the fabric and the skin
- » The push-pull effect sucks sweat away from your skin and pushes it to the outer layer
- » Flat lock stitched seams for extra comfort

Composition	93% polyester, 7% elasthane
Sizes	XS/S, M/L, XL/XXL
Color name	white

**MESHLAYER** | BUW-10

Base layer jersey with lightweight open mesh structure for hot weather conditions

- » Made of a technical ultralight and open mesh that keeps you cool and dry thanks to reduced contact area
- » The open mesh structure promotes airflow between the fabric and the skin
- » The push-pull effect sucks sweat away from your skin and pushes it to the outer layer
- » Flat lock stitched seams for extra comfort

Composition	93% polyester, 7% elasthane
Sizes	XS/S, M/L, XL/XXL
Color name	white

MERINO WINTERFEET | BSO-18*The Merino wintersock which last longer*

- » Made with high-quality fibers, both natural and artificial, for enhanced durability
- » Cushioned toes and heels for extra comfort
- » Antibacterial
- » Cuff height of 180 mm

Composition	44% Merinowool, 40% Polyamide, 14% Polyester (graphene), 2% Elasthane
Thermo	Yes
Sock height (cm)	18
Sizes	35/38, 39/43, 44/47
Color name	black

FIRFEET | BSO-16*Cycling socks with Far InfraRed technology for cold weather conditions*

- » Sole made of extra warm fabric for great insulation
- » Far InfraRed technology improving body's metabolism and microcirculation
- » Open structure on top of the sock allows moisture to evaporate easily
- » Seamless toe construction

Composition	41% cotton, 31% polyamide, 25.8% polyester, 2% elasthane, 0.2% ceramic powder
Materials	Far Infrared
Thermo	Yes
Sock height (cm)	15
Sizes	35/38, 39/43, 44/47
Color name	black/red

ECOFEET 18CM | BSO-21*Sustainable summer cycling sock*

- » Made with COOLMAX® EcoMade fibers, from 97% recycled resources
- » Combination of open structure and COOLMAX® EcoMade for enhanced airflow
- » Moisture-wicking technology keeps feet dry and comfortable
- » Smart design keeps the sock in place during activities
- » Cuff height of 18cm

Composition	45% Coolmax Ecomade, 28% Polyamide, 20% Polyester, 8% Elasthane
Thermo	No
Sock height (cm)	18
Sizes	35/38, 39/43, 44/47
Color name	white, black

**COMBIFEET | BSO-06**

Set of two pairs of high-tech cycling socks

- » Elastic middle part for a perfect and tight fit around the feet
- » Open structure knitting for breathability
- » Reinforced cuff area

Composition	49% CoolPlus polyester, 24% polyester, 22% polyamide, 5% elasthane
Materials	Coolplus
Thermo	No
Sock height (cm)	10
Sizes	35/38, 39/43, 44/47
Color name	black, white

**ECOFEET 3 PACK, 18CM | BSO-22**

Multipack with three pairs of sustainable summer cycling socks

- » Made with COOLMAX® EcoMade fibers, from 97% recycled resources
- » Combination of open structure and COOLMAX® EcoMade for enhanced airflow
- » Moisture-wicking technology keeps feet dry and comfortable
- » Smart design keeps the sock in place during activities
- » Cuff height of 18cm

Composition	45% Coolmax Ecomade, 28% Polyamide, 20% Polyester, 8% Elasthane
Thermo	No
Sock height (cm)	18
Sizes	35/38, 39/43, 44/47
Color name	white, black

**COMBIFEET 3 PACK, 13CM | BSO-20**

Multipack with three pairs of durable summer cycling socks

- » Made of Coolplus fibers, which offers faster evaporation
- » Elastic middle part for the perfect fit around the foot
- » Keeps your skin dry and cool for longer periods
- » Open structure knitting for breathability
- » Cuff height of 13cm

Composition	49% CoolPlus polyester, 24% polyester, 22% polyamide, 5% elasthane
Materials	Coolplus
Thermo	No
Sock height (cm)	13
Sizes	35/38, 39/43, 44/47
Color name	black, white

FEATURES CLOTHING / SHOE COVERS / GLOVES / SOCKS

Designed for men.

Designed for women.

Unisex design.

3 back pockets.

Water repellent.

Water resistant.

Memory foam inserts.

Gel inserts.

Reflective accents.

Touch screen compatible thumb and index finger.

Reinforced.

Terry towel sweat wipe thumb.

Finger straps provide easier glove removal.

Anti-slip palm.

Highly breathable mesh with quick dry function thanks to reduced contact area.

GLOVES SIZING CHART

Just like a jersey, the size of your glove depends on your physical structure. To assist you finding the right size of gloves we have made a glove sizing chart. To determine your glove size you can measure the length and diameter of your hand as illustrated below and by using the corresponding explanation

- A) Measure from the tip of your longest finger to the base of your palm at the wrist to determine the length of your hand. This is your hand length measurement
- B) Wrap the tape measure around your hand at the widest part of the palm and make a fist before taking the measurement.

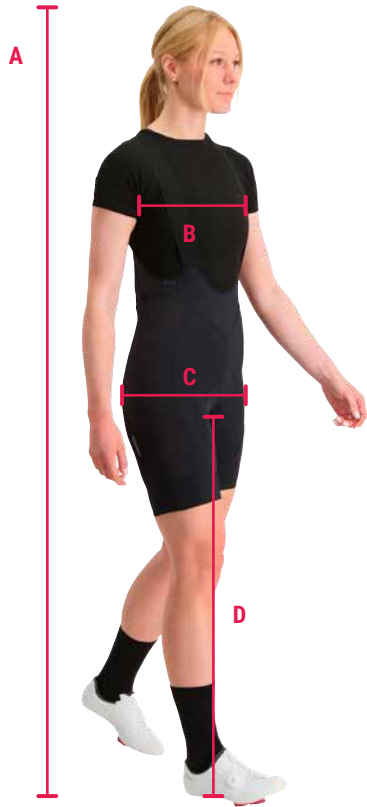

Use these measurements of your hand to determine your glove size in the gloves sizing chart. Remember the gloves size chart is a reference, based on our average glove. Since we offer a wide range of gloves in different styles and materials, you should always try the gloves at your local BBB Cycling bikeshop. Then we can ensure the best fit and comfort.

GLOVES SIZE	INCHES		CENTIMETERS	
	(A) WIDTH	(B) LENGTH	(A) WIDTH	(B) LENGTH
XS	7"	6.2"	17,8	15,7
S	7.5"	6.7"	19,1	17
M	8"	7.2"	20,3	18,3
L	8.5" - 9"	7.8"	21,6 - 22,9	19,7
XL	9.5" - 10"	8.3"	24,0 - 25,4	21,1
XXL	10.5" - 11"	8.9"	26,7 - 27,9	22,5
XXXL	11.5" - 12"	9.4"	29,2 - 30,5	23,9

CLOTHING SIZING CHART

The size of any individual person depends on his or her physical structure. To assist you finding the right size of garment we refer you to the european sizing chart. Our jerseys are designed to fit both competitive use as well as recreational use. Apply measurements A & B for jersey's and jacket's. They correspond to the measurement of your chest circumference. Use measurements C & D for shorts, bib-shorts, tights, bib-tights. They correspond to the measurement of your waist circumference for men and hips circumference for women.

MATERIALS PADDING

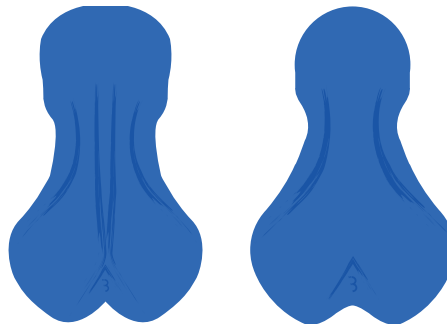

Our cycling shorts provide maximum comfort with chamois suitable for every cyclist. We utilize the "single-piece foam cutting" technique to cut foam from a single piece, enhancing comfort. We have developed chamois for different levels of protection in our Originals, Performance, and Premium segments, for both men and women.

ORIGINAL PADDING Regal 65

Our various Originals padding is designed for medium-long distances (up to 4 hours), has a smooth finish and features a single piece foam cut rubber layer that offers the right protection and support where needed.

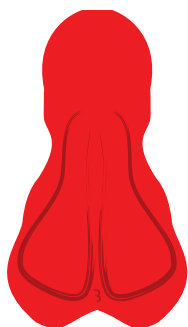

- Top layer** 88% polyester, 12% elastane (grey)
- 1st foam layer** 3 mm open cell polyester, Density 65
- 2nd foam layer** 12 mm polyurethane cut from one piece, Density 65

PERFORMANCE PADDING Valkyrie 90

Our Performance 3D pads with high foam density are designed for long distances (up to 6 hours). The largest share of the protective, high density foam concentrates on the area where it's most needed, which offers simultaneous comfort and a superb fit, as well as outstanding agility. Available in specific designs for men and women.

- Micro cube top layer** 88% polyester, 12% elastane (Blue, mens and womens)
- 1st foam layer** perforated 3 mm open cell polyester, density 65
- 2nd foam layer** 12 mm polyurethane cut from a single piece, density 90

PREMIUM PADDING K-5 120

Our Premium pre-formed, double density pads are designed for long distances (up to 8 hours). The protective, high density 14mm foam concentrates on the area where it's most needed, offering incredible comfort. The Premium pad is anatomically preformed, and offers optimal comfort.

- Carbonium anti-static top layer** 77% polyester, 21% elastane, 2% carbon (red)
- 1st foam layer** perforated 3 mm open cell polyester, density 65
- 2nd foam layer** 14 mm polyurethane cut from a single piece, density 120

UNDERWEAR PADDING Dune 65

A medium-density foam pad, using single piece cutting technology that offers a high degree of protection whilst improving the maximum breathability using high performance material. The middle section in the perineal area and the use of soft fabric reduces chafing and skin irritation.

- Grey top layer** 88% polyester, 12% elastane
- 1st foam layer** 3 mm polyurethane, density 65
- 2nd foam layer** 12 mm polyurethane, density 65*

HIGHSUPPORT | BBW-73

Designed for cycling adventures with no compromises for comfort

- » Palm crafted from recycled AXX suede with Memory foam padding for added comfort
- » Limited stitching from palm to side of the gloves
- » Upper made of sustainable, stretchable, breathable Lycra for a second skin fit
- » Soft and small velcro on the inside of the wrist, which gives great freedom of movement
- » Easy to use finger pullers on the inside of the glove

Composition	55%polyester, 38% polyamide recycled, 7% Elastane
Padding	Full padding
Closure system	Velcro
Antislip	Yes
Sizes	S, M, L, XL, XXL,
Color name	white, , black

NEW

**COURSE | BBW-62**

The optimal contact cycling glove, for people who do not like to wear gloves

- » The upper is designed for pure comfort and freedom of movement
- » Palm without padding for optimal contact with your handlebar
- » Thin and breathable palm with extra antislip gripper for good great grip.
- » Easy access due to the rolled cuff, which prevents irritation
- » Pullers to take the gloves off easily

Composition	51% Polyamid, 29% Polyester, 11% Polyurethan, 9% Elasthan
Padding	No padding
Closure system	Cuff
Antislip	Yes
Sizes	S, M, L, XL, XXL
Color name	black, white

**PAVE 2.0 | BBW-74**

Technical summer cycling glove

- » Seamless heat-pressed padding for enhanced comfort
- » Padding crafted from natural latex
- » Highly comfortable and breathable upper material
- » Folded Lycra cuff for easy access, preventing irritation at pressure points
- » Easy to use finger pullers on the inside of the glove

Composition	44% Polyamid, 38% Polyester, 16% Elasthan, 2% Polyurethan
Padding	Medium padding
Antislip	Yes
Sizes	XS, S, M, L, XL, XXL
Color name	black, olive green, iceblue

NEW

AIRSUPPORT | BBW-65

The ultimate summer glove with great ventilating properties on both the palm and upper

- » Soft artificial suede palm with gel foam padding to support your hands and offer great comfort
- » Real summer upper, which offers protection and great breathability
- » Soft and small velcro on the inside of the wrist, which gives great freedom of movement
- » Easy to use finger pullers on the inside of the glove

Composition	92% Polyester, 8% Elastane
Padding	Medium padding
Closure system	Velcro
Antislip	No
Sizes	XS, S, M, L, XL, XXL
Color name	black, grey, white

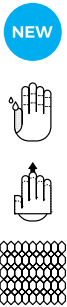

COOLSUPPORT | BBW-72

Economical comfortable, breathable cycling glove

- » Breathable palm with foam padding for extra comfort
- » Stretchable palm and sweat wipe thumb
- » Soft and flexible Velcro closure
- » Easy to use finger pullers

Composition	50% Polyester, 43% Polyamide, 7% Elastane
Padding	Medium padding
Closure system	Velcro
Sizes	S, M, L, XL, XXL
Color name	dark red, white, black

ESPOIRS | BBW-71

Technical youth glove designed for aspiring cyclists

- » Features medium gel foam padding for comfort
- » Stretchable and breathable palm for enhanced performance
- » Easy access provided by stretchable cuff

Composition	93% Polyamide 7% Elastane
Padding	Medium padding
Sizes	128, 140, 152, 164
Color name	white, black

EXPLORER COMFORT | BBW-64

Technically designed glove with reinforcements for shifters and brakes

- » Soft artificial suede palm with gel foam padding to offer great comfort
- » Additional sticky gripper at the palm and index finger
- » Fabric on the palm runs all the way to the top of the fingers for optimal freedom of movement when changing gears
- » Soft and small velcro at the inside of the wrist, which gives great freedom of movement
- » Adventure proof upper which keeps your padding in place

Composition	38% Polyamide, 55% Polyester, 7% Elastane
Padding	Full padding
Closure system	Velcro
Antislip	Yes
Sizes	S, M, L, XL, XXL
Color name	black

**EXPLORER CONNECTION | BBW-63**

Technically designed glove with reinforcements for shifters and brakes

- » Soft artificial suede palm with sticky gripper for optimal connection with your handlebar
- » Palm comes all the way to the top at your shifting fingers, to avoid limitation in movement
- » Easy access by the folded cuff, which prevents irritation at pressure points
- » Light weight upper for optimal ventilation

Composition	38% Polyamide, 55% Polyester, 7% Elastane
Padding	No padding
Closure system	Cuff
Antislip	Yes
Sizes	S, M, L, XL, XXL
Color name	black

SUBZERO FULL FINGERS | BWG-34

The sub-zero glove

- » Eurotex layer made of tough Polyurethane stops cold air and water from entering, keeping your hands warm and dry
- » Touchscreen thumb and forefinger are reinforced with Clarino
- » Anti-slip palm material with Clarino reinforced gel inserts
- » Comfortable extra long cuff with fleece lining
- » Reflective insert panel at the back of the hand for extra visibility

Composition	68% Polyester, 17% Polyurethan, 6% Polyethylen, 5% Polyamid, 4% Elasthan; Lining: 100% Polyester
Materials	Primaloft
Waterproofness	Waterproof
Windproof	Yes
Sizes	XS, S, M, L, XL, XXL, XXXL
Color name	black

SUBZERO 2 X 2 | BWG-35

The 2 x 2 glove for sub-zero temperatures

- » The split design gives the warmth of a mitten but with added dexterity when operating gears and brakes
- » Eurotex layer made of tough Polyurethane stops cold air and water from entering, keeping your hands warm and dry
- » Anti-slip palm material with Clarino reinforced gel inserts
- » Comfortable extra long cuff with fleece lining
- » Reflective insert panel at the back of the hand for extra visibility

Composition	71% Polyester, 16% Polyurethan, 6% Polyethylen, 4% Elasthan, 3% Polyamid; Lining: 100% Polyester
Materials	Primaloft
Waterproofness	Waterproof
Windproof	Yes
Sizes	XS, S, M, L, XL, XXL, XXXL
Color name	black

PROSHIELD | BWG-39

Winter gloves that tick all the boxes, without compromising on looks

- » Made with a power insert to keep your hands dry
- » Made with Halucin isolation, which is specifically used for its great dexterity.
- » Strategically placed Poron XRD foam. For shock absorption and maximum support
- » Reflective panel at the side and subtle reflective stitching at the knuckles
- » Reflective panel at the side and subtle reflective stitching at the knuckles

Composition	28% Polyester, 27% Polyurethan, 17% Polyethylen, 14% Polyamid, 12% Elastodien, 2% Elasthan
Materials	Poron XRD
Waterproofness	Weatherproof
Windproof	Yes
Sizes	XS, S, M, L, XL, XXL, XXXL
Color name	black

PUFFERSHIELD WATERPROOF | BWG-41

Winter glove with waterproof puffer design ideal for cycling in all weather conditions

- » The long cuffs provide wrist protection against the elements
- » Abundant durable reflective accents enhance visibility for safer rides
- » High-quality recycled PrimaLoft insulation ensures warmth and sustainability
- » Palm crafted from sturdy recycled microfiber for durability and eco-friendliness
- » Natural latex padding for superior comfort and support during long rides

Composition	73% Polyamide, 14% Polyester 6% Polyurethane, 6% Elastodien, 1% Elastane; Lining: 100% Polyester
Materials	PrimaLoft
Waterproofness	Waterproof
Windproof	Yes
Sizes	S, M, L, XL, XXL, XXXL
Color name	olive green, black

NEW

**COLDSHIELD REFLECTIVE | BWG-38**

Windproof and water-repellent winter glove, with a big reflective area

- » Made with Halucin isolation that is specifically used for its great dexterity
- » Strategically placed Poron XRD foam. For shock absorption and maximum support
- » With big and soft velcro to wear this glove over your jacket
- » Big reflective area gives you a lot of extra visibility

Composition	31% Polyester, 23% Polyamid, 20% Polyurethan, 15% Polyethylen, 6% Elastodien, 5% Elasthan
Materials	Poron XRD
Waterproofness	Water repellent
Windproof	Yes
Sizes	XS, S, M, L, XL, XXL, XXXL
Color name	black

**COLDSHIELD | BWG-37**

Windproof and water-repellent winter glove, with a subtle reflection

- » Made with Halucin isolation that is specifically used for its great dexterity
- » Strategically placed Poron XRD foam. For shock absorption and maximum support
- » With big and soft velcro to wear this glove over your jacket
- » Reflective elements on the sides of the glove for extra visibility

Composition	32% Polyester, 23% Polyurethane, 18% Polyamide, 17% Polyethylene, 6% Elastodiene, 4% Elasthane
Waterproofness	Water repellent
Windproof	Yes
Sizes	XS, S, M, L, XL, XXL, XXXL
Color name	black

NEOSHIELD | BWG-26

High-quality neoprene cycling glove, ideal for wet conditions

- » Anatomically pre-curved fingers for a perfect fit on the handlebar
- » Extra long neoprene cuff to keep the wind and rain out
- » Silicone print at palm for great grip

Composition	70% chloroprene rubber, 15% polyurethane
Materials	Multistretch Nylon Neoprene
Waterproofness	Water resistant
Windproof	Yes
Sizes	XS/S, M/L, XL/XXL, XXXL
Color name	black

CONTROLZONE | BWG-36

Lightweight softshell glove for mild weather conditions

- » Made with breathable windproof material, because of the membrane
- » Foam padded palm for optimal contact and grip with your handlebar
- » Thin neoprene cuff and puller that can be worn underneath your jacket.
- » Reflective elements on the sides of the glove for extra visibility

Composition	40% Polyurethane, 45% Polyester, 10% Polyamide, 5% Elastane
Waterproofness	Not waterproof
Windproof	Yes
Sizes	XS, S, M, L, XL, XXL, XXXL
Color name	black, neon yellow

AIRSHIELD WINDPROOF | BWG-45

Cycling gloves that protect you against the wind

- » Windbreaker material on the top of your hand and between fingers
- » Recycled microfiber palm for enhanced grip
- » Silicone gripper on the inside for added control
- » Precurved design for a comfortable fit during cycling
- » Touchscreen-compatible fingers for convenience on the go

Composition	95% Polyester, 5% Elastane
Waterproofness	Not waterproof
Windproof	Yes
Sizes	XS, S, M, L, XL, XXL, XXXL
Color name	black

**INNERSHIELD | BWG-27**

Lightweight inner gloves to wear underneath an outer glove

- » Far InfraRed technology keeps your hands warm and exceptionally comfortable by improving body's metabolism and microcirculation
- » Seamless construction
- » Ideal for wearing under an outer glove on extra cold days
- » One size fits all

Composition	52% cotton, 28% polyester, 20% elasthane
Materials	Far Infrared
Waterproofness	Not waterproof
Windproof	No
Sizes	Universal
Color name	black

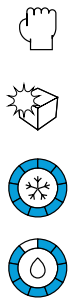

ARCTICDUTY | BWS-28

Shoe cover that beats the cold

- » Made of thick neoprene with Neoskin for the best protection against rain and cold
- » The shoe cover has a thermal layer on the inside to keep your feet warm
- » Glued seams make them leakproof
- » Reinforced parts at the nose, heel and sides of the shoe cover
- » Reflective print elements on the shin, nose and back of the shoe cover

Condition	Extreme cold and wet days
Waterproofness	Waterproof
Windproof	Yes
Sizes	38/40, 41/43, 44/46, 47/49
Color name	black

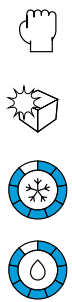

ULTRAWEAR ZIPPERLESS EXT | BWS-26

The zipless overshoe for really cold days

- » Made of thick neoprene with Neoskin for the best protection against rain and cold
- » With glued seams and no zipper, all weak points of these shoe covers are eliminated.
- » Reinforced parts on the heel and the nose of the shoe cover
- » Reflective print elements on the side of the shoe cover
- » Note! Put on these overshoes before putting on your cycling shoes. Like the example in the video.

Condition	Extreme cold and wet days
Waterproofness	Waterproof
Windproof	Yes
Sizes	37/38, 39/40, 41/42, 43/44, 45/46, 47/48
Color name	black

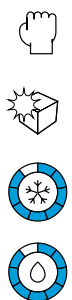

HARDWEAR | BWS-04

Designed to protect you against cold and wet conditions

- » Waterproof shoe cover that protects against both cold as rain
- » Made of 3 mm thick Neoprene and Neoskin waterproof top layer
- » Glued seams to make the shoe covers leakproof.
- » Two reinforced parts between sole and zipper as well as on the nose
- » Industrial strength YKK-zipper and Rubber Velcro at the bottom for secure fit.

Composition	80% chloroprene rubber, 19% polyamide, 1% polyurethane
Materials	Neoskin
Condition	Changeable seasons
Waterproofness	Waterproof
Sizes	37/38, 39/40, 41/42, 43/44, 45/46, 47/48
Color name	black

**WATERFLEX 3.0 | BWS-23**

The best choice for mild rainy days

- » WaterFlex material, outer polyurethane(PU) rubber which is water-resistant, flexible and durable
- » All seams are covered inside with waterproof tape
- » Inner made of micro-fleece that gives the highest level of comfort
- » Reinforced parts on the heel and the nose of the shoe cover
- » Rubber Velcro for a secure fit

Composition	50% polyester, 50% polyurathene
Materials	Waterflex
Condition	Rainshower on winter days
Waterproofness	Water resistant
Sizes	37/38, 39/40, 41/42, 43/44, 45/46, 47/48
Color name	black, neon yellow

**MULTIFLEX | BWS-27**

Shoe cover for rain protection for every shoe

- » Made of advanced coated material that gives the highest level of water resistance, durability, and flexibility
- » Taped seams make these shoe covers wind- and waterproof
- » Inner made of micro-fleece that gives the highest level of flexibility and comfort
- » Easy access and adjustability because of the double velcro on the back
- » Reinforced nosepiece to protect the shoe cover against possible damage

Composition	50% Polyester 50% Polyurethane
Materials	Waterflex
Condition	Changeable seasons
Waterproofness	Waterproof
Sizes	39/43, 44/48
Color name	black

**MULTIFLEX HV | BWS-27HV**

Shoe cover for rain protection for every shoe

- » Made of advanced coated material that gives the highest level of water resistance, durability, and flexibility
- » Taped seams make these shoe covers wind- and waterproof
- » Inner made of micro-fleece that gives the highest level of flexibility and comfort
- » Easy access and adjustability because of the double velcro on the back
- » Reinforced nosepiece to keep shoe cover in place, and protect against possible damage

Composition	50% Polyester 50% Polyurethane
Materials	Waterflex
Condition	Changeable seasons
Waterproofness	Waterproof
Windproof	Yes
Sizes	39/43, 44/48
Color name	neon yellow

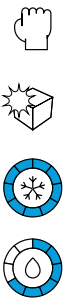

FREEZE | BWS-21

Overshoe for cold, blustery winter days

- » Stretchable soft shell material, with inner membrane which will block the cold wind
- » All seams are covered from the inside with water resistant tape
- » Reflective artwork for extra visibility
- » Soft rubber Velcro strip for a secure fit and to protect the industrial-grade YKK zipper» Rubber Velcro for a secure fit

Composition	48% polyester, 27% polyurathene, 20% SBR, 5%elasthane
Condition	Changeable seasons
Windproof	Yes
Sizes	37/38, 39/40, 41/42, 43/44, 45/46, 47/48
Color name	black

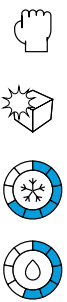

HEAVYDUTY OSS | BWS-02B

Tough shoe cover designed to give the best protection against the cold

- » 3 mm multi stretch neoprene with nylon reinforcements on both sides
- » Industrial strength YKK zipper
- » Velcro strap allows these shoecovers to be used with (in-line) skates
- » Extra 3M reflective reinforcement between the sole and zipper

Composition	70% styrene butadiene rubber, 30% polyamide
Condition	Changeable seasons
Waterproofness	Water resistant
Sizes	37/38, 39/40, 41/42, 43/44, 45/46, 47/48
Color name	black

RACEFLEX ZIPPERLESS | BWS-29

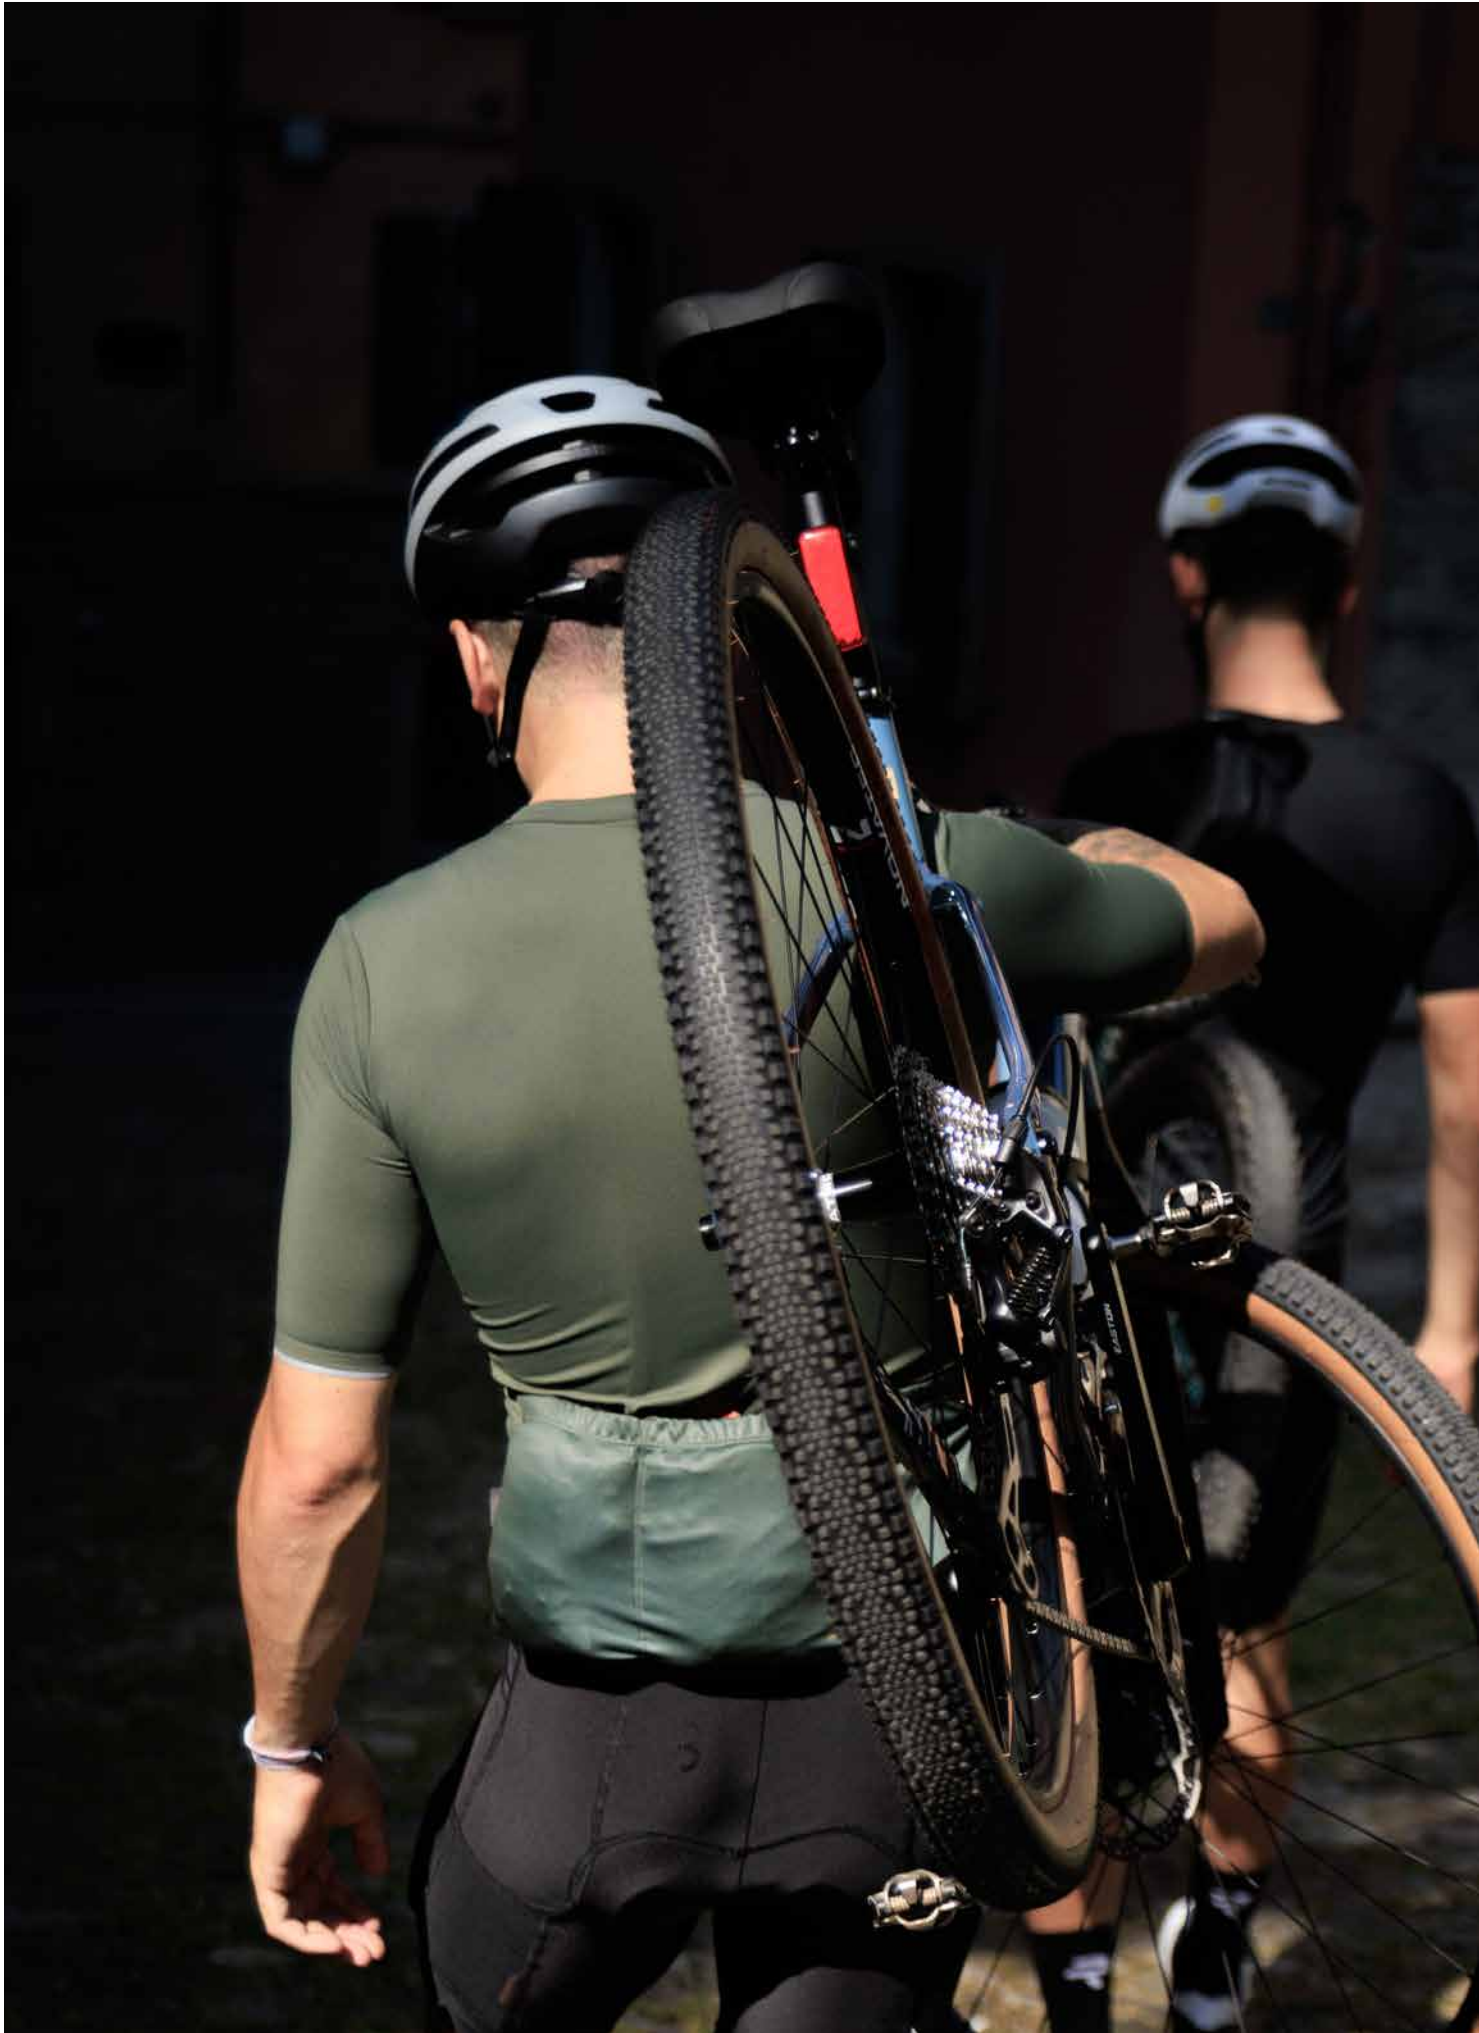

Aerodynamic and lightweight shoe cover that protects against rain

- » Stay protected from wind and water with taped seams
- » Zipperless design eliminates weak spots in the shoe cover
- » High-end aerodynamic model, with pre-curved shape for enhanced performance
- » Designed with a velcro at the bottom for easier access
- » Reinforced at the nose and heel for added durability and strength

Composition	43% Polyester, 40% PU, 7% Elastin, 10% PU Adhesive
Waterproofness	Waterproof
Windproof	Yes
Sizes	39/40, 41/42, 43/44, 45/46, 47/48
Color name	black

ECHELON PRO | BSD-172/173

Ride Sustainably Ride Comfortably

A high-performance road/MTB saddle with competitive cycling posture. With a short-nose, designed for optimal performance and comfort. A rain plug for versatility and crafted from sustainable materials like biobased nylon, recycled cover, and coffee blend EVA foam for long-lasting comfort.

With the innovative rain plug you can transform your saddle from an open to a closed saddle.

With its short nose and optimized shape this saddle offers optimal performance and optimal comfort.

ECHELON PRO | BSD-172/173

Short high-performance Road/MTB saddle for competitive cycling posture

- » With its short nose and optimized shape this saddle offers optimal performance and optimal comfort.
- » With the innovative rain plug you can transform your saddle from an open to a closed saddle.
- » Made with a wild blend of high-end sustainable materials: from a biobased nylon shell and recycled cover to a coffee blend EVA foam.
- » Composite carbon fiber shell
- » The large anatomic hole offer pressure relief and long time comfort.

Posture	Competitive (30°)
Material rails	Hollow stainless steel
Material cover	Synthetic
Material foam	Lightweight EVA
Material shell	Carbon reinforced Nylon
Pressure relieve system	Anatomic cut out
Density	1/9
Width (mm)	145, 155
Weight (g)	205, 216
Color name	black

**ECHELON | BSD-141/142/143**

High performance road/MTB saddle for competitive cycling posture

- » Pressure relieving cut-out which keeps the blood flow intact and eliminates pressure points under the pubic arch
- » Carbon reinforced shell
- » Superlight EVA foam with hard density for good support on long rides
- » With durable and waterproof synthetic cover
- » Anatomic hole

Posture	Competitive (30°), Sportive (45°)
Material rails	Hollow CrMo
Material cover	Synthetic
Material foam	Lightweight PU
Material shell	Carbon reinforced Nylon
Pressure relieve system	Anatomic cut out
Density	2/9
Width (mm)	145, 155, 165
Weight (g)	278, 283, 288
Color name	black

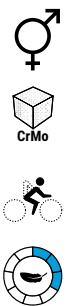

**ECHELON COMFORT | BSD-156/157/158**

The most comfortable saddle for every ride in a sportive cycling posture

- » Ergonomic cut-out for comfortable pressure relief in the pubic arch to keep bloodflow intact
- » Moderate density foam padding for excellent comfort and support on all your rides
- » Durable and lightweight glass fiber shell, providing comfort and optimal quality
- » With durable and waterproof synthetic cover

Posture	Sportive (45°)
Material rails	CrMo
Material cover	Synthetic
Material foam	Lightweight PU
Material shell	Glassfiber reinforced Nylon
Pressure relieve system	Anatomic cut out
Density	3/9
Width (mm)	145, 155, 165
Weight (g)	289, 303, 311
Color name	black

SPORT COMFORT 2.0 | BSD-135/136/137

Sport saddle with anatomic cut-out for riding in casual as well as sportive clothing

- » Moderate density PU foam for comfort on all rides
- » Durable two-tone synthetic leather cover
- » Lightweight glassfiber reinforced shell for long lasting comfort

Posture	Sportive (45°)
Material rails	Boron
Material cover	Synthetic leather
Material foam	PU
Material shell	Glassfiber reinforced Nylon
Pressure relieve system	Anatomic cut out
Density	5/9
Width (mm)	145, 155, 165
Weight (g)	295, 303, 311
Color name	black

**MULTIDENSITY RELAXED | BSD-12/13**

Saddle for active cycling posture

- » With anatomic cut-out for riding in casual clothing as well as cycling clothing
- » Double density shell and high density foam
- » Luxurious Sutex cover with durable synthetic leather side panels

Posture	Relaxed (75°)
Material rails	Boron
Material cover	Synthetic leather
Material foam	PU
Material shell	PP
Pressure relieve system	Anatomic cut out
Density	5/9
Width (mm)	170
Weight (g)	410
Color name	black

**LADYSPORT | BSD-67**

Road/MTB saddle designed for women with sportive cycling posture

- » Highly padded saddle with anatomic cut-out for pressure relief in pubic area
- » Met de innovatieve regenplug kan je je zadel van een open naar een gesloten zadel transformeren
- » Light foam with moderate density for optimal comfort
- » Polypropylene (PP) shell

Posture	Competitive (30°), Sportive (45°)
Material rails	Boron
Material cover	Synthetic
Material foam	PU
Material shell	Nylon
Pressure relieve system	Anatomic cut out
Density	5/9
Width (mm)	162
Weight (g)	264
Color name	black

SPORTPLUS ACTIVE LEATHER | BSD-113/114*Ergonomic touring saddle for active cycling posture*

- » The distinctive Plus channel combined with anatomic cut-out provides optimal pressure distribution
- » Polypropylene (PP) shell with elastomer suspension and integrated bumpers for extra protection
- » Triple Density foam: high density EVA + moderate density PU and soft Memory foam top layer
- » Genuine leather cover with durable synthetic side panels
- » Anatomic hole

Posture	Active (60°)
Material rails	CrMo
Material cover	Genuine leather
Material foam	Triple density foam: EVA + PU + Memoryfoam
Material shell	PP
Pressure relieve system	Anatomic cut out
Density	7/9
Width (mm)	170, 185
Weight (g)	470, 490
Color name	black

**COMFORTPLUS RELAXED LEATHER | BSD-103***Ergonomic city saddle for relaxed cycling posture*

- » Plus channel and lowered nose for pressure relief under pubic arch and tailbone
- » Polypropylene (PP) shell with elastomer suspension and integrated bumpers for extra protection
- » Genuine leather cover with durable synthetic side panels
- » Triple Density foam: high density EVA + moderate density PU and soft Memory foam top layer

Posture	Relaxed (75°)
Material rails	CrMo
Material cover	Genuine leather
Material foam	Triple density foam: EVA + PU + Memoryfoam
Material shell	PP
Pressure relieve system	Anatomic channel
Density	8/9
Width (mm)	205
Weight (g)	680
Color name	black

**COMFORTPLUS UPRIGHT LEATHER | BSD-107***Ergonomic city saddle for upright cycling posture*

- » Plus channel and lowered nose for pressure relief under pubic arch and tailbone
- » Polypropylene (PP) shell with elastomer suspension and integrated bumpers for extra protection
- » Genuine leather cover with durable synthetic side panels
- » Triple Density foam: high density EVA + moderate density PU and soft Memory foam top layer

Posture	Upright (90°)
Material rails	CrMo
Material cover	Genuine leather
Material foam	Triple density foam: EVA + PU + Memoryfoam
Material shell	PP
Pressure relieve system	Anatomic channel
Density	9/9
Width (mm)	225
Weight (g)	835
Color name	black

SOFTSHAPE ACTIVE | BSD-121/122

Touring saddle for active cycling posture

- » Large anatomic cut-out provides pressure relief in the pubic area
- » Super soft Memory foam for ultimate comfort
- » Polypropylene (PP) shell with integrated bumpers for extra protection
- » Durable two-tone synthetic leather cover

Posture	Active (60°)
Material rails	CrMo
Material cover	Synthetic leather
Material foam	Dual density: PU + Memoryfoam
Material shell	PP
Pressure relieve system	Anatomic cut out
Density	8/9
Width (mm)	170, 185
Weight (g)	530, 585
Color name	black

SOFTSHAPE RELAXED | BSD-124

City saddle for relaxed cycling posture

- » Super soft Memory foam for ultimate comfort
- » Polypropylene (PP) shell with elastomer suspension and integrated bumpers for extra protection
- » Durable two-tone synthetic leather cover

Posture	Relaxed (75°)
Material rails	Boron
Material cover	Synthetic leather
Material foam	Dual density: PU + Memoryfoam
Material shell	PP
Pressure relieve system	Anatomic channel
Density	9/9
Width (mm)	205
Weight (g)	795
Color name	black

SOFTSHAPE RELAXED ANATOMIC | BSD-125

City saddle for relaxed cycling posture

- » Large anatomic cut-out provides pressure relief in the pubic area
- » Super soft Memory foam for ultimate comfort
- » Polypropylene (PP) shell with elastomer suspension and integrated bumpers for extra protection
- » Durable two-tone synthetic leather cover

Posture	Relaxed (75°)
Material rails	Boron
Material cover	Synthetic leather
Material foam	Dual density: PU + Memoryfoam
Material shell	PP
Pressure relieve system	Anatomic cut out
Density	9/9
Width (mm)	205
Weight (g)	709
Color name	black

SOFTSHAPE UPRIGHT | BSD-127*City saddle for upright cycling posture*

- » Super soft Memory foam for ultimate comfort
- » Polypropylene (PP) shell with elastomer suspension and integrated bumpers for extra protection
- » Durable two-tone synthetic leather cover

Posture	Upright (90°)
Material rails	Boron
Material cover	Synthetic leather
Material foam	Dual density: PU + Memoryfoam
Material shell	PP
Pressure relieve system	Anatomic channel
Density	9/9
Width (mm)	220
Weight (g)	850
Color name	black

**SOFTSHAPE UPRIGHT ANATOMIC | BSD-128***City saddle for upright cycling posture*

- » Large anatomic cut-out provides pressure relief in the pubic area
- » Super soft Memory foam for ultimate comfort
- » Polypropylene (PP) shell with elastomer suspension and integrated bumpers for extra protection
- » Durable two-tone synthetic leather cover

Posture	Upright (90°)
Material rails	Boron
Material cover	Synthetic leather
Material foam	Dual density: PU + Memoryfoam
Material shell	PP
Pressure relieve system	Anatomic cut out
Density	9/9
Width (mm)	220
Weight (g)	861
Color name	black

**SPORTPLUS ACTIVE | BSD-111/112***Ergonomic touring saddle for active cycling posture*

- » The distinctive Plus channel combined with anatomic cut-out provides optimal pressure distribution
- » Polypropylene (PP) shell with elastomer suspension and integrated bumpers for extra protection
- » Dual density foam: high density foam with Memory foam top layer
- » With durable and waterproof synthetic cover
- » Anatomic hole

Posture	Active (60°)
Material rails	Boron
Material cover	Synthetic
Material foam	Triple density foam: EVA + PU + Memoryfoam
Pressure relieve system	Anatomic cut out
Density	6/9
Width (mm)	170, 185
Weight (g)	440, 460
Color name	black

TOURINGPLUS ACTIVE | BSD-115/116

Ergonomic touring saddle for active cycling posture

- » The distinctive Plus channel provides optimal pressure distribution
- » Polypropylene (PP) shell with elastomer suspension and integrated bumpers for extra protection
- » Triple Density foam: high density EVA + moderate density PU and soft Memory foam top layer
- » With durable and waterproof synthetic cover
- » Anatomic hole

Posture	Active (60°)
Material rails	Boron
Material cover	Synthetic
Material foam	Triple density foam: EVA + PU + Memoryfoam
Material shell	PP
Pressure relieve system	Anatomic channel
Density	6/9
Width (mm)	170, 185
Weight (g)	440, 460
Color name	black

COMFORTPLUS RELAXED | BSD-102

Ergonomic city saddle for relaxed cycling posture

- » Plus channel and lowered nose for pressure relief under pubic arch and tailbone
- » Polypropylene (PP) shell with elastomer suspension and integrated bumpers for extra protection
- » Triple Density foam: high density EVA + moderate density PU and soft Memory foam top layer
- » With durable and waterproof synthetic cover
- » Integrated carrying handle

Posture	Upright (90°)
Material rails	Boron
Material cover	Synthetic
Material foam	Triple density foam: EVA + PU + Memoryfoam
Material shell	PP
Pressure relieve system	Anatomic channel
Density	7/9
Width (mm)	205
Weight (g)	642
Color name	black

COMFORTPLUS UPRIGHT | BSD-106

Ergonomic city saddle for upright cycling posture

- » Plus channel and lowered nose for pressure relief under pubic arch and tailbone
- » Polypropylene (PP) shell with elastomer suspension and integrated bumpers for extra protection
- » Triple Density foam: high density EVA + moderate density PU and soft Memory foam top layer
- » With durable and waterproof synthetic cover
- » Integrated carrying handle

Posture	Upright (90°)
Material rails	Boron
Material cover	Synthetic
Material foam	Triple density foam: EVA + PU + Memoryfoam
Material shell	PP
Pressure relieve system	Anatomic channel
Density	8/9
Width (mm)	220
Weight (g)	730
Color name	black

DIAMOND | BSD-162*Waterproof saddle for an active cycling posture*

- » Medium soft foam for a comfortable ride
- » The wear resistant side panels protect the saddle and ensure a long lifetime.

Posture	Active (60°)
Material rails	Boron
Material cover	Synthetic
Material foam	PU
Material shell	PP
Width (mm)	185
Weight (g)	583
Color name	black

**MEANDER ACTIVE | BSD-91/92***Saddle for active cycling posture*

- » FLOAT foam, an innovative foam that absorbs shocks and is more comfortable than regular foams
- » Polypropylene (PP) shell with integrated bumpers for extra protection
- » Durable waterproof synthetic cover

Posture	Active (60°)
Material rails	Boron
Material cover	Synthetic
Material foam	Float foam
Material shell	PP
Pressure relieve system	Anatomic channel
Density	7/9
Width (mm)	170, 185
Weight (g)	460, 476
Color name	black

**MEANDER RELAXED | BSD-93***City saddle for relaxed cycling posture*

- » FLOAT foam, an innovative foam that absorbs shocks and is more comfortable than regular foams
- » Polypropylene (PP) shell with integrated bumpers for extra protection
- » Durable waterproof synthetic cover

Posture	Relaxed (75°)
Material rails	Boron
Material cover	Synthetic
Material foam	Float foam
Material shell	PP
Pressure relieve system	Anatomic channel
Density	8/9
Width (mm)	205
Weight (g)	584
Color name	black

MEANDER UPRIGHT | BSD-94

City saddle for upright cycling posture

- » FLOAT foam, an innovative foam that absorbs shocks and is more comfortable than regular foams
- » Polypropylene (PP) shell with integrated bumpers for extra protection
- » Durable waterproof synthetic cover

Posture	Upright (90°)
Material rails	Boron
Material cover	Synthetic
Material foam	Float foam
Material shell	PP
Pressure relieve system	Anatomic channel
Density	8/9
Width (mm)	225
Weight (g)	718
Color name	black

BASEDENSITY ACTIVE | BSD-86

Saddle for active cycling posture

- » Durable and waterproof touring saddle
- » Polypropylene (PP) shell with integrated bumpers for extra protection
- » Light foam with moderate density for optimal comfort
- » Durable waterproof synthetic cover

Posture	Active (60°)
Material rails	Boron
Material cover	Synthetic leather
Material foam	PU
Material shell	PP
Density	4/9
Width (mm)	170
Weight (g)	415
Color name	black

BASESHAPE RELAXED | BSD-56

City saddle for relaxed cycling posture

- » Durable and waterproof city saddle
- » Polypropylene (PP) shell with integrated bumpers for extra protection
- » Moderate soft PU foam
- » Durable synthetic cover

Posture	Relaxed (75°)
Material rails	Boron
Material cover	Synthetic leather
Material foam	PU
Material shell	PP
Density	5/9
Width (mm)	190
Weight (g)	460
Color name	black

BASESHAPE UPRIGHT | BSD-26*City saddle for upright cycling posture*

- » Durable and waterproof city saddle
- » Polypropylene (PP) shell with integrated bumpers for extra protection
- » Moderate soft PU foam

Posture	Upright (90°)
Material rails	Boron
Material cover	Synthetic leather
Material foam	PU
Material shell	PP
Density	6/9
Width (mm)	210
Weight (g)	550
Color name	brown, black

**DRYSEAT | BSD-181***Saddle cover to make your saddle waterproof*

- » With velcro strap to attach the cover on the saddle rails when not in use
- » Available in two sizes: Medium (160-190mm) and Large (190-225mm)

Posture	Active (60°), Relaxed (75°), Upright (90°)
Color name	black

**FEATURES SADDLES**

Find your BBB saddle with the help of this overview. Each saddle is optimized for a specific posture, see images below. Further selection can be done by looking at gender, saddle width and the level of padding. Mainly within the category City the level of padding differs. In the category Touring there are male and female saddles and in the category Performance sit bone distance is also an important factor to take into account. Visit your BBB dealer for a sit bone measurement.

**CITY**

The saddles in the category City are designed for cyclists riding in an upright cycling posture and wearing non cycling-specific clothing. They are comfortable saddles for city bikes and suited for short distances. The saddles in this category with the addition "PLUS" are designed specifically to prevent saddle sore.

**TOURING**

The saddles in the category Touring are designed for cyclists with a moderate sportive cycling posture and suited for riding in casual clothing as well as cycling shorts. The padding is firmer than in the category City and therefore ideal for trekking/touring or commuting. This year we extended our PLUS range with more sportive Touring saddles for just that bit of extra comfort.

**PERFORMANCE**

The Performance category saddles are suited for road-bike and MTB. These saddles are designed for optimal performance and minimal weight, but we are convinced that increased comfort also increases performance. The width of a saddle is the most important, therefore we supply our saddles in multiple widths. Thus select a saddle suited for your stature.

Designed for men.

Designed for women.

Unisex design.

Cycling posture: upright, relaxed, active, sportive, competitive.

COMFORTPOST | BSP-41

Seatpost with adjustable springs suspension for maximum comfort

- » This seatpost reduces vibrations and absorbs shocks
- » With protection sleeve
- » Extra long seatpost(400mm)
- » Comes with extra coils to optimize the suspension for the rider's weight
- » Certified to use on all types of bikes including E-bike (EN-15194)

Length Seatpost (mm)	400
Offset (mm)	20
Seatpost material	6061 T6 Aluminium
Carbon rails compatible	No
Seatpost suspension	Yes
Suspension Travel (mm)	20
Clamp mechanism	Single bolt
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Weight (g)	685
Sizes	27.2mm, 30.9mm, 31.6mm

20 mm

400 mm

ACTIONPOST | BSP-42

Suspension seatpost for vibration reduction and shock absorbtion

- » Extra long seatpost (400mm)
- » Comes with extra elastomers to optimize the suspension for the rider's weight
- » Suited for all types of bikes
- » Certified to use on all types of bikes including E-bike (EN-15194)

Length Seatpost (mm)	400
Offset (mm)	20
Seatpost material	6061 T6 Aluminium
Carbon rails compatible	No
Seatpost suspension	Yes
Suspension Travel (mm)	20
Clamp mechanism	Single bolt
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Weight (g)	458.3, 443.2, 461.2
Sizes	27.2mm, 30.9mm, 31.6mm

20 mm

400 mm

CANDLEPOST | BSP-44

Suspension seatpost for personalised comfort and vibration reduction

- » Reduces vibrations and absorbs shocks
- » Adjustable 40mm spring suspension for personalized comfort
- » The seatpost clamp has 8mm offset on the seatpost center
- » 350mm length suitable for various bike sizes
- » Certified to use on all types of bikes including E-bike (EN-15194)

Length Seatpost (mm)	350
Offset (mm)	8
Seatpost material	6061 T6 Aluminium
Carbon rails compatible	Yes
Seatpost suspension	Yes
Suspension Travel (mm)	40
Clamp mechanism	Dual bolt
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Weight (g)	490, 530, 550
Sizes	27.2mm, 30.9mm, 31.6mm

8 mm

350 mm

HANDLEPOST | BSP-52

Cable-free dropper seatpost with 100mm stepless travel

- » Easy-to-reach lever on the front under the saddle
- » The seatpost clamp has 15mm offset on the seatpost center
- » Durable air-oil cartridge
- » Easy disassembly for cleaning and cartridge replacement
- » 27.2mm diameter with a length of 390mm (minimum insert 120mm). 30.9mm and 31.6mm diameters have a length of 360mm (minimum insert 70mm)

Offset (mm)	15
Seatpost material	6061 T6 Aluminium, 7075 T6 Aluminium
Carbon rails compatible	Yes
Clamp mechanism	Dual bolt
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Weight (g)	627.6, 562.6, 587.6
Sizes	27.2mm, 30.9mm, 31.6mm

LIFTPOST | BSP-51

Internal routed dropper seatpost with 150mm stepless travel

- » Easy disassembly for cleaning the seatpost and replacing the durable air-oil cartridge.
- » Complete with remote lever and cable set
- » Smooth 150mm stepless travel for adjustable saddle height
- » The seatpost clamp has 0mm offset on the seatpost center
- » Easy disassembly for cleaning and cartridge replacement

Length Seatpost (mm)	470
Offset (mm)	0
Seatpost material	6061 T6 Aluminium
Carbon rails compatible	Yes
Clamp mechanism	Dual bolt
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Weight (g)	730, 760
Sizes	30.9mm, 31.6mm

DROPCONTROL UNI | BSP-56

Universal dropper post remote lever for both left and right sides of the handlebar

- » All-in-one package with cable and housing included
- » Compatible with almost any dropper post on the market
- » Compatible with external and internal cable routing
- » Quick and easy installation
- » Designed for Ø 22.2 handlebars

Seatpost material	6061 T6 Aluminium
Weight (g)	105.3

DROPCONTROL LEFT | BSP-57*Dropper post remote lever for the left side of the handlebar***22.2 mm**

- » All-in-one package with cable and housing included
- » Compatible with almost any dropper post on the market
- » Compatible with external and internal cable routing
- » Quick and easy installation
- » Designed for Ø 22.2 handlebars

Seatpost material	6061 T6 Aluminium
Weight (g)	116.8

FLYPOST | BSP-31*Full carbon fiber seatpost with integrated head*

- » Minimal weight while maintaining outstanding durability and strength
- » UD carbon finish
- » Dual bolt adjustable clamp
- » Lightweight

Length Seatpost (mm)	340
Offset (mm)	25
Seatpost material	Carbon
Carbon rails compatible	Yes
Seatpost suspension	No
Clamp mechanism	Dual bolt
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Weight (g)	208, 212
Sizes	25.4mm, 27.2mm

**FLYPOST | BSP-35***Full carbon fiber seatpost with integrated head*

- » Minimal weight while maintaining outstanding durability and strength
- » UD carbon finish
- » Dual bolt adjustable clamp

Sizes	27.2mm, 30.9mm, 31.6mm

15 mm

400 mm

**CARRIERCLAMP | BSP-99**

Screw-on seatpost clamp with luggage carrier mounts.

- » Mounting points for M5 threaded bolts for attaching a carrier
- » For both round aluminum and carbon seatposts
- » Made of 6061 T6 aluminium

Seatpost material	6061 T6 Aluminium
Carbon rails compatible	Yes
Clamp mechanism	Single bolt
Weight (g)	35, 36, 38
Sizes	28.6mm, 31.8mm, 34.9mm

NEW

**COLLARCLAMP | BSP-88**

Screw-on seatpost clamp with rubber cover to prevent water and dust entering the seat tube

- » Versatile clamp for carbon and aluminum seatposts
- » Made from durable 6061 T6 aluminium
- » Rubber cover keeps water and dust out of the seattube
- » Available in sizes 31.8 (27.2) and 34.9 (30.9, 31.6)

Seatpost material	6061 T6 Aluminium
Clamp mechanism	Single bolt
Weight (g)	25, 27
Sizes	31.8mm, 34.9mm

LIGHTSTRANGLER | BSP-85

Lightweight and easy to use seatpost clamp

- » Screw-on seatpost clamp
- » For carbon and aluminium seatposts
- » The double cylinder mechanism distributes the clamp force evenly

Seatpost material	6061 T6 Aluminium
Clamp mechanism	Single bolt
Weight (g)	17
Sizes	28.6mm, 31.8mm, 34.9mm, 35.8mm

THESTRANGLER | BSP-80

Screw-on seatpost clamp

- » For aluminium seatposts
- » 6061 T6 aluminium

Seatpost material	6061 T6 Aluminium
Clamp mechanism	Single bolt
Weight (g)	20
Sizes	28.6mm, 31.8mm, 34.9mm

POSTFIX | BSP-97

Aluminium collar that clamps your seatpost

- » Will be installed on top of the frame seat post clamp
- » Prevents the seat post from slipping
- » For carbon and aluminium seatposts

Weight (g)	5
Sizes	27.2mm, 31.6mm

LIGHTLEVER | BSP-86*Lightweight clamp with CNC machined quick release lever*

- » Equally divides the clamping forces
- » For carbon and aluminium seatposts

Seatpost material	6061 T6 Aluminium
Clamp mechanism	Single bolt
Weight (g)	31
Sizes	28.6mm, 31.8mm, 34.9mm

SMOOTHLEVER | BSP-87*Quick release seatpost clamp*

- » Special smooth design to avoid any leg interaction
- » For aluminium seatposts

Seatpost material	6061 T6 Aluminium
Clamp mechanism	Single bolt
Weight (g)	40
Sizes	28.6mm, 31.8mm, 34.9mm

SHIFTFIX | BSP-90*Aluminium front derailleur clamp*

- » For frame tube diameters: 31,8 and 34,9 mm

Seatpost material	6061 T6 Aluminium
Clamp mechanism	Single bolt
Weight (g)	25
Sizes	34.9mm, 31.8mm

FRAMEFIX | BSP-94

Aluminium race number clamp for mounting on the brake axle

- » Perfect solution to eliminate cable ties on frame
- » Butterfly nut for fast and easy installation

Clamp mechanism	Single bolt
Weight (g)	11

NUMBERFIX | BSP-95

Aluminium race number clamp for mounting on the seatpost

- » Perfect solution to eliminate cable ties on frame
- » Self tapping bolts for fast and easy installation
- » Rubber O-rings securely fit around the seatpost
- » Rubber protection inside for extra grip and to prevent seatpost damage

Weight (g)	11
-------------------	----

AEROFIX | BSP-96

Aluminium race number clamp for mounting on the seatpost

- » Special design for aero shaped seatposts
- » Perfect solution to eliminate cable ties on frame
- » Self tapping bolts for fast and easy installation
- » Rubber O-rings securely fit around the seatpost
- » Rubber protection inside for extra grip and to prevent seatpost damage

Weight (g)	11

FEATURES SEATPOSTS

6061 T6 ALUMINIUM

6061 T6 aluminum is a commonly used material and very strong. Due to the special hardening process, the material is suitable for every type of bicycle.

2014 T6 ALUMINIUM

2014 T6 aluminum is a lightweight and also very strong aluminum that is often used in the aviation industry.

CARBON

Carbon is known as a lightweight and excellent material for absorbing vibrations from the road surface, which increases the level of comfort. In addition, carbon is produced in a mold so that there are no welding lines. This increases the strength of the material and provides a reliable and lightweight seatpost.

SUSPENSION

Suspension seatposts are specially designed to provide maximum comfort during the ride. The suspension mechanism absorbs vibrations and shocks.

OFFSET

The seatpost setback or offset is the distance between the centerline of the seatpost and the centerline of the saddle rail clamp, where the saddle is clamped to the seatpost. A number of seatposts have a 'zero offset' in other words, the saddle rail clamp is exactly in line with the seatpost. In the case of a 15mm offset, the center of the saddle rail clamp is 15 mm behind the center of the seatpost.

LENGTH

The length of the seat post is measured from in between the saddle rails until the lower end of the seat post. The lengths vary between 340 - 400 mm to ensure a good riding position on the bike.

DIAMETER

The diameter is the outer diameter of the seatpost.

NEW!

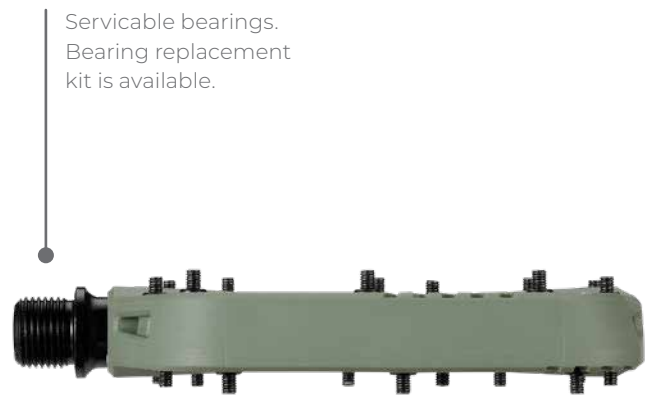

DECODER | BPD-37

Your eco-friendly mountain bike pedals

High-quality, lightweight pedals with a durable, recycled nylon composite body. The large, slightly concave platform ensures a natural grip and superior traction. Serviceable bearings and replacement kits are available for long-lasting performance.

Durable, lightweight and large platform pedal.

Serviceable bearings. Bearing replacement kit is available.

Slightly concave profile for a natural and secure fit.

ENIGMA | BPD-38

Lightweight aluminum platform MTB pedal with sealed bearings

- » Large concave platform 95*100mm(L*W)
- » Tapered pins for maximum grip
- » Only 399 grams/pair
- » Sealed cartridge + DU bearing
- » Durable anodized aluminium body

Pedal type	Flat
Shaft material	CrMo
Material pedal body	Aluminium
Bearing type	Cartridge ball bearing, DU bearing
Weight (g)	399
Color name	matt black, matt red, matt grey

**DECODER | BPD-37**

Composite platform MTB pedal with sealed bearings

NEW

- » Durable, lightweight and large platform pedal
- » Made with high quality recycled Nylon composite
- » Slightly concave profile for a natural and secure fit
- » 11 adjustable and replaceable M3 pins on each side
- » Servicable bearings. Bearing replacement kit is available.

Pedal type	Flat
Shaft material	CrMo
Material pedal body	PA+GF
Bearing type	Cartridge ball bearing, Bushing bearing
Weight (g)	396,
Color name	black, matt grey, matt green

**COOLRIDE | BPD-36**

Aluminum MTB platform pedal with sealed bearings

- » One-piece aluminium body
- » CrMo Axle
- » Double sealed bearings
- » Big platform pedals provides firm grip and control

Pedal type	Flat
Shaft material	CrMo
Material pedal body	Aluminium
Bearing type	Cartridge ball bearing
Mounting system	Allen key 8mm
Weight (g)	441
Color name	black, red, neon yellow

MOUNTAINHIGH | BPD-32

Heavy duty aluminum platform MTB pedal with DU bearings

- » Heavy-duty construction withstands the rough demands of freeriding
- » Durable aluminium body with CrMo spindle
- » Replaceable / removable grip pins

Pedal type	Flat
Shaft material	Boron steel
Material pedal body	Aluminium
Bearing type	DU bearing
Mounting system	15mm wrench
Weight (g)	592
Color name	matt black

TRAILRIDE | BPD-35

Nylon platform pedal with DU bearings

- » One piece composite body with anti-slip pin design
- » Maintenance free sealed DU bushed bearings and CNC machined CrMo axle
- » Dual built-in reflectors for extra visibility

Pedal type	Flat
Mounting system	15mm wrench
Weight (g)	335
Color name	black

TRAILMOUNT | BPD-71

SPD compatible MTB pedal with aluminium cage

- » The cage provides extra support and protection
- » Open design for easy mud release
- » Adjustable tension
- » Sealed cartridge needle bearing on crank side, cartridge ball bearing on the outside
- » SPD compatible BBB Click & Go cleats included

Pedal type	Cliplless
Shaft material	CrMo
Material pedal body	Aluminium
Bearing type	Cartridge ball bearing, Cartridge needle bearing
Cliplless system	SPD
Including cleats	Yes
Mounting system	Allen key 6mm
Weight (g)	360
Color name	matt black

FORCEMOUNT | BPD-14*SPD compatible MTB pedal*

- » Adjustable tension
- » Open design for easy mud release
- » CNC machined CrMo axle
- » Sealed plain bearing on crank side, cartridge bearing on the outside
- » SPD compatible BBB Click & Go cleats included

Pedal type	Clipless
Shaft material	CrMo
Material pedal body	Aluminium
Bearing type	Cartridge ball bearing, Cartridge needle bearing
Clipless system	SPD
Including cleats	Yes
Mounting system	Allen key 6mm
Weight (g)	294
Color name	black

TOUCHMOUNT | BPD-74*SPD compatible MTB pedal*

- » Adjustable tension
- » Strong aluminium body
- » Durable ball bearings
- » Cleats included

Pedal type	Clipless
Shaft material	CrMo
Material pedal body	Aluminium
Bearing type	Loose ball
Clipless system	SPD
Including cleats	Yes
Mounting system	15mm wrench, Allen key 8mm
Weight (g)	407
Color name	black

DUALCHOICE TRAIL | BPD-62*Pedal with two functions. One side is SPD compatible and one side is platform for flat soled shoes*

- » Platform side with pins for extra grip
- » Durable matt black aluminium body with CrMo spindle
- » Maintenance-free sealed bearings
- » Adjustable tension
- » SPD compatible BBB Click & Go cleats included

Pedal type	One Side Clipless
Shaft material	CrMo
Material pedal body	Aluminium
Bearing type	Cartridge ball bearing, Cartridge needle bearing
Clipless system	SPD
Including cleats	Yes
Mounting system	Allen key 6mm
Weight (g)	412
Color name	matt black

DUALCHOICE | BPD-61

Pedal with two functions. One side SPD compatible click mechanism, other side equipped with anti-slip aluminium cage for street shoes.

- » Durable aluminium body with CrMo spindle
- » Maintenance-free sealed bearings
- » Adjustable tension
- » Inc. SPD compatible BBB Click&Go cleats

Pedal type	One Side Clipless
Shaft material	CrMo
Material pedal body	Aluminium
Bearing type	Cartridge ball bearing, Cartridge needle bearing
Clipless system	SPD
Including cleats	Yes
Mounting system	15mm wrench, Allen key 6mm
Weight (g)	435
Color name	black

DUALCHOICE CLASSIC 2.0 | BPD-23B

Pedal with two functions: one side is SPD compatible and the other side is for normal shoes

- » Fast clip-in / clip-out mechanism with adjustable tension
- » Maintenance-free sealed industrial bearings
- » High-strength CrMo spindle
- » SPD cleats included for under your shoes
- » Dual reflectors provide extra visibility

Pedal type	One Side Clipless
Shaft material	CrMo
Material pedal body	Aluminium
Bearing type	Cartridge ball bearing
Clipless system	SPD
Including cleats	Yes
Mounting system	15mm wrench, Allen key 6mm
Weight (g)	379
Color name	black

CLICK & GO | BPD-01

Replacement SPD cleats

- » Compatible with all SPD shoes and pedals
- » Tough and light CrMo for long-lasting durability
- » Hardened steel bolts included
- » Float: 4°

Clipless system	SPD
Float (degrees)	4°
Weight (g)	53
Color name	silver

REBEL | BPD-51*Composite road pedal with Look Delta system*

- » Fiber reinforced body
- » Stainless steel wide contact area
- » Double sealed bearings
- » Cartridge bearing and DU bearing
- » 7° floating cleats (BPD-04A) included

Pedal type	Clipless
Shaft material	CrMo
Material pedal body	PA+GF
Bearing type	Cartridge ball bearing
Clipless system	Look Keo
Including cleats	Yes
Weight (g)	255
Color name	matt black

ROADCLIP | BPD-02A*Replacement cleats for Look Delta systems*

- » Compatible with Look DELTA-pedals and BBB BPD-05 RoadDynamic
- » Float: 9°

Clipless system	Look Delta
Float (degrees)	9°
Weight (g)	92
Color name	red

ROADCLIP | BPD-02F*Replacement cleats for Look Delta systems*

- » Compatible with Look DELTA-pedals and BBB BPD-05 RoadDynamic
- » Fixed cleats, 0° float

Clipless system	Look Delta
Float (degrees)	0°
Weight (g)	92
Color name	black

MULTICLIP | BPD-04A*Replacement cleats for Look Keo systems*

- » Compatible with Look KEO pedal systems
- » Float: 7.0°
- » Rubber anti-slip surface

Clipless system	Look Keo
Float (degrees)	7°
Weight (g)	49
Color name	red

MULTICLIP | BPD-04F*Replacement cleats for Look Keo systems*

- » Compatible with Look KEO pedal systems (BPD-51)
- » Fixed cleats, 0° float
- » Rubber anti-slip surface

Clipless system	Look Keo
Float (degrees)	0°
Weight (g)	49
Color name	black

POWERCLIP | BPD-06A*SPD SL Compatible cleats*

- » 6 degrees float
- » With rubber anti-slip surface

Clipless system	SPD-SL
Float (degrees)	6°
Weight (g)	62
Color name	red

POWERCLIP | BPD-06F*SPD SL compatible cleats*

- » 0 degree float
- » With rubber anti-slip surface

Clipless system	SPD-SL
Float (degrees)	0°
Weight (g)	62
Color name	black

ERGOBASE | BPD-47*Ergonomic pedal with Nylon body for E-bikes and Cargo bikes*

- » The large platform provides optimal comfort
- » Superior grip in any weather with molded pins and anti-slip surface
- » Enhance visibility with dual reflectors for added safety.
- » This pedal is EN15194 and Zeddler Advanced XXL certified

Pedal type	Flat
Material pedal body	PA
Bearing type	DU bearing
Color name	black

ERGORIDE | BPD-46*Sporty pedal for great grip*

- » Durable and lightweight one-piece body
- » Rubber anti-slip surface
- » Dual reflectors provide extra visibility
- » Suited for used on E-bikes (EN15194)
- » Boron Axle

Pedal type	Flat
Shaft material	Boron steel
Material pedal body	Aluminium
Bearing type	DU bearing
Mounting system	15mm wrench
Weight (g)	484
Color name	black

ERGOBASE HP | BPD-49

Ergonomic pedal with aluminium body for E-bikes and Cargo bikes

- » The large platform provides optimal comfort
- » Superior grip in any weather with molded pins and anti-slip surface
- » Enhance visibility with dual reflectors for added safety.
- » This pedal is EN15194 and Zeddler Advanced XXL certified

Shaft material	CrMo
Material pedal body	Aluminium
Bearing type	Cartridge ball bearing
Color name	black

EASYBASE 2.0 | BPD-48

The most versatile pedal

- » Durable and lightweight one-piece body
- » Large anti-slip surface with special sand paper-like surface
- » Comfortable with sandals and heels.
- » Dual built-in reflectors for extra visibility.
- » Maintenance free DU bearings.

Pedal type	Flat
Shaft material	Boron steel
Material pedal body	PA
Bearing type	DU bearing
Mounting system	15mm wrench
Weight (g)	315
Color name	black

COMFORTLIGHT | BPD-43

Comfortable pedal with a lot of grip

- » Aluminium body with a durable and lightweight cage
- » Rubber anti-slip surface
- » CrMo Axle
- » Cartridge bearing and DU bearing
- » Dual reflectors provide extra visibility

Pedal type	Flat
Shaft material	CrMo
Material pedal body	Aluminium
Mounting system	15mm wrench
Weight (g)	260
Color name	black

STEADYREST | BPD-45*Hold your feet steady and secure*

- » Aluminium body with a durable and lightweight cage
- » Rubber anti-slip surface
- » Boron Axle
- » Dual reflectors provide extra visibility

Pedal type	Flat
Shaft material	Boron steel
Material pedal body	Aluminium
Bearing type	Loose ball
Mounting system	15mm wrench
Weight (g)	370
Color name	black

STEADYRIDER | BPD-44*Ride your bike steady and secure*

- » Durable and lightweight one-piece body
- » Rubber anti-slip surface
- » Boron Axle
- » Dual reflectors provide extra visibility

Pedal type	Flat
Shaft material	Boron steel
Material pedal body	PA
Bearing type	Loose ball
Mounting system	15mm wrench
Weight (g)	328
Color name	black

CLASSICRIDE 2.0 | BPD-17B*Maintenance-free sealed industrial bearings*

- » High-strength CrMo spindle
- » Serrated top pattern and bottom to anchor shoes in all weather conditions
- » Dual reflectors provide extra visibility
- » Compatible with NoseTight and Bike & Tight

Pedal type	Flat
Shaft material	CrMo
Material pedal body	Aluminium
Bearing type	Cartridge ball bearing
Mounting system	15mm wrench, Allen key 6mm
Weight (g)	287
Color name	black

MOUNT & GO 2.0 | BPD-15B*Lightweight pedal with plastic body and metal cage*

- » High-strength CrMo spindle
- » Serrated top and bottom pattern to anchor shoes in all weather conditions
- » Dual reflectors provide extra visibility
- » Compatible with NoseTight and Bike & Tight

Pedal type	Flat
Shaft material	CrMo
Material pedal body	PA
Bearing type	DU bearing
Mounting system	15mm wrench, Allen key 6mm
Weight (g)	235
Color name	black

BIGFEET 2.0 | BPD-16B*High-strength cold-forged aluminium body with metal cage for optimal power distribution and stiffness*

- » Extra strong with minimum weight
- » Serrated top pattern and bottom to anchor shoes in all weather conditions
- » Dual reflectors provide extra visibility
- » High-strength CrMo spindle with smooth running loose ball bearings
- » Compatible with NoseTight and Bike & Tight

Pedal type	Flat
Shaft material	CrMo
Material pedal body	Aluminium
Bearing type	Loose ball
Mounting system	15mm wrench, Allen key 6mm
Weight (g)	250
Color name	black

FEETREST | BPD-90*Adapter that fits on one side of a SPD-compatible pedal that allows you to use ordinary street shoes*

- » Dual reflectors provide extra visibility
- » Easy installation and removal

Weight (g)	68
Color name	black

BIKE & TIGHT | BPD-30

- » Extra durable industrial-strength nylon straps
- » Made to withstand frequent use
- » Retains strength even when exposed to the elements
- » Heavy-duty high grade buckles

Weight (g)	47
Color name	black

NOSETIGHT | BPD-95

- » Strapless toe clips
- » Compatible with the BPD-15 Mount & Go, BPD-16 BigFeet and BPD-17 ClassicRide

Weight (g)	113
Color name	black

NEW!

ACTIONSTEM | BHS-52

Shock-absorbing and vibration-reducing

Improve your comfort with the shock-absorbing and vibration-reducing properties of this stem, made for 31.8 mm handlebars. The stem is ideal for all types of cyclists, but especially commuters, road cyclists, and gravel riders. The elastomers of different hardness levels determine how much shock absorption you want in the stem. Additionally, the stem is compatible with our BHS-91 StemFix and BHS-92 GoFix mounts. Available extensions from 60mm to 100mm.

Comes with 3 elastomers - soft, medium, and hard - to optimize the desired stiffness.

Up to 20 mm vertical movement for shock absorption and reduction of vibrations.

ACTIONSTEM | BHS-52

Shock-absorbing and vibration-reducing stem for 31.8mm handlebars.

- » With 0° (60mm) to +3.5° (100mm) angle, depending on length, for an active, sporty or competitive sitting position.
- » For direct mount on the steerer tube, 28.6 mm (1 1/8")
- » Comes with extra elastomers to optimize the desired shock absorption (up to 20 mm)
- » Ideal for gravel, road and commuting
- » Compatible with BHS-91 Stemfix and BHS-92 GoFix bracket

31.8 mm

Bar center diameter (mm)	31.8
Di2 Compatible	No
Fork pipe diameter (mm)	28.6mm (1 1/8")
Material	6061 T6 Aluminum
Stem type	Adjustable
Certified for	E-Bike (EN 15194), Road (EN 14781 / ISO 4210)
Compatible with	BHS-92 Gofix, BHS-91 Stemfix
Weight (g)	309,, 347, 386
Sizes	60mm, 70mm, 80mm, 90mm, 100mm

RIDER | BHS-09

Lightweight 3D forged one-piece construction stem for 31.8mm handlebars.

- » With +/- 7° angle for an active, sportive or competitive cycling position.
- » For direct mount on the steerer tube, 28.6 mm (1 1/8")
- » Polished artwork with hand soft sandblasted finish and galvanized black bolts
- » Certified to use on all types of bikes including MTB and E-bikes
- » BHS-92 GoFix bracket included and compatible with BHS-91 Stemfix and BLS-99 GoMount

31.8 mm

Bar center diameter (mm)	31.8
Di2 Compatible	No
Fork pipe diameter (mm)	28.6mm (1 1/8")
Material	6061 T6 Aluminum
Stem type	Fixed
Angle (degrees)	-7 / +7
Bracket included	BHS-92 Gofix
Certified for	E-Bike (EN 15194), MTB (EN 14766 / ISO 4210), Road (EN 14781 / ISO 4210), Touring (EN 14764 / ISO 4210)
Compatible with	BHS-91 Stemfix, BHS-92 Gofix, BLS-99 GoMount
Weight (g)	110, 130, 140
Sizes	50mm, 60mm, 70mm, 80mm, 90mm, 100mm, 110mm, 120mm

ROADFORCE 31.8MM | BHS-08

Lightweight and durable stem for 31.8mm handlebars.

- » With +/- 6° angle for an active, sportive or competitive cycling position.
- » For direct mount on the steerer tube, 28.6 mm (1 1/8")
- » Matte sandblasted finish and galvanized black bolts
- » Certified to use on all types of bikes including MTB and E-bikes
- » Compatible with BHS-91 Stemfix and BHS-92 GoFix bracket

**AEROMAX | BHB-60**

J-bend aerobar for optimized aerodynamics with multi-adjustable and replaceable PU arm pads

- » Separate armrest clamps for maximum adjustability
- » Extra long J-bend bars
- » Multi adjustable arm pads and replaceable foam pads
- » Convenient clamping mechanism compatible with 31,8/25.4mm handlebars

Material	6061 T6 Aluminum
Bar center diameter (mm)	25.4, 31.8
Aerobar bend type	J-bend
Aerobar length (mm)	350
Armpad material	PU
Replaceable armpad	Yes
Weight (g)	540
Color name	black

25.4 mm

31.8 mm

**AEROBASE | BHB-52**

Ergo-bend aerobar with multi-adjustable and replaceable EVA arm pads

- » Convenient clamping mechanism compatible with 25,4/31,8 mm handlebars
- » Foam padded arm supports
- » Adjustable extension length and multiple possible positions for arm pads

Material	6061 T6 Aluminum
Bar center diameter (mm)	25.4, 31.8
Aerobar bend type	Ergo-bend
Aerobar length (mm)	365
Armpad material	EVA
Replaceable armpad	Yes

31.8 mm

**AEROLIGHT | BHB-58**

S-Bend aerobar with multi-adjustable and replaceable EVA arm pads

- » Convenient clamping mechanism compatible with 25,4/31,8 mm handlebars
- » Foam padded arm supports
- » Adjustable extension length and multiple possible positions for arm pads

Material	6061 T6 Aluminum
Bar center diameter (mm)	25.4, 31.8
Aerobar bend type	S-bend
Aerobar length (mm)	333
Armpad material	EVA
Replaceable armpad	Yes
Weight (g)	457
Color name	black

25.4 mm

31.8 mm

AEROCOMFORT | BHB-59

Comfortable aero-handlebars with width-adjustable EVA arm pads

- » 35mm rise for extra comfortable position
- » Foam padded arm rests
- » Foam sleeves on the bars for extra comfort
- » Easy to install system compatible with 31.8, 25.4 and 22.2mm handlebars

Material	6061 T6 Aluminum
Bar center diameter (mm)	22.2, 25.4, 31.8
Aerobar bend type	Ergo-bend
Aerobar length (mm)	282
Armpad material	EVA
Replaceable armpad	No
Weight (g)	630, 540
Color name	black

HORIZON | BHB-09

Flat MTB handlebar for aggressive riding style

- » Made out of lightweight and super strong aluminium
- » Extra wide, 760 mm, for optimal control
- » Can be shortened to your own preference

Material	6061 T6 Aluminum
Bar center diameter (mm)	31.8
Rise (mm)	0
Backsweep (degrees)	9
Upsweep (degrees)	0
Di2 Compatible	No
Width (mm)	760
Weight (g)	330
Color name	black

HORIZON | BHB-09Di2

Flat MTB handlebar for agile riding style

- » Made out of lightweight and super strong aluminium
- » Di2 compatible
- » Extra wide, 760 mm, for optimal control
- » Can be shortened to your own preference

Material	6061 T6 Aluminum
Bar center diameter (mm)	31.8
Rise (mm)	0
Backsweep (degrees)	9
Upsweep (degrees)	0
Di2 Compatible	Yes
Width (mm)	780

RACER | BHB-35*Zero flare drop bar designed for road bikes*

- » Oversized for strength, stiffness and lightweight
- » Compact drop and ergonomic shaped bar
- » Made out of lightweight and super strong aluminium
- » Partly flattened at the top

Material	6061 T6 Aluminum
Bar center diameter (mm)	31.8
Reach (mm)	70
Drop (mm)	125
Flare angle (degrees)	0
Di2 Compatible	Yes
Width (mm)	380, 400, 420, 440
Weight (g)	337
Color name	black

Di2

31.8 mm

GRAVELLER | BHB-36*Flared drop bar for more control on gravel roads*

- » Also suited for beachracers
- » Compact drop and ergonomic shaped bar
- » Di2 compatible
- » More space for bikepacking handlebar bags
- » More space for bikepacking handlebar bags

Material	6061 T6 Aluminum
Bar center diameter (mm)	31.8
Reach (mm)	70.2
Drop (mm)	130
Flare angle (degrees)	16
Di2 Compatible	Yes
Width (mm)	420, 440
Weight (g)	360, 370
Color name	black

Di2

31.8 mm

MULTIBAR | BHB-30*Multi-position handlebar designed for maximum comfort***25.4 mm**

- » The ergonomic design of these handlebars allows multiple hand positions.
- » Combine with the MultiFoam (BHG-27) or Exclusive (BHG-29) grips for maximum comfort.

Material	6061 T6 Aluminum
Bar center diameter (mm)	25.4
Di2 Compatible	No
Width (mm)	570
Weight (g)	570
Color name	black

MULTIBAR OS | BHB-30OS*Multi-position handlebar designed for maximum comfort***31.8 mm**

- » The ergonomic design of these handlebars allows multiple hand positions.
- » Combine with the MultiFoam (BHG-27) or Exclusive (BHG-29) grips for maximum comfort.

Material	6061 T6 Aluminum
Bar center diameter (mm)	31.8
Width (mm)	570
Weight (g)	570
Color name	black

BARMOUNT | BHB-91*Alloy bracket with 70mm width to provide extra accessory mounting capabilities***31.8 mm**

- » A solution to mount more accessories on the cockpit
- » For mounting on 31.8mm handlebars
- » Can be mounted left as well as right from the bracket
- » Can be mounted left as well as right from the bracket

Material	6061 T6 Aluminum
Bar center diameter (mm)	31.8
Color name	black

UNIFIX | BHB-90*Universal handlebar clamp*

» Can be used to fix a bottle cage, bag etc.

Material	Aluminium
Weight (g)	47,54
Color name	black

NEW!

RACERIBBON ECO | BHT-01ECO

Exceptional grip with eco-friendly materials

Premium handlebar tape made from 30% post-industrial recycled EVA foam. This tape offers a firm, non-slip, and shock-absorbent grip. Ride sustainably with high-quality materials, ensuring performance and eco-friendliness on every ride.

Each roll is long enough to ensure complete coverage on all handlebar sizes.

Stretch material makes it easy to wrap around the handlebars.

RACERIBBON ECO | BHT-01ECO

Durable EVA foam road bike handlebar tape for a firm and shock-absorbing grip

- » Stretchable 2.5mm thick material makes it easier to wrap around the handlebar
- » EVA foam gives you a good grip and is shock-absorbing
- » Made of 30% recycled EVA foam and plastic end plugs from post-industrial waste (PIR)
- » Easily replace your handlebar tape: the RaceRibbon has a waterproof adhesive layer
- » Finishing tape and handlebar plugs included

Tape thickness (mm)	2.5
Material	Recycled EVA
Grip	Better
Damping	Average
Fixation	Glue strip
Handlebar plugs included	Yes
Finishing tape included	Yes
Weight (g)	46
Color name	black speckle, black

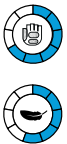

RACERIBBON | BHT-01

Road bike handlebar tape made of EVA foam for a firm and shock-absorbing grip

- » Stretchable 2.5mm thick material makes it easier to wrap around the handlebar
- » The RaceRibbon has a waterproof adhesive layer to make handlebar tape replacement easy
- » Handlebar tape including finishing tape and bar end plugs
- » 200 cm long roll of handlebar tape for full coverage on all handlebars

Tape thickness (mm)	2.5
Material	Cork, EVA Foam
Grip	Better
Damping	Average
Fixation	Glue strip
Handlebar plugs included	Yes
Finishing tape included	Yes
Weight (g)	61
Color name	golden brown, olive green, grey, green, black, blue, red, yellow, white, black cork, white cork

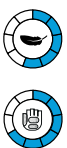

RACERIBBON | BHT-010EM

Workshop box with 25 pairs of BHT-01 RaceRibbon in black color

- » The box is made of 100% recycled material and uses no plastics
- » Plastic packaging wraps have been replaced with paper
- » Finishing tape and handlebar plugs included

Tape thickness (mm)	2.5
Grip	Better
Damping	Average
Fixation	Glue strip
Handlebar plugs included	Yes
Finishing tape included	Yes
Color name	black

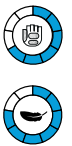

RACERIBBON GEL | BHT-05

Extra thick 3.5 mm EVA foam handlebar tape for the best grip and shock absorption

- » Gel adhesive layer on the back for easy and residue-free wrapping
- » Wrapping handlebar tape: even easier thanks to the strong and stretchable polyurethane material
- » A lot of comfort: even off-road or on rough pavement
- » Including finishing tape and bar end plugs» 200 cm long roll of handlebar tape for full coverage on all handlebars

Tape thickness (mm)	3.5

FEATURES HANDLEBAR TAPES

**COMFORT**

A handlebar tape absorbs the uncomfortable vibrations. A handlebar tape that offers little damping gives a lot of feedback about the driving surface and you mainly use it on smooth asphalt roads. If you are going for longer bike rides or riding on rough terrain, more damping is pleasant and offers more advantages compared to the feedback that you receive via the handlebars about the driving surface. All our bar tapes have a comfort level between 1 and 9 to give an indication of the amount of comfort.

THICKNESS

The thickness of the handlebar tape has a significant impact on comfort, with personal preference playing a major role. In fact, the thickness of the handlebar tape determines the thickness of your handlebar. A thicker handlebar tape means a larger contact surface, distributing your weight and improving blood circulation, thus reducing hand fatigue. However, a handlebar tape that makes your handlebar too thick can also be uncomfortable. Individuals with smaller hands may find it difficult to wrap their hands comfortably around the handlebar. In such cases, opting for a thinner handlebar tape is advisable. The thickest handlebar tapes are 3.5mm and are specifically designed to provide extra comfort and absorb vibrations. The remaining handlebar tapes are 2.5mm thick and can be considered a balanced and comfortable thickness.

**GRIP**

Grip is the most important specification of a handlebar tape. A little less comfort is annoying, but losing grip on the handlebars could be fatal. All our bar tapes have a grip level between 1 and 9 to give an indication of the amount of grip. This does not mean that the handlebar tapes with the best grip also suit you best. Some cyclists would like to have freedom of movement and being able to easily move their hands on the handlebars.

BACKING LAYER

As a backing layer there is a choice between gel and glue. A gel backing layer provides extra damping and also ensures that the handlebar tape is easy to apply. If you are not satisfied with the result, you can easily reapply the handlebar tape. An adhesive backing layer does not provide extra cushioning, but simply ensures that the handlebar tape is properly fixed.

MATERIAL

The materials used for handlebar tapes are fundamental to the level of comfort. BBB handlebar tapes are made of PU, EVA and Microfiber. Each material has its own advantages. PU or polyurethane is mainly used in handlebar tapes with a lot of flexibility. PU can be wrapped tightly around the handlebars very easily without creating wrinkles. In addition, PU is easy to clean and repels water and mud. EVA or Ethylene vinyl acetate is a proven good material and offers very high comfort and damping capacity. In addition, it provides a firm grip and a comfortable contact surface for the hands. Microfiber is known as a strong and abrasion-resistant material. A microfiber handlebar tape lasts a long time, is very easy to clean and maintains a good appearance.

NEW!**KINGCOMFORT | BHG-121**

Ergonomic and sustainable grips

Ergonomically designed grips for maximum comfort and control. Featuring an anti-slip structure and made from the best available material: VEXT. The grip core and end caps are made from 80% recycled plastic from ocean waste. The grip and end-cap or bar-end are attached to the bike with a locking system using one screw. Thanks to the 80mm bar-end, you have multiple options to hold it, with one, two or three fingers on the inside of the bar-end.

Improved anatomic design to distribute pressure and to avoid pain in the wrists.

Special one screw locking system prevents slippage on the handlebar, and locks the end-cap or bar-end.

Bar-ends available separately or as set with grips (BHG-125).

**KINGCOMFORT | BHG-121**

NEW

Ergonomically designed grips made from the highest quality VEXT materials for optimal performance and lifetime

- » Very comfortable due to the improved anatomic shape and gel support, to distribute pressure and to avoid pain in the wrists
- » Anti-slip texture for optimal grip
- » Special one screw locking system prevents slippage on the handlebar, and locks the end-cap or bar-end
- » The grip core and end-caps are made of 80% recycled ocean waste plastics
- » Bar-ends available separately or as set with grips (BHG-125)

Length Grips (mm)	135 mm
Lockring	Yes
Material	Recycled PP, Vext
Compatible with	Bar ends
Handlebar plugs included	Yes
Ergonomic grip	Yes
Weight (g)	209
Color name	black

**KINGCOMFORT SET | BHG-125**

NEW

Combination set of comfortable, ergonomically designed grips made from the highest quality VEXT materials, including 80 mm bar-ends

- » Very comfortable due to the improved anatomic shape and gel support, to distribute pressure and to avoid pain in the wrists
- » Anti-slip texture for optimal grip
- » Special one screw locking system prevents slippage on the handlebar, and locks the end-cap or bar-end
- » The grip core and end-caps are made of 80% recycled ocean waste plastics
- » Bar-ends of 80mm offer multiple comfortable hand positions to hold onto, and including end-caps in case of riding without bar-ends

Length Grips (mm)	135 mm
Lockring	Yes
Material	Recycled PP, Vext
Compatible with	Bar ends
Handlebar plugs included	Yes
Ergonomic grip	Yes
Bar ends included	Yes
Weight (g)	293
Color name	black

Weight (g)	132
Color name	black

**LEATHERFIX | BHG-16**

Ergonomically designed kraton grips with real leather cover

- » Perfect fit and extra support to the palm
- » Screw-on interface prevents slippage on the handlebar

Length Grips (mm)	135 mm
Lockring	Yes
Material	Kraton, Leather
Compatible with	Bar ends
Handlebar plugs included	Yes
Ergonomic grip	Yes
Weight (g)	198
Color name	black

**LEATHERFIX | BHG-16N**

Ergonomically designed kraton grips with real leather cover

- » Special version for twist grip gear systems
- » Perfect fit and extra support to the palm
- » Screw-on interface prevents slippage on the handlebar

Length Grips (mm)	92 mm / 135 mm
Lockring	Yes
Material	Kraton, Leather
Compatible with	Bar ends, Gripshift
Handlebar plugs included	Yes
Ergonomic grip	Yes
Weight (g)	180
Color name	black

**BOA | BHG-103**

Ergonomically designed kraton/cork grips with gel palm support.

- » Very comfortable due to the anatomic shape and hand support.
- » Two end-caps included

Length Grips (mm)	130 mm
Material	Gel, Kraton
Ergonomic grip	Yes
Weight (g)	128
Color name	black/dark grey

**BOA | BHG-104**

Ergonomically designed kraton/cork grips with gel palm support.

- » Very comfortable due to the anatomic shape and hand support
- » Special version for twist grip gear systems
- » Two end-caps included

Length Grips (mm)	92 mm / 130 mm
Material	Gel, Kraton
Compatible with	Gripshift
Ergonomic grip	Yes
Weight (g)	123
Color name	black/dark grey

BOA | BHG-105

Ergonomically designed kraton/cork grips with gel palm support.

- » Very comfortable due to the anatomic shape and hand support
- » Special version for twist grip gear systems.

Length Grips (mm)	92 mm
Material	Gel, Kraton
Compatible with	Gripshift
Ergonomic grip	Yes
Weight (g)	96
Color name	black/dark grey

PYTHON | BHG-95

Grips designed for the optimal combination of grip and feel

- » Keeps your grip under the most extreme circumstances
- » Slip-free hexagon surface
- » Available in 6 different colours

Length Grips (mm)	142 mm
Lockring	Yes
Material	Vexk
Weight (g)	79
Color name	black, red, white, neon yellow, moss green, blue

COBRA | BHG-96

Ergonomic and super comfortable co-molded kraton grips with gel palm support

- » Co-molded kraton grips with gel palm support
- » Very comfortable due to the slight anatomic shape
- » Optimal for long endurance, hand draining rides
- » Slip-free hexagon surface

Length Grips (mm)	142 mm
Lockring	Yes
Material	Gel, Kraton
Ergonomic grip	Yes
Weight (g)	126
Color name	black/dark grey, black/neon yellow, black/red, black/blue

VIPER | BHG-97

Kraton grips with gel palm support and surface pattern gives excellent gripping traction.

- » Surface pattern gives excellent gripping traction
- » Two end-caps included
- » Made out of soft dual-density material

Length Grips (mm)	130 mm
Lockring	No
Material	Gel, Kraton
Compatible with	Bar ends
Handlebar plugs included	Yes
Weight (g)	121
Color name	black/grey, black/blue, black/red

Length Grips (mm)	400 mm
Material	Leather, Soft Foam
Compatible with	Bar ends
Handlebar plugs included	Yes
Weight (g)	17
Color name	black

**CLASSIC | BBE-07**

Super comfortable bar ends with a slightly curved shape

- » One-piece design for ultimate durability.
- » Gentle curved design follows the contours of your hand.
- » Superior strength and stiffness.
- » Made from 3D forged 6061 T6 aluminum.

Length (mm) (BarEnds)	150 mm
Material	6061 T6 Aluminum
Weight (g)	144,
Color name	black, silver

**TRAILMONKEY | BBE-01**

Comfortable bar ends to combat every trail!

- » Ergonomic design for maximum comfort.
- » One-piece clamp with hex bolts for secure handlebar mounting.
- » Made from 3D forged 6061 T6 aluminum.

Length (mm) (BarEnds)	100 mm
Material	6061 T6 Aluminum
Weight (g)	118
Color name	black

**THREE-D | BBE-05**

Straight bar ends with an anatomically shaped end for maximum comfort and grip

- » One-piece design for ultimate durability.
- » Made from 3D forged 6061 T6 aluminum.

Length (mm) (BarEnds)	105 mm
Material	6061 T6 Aluminum
Weight (g)	129
Color name	black

**THREE-D FORGED | BBE-08**

Straight bar ends with an anatomically shaped end for maximum comfort and grip

- » One-piece design for ultimate durability.
- » Lightweight with superior strength and stiffness.
- » Anatomically shaped for a firm and comfortable grip.
- » Follows the natural contours of your hands
- » Made from 3D forged 6061 T6 aluminum.

Length (mm) (BarEnds)	105 mm
Material	6061 T6 Aluminum
Weight (g)	119
Color name	black

LIGHTCURVED | BBE-18*Super comfortable bar ends with a slightly curved shape*

- » One-piece design for ultimate durability.
- » Lightweight with superior strength and stiffness.
- » Anatomically shaped for a firm and comfortable grip.
- » Made from 3D forged 6061 T6 aluminum.

Length (mm) (BarEnds)	150 mm
Material	6061 T6 Aluminum
Weight (g)	151
Color name	black

LIGHTSTRAIGHT | BBE-17*Simple but comfortable bar ends*

- » One-piece design for ultimate durability.
- » Lightweight with superior strength and stiffness.
- » Anatomically shaped for a firm and comfortable grip.
- » Made from 3D forged 6061 T6 aluminum.

Length (mm) (BarEnds)	95 mm
Material	6061 T6 Aluminum
Weight (g)	123
Color name	black

PLUG & PLAY | BBE-50*Bar ends caps to give your bike a nice and classy finish*

- » High-quality replacement end plugs.
- » Durable and lightweight.
- » One size fits all

Material	Nylon
Weight (g)	6
Color name	black

CITYKICK | BKS-05

Universal kickstand, can be installed on almost all city and trekking bikes

- » Adjustable length, without use of any tools
- » Quick Fold Mechanism (QFM), easy to fold away and deploy
- » Extra wide composite footrest for more stability

Mounting system	Center mount
Materials	Steel
Amount of bolts	Single bolt
Adjustable	Length
Wheel size (inch)	26, 27.5, 28, 29
Weight (g)	322
Color name	black

**CONNECTKICK 18 | BKS-06**

Robust kickstand for your city bike

- » Direct mount on your bicycle with 18mm mount system
- » Adjustable length without the use of any tools
- » Quick Fold Mechanism (QFM), easy to fold away and deploy
- » Extra stable due to the big composite footrest.

Mounting system	Chain stay (non drive side)
Materials	Steel
Amount of bolts	Two bolt
Adjustable	Length
Wheel size (inch)	26, 27.5, 28, 29
Weight (g)	307
Color name	black

**CONNECTKICK 40 | BKS-07**

Robust kickstand for your city bike

- » Direct mount on your bicycle with 40mm mount system
- » Adjustable length without the use of any tools.
- » Quick Fold Mechanism (QFM), easy to fold away and deploy
- » Extra stable due to the big composite footrest.

Mounting system	Chain stay (non drive side)
Materials	Steel
Amount of bolts	Two bolt
Adjustable	Length
Wheel size (inch)	26, 27.5, 28, 29
Weight (g)	318
Color name	black

**UNIKICK CLAMPMOUNT | BKS-08**

Kickstand with universal clamp mount and adjustable length

- » Adjustable in length without the use of any tools.
- » Quick Fold Mechanism (QFM), easy to fold away and deploy
- » Extra stable due to the big composite footrest.

Mounting system	Chain stay (non drive side)
Materials	Steel
Amount of bolts	Three bolts
Adjustable	Length
Wheel size (inch)	20, 22, 24, 26, 27.5, 28, 29
Weight (g)	385, 375
Color name	matt black, black

**SIDEKICK | BKS-01**

Universal and adjustable kickstand, can be installed on almost all sport bikes

- » Kickstand adjustable in length and angle
- » Quick Fold Mechanism (QFM), easy to fold away and deploy
- » Extremely stable design

Mounting system	Chain stay (non drive side)
Materials	Steel
Amount of bolts	Three bolts
Adjustable	Angle, Length
Wheel size (inch)	26, 27.5, 28, 29
Weight (g)	265
Color name	black

**MULTIKICK | BKS-04**

Universal and adjustable kickstand, can be installed on almost all sport bikes

- » Multi-adjustable length and angle
- » Quick Fold Mechanism (QFM), easy to fold away and deploy

Mounting system	Chain stay (non drive side)
Materials	Steel
Amount of bolts	Three bolts
Adjustable	Angle, Length
Wheel size (inch)	26, 27.5, 28, 29
Weight (g)	278
Color name	black

**QUICKKICK KIDS | BKS-02K**

Kids version kickstand for installation on the wheel quick release

- » Also compatible with disc brake bikes
- » Quick Fold Mechanism (QFM), easy to fold away and deploy

Mounting system	Quick releases
Materials	Steel
Amount of bolts	Single bolt
Adjustable	Length
Wheel size (inch)	16, 18, 20, 22
Weight (g)	165
Color name	black

LIGHTBLOCK | BQR-11*Secure attachment and a lightweight design*

- » Lightweight fully CNC machined levers
- » Durable titanium axle
- » Corrosion-resistant springs

Length Quick Release (mm)	100 mm, 130 mm
Weight (g)	52
Color name	black

WHEELBLOCK | BQR-01*Make sure your wheels are free to spin and secured attached to your bike*

- » Durable and lightweight aluminium
- » Jam-free mechanism
- » Corrosion-resistant springs

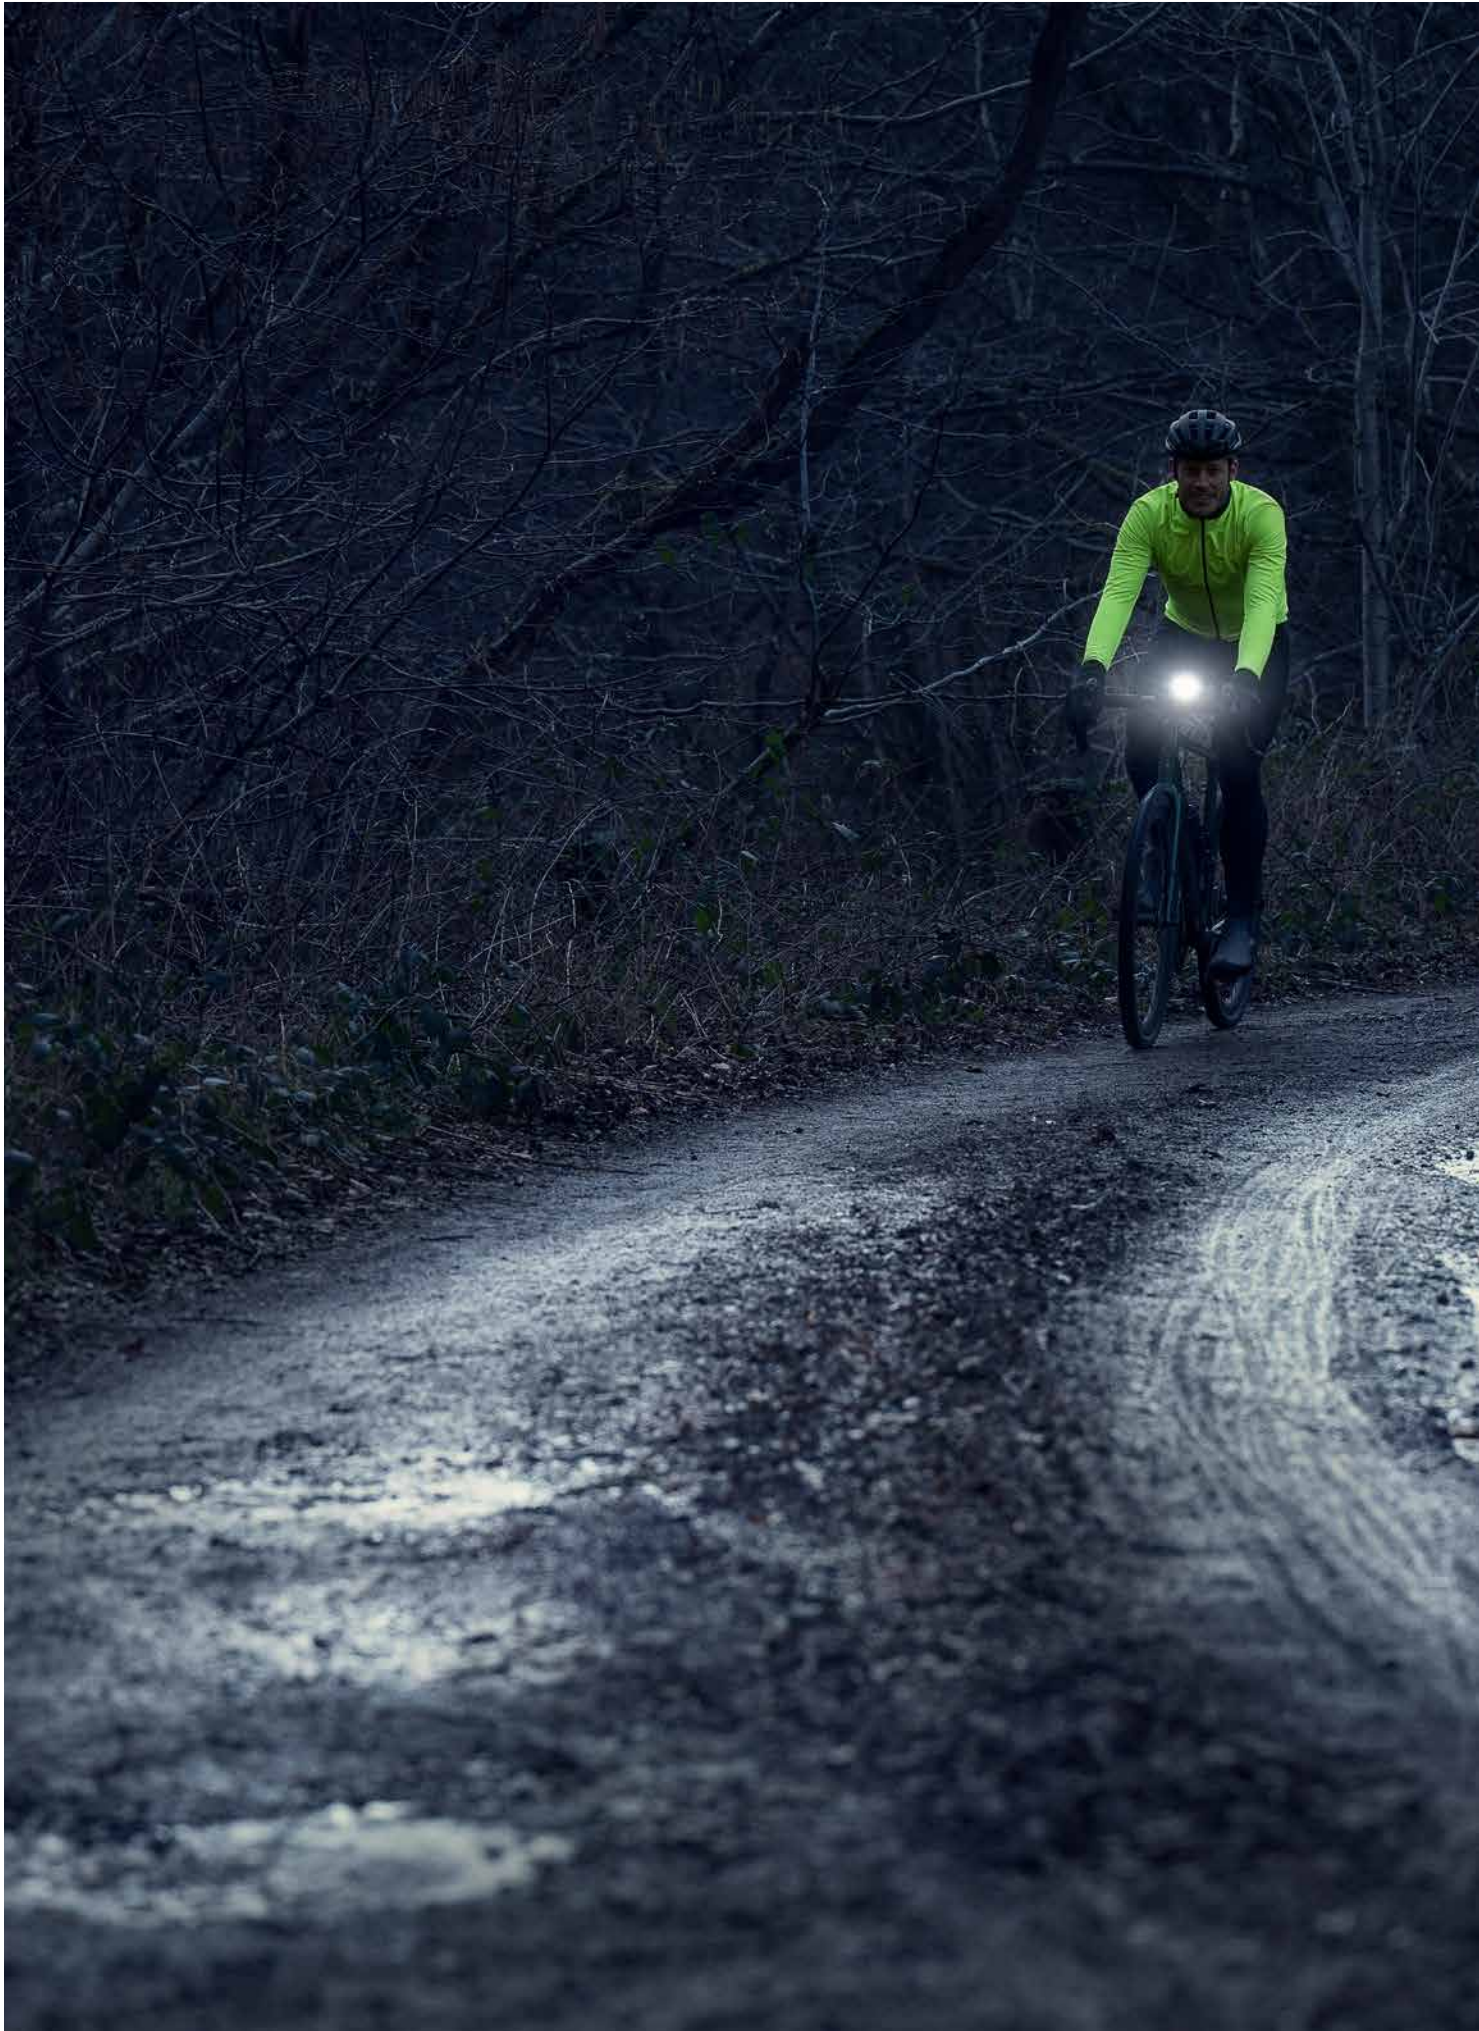

Length Quick Release (mm)	100 mm, 135 mm
Weight (g)	87
Color name	black

WHEELFIXED | BQR-03*Stylish look and a safe attachment*

- » Fixation with a hex key, that prevents a fast theft of your wheels
- » Longer nut makes it possible to use these quick releases safely on most mountain bikes and road bikes
- » Durable and lightweight aluminium
- » Corrosion-resistant springs

Length Quick Release (mm)	100 mm, 135 mm
Weight (g)	78
Color name	black

130 LUMEN

**STRIKEDUO 1600 INDICATOR COMBO | BLS-176i**

Set of StrikeDuo 1600i headlight, wireless remote control and Signal Pro rear light.

- » The brightest comboset in our range
- » With the wireless remote control you can easy operate the light even when it is placed out of reach
- » USB-C rechargeable

USB type	USB-C
-----------------	-------

**STRIKEDUO 1200 COMBO | BLS-174**

Set of StrikeDuo 1200 (BLS-171) headlight with Signal (BLS-137) rear light.

- » USB-cables included

USB type	Micro USB, USB-C
Waterproof level	IPX4, IPX7
Weight (g)	114

NANOSTRIKE 600 COMBO | BLS-165*Powerful allround lighting set for multi-purpose use*

- » Set of NanoStrike 600 (BLS-161) headlight with Signal (BLS-137) rear light
- » Micro USB-cables included

USB type	Micro USB
Weight (g)	124

NANOSTRIKE 400 COMBO | BLS-164*Powerful allround lighting set for multi-purpose use*

- » Set of NanoStrike 400 (BLS-130) headlight with Spark 2.0 (BLS-151) rear light
- » Micro USB-cables included

USB type	Micro USB
Weight (g)	117

STUD 50 COMBO | BLS-231*Set of the Stud 50 (BLS-230) headlight and Slide (BLS-236) rear light*

- » USB-cables included

Light source	LED
USB type	Micro USB
Waterproof level	IPX4

STUD 33 COMBO | BLS-144

Set of the Stud 33 (BLS-143) headlight and Salute (BLS-145) rear light

- » Micro USB-cables included
- » Runtime Safety mode: extends runtime with at least three hours of flash
- » Stud strap can be easily mounted to your handlebar with the strap
- » With the memory mode the light goes on in the last used mode

Light source	LED
USB type	Micro USB
Waterproof level	IPX4, IPX5
Weight (g)	97

**SIGNAL PRO | BLS-168**

The bigger, brighter and better brother of our iconic Signal rear light

- » Provides you optimal day time visibility due to its 250 Lumen Day Flash mode
- » The 8 LEDs on both sides will show you the real time battery status
- » Experience 270-degree visibility and dynamic flash patterns with the efficiency of Two COB areas
- » Easy operation, even with winter gloves
- » Strapmount fits on Ø 5 - 45 mm and has self locking USB port for optimal waterproofness

Modes	Dayflash, Flash, High, Low, Steady Flash
Light source	COB
Max. burn time (hours)	21
Max. lumen in steady mode (lm)	80
Charge time (hours)	2:10
USB type	USB-C
Waterproof level	IPX7

**SIGNALBRAKE | BLS-167**

High Power rear light with brake function

- » The light activates to 50 Lumen when you brake and automatically goes to standby mode when the bike stands still for three minutes
- » Runtime Safety mode: extends runtime with at least four hours of flash
- » Memory mode: the light goes on in the last used mode
- » Strap mount fits on Ø 5 - 42 mm seatposts
- » Self locking USB port for optimal waterproofness

Modes	Dayflash, Flash, Steady Flash, Steady
Light source	COB
Max. burn time (hours)	42
Max. lumen in steady mode (lm)	20
Charge time (hours)	1:45
USB type	Micro USB
Waterproof level	IPX7
Weight (g)	34

SIGNAL | BLS-137

Slim but powerful LED rear light that can be placed it in all directions

- » Large COB LED area for optimal (side) visibility
- » Strapmount fits on Ø 5 - 42 mm and has self locking USB port for optimal waterproofness
- » Runtime Safety mode: Extends runtime with at least 4 hours in Flash mode
- » Day Flash mode (50lm) for daytime visibility
- » Memory mode: The light goes on in the last used mode

Modes	Dayflash, Flash, High, Low, Standard
Light source	COB
Max. burn time (hours)	31
Max. lumen in steady mode (lm)	20
Charge time (hours)	1:45
USB type	Micro USB
Waterproof level	IPX7
Weight (g)	29

SIGNAL | BLS-136

Slim but powerful LED headlight that can be placed it in all directions

- » Large COB LED area for optimal (side) visibility
- » Strapmount fits on Ø 5 - 42 mm and has self locking USB port for optimal waterproofness
- » Runtime Safety mode: Extends runtime with at least 4 hours in Flash mode
- » Day Flash mode (100lm) for daytime visibility
- » Memory mode: The light goes on in the last used mode

Modes	Dayflash, Flash, High, Low, Standard
Light source	COB
Max. burn time (hours)	35
Max. lumen in steady mode (lm)	57
Charge time (hours)	1:45
USB type	Micro USB
Waterproof level	IPX7
Weight (g)	29

SIGNAL | BLS-138

Lighting set for maximum visibility, night and day

- » Set of Signal headlight with Signal rear light BLS-136 / BLS-137

USB type	Micro USB
Weight (g)	58

**SPIRIT | BLS-226**

Powerful and multifunctional rear light

- » Innovative 8 LED battery indicator will show you the battery status every time you use the light
- » Self locking USB port for optimal waterproofness and protection
- » Comes with a strapmount that fits on bars of almost any diameter and a saddles rails bracket.
- » With the memory mode the light goes on in the last used mode
- » Runtime Safety mode that extends runtime with at two extra hours of flash to bring you home safely

Modes	Dayflash, Flash, High, Low, Steady Flash, Sweep, Round Pulse, Dynamic circle, Pulse
Light source	LED
Max. burn time (hours)	40
Max. lumen in steady mode (lm)	12
Charge time (hours)	2
USB type	Micro USB
Waterproof level	IPX7
Weight (g)	28

**SPIRIT | BLS-225**

Powerful and multifunctional headlight

- » Innovative 8 LED battery indicator will show you the battery status every time you use the light
- » Self locking USB port for optimal waterproofness and protection
- » Strapmount fits on bars of almost any diameter
- » With the memory mode the light goes on in the last used mode
- » Runtime Safety mode that extends runtime with at two extra hours of flash to bring you home safely

Modes	Dayflash, Flash, High, Low, Steady Flash, Sweep, Round Pulse, Dynamic circle, Pulse
Light source	LED
Max. burn time (hours)	40
Max. lumen in steady mode (lm)	30
Charge time (hours)	2:00
USB type	Micro USB
Waterproof level	IPX7
Weight (g)	28

SPIRIT | BLS-227

Set of Spirit headlight with rear light

- » Rechargeable with the supplied micro USB cable
- » Including saddle rails bracket for the rear light (BLS-229)

Weight (g)	56
-------------------	----

SPARK 2.0 | BLS-152

Like a Spark in the night

- » Runtime Safety mode: Extends runtime with at least 2 hours of Flash
- » Day Flash mode (20lm) for daytime visibility
- » Strapmount fits on Ø5-42mm and has self locking USB port for optimal waterproofness
- » Memory mode: The light goes on in the last used mode
- » Seatpost angle correction

Modes	Dayflash, Flash, High, Low
Light source	LED
Max. burn time (hours)	28
Max. lumen in steady mode (lm)	10
Charge time (hours)	1:45
USB type	Micro USB
Waterproof level	IPX7
Weight (g)	23

SPARK 2.0 | BLS-151

Like a Spark in the night

- » Runtime Safety mode: Extends runtime with at least 2 hours of Flash
- » Day Flash mode (100lm) for daytime visibility
- » Strapmount fits on Ø5-42mm and has self locking USB port for optimal waterproofness
- » Memory mode: The light goes on in the last used mode

Modes	Dayflash, Flash, High, Low
Light source	LED
Max. burn time (hours)	27
Max. lumen in steady mode (lm)	45
Charge time (hours)	1:45
USB type	Micro USB
Waterproof level	IPX4
Weight (g)	26

SPARK 2.0 COMBO | BLS-153

Powerful allround lighting set for multi-purpose use

- » Set of Spark 2.0 (BLS-151) headlight with Spark 2.0 (BLS-152) rear light
- » Micro USB-cables included

USB type	Micro USB
Weight (g)	59

**SLIDE | BLS-236**

Compact USB rechargeable rearlight for visibility with multiple mounting options

- » Strap bracket included for fast and flexible mounting, fits on Ø 5 - 45 mm
- » Unique sliding system to cover the USB port
- » Runtime Safety mode: Extends runtime with at least 3 hours in Flash mode
- » The innovative 8 LED battery indicator will show you the battery status every time you put the light on or off
- » With the memory mode the light goes on in the last used mode

Modes	Dayflash, Flash, High, Low, Steady Flash
Light source	LED
Max. lumen in steady mode (lm)	16
Charge time (hours)	1
USB type	Micro USB
Waterproof level	IPX4

**SLIDE | BLS-235**

Compact and multifunctional headlight with clip and strap

- » Unique waterproof sliding system to cover the USB port
- » Runtime Safety mode: Extends runtime with at least 3 hours in Flash mode
- » The innovative 4 LED battery indicator will show you the battery status every time you put the light on or off
- » With the memory mode the light goes on in the last used mode

Modes	Dayflash, Flash, High, Low, Steady Flash
Light source	LED
Max. burn time (hours)	48
Max. lumen in steady mode (lm)	50
Charge time (hours)	1
USB type	Micro USB
Waterproof level	IPX4

SLIDE | BLS-237

Set of Slide front and rear light (BLS-235 & BLS-236)

- » Micro USB-cables included

Light source	LED
USB type	Micro USB
Waterproof level	IPX4

**SALUTE | BLS-145**

Fits perfectly on seatposts due to the sloped backside

- » Runtime Safety mode that extends runtime with three extra hours of flash mode to bring you home safely
- » Strapmount fits on Ø5-42mm bars
- » Self-locking USB port for optimal waterproofness and protection
- » With the memory mode the light goes on in the last used mode
- » Contains day flash mode for daytime visibility

Modes	Dayflash, Flash, High, Low
Light source	LED
Max. burn time (hours)	28
Max. lumen in steady mode (lm)	8
USB type	Micro USB
Waterproof level	IPX5
Weight (g)	26

**STRIKEDUO | REMOTE WIRELESS | BLS-178i**

Wireless Remote Control for StrikeDuo 1600i

- » Operate your headlight with this wireless remote control
- » Easy to mount with the flexible strap
- » Longlasting and easy to replace battery
- » Compatible with BLS-172i StrikeDuo 1600i headlight

Waterproof level	IPX5
-------------------------	------

**STRIKEDUO REMOTE | BLS-179**

Remote Control for StrikeDuo and E-Strike series

- » Operate your headlight from your handlebar
- » 30 cm long cable to attach it anywhere
- » USB-C connection
- » Compatible with StrikeDuo and E-Strike headlights

USB type	USB-C
Weight (g)	95

CENTERMOUNT 2.0 | BLS-195*Bracket for centered mounting of bike computer or headlight*

- » Fits on Ø31.8 and Ø35.0mm handlebars
- » Can be used in left and right sided orientation
- » Also suitable for GoPro mounting
- » Compatible with all headlights with TightFix system

Weight (g)	40
-------------------	----

HELMETMOUNT 2.0 | BLS-196*Special mount to install lights on your helmet*

- » Compatible for all headlights with Tightfix system
- » The angle of the light can be adjusted for optimal usage
- » Also suitable for GoPro mounting

Weight (g)	40
-------------------	----

TIGHTFIX | BLS-191*Mount compatible for all headlights with Tightfix system*

- » Fits on Ø 22 - 32 mm

Weight (g)	28
-------------------	----

STRAPFIX | BLS-192

Mount compatible for all headlights with Tightfix system

- » Fits on Ø 22 - 45 mm
- » AeroBar compatible

Weight (g) _____ 24 _____

STRAPFIX STRIKEDUO | BLS-194

Strap bracket suited for heavier headlights

- » Compatible with all headlights with TightFix system
- » AeroBar compatible
- » Fits on Ø 22 - 45 mm bars

Weight (g) _____ 32 _____

GOMOUNT | BLS-99

Light bracket for installation on camera mounts

- » Compatible with all headlights with TightFix system
- » Extender to provide maximum adjustability included
- » Compatible with BBB Stems (BHS-09, BHS-37 and BHS-38Di2)
- » Bracket to install lights on a camera mount
- » Compatible with all headlights with TightFix system

Weight (g) _____ 14 _____

**CROWNFIX** | BLS-193

Strong and durable alloy bracket

- » Adjustable light angle
- » Compatible with all headlights with TightFix system
- » GoPro compatible

Weight (g) _____ 29 _____

**SPIRIT** | BLS-225D

Innovative 8 LED battery indicator will show you the battery status every time you use the light

- » Self locking USB port for optimal waterproofness and protection
- » Strapmount fits on bars of almost any diameter

Modes	Dayflash, Flash, High, Low, Steady Flash, Sweep, Round Pulse, Dynamic circle, Pulse
Light source	LED
Max. burn time (hours)	40
Max. lumen in steady mode (lm)	12
Charge time (hours)	2:00
USB type	Micro USB
Waterproof level	IPX7

SPARK 2.0 DISPLAYBOX | BLS-151D

Display box with 12 pieces of the Spark 2.0

- » Runtime Safety mode: Extends runtime with at least 2 hours of Flash
- » Day Flash mode (100lm) for daytime visibility
- » Strapmount fits on Ø5-42mm and has self locking USB port for optimal waterproofness
- » Memory mode: The light goes on in the last used mode

Modes	Dayflash, Flash, High, Low
Light source	LED
Max. lumen in steady mode (lm)	45
Charge time (hours)	1:45
USB type	Micro USB
Waterproof level	IPX4
Weight (g)	26

SPARK 2.0 DISPLAYBOX | BLS-152D

Display box with 12 pieces of the Spark 2.0

- » Runtime Safety mode: Extends runtime with at least 2 hours of Flash
- » Day Flash mode (20lm) for daytime visibility
- » Strapmount fits on Ø5-42mm and has self locking USB port for optimal waterproofness
- » Memory mode: The light goes on in the last used mode
- » Seatpost angle correction

Modes	Dayflash, Flash, High, Low
Light source	LED
Max. lumen in steady mode (lm)	10
Charge time (hours)	1:45
USB type	Micro USB
Waterproof level	IPX7
Weight (g)	23

FEATURES LIGHTS

BBB lights with Lithium batteries have integrated smart technology. An electronic system continuously monitors the strength of the battery and modifies the power output to maintain a stable light output. This prevents a sudden total loss of light without warning and above all lengthens the duration that you have a safe and usable beam of light.

**1500
LUMEN**

Max lumen.

Quick and easy rechargeable by usb design.

High power head lights also produce a lot of heat. Therefore BBB head lights are equipped with ACS (Airflow Cooling System). Due to the design of the aluminum casing, the passing airflow cools down the light significantly. Enough to prevent overheating of the LED. For the worst case scenarios the light is protected against overheating and will shut down before the heat can do any damage to the light

LIGHT CONCEPTS

If you want to choose the most suitable light set for your bicycle, it's important to have correct and comparable product data. Because there is no international standard for lights, BBB mentions various values. With these values you can always compare our products.

To fully understand the values mentioned in the chart, we have added the explanation of these values

Lumen is the best known unit to compare lights. The number shows the total amount of light (in all directions) emitted by the light.

Candela is the unit of luminous intensity. Candela indicates the amount of light emitted by a light-source in a certain direction. The in the chart noted Candela values are measured at the center of the beam.

Lux is the amount of light (lumens) projected on a certain area. For example, if you have a light source of 1000 lumens, spread over 1 m², this square meter is illuminated with 1000 lux. When the same 1000 lumens are spread over 10 m², the same source illuminates a square meter with only 100 lux.

However, when comparing Lux values for different light sets, it's important to know the distance from the light source. The larger the distance from the source, the lower the Lux value will be. BBB measures the Lux value at 1 and 10 meters. The Lux value at 1 meter is equal to the value for Luminous intensity (Candela).

The beam distance shows how far the light bundle will be visible on the road. The beam distance is tested according the FL1 standard. You can find BBB values mentioned above in the chart on the next page.

NEW!

DISCGUARD | BFD-65

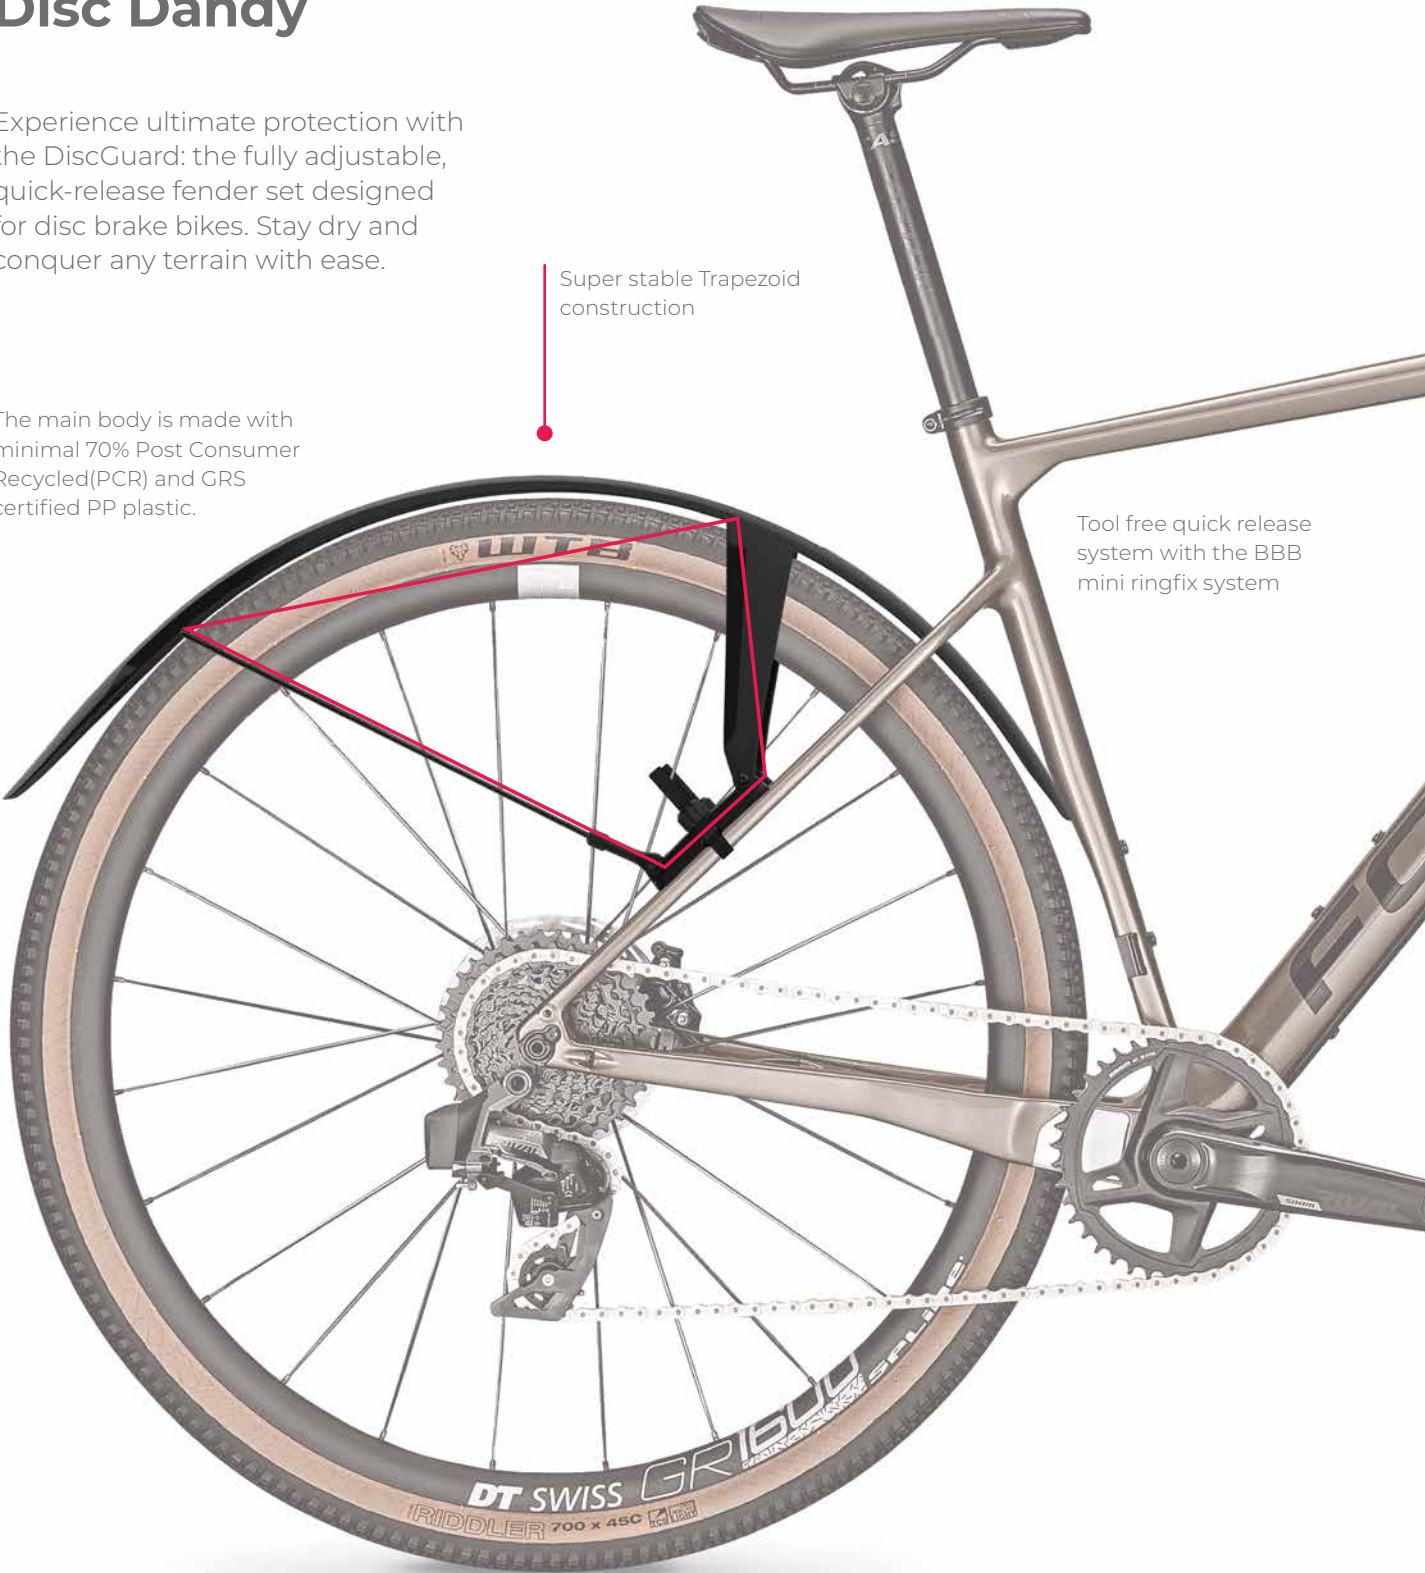

Road Ready, Gravel Grindy, Disc Dandy

Experience ultimate protection with the DiscGuard: the fully adjustable, quick-release fender set designed for disc brake bikes. Stay dry and conquer any terrain with ease.

The main body is made with minimal 70% Post Consumer Recycled(PCR) and GRS certified PP plastic.

Super stable Trapezoid construction

Tool free quick release system with the BBB mini ringfix system

**DISCGUARD | BFD-65S**

Quick-release full-coverage fender set for disc brake bikes

- » We are proud to be the official supplier of Team Visma | Lease a Bike, providing them with the DiscGuard for their training rides.
- » Fully adjustable: angle, height and length
- » Tool-free mounting system on seat stay and fork for quick installation
- » Large rubber mounting surface does not slip down or damage frame
- » Made with 75% durable and strong GRS certified recycled PP material

Material	PA, STS, Recycled PP
Mounting location	Seat stays, Fork
Mounting system	Quick releases
Max. tire width (inch)	1.6
Wheel size (inch)	28
Max. tire width (mm)	42
Quick release type	Mini Ringfix
Color name	black

**DISCGUARD | BFD-65R**

Quick-release full-coverage rear fender for disc brake bikes

- » We are proud to be the official supplier of Team Visma | Lease a Bike, providing them with the DiscGuard for their training rides.
- » Fully adjustable: angle, height and length via an extension part
- » Quick-release seat stay mounting system for easy installation and removal
- » Large rubber mounting surface does not slip down or damage frame
- » Made with 75% durable and strong GRS certified recycled PP material

Material	PA, STS, Recycled PP
Mounting location	Seat stays
Mounting system	Quick releases
Max. tire width (inch)	1.6
Wheel size (inch)	28
Max. tire width (mm)	42
Quick release type	Mini Ringfix
Color name	black

**DISCGUARD | BFD-65F**

Quick-release full-coverage front fender for disc brake bikes

- » We are proud to be the official supplier of Team Visma | Lease a Bike, providing them with the DiscGuard for their training rides.
- » Fully adjustable: angle and height
- » Quick-release fork mounting system for easy installation and removal
- » Large rubber mounting surface does not slip down or damage frame
- » Made with 75% durable and strong GRS certified recycled PP material

Material	PA, STS, Recycled PP
Mounting location	Fork
Mounting system	Quick releases
Max. tire width (inch)	1.6
Wheel size (inch)	28
Max. tire width (mm)	42
Quick release type	Mini Ringfix
Color name	black

FULLGUARD REAR | BFD-61R

Full-coverage rear (E-) MTB fender that protects against water and dirt

- » Stable chainstay mounted fender for hardtail and full suspension bikes.
- » Large rubber mounting surface with angle adjustment to prevent sliding
- » Quick-release Mini-RingFix system for easy and fast mounting
- » Maximum tire width of 76mm or 3.0 inches and length adjustable with the extension part
- » Made with 75% durable and strong GRS certified recycled PP material

Material	PP, Recycled PP
Mounting location	Seat stays
Mounting system	Quick releases
Max. tire width (inch)	3
Wheel size (inch)	27.5, 28, 29
Max. tire width (mm)	76
Quick release type	Mini Ringfix
Color name	black

FULLGUARD FRONT | BFD-61F

Full-coverage front (E-) MTB fender that protects against water and dirt

- » Stable fork mounted fender for hardtail and full suspension bikes.
- » Large rubber mounting surface with angle adjustment to prevent sliding
- » Quick-release Mini-RingFix system for easy and fast mounting
- » Maximum tire width of 76mm or 3.0 inches and length adjustable with the extension part
- » Made with 75% durable and strong GRS certified recycled PP material

Material	Recycled PP
Mounting location	Front fork, Seat stays
Mounting system	Quick releases
Max. tire width (inch)	3
Wheel size (inch)	27.5, 28, 29
Quick release type	Mini Ringfix
Color name	black

GRANDPROTECT | BFD-16R

MTB rear fender with TPR mud flaps

- » Two-tone composite material
- » Special design to provide full coverage against dirt and debris
- » Ringfix Aero quick release system with pre applied seatpost protection sticker

Material	PP, TPR
Mounting location	Seatpost
Mounting system	Quick releases
Wheel size (inch)	28, 29
Max. tire width (mm)	65
Quick release type	Ringfix Aero
Weight (g)	230
Color name	black

GRANDPROTECT | BFD-16F*MTB front fender with TPR mud flaps*

- » Two-tone composite material
- » Special design to provide full coverage against dirt and debris
- » Turnfix release system for easy and fast attachment
- » Suitable for bikes with suspension forks

Material	PP, TPR
Mounting location	Front fork
Mounting system	Fixed
Wheel size (inch)	28, 29
Max. tire width (mm)	65
Quick release type	Turnfix
Weight (g)	196
Color name	black

GRANDPROTECT XL | BFD-16XLR*MTB rear fender with XL sized TPR mud flaps*

- » Two-tone composite material
- » Special design to provide full coverage against dirt and debris
- » Ringfix Aero quick release system with pre applied seatpost protection sticker

Material	PP, TPR
Mounting location	Seatpost
Mounting system	Quick releases
Wheel size (inch)	28, 29
Max. tire width (mm)	65
Quick release type	Ringfix Aero
Weight (g)	251
Color name	black

GRANDPROTECT XL | BFD-16XLF*MTB front fender with XL sized TPR mud flaps*

- » Two-tone composite material
- » Special design to provide full coverage against dirt and debris
- » Turnfix release system for easy and fast attachment
- » Suitable for bikes with suspension forks

Material	PP, TPR
Mounting location	Front fork
Mounting system	Quick releases
Wheel size (inch)	28, 29
Max. tire width (mm)	65
Quick release type	Turnfix
Weight (g)	217
Color name	black

MTBPROTECTOR | BFD-13R*MTB rear fender with TPR mud flaps*

- » Two-tone composite material
- » Special design to provide full coverage against dirt and debris
- » Ringfix Aero quick release system with pre applied seatpost protection sticker

Material	PP, TPR
Mounting location	Seatpost
Mounting system	Quick releases
Wheel size (inch)	26
Max. tire width (mm)	65
Quick release type	Ringfix
Weight (g)	228
Color name	black

MTBPROTECTOR | BFD-13F*MTB front fender with TPR mud flaps*

- » Two-tone composite material
- » Special design to provide full coverage against dirt and debris
- » Turnfix release system for easy and fast attachment
- » Suitable for bikes with suspension forks

Material	PP, TPR
Mounting location	Front fork
Mounting system	Quick releases
Wheel size (inch)	26
Max. tire width (mm)	65
Quick release type	Turnfix
Weight (g)	188
Color name	black

HIGHPROTECTOR | BFD-15R*MTB rear fender*

- » Two-tone composite material
- » Special design to provide full coverage against dirt and debris

Material	PP
Mounting location	Seatpost
Mounting system	Fixed
Wheel size (inch)	24, 26
Max. tire width (mm)	65
Weight (g)	171,, 250
Color name	black

**HIGHPROTECTOR | BFD-15F***MTB front fender with mud flaps*

- » Two-tone composite material
- » Special design to provide full coverage against dirt and debris
- » Suitable for bikes with suspension forks

Material	PP
Mounting location	Front fork
Mounting system	Fixed
Wheel size (inch)	24, 26
Max. tire width (mm)	65
Weight (g)	258
Color name	black

**GRAVELCATCHER | BFD-51***Rear fender that protects you against dirt on all your gravel adventures*

- » Protects against water spray and grime
- » Adjustable by hand and tool, to be perfectly placed above your tire
- » Ringfix Aero quick release system with pre-applied seatpost protection sticker
- » Fits on regular and aero seatposts

Material	PP
Mounting location	Seatpost
Mounting system	Quick releases
Wheel size (inch)	27.5, 28
Max. tire width (mm)	55
Quick release type	Ringfix Aero
Weight (g)	176
Color name	black

**ROADCATCHER | BFD-04***High-tech rear fender for road bikes*

- » Protects against water spray and road grime
- » Adjustable, by hand and tool, to be perfectly aligned with your tire
- » Ringfix Aero quick release system with pre-applied seatpost protection sticker
- » Fits on regular and aero seatposts

Material	PP
Mounting location	Seatpost
Wheel size (inch)	28
Max. tire width (mm)	28
Quick release type	Ringfix Aero
Weight (g)	176
Color name	black

**ROADPROTECTOR | BFD-21R**

Elegant rear fender for road bikes

- » Protects against water spray and road grime
- » Easy and secure quick release system

Material	PP
Mounting location	Rear brake bolt
Mounting system	Quick releases
Wheel size (inch)	28
Max. tire width (mm)	28
Quick release type	Easy Quick-release
Weight (g)	100
Color name	black

**ROADPROTECTOR | BFD-21F**

Elegant front fender for road bikes

- » Protects against water spray and road grime
- » Easy and secure quick release system

Material	PP
Mounting location	Front brake bolt
Mounting system	Quick releases
Wheel size (inch)	28
Max. tire width (mm)	28
Quick release type	Easy Quick-release
Weight (g)	91
Color name	black

**FATFENDER | BFD-35R**

Lightweight durable polypropylene rear fender special designed for fatbikes

- » Ringfix quick release system One-joint adjustability

Material	PP
Mounting location	Seatpost
Mounting system	Quick releases
Wheel size (inch)	26, 27.5, 28, 29
Max. tire width (mm)	127
Quick release type	Ringfix
Weight (g)	186
Color name	black

**FATFENDER | BFD-35F**

Lightweight durable polypropylene fender special designed for fatbikes

- » Downtube mounted fender
- » Dual elastomer strap attachment

Material	PP
Mounting location	Downtube
Mounting system	Quick releases
Wheel size (inch)	26, 27.5, 28, 29
Max. tire width (mm)	127
Quick release type	Rubber Strap
Weight (g)	106
Color name	black

**FLEXFENDER | BFD-31**

Lightweight durable polypropylene fender

- » Can be mounted both as front fender or rear fender
- » Extra coverage for front fork stanchions
- » 4 mounting tie wraps included

Material	PP
Mounting location	Front fork, Rear fork
Mounting system	Fixed
Wheel size (inch)	12.5, 16, 18, 20, 22, 24, 26, 27.5, 28, 29
Weight (g)	38
Color name	black

**MUDCATCHER XL | BFD-18**

Downtube mounted fender

- » Tapered design for better protection where needed
- » Can be mounted in multiple ways

Material	NBR, PP, TPR
Mounting location	Downtube
Mounting system	Quick releases
Wheel size (inch)	26, 27.5, 28, 29
Quick release type	Rubber Strap
Weight (g)	130
Color name	black

MUDCATCHER II | BFD-03

Easy to install downtube mounted fender due to two elastomer straps

- » Made with composite material with softer TPR flap
- » Suited for extreme mountain biking

Material	NBR, PP, TPR
Mounting location	Downtube
Mounting system	Quick releases
Wheel size (inch)	22, 24, 26, 27.5, 28
Quick release type	Rubber Strap
Weight (g)	75
Color name	black

CITYGUARD | BFD-40

Set of front and rear fenders to provide full protection against water and debris

- » Suitable for kids-, urban- and trekking bikes
- » Mounts to braze-on eyelets and brake bolt
- » Solid construction with stainless steel stays

Material	PA, PP, STS
Mounting location	Fork, Rear fork
Mounting system	Fixed
Wheel size (inch)	22, 24, 26, 28
Max. tire width (mm)	48
Weight (g)	375, 446
Color name	black

RAINPROTECTORS | BFD-25

A set with front and rear fender

- » Two-tone composite material
- » Special geometry provides a wide area of protection against dirt and water in combination with a perfect fit on almost every bike, even with wider tires

Material	PP
Mounting location	Front brake bolt, Rear brake bolt
Mounting system	Fixed
Wheel size (inch)	26, 27.5, 28
Max. tire width (mm)	48
Weight (g)	336
Color name	black

RAINWARRIORS | BFD-01*A set of front and rear fender*

- » The specially engineered geometry provides a wide area of protection against dirt and water
- » Composite material

Material	PP
Mounting location	Front brake bolt, Rear brake bolt
Mounting system	Fixed
Wheel size (inch)	24, 26, 27.5, 28
Weight (g)	340, 300
Color name	black

RINGFIX AERO | BFD-91A*RingFix quick release system for fast and easy installation on the seatpost*

- » Aero version fits seatpost diameters 25,0 - 57,3 mm
- » Includes an extra-long 185 mm strap to fit securely around aero seatposts

Quick release type	Ringfix Aero
Weight (g)	69
Color name	black

MINIFIX AERO | BFD-92*MiniFix Aero quick release system*

- » Fits (aero) diameters of 10,0 - 35,0 mm
- » TPR inlay designed to fit around a wide variety of both aerodynamic and round seat-posts of different diameters.
- » Can accommodate a M5 nut for universal mounting purposes

Material	TPR
Mounting system	Quick releases
Quick release type	Ringfix Aero
Weight (g)	11
Color name	black

ROADPROTECTOR BRACKET | BFD-21FB*Extra long bracket for RoadProtector BFD-21F front fender*

- » Protection cover and bolts included
- » Standard size bracket also separately available

Material	Aluminium
Mounting location	Front fork
Mounting system	Fixed bracket
Weight (g)	6
Color name	black

LIGHTBRIDGE | BFD-50B*Rear fender bridge with light mount*

- » Fender bridge with foldable and angle adjustable light bracket
- » Compatible with BFD-04/13R/16R/16XLR/51 rear fenders
- » The light mount works with strap mounted lights

Material	PA
Color name	black

AWARDED!

DOUBLE SHOT | BMP-102

The smallest pump in the world due to its innovative 2-piece design

The DoubleShot is small, very small! This extremely small mini pump can easily fit in your back pocket without you even noticing it. But don't let this little buddy fool you. The DoubleShot has an impressive pump volume of 35cc per stroke! Your tire will be filled before you know it! The Innovative 2-piece design contains 4 shafts that allow this incredible pump volume. With the DoubleShot, you will be on your way again in no time!

Double T-handle, for extra leverage/punch/ power and effortless pumping.

Only 120mm long, fits in your saddle pack due to its innovative 2-piece design.

Tubeless friendly and easy to use due to the special push-on pumphead.

reddot winner 2023

SINGLESHOT | BMP-101*Lightweight and extremely small minipump for high pressure*

- » 160mm long, extremely small minipump for easy carrying in your back pocket
- » With dual chamber technology for an impressive pump volume of 30 cc per stroke
- » Easy to use due to the special tubeless friendly push-on pump head
- » The aluminum body and shaft provide optimal durability while maintaining a low weight for easy carrying

Max. air pressure (Bar)	8
Max. air pressure (PSI)	116
Compatible valves	Presta/French
Valve connection	Direct
Material	Aluminium
Pressure type	High pressure
Type pumphead	Push-On
Weight (g)	51
Color name	black

**DOUBLESHOT | BMP-102***World's smartest minipump!*

- » 120mm short pump can be easily stored in any saddlebag or in your back pocket
- » Four chamber technology for an impressive pump volume of 35 cc per stroke
- » Easy to use due to the special tubeless friendly push-on pump head
- » Two handles and long hose for easy and comfortable operating despite its small size
- » The aluminum body and shaft provide optimal durability while maintaining a low weight for easy carrying

reddot winner 2023

Max. air pressure (Bar)	8
Max. air pressure (PSI)	116
Compatible valves	Presta/French
Valve connection	Direct
Material	Aluminium
Pressure type	High pressure
Type pumphead	Push-On
Weight (g)	83
Color name	black

**SINGLESHOT MTB | BMP-103***Lightweight minipump for high volume tires*

- » 172mm long high-volume mini pump for easy carrying in your back pocket
- » Dual chamber technology gives 60CC pump volume per stroke, ideal for large volume tires
- » Easy to use due to the special tubeless friendly push-on pump head
- » Durable aluminium body and shaft give a low weight for easy carrying

Max. air pressure (Bar)	4
Max. air pressure (PSI)	60
Compatible valves	Presta/French
Valve connection	Direct
Material	Aluminium
Pressure type	High volume
Type pumphead	Push-On
Color name	black

NANOROAD | BMP-48

Tiny but full of power!

- » Telescopic, lightweight 6061 T6 aluminium mini pump
- » Extreme compact design with high pumping volume
- » Pumphead with thumblock lever system

Max. air pressure (Bar)	8
Max. air pressure (PSI)	116
Compatible valves	Presta/French, Schrader/Automotive
Valve connection	Direct
Material	Aluminium
Pressure type	High pressure
Type pumphead	Thumblock
Weight (g)	95
Color name	black

EASYROAD | BMP-49

Easy pumping of your road bike

- » Lightweight 6063 T6 aluminium mini pump with extractable hose
- » Lock system prevents the handle from sliding down
- » TwistHead pumphead; Unique screw-on valve system

Max. air pressure (Bar)	9
Max. air pressure (PSI)	130
Compatible valves	Presta/French, Dunlop, Schrader/Automotive
Valve connection	With hose
Material	Aluminium
Pressure type	High pressure, High volume
Type pumphead	Twisthead
Weight (g)	96
Color name	black

SAMURAI | BMP-50

Telescopic aluminium mini pump

- » Lightweight 6061 T6 aluminium mini pump with extractable hose
- » Dual function, high volume and high pressure
- » Lock system prevents the handle from sliding down

Max. air pressure (Bar)	9
Max. air pressure (PSI)	130
Compatible valves	Dunlop, Presta/French, Schrader/Automotive
Valve connection	With hose
Material	Aluminium
Pressure type	High pressure, High volume
Type pumphead	Twisthead
Weight (g)	123
Color name	grey, black

WINDWAVE | BMP-54

Lightweight mini pump with super comfortable handle to increase your power

- » Durable and lightweight composite barrel
- » Metal piston shaft provides fast high-volume pumping
- » DualHead pumphead with thumblock lever

Max. air pressure (Bar)	7
Max. air pressure (PSI)	100
Compatible valves	Dunlop, Presta/French, Schrader/Automotive
Valve connection	Direct
Material	Steel, Composite
Pressure type	High volume

- » Perfect for inflating a MTB tire
- » A single cartridge inflates one 29" x 245 MTB tire up to 2.2bar / 30psi» 30 cartridges per box

Weight (g)	99
Color name	silver/blue

NEW!**AIRSWITCH HP/HV | BFP-41****With the AirSwitch HV/HP floor pump you don't just have one floor pump, but two!**

The special and innovative design makes for a three way construction, saving up to 50% in volume during shipment and storage. When put together, that same construction ensures great strength and stability throughout the pump. Saving space, but with double features because of the switch function underneath the pumphead, making an easy switch between High Pressure and High Volume functions whilst pumping.

Switch for two-in-one function underneath the pumphead to go from High Pressure, to High Volume and back again.

Including a 120cm high pressure rubber hose and high quality pumphead.

High quality and easy to read pressure gauge that adjusts to the settings of the pump.

The high quality aluminium head easily flips around between Dunlop and Presta to Schrader.

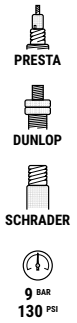

AIRWAVE | BFP-20

Lightweight floor pump with 70 cm high pressure rubber hose

- » Compact floor pump
- » Accurate 2.5 Inch dual-tone pressure gauge with indicator displays both bar and psi
- » Ergonomic "boomerang" type handle, natural pumping position for increased pumping power

Max. air pressure (Bar)	9
Max. air pressure (PSI)	130
Compatible valves	Dunlop, Presta/French, Schrader/Automotive
Material	Composite

DUALHEAD 3.0 | BFP-96

Replacement pumphead for all our floorpumps

- » Replacement pumphead for all floorpumps (except BFP-31/35)
- » Thumblock lever for easier and faster mounting on the valve
- » Compatible with Presta, Schröder and Dunlop valves

Compatible valves	Dunlop, Presta/French, Schrader/Automotive
Material	Composite
Type pumphead	DualHead 3.0
Weight (g)	73
Color name	black

DUALHEAD 2.0 | BFP-93

Reserve pumphead for your floorpumps

- » Fits Presta, Schröder and Dunlop valves

Compatible valves	Dunlop, Presta/French, Schrader/Automotive
Material	Composite
Type pumphead	Thumblock
Weight (g)	28
Color name	black

VALVEKIT | BFP-90

Valve kit for our DualHead, ThreadHead and AutoHead floor pumps

- » Valve kit for DualHead, ThreadHead and AutoHead floor pumps
- » Valve adapters for: sports balls, inflatable boats, inflatable swimming pools, etc.
- » Dunlop valve adapter included
- » Kit mounts conveniently on the hose of all BBB floor pumps

Compatible valves	Dunlop, Presta/French, Schrader/Automotive
Weight (g)	9
Color name	black

AIRPIPE | BFP-94*Pumphead specifically designed for difficult-to-reach places*

- » 90° pumphead adapter for all floorpumps
- » Easy and quick in use
- » Specifically designed for difficult-to-reach places (for example road cycling disc wheels)

Compatible valves	Presta/French
Material	Aluminium
Weight (g)	12
Color name	black

**DUNLOPCLIP** | BFP-95*Adapter for the Dunlop valve*

- » Specifically designed to create a perfect and quick fit between pumphead and Dunlop valve
- » Easy and quick in use

Compatible valves	Dunlop
Material	Composite
Weight (g)	16
Color name	black

**FLIPHEAD PRO** | BFP-99*High-end aluminum FlipHead for bicycle pumps*

- » 120 cm high pressure hose
- » Easy to use thumblock lever

Compatible valves	Dunlop, Presta/French, Schrader/Automotive
Material	Aluminium, Composite
Type pumphead	Fliphead Pro
Weight (g)	250
Color name	black

NEW!

STEELCAGE | BBC-51

Classic bottle cage with a modern touch, made to last

Slim and stylish, SteelCage redefines bottle cage design. With a 4.5mm tube, extended mounting range, and extra strap compatibility, it's the ultimate choice for MTB riders, gravelers, and travelers seeking secure hydration on every adventure.

Durable and strong
4.5mm Stainless Steel
tubing.

Fully open design
backplate allows for
30mm mounting range.

STEELCAGE | BBC-51*Classic bottle cage with a modern touch, made to last*

- » Two slits provided for additional strap attachment options.
- » Durable and strong 4.5mm Stainless Steel tubing
- » Fully open design backplate allows for 30mm mounting range

Bottle cage type	Side load, Top load
Material	Stainless steel
Bolt type	Stainless Steel
Weight (g)	62, 59
Color name	black, silver

FASTCAGE | BBC-41*Glassfiber reinforced composite bottle cage*

- » Secure bottle retention system

Bottle cage type	Top load
Material	PA+GF
Weight (g)	42
Sizes	Universal
Color name	white, black

DUALCAGE | BBC-39*Lightweight dual composite bottle cage*

- » Easy dual access to water bottle, from the front as well as the sides
- » Secure tight fit due to the auto-adjust flexcage feature

Bottle cage type	Side load, Top load
Material	PA+GF
Bolt type	Stainless Steel
Weight (g)	33
Sizes	Universal
Color name	dark grey/black, white/black, blue/black, red/black, green/black, orange/black, yellow/black, magenta/black

FLEXCAGE | BBC-36

Lightweight composite bottle cage

» Secure tight fit due to the auto-adjust flex system

Bottle cage type	Top load
Material	PA+GF
Bolt type	Stainless Steel
Weight (g)	42
Sizes	Universal
Color name	matt black/yellow, matt black/grey, matt black/blue, matt black/red, glossy black

DUALATTACK | BBC-40 | € 15,95

Lightweight dual composite bottle cage

» Especially suited for smaller-sized and full-suspension frames
 » Easy dual access to water bottle, from the front as well as the sides
 » Adjustable for right side as well as left side water bottle access

Bottle cage type	Side load
Material	PA+GF
Bolt type	Stainless Steel
Weight (g)	42
Sizes	Universal
Color name	black/dark grey, black/white, black/red

ECOTANK | BBC-01

Classic bottle cage

» Durable and lightweight aluminium

Bottle cage type	Top load
Material	Aluminium
Bolt type	Stainless Steel
Weight (g)	67
Sizes	Universal
Color name	silver, matt black

FUELTANK | BBC-03*Standard version bottle cage*

- » Durable and lightweight aluminium
- » Special dampers for more grip and to prevent scuff marks on your bottle

Bottle cage type	Top load
Material	Aluminium
Bolt type	Stainless Steel
Weight (g)	72
Sizes	Universal
Color name	glossy black, blue, red, white, silver, matt black, matt titanium, blue anodised, red anodised

**FIBERCAGE | BBC-37***UD carbon fiber bottle cage*

- » Unique design holds water bottle securely while allowing fast and easy bottle retrieval
- » Extremely lightweight, only 24 grams

Bottle cage type	Top load
Material	Carbon
Weight (g)	24
Sizes	Universal
Color name	matt black/black, matt black/red, matt black/white

**SIDECARBON LEFT | BBC-38L***UD carbon fiber bottle cage*

- » Especially suited for smaller-sized and full-suspension frames
- » Left side opening

Bottle cage type	Side load
Material	Carbon
Weight (g)	29
Sizes	Universal
Color name	matt black

SIDECARBON RIGHT | BBC-38R

UD carbon fiber bottle cage

- » Especially suited for smaller-sized and full-suspension frames
- » Right side opening

Bottle cage type	Side load
Material	Carbon
Weight (g)	29
Sizes	Universal
Color name	matt black

ADAPTRAIL | BBC-120

Fitting and measuring

- » Relocate bottle cages for easier accessibility and use your frame space efficiently
- » Mount AdaptRail accessories like StrapPlate or DualMount
- » Size S gives you the option to position your bottle cage up or down
- » Size M and L allow to mount a bottle cage combined with a StrapPlate
- » Size L allows mounting two bottle cages below each other

Material	Aluminium
Bolt type	Stainless Steel
Weight (g)	53, 72, 97
Sizes	S, M, L
Color name	matt black

STRAPPLATE | BBC-112

Versatile mounting strap

- » Versatile strap down accessory solution for quick access
- » Wide velcro strap with friction material on inside to hold items in place
- » Allows to bring extra items like spare inner tube on a ride

Material	Aluminium
Bolt type	Stainless Steel
Weight (g)	57
Sizes	Universal
Color name	matt black

DUALMOUNT | BBC-113*Easily carry more water*

- » Fits directly on AdaptRail system or on fork mounts with the included MiniRail
- » Mounts two bottle cages side by side or a bottle cage and StackRack
- » Bikepacking specific solution to bring extra bottles or other accessories

Material	Aluminium
Bolt type	Stainless Steel
Weight (g)	58
Sizes	Universal
Color name	matt black

STACKRACK | BBC-81*Lightweight cargo carrying rack*

- » Multiple mounting options possible
- » Smart shaped rack holds a wide variety of cargo shapes
- » Including two cargo straps

Material	Aluminium
Weight (g)	169
Sizes	Universal
Color name	matt black

HAULERMOUNT | BBC-111*Add an extra bottle cage to your bike*

- » Fits on AdaptRail system or mounts directly on bottle cage mounting points
- » Versatile strap down accessory solution for quick access
- » Wide velcro strap with friction material on inside to hold items in place
- » Allows to bring extra items like spare inner tube on a ride

Weight (g)	54
Sizes	Universal
Color name	grey

**CAGEFIX** | BBC-110

Set of 2 brackets to mount your bottle cage anywhere you want

- » TPR inlay designed to fit around a wide variety of aero tubes as well as round tubes
- » Fits on tubes up to 80mm in diameter

Material	PP
Weight (g)	26
Sizes	Universal
Color name	black

**CO2HOLD** | BBC-90

Bracket with mounts for two CO2 cartridges to store them both safely and within reach

- » Can be mounted under the bottle cage

Weight (g)	11
Sizes	Universal
Color name	matt black

**UNIHOLD** | BBC-95

Universal aluminium seatpost and handlebar clamp

- » Can be used to mount a bottle cage on your bike
- » Available in 25,4 - 31,8 mm
- » Rotatable; can be mounted in two positions

Material	Aluminium
Bolt type	Stainless Steel
Weight (g)	20
Sizes	Universal
Color name	black

BARRELPACK M | BSB-151M

Practical and solid handlebar bag made of durable water repellent tarpaulin and polyester fabric

- » Taped waterproof zippers with easy to use zipper pullers
- » Mesh side pocket for quick storage for items like gloves
- » Stiff polyester handlebar straps fits both small round bars and wide aero handlebars
- » Key clip inside to attach your keys or other item for extra security.

Waterproofness	Weatherproof
Bag position	Handlebar
Bag material	Nylon, Polyester, Tarpauline, PU Coated Polyester
Closing system	Zipper
Mounting type	Elastic cord, Hook and loop strap
Easy-to-mount/remove	Yes
Reflection	Yes
Height (mm)	100 x 200
Volume (L)	1.5
Weight (g)	203
Color name	black

BARRELPACK L | BSB-151L

Practical and solid handlebar bag made of durable water repellent tarpaulin and polyester fabric

- » Taped waterproof zippers with easy to use zipper pullers
- » Side pocket with taped zipper and mesh side pocket for quick storage for items like gloves
- » Stiff polyester handlebar straps fits both small round bars and wide aero handlebars
- » Mesh pocket and key clip inside to attach your keys or other item for extra security.
- » Bungee cord enables you to store items on the outside of the bag

Waterproofness	Weatherproof
Bag position	Handlebar
Bag material	Nylon, Polyester, Tarpauline, PU Coated Polyester
Closing system	Zipper
Mounting type	Elastic cord, Hook and loop strap
Easy-to-mount/remove	Yes
Reflection	Yes
Height (mm)	140 x 220
Volume (L)	3
Weight (g)	240
Color name	black

**SEALTANK M | BSB-62M**

A top tube bag for all weather conditions

- » Mount the bag with hook and loop straps or the bolts
- » Blue interior makes all your contents in the bag visible
- » Waterproof fabric and welded seams for optimal protection of the contents
- » Waterproof zipper for extra protection against the water

Waterproofness	Waterproof
Bag position	Toptube
Bag material	600D TPU coated Nylon
Closing system	Zipper
Mounting type	Bolts, Hook and loop strap
Easy-to-mount/remove	Yes
Height (mm)	51 x 210
Volume (L)	0.55
Weight (g)	62
Color name	black

SEALTANK L | BSB-62L

A top tube bag for all weather conditions

- » Toptube bag with hook and loop straps or bolt mounting options
- » Waterproof fabric and waterproof zipper ensure optimal protection against water
- » Blue interior makes all your contents in the bag visible
- » Convenient mesh pocket inside for storing phone or small items
- » Covered cable port enables charging or device connectivity on the go

Waterproofness	Waterproof
Bag position	Toptube
Bag material	600D TPU coated Nylon
Closing system	Zipper
Mounting type	Bolts, Hook and loop strap
Easy-to-mount/remove	Yes
Height (mm)	60 x 225
Volume (L)	1.1
Weight (g)	92
Color name	black

SEALMATE M | BSB-65M

Two liter frame bag for all weather conditions

- » Waterproof fabric and welded construction for optimal waterproof protection
- » Mudflaps protects the taped zippers against mud and sand
- » Covered cable port for charging or connecting your devices
- » Big main compartment with tether cord inside for e.g. pump, and smaller document compartment
- » Mounting by durable hook & loop straps with anti-slip and anti-scratch velcro

Waterproofness	Waterproof
Bag position	Frame
Bag material	600D TPU coated Nylon
Closing system	Zipper
Mounting type	Hook and loop strap
Easy-to-mount/remove	Yes
Height (mm)	60 x 300
Volume (L)	2
Weight (g)	143
Color name	black

SEALMATE L | BSB-65L

Three liter framebag for all weather conditions

- » Easy to mount frame bag with durable hook and loop straps
- » Mudflaps protects the taped zippers against mud and sand
- » Covered cable port for charging or connecting your devices
- » Big main compartment with tether cord inside for e.g. pump, and smaller document compartment
- » Durable hook and loop straps with anti-slip and anti-scratch velcro for secure mounting

Waterproofness	Waterproof
Bag position	Frame
Bag material	600D TPU coated Nylon
Closing system	Zipper
Mounting type	Hook and loop strap
Easy-to-mount/remove	Yes
Height (mm)	60 x 420
Volume (L)	3
Weight (g)	193
Color name	black

SEALPACK M | BSB-61M*High-end curved saddlebag for all weather conditions*

- » Curved design for the best and most natural position under the saddle
- » Blue interior makes all your contents in the bag visible
- » Waterproof fabric and welded seams for optimal protection of the contents
- » Waterproof zipper for extra protection against the water

Waterproofness	Waterproof
Bag position	Saddle
Bag material	600D TPU coated Nylon
Closing system	Zipper
Mounting type	T-buckle, Silicon strap
Easy-to-mount/remove	Yes
Height (mm)	65 x 140
Volume (L)	0.6
Weight (g)	80
Color name	black

SEALPACK L | BSB-61L*High-end curved saddlebag for all weather conditions*

- » Waterproof fabric and welded seams for optimal protection of the contents
- » Waterproof zipper for extra protection against the water
- » Curved design for the best and most natural position under the saddle
- » Blue interior enhances visibility of contents inside the bag
- » Mesh pocket inside to store small items

Waterproofness	Waterproof
Bag position	Saddle
Bag material	600D TPU coated Nylon
Closing system	Zipper
Mounting type	T-buckle, Silicon strap
Easy-to-mount/remove	Yes
Height (mm)	75 x 185
Volume (L)	0.8
Weight (g)	113
Color name	black

FRONT FELLOW | BSB-141*Lightweight nylon handlebar harness with waterproof carry bag*

- » Three mounting points for optimal stability during rides
- » Quick release buckles for the carry bag, leaving the harness perfectly attached
- » Spacers for the handlebars that provide space around the brakes, gears and cables
- » Works well with various dry bags and tent rolls

Waterproofness	Waterproof
Bag position	Handlebar
Bag material	Nylon, Polyester, Tarpauline
Closing system	Buckle, Folding
Mounting type	Strap
Easy-to-mount/remove	Yes
Reflection	Yes
Shoulderstrap included	Yes
Height (mm)	160 x 280
Volume (L)	10
Weight (g)	305
Color name	black

**BARBUDDY | BSB-20**

Versatile handlebar bag for convenient storage of your essentials

- » Blue interior for optimal visibility of the contents
- » One big compartment to store energy bars, wallet, keys etc.
- » Two Velcro straps to secure the position of the bag

Waterproofness	Water resistant
Bag position	Handlebar
Bag material	Nylon, Polyester, Tarpauline
Closing system	Elastic
Mounting type	Hook and loop strap
Reflection	Yes
Height (mm)	80 x 80
Volume (L)	0.95
Weight (g)	72
Color name	black

MIDDLE MATE | BSB-142 |

Lightweight nylon frame bag

- » Adjustable loop fasteners for modular frame compatibility
- » Two water resistant zippers
- » Blue interior for optimal visibility of the contents

Waterproofness	Water resistant
Bag position	Frame
Bag material	Nylon, Polyester, Tarpauline
Closing system	Zipper
Mounting type	Hook and loop strap
Reflection	Yes
Height (mm)	70 x 400, 70 x 440, 70 x 500
Volume (L)	3, 4, 5
Weight (g)	140, 155, 170
Sizes	S, M, L
Color name	black

**CORNERCADDY | BSB-144**

Lightweight nylon frame bag for several positions on your frame

- » Blue interior for optimal visibility of the contents
- » With a compartment to store tires, tools, tire levers etc.
- » Soft velcro straps
- » Easy and quick-to-reach by zipper at the side
- » Elastic band on the inside to keep the tools in place

Bag position	Frame
Bag material	Nylon
Closing system	Zipper
Mounting type	Hook and loop strap
Easy-to-mount/remove	Yes
Reflection	Yes
Height (mm)	70 x 200
Volume (L)	1
Weight (g)	200
Color name	black

ADAPTCASE | BSB-147*Storage case for all your necessary items*

- » Insert of EVA material with storage compartments for necessary tools
- » Mesh inner pocket for smaller items like the QuickLink, LeakFix or keys
- » Effortlessly installation with tool-free bolts or optional hook & loop straps
- » Water repellent and easy-to-clean outer material
- » To use in combination with BBC-120 AdaptRail

Waterproofness	Water repellent
Bag position	Frame
Bag material	PU
Closing system	Zipper
Mounting type	Hook and loop strap, Tool-free bolts
Easy-to-mount/remove	Yes
Height (mm)	90 x 117
Volume (L)	0.46
Weight (g)	84
Color name	black

SEAT SIDEKICK | BSB-143*Lightweight nylon seat harness with weatherproof carry bag*

- » Easily mounts to saddle rails & seatpost
- » Single quick release buckle for carry bag, leaving the harness perfectly attached
- » Durable, easy-to-clean bottom. Also serves as a mudguard

Waterproofness	Waterproof
Bag position	Saddle
Bag material	Nylon, Polyester, Tarpauline
Closing system	Buckle, Folding
Mounting type	Buckle, Hook and loop strap
Easy-to-mount/remove	Yes
Reflection	Yes
Shoulderstrap included	Yes
Height (mm)	160 x 440
Volume (L)	10
Weight (g)	450
Color name	black

**SEATSUPPLY | BSB-146***Bikepacking saddlebag with a five liter drybag*

- » Quick and simple installation
- » Durable lightweight construction
- » Water repellent and easy-to-clean harness
- » Waterproof five liter drybag with taped seams

Waterproofness	Waterproof
Bag position	Saddle
Closing system	Buckle
Mounting type	Buckle, Hook and loop strap
Easy-to-mount/remove	Yes
Height (mm)	150 x 250
Volume (L)	5
Weight (g)	223
Color name	black

**BAGBRACE | BSB-148**

Universal bikepacking saddlebag stabilizer

- » Durable aluminum construction for horizontal stabilization
- » Tighten the adjustable strap for vertical stabilization
- » Rubber anti-slip and anti-scratch saddle rail mount
- » Quick and easy installation
- » Special design ensures great fit for all bikepacking saddlebags

Mounting type	Bolts
Height (mm)	145 x 112
Weight (g)	102
Color name	black

**CARGOSTRAPS S | BSB-161S**

Practical 25cm TPU straps for impressive grip, stretch, and strength

- » UV and weather resistant
- » Quick and easy to tighten
- » Extra strong nylon buckle
- » Strap keeper to fasten the excess strap

Bag position	Carrier, Frame, Handlebar, Saddle, Toptube, Bottle Cage, Cargo Cage
Bag material	TPU
Closing system	Buckle
Mounting type	Strap
Easy-to-mount/remove	Yes
Height (mm)	13 x 250
Weight (g)	22
Color name	black

CARGOSTRAPS M | BSB-161M

Practical 36cm TPU straps for impressive grip, stretch, and strength

- » UV and weather resistant
- » Quick and easy to tension
- » Extra strong nylon buckle
- » Strap keeper to fasten the excess strap

Bag position	Carrier, Frame, Handlebar, Saddle, Toptube, Bottle Cage, Cargo Cage
Bag material	TPU
Closing system	Buckle
Mounting type	Strap
Easy-to-mount/remove	Yes
Height (mm)	19 x 360
Weight (g)	48
Color name	black

CARGOSTRAPS L | BSB-161L

NEW

Practical 50cm TPU straps for impressive grip, stretch, and strength

- » UV and weather resistant
- » Quick and easy to tighten
- » Extra strong nylon buckle
- » Strap keeper to fasten the excess strap
- » Available in 4 sizes; S/25cm, M/36cm, L/50cm, XL/70cm

Bag position	Bottle Cage, Cargo Cage, Carrier, Frame, Handlebar, Saddle, Toptube
Bag material	TPU
Closing system	Buckle
Easy-to-mount/remove	Yes
Weight (g)	70
Color name	black

CARGOSTRAPS XL | BSB-161XL

NEW

Practical 70cm TPU straps for impressive grip, stretch, and strength

- » UV and weather resistant
- » Quick and easy to tighten
- » Extra strong nylon buckle
- » Strap keeper to fasten the excess strap
- » Available in 4 sizes; S/25cm, M/36cm, L/50cm, XL/70cm

Bag position	Bottle Cage, Cargo Cage, Carrier, Frame, Handlebar, Saddle, Toptube
Bag material	TPU
Closing system	Buckle
Mounting type	Strap
Easy-to-mount/remove	Yes
Color name	black

STACKPACK | BSB-145

Waterproof dry bag with taped seams

- » Comes with Stack Rack BBC-81
- » With roll-top closure system

Waterproofness	Waterproof
Bag position	Cargo Cage
Bag material	Nylon
Closing system	Folding
Mounting type	Bolts, Strap
Height (mm)	140 x 300
Volume (L)	4
Weight (g)	236

Locking system	Code
Adjustable code	Yes
Length (mm)	1800
Weight (g)	95
Color name	black

**CABLETIE | BBL-93**

Universal mounting bracket for BBB cable locks with dual quick-release strap

- » Bracket can be attached to different positions on the bicycle
- » Fits tubes with a diameter of 27.2 - 60 mm

Mounting bracket	Yes
Weight (g)	22
Color name	black

**ERGOSOUND | BBB-19**

Ergonomic and loud bicycle bell for various handlebar sizes

- » Ergonomic design for perfect reach in limited handlebar space
- » Universal design suitable for both left and right handlebar sides
- » Rotatable clapper for versatile positioning options
- » Strong fixed clamping mechanism for secure attachment
- » Large alloy bell cap with steel spring for impressive sound

Decibel (Db)	85
Bell diameter (mm)	32
Mounting system	Fixed bracket
Clamp diameter (mm)	22.2, 25.4
Materials	Alloy
Weight (g)	26
Color name	black

**E SOUND | BBB-18**

Large diameter bell for maximum volume

- » Unique spring system makes this bell exceptionally loud
- » Strong fixed 22.2mm clamping mechanism for use on E-bikes

Decibel (Db)	88
Bell diameter (mm)	45
Mounting system	Fixed bracket
Clamp diameter (mm)	22.2
Materials	Aluminium
Weight (g)	27
Color name	matt black

**NOISY PLUS | BBB-27**

Lightweight brass cycling bell with steel spring system for optimal durability

- » Strong fixed clamping mechanism
- » Suitable for handlebars with a diameter of Ø 22.2mm and 25.4mm

Decibel (Db)	83
Mounting system	Fixed bracket
Clamp diameter (mm)	22.2, 25.4
Materials	Brass
Weight (g)	28
Color name	black

NOISY PLUS | BBB-27D

Display box with 20 pieces of Noisy Plus bell

- » Strong fixed clamping mechanism
- » Suitable for handlebars with a diameter of Ø 22.2mm and 25.4mm

Decibel (Db)	83
Mounting system	Fixed
Clamp diameter (mm)	22.2, 25.4
Materials	Brass
Weight (g)	28
Color name	20 x black

NOISY | BBB-17

Lightweight brass cycling bell with steel spring system

- » Can be mounted on multiple places
- » Quick-release O-ring mounting system, fits all diameters

Decibel (Db)	83
Bell diameter (mm)	28
Mounting system	O-ring, Quick releases
Materials	Brass
Weight (g)	26
Color name	black, glossy silver, glossy gold

NOISY DISPLAY BOX | BBB-17D

Display box with 20 pieces of Noisy bell

- » 10 x black, 5 x silver, 5 x gold

Mounting system	O-ring, Quick releases
Materials	Brass
Weight (g)	26
Color name	10 x black, 5 x silver, 5 x gold

EASYFIT DELUXE PLUS | BBB-24*Lightweight brass bicycle bell with plastic spring system*

- » Strong fixed clamping mechanism
- » Suitable for handlebars with a diameter of Ø 22.2mm and 25.4mm

Decibel (Db)	81
Mounting system	Fixed bracket
Clamp diameter (mm)	22.2, 25.4
Materials	Brass
Weight (g)	29
Color name	black

EASYFIT DELUXE PLUS | BBB-24D*Display box with 20 pieces of the EasyFit Deluxe Plus bell*

- » Strong fixed clamping mechanism
- » Suitable for handlebars with a diameter of Ø 22.2mm and 25.4mm

Decibel (Db)	83
Mounting system	Fixed
Clamp diameter (mm)	22.2, 25.4
Materials	Brass
Weight (g)	29
Color name	20 x black

EASYFIT DELUXE | BBB-14*Lightweight brass bicycle bell with plastic spring system*

- » Can be mounted in various positions due to its quick-release strap

Decibel (Db)	81
Bell diameter (mm)	32
Mounting system	O-ring, Quick releases
Materials	Brass
Weight (g)	26
Color name	black/grey, black/orange, black/yellow, black/magenta

EASYFFIT DELUXE DISPLAY BOX | BBB-14D

Display box with 20 pieces of the EasyFit Deluxe bell

» 20 x grey / 5 x grey, 5 x yellow, 5 x magenta, 5 x orange

Decibel (Db)	81
Bell diameter (mm)	32
Mounting system	O-ring, Quick releases
Materials	Brass
Weight (g)	26
Color name	5 x grey, yellow, magenta, orange, 20 x grey

LOUD & CLEAR | BBB-11

Very loud brass bicycle bell with stainless steel spring

- » Unique spring system makes this bell exceptionally loud
- » Durable and lightweight construction with stainless steel spring
- » Screw clamping mechanism suitable for 31.8 mm, 25.4 mm and 22.2 mm

Decibel (Db)	79
Bell diameter (mm)	32
Mounting system	Fixed bracket
Materials	Aluminium
Weight (g)	26
Color name	black, white

LOUD & CLEAR DISPLAY BOX | BBB-11D

Display box with 20 pieces of Loud & Clear bell

» 20 x black

Decibel (Db)	79
Bell diameter (mm)	32
Mounting system	Fixed bracket
Materials	Aluminium
Weight (g)	26
Color name	20 x black

LOUD & CLEAR DELUXE | BBB-15

Our loudest bicycle bell with stainless steel spring

- » Larger top for extra volume
- » Special connection system for maximum bell vibration
- » Quick release strap fits all diameters and is easy to install

Decibel (Db)	89
Bell diameter (mm)	32
Mounting system	O-ring, Quick releases
Materials	Brass
Weight (g)	26
Color name	black

LOUD & CLEAR DELUXE DISPLAY BOX | BBB-15D

Display box with 20 pcs. BBB-15 Loud & Clear

- » Larger top for extra volume

Decibel (Db)	89
Bell diameter (mm)	32
Mounting system	O-ring, Quick releases
Materials	Brass
Weight (g)	26
Color name	20 x black

MINIFIT | BBB-16

Lightweight brass bicycle bell with plastic spring system

- » Lightweight brass bicycle bell with plastic spring system

Decibel (Db)	78
Bell diameter (mm)	23
Mounting system	O-ring, Quick releases
Materials	Brass
Weight (g)	19
Color name	black/white, black/blue, black/red, black/green

MINIFIT DISPLAY BOX | BBB-16D

Display box with 20 pieces of the MiniFit bell

» 5 x white, 5 x blue, 5 x red, 5 x green

Decibel (Db)	78
Bell diameter (mm)	23
Mounting system	O-ring, Quick releases
Materials	Brass
Weight (g)	19
Color name	5 x white, blue, red, green

**PHONELOCK** | BSM-15

NEW

Universal phone mount compatible with phones (with cases) 60-90mm wide & up to 15mm of height

- » Side clamping mechanism with innovative 45 degree (un)locking system
- » Handlebar bracket with ball joint for optimal adjustability on all handlebars
- » Simple and strong clamping system on the outside of your handlebar (Ø 22.2 / 25.4 / 31.8 / 35mm)
- » Soft inlay for extra grip and to avoid scratches on the phone

Max. phone size (mm)	B60-90mm x H15mm
Mounting location	Handlebar
Color name	black

**GUARDIAN XL** | BSM-11XL

Universal pouch for your smartphone

- » Touch screen compatible
- » Water resistant housing for protection during wet weather conditions
- » XL fits popular models such as iPhone 12 Pro Max, Galaxy S20/21 Ultra, Galaxy Note20 Ultra, OnePlus 8T / 8Pro and more

Max. phone size (mm)	86x168
Compatible with	BBB Phone Mounts
Mounting location	Top cap, Stem, Handlebar
Touchscreen compatible	Yes
Waterproofness	Weatherproof
Weight (g)	115
Sizes	XL
Color name	black

**GUARDIAN L** | BSM-11L

Universal pouch for your smartphone

- » Touch screen compatible
- » Water resistant housing for protection during wet weather conditions

Max. phone size (mm)	80x158
Compatible with	BBB Phone Mounts
Mounting location	Handlebar, Stem, Top cap
Touchscreen compatible	Yes
Waterproofness	Weatherproof
Weight (g)	50
Sizes	L
Color name	black

GUARDIAN M | BSM-11M*Universal pouch for your smartphone*

- » Touch screen compatible
- » Water resistant housing for protection during wet weather conditions

Max. phone size (mm)	75x155
Compatible with	BBB Phone Mounts
Mounting location	Handlebar, Stem, Top cap
Touchscreen compatible	Yes
Waterproofness	Weatherproof
Weight (g)	40
Sizes	M
Color name	black

WARDEN | BSM-41*Turn your own smartphone case into a bicycle mountable case*

- » Easy-to-install 3M™ VHB adhesive backplate
- » Choose your own case, it will adhere to most flat/hard/non-porous surfaces

Compatible with	BBB Phone Mounts
Mounting location	Handlebar, Stem, Top cap
Materials	Nylon
Weight (g)	80
Color name	black

PHONEFIX | BSM-91*Mounting bracket for BBB phone mounts*

- » Fits diameters up to 38 mm
- » Mountable on stem or handlebar

Compatible with	BBB Phone Mounts
Mounting location	Stem, Handlebar
Materials	Nylon
Weight (g)	42
Color name	black

SPACERFIX | BSM-92*Mounting bracket for BBB phone mounts*

- » Sleek, simplistic mounting bracket
- » Fits on 1.1/8" steerer tubes underneath the topcap

Compatible with	BBB Phone Mounts
Materials	Nylon
Weight (g)	23
Color name	black

FRONTFIX | BSM-94*Lightweight aluminium CNC machined adjustable smartphone mount bracket*

- » Nylon bracket insert to prevent wear on your smartphone case
- » Easy to use clamping mechanism compatible with 25.4/31.8 mm road handlebars

Compatible with	BBB Phone Mounts
Mounting location	Handlebar
Materials	Aluminum 6061 T6, Nylon
Weight (g)	56
Color name	black

**AEROMOUNT | BCP-97**

Lightweight 6061 T6 Aluminium CNC machined out front computer bracket

- » Garmin and Wahoo brackets included, Mio cyclo available as spare part
- » Easy to mount under the cockpit with the slot for 2 bolts
- » Removable Go-Pro bracket underneath
- » Practical hinge point to position the bike computer at the desired angle

Mounting location	Handlebar
Compatible with	Garmin, GoPro, Wahoo
Materials	Aluminum 6061 T6
Weight (g)	48
Color name	black

NEW

**MIDDLEMOUNT | BCP-98**

Lightweight 6061 T6 Aluminium CNC machined computer bracket

- » Comes with Garmin and Wahoo bracket. Mio bracket available as spare part
- » Easy to use clamping mechanism for Ø 31,8 / 35 mm handlebars

Mounting location	Handlebar
Compatible with	Garmin, Wahoo
Materials	Aluminum 6061 T6
Weight (g)	37
Color name	black

NEW

**STEMMOUNT | BCP-99**

Lightweight 6061 T6 Aluminium CNC machined out front computer bracket

- » Comes with Garmin and Wahoo bracket. Mio bracket available as spare part
- » Easy to mount on either top or bottom row of bolts by using the coupling bolts
- » Removable Go-Pro bracket underneath
- » Assembling on the top row of bolts is a practical solution in combination with handlebar bags

Mounting location	Stem
Compatible with	Garmin, GoPro, Wahoo
Materials	Aluminum 6061 T6
Weight (g)	64
Color name	black

NEW

ERGOMOUNT DUO | BCP-96

Lightweight 6061 T6 Aluminium CNC machined computer bracket

- » Fits all Garmin quartermount, Mio cyclo and Wahoo computers.
- » Easy to use clamping mechanism compatible with 25,4/31,8 mm handlebars
- » Go-Pro bracket underneath

Mounting location	Handlebar
Compatible with	Garmin, GoPro, Mio, Wahoo
Materials	Aluminum 6061 T6
Weight (g)	62
Color name	black

DASHBOARD 12 | BCP-16W

Bike computer with easy-to-read display, wireless connectivity and 12 essential functions.

- » Easy to read full-sized display
- » Easy operation by a single button
- » Wireless computer can be mounted on handlebars and stems
- » Waterproof casing

Amount of functions	12
Wireless	Yes
Sensors included	Speed sensor
Operation buttons	1
Settingbox compatible	No
Mounting location	Handlebar, Stem
Materials	Nylon
Weight (g)	74
Color name	black/grey

**DASHBOARD 10 | BCP-15W**

Bike computer with easy-to-read display, wireless connectivity and 10 essential functions.

- » Easy to read full-sized display
- » Easy operation by a single button
- » Wireless computer can be mounted on handlebars and stems
- » Waterproof casing

Amount of functions	10
Wireless	Yes
Sensors included	Speed sensor
Operation buttons	1
Settingbox compatible	No
Mounting location	Handlebar, Stem
Materials	Nylon
Weight (g)	74
Color name	black/grey

**DASHBOARD 10 | BCP-06**

Bike computer with easy-to-read display, wired connectivity and 10 essential functions.

- » Easy to read full-sized display
- » Easy operation by a single button
- » Computer can be mounted on handlebars and stems
- » Waterproof casing

Amount of functions	10
Wireless	No
Sensors included	Speed sensor
Operation buttons	1
Settingbox compatible	No
Mounting location	Handlebar, Stem
Materials	Nylon
Weight (g)	64
Color name	black/grey

**DASHBOARD 7 | BCP-05**

Bike computer with easy-to-read display, wired connectivity and 7 essential functions.

- » Easy to read full-sized display
- » Easy operation by a single button
- » Computer can be mounted on handlebars and stems
- » Waterproof casing

Amount of functions	7
Wireless	No
Sensors included	Speed sensor
Operation buttons	1
Settingbox compatible	No
Mounting location	Handlebar, Stem
Materials	Nylon
Weight (g)	64, 250
Color name	black/grey

**SMARTMAGNET | BCP-68**

Wheel magnet for use with any speed sensor

- » Fits most common round and aero spokes

Sensor compatibility	Speed sensor
Mounting location	Spoke
Weight (g)	3
Color name	silver

CADENCEMAGNET | BCP-69

Cadence sensor for on your crankarm

- » Industrial rubber band for extra durability
- » Does not leave any marks on the crank

Sensor compatibility	Cadence sensor
Mounting location	Crank arm
Weight (g)	4
Color name	black

Bluetooth Smart technology connects to your smartphone and other Bluetooth Smart ready enabled devices, giving you low-power consumption data transmission.

ANT+ compatibility gives you an interference and cross-talk free communication between your computer and transmitting accessories like heart rate belts and cadence meters.

A reliable and stable connection, without the worry of flat batteries. No-nonsense is what you get with our wired computers.

Away with tangled cables and rubbing marks on your frame, wireless cycling computers keep your bike neat, have the same features as wired computers, but without the hassle.

NEW!**CITYVIEW | BBM-05**

Enhanced visibility and safety

Our new bicycle mirror with clear, anti-glare blue glass and a small convex shape for a slightly wider view. A perfect size for excellent visibility and an added physical rear reflector for improved safety. Available in left and right models, both suitable for upper and lower positions thanks to the easy clamping system.

Optimal mirror size of 110 x 52 mm for clear visibility.

Simple and strong clamping system on the outside of your handlebar (Ø 19-26 mm).

CITYVIEW | BBM-05

Adjustable bicycle mirror for impressive sight from all angles

- » Clear and distinct visibility due to the lightly convex and anti-glare blue glass
- » Reflector at the rear for good visibility for oncoming traffic
- » Simple clamping system on the outside of your handlebar (Ø 19-26 mm)
- » Optimal mirror size of 110 x 52 mm for clear visibility
- » Available in a left and right model

Outer handlebar diameter (mm) 19 - 26

Anti glare Yes

Weight (g) 140

Color name black

E-VIEW | BBM-01

Multi adjustable bicycle mirror with anti-glare coating and inner handlebar-end mounting system

- » Certified for E-bike and Speed pedelec
- » Mirror size of 115m x 80mm
- » Inner handlebar-end mounting system
- » Available in a left and right model

Inner handlebar diameter (mm)	14,9, 19
Anti glare	Yes
Speed Pedelec certified	Yes
E-bike certified	Yes
Weight (g)	147
Sizes	Left, Right
Color name	black

E-VIEW CLAMP MOUNT | BBM-02

Multi adjustable bicycle mirror with anti-glare coating and mounting clamp

- » Certified for the use on E-bikes
- » Mirror size of 115m x 80mm
- » Mounting system for on the handlebar
- » Available in a left and right model

Anti glare	Yes
E-bike certified	Yes
Weight (g)	170
Sizes	Left, Right
Color name	black

MULTIVIS | BBP-71*Reflective stickers suited for use on your frame and rims*

- » Can be applied on other products like helmets, shoes and other bike components
- » 23 stickers in 7 different shapes

Usage type	Reflection stickers
Color name	black

ROLLVIS | BBP-72*Black reflective sticker rol*

- » Stickers suited for use on your frame and rims
- » Can be applied on other products like helmets, shoes and other bike components
- » 40 mm wide and 1 m long reflection rol

Usage type	Reflection stickers
Color name	black

STAYGUARD | BBP-12M*Neoprene cover protects your chainstay from chain-slap scratches*

- » Extra tough yet flexible material with anti-slip on the inside
- » Large velcro strap keeps StayGuard securely attached to your bike's chainstay
- » Size: 250x110/90mm

Usage type	Chain stay protection
Height (mm)	110 x 90 x 250
Weight (g)	15
Color name	black

STAYGUARD | BBP-12L*Neoprene cover protects your chainstay from chain-slap scratches*

- » Extra tough yet flexible material with anti-slip on the inside
- » Large velcro strap keeps StayGuard securely attached to your bike's chainstay
- » Size: 250x130mm

Usage type	Chain stay protection
Height (mm)	130 x 130 x 250
Weight (g)	20
Color name	black

STAYSKIN | BBP-21*To protect your frame against damage*

- » Prevent damages caused by repeated contact to your bike frame or parts
- » Water and heat resistant protective sticker, suitable for all weather conditions
- » Easy installation due to flexible material

Usage type	Chain stay protection
Weight (g)	17
Color name	black

CARBONSKIN | BBP-56*Thick extra durable adhesive pads for protecting your bike's paint*

- » Set includes: stay guard protection, 4 x 30 mm pads, 4 x 20 x 40 mm pads and a 85 x 122 mm square, to cut out self-made shapes
- » Rugged water resistant and flexible pads, suitable for all weather condition

Usage type	Chain stay protection, Frame protection
Weight (g)	18
Color name	real carbon fiber layer

CLEARSKIN | BBP-57*Thick extra durable adhesive pads for protecting your bike's paint*

- » Set includes: stay guard protection, 4 x 30 mm pads, 4 x 20 x 40 mm pads and a 85 x 122 mm square, to cut out self-made shapes
- » Rugged water resistant and flexible pads, suitable for all weather condition

Usage type	Chain stay protection, Frame protection
Weight (g)	12
Color name	transparent

BIKESKIN | BBP-50*Protect your frame in style*

- » Prevent damages caused by repeated contact to your bike frame or parts
- » Water and heat resistant protective sticker, suitable for all weather conditions
- » Easy installation

Usage type	Chain stay protection, Frame protection
Weight (g)	12
Color name	transparent

BIKESKIN | BBP-51

Protect your frame as invisible as possible

- » Prevent damages caused by repeated contact to your bike frame or parts
- » Water and heat resistant protective sticker, suitable for all weather conditions
- » Easy installation

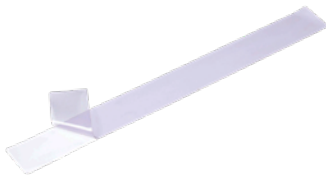

Usage type	Chain stay protection, Frame protection
Weight (g)	12
Color name	carbon fiber print

TUBESKIN | BBP-60

Thick adhesive pad to protect your downtube's paint against flying dirt and debris

- » Extra strong adhesive, stays attached even under the most extreme conditions

Usage type	Frame protection
Weight (g)	11
Color name	transparent

Hex size (mm)	2, 2.5, 3, 4, 5, 6, 8
Spoke wrenches	3.23 mm (0.127 inch), 3.30 mm (0.130 inch), 3.45 mm (0.136 inch)
Screwdriver type	Flat (SL-6), Philips (PH-3)
Weight (g)	126
Color name	blue

PRIMEFOLD L | BTL-48L

High-end folding tool with durable anodized aluminium side plates

- » With chrome plated tools
- » Includes 16 different functions

Torx size	T25
Hex size (mm)	2, 2.5, 3, 4, 5, 6, 8
Spoke wrenches	3.23 mm (0.127 inch), 3.30 mm (0.130 inch), 3.45 mm (0.136 inch), 3.96 mm (0.156 inch)
Screwdriver type	Flat (SL-6), Philips (PH-3)
Extra tools	Brake pad spreader
Chain breaker	Yes
Weight (g)	155
Color name	blue

PRIMEFOLD XL | BTL-48XL

High-end folding tool with durable anodized aluminium side plates

- » With chrome plated tools
- » Includes 18 different functions
- » With chain rivet tool, spoke wrenches and a knife

Torx size	T25, T30
Hex size (mm)	2, 2.5, 3, 4, 5, 6, 8
Spoke wrenches	3.23 mm (0.127 inch), 3.30 mm (0.130 inch), 3.45 mm (0.136 inch), 3.96 mm (0.156 inch)
Screwdriver type	Flat (SL-6), Philips (PH-3)
Extra tools	Brake pad spreader, Half serrated blade
Chain breaker	Yes
Weight (g)	214
Color name	blue

MAXIFOLD S | BTL-141S

High-end folding tool with durable aluminium side plates

» Includes 10 different functions

Torx size	T25
Hex size (mm)	2, 2.5, 3, 4, 5, 6, 8
Screwdriver type	Flat (SL-6), Phillips (PH-3)
Weight (g)	117
Color name	black/silver

MAXIFOLD M | BTL-141M

High-end folding tool with durable aluminium side plates

» Includes 13 different functions

» Tire lever and spoke wrenches included

Torx size	T25
Hex size (mm)	2, 2.5, 3, 4, 5, 6, 8
Spoke wrenches	3.23 mm (0.127 inch), 3.30 mm (0.130 inch), 3.45 mm (0.136 inch), 3.96 mm (0.156 inch)
Screwdriver type	Flat (SL-6), Phillips (PH-3)
Extra tools	Brake pad spreader, Half serrated blade, Tire lever
Weight (g)	145
Color name	black/silver

MAXIFOLD L | BTL-141L

High-end folding tool with durable aluminium side plates

» Includes 18 different functions

» Tire lever and spoke wrenches included

Torx size	T25
Hex size (mm)	2, 2.5, 3, 4, 5, 6, 8
Spoke wrenches	3.23 mm (0.127 inch), 3.30 mm (0.130 inch), 3.45 mm (0.136 inch), 3.96 mm (0.156 inch)
Screwdriver type	Flat (SL-6), Phillips (PH-3)
Extra tools	Brake pad spreader, Tire lever
Chain breaker	Yes
Weight (g)	200
Color name	black/silver

MAXIFOLD TUBELESS | BTL-141TL

- » High-end multitool with aluminium side panels
- » Compact design, with 14 different functions
- » Precise tire reamer and puncture plugger for tubeless tires

Torx size	T25
Hex size (mm)	2, 3, 4, 5, 6, 8, 2.5
Screwdriver type	Philips (PH-3), Flat (SL-6)
Quick link storage	No
Extra tools	Tubeless reamer, Tire lever, Tubeless fork
CO2 pump	No
Chain breaker	Yes
Color name	black

MINIFOLD S | BTL-40S

Extra compact minitool, all necessities in one

- » Strong tools combined with a lightweight aluminium side plates
- » 9 functions

Hex size (mm)	2, 2.5, 3, 4, 5, 6, 8
Screwdriver type	Flat (SL-6), Philips (PH-3)
Weight (g)	111
Color name	black/silver

TORXFOLD | BTL-143

High-end folding tool with durable aluminium side plates

- » Includes 8 different sizes of torx keys

Torx size	T9, T10, T15, T20, T25, T27, T30, T40
Weight (g)	125
Color name	black/silver

NEW!

STEADYUP | BTL-156

Stylish, durable bike stand

Bike stand with solid stability and a universal fit. Ready for all types of tires. Stylish and durable design protects your bike whenever you want to put it on display or store it safely. It will be an investment for years!

CASSETTEREMOVER SET | BTL-194

Including BTL-12S Lockout, BTL-122 T-Rex and BTL-211 GuidePin

- » Shimano/SRAM compatible
- » Thru axle, 12mm, compatible
- » 10,11,12 Speed compatible

Speed compatibility	10, 11, 12
Color name	silver

T-REXGRIP | BTL-122

Get a perfect grip on your cassette with these easy to use cassette pliers

- » Suitable for sprockets from 11-26 teeth
- » Fits with a spring to lock the sprocket fast and firm without slipping away
- » With kraton handle for a firm and comfortable grip

Material	Kraton, Steel
Speed compatibility	7, 8, 9, 10, 11, 12
Weight (g)	326
Color name	black/blue

TURNTABLE | BTL-11

Effectively holds the sprockets when removing the cassette lock-ring

- » Also removes freewheel sprockets
- » 7, 8, 9 and 10-speed compatible

Speed compatibility	7, 8, 9, 10
Weight (g)	194
Color name	black/blue

TURNTABLE 11 | BTL-11S

Effectively holds the sprockets when removing the cassette lock-ring

- » Also removes freewheel sprockets
- » 7, 8, 9, 10 and 11 speed compatible

Speed compatibility	7, 8, 9, 10, 11
Weight (g)	295
Color name	black/blue

LOCKOUT | BTL-12C

Removes cassette lock-rings of Campagnolo compatible cassettes

» With kraton handle for a firm and comfortable grip

Speed compatibility	7, 8, 9, 10, 11
Weight (g)	295
Color name	black/silver

LOCKOUT | BTL-12S

Removes cassette lock-rings of Shimano compatible cassettes and center lock disc brake hub systems

» With kraton handle for a firm and comfortable grip

Speed compatibility	7, 8, 9, 10, 11, 12
Weight (g)	301
Color name	black/blue

GUIDEPIN | BTL-211

12mm adapter for cassette lockring tools

» The aluminium adapter stays in place due to a magnet
 » Shimano/SRAM/Campagnolo compatible
 » Compatible with: BTL-12S/12C/107S/108C

Axle size (mm)	12
Weight (g)	12
Color name	black

NAUTILUS II | BTL-05

Easy-to-use high-end chain tool

» Can be adjusted to any chainsize
 » With kraton handle for a firm and comfortable grip
 » Integrated chain hook holds links during assembly

Speed compatibility	7, 8, 9, 10, 11, 12
Weight (g)	97
Color name	black

PROFICONNECT | BTL-55

Professional chain rivet tool

- » Compatible with any chain, including 12 speed
- » Fully adjustable to the size of the chain
- » Integrated chain hook holds links during assembly
- » With kraton handle for a firm and comfortable grip
- » With adapter for Campagnolo chains

Speed compatibility	7, 8, 9, 10, 11, 12
Weight (g)	330
Color name	black

RE-LINK | BTL-213

Ergonomic dual-function chain link tool compatible with all chains (1-12s)

- » Dual-function tool: open and close chain links with the same movement
- » Ergonomic design with a 90-degree bend for comfortable handling
- » Durable construction from extra hardened steel
- » Eco-friendly grips made from GRS certified recycled plastic

Material	Steel
Speed compatibility	1, 7, 8, 9, 10, 11, 12
Color name	black

LINKFIX | BTL-77

Chain link tool with dual function

- » With kraton handle for a firm and comfortable grip

Speed compatibility	7, 8, 9, 10, 11, 12
Weight (g)	147
Color name	black/blue

CHAINCHECKER | BTL-125

Easy to use chain wear checking tool

- » Integrated chain hooks hold links during assembly
- » Added valve tool and 5/6/8 mm allen keys makes this a unique multi-tool

Speed compatibility	7, 8, 9, 10, 11, 12
Weight (g)	30
Color name	silver

HANDYHOOK | BTL-121

Stainless steel Chain hook

» Great tool to keep the chain in place while replacing or checking the length of the chain

Weight (g)	11
Color name	black/silver

BRACKETGRIP | BTL-120

Bottom bracket tool compatible with 16-notch 48,5 mm outer diameter cups

» Extra long: 33 cm
 » With kraton handle for a firm and comfortable grip

Weight (g)	310
Color name	black/blue

BRACKETGRIP | BTL-116

Bottom bracket tool compatible with 16-notch 39/41 mm outer diameter cups

» With kraton handle for a firm and comfortable grip
 » Extra long 33 cm handle
 » Compatible with Shimano Dura Ace BB-9000, XTR 980 BB93, Ultegra 6800 and 105 5800 BBR60

Weight (g)	395
Color name	black/blue

BRACKETGRIP | BTL-27L

Bottom bracket tool compatible with 16-notch 44 mm outer diameter cups like the Shimano and Campagnolo

» With kraton handle for a firm and comfortable grip
 » Extra long 33 cm handle

Weight (g)	312
Color name	black/blue

BRACKETGRIP DUB | BTL-193

Bottom bracket tool compatible with 12-notch 46mm outer diameter cups: SRAM DUB

- » With kraton handle for a firm and comfortable grip
- » Extra long: 33cm

Color name _____ black _____

CRANKGRIP | BTL-102

Designed specifically for the removal of the dust cover from a HollowTech II crankset

- » Can be used without any extra tools

Weight (g) _____ 12 _____
Color name _____ black _____

ULTRAGRIP | BTL-38

Bottom bracket tool set for Campagnolo Ultra-Torque

- » Compatible with 16-notch 44 mm outer diameter cups
- » Bottom bracket tool to assemble the cups and extra long allen key to mount the fixing bolt
- » With kraton handle for a firm and comfortable grip

Weight (g) _____ 696 _____
Color name _____ black/blue _____

PULLSTAR | BTL-20L

Bottom bracket tool for Shimano cartridge type bottom brackets

- » Compatible with traditional, Octalink and ISIS models
- » Screw-on blocking mechanism
- » Extra long 33 cm handle allows you to apply more torque
- » With kraton handle for a firm and comfortable grip

Bottom bracket standard _____ ISIS, Octa _____
Weight (g) _____ 456 _____
Color name _____ black/blue _____

MULTIHOOK | BTL-24*For easy assembly of bottom bracket lock rings*

- » Fits most lock-ring sizes
- » With kraton handle for a firm and comfortable grip

Weight (g)	201
Color name	black/blue

POWERPULL | BTL-14*Separates the crank from the bike's bottom bracket*

- » Due to the removable cap the puller can be used on ISIS, Octalink en Square tapered spindles
- » Without the cap the tool can be used on Squared tapered spindles
- » With the cap the tool can be used on ISIS and Octalink spindles

Bottom bracket standard	ISIS, Octa, Square Tapered
Weight (g)	92
Color name	black

BOLTGRIP | BTL-32L*Chainring nut wrench*

- » For easy mounting of the chainring nuts
- » Compatible with Shimano and Campagnolo chainring nuts

Weight (g)	33
Color name	black

DUALFORCE | BTL-101*Ergonomic double-sided allen wrench*

- » 6 mm and 8 mm allen keys
- » Remove and replace your pedals quickly and easily
- » With kraton handle for a firm and comfortable grip

Hex size (mm)	6, 8
Weight (g)	196
Sizes	6mm
Color name	black/blue

HI TORQUE L | BTL-10D

Ergonomic double-sided pedal wrench

- » Extra wide and strong hooks
- » Extra long: 33 cm

Weight (g)	320
Sizes	15mm
Color name	black/blue

NEELEDRIVER HYDRAULIC | BTL-160

Professional hydraulic needle driver

- » Can be used for both needle and banjo hose barbs
- » Compatible with most brake systems

Weight (g)	134
Color name	black

HOSECUTTER HYDRAULIC | BTL-161

Cuts a smooth and clean cross section in hydraulic brake hose

- » Specific tool for synthetic hydraulic brake hoses
- » Long grips for easy leverage
- » Blade is safely hidden when in locked mode

Weight (g)	63
Color name	blue

PISTONFIX | BTL-115

Handy tool to pre-set the hydraulic piston when replacing worn out pads

- » With kraton handle for a firm and comfortable grip

Weight (g)	206
Color name	black/blue

DISCSTRAIGHT | BTL-74

Disc brake rotor straightening tool

- » Ideal solution when replacement disc is not available
- » With kraton handle for a firm and comfortable grip

Weight (g)	247
Color name	black/blue

DISCDOCTOR | BTL-212

Compact disc brake multitool with 6 functions

- » Removable shim for easy caliper aligning
- » Rotor truing fork and wear gauge function for all common rotors
- » Convenient piston spreader for brake maintenance
- » Stay on top of brake pad wear with the built-in gauge
- » With handy valve core tool

Material	Steel
Color name	black

PROFICUT | BTL-54

Professional cable cutter

- » Ultra-sharp hardened steel blades
- » Crimper for cable ends
- » With kraton handle for a firm and comfortable grip

Material	Kraton, Nylon, Steel
Weight (g)	292
Color name	black/blue

FASTCUT | BTL-16

Ultra-sharp blades cut bike cables effortlessly

- » Industrial grade hardened steel
- » With kraton handle for a firm and comfortable grip

Weight (g)	171
Color name	black/silver

CABLEPULLER | BTL-195

Inner cable puller compatible for all common cable diameters

- » Made of high quality steel
- » Two stage operation
- » Can pull the cable up to 33mm

Weight (g)	229
Color name	silver

CABLEGUIDESET | BTL-184

Complete internal cable routing tool

- » A strong magnet, four individual adapters and two 2.5 m magnetic lead wires included
- » Suitable for shifting- /braking cables, outer cables, hydraulic hoses and Di2 wires
- » Compatible with carbon fiber, titanium and aluminum bicycle frames with a minimum 6 mm hole

Weight (g)	64
Color name	silver

HIGHTORQUE | BTL-175

1/2" ratcheting torque wrench, adjustable with increments of 0.25 Nm

- » Suitable for both left as well as right-hand threads
- » Click-indicator for when the torque setting is reached
- » Total length of 355mm for maximal leverage
- » Individually calibrated by a computer for the best and most precise quality
- » Protection case included

Square bit driver (inch)	1/2
Weight (g)	780
Color name	chrome

PRECISIONTORQUE | BTL-174

High-precision 1/4" ratcheting torque wrench set with a 1-10Nm torque range

- » Highly precise and adjustable with 0.1Nm increments for accurate tightening
- » Click-mechanism provides clear indication when torque setting is reached
- » Computer-calibrated and individually tested for reliable performance
- » Re-calibration option available for long-lasting accuracy
- » Storage case and 9 bits included

Hex size (mm)	2, 3, 4, 5, 6, 2.5
Torx size	T15, T20
Material	Aluminum
Square bit driver (inch)	1/4
Color name	chrome

TORQUESET DELUXE | BTL-173

Torque tool with 1/4" drive, adjustable with increments of 0.2Nm

- » Click-mechanism to indicate when torque setting is reached
- » Each torque wrench is individually calibrated by computer and can be recalibrated
- » Protection case included

Hex size (mm)	3, 4, 5, 6, 8
Torx size	T25, T30
Square bit driver (inch)	1/4
Weight (g)	503
Color name	chrome

TORQUESET | BTL-73

Torque tool with 1/4" drive adjustable with increments of 0.5 Nm

- » Click-mechanism to indicate when torque setting is reached
- » Individually calibrated by computer
- » Protection case included

Hex size (mm)	3, 4, 5, 6, 8
Torx size	T25, T30
Square bit driver (inch)	1/4
Weight (g)	483,
Color name	black

TORQUETUNE | BTL-182

Adjustable torque wrench with bits included in the foldable handle

- » Foldable design for use as a driver or T-wrench
- » Click-mechanism to indicate when torque setting is reached
- » Hex keys 2.5, 3, 4, 5, 6 and T25 torx included
- » Bit storage located in the handle

Hex size (mm)	2.5, 3, 4, 5, 6
Hex bit driver (inch)	1/4
Torx size	T25
Material	Nylon, Steel
Weight (g)	183
Color name	black

TORQUEFIX | BTL-119

Do you know your own power? To make sure all your bolts are tightened at the right torque

- » Click-mechanism to indicate when torque setting is reached
- » Hex keys 2, 3, 4, 5, 6 and T25 torx included
- » Available in 4, 5 and 6 Nm

Hex size (mm)	2, 3, 4, 5, 6
Torx size	T25
Weight (g)	146
Color name	black/blue

HEX T | BTL-45

T-handle allen wrench

- » With ball head for hard to reach bolt heads
- » Handle made of durable composite material

Hex size (mm)	2, 2.5, 3, 4, 5, 6, 8
Material	Steel
Weight (g)	20, 22, 28, 56, 70, 88, 178
Sizes	2mm, 2.5mm, 3mm, 4mm, 5mm, 6mm, 8mm
Color name	black/silver

TORX T | BTL-46 |

T-handle torx wrench

- » Compatible with torx bolts with and without pin
- » Handle made of durable composite material

Torx size	T25, T30, T40
Material	Steel
Weight (g)	66, 84, 146
Sizes	T25, T30, T40
Color name	black/silver

HEX T SET | BTL-45S

T-handle hex and torx wrench set including holder

- » With ball head for hard to reach bolt heads
- » Handle made of durable composite material
- » Contents: 2, 2.5, 3, 4, 5, 6, 8 and 10mm hex and T25 torx.

Hex size (mm)	2, 2.5, 3, 4, 5, 6, 8, 10
Torx size	T25
Material	Steel
Weight (g)	1084
Color name	black/silver

THREESTAR | BTL-28

Portable Hex key set

- » Kraton grip in the middle for extra comfort

Hex size (mm)	2, 2.5, 3, 4, 5, 6
Weight (g)	63, 65
Sizes	2/2.5/3mm, 4/5/6mm
Color name	black

TORXSTAR | BTL-28T*Portable torx key set*

» Kraton grip in the middle for extra comfort

Torx size	T25, T30, T40
Weight (g)	68
Sizes	T25/30/40
Color name	black

COMBOSTAR | BTL-28C*Portable hex and torx key set combination*

» Kraton grip in the middle for extra comfort

Hex size (mm)	4, 5
Torx size	T25
Weight (g)	61
Color name	black

HEXSET | BTL-118*9-piece L-shaped allen wrenches set*

» Ball end for hard to reach bolt heads and a straight tip on the short arm for high torque applications
 » Comes with a handy portable tool organizer, labeled for easy access and storage

Hex size (mm)	1,5, 2, 2,5, 3, 4, 5, 6, 8, 10
Material	Steel
Weight (g)	416
Color name	black

HEXAGON | BTL-13*Extra long and strong allen key*

» Available in 8 mm
 » With hard rubber sleeve for better grip

Hex size (mm)	8
Weight (g)	110
Sizes	8mm
Color name	black/silver

DRIVEFORCE | BTL-104

Ergonomic 1/2" driver wrench for all 1/2" sockets

- » Extra long 33 cm
- » With kraton handle for a firm and comfortable grip

Square bit driver (inch)	1/2
Weight (g)	321
Color name	black/blue

BRACKETPLUG DUB | BTL-105D

Designed for the installation and removal of 12 Notch 46 mm bottom bracket cups

- » Compatible with the SRAM DUB standard
- » Compatible with the BTL-104 DriveForce and a 24mm wrench

Square bit driver (inch)	1/2
Weight (g)	138
Color name	grey

BRACKETPLUG | BTL-105

Designed for the installation and removal of 16-notch 44mm outer diameter cups

- » Compatible with the BTL-104 DriveForce and a 24mm wrench
- » Compatible with Shimano Hollowtech II

Square bit driver (inch)	1/2
Weight (g)	220
Color name	silver

LOCKPLUG | BTL-106S

Designed for the installation and removal of Shimano HG cassette lockrings and center lock disc brake hub systems

- » Compatible with the BTL-104 DriveForce and a 24 mm wrench

Square bit driver (inch)	1/2
Weight (g)	57
Color name	silver

LOCKPLUG | BTL-107S

Designed for the installation and removal of Shimano HG cassette lockrings and center lock disc brake hub systems

- » With guide pin
- » Compatible with the BTL-104 DriveForce and a 24 mm wrench

Square bit driver (inch)	1/2
Weight (g)	83
Color name	silver

LOCKPLUG | BTL-108C

Designed for the installation and removal of cassette lockrings of Campagnolo compatible cassettes

- » With guide pin
- » Compatible with the BTL-104 DriveForce and a 24 mm wrench

Square bit driver (inch)	1/2
Weight (g)	103
Color name	silver

BRACKETPLUG | BTL-109

Designed for the installation and removal of Shimano cartridge type bottom brackets

- » Compatible with traditional, Octalink and ISIS models
- » Compatible with the BTL-104 DriveForce and a 24 mm wrench

Square bit driver (inch)	1/2
Weight (g)	124
Color name	silver

HEXPLUG | BTL-110

8 mm allen key socket

- » Compatible with the BTL-104 DriveForce and a 24 mm wrench

Square bit driver (inch)	1/2
Weight (g)	75
Color name	silver

HEXPLUG | BTL-111

10 mm allen key socket

» Compatible with the BTL-104 DriveForce and a 24 mm wrench

Square bit driver (inch)	1/2
Weight (g)	78
Color name	silver

DIRECTPLUG SHIMANO XTR | BTL-199

Directmount Chainring tool for Shimano XTR with 41mm / 16 notch locking

» Operate with 44mm BB tool (BTL-27L) or 36mm spanner (BTL-56)
 » Compatible with: XTR: FC-M9100/M9120/M9130, XT: FC-M8100/M8120/M8130, SLX: FC-M7100/M7120/M7130, Deore 12s: FC-M6100/M6120

Material	Steel
Weight (g)	117
Color name	black

DIRECTPLUG BOSCH GEN.3/4 | BTL-200

Bosch Lockring tool for Bosch Gen. 3 & 4 chainrings with 43mm / 8 notch locking

» Operate with 1/2" driver (BTL-104/ BTL-175) or 24mm spanner

Square bit driver (inch)	1/2
Weight (g)	201
Color name	black

LOCKOUT | BTL-128E

Removes cassette lock-rings of Bosch mid-motor sprockets

» Extra-long, for increased leverage
 » With kraton handle for a firm and comfortable grip

Weight (g)	305
Color name	black/blue

CUPOUT | BTL-113*22 mm cup remover*

» To remove press fit bottom bracket systems using the 24 mm spindle

Weight (g)	221
Sizes	22mm
Color name	silver

CUPOUT | BTL-114*25,4 mm cup remover*

» Designed to remove 1", 1-1/8" and 1-1/4" headsets and PressFit 30 (PF30) and BB30 bottom bracket bearings

Weight (g)	303
Color name	silver

HEADFIX | BTL-56*High quality headset wrench*

» With kraton handle for a firm and comfortable grip

Headfix size	32/36, 36/40
Weight (g)	293, 297
Sizes	32/36mm, 36/40mm
Color name	silver

CONESSET | BTL-25S*5-piece set of versatile and durable cone wrenches*

» Carbon steel tools with ergonomic grip

Cone size (mm)	13, 14, 15, 16, 17
Weight (g)	690
Color name	black/blue

CONEFIX | BTL-25

Versatile and durable cone wrench

» Available in different sizes

Cone size (mm)	13, 14, 15, 16, 17
Weight (g)	133, 130, 132
Sizes	13mm, 14mm, 15mm, 16mm, 17mm
Color name	black/blue

PROTUNE | BTL-183

Professional spoke wrench

» Spoke nipple locking system for easy truing

Spoke wrenches	3.23 mm (0.127 inch), 3.30 mm (0.130 inch), 3.45 mm (0.136 inch)
Weight (g)	17
Sizes	3.2mm, 3.3mm, 3.5mm
Color name	black, green, red

PROTUNE SET | BTL-183S

Professional spoke wrench set

» Spoke nipple locking system for easy truing

Spoke wrenches	3.23 mm (0.127 inch), 3.30 mm (0.130 inch), 3.45 mm (0.136 inch)
Weight (g)	51
Color name	black, green, red

TURNER II | BTL-15

Compact CrMo spoke wrench

» Spoke wrench tool with 4 sizes (3.2/ 3.3/ 3.5/ 4.0mm)

Spoke wrenches	3.23 mm (0.127 inch), 3.30 mm (0.130 inch), 3.45 mm (0.136 inch), 3.96 mm (0.156 inch)
Weight (g)	36,
Color name	silver

SPOKEHOLDER | BTL-214

Universal spoke plier compatible with round and flat spokes

- » Securely holds spokes in place when building or truing wheels
- » Prevents twisted spokes and damage to spoke nipple threads
- » Compatible with J-bend and straight pull spokes
- » Suitable for round and flat spokes up to 2.4mm (13G)
- » Features ergonomic handles for comfortable and efficient use

Material	Steel
Color name	black

TENSIONGAUGE | BTL-186

Spoke tension meter for checking, truing and building wheels

- » Compatible with all spoke shapes and material

Weight (g)	150
Color name	black

EASYLIFT | BTL-81

Easy to use tire levers

- » Click-together system for portability
- » 3 pieces a set

Material	Nylon
Weight (g)	35,
Color name	black, red/white/blue, red/white/green, black/red/yellow, neon yellow

EASYLIFT DISPLAY BOX | BTL-81D

Display box with 48 sets of 3 pcs EasyLift tire levers.

Weight (g)	1840
Color name	black/blue/red/green

SMARTLIFT | BTL-82

Smart tire lever multitool to remove and install your tire

- » Effortless tire removal with two included tire levers.
- » Convenient tire installation hook for quick and easy fitting of the tire on the rim
- » Integrated storage for presta valve core and tubeless tire plugs
- » Includes a built-in valve core tool for added versatility

Material	Nylon
Color name	black

SMARTLIFT DISPLYBOX 24 | BTL-82D

SmartLift Displaybox 24 pcs.

- » Smart tire lever multitool to remove and install your tyre
- » Effortless tire removal with two included tire levers.
- » Convenient tire installation hook for quick and easy fitting of the tire on the rim
- » Integrated storage for presta valve core and tubeless tire plugs
- » Includes a built-in valve core tool for added versatility

Color name	black
-------------------	-------

PROFILIFT | BTL-79

Professional tire lever

- » Composite side for bike wheels, metal side for heavy duty purposes
- » Comfortable grip

Weight (g)	79
Color name	black

PUNCTUREPLUGGER | BTL-185

Tubeless tire repair kit

- » Separate reamer and insertion tool
- » Includes 6 tire plugs (3 x 1.5mm and 3 x 3.5mm)
- » CNC machined handle with storage container for the plugs
- » High-quality and durable tool made from aluminum and steel

Weight (g)	55
Color name	black

EASYTIRE | BTL-78

The tool helps to put tires on the rim

- » Perfect help for tight tires/wheel combination
- » Fully composite to prevent wheel or tire damage

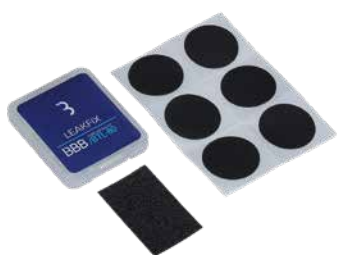

Weight (g)	120
Color name	black

LEAKFIX | BTL-80

Tube repair kit with adhesive patches

- » Set with 6 self adhesive patches and a piece of sandpaper

Weight (g)	8
Sizes	Universal
Color name	black

LEAKFIX DISPLAY BOX | BTL-80D

Display box with 50 pcs of BTL-80 LeakFix.

Weight (g)	489
Color name	black

THRUGRIP | BTL-123

This transport kit consists of 2 pistonpads and a chainguide

- » The pistonpads can be used for keeping the brakepads spread while the wheels are out
- » With use of the O-ring the pistonpads can be held in place in almost all brake systems
- » The chainguide can keep the chain clear and guided on axles up to 12 mm

Weight (g)	50
Color name	black/silver

CHAINGRIP | BTL-50

Quick-release axle system keeps the chain under tension when the wheel is removed

» Easy for transportation and cleaning of the bike

Weight (g)	115, 122
Sizes	130mm, 135mm
Color name	black/silver

FORKGRIP | BTL-49

Quick release axle system protects the front fork when the wheel is removed

» With disc brake pad adapter which retains the brake pads when the disc is removed

Weight (g)	84
Color name	black/silver

FRAMESET | BTL-190

Durable and washable brushes and mitt to wash your whole bike

- » Big soft brush for heavy frame cleaning
- » Agile detail brush for drivetrain cleaning on narrow spots
- » The trusty toothbrush for deep cleaning of your chain and cassette
- » Cuffed microfiber glove for cleaning the details of your frame and fork
- » Handy sack to keep it all together

Weight (g)	150
Color name	black

BIOREADYWASH TRIGGER 500ML | BTL-253

Bio-based ready to use bike wash

- » Ready to use bike wash mixture
- » Easy to use spray nozzle
- » Effective against dust and dirt
- » 100% biodegradable within 28 days
- » Made with 100% plant-based material

Color name	blue
-------------------	------

**BIOSUPERWASH 1L | BTL-251**

Bio Superwash effortlessly cleans grease and dirt from your bike without the use of any chemicals.

- » Contains natural wax to protect the paint
- » Highly concentrated for smaller packaging
- » PH-neutral
- » 100% biodegradable within 28 days
- » 100% free from microplastics

Volume (L)	1
Weight (g)	1066
Color name	blue

**BIOSUPERWASH 5L | BTL-251W**

Sustainable wash for bicycle cleaning

- » Contains natural wax to protect the paint
- » Highly concentrated for smaller packaging solutions
- » PH-neutral
- » 100% biodegradable within 28 days
- » 100% free from microplastics

Volume (L)	5
Color name	blue

**TOOTHBRUSH | BTL-17**

Extra thick brushes suited for a variety of cassette cleaning jobs

- » Durable nylon brushes stay stiff
- » Washable

Material	Nylon
Weight (g)	35
Color name	black

**BRIGHT & FRESH | BTL-21**

Tool for cleaning your chain

- » Smooth internal chain guide mechanism
- » No chain disassembly required
- » Rinse the cleaner well with water after use. Because fumes from the degreaser can damage the plastic.

Weight (g)	290
Color name	clear

BIODRIVETRAIN CLEANER 500ML | BTL-250S

Bio Drivetrain Cleaner is a plant-based degreaser.

- » Can be used undiluted without any problems
- » 100% plant-based
- » 100% recycled PET packaging
- » 100% free from microplastics

Color name

BIODRIVETRAIN CLEANER 1L | BTL-250

Bio Drivetrain Cleaner is a plant-based degreaser.

- » Can be used undiluted without any problems
- » 100% plant-based
- » 100% recycled PET packaging
- » 100% free from microplastics

Volume (L)
Weight (g)
Color name

BIODRIVETRAIN CLEANER 5L | BTL-250W

Sustainable plant-based degreaser

- » Can be used undiluted without any problems
- » Made with 100% plant-based ingredients
- » Packaging made from 100% recycled PET material
- » 100% free from microplastics

Volume (L)
Color name

DEADBLOW | BTL-187

Anti-rebound hammer provides sustained impact and force without vibrations

- » Soft rubber head for surface protection

Weight (g)
Color name

STEERERTUBE | BTL-188

Sawguide ensures a straight cut for steertubes, seatposts or handlebars

- » Can be mounted on a vise
- » Suited for Ø 20 - 33 mm bars

Weight (g)	427
Color name	silver

MULTITUBE | BTL-189

Sawguide ensures a straight cut, for round or aero shaped steertubes, seatposts or handlebars

- » Can be mounted on a vise
- » Suited for Ø 21.5 - 45 mm bars and aerobar tube length: 30 - 80 mm

Weight (g)	445
Color name	silver

PADALIGN | BTL-196

Derailleur pad alignment tool

- » Long and stiff profile with accurate gauge for high precision
- » Rubber ends on the gauge to prevent damage to the rim
- » Made of high quality steel and lasts a lifetime

Weight (g)	295
Color name	black

ALLROUNDKIT | BTL-91

Extra strong toolbox with the 14 most common tools for your bike maintenance

- » Protective foam inserts keeps the tools in place
- » Extra space to add additional tools to meet your specific needs
- » 14 tools included: BLT-15/ BTL-28T/ BTL-125/ BTL-77/ BTL-104/ BTL-54/ BTL-55/ BTL-110/ BTL-17/ BTL-118/ BTL-32L/ BTL-11/ BTL-79/ BTL-107S

Weight (g)	4270
Color name	black

CHAIN&CASSETTE SET | BTL-225

All tools you need to perform maintenance on the chain, cassette and more

- » Comes in a luxury toolbox for storage and transport
- » With protective foam inserts to protect your tools and keep them all in place

Weight (g)	2100
Color name	black

BEARINGPRESS SET | BTL-231

Bearing press set compatible for all 22/24/29/30mm spindle standards

- » Two sided aluminium CNC machined cups for a perfect fit on both bottom bracket cups and bearings
- » Supports all (serviceable) BBB cycling bottom brackets
- » Luxury and comfortable handles with an offset for easy usage
- » 240mm long thread fits any bottom bracket width
- » Comes in a luxury toolbox for storage and transport

Weight (g)	1270
Color name	black

BEARING REMOVER GXP/BB90 | BTL-232

Extracts bearings with minimal stress for your frame and Bottom bracket Cups

- » Bearing extractor with special extractor plates for 22 and 24mm bearings
- » Extractor Cup (diameter 37mm) with O-ring to protect your bottom bracket cup and frame
- » Easy to use with a 5mm allen key and holding the cup by hand or 17mm spanner
- » Made out of aluminium by CNC for the highest precision and quality
- » Compatible with BBB Cycling BottomFit 24/GXP brackets and possible other brackets where the bearing can be replaced. Inquire for possible compatibility

Weight (g)	57
Color name	blue

BEARING REMOVER DUB/BB30 | BTL-233

Extracts bearings with minimal stress for your frame and BB Cups

- » Bearing extractor with special extractor plates for 29 and 30mm bearings
- » Extractor Cup (diameter 42 mm) with O-ring to protect your bottom bracket cup and frame
- » Easy to use with a 5mm allen key and holding the cup by hand or 17mm spanner
- » Made out of aluminium by CNC for the highest precision and quality
- » Compatible with BBB Cycling BottomFit DUB/30mm brackets and possible other brackets where the bearing can be replaced. Inquire for possible compatibility.

Weight (g)	65
Color name	blue

**BRACKETKIT | BTL-95**

Extra strong toolbox with all the necessary tools to remove and install your press-fit bottom bracket

- » Suitable for: BB30, PF30, PF86-92, BB90-95 and GXP
- » Protective foam inserts keeps the tools in place
- » Set contains: 2 bearing press cups, 1 bearing removal tool and 1 cup press rod.

Weight (g)	1540,
Color name	black

**TOOLS & TUBES | BTL-18**

Storage can, to fit in your bottle cage

- » Durable composite material
- » Internal storage tray for small parts
- » Perfect to organise your inner tube, tools, Co2 inflator etc.

Weight (g)	67, 73
Sizes	S, L
Color name	black

**SOFTCASE | BTL-181**

Storage can, to fit in your bottle cage

- » Waterproof fabrics and zippers
- » Perfect to organize your inner tube, tools, Co2 inflator etc.
- » Internal (zippered) compartments
- » Made of PU-coated EVA-foam

Weight (g)	35
Sizes	L
Color name	black

**WALLMOUNT DELUXE | BTL-150**

Stylish horizontal bike storage to hang on beams and walls

- » Protective foam pads to protect the bike from scratches
- » Folds out of the way when not in use, a space saving option for storing your bike
- » Angle adjustable hook

Max. load (kg)	20
Max. steer width (cm)	70
Color name	black

WALLMOUNT | BTL-93

Horizontal bike storage to hang on beams and walls

- » Protective plastic cover to protect the bike from damage
- » Folds out of the way when not in use, a space saving option for storing your bike
- » Angle adjustable hook
- » For bikes with a maximum weight of 15 kg

Max. load (kg)	15
Max. steer width (cm)	70
Weight (g)	874,
Color name	black

PEDALPARKER | BTL-153

Minimalistic pedal wall mount

- » Foldable hook for easy adaptation to different bikes and compact storage
- » Rubberized hook to protect pedal and crank finish from scratches
- » Includes two support profiles for stable wheel placement
- » Compatible with all pedal types: Flat, SPD, Clipless
- » Plugs and screws included for hassle-free installation

Material	Rubber, Steel
Max. load (kg)	20
Color name	black

PARKINGLOT SWIVEL | BTL-127

Vertical bike storage with swivel function for optimal efficiency

- » Robust and stylish solution to store your bike of up to 20 Kg
- » Including rear wheel backplate to keep the bike stable and to protect the wall
- » Fits tires up to 3" inch
- » Made of steel to last a life time

Material	Steel
Max. load (kg)	20
Color name	black

PARKINGLOT | BTL-126

Stylish vertical bike storage to hang on beams and walls

- » A space saving option for storing bikes of up to 20 Kg
- » Fits Road and MTB tires up to 3"
- » Protects your wheel and wall with a wide contact point

Material	Steel
Max. load (kg)	20
Weight (g)	672
Color name	black

**PARKINGHOOK | BTL-26**

Heavy-duty wall or ceiling mount for storage of bicycles

» Variable angle bracket fits nearly all tire sizes

Max. load (kg)	15
Weight (g)	310,
Color name	black

**SPINDLESTAND | BTL-155**

Portable workstand for bikes with hollow crankset

- » Including 13/17/20mm spacers for compatibility with different cranksets
- » One wheel off the ground and free pedal movement
- » Rubber feet for anti-slip and protection for the floor
- » Durable powder coated finish
- » Foldable for easy storage and transport

Color name	black
-------------------	-------

**PROFIMOUNT | BTL-36**

High-end bike repair stand with excellent stability

- » Completely adjustable and foldable
- » Convenient frame and seatpost clamping mechanism
- » Carrying bag included
- » For bikes with a maximum weight of 23 kg

Max. load (kg)	23
Color name	black/silver

**STEADYUP | BTL-156**

Bike stand for showing or storing any bicycle

- » Enhanced stability, engineered for a solid hold and preventing tipping
- » Universal compatibility, adapts to various bike types and a wide range of styles and sizes
- » Aesthetic design, sleek and optimized it doubles the style and function
- » Durable construction, built to ensure longevity, protecting your investment and your bike for years to come
- » Easy assembly, intuitive setup means you're ready to display your bike

Color name	black
-------------------	-------

NEW

BIOHANDWASH 500ML | BTL-259

Natural hand cleaning soap

- » Powerful salt scrub for effortless hand cleaning
- » Effectively removes dirt and oils from your hands
- » Refreshing lemon scent for a pleasant experience
- » Clean and bright white color
- » Volume: 500 ml

Color name _____ white _____

BIOBEARINGGREASE 50ML | BTL-261

Bio-based bearing grease for a smooth and protected bike

- » Low friction grease keeps high loaded bearings and axles run smooth
- » Resin free mix that easily attaches
- » Effective against water and dirt, providing high corrosion protection
- » All-weather performance from -20°C to 70°C for reliable use
- » Made with 100% plant-based ingredients

Color name _____ blue _____

BIOBEARINGGREASE 500ML | BTL-261W

Bio-based bearing grease for a smooth and protected bike. Including workshop brush.

- » Low friction grease keeps high loaded bearings and axles run smooth
- » Resin free mix that easily attaches
- » Effective against water and dirt, providing high corrosion protection
- » All-weather performance from -20°C to 70°C for reliable use
- » Made with 100% plant-based ingredients

Color name _____ blue _____

BIOPASTE 50ML | BTL-262

Universal assembly paste to mount and protect bike parts

- » Prevents squeaking and protects screw connections for smooth rides
- » Protects against corrosion and moisture for long-lasting performance
- » Prevents bike parts from different metals to cold weld together
- » Made with 100% plant-based ingredients
- » 100% biodegradable within 28 days

Color name _____ white _____

**BIOPASTE 500ML | BTL-262W**

NEW

Universal assembly paste to mount and protect bike parts. Including a workshop brush.

- » Prevents squeaking and protects screw connections for smooth rides
- » Protects against corrosion and moisture for long-lasting performance
- » Prevents bike parts from different metals to cold weld together
- » Made with 100% plant-based ingredients
- » 100% biodegradable within 28 days

Color name white

**BIOCARBONPASTE 50ML | BTL-263**

Specific assembly paste for mounting carbon bike parts

- » Fine structure paste for necessary grip on your components
- » Prevents damages and squeaking noises for smooth rides
- » Ideal for mounting carbon seatposts, stems and handlebars
- » Made with 100% plant-based ingredients
- » 100% biodegradable within 28 days

Color name gold

**BIOCARBONPASTE 500ML | BTL-263W**

NEW

Specific assembly paste for mounting carbon bike parts. Including a brush.

- » Fine structure paste for necessary grip on your components
- » Prevents damages and squeaking noises for smooth rides
- » Ideal for mounting carbon seatposts, stems and handlebars
- » Made with 100% plant-based ingredients
- » 100% biodegradable within 28 days

Color name gold

**BIOGLOSS 100ML | BTL-265**

NEW

Bio-based frame wax for frame gloss and protection

- » Ready to use frame protection
- » Easy to use spray nozzle
- » Effective against dust and dirt
- » Made with 100% plant-based material
- » Do not use on matt frames

Color name white

DISCSTOP HP SHIMANO | BBS-50

High end brakepads with an organic compound

- » Made of our high performance Organic compound
- » Gives the best result in all-round competitive cross country conditions.
- » Easy installation due to the sloping bottom.
- » Direct ready to use
- » Compatible with SHIMANO: XT M755, SRAM: Mech 9.0 and more.

Amount (pieces)	2
Disc brake pad type	Organic High Performance
Pad springs included	Yes
Weight (g)	19

DISCSTOP HP SHIMANO | BBS-51

High end brakepads with an organic compound

- » Made of our high performance Organic compound
- » Gives the best result in all-round competitive cross country conditions.
- » Easy installation due to the sloping bottom.
- » Direct ready to use
- » Compatible with SHIMANO: Deore M555, Nexave C901.

Amount (pieces)	2
Disc brake pad type	Organic High Performance
Pad springs included	Yes
Weight (g)	20

DISCSTOP HP SHIMANO | BBS-52

High end brakepads with an organic compound

- » Made of our high performance Organic compound
- » Gives the best result in all-round competitive cross country conditions.
- » Easy installation due to the sloping bottom.
- » Direct ready to use
- » Compatible with SHIMANO: Deore M575, M525, M515, M506, M495, M486, M485, M475, M465, M447, M446, M445, and more.

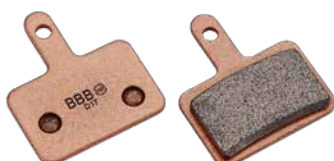

Disc brake pad type	Organic High Performance
Pad springs included	Yes
Weight (g)	23

Also available: DiscStop HP, 20 sets in a box.

DISCSTOP HP SINTERED SHIMANO | BBS-52S

Brakepads with a sintered compound

- » Made of our sintered compound braking surface
- » Able to handle longer periods of braking in both dry and wet conditions
- » Easy installation due to the sloping bottom
- » Direct ready to use
- » Compatible with SHIMANO: Deore M575, M525, M515, M506, M495, M486, M485, M475, M465, M447, M446, M445, and more.

Amount (pieces)	2
Disc brake pad type	Sintered High Performance
Pad springs included	Yes
Weight (g)	26

Also available: DiscStop HP, 20 sets in a box.

DISCSTOP SHIMANO | BBS-53T

Brakepads with an organic compound

- » The all-round organic compound provides good performance in all kinds of conditions
- » Suited for normal use on a mountain bike or trekking bike
- » Durable, economical and free of noise
- » Compatible with SHIMANO: Deore M575, M525, M515, M506, M495, M486, M485, M475, M465, M447, M446, M445 and more.

Amount (pieces)	2
Disc brake pad type	Organic
Pad springs included	Yes
Weight (g)	24

Also available: DiscStop HP, 20 sets in a box.

DISCSTOP HP SHIMANO | BBS-53

- » Compatible with HOPE: Tech X2, Tech V2, Race Evo X2, Mini X2.

Amount (pieces)	2
Disc brake pad type	Organic High Performance
Pad springs included	Yes
Weight (g)	23

DISCSTOP HP HOPE | BBS-591

High end brakepads with an organic compound

- » Made of our high performance Organic compound
- » Gives the best result in all-round competitive cross country conditions.
- » Easy installation due to the sloping bottom.
- » Direct ready to use
- » Compatible with HOPE: RX4-SH, RX4+, Tech 3 E4, Stealth E4, Race Evo E4 Tech M4, Tech Evo M4, Race Evo M4, Mono M4 (2004).

Amount (pieces)	2
Disc brake pad type	Organic High Performance
Pad springs included	Yes
Weight (g)	20

BLEEDKIT | BBS-101

Complete disc brake bleed kit for multiple brands

- » Suitable for DOT and Mineral oil
- » Compatible with Shimano MTB, Hayes, Magura and Avid/SRAM

Compatible with oil type	DOT, Mineral
Weight (g)	97

BLEEDKIT SRAM | BBS-102

Complete SRAM compatible disc brake bleed kit

- » Bleeding Edge and legacy Avid/SRAM adapters included
- » DOT oil compatible

Compatible with oil type	DOT
Weight (g)	77

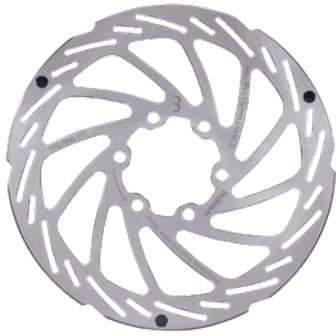

BLEEDKIT SHIM. COMP | BBS-103

Complete Shimano compatible disc brake bleed kit

- » Compatible with Shimano MTB and Road groupsets
- » Mineral oil compatible

Compatible with oil type	Mineral
Weight (g)	250

POWERSTOP | BBS-111/112/113/114/115

Industrial-grade stainless steel disc

- » Compatible with most disc brake systems
- » Designed for great power-modulation, long durability and high performance
- » Rounded edges for improved safety and easy installation
- » Wear-out indicators to show when to replace disc
- » Wear-out indicators to show when to replace disc

Amount (pieces)	1
Compatibility	6-bolt
Wear-out indicator	Yes
Weight (g)	105, 150, 190, 200, 246
Length (mm)	140, 160, 180, 203, 0

CENTERSTOP | BBS-121

Industrial-grade stainless steel disc

- » Designed for great power-modulation, long durability and high performance
- » Rounded edges for improved safety and easy installation
- » Wear-out indicators to show when to replace disc
- » Compatible with Centerlock-hub

Amount (pieces)	1
Compatibility	Center-lock
Wear-out indicator	Yes
Weight (g)	138, 158, 176, 211, 322
Length (mm)	140, 160, 180, 203, 220

CENTERBLOCK | BBS-131

Rotor locking for Centerlock hubs

- » Compatible with quick-release axles and 12mm Tru-axles
- » Tool fit size: Shimano Cassette lockring - BTL-106S/107S

Compatibility	Center-lock
Weight (g)	22

CENTERBLOCK | BBS-132

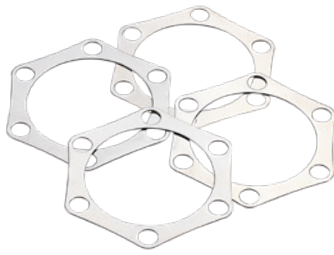

Rotor locking for Centerlock hubs

- » Compatible with 15 and 20mm Tru-axles
- » Tool fit size: 16 notch 44mm - BTL-27L/38/105

Compatibility	Center-lock
Weight (g)	24

6-BOLT SHIMSET | BBS-130

Spacer for centering your rotor between the pads

» Set with 4 stainless steel shims of each 0.3mm thickness

Amount (pieces)	4
Compatibility	6-bolt
Weight (g)	2
Length (mm)	46

CENTERFIT | BBS-90

Convert your 6-bolt disc brake to a centerlock

- » Hub rotor adapter
- » Extra slim locking design, road bike compatible
- » Converts 6-bolt rotors to centerlock
- » Compatible with all 1.8mm BBB Powerstop discs
- » Tool fit size: 16 notch 44mm - BTL-27L/38/105

Weight (g)	38
-------------------	----

POWERMOUNT | BBS-91

Strong and durable disc brake adapter

- » Adapter for 180 mm discs
- » Converts Postmount (PM) 160 mm to Postmount (PM) 180 mm
- » 2 bolts included

Amount (pieces)	1
Adapter size	160 - 180 mm
Adapter system	Postmount (PM) -> Postmount (PM)
Mount location	Front fork, Rear fork
Weight (g)	39

POWERMOUNT | BBS-92

Strong and durable disc brake adapter

- » Adapter for 203 mm discs
- » Converts Postmount (PM) 160 mm to Postmount (PM) 203 mm
- » 2 bolts included

Adapter size	160 - 203 mm
Adapter system	Postmount (PM) -> Postmount (PM)
Mount location	Front fork, Rear fork
Weight (g)	37, 49

POWERMOUNT | BBS-93F

Strong and durable disc brake adapter

- » Adapter for 160 mm discs
- » Converts International Standard (IS) 160 mm to Postmount (PM) 160 mm
- » IS front fork mount to PM caliper
- » 2 bolts included

Adapter size	160 - 160 mm
Adapter system	International Standard (IS) -> Postmount (PM)
Mount location	Front fork
Weight (g)	29

POWERMOUNT | BBS-93R

Strong and durable disc brake adapter

- » Adapter for 160 mm discs
- » Converts International Standard (IS) 160 mm to Postmount (PM) 160 mm
- » IS rear frame mount to PM caliper
- » 2 bolts included

Adapter size	160 - 160 mm
Adapter system	International Standard (IS) -> Postmount (PM)
Mount location	Rear fork
Weight (g)	31

POWERMOUNT | BBS-94F

Strong and durable disc brake adapter

- » Adapter for 180 mm discs
- » Converts International Standard (IS) 160 mm to Postmount (PM) 180 mm
- » IS front fork mount to PM caliper
- » 2 bolts included

Adapter size	160 - 180 mm
Adapter system	International Standard (IS) -> Postmount (PM)
Mount location	Front fork
Weight (g)	32

POWERMOUNT | BBS-94R

Strong and durable disc brake adapter

- » Adapter for 180 mm discs
- » Converts International Standard (IS) 160 mm to Postmount (PM) 180 mm
- » IS rear frame mount to PM caliper
- » 2 bolts included

Adapter size	160 - 180 mm
Adapter system	International Standard (IS) -> Postmount (PM)
Mount location	Rear fork
Weight (g)	38

POWERMOUNT | BBS-95F

Strong and durable disc brake adapter

- » Adapter for 203 mm discs
- » Converts International Standard (IS) 160 mm to Postmount (PM) 203 mm
- » IS front fork mount to PM caliper
- » 2 bolts included

Adapter size	160 - 203 mm
Adapter system	International Standard (IS) -> Postmount (PM)
Mount location	Front fork
Weight (g)	38

POWERMOUNT | BBS-95R

Strong and durable disc brake adapter

- » Adapter for 203 mm discs
- » Converts International Standard (IS) 160 mm to Postmount (PM) 203 mm
- » IS rear frame mount to PM caliper
- » 2 bolts included

Adapter size	160 - 203 mm
Adapter system	International Standard (IS) -> Postmount (PM)
Mount location	Rear fork
Weight (g)	47

POWERMOUNT | BBS-96F

Strong and durable disc brake adapter

- » Adapter for 140 mm discs
- » Converts Flatmount (FM) 140 mm to Postmount (PM) 140 mm
- » FM front fork mount to PM caliper
- » 2 bolts included

Adapter size	140 - 140 mm
Adapter system	Flatmount (FM) -> Postmount (PM)
Mount location	Front fork
Weight (g)	47

POWERMOUNT | BBS-96R

Strong and durable disc brake adapter

- » Adapter for 140 mm discs
- » Converts Flatmount (FM) 140 mm to Postmount (PM) 140 mm
- » FM rear frame mount to PM caliper
- » 2 bolts included

Adapter size	140 - 140 mm
Adapter system	Flatmount (FM) -> Postmount (PM)
Mount location	Rear fork
Weight (g)	42

POWERMOUNT | BBS-97F

Strong and durable disc brake adapter

- » Adapter for 160 mm discs
- » Converts Flatmount (FM) 140 mm to Postmount (PM) 160 mm
- » FM front fork mount to PM caliper
- » 2 bolts included

Adapter size	140 - 160 mm
Adapter system	Flatmount (FM) -> Postmount (PM)
Mount location	Front fork
Weight (g)	68

POWERMOUNT | BBS-97R

Strong and durable disc brake adapter

- » Adapter for 160 mm discs
- » Converts Flatmount (FM) 140 mm to Postmount (PM) 160 mm
- » FM rear frame mount to PM caliper
- » 2 bolts included

Adapter size	140 - 160 mm
Adapter system	Flatmount (FM) -> Postmount (PM)
Mount location	Rear fork
Weight (g)	38

POWERMOUNT | BBS-98F

Strong and durable disc brake adapter

- » Adapter for both 140 as well as 160mm discs
- » Converts Flatmount (FM) to Flatmount (FM) 140 or 160mm
- » Including all necessary bolts

Adapter size	140 - 140 mm, 140 - 160 mm
Adapter system	Flatmount (FM) -> Flatmount (FM)
Mount location	Front fork

POWERMOUNT | BBS-98R

Strong and durable disc brake adapter

- » Adapter for 160 mm discs
- » Converts Flatmount (FM) 140 mm to Flatmount (FM) 160 mm
- » Bolts included
- » 2 bolts included

Adapter size	140 - 160 mm
Adapter system	Flatmount (FM) -> Flatmount (FM)
Mount location	Rear fork
Weight (g)	17

POWERMOUNT | BBS-99*Strong and durable disc brake adapter*

- » Adapter for 203/220 mm discs
- » Converts Postmount (PM) 180 mm to Postmount (PM) 203 mm or 220 mm
- » 2 bolts included

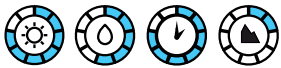

Adapter size	180 - 203 mm, 180 - 220 mm, 203 - 220 mm
Adapter system	Postmount (PM) -> Postmount (PM)
Mount location	Front fork, Rear fork
Weight (g)	32, 34

HAVE A BRAKE

Hitting the brakes is an essential part of enjoying your ride. Whatever system you're using, we have a range of multiple award winning disc brake pads available. All due to their unique compounds, each specially developed for their own purpose. All our disc brake pads come in a complete set to replace one caliper.

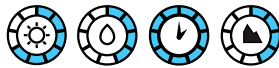

DISCSTOP

Brakepads with an organic compound. Suited for normal use on a mountainbike or trekking bike. Durable, economical and free of noise.

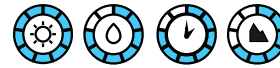

DISCSTOP E-BIKE

Brakepads which are developed to compliment the commuting e-bike lifestyle. Made of an organic compound specially developed for the use on a e-bike or speed pedelec. The compound focuses on durability and stopping Heavier bikes.

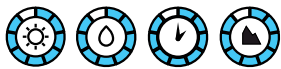

DISCSTOP HP

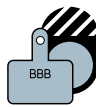

High end brakepads with an organic compound. These brakepads perform best in dry conditions and give the best stopping power, which makes them ideally suited for competitive XC-use. Easy installation due to the sloping bottom.

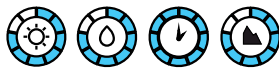

DISCSTOP SINTERED

Our copper-backed brakepads feature a sintered compound braking surface. Which is able to handle longer periods of braking in both dry and wet conditions and are therefore more suitable for highspeed and downhill applications.

DISCSTOP COOLFIN

Heatsinks combined with organic compound gives these pads excellent heat dissipation increasing reliability and life-span while retaining braking power. Spare-pads are available making them the sustainable choice for enthusiast cyclists.

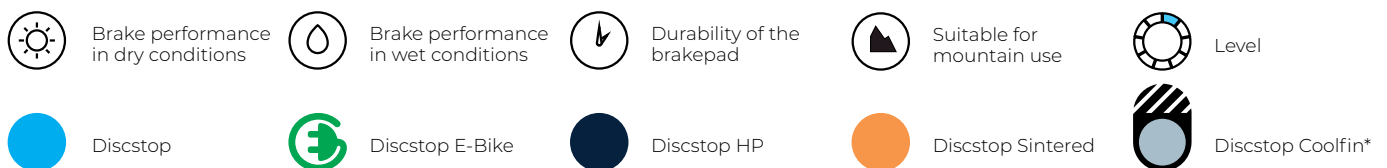

COLOR-CODES

Color-codes will point you straight to the packaging of the pads that are compatible with your brakes.

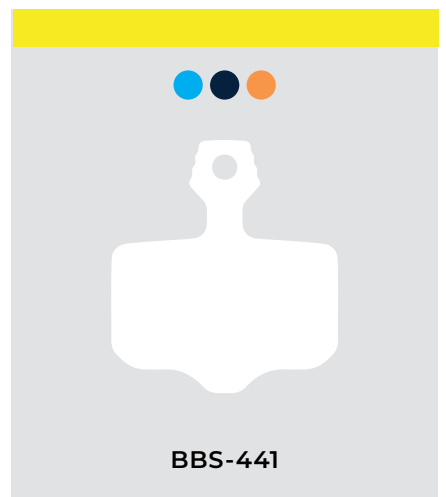

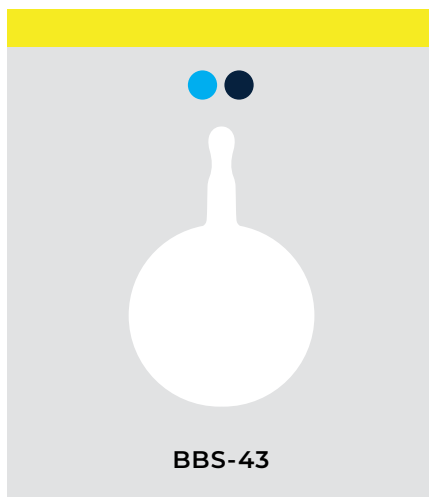

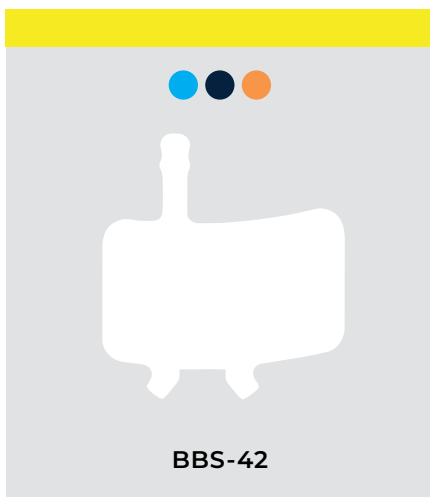

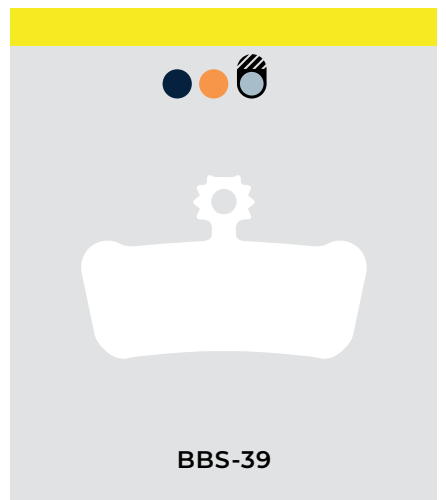

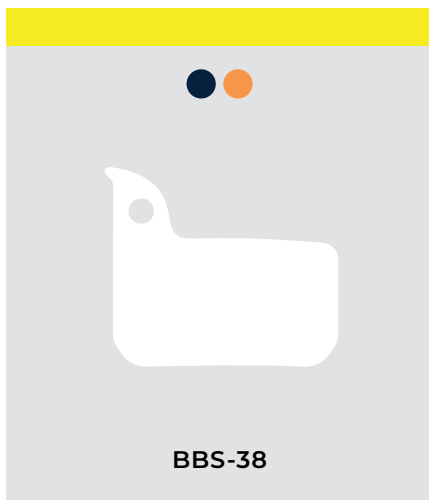

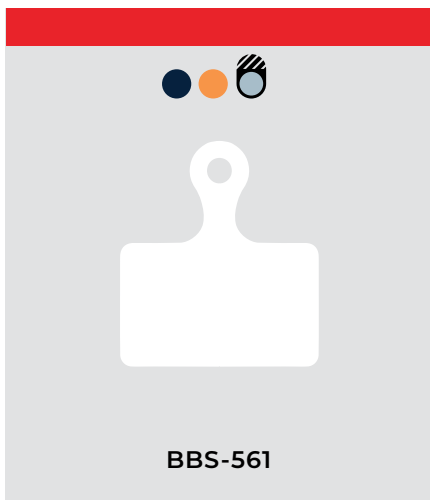

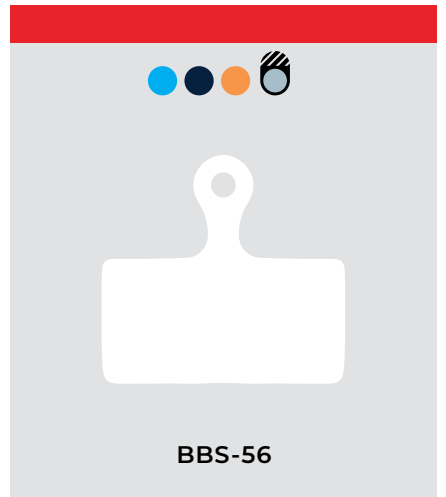

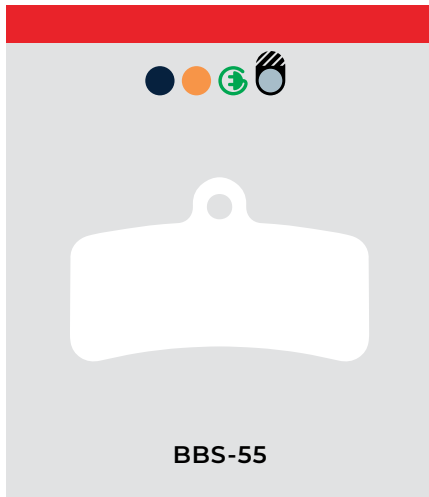

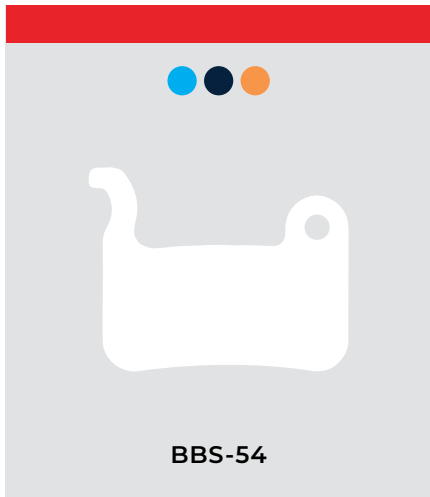

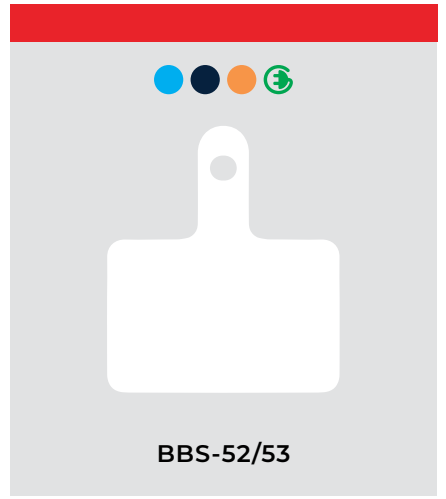

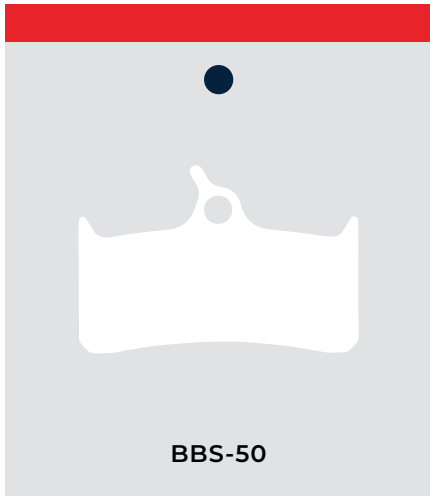

ICONS EXPLAINED

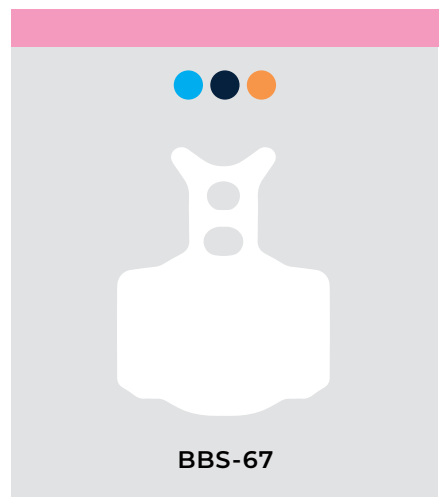

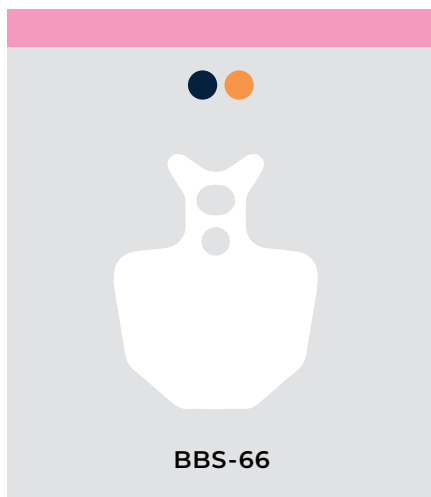

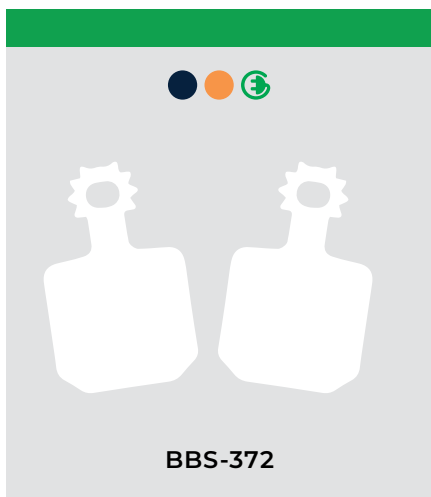

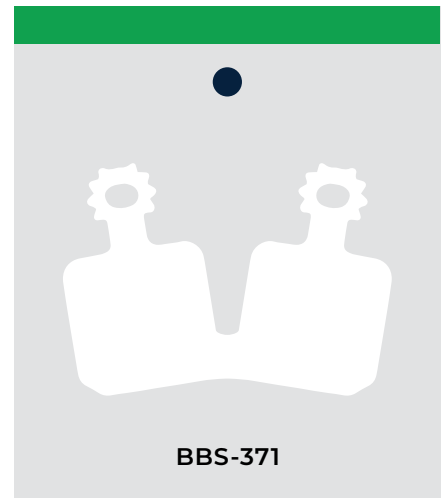

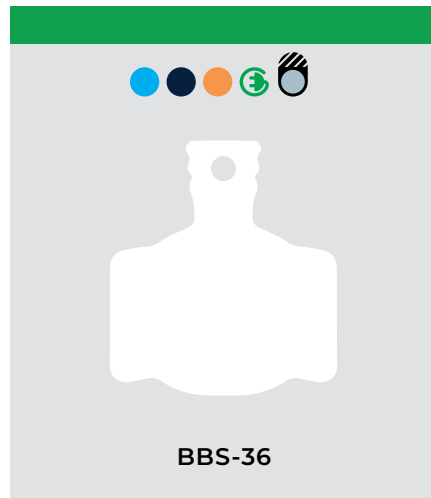

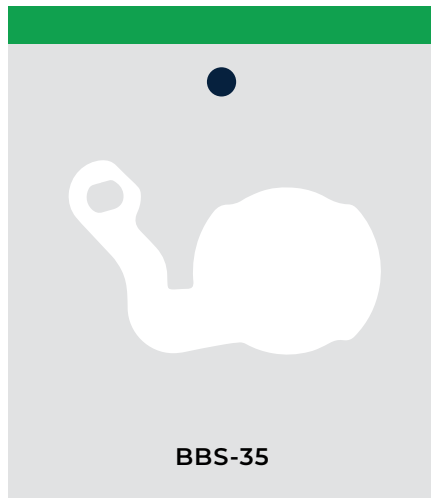

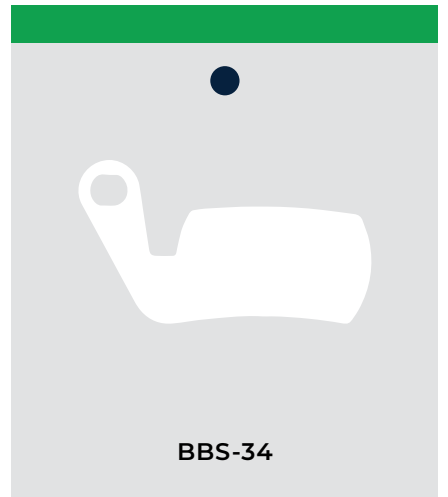

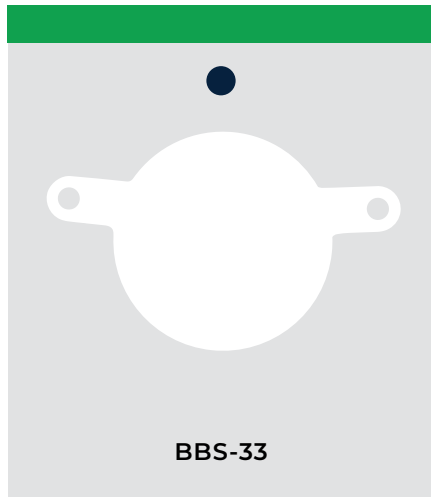

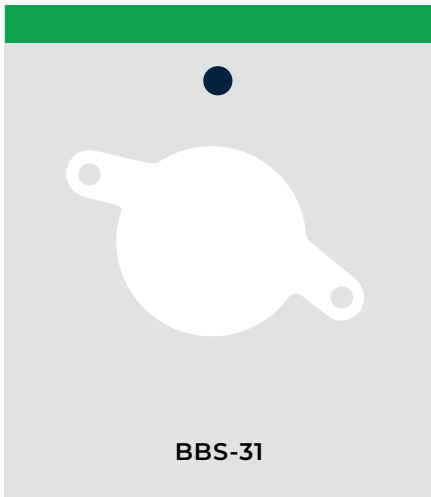

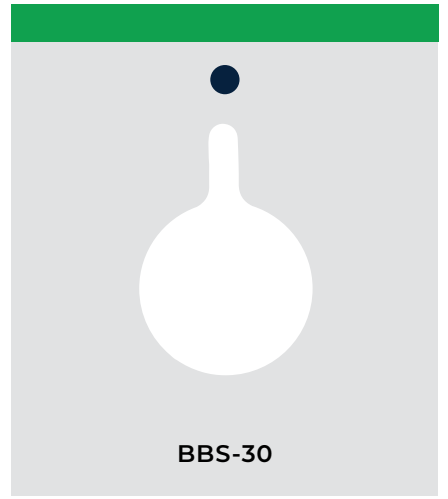

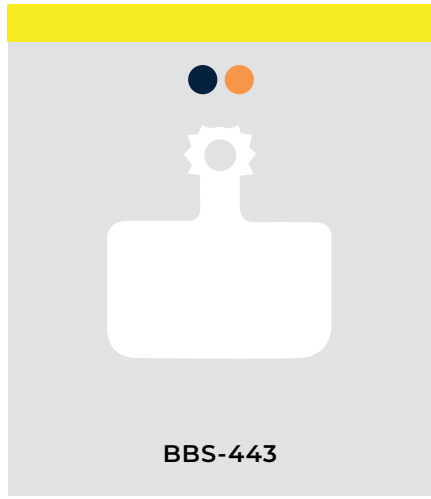

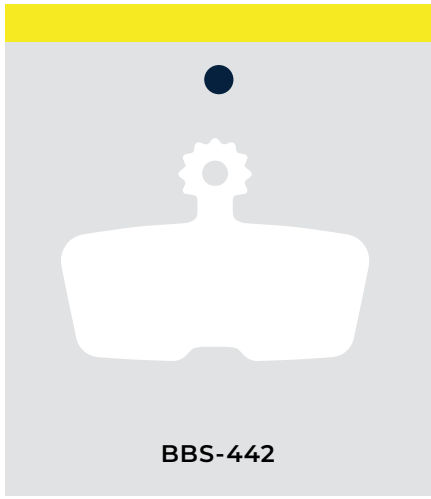

These icons will tell you how suitable the pads are in different conditions.

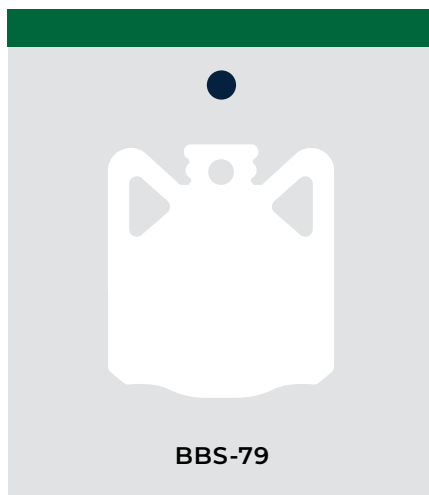

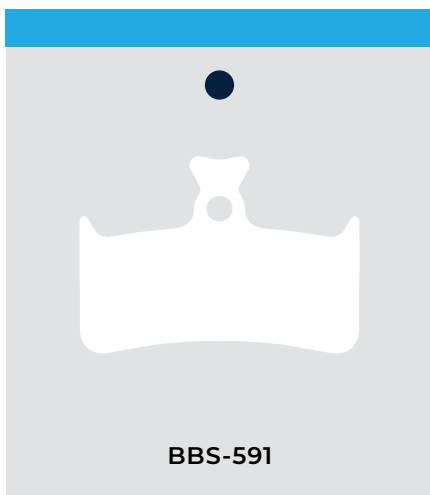

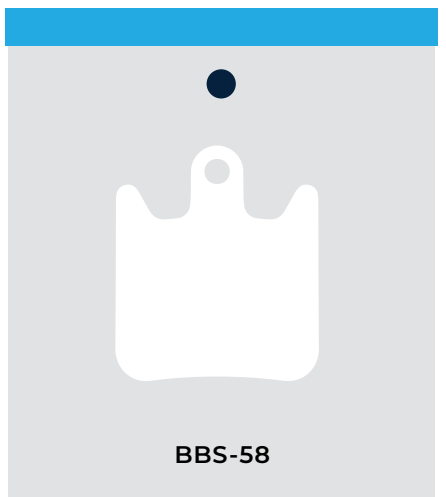

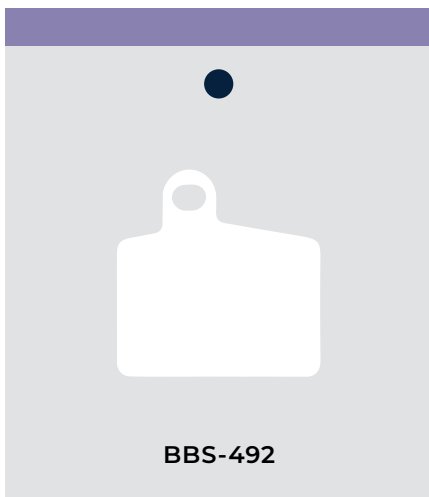

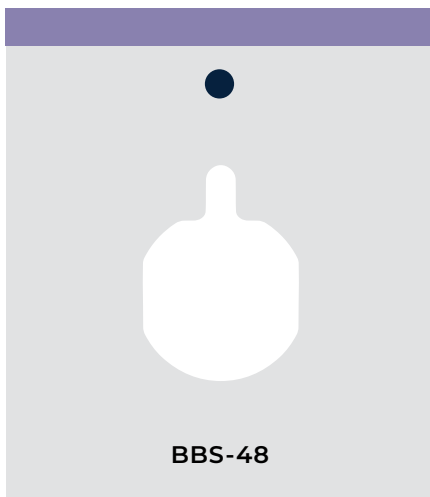

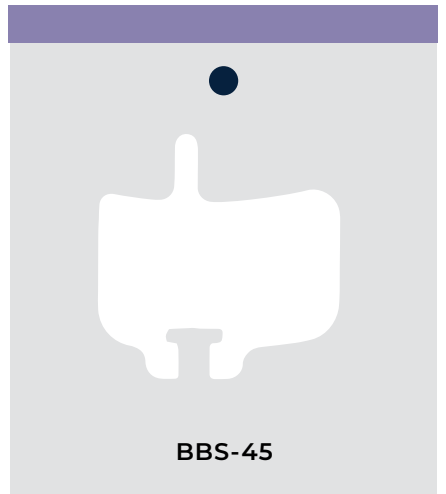

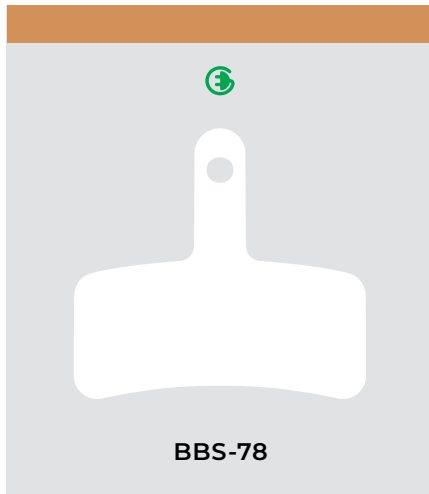

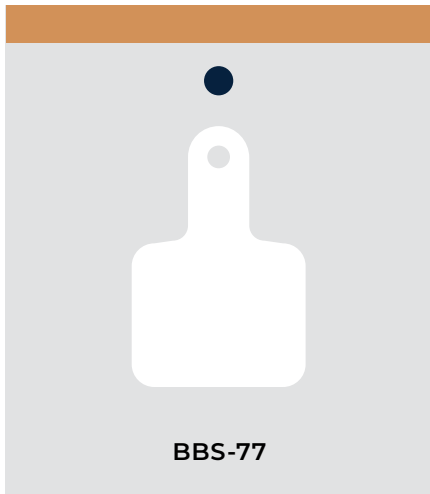

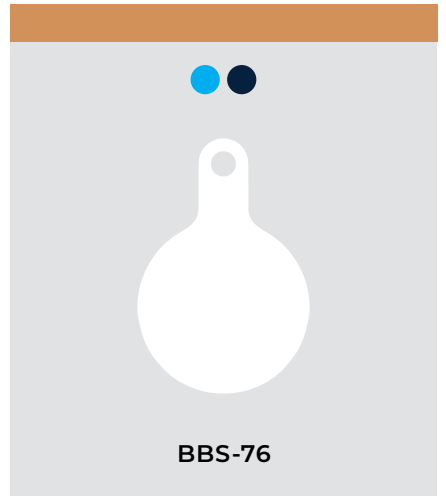

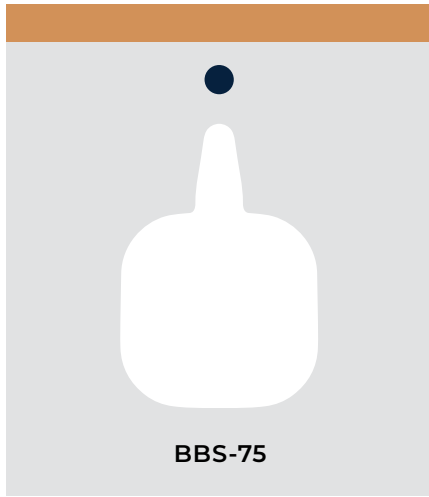

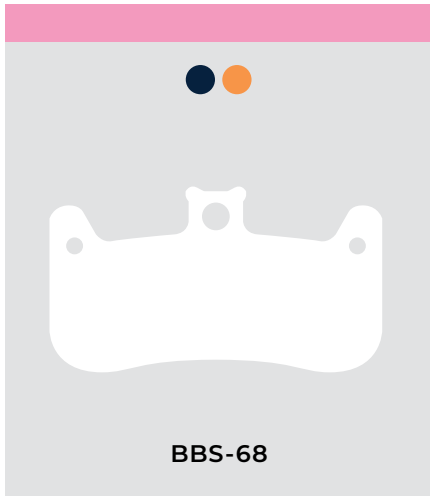

* Please note not all brakes are compatible with coolfins, check our site for the latest known compatibility

ALL BBB DISCSTOP BRAKE PADS ARE E-BIKE READY AND CAN CONFIDENTLY BE USED ON E-BIKES.

CANTISTOP | BBS-08

High quality brake pads

- » Special compound for optimum gripping power and minimal wear
- » Special contour facilitates easy water and grit removal
- » Size: 65 mm

Amount (pieces)	4
Rim brake type	Cantilever
Rim brake pad type	Standard
Weight (g)	133
Color name	black

Also available: OEM CantiStop, 25 sets in a box.

CANTISTOP | BBS-07

High quality brake pads

- » Special compound for optimum gripping power and minimal wear
- » Special contour facilitates easy water and grit removal
- » Size: 72 mm

Amount (pieces)	4
Rim brake type	Cantilever
Rim brake pad type	Standard
Weight (g)	83
Color name	black

Also available: OEM CantiStop, 25 sets in a box.

CANTISTOP DELUXE | BBS-18T

High quality brake pads

- » Cantilever type brake shoe set
- » Available: 2 pairs (4 pcs).

Amount (pieces)	4
Rim brake type	Cantilever
Rim brake pad type	Standard
Weight (g)	90
Color name	grey

VEESTOP | BBS-04

- » Special compound for optimum gripping power and minimal wear
- » Compatible with V-brake systems

Amount (pieces)	4
Rim brake type	V-Brake
Rim brake pad type	Standard
Weight (g)	128
Color name	black

Also available: OEM VeeStop, 25 sets in a box.

VEESTOP | BBS-05

- » Cartridge-type
- » Special compound for optimum gripping power and minimal wear
- » Compatible with V-brake systems

Amount (pieces)	4
Rim brake type	V-Brake
Rim brake pad type	Standard
Cartridge type	Yes
Weight (g)	112
Color name	black

VEESTOP | BBS-06

- » Replacement pads for BBB VeeStop (BBS-05)
- » Special compound for optimum gripping power and minimal wear

Amount (pieces)	4
Rim brake type	V-Brake
Rim brake pad type	Standard
Cartridge type	Yes
Weight (g)	24
Color name	black

Also available: OEM VeeStop, 25 sets in a box.

TRISTOP | BBS-14T

High quality brake pads

- » Cartridge type brake shoe set
- » Compatible with V-brake systems
- » Available: 2 pairs (4 pcs).

Amount (pieces)	4
Rim brake type	V-Brake
Rim brake pad type	Standard
Cartridge type	Yes
Weight (g)	126
Color name	grey

Also available: OEM TriStop, 25 sets in a box.

TRISTOP | BBS-15T

High quality brake pads

- » Replacement pads for BBB TriStop (BBS-14HP/14T)
- » Available: 2 pairs (4 pcs).

Amount (pieces)	4
Rim brake type	V-Brake
Rim brake pad type	Standard
Cartridge type	Yes
Weight (g)	40
Color name	grey

Also available: OEM TriStop, 25 sets in a box.

TRISTOP | BBS-16

High quality brake pads

- » Available: 2 pairs (4 pcs).
- » Compatible with V-brake systems

Amount (pieces)	4
Rim brake type	V-Brake
Rim brake pad type	Standard
Weight (g)	135
Color name	black

Also available: OEM TriStop, 25 sets in a box.

TRISTOP | BBS-16T

High quality brake pads

- » Compatible with V-brake systems
- » Available: 2 pairs (4 pcs).

Amount (pieces)	4
Rim brake type	V-Brake
Rim brake pad type	Standard
Weight (g)	135
Color name	grey

Also available: OEM TriStop, 25 sets in a box.

ESTOP | BBS-04E

- » Special compound for E-bike use, provides better modulation and durability
- » Compatible with V-brake systems
- » E-bike specific: This product complies to the NEN-EN 15194:2017 regulations for e-bikes
- » Reinforced internal structure for more brake power

Amount (pieces)	4
Rim brake type	V-Brake
Rim brake pad type	E-bike
Weight (g)	157
Color name	green

Also available: OEM EStop, 25 sets in a box.

HYDROSTOP | BBS-09E

- » Compatible with Magura hydraulic brakes
- » Special compound for E-bike use, provides better modulation and durability
- » E-bike specific: This product complies to the NEN-EN 15194:2017 regulations for e-bikes

Amount (pieces)	4
Rim brake type	Hydraulic
Rim brake pad type	E-bike
Weight (g)	37, 40
Color name	green

Also available: OEM HydroStop, 25 sets in a box.

HYDROSTOP | BBS-09

- » Compatible with Magura hydraulic brakes
- » Special compound for optimum gripping power and minimal wear

Amount (pieces)	4
Rim brake type	Hydraulic
Rim brake pad type	Standard
Weight (g)	41
Color name	black

Also available: OEM HydroStop, 25 sets in a box.

ROADSTOP DELUXE | BBS-01D

- » Dual-function brake pads provide superior performance in all weather conditions
- » Optimum water removal due to special aqua-guide system Anti-squeal design
- » Special compound for optimum gripping power and minimal wear

Amount (pieces)	4
Rim brake type	Caliper
Rim brake pad type	Standard
Weight (g)	250
Color name	black

Also available: OEM RoadStop DeLuxe, 25 sets in a box.

ROADSTOP | BBS-02

- » Compatible with Shimano and SRAM brake systems
- » Cartridge-type
- » Special compound for optimum gripping power and minimal wear

Amount (pieces)	4
Rim brake type	Caliper
Rim brake pad type	Standard
Cartridge type	Yes
Weight (g)	70
Color name	silver, black

ROADSTOP | BBS-03A

Replacement pads for cartridge

- » Compatible with BBB Roadstop (BBS-02), Shimano 105, Ultegra and Dura-ace and SRAM
- » Compatible with BBB Roadstop (BBS-02), Shimano 105, Ultegra and Dura-ace and SRAM

Amount (pieces)	4
Rim brake type	Caliper
Rim brake pad type	Standard
Cartridge type	Yes
Weight (g)	25
Color name	black

Also available: OEM RoadStop, 25 sets in a box.

ROADSTOP | BBS-03C

Replacement pads for cartridge

- » Compatible with BBB RoadStop (BBS-02C), Campagnolo Super Record, Record, Chorus, Athena, Centaur and Veloce
- » Compatible with BBB RoadStop (BBS-02C), Campagnolo Super Record, Record, Chorus, Athena, Centaur and Veloce

Amount (pieces)	4
Rim brake type	Caliper
Rim brake pad type	Standard
Cartridge type	Yes
Weight (g)	25
Color name	black

TECHSTOP | BBS-22HP

High tech braking technology for your bike

- » Compatible with Shimano and SRAM brake systems
- » Cartridge-type
- » The triple fase profile design provides up to 30% more brake power in dry and wet conditions
- » Available: 2 pairs (4 pcs).

Amount (pieces)	4
Rim brake type	Caliper
Rim brake pad type	High Performance
Cartridge type	Yes
Weight (g)	71
Color name	black

TECHSTOP | BBS-22T

High tech braking technology for your bike

- » Compatible with Shimano and SRAM brake systems
- » Lightweight open cartridge.
- » DirectMount compatible (front brake).
- » Available: 2 pairs (4 pcs).

Amount (pieces)	4
Rim brake type	V-Brake
Rim brake pad type	Standard
Cartridge type	Yes
Weight (g)	83
Color name	grey

TECHSTOP | BBS-27

High tech braking technology for your bike

- » Compatible with BBB TechStop, Shimano, Shimano direct mount, SRAM and Campagnolo cartridges
- » 4-in-1 back design

Amount (pieces)	4
Rim brake type	Caliper
Cartridge type	Yes
Weight (g)	38
Color name	black

Also available: OEM TechStop, 25 sets in a box.

TECHSTOP | BBS-27T

High tech braking technology for your bike

- » Compatible with BBB TechStop, Shimano, Shimano direct mount, SRAM and Campagnolo cartridges
- » 4-in-1 back design

Amount (pieces)	4
Rim brake type	Caliper
Rim brake pad type	Standard
Cartridge type	Yes
Weight (g)	38
Color name	grey

Also available: OEM TechStop, 25 sets in a box.

ULTRASTOP | BBS-28HP

- » Compatible with BBB TechStop, Shimano, Shimano direct mount, SRAM and Campagnolo cartridges
- » 4-in-1 back design
- » The triple fase profile design provides up to 20% more brake power in wet conditions
- » Resistant to high temperatures

Amount (pieces)	4
Rim brake type	Caliper
Rim brake pad type	High Performance
Cartridge type	Yes
Weight (g)	29
Color name	blue

Also available: OEM UltraStop, 25 sets in a box.

CARBSTOP | BBS-29

The best control of your carbon wheels, even in the rain

- » Specifically designed for carbon rims
- » Compatible with BBB TechStop, Shimano, Shimano direct mount, SRAM and Campagnolo cartridges
- » 4-in-1 back design
- » Special compound for increased brake performance and durability
- » The triple fase profile design provides up to 20% more brake power in wet conditions

Amount (pieces)	4
Rim brake type	Caliper
Rim brake pad type	Carbon
Cartridge type	Yes
Weight (g)	28
Color name	grey

Also available: OEM CarbStop, 25 sets in a box.

SPEEDWIRE POLISHED | BCB-13

- » Super strong and durable shifting cable with a polished surface
- » Compatible with Shimano and SRAM.
- » Polished treatment minimizes friction, almost as low as PTFE-coated cables.
- » Higher durability because there is no coating that can wear out.
- » Pre-stretched to minimize stretching while mounted on the bike

Amount (pieces)	1
Material	Stainless steel
Cable quality	Polished
Cable head type	Shimano MTB, Shimano Road, SRAM
Size SAP	1.1 x 2350mm
Weight (g)	16
Color name	gold

SPEEDWIRE POLISHED C | BCB-13C

- » Super strong and durable shifting cable with a polished surface
- » Compatible with Campagnolo.
- » Polished treatment minimizes friction, almost as low as PTFE-coated cables.
- » Higher durability because there is no coating that can wear out.
- » Pre-stretched to minimize stretching while mounted on the bike

Amount (pieces)	1
Material	Stainless steel
Cable quality	Polished
Cable head type	Campagnolo
Size SAP	1.1 x 2350mm
Weight (g)	17
Color name	gold

SPEEDWIRE TEFLON | BCB-10

- » Super strong and durable shifting PTFE coated cable
- » Compatible with Shimano and SRAM
- » Innovative construction for precision shifting
- » PTFE-coated
- » Pre-stretched to minimize stretching while mounted on the bike

Amount (pieces)	1
Material	Stainless steel
Cable quality	Teflon coated
Cable head type	Shimano MTB, Shimano Road, SRAM
Size SAP	1.1 x 2350mm
Weight (g)	16
Color name	black

SPEEDWIRE TEFLON C | BCB-10C

- » Super strong and durable shifting PTFE coated cable
- » Compatible with Campagnolo
- » Innovative construction for precision shifting
- » PTFE-coated
- » Pre-stretched to minimize stretching while mounted on the bike

Amount (pieces)	1
Material	Stainless steel
Cable quality	Teflon coated
Cable head type	Campagnolo
Size SAP	1.1 x 2350mm
Weight (g)	16
Color name	black

SPEEDWIRE | BCB-11

- » Super strong and durable shifting cable
- » Compatible with Shimano and SRAM
- » Provides precision shifting
- » Slick-Stainless (STS)
- » Pre-stretched to minimize stretching while mounted on the bike

Amount (pieces)	1
Material	Stainless steel
Cable quality	Slick
Cable head type	Shimano MTB, Shimano Road, SRAM
Size SAP	1.1 x 2350mm
Weight (g)	18
Color name	silver

SPEEDWIRE C | BCB-12C

- » Super strong and durable shifting cable
- » Compatible with Campagnolo
- » Provides precision shifting
- » Slick-Stainless (STS)
- » Pre-stretched to minimize stretching while mounted on the bike

Amount (pieces)	1
Material	Stainless steel
Cable quality	Slick
Cable head type	Campagnolo
Size SAP	1.1 x 2350mm
Weight (g)	17
Color name	silver

SHIFTLINE LC | BCB-15

- » High end outer shifting cable
- » Ø 4 mm, 2500 mm long shift cable housing
- » Special polymer compound liner for reduced friction
- » Pre-lubricated core liner gives you the perfect greased cable right out of the box

Amount (pieces)	1
Lubricated core	Yes
Size SAP	4x2500mm
Weight (g)	91
Color name	black

BRAKEWIRE POLISHED ROAD | BCB-23R

- » Super strong and polished braking cable
- » Compatible with Shimano and SRAM road.
- » Polished treatment minimizes friction, almost as low as PTFE-coated cables.
- » Higher durability because there is no coating that can wear out.
- » Pre-stretched to minimize stretching while mounted on the bike

Amount (pieces)	1
Material	Stainless steel
Cable quality	Polished
Cable head type	Shimano Road, SRAM
Size SAP	1.5 x 2350mm
Weight (g)	32
Color name	gold

BRAKEWIRE POLISHED ROAD C | BCB-23C

- » Super strong and polished braking cable
- » Wire with golden color for easy identification, compatible with Campagnolo
- » Polished treatment minimizes friction, almost as low as PTFE-coated cables
- » Higher durability because there is no coating that can wear out
- » Pre-stretched to minimize stretching while mounted on the bike

Amount (pieces)	1
Material	Stainless steel
Cable quality	Polished
Cable head type	Campagnolo
Size SAP	1.5 x 2350mm
Weight (g)	32
Color name	gold

BRAKEWIRE TEFLON MTB | BCB-20M

- » Super strong braking PTFE coated cable
- » Universal mountain bike brake cable
- » Innovative construction for precise braking
- » PTFE-coated
- » Pre-stretched to minimize stretching while mounted on the bike

Amount (pieces)	1
Material	Stainless steel
Cable quality	Teflon coated
Cable head type	Universal
Size SAP	1.5 x 2350mm
Weight (g)	31
Color name	black

BRAKEWIRE TEFLON ROAD | BCB-20R

- » Super strong braking PTFE coated cable
- » Compatible with Shimano and SRAM road
- » Innovative construction for precise braking
- » PTFE-coated
- » Pre-stretched to minimize stretching while mounted on the bike

Amount (pieces)	1
Material	Stainless steel
Cable quality	Teflon coated
Cable head type	Shimano Road, SRAM
Size SAP	1.5 x 2350mm
Weight (g)	31
Color name	black

BRAKEWIRE TEFLON ROAD C | BCB-20C

- » Super strong braking PTFE coated cable
- » Innovative construction for precise braking
- » PTFE-coated
- » Pre-stretched to minimize stretching while mounted on the bike

Amount (pieces)	1
Material	Stainless steel
Cable quality	Teflon coated
Cable head type	Campagnolo
Size SAP	1.5 x 2350mm
Weight (g)	31
Color name	black

BRAKEWIRE MTB | BCB-21M

- » Super strong braking cable
- » Universal mountain bike brake cable
- » Designed for responsive braking
- » Slick-Stainless (STS)
- » Pre-stretched to minimize stretching while mounted on the bike

Amount (pieces)	1
Material	Stainless steel
Cable quality	Slick
Cable head type	Universal
Size SAP	1.5 x 2350mm
Weight (g)	32
Color name	silver

BRAKEWIRE ROAD | BCB-21R

- » Super strong braking cable
- » Designed for responsive braking
- » Slick-Stainless (STS)
- » Pre-stretched to minimize stretching while mounted on the bike

Material	Stainless steel
Cable quality	Slick
Cable head type	Shimano Road, SRAM
Size SAP	1.5 x 2350mm
Weight (g)	27
Color name	silver

BRAKEWIRE ROAD C | BCB-22C

- » Super strong braking cable
- » Designed for responsive braking
- » Slick-Stainless (STS)
- » Pre-stretched to minimize stretching while mounted on the bike

Amount (pieces)	1
Material	Stainless steel
Cable quality	Slick
Cable head type	Campagnolo
Size SAP	1.5 x 2350mm
Weight (g)	27
Color name	silver

**STOPLINE LC | BCB-25**

- » High end outer brake cable
- » 5 mm brake cable housing
- » Special polymer compound liner for reduced friction
- » Pre lubricated core liner gives you the perfect greased cable right out of the box

Amount (pieces)	1
Lubricated core	Yes
Size SAP	5x2500mm
Weight (g)	161
Color name	black

**CABLEWRAP | BCB-90B**

- » Rubber cable covers to protect the frame paint
- » For 5 mm brake cables
- » 2 pieces per set

Amount (pieces)	2
Size SAP	5mm
Weight (g)	1
Color name	black

**CABLEWRAP | BCB-90D**

- » Rubber cable covers to protect the frame paint
- » For 4 mm derailleurs cables
- » 2 pieces per set

Amount (pieces)	2
Size SAP	4mm
Weight (g)	1
Color name	black

**VEEPIPE | BCB-91**

- » Aluminium V-brake pipes
- » Rubber covers included
- » 2 pieces per set

Amount (pieces)	2
Material	Aluminium
Weight (g)	13
Color name	silver

**ADJUSTER | BCB-93**

- » Fine tune adjuster for derailleurs cables
- » Fit in the frame
- » 2 pieces per set

Amount (pieces)	2
Weight (g)	4
Color name	black

HYDROGUIDE | BCB-94

- » Guide stickers for (hydraulic) cables
- » 3M adhesive
- » 3 pieces per set

Amount (pieces)	3
Weight (g)	3
Color name	black

LINEADJUSTER | BCB-95

- » In-line cable adjuster
- » Allows fine tuning of derailleur or brake settings
- » Improved design needs no ferrule
- » 2 pieces per set

Amount (pieces)	2
Size SAP	4mm, 5mm
Weight (g)	6, 5
Color name	black

CABLESTOP | BCB-97

- » Aluminium inner cable ends
- » Fit both brake and derailleur cables
- » 40 pcs per set

Amount (pieces)	40
Material	Aluminium
Weight (g)	6
Color name	black, silver

ADJUSTER | BCB-96

- » Fine tune adjuster for derailleur cables
- » For non-threaded cable stops
- » 2 pieces per set

Amount (pieces)	2
Weight (g)	6
Color name	black

CABLECONNECT | BCB-98 | € 7,5

- » Prevents cable slapping
- » Fits 4 and 5 mm cables
- » Rotates 360 degrees
- » 4 pieces per set

Amount (pieces)	4
Weight (g)	1
Color name	black

CABLECAP KIT | BCB-99

- » Kit includes all ferrules for a single bike
- » 6 x sealed 5mm endcaps
- » 10 x sealed 4mm endcaps
- » 2 x 1.6mm cable tips
- » 2 x 1.2mm cable tips

Weight (g)	12
Color name	black

WORKSHOP SPEEDWIRE | BCB-31

» Compatible with: Shimano/SRAM.

Material	Stainless steel
Cable quality	Slick
Cable head type	Shimano MTB, Shimano Road, SRAM
Size SAP	1.1x2000mm
Weight (g)	14
Color name	silver

WORKSHOP SPEEDWIRE | BCB-31L

» Compatible with: Shimano/SRAM.

Material	Stainless steel
Cable quality	Slick
Cable head type	Shimano MTB, Shimano Road, SRAM
Size SAP	1.1x2350mm
Weight (g)	16
Color name	silver

WORKSHOP SPEEDWIRE C | BCB-32C

» Compatible with: Campagnolo.

Material	Stainless steel
Cable quality	Slick
Cable head type	Campagnolo
Size SAP	1.1x2350mm
Weight (g)	14
Color name	silver

WORKSHOP SPEEDWIRE TEFLON | BCB-35

» Compatible with: Shimano/SRAM.

Material	Stainless steel
Cable quality	Teflon coated
Cable head type	Shimano MTB, Shimano Road, SRAM
Size SAP	1.1x2350mm
Weight (g)	16
Color name	black

WORKSHOP SPEEDWIRE POLISHED | BCB-36

- » 50 pack
- » Compatible with: Shimano/SRAM.

Material	Stainless steel
Cable quality	Polished
Cable head type	Shimano MTB, Shimano Road, SRAM
Size SAP	1.1 x 2350mm
Weight (g)	17
Color name	gold

WORKSHOP BRAKEWIRE MTB | BCB-41F

- » Compatible with: Universal/MTB.

Material	Stainless steel
Cable quality	Slick
Cable head type	Universal
Size SAP	1.5x1100mm
Weight (g)	16
Color name	silver

WORKSHOP BRAKEWIRE MTB | BCB-41R

- » Compatible with: Universal/MTB.

Material	Stainless steel
Cable quality	Slick
Cable head type	Universal
Size SAP	1.5x1700mm
Weight (g)	24
Color name	silver

WORKSHOP BRAKEWIRE MTB | BCB-41L

- » Compatible with: Universal/MTB.

Material	Stainless steel
Cable quality	Slick
Cable head type	Universal
Size SAP	1.5x2350mm
Weight (g)	27
Color name	silver

WORKSHOP BRAKEWIRE ROAD | BCB-43SF | € 4,5

- » 100 pack
- » Compatible with: Shimano Road/SRAM Road.

Material	Stainless steel
Cable quality	Slick
Cable head type	Shimano Road, SRAM
Size SAP	1.5x900mm
Weight (g)	24
Color name	silver

WORKSHOP BRAKEWIRE ROAD | BCB-43SR

» Compatible with: Shimano/SRAM.

Material	Stainless steel
Cable quality	Slick
Cable head type	Shimano Road, SRAM
Size SAP	1.5x1700mm
Weight (g)	23
Color name	silver

WORKSHOP BRAKEWIRE POLISHED ROAD | BCB-47R

» 100 pack
 » Compatible with: Shimano Road/SRAM Road.

Material	Stainless steel
Cable quality	Polished
Cable head type	Shimano Road, SRAM
Size SAP	1.5 x 2350mm
Weight (g)	32
Color name	gold

WORKSHOP BRAKEWIRE ROAD C | BCB-42CR

» Compatible with: Campagnolo.

Material	Stainless steel
Cable quality	Slick
Cable head type	Campagnolo
Size SAP	1.5x1700mm
Weight (g)	23
Color name	silver

WORKSHOP STOPLINE LC | BCB-50LC

» Brake outer cable with lubricated core liner.

Lubricated core	Yes
Size SAP	5mmx50mtr
Weight (g)	61
Color name	black

WORKSHOP BRAKEWIRE TEFLON MTB | BCB-45M

» Compatible with: Universal/MTB.

Material	Stainless steel
Cable quality	Teflon coated
Cable head type	Universal
Size SAP	1.5x2350mm
Weight (g)	31
Color name	black

WORKSHOP STOPLINE LC | BCB-50WLC | € 2,5

» Brake outer cable with lubricated core liner.

Lubricated core	Yes
Size SAP	5mmx50mtr
Weight (g)	58
Color name	white

WORKSHOP BRAKEWIRE TEFLON ROAD | BCB-46R

» Compatible with: Shimano Road/SRAM Road.

Material	Stainless steel
Cable quality	Teflon coated
Cable head type	Shimano Road, SRAM
Size SAP	1.5x2350mm
Weight (g)	31
Color name	black

WORKSHOP STOPLINE | BCB-51

» Coiled brake cable.

Size SAP	5mmx50mtr
Weight (g)	56
Color name	black, pearl silver

WORKSHOP STOPLINE | BCB-51G

» Coiled brake cable.

Size SAP	5mmx50mtr
Weight (g)	56
Color name	grey

WORKSHOP STOPLINE | BCB-51W

» Coiled brake cable.

Size SAP	5mmx50mtr
Weight (g)	56
Color name	white

**WORKSHOP SHIFTLINE | BCB-52**

» Linear shift outer cable.

Size SAP	4mmx50mtr
Weight (g)	34
Color name	black, pearl silver

**WORKSHOP SHIFTLINE | BCB-52G | € 3,5**

» Linear shift outer cable.

Size SAP	4mmx50mtr
Weight (g)	34
Color name	grey

**WORKSHOP SHIFTLINE | BCB-52W | € 3,5**

» Linear shift outer cable.

Size SAP	4mmx50mtr
Weight (g)	33
Color name	white

**WORKSHOP SHIFTLINE LC | BCB-53LC**

» Shift outer cable with lubricated core liner.

Lubricated core	Yes
Size SAP	4mmx50mtr
Weight (g)	34
Color name	black

**WORKSHOP SHIFTLINE | BCB-54**

» Oversized linear outer shift cable.

Size SAP	5mmx50mtr
Weight (g)	40
Color name	black, pearl silver

CABLEEND WORKSHOP | BCB-150

- » Cable ferrules
- » Nylon
- » Fits 4 mm housing
- » 150 pack

Amount (pieces)	150
Weight (g)	29
Color name	black

CABLEEND AL WORKSHOP | BCB-151

- » Cable ferrules
- » Aluminum
- » Fits 4 mm housing
- » 100 pack

Amount (pieces)	100
Weight (g)	49
Color name	black

CABLEEND S-AL WORKSHOP | BCB-152 | € 109

- » Sealed cable ferrules
- » Protection against contamination
- » Aluminum
- » Fits 4 mm housing
- » 100 pack

Amount (pieces)	100
Weight (g)	75
Color name	black

CABLEEND N-AL WORKSHOP | BCB-153

- » Nosed cable ferrules
- » Protection for Teflon cables
- » Aluminum
- » Fits 4 mm housing
- » 50 pack

Amount (pieces)	50
Weight (g)	32
Color name	black

CABLESTOP WORKSHOP | BCB-154

- » Cable crimp
- » Aluminum
- » Fits up to 1.2 mm cables
- » 500 pack
- » 50 pack

Amount (pieces)	500
Weight (g)	43
Color name	black, silver

CABLEEND WORKSHOP | BCB-160

- » Cable ferrules
- » Copper
- » Fits 5 mm housing
- » 150 pack

Amount (pieces)	150
Weight (g)	54
Color name	silver

CABLEEND AL WORKSHOP | BCB-161

- » Cable ferrules
- » Aluminum
- » Fits 5 mm housing
- » 100 pack

Amount (pieces)	100
Weight (g)	31
Color name	black

CABLEEND S-AL WORKSHOP | BCB-162 | € 109

- » Sealed cable ferrules
- » Protection against contamination
- » Aluminum
- » Fits 5 mm housing
- » 100 pack

Amount (pieces)	100
Weight (g)	77
Color name	black

CABLEEND N-AL WORKSHOP | BCB-163

- » Nosed cable ferrules
- » Protection for Teflon cables
- » Aluminum
- » Fits 5 mm housing
- » 50 pack

Amount (pieces)	50
Weight (g)	24
Color name	black

CABLESTOP WORKSHOP | BCB-164

- » Cable crimp
- » Aluminum
- » Fits up to 1.6 mm cables
- » 500 pack

Amount (pieces)	500
Weight (g)	65, 64
Color name	black, silver

CABLEDONUT WORKSHOP | BCB-170

- » Frame protector
- » Protects your frame paint
- » Silicone
- » For cables to 18mm
- » 150 x 3 pieces

Amount (pieces)	150
Size SAP	1-1.8mm
Weight (g)	35
Color name	black

CABLEWRAP WORKSHOP | BCB-171

- » Frame protector
- » Protects your frame paint
- » Silicone
- » Fits 4-5mm housing
- » 25 pack

Amount (pieces)	25
Size SAP	4-5mm
Weight (g)	16
Color name	black

CABLEWRAP WORKSHOP | BCB-172

- » Frame protector
- » Protects your frame paint
- » Silicone
- » Fits 4-5mm housing
- » 25 pack

Amount (pieces)	25
Size SAP	4-5mm
Weight (g)	20
Color name	white

CABLEWRAP WORKSHOP | BCB-175

- » Frame protector
- » Protects your frame paint.
- » Silicone
- » Fits 4-5mm housing.

Amount (pieces)	50
Size SAP	4-5mm housing
Weight (g)	10
Color name	black

CABLECONNECT WORKSHOP | BCB-173

- » Housing connector
- » Prevents cable slapping
- » Nylon
- » Fits 4-5mm housing
- » 50 pack

Amount (pieces)	50
Size SAP	4-5mm
Weight (g)	17
Color name	black

BRAKEBARREL WORKSHOP | BCB-174

- » Brake adjusting barrel.
- » aluminium.
- » Fits M7 threaded brake levers.
- » 20 pack

Amount (pieces)	20
Size SAP	M7
Weight (g)	64
Color name	black

MECHANICAL SPAREPARTS BOX | BCB-190

- » Spare part kit for mechanical brake and shift systems
- » Includes ferrules for different applications
- » Good for up to 10 replacements
- » 290 pieces in total: 20 pieces BCB-150 20 pieces BCB-151 20 pieces BCB-152 10 pieces BCB-153 50 pieces BCB-150 20 pieces BCB-160 20 pieces BCB-161 20 pieces BCB-162 10 pieces BCB-163 50 pieces BCB-164 20 pieces BCB-170 8 pieces BCB-171 8 pieces BCB-172 10 pieces BCB-173 4 pieces BCB-174

Weight (g)	108
Color name	black

HYDROLINE WORKSHOP | BCB-200

- » Lightweight hydraulic hose.
- » Inner diameter (mm): 2.1.

Weight (g)	20
Color name	black

HYDROLINE WORKSHOP | BCB-201

- » Lightweight hydraulic hose.
- » Inner diameter (mm): 2.3.

Weight (g)	20
Color name	black

HOSE BARB WORKSHOP | BCB-210

- » Compatible with: SRAM/Avid.
- » For pipes with an inner diameter of 21 mm
- » 50 pieces in a bottle

Amount (pieces)	50
Weight (g)	34
Color name	copper

HOSE BARB WORKSHOP | BCB-211

- » Compatible with: Magura.
- » For pipes with an inner diameter of 21 - 22 mm
- » 50 pieces in a bottle

Amount (pieces)	50
Size SAP	2.1-2.2mm
Weight (g)	41
Color name	copper

HOSE BARB WORKSHOP | BCB-212

- » Compatible with: Shimano.
- » For pipes with an inner diameter of 23 mm
- » 50 pieces in a bottle

Amount (pieces)	50
Material	Brass
Size SAP	2.3mm
Weight (g)	19
Color name	copper

HOSE BARB WORKSHOP | BCB-213

- » Stainless steel hose barb
- » For 2.1mm inner diameter hose for Shimano systems (SM-BH90)
- » 50 pieces in a bottle

Amount (pieces)	50
Material	Stainless steel
Size SAP	2.1mm
Color name	silver

COMPRESSION OLIVE WORKSHOP | BCB-220

- » Compatible with: SRAM/Avid.
- » Fits 5mm hose.
- » 50 pieces in a bottle

Amount (pieces)	50
Size SAP	5mm
Weight (g)	30
Color name	copper

COMPRESSION OLIVE WORKSHOP | BCB-221

- » Compatible with: Magura.
- » Fits 5mm hose.
- » 50 pieces in a bottle

Amount (pieces)	50
Size SAP	5mm
Weight (g)	32
Color name	copper

COMPRESSION OLIVE WORKSHOP | BCB-222

- » Compatible with: Shimano.
- » Fits 5mm hose.
- » 50 pieces in a bottle

Amount (pieces)	50
Size SAP	5mm
Weight (g)	30
Color name	copper

COMPRESSION NUT WORKSHOP | BCB-230

- » Compatible with: SRAM/Avid.
- » Stainless steel.
- » Fits 5 mm hose.
- » M8 x 0.75mm
- » 25 pack

Amount (pieces)	25
Weight (g)	71
Color name	silver

COMPRESSION NUT WORKSHOP | BCB-231

- » Compatible with: Magura.
- » Stainless steel.
- » Fits 5 mm hose.
- » M8 x 1.25mm
- » 25 pack

Amount (pieces)	25
Weight (g)	72
Color name	silver

COMPRESSION NUT WORKSHOP | BCB-232

- » Compatible with: Shimano.
- » Stainless steel.
- » Fits 5 mm hose.
- » M8 x 0.75mm
- » 25 pack

Amount (pieces)	25
Weight (g)	84
Color name	silver

BANJO WORKSHOP | BCB-240 | € 323

- » Compatible with: SRAM/Avid.
- » Stainless steel
- » For pipes with an inside diameter of 21 mm
- » M8 x 0.75mm
- » 25 pack

Amount (pieces)	25
Weight (g)	154
Color name	silver

BANJO WORKSHOP | BCB-241 | € 323

- » Compatible with: Magura.
- » Stainless steel
- » For pipes with an inside diameter of 21 - 22 mm
- » M8 x 0.75mm
- » 25 pack

Amount (pieces)	25
Size SAP	2.1-2.2mm
Weight (g)	153
Color name	silver

BANJO WORKSHOP | BCB-242 | € 323

- » Compatible with: Shimano.
- » Stainless steel
- » For pipes with an inside diameter of 23 mm
- » M8 x 0.75mm
- » 25 pack

Amount (pieces)	25
Size SAP	2.3mm
Weight (g)	170
Color name	silver

BANJO NUT WORKSHOP | BCB-250 | € 109

- » Banjo nut.
- » Stainless steel
- » Fits 5 mm hose.
- » M8 x 0.75mm
- » 25 pack

Amount (pieces)	25
Size SAP	5mm
Weight (g)	83
Color name	silver

COPPER O-RING WORKSHOP | BCB-251

- » O-ring
- » Copper
- » Suitable for DOT and Mineral Oil
- » OD 9 x ID 6 x 1mm
- » 100 pack

Amount (pieces)	100
Size SAP	OD9mm ID6mm x 1mm
Weight (g)	32
Color name	copper

PADPIN WORKSHOP | BCB-260

- » Brakepad bolt.
- » Stainless steel.
- » M4 x 0.7mm
- » 50 pack

Amount (pieces)	50
Weight (g)	104
Color name	silver

HYDRAULIC SPAREPARTS BOX | BCB-290 | € 297

- » Spare part kit for hydraulic brake systems
- » Compatible with common SRAM/Avid, Magura and Shimano systems
- » Compatible with SRAM/Avid, Magura and Shimano systems

Weight (g)	361
Color name	transparent

FITTINGKIT | BCB-280

- » Complete hardware set for you SRAM hoses
- » Complete fitting kit to service your hydraulic brake system
- » Compatible with SRAM Bleeding Edge

Size SAP	2, 1mm
Weight (g)	6
Color name	silver

FITTINGKIT | BCB-282

- » Complete hardware set for you Shimano hoses
- » Complete fitting kit to service your hydraulic brake system
- » Compatible with Shimano 2.1mm hydraulic systems

Size SAP	2, 1mm
Weight (g)	3
Color name	silver

ROLLERBOYS 10T | BDP-01

- » Composite material provided by EMS Swiss, with 40% glass-fiber mixture
- » Special teeth pattern for quick shifting performance
- » Complete set of bushings for different shifting systems included

Compatible with brands	Campagnolo, Shimano, SRAM
Part materials	Crivory EMS
Bearings material	CrMo
Gears	7-speed, 8-speed, 9-speed, 10-speed
Pulley size	10T
Narrow wide	No
Weight (g)	22
Color name	black

ROLLERBOYS CERAMIC 10T | BDP-11

- » Equipped with low friction ceramic bearings for ultra-smooth glide and exceptional durability
- » Special teeth pattern for quick shifting performance
- » Lubricated with special ceramic light oil for extra smoothness
- » Composite material provided by EMS Swiss, with 40% glass-fiber mixture
- » Complete set of bushings for different shifting systems included

Compatible with brands	Campagnolo, Shimano, SRAM
Part materials	Crivory EMS
Bearings material	Ceramic
Gears	7-speed, 8-speed, 9-speed, 10-speed
Pulley size	10T
Narrow wide	No
Weight (g)	22
Color name	black

ROLLERBOYS 11T | BDP-02

- » Composite material provided by EMS Swiss, with 40% glass-fiber mixture
- » Special teeth pattern for quick shifting performance
- » Complete set of bushings for different shifting systems included

Compatible with brands	Campagnolo, Shimano, SRAM
Part materials	Crivory EMS
Bearings material	CrMo
Gears	9-speed, 10-speed, 11-speed
Pulley size	11T
Narrow wide	No
Weight (g)	23
Color name	black

ROLLERBOYS CERAMIC 11T | BDP-12

- » Equipped with low friction ceramic bearings for ultra-smooth glide and exceptional durability
- » Special teeth pattern for quick shifting performance
- » Lubricated with special ceramic light oil for extra smoothness
- » Composite material provided by EMS Swiss, with 40% glass-fiber mixture

Chain size	1/2"x1/8"
Weight (g)	359

SINGLELINE | BCH-011

- » Nickel coated Single speed chain
- » Closing link: SmartLink (BCH-01S)

Amount of links	114
Closing link type	Smartlink
Gears	Single speed
Part finish	Nickel plating silver
Chain size	1/2"x1/8"
Weight (g)	397

E-POWERLINE | BCH-01E

- » A powerful chain for your E-bike
- » Reinforced chain plates for E-bike use
- » Closing link included
- » This product complies to the NEN-EN 15194:2017 regulations for e-bikes
- » Single speed/internal gear hub compatible

Amount of links	136
Closing link type	Springlink
Gears	Single speed
Part finish	Nickel plating silver
Complies with	NEN-EN 15194:2017
Chain size	1/2"x1/8"
Weight (g)	526

E-POWERLINE | BCH-01EN

- » A powerful chain for your E-bike
- » This product complies to the NEN-EN 15194:2017 norm for E-bikes
- » Closing link included
- » 3/32" Single speed/internal gear hub compatible

Amount of links	136
Closing link type	Springlink
Gears	Single speed
Part finish	Nickel plating silver
Complies with	NEN-EN 15194:2017
Chain size	1/2"x3/32"

POWERLINE | BCH-80G

- » Closing link: SmartLink II (BCH-08)
- » 8-speed compatible

Amount of links	114
Closing link type	Smartlink
Gears	8-speed
Part finish	Gray
Chain size	1/2"x3/32"
Weight (g)	320

POWERLINE | BCH-81

- » Closing link: SmartLink II (BCH-08)
- » 8-speed compatible

Amount of links	114
Closing link type	Smartlink
Gears	8-speed
Part finish	Gray, Nickel plating silver
Chain size	1/2"x3/32"
Weight (g)	320

POWERLINE | BCH-82

- » Closing link: SmartLink II (BCH-08)
- » 8-speed compatible

Amount of links	114
Closing link type	Smartlink
Gears	8-speed
Part finish	Nickel plating silver
Chain size	1/2"x3/32"
Weight (g)	320

E-POWERLINE | BCH-08E

- » A powerful chain for your E-bike
- » Reinforced chain plates for E-bike use
- » Closing link included
- » This product complies to the NEN-EN 15194:2017 regulations for e-bikes

Amount of links	136
Closing link type	Smartlink
Gears	8-speed
Part finish	Nickel plating silver
Complies with	NEN-EN 15194:2017
Chain size	1/2"x3/32"
Weight (g)	377

POWERLINE | BCH-90

- » Closing link: SmartLink II (BCH-09)
- » 9-speed compatible

Amount of links	114
Closing link type	Smartlink
Gears	9-speed
Part finish	Gray
Chain size	1/2"x11/128"
Weight (g)	292

POWERLINE | BCH-91

- » Closing link: SmartLink II (BCH-09)
- » 9-speed compatible

Amount of links	114
Closing link type	Smartlink
Gears	9-speed
Part finish	Gray, Nickel plating silver
Chain size	1/2"x11/128"
Weight (g)	292

POWERLINE | BCH-92

- » Closing link: SmartLink II (BCH-09)
- » 9-speed compatible

Amount of links	114
Closing link type	Smartlink
Gears	9-speed
Part finish	Nickel plating silver
Chain size	1/2"x11/128"
Weight (g)	292

E-POWERLINE | BCH-09E

- » A powerful chain for your E-bike
- » Reinforced chain plates for E-bike use
- » Closing link included
- » This product complies to the NEN-EN 15194:2017 regulations for e-bikes

Amount of links	136
Closing link type	Smartlink
Gears	9-speed
Part finish	Harden treatment
Complies with	NEN-EN 15194:2017
Chain size	1/2"x11/128"
Weight (g)	356

POWERLINE | BCH-101

- » Closing link: SmartLink II (BCH-10)
- » 10-speed compatible

Amount of links	114
Closing link type	Smartlink
Gears	10-speed
Part finish	Gray, Nickel plating silver
Chain size	1/2"x11/128"
Weight (g)	276

POWERLINE | BCH-102

- » Closing link: SmartLink II (BCH-10)
- » 10-speed compatible

Amount of links	114
Closing link type	Smartlink
Gears	10-speed
Part finish	Nickel plating silver
Chain size	1/2"x11/128"
Weight (g)	276

E-POWERLINE | BCH-10E

- » A powerful chain for your E-bike
- » Reinforced chain plates for E-bike use
- » Closing link included
- » This product complies to the NEN-EN 15194:2017 regulations for e-bikes

Amount of links	136
Closing link type	Smartlink
Gears	10-speed
Part finish	Harden treatment, Nickel plating silver
Complies with	NEN-EN 15194:2017
Chain size	1/2"x11/128"
Weight (g)	328

E-POWERLINE | BCH-11E

- » A powerful chain for your E-bike
- » Reinforced chain plates for E-bike use
- » Closing link included
- » This product complies to the NEN-EN 15194:2017 regulations for e-bikes

Amount of links	136
Closing link type	Smartlink
Gears	11-speed
Part finish	Harden treatment, Nickel plating silver
Complies with	NEN-EN 15194:2017
Chain size	1/2"x11/128"
Weight (g)	316

POWERLINE | BCH-112

- » Closing link: SmartLink (BCH-11S)
- » 11-speed compatible

Compatible with brands	Campagnolo, Shimano, SRAM
Amount of links	114
Closing link type	Smartlink
Gears	11-speed
Part finish	Nickel plating silver
Chain size	1/2"x11/128"
Weight (g)	265

POWERLINE | BCH-122

- » Closing link: SmartLink (BCH-12S)
- » 12-speed compatible

Compatible with brands	Campagnolo, Shimano, SRAM
Amount of links	126
Closing link type	Smartlink
Gears	12-speed
Part finish	Nickel plating silver
Chain size	1/2"x11/128"
Weight (g)	275

E-POWERLINE E-BIKE 12 SPEED | BCH-12E

- » A powerful chain for your E-bike
- » Reinforced chain plates for E-bike use
- » Closing link included
- » This product complies to the NEN-EN 15194:2017 regulations for e-bikes

Amount of links	136
Closing link type	Smartlink
Gears	12-speed
Part finish	Harden treatment, Nickel plating silver
Complies with	NEN-EN 15194:2017
Chain size	1/2"x11/128"

SPRINGLINK | BCH-01

- » Closing link compatible with BBB SingleLine chains (BCH-010/011/01E)
- » Strong and secure closing link

Compatible with	BCH-010, BCH-11
Closing link type	Springlink
Gears	Single speed
Part finish	Nickel plating silver
Chain size	1/2"x1/8"
Weight (g)	5

SPRINGLINK E-BIKE | BCH-01EL

- » Spare chain link for your bike chain
- » Compatible with our own E-powerline chain
- » Strong and reliable
- » Complies to all E-bike specific standards

Compatible with	BCH-01E
Closing link type	Springlink
Gears	Single speed
Part finish	Nickel plating silver
Chain size	1/2"x1/8"

SPRINGLINK E-BIKE NARROW | BCH-01ENL

- » Spare chain link for your bike chain
- » Compatible with our own E-powerline chain
- » Strong and reliable
- » Complies to all E-bike specific standards

Compatible with	BCH-01EN
Closing link type	Springlink
Gears	Single speed
Part finish	Nickel plating silver
Chain size	1/2"x3/32"

SMARTLINK | BCH-01S

- » Closing link compatible with BBB SingleLine chains (BCH-010/011)
- » Strong and secure closing link
- » Use the BTL-77 LinkFix or BTL-213 Re-link to open/close the smartlink

Closing link type	Smartlink
Gears	Single speed
Chain size	1/2"x1/8"
Weight (g)	3

SMARTLINK II | BCH-08 |

- » Closing link compatible with all BBB 8-speed chains
- » Strong and secure closing link
- » Use the BTL-77 LinkFix or BTL-213 Re-link to open/close the smartlink

Closing link type	Smartlink
Gears	8-speed
Weight (g)	3

SMARTLINK II | BCH-09 |

- » Closing link compatible with all BBB 9-speed chains
- » Strong and secure closing link
- » Use the BTL-77 LinkFix or BTL-213 Re-link to open/close the smartlink

Closing link type	Smartlink
Gears	9-speed
Weight (g)	3

SMARTLINK II | BCH-10 |

- » Closing link compatible with all BBB 10-speed chains
- » Strong and secure closing link
- » Use the BTL-77 LinkFix or BTL-213 Re-link to open/close the smartlink

Closing link type	Smartlink
Gears	10-speed
Weight (g)	3

SMARTLINK | BCH-11S

- » Closing link compatible with all BBB 11-speed chains
- » Strong and secure closing link
- » Use the BTL-77 LinkFix or BTL-213 Re-link to open/close the smartlink

Closing link type	Smartlink
Gears	11-speed
Weight (g)	3

SMARTLINK | BCH-12S

- » Closing link compatible with all BBB 12-speed chains
- » Strong and secure closing link
- » Use the BTL-77 LinkFix or BTL-213 Re-link to open/close the smartlink

Closing link type	Smartlink
Gears	12-speed
Weight (g)	3

BIOWAX 100ML | BCH-201

- » 100% plant based chain lube wax
- » Bike chain lubricant for all weather types that performs exceptionally well in cold and wet conditions
- » Reduces friction and offers long lasting protection against corrosion
- » Easy to use liquid wax that penetrates deeply between the links and provides a water and dirt-repellent protective layer
- » Made with 100% plant-based ingredients

Type of lubricant	Wax
Suitable for weather	All weather
Weight (g)	115

BIOEBIKELUBE 100ML | BCH-202

- » E-bike specific bio chain lube optimized to deliver long-term performance
- » Reduces friction and offers long lasting protection against corrosion
- » Thick lube offers better pressure resistance for high torque E-bike chains
- » All weather performance for year round use
- » Made with 100% plant-based ingredients
- » 100% biodegradable

Type of lubricant	Oil
Suitable for weather	All weather
Weight (g)	120

BIOEBIKELUBE 500ML | BCH-202W

- » E-bike specific bio chain lube optimized to deliver long-term performance
- » Reduces friction and offers long lasting protection against corrosion
- » Thick lube offers better pressure resistance for high torque E-bike chains
- » All weather performance for year round use
- » Made with 100% plant-based ingredients
- » 100% biodegradable

Type of lubricant	Oil
Suitable for weather	All weather

BIOLUBE 100ML | BCH-203

- » Bio-based bike chain lubricant that offers performance in all weather conditions
- » Reduces friction and protects against corrosion in all temperatures (-15 °C / 50 °C)
- » Natural oils provide smoother shifting and reduce drag
- » Penetrates deep in the chain links and makes your chain more quiet
- » Made with 100% plant-based ingredients
- » 100% biodegradable within 28 days

Type of lubricant	Oil
Suitable for weather	All weather
Weight (g)	120

BIOWAX PRO 100ML | BCH-204

- » High-performance bike chain lubricant made from plant-based materials
- » The higher adhesive strength reduces friction even under high watt performances
- » Mixture of natural oils and wax for long lasting all weather performance
- » Performance boost with friction-reducing additives
- » Penetrates deep in the chain links and makes your chain more quiet
- » Made with over 80% plant-based materials

Type of lubricant	Oil
Suitable for weather	All weather
Weight (g)	120

ROUNDAABOUT 4 | BCR-04

MTB chainrings

- » Compatible with Shimano and SRAM
- » CNC machined 7075 T6 aluminium

Amount (pieces)	1
Compatible with brands	Shimano, SRAM
Part materials	7075 T6 Aluminium
Crankset type	Triple
Gears	9-speed, 10-speed
Arm quantity	4 arm crankset
Bolt Circle Diameter (mm)	104
Weight (g)	86, 104, 108
Sizes	42T, 44T, 46T

Sizes	30T, 32T, 34T

**MTBGEAR | BCR-49S***MTB chainrings*

- » Compatible with Shimano
- » CNC machined 7075 T6 aluminium

Amount (pieces)	1
Compatible with brands	Shimano
Part materials	7075 T6 Aluminium
Crankset type	Triple
Gears	9-speed, 10-speed
Arm quantity	4 arm crankset
Bolt Circle Diameter (mm)	104
Weight (g)	72, 95, 97
Sizes	38T, 40T, 42T

**MTBGEAR | BCR-50S***MTB chainrings*

- » Compatible with Shimano
- » CNC machined 7075 T6 aluminium

Amount (pieces)	1
Compatible with brands	Shimano
Part materials	7075 T6 Aluminium
Crankset type	Triple
Gears	9-speed, 10-speed
Arm quantity	4 arm crankset
Bolt Circle Diameter (mm)	104
Weight (g)	51, 62
Sizes	34T, 36T

MTBGEAR | BCR-100S

MTB chainrings

- » Compatible with Shimano
- » CNC machined 7075 T6 aluminium

Amount (pieces)	1
Compatible with brands	Shimano
Part materials	7075 T6 Aluminium
Crankset type	Double
Gears	11-speed
Arm quantity	4 arm crankset
Bolt Circle Diameter (mm)	96
Weight (g)	37, 54, 82
Sizes	34T, 36T, 38T

MTBGEAR | BCR-101S

MTB chainrings

- » Compatible with Shimano
- » CNC machined 7075 T6 aluminium

Amount (pieces)	1
Compatible with brands	Shimano
Part materials	7075 T6 Aluminium
Crankset type	Double
Gears	11-speed
Arm quantity	4 arm crankset
Bolt Circle Diameter (mm)	64
Weight (g)	18, 29, 31
Sizes	24T, 26T, 28T

MTBGEAR | BCR-105S

MTB chainrings

- » Narrow Wide tooth profiling ensures ultimate chain retention
- » Compatible with Shimano
- » CNC machined 7075 T6 aluminium

Amount (pieces)	1
Compatible with brands	Shimano
Part materials	7075 T6 Aluminium
Crankset type	Single
Gears	11-speed
Arm quantity	4 arm crankset
Bolt Circle Diameter (mm)	96
Weight (g)	43, 45, 50
Sizes	30T, 32T, 34T, 36T

**NARROW
WIDE
PROFILE**

HEXSTARS | BCR-51

Chainring bolts

- » Available in two colours

Amount (pieces)	5
Compatible with brands	Campagnolo, Shimano, SRAM
Part materials	7075 T6 Aluminium
Arm quantity	5 arm crankset
Weight (g)	10

TRIPLESTARS | BCR-52

Chaining bolts

» Screws directly into the thread of the chaining

Amount (pieces)	5
Compatible with brands	Campagnolo, Shimano, SRAM
Part materials	7075 T6 Aluminium
Crankset type	Triple
Arm quantity	5 arm crankset
Weight (g)	5

FOURSTARS | BCR-59S

Allen chaining bolts set

» Compatible with Shimano

Amount (pieces)	4
Compatible with brands	Shimano
Part materials	7075 T6 Aluminium
Crankset type	Double
Arm quantity	4 arm crankset
Weight (g)	8

SINGLESTARS | BCR-60

Allen chaining bolts set

» Compatible with Shimano and SRAM

Amount (pieces)	4
Compatible with brands	Shimano, SRAM
Part materials	7075 T6 Aluminium
Crankset type	Compact, Single
Arm quantity	4 arm crankset
Weight (g)	7

SINGLESTARS | BCR-60S

Allen chaining bolts set

» Screws directly into the thread of the chaining
 » Compatible with Shimano and SRAM

Amount (pieces)	4
Compatible with brands	Shimano, SRAM
Part materials	7075 T6 Aluminium
Crankset type	Compact, Double, Triple
Arm quantity	4 arm crankset
Weight (g)	4

SHIMSTARS | BCR-61

5 piece custom bolt cap set to keep the original aesthetics of your crankset

- » Plastic caps are easily mounted onto the bolts
- » Compatible with Shimano

Amount (pieces)	5
Compatible with brands	Shimano
Crankset type	Compact
Arm quantity	5 arm crankset
Weight (g)	10

SHIMSTARS | BCR-62

5 piece custom bolt cap set to keep the original aesthetics of your crankset

- » Plastic caps are easily mounted onto the bolts
- » Compatible with Shimano

Amount (pieces)	5
Compatible with brands	Shimano
Crankset type	Double, Triple
Arm quantity	5 arm crankset
Weight (g)	8

SHIMSTARS | BCR-63

4 piece custom bolt cap set to keep the original aesthetics of your crankset

- » Plastic caps are easily mounted onto the bolts
- » Compatible with Shimano

Amount (pieces)	4
Compatible with brands	Shimano
Crankset type	Compact
Arm quantity	4 arm crankset
Weight (g)	8

E-BIKE SPROCKET | BCR-70E

E-bike sprockets

- » Compatible with Bosch Gen. 2 systems
- » Hardened steel for longer durability
- » Lockring included
- » E-bike specific: This product complies to the NEN-EN 15194:2017 regulations for e-bikes

Amount (pieces)	1
Compatible with	Bosch Generation 2 systems
Gears	10-speed, 11-speed, 8-speed, 9-speed, Single speed
Weight (g)	24, 30, 36, 42, 49, 56, 64
Sizes	14T, 15T, 16T, 17T, 18T, 19T, 20T

E-BIKEMOUNT | BCR-71E

Chainring spider for Bosch gen. 3

- » Compatible with 4-arm chainrings (BCD 104mm)
- » 52mm chainline
- » Durable steel spider

Compatible with	Bosch gen. 3
Crankset type	Single
Arm quantity	4 arm crankset
Bolt Circle Diameter (mm)	104
Sizes	Standard

E-BIKEMOUNT | BCR-72E

Chainring spider for Bosch gen. 4

- » Compatible with 4-arm chainrings (BCD 104mm)
- » 52mm chainline
- » Durable steel spider

Compatible with	Bosch gen. 4
Crankset type	Single
Arm quantity	4 arm crankset
Bolt Circle Diameter (mm)	104

E-BIKEGEAR | BCR-75E

4 arm E-bike chainring, BCD-104mm, for hub gear drivetrains.

- » Compatible with Bosch(gen. 3 and gen. 4), Shimano Steps and other E-bike systems in combination with a BCD 104mm spider.
- » Compatible with 1-8 speed (1/2"x3/32") chains
- » For hub gear drivetrains only
- » Made from hardened steel for an extra long lifetime
- » Chainring bolts not included (advised to use BCR-60)

Compatible with	Hub gear drivetrains
Part materials	Carbon steel
Crankset type	Single
Gears	Single speed, 7-speed, 8-speed
Arm quantity	4 arm crankset
Bolt Circle Diameter (mm)	104
Sizes	36T, 38T, 40T, 42T, 44T, 46T, 48T

E-BIKEGEAR NARROWWIDE | BCR-76E

4 arm E-bike chainring, BCD-104mm, for hub gear drivetrains.

- » Compatible with Bosch(gen. 3 and gen. 4), Shimano Steps and other E-bike systems in combination with a BCD 104mm spider.
- » Compatible with 9-12 speed chains
- » Made from hardened steel for an extra long lifetime
- » Chainring bolts not included (advised to use BCR-60)

Compatible with	Derailleur drivetrains
Part materials	Carbon steel
Crankset type	Single
Gears	9-speed, 10-speed, 11-speed, 12-speed
Arm quantity	4 arm crankset
Bolt Circle Diameter (mm)	104
Sizes	34T, 36T, 38T, 42T, 44T

**NARROW
WIDE
PROFILE**

CHAINWATCH | BCR-80A

Chain drop protector

- » Almost invisible installed on the front derailleur
- » Compatible with chain rings within the range of 53-34T
- » Bolts and washers to fit various front derailleurs included

Part materials	7075 T6 Aluminium
Weight (g)	4

TURNAROUND | BHP-01

A-head headset

- » Cartridge type, industrial sealed bearings
- » RoundHead (BAP-02) included
- » 36° x 36° sealed bearings
- » 6061 T6 aluminium

Headset type	External Cup (EC) / Non-Threaded
Fork size (inch)	1
Headtube upper/inner diameter (mm)	30.2
Headtube lower/inner diameter (mm)	30.2
Bearings material	CrMo
Cone spacer diameter (mm)	43.1
Cone spacer height (mm)	8
Crown race included	Yes
Weight (g)	250

TURNAROUND | BHP-02

A-head headset

- » Cartridge type, industrial sealed bearings
- » RoundHead (BAP-02) included
- » 36° x 36° sealed bearings
- » 6061 T6 aluminium

Headset type	External Cup (EC) / Non-Threaded
Fork size (inch)	1.1/8
Headtube upper/inner diameter (mm)	34
Headtube lower/inner diameter (mm)	34
Bearings included	BHP-180
Bearings material	CrMo
Cone spacer diameter (mm)	47
Cone spacer height (mm)	8
Crown race included	Yes
Weight (g)	118

THREADAROUND | BHP-15

Threaded headset

- » Cartridge type, industrial sealed bearings
- » 6061 T6 aluminium

Headset type	External Cup (EC) / Threaded
Fork size (inch)	1
Headtube upper/inner diameter (mm)	30.2
Headtube lower/inner diameter (mm)	30.2
Bearings material	CrMo
Cone spacer diameter (mm)	45.8
Cone spacer height (mm)	8
Crown race included	Yes
Weight (g)	113

INTEGRATED | BHP-40

Integrated headset

- » Bearing diameter: 1.1/8" - 41.8 mm
- » 45°x45° sealed bearings
- » Open crown for easy installation

Headset type	Integrated (IS)
Fork size (inch)	1.1/8
Headtube upper/inner diameter (mm)	42
Headtube lower/inner diameter (mm)	42
Bearings included	BHP-181
Bearings material	CrMo
Cone spacer diameter (mm)	46
Cone spacer height (mm)	8
Crown race included	Yes
Weight (g)	75

INTEGRATED | BHP-41

Integrated headset

- » Bearing diameter: 1.1/8" - 41.0 mm
- » 36°x45° sealed bearings
- » Open crown for easy installation

Headset type	Integrated (IS)
Fork size (inch)	1.1/8
Headtube upper/inner diameter (mm)	41.2
Headtube lower/inner diameter (mm)	41.2
Bearings included	BHP-182
Bearings material	CrMo
Cone spacer diameter (mm)	45
Cone spacer height (mm)	15
Crown race included	Yes
Weight (g)	80

INTEGRATED | BHP-42

Integrated headset

- » Bearing diameter: 1.1/8" - 41.8 mm
- » 45°x45° sealed bearings
- » Open crown for easy installation

Headset type	Integrated (IS)
Fork size (inch)	1.1/8
Headtube upper/inner diameter (mm)	42
Headtube lower/inner diameter (mm)	42
Bearings included	BHP-181
Bearings material	CrMo
Cone spacer diameter (mm)	46
Cone spacer height (mm)	15
Crown race included	Yes
Weight (g)	84

INTEGRATED TAPERED | BHP-45

Integrated tapered headset

- » Bearing diameter: 1.1/8" - 1.1/4" - 41.8 - 46.8 mm
- » 45°x45° sealed bearings
- » Open crown for easy installation

Headset type	Integrated (IS)
Fork size (inch)	1.1/8 - 1.1/4
Headtube upper/inner diameter (mm)	42
Headtube lower/inner diameter (mm)	47
Bearings included	BHP-181, BHP-183
Bearings material	CrMo
Cone spacer diameter (mm)	46
Cone spacer height (mm)	15
Crown race included	Yes
Weight (g)	84

INTEGRATED TAPERED | BHP-46

Integrated tapered headset

- » Bearing diameter: 1.1/8-1.5" - 41.8 - 51.8 mm
- » 36°x45° sealed lower bearing and 45°x45° sealed upper bearing
- » Open crown for easy installation

Headset type	Integrated (IS)
Fork size (inch)	1.1/8 - 1.1/2
Headtube upper/inner diameter (mm)	42
Headtube lower/inner diameter (mm)	52
Bearings included	BHP-181, BHP-185
Bearings material	CrMo
Cone spacer diameter (mm)	46
Cone spacer height (mm)	8
Crown race included	Yes
Weight (g)	72

SEMI-INTEGRATED | BHP-50

Semi-integrated headset

- » Inner bearing diameter: 1.1/8"
- » Open crown for easy installation

Headset type	Zero Stack (ZS) / Semi-Integrated
Fork size (inch)	1.1/8
Headtube upper/inner diameter (mm)	41.4
Headtube lower/inner diameter (mm)	41.4
Bearings material	Retainer ball bearing
Cone spacer diameter (mm)	46
Cone spacer height (mm)	15
Crown race included	Yes
Weight (g)	105

SEMI-INTEGRATED | BHP-51

Semi-integrated headset

- » Bearing diameter: 1.1/8" - 41.0 mm
- » Open crown for easy installation

36° x 45°

Headset type	Zero Stack (ZS) / Semi-Integrated
Fork size (inch)	1.1/8
Headtube upper/inner diameter (mm)	44
Headtube lower/inner diameter (mm)	44
Bearings included	BHP-182
Bearings material	CrMo
Cone spacer diameter (mm)	50
Cone spacer height (mm)	8
Crown race included	Yes
Weight (g)	85

SEMI-INTEGRATED TAPERED | BHP-53

Semi-integrated tapered headset

- » Bearing diameter: 1.1/8" - 1.5" - 41.0 - 51.8 mm
- » Open crown for easy installation

36° x 45°

Headset type	Zero Stack (ZS) / Semi-Integrated
Fork size (inch)	1.1/8 - 1.1/2
Headtube upper/inner diameter (mm)	44
Headtube lower/inner diameter (mm)	44
Bearings included	BHP-182, BHP-185
Bearings material	CrMo
Cone spacer diameter (mm)	50
Cone spacer height (mm)	15
Crown race included	Yes
Weight (g)	130

SEMI-INTEGRATED TAPERED | BHP-54

Semi-integrated tapered headset

- » Bearing diameter: 1.1/8-1.5" - 41.0-51.8 mm.
- » Open crown for easy installation

36° x 45°

Headset type	Zero Stack (ZS) / Semi-Integrated
Fork size (inch)	1.1/8 - 1.1/2
Headtube upper/inner diameter (mm)	56
Headtube lower/inner diameter (mm)	44
Bearings included	BHP-182, BHP-185
Bearings material	CrMo
Cone spacer diameter (mm)	50
Cone spacer height (mm)	15
Crown race included	Yes
Weight (g)	121

SEMI-INTEGRATED TAPERED | BHP-55

Semi-integrated tapered headset

- » Bearing diameter: 1.1/8-1.5" - 41.0-51.8 mm.
- » Open crown for easy installation

36° x 45°

Headset type	Zero Stack (ZS) / Semi-Integrated
Fork size (inch)	1.1/8 - 1.1/2
Headtube upper/inner diameter (mm)	44
Headtube lower/inner diameter (mm)	55
Bearings included	BHP-182, BHP-185
Bearings material	CrMo
Cone spacer diameter (mm)	50
Cone spacer height (mm)	15
Crown race included	Yes
Weight (g)	111

ROUNDHEAD | BAP-02

Headset cap to upgrade your bike

- » 6061 T6 aluminium
- » Steel bolt with anti-rust coating
- » 1.1/8" cap with 1.1/8" star nut

1.1/8"

Fork size (inch)	1.1/8
Weight (g)	35

POWERHEAD | BAP-03 | vanaf

Expander clamping mechanism equally divides the forces

- » Expander type for safe and easy assembly
- » 40 mm plug for extra grip
- » Suitable for aluminium and carbon forks

1.1/8"

Fork size (inch)	1.1/8
Weight (g)	58

ULTRASPACE | BHP-35

Ultra-lightweight UD carbon spacers

1.1/8"

- » Unique design saves up to 38% on weight compared to ordinary carbon spacers
- » Set of 4 spacers: 5, 10, 15, 20 mm

Fork size (inch)	1.1/8
Weight (g)	17

LIGHTSPACE | BHP-36

Ultra-lightweight aluminium spacers

1.1/8"

- » Unique design saves up to 38% on weight compared to ordinary aluminium spacers
- » Set of 4 spacers: 5, 10, 15, 20 mm

Fork size (inch)	1.1/8
Weight (g)	25

EXTENDER | BHP-20

Steerer tube extension for steel steerer tubes

1"

- » Threaded and threadless headset compatible
- » RoundHead (BAP-02) included
- » Size: 28.6 - 25.4 mm

Fork size (inch)	1
Weight (g)	220

EXTENDER | BHP-21

Steerer tube extension for steel steerer tubes

- » Threaded and threadless headset compatible
- » RoundHead (BAP-02) included
- » Size: 28.6 - 25.4 mm

Fork size (inch)	1.1/8
Weight (g)	254

TUBEEXTEND | BHP-22

Aluminium steerer tube extension

- » Total extension of 67 mm
- » RoundHead (BAP-02) included

Fork size (inch)	1.1/8
Weight (g)	183

OEM ALUSPACE | BHP-33OEM

50 pack

- » Diameter: 1.1/8"

Fork size (inch)	1.1/8
Weight (g)	5, 10, 15, 19

HEADSET REPLACEMENT BEARINGS | BHP-180

20 pcs. headset replacement bearings.

- » Bearing diameter: 1.1/8" - 41.5 x 6.5 mm.
- » 36°x36° sealed bearings.
- » MR043

Weight (g) _____ 20 _____

HEADSET REPLACEMENT BEARINGS | BHP-181

20 pcs. headset replacement bearings.

- » Bearing diameter: 1.1/8" - 41.8 x 8 mm.
- » 45°x45° sealed bearings.
- » MR121

FEATURES HEADSETS

CrMo

Sealed CrMo bearings.

1"

Steerer diameter

45° x 36°

Bearing angles

BOTTOMFIT PF30 | BBO-09

High-end PF30 bottom bracket

- » 3-piece threaded design
- » Self-aligning bearings increases durability
- » Chrome steel BB30 6806RS bearings
- » Fully CNC machined

Part materials	6061 T6 Aluminium, 7075 T6 Aluminium
Bearings material	CrMo
Bracket Shell type	PF30 - Press fit 30
Bracket Shell Diameter (mm)	46
Bracket Shell width (mm)	68, 73mm
Bracket spindle diameter (mm)	30
Weight (g)	133

BOTTOMPRESS PF30 MTB | BBO-05

Press Fit bottom bracket PF30 standard for MTB

- » Chrome steel BB30 bearings
- » Cup diameter of 46 mm

Part materials	Glassfiber reinforced Nylon
Bearings material	CrMo
Bracket Shell type	PF30 - Press fit 30
Bracket Shell Diameter (mm)	46
Bracket Shell width (mm)	68, 73mm
Bracket spindle diameter (mm)	30
Weight (g)	88

BOTTOMPRESS PF30 ROAD | BBO-01

Press Fit bottom bracket PF30 standard for road bikes

- » Chrome steel BB30 bearings
- » Cup diameter of 46 mm

Part materials	Glassfiber reinforced Nylon
Bearings material	CrMo
Bracket Shell type	PF30 - Press fit 30
Bracket Shell Diameter (mm)	46
Bracket Shell width (mm)	68
Bracket spindle diameter (mm)	30
Weight (g)	84

BOTTOMBEAR BB30 | BBO-19

Universal BB30 Bottom bracket set for 30mm spindles

- » Chrome steel BB30 bearings
- » Inner diameter of 30 mm and outer diameter of 41,96 mm
- » Co-molded bearing shields
- » Wave washer included

Amount (pieces)	2
Bearings material	CrMo
Bracket Shell type	BB30 - Direct fit 30
Bracket Shell width (mm)	68, 73mm
Bracket spindle diameter (mm)	30
Weight (g)	63

BOTTOMFIT BB86/92 | BBO-29

High-end BB86/92 bottom bracket

- » 3-piece threaded design
- » Self-aligning bearings increases durability
- » Chrome steel 24377RS bearings

Part materials	6061 T6 Aluminum, 7075 T6 Aluminium
Bearings material	CrMo
Bracket Shell type	BB86 - Shimano press fit Road, BB92 - Shimano press fit Road
Bracket Shell Diameter (mm)	41
Bracket Shell width (mm)	86, 5mm, 89, 5mm, 92mm
Bracket spindle diameter (mm)	24
Weight (g)	126

BOTTOMFIT BB86/92 GXP | BBO-29SR

Universal BSA bottom bracket for 24/22mm (GXP) spindles

- » 3-piece threaded design
- » Self-aligning bearings increases durability
- » Chrome steel 24377RS & 22378RSL/115 bearings

Part materials	6061 T6 Aluminum, 7075 T6 Aluminium
Bearings material	CrMo
Bracket Shell type	BB86 - Shimano press fit Road, BB92 - Shimano press fit Road
Bracket Shell Diameter (mm)	41
Bracket Shell width (mm)	86, 5mm, 89, 5mm, 92mm
Bracket spindle diameter (mm)	24-22
Weight (g)	133

BOTTOMPRESS BB92 | BBO-25

Press Fit bottom bracket for BB92 standard for MTB

- » Chrome steel bearings
- » Cup diameter of 41 mm

Bearings material	CrMo
Bracket Shell type	BB92 - Shimano press fit Road
Bracket Shell Diameter (mm)	41
Bracket Shell width (mm)	89, 5mm, 92mm
Bracket spindle diameter (mm)	24
Weight (g)	89

BOTTOMPRESS BB86 | BBO-21

Press Fit bottom bracket for BB86 standard for road bikes

- » Chrome steel bearings
- » Cup diameter of 41 mm

Bearings material	CrMo
Bracket Shell type	BB86 - Shimano press fit Road
Bracket Shell Diameter (mm)	41
Bracket Shell width (mm)	86, 5mm
Bracket spindle diameter (mm)	24
Weight (g)	86

BOTTOMBEAR BB90-95 | BBO-26

Press fit BB90-95 cartridge bearings

- » Inner diameter of 24 mm and outer diameter of 37 mm
- » Spacers for adapting to BB95 included

Bearings material	CrMo
Bracket Shell type	BB90 - Trek Direct fit Road, BB95 - Trek Direct fit MTB
Bracket Shell Diameter (mm)	37
Bracket Shell width (mm)	90mm, 95mm
Bracket spindle diameter (mm)	24
Weight (g)	29

BOTTOMTHREAD BSA | BBO-39

Universal BSA bottom bracket for 24mm spindles

- » Co-molded bearing shields
- » Chrome steel 24377RS bearings
- » Wave washers included
- » Fully CNC machined external cups

Part materials	7075 T6 Aluminium, Glassfiber reinforced Nylon
Bearings material	CrMo
Bracket Shell type	BSA - English Threaded
Bracket Shell width (mm)	68, 73mm
Bracket spindle diameter (mm)	24
Weight (g)	99

BOTTOMTHREAD BSA DUB | BBO-38

Universal BSA DUB bottom bracket

- » Co-molded bearing shields
- » Chrome steel 2940RV bearings
- » Wave washers included
- » Fully CNC machined external cups

Part materials	6061 T6 Aluminum, 7075 T6 Aluminium
Bearings material	CrMo
Bracket Shell type	BSA - English Threaded
Bracket Shell width (mm)	68, 73mm
Bracket spindle diameter (mm)	29
Weight (g)	98

BOTTOMTHREAD BSA GXP | BBO-39SR

BSA bottom bracket, GXP compatible

- » Co-molded bearing shields
- » Chrome steel 24377RS & 22378RSL/115 bearings
- » Wave washers included
- » Fully CNC machined external cups

Part materials	7075 T6 Aluminium, Glassfiber reinforced Nylon
Bearings material	CrMo
Bracket Shell type	BSA - English Threaded
Bracket Shell width (mm)	68, 73mm
Bracket spindle diameter (mm)	24-22
Weight (g)	113

BOTTOMFIT PF30-29 DUB | BBO-78

High-end PF30 bottom bracket for DUB crankstel

- » Allows the installation of DUB cranksets into PF30 shells without adapters
- » 3-piece threaded design and self-aligning bearings increase durability
- » Fully CNC machined
- » Chrome steel 2940RV bearings
- » Wave washers included

Part materials	6061 T6 Aluminum, 7075 T6 Aluminium
Bearings material	CrMo
Bracket Shell type	PF30 - Press fit 30
Bracket Shell Diameter (mm)	46
Bracket Shell width (mm)	68, 73mm
Bracket spindle diameter (mm)	29
Weight (g)	164

BOTTOMFIT PF30-24 | BBO-79

PF30 threaded bottom bracket to fit 24mm spindle cranksets

- » Allows the installation of 24 mm spindle cranksets into PF30 shells without adapters
- » Self-aligning bearings increases durability
- » Fully CNC machined 3-piece threaded design
- » Chrome steel 24377RS bearings
- » Wave washers included

Part materials	6061 T6 Aluminum, 7075 T6 Aluminium
Bearings material	CrMo
Bracket Shell type	PF30 - Press fit 30
Bracket Shell Diameter (mm)	46
Bracket Shell width (mm)	68, 73mm
Bracket spindle diameter (mm)	24
Weight (g)	167

BOTTOMFIT BB30-29 DUB | BBO-88

High-end BB30 bottom bracket for DUB crankstel

- » Allows the installation of DUB cranksets into BB30 shells without adapters
- » Easy-to-install threaded design and self-aligning bearings increase durability
- » Fully CNC machined
- » Chrome steel 2940RV bearings
- » Wave washers included

Part materials	6061 T6 Aluminum
Bearings material	CrMo
Bracket Shell type	BB30 - Direct fit 30
Bracket Shell Diameter (mm)	42
Bracket Shell width (mm)	68, 73mm
Bracket spindle diameter (mm)	29
Weight (g)	136

BOTTOMFIT BB30-24 | BBO-89

BB30 threaded bottom bracket to fit 24mm spindle cranksets

- » Allows the installation of 24 mm spindle cranksets into BB30 shells without adapters
- » Easy-to-install threaded design and self-aligning bearings increase durability
- » Fully CNC machined
- » Chrome steel 24377RS bearings
- » Wave washers included

Part materials	6061 T6 Aluminum, 7075 T6 Aluminium
Bearings material	CrMo
Bracket Shell type	BB30 - Direct fit 30
Bracket Shell Diameter (mm)	42
Bracket Shell width (mm)	68, 73mm
Bracket spindle diameter (mm)	24
Weight (g)	157

BOTTOMADAPT BB30/PF30 | BBO-16

30 mm to 24 mm reducer

- » Allows the installation of 24 mm spindle crank sets into BB30 and PF30 shells (BB30 or PF30 BB required, not included)
- » Alloy spacer with plastic cover

Bracket Shell type	BB30 - Direct fit 30, PF30 - Press fit 30
Bracket spindle diameter (mm)	24
Weight (g)	87

BOTTOMADAPT BB386/392 EVO | BBO-17

30 mm to 24 mm reducer, for BB386/392 EVO

- » Allows the installation of 24 mm spindle crank sets into a BB386 EVO shell (PF30/BB386 EVO BB required, not included)
- » Alloy spacer with plastic cover

Bracket Shell type	BB386, BB392
Bracket Shell width (mm)	86, 5mm, 89, 5mm, 92mm
Bracket spindle diameter (mm)	24
Weight (g)	13

OEM BOTTOM BRACKET SHIM 0.5 - 30 | BBO-111

20 pcs. Bottom bracket spacers.

- » Use to adjust chainline or remove sideplay
- » Outer diameter (mm): 37
- » Inner diameter (mm): 30
- » Thickness (mm): 0.5

Weight (g)	1
-------------------	---

OEM BOTTOM BRACKET SHIM 1 - 30 | BBO-112

20 pcs. Bottom bracket spacers.

- » Use to adjust chainline or remove sideplay
- » Outer diameter (mm): 37
- » Inner diameter (mm): 30
- » Thickness (mm): 1

Weight (g)	3
-------------------	---

OEM BOTTOM BRACKET SHIM 2.5 - 30 | BBO-113

20 pcs. Bottom bracket spacers.

- » Use to adjust chainline or remove sideplay
- » Outer diameter (mm): 37
- » Inner diameter (mm): 24
- » Thickness (mm): 2.5

Weight (g)	3
-------------------	---

SHIMSET | BBO-91

Bottom bracket spacer set to make every bottom bracket fit

- » Bottom bracket spacer set
- » Use to adjust chainline or remove sideplay
- » Innerdiameter (mm): 24
- » Included: 2 x 2,5 mm, 4 x 1 mm en 4 x 0,5 mm

Bracket spindle diameter (mm)	24
Weight (g)	2

OEM BOTTOM BRACKET SHIM 0.5 - 24 | BBO-121

20 pcs. Bottom bracket spacers.

- » Use to adjust chainline or remove sideplay
- » Outer diameter (mm): 30.
- » Inner diameter (mm): 24
- » Thickness (mm): 0,5

Weight (g)	1
-------------------	---

OEM BOTTOM BRACKET SHIM 1 - 24 | BBO-122

20 pcs. Bottom bracket spacers.

- » Use to adjust chainline or remove sideplay
- » Outer diameter (mm): 30.
- » Inner diameter (mm): 24
- » Thickness (mm): 1

Weight (g)	2
-------------------	---

OEM BOTTOM BRACKET SHIM 2.5 - 24 | BBO-123

20 pcs. Bottom bracket spacers.

- » Use to adjust chainline or remove sideplay
- » Outer diameter (mm): 30
- » Inner diameter (mm): 24
- » Thickness (mm): 2,5

Weight (g) _____ 2 _____

OEM WAVE WASHER 24 | BBO-125

20 pcs. Bottom bracket spacers.

- » Use to adjust chainline or remove sideplay
- » Recommended for cranksets without a pinch-bolt design.
- » Inner diameter (mm): 24
- » Thickness (mm): 1-2,5

Weight (g) _____ 1 _____

OEM WAVE WASHER 30 | BBO-126

20 pcs. Bottom bracket spacers.

- » Use to adjust chainline or remove sideplay
- » Recommended for cranksets without a pinch-bolt design.
- » Inner diameter (mm): 30
- » Thickness (mm): 1-2,5

Weight (g) _____ 1 _____

OEM BOTTOM BRACKET BEARING BB30 | BBO-102

20 pcs. Bottom bracket bearings.

- » Chrome steel BB30 6806R bearings.
- » Bearing diameter (mm): 42 x 7.
- » Inner diameter (mm): 30

Weight (g) _____ 23 _____

OEM BOTTOM BRACKET BEARING | BBO-105

20 pcs. Bottom bracket bearings.

- » Chrome steel 24377RS bearings.
- » Bearing dimensions (mm): 37 x 7.
- » Inner diameter (mm): 24

Weight (g)	23
-------------------	----

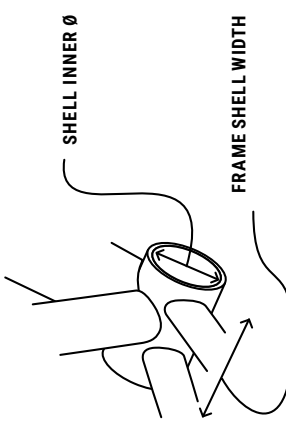

OEM BOTTOM BRACKET BEARING DUB | BBO-103

20 pcs. Bottom bracket bearings

- » Chrome steel DUB 2940RV bearings
- » Bearing diameter (mm): 40 x 6.8
- » Inner diameter (mm): 29

Bearings material	CrMo
Weight (g)	21

RIMTAPE | BTI-91

High-pressure rim tapes made of strong nylon material

- » For road bikes
- » Elastic characteristics for a tight secure fit around your rims
- » With valve hole
- » 2 pieces per set

Tube type	Road
Wheel size (inch)	28
Rimtape type	Elastic Nylon
Tape Width (mm)	16
Weight (g)	32
Color name	black

RIMTAPE | BTI-92

High-pressure rim tapes made of strong nylon material

- » For 29" mountain bikes and 28" trekking bikes
- » Elastic characteristics for a tight secure fit around your rims
- » With valve hole
- » 2 pieces per set

Tube type	MTB, Road
Wheel size (inch)	28, 29
Rimtape type	Elastic Nylon
Tape Width (mm)	18, 22, 25
Weight (g)	35, 43, 48
Color name	black

RIMTAPE | BTI-93

High-pressure rim tapes made of strong nylon material

- » For 26" mountain bikes
- » Elastic characteristics for a tight secure fit around your rims
- » With valve hole
- » 2 pieces per set

Tube type	MTB
Wheel size (inch)	26
Rimtape type	Elastic Nylon
Tape Width (mm)	18
Weight (g)	31
Color name	black

RIMTAPE | BTI-94

High-pressure rim tapes made of strong nylon material

- » For 27,5" mountain bikes
- » Elastic characteristics for a tight secure fit around your rims
- » With valve hole
- » 2 pieces per set

Tube type	MTB
Wheel size (inch)	27,5
Rimtape type	Elastic Nylon
Tape Width (mm)	22, 25
Weight (g)	40, 45
Color name	red

RIMTAPE | BTI-95

High-pressure adhesive rim tape

» 10 meter roll

Tube type	Kids/Others, MTB, Road, Urban
Wheel size (inch)	12.5, 16, 18, 20, 22, 24, 26, 27.5, 28, 29
Rimtape type	Adhesive tape
Tape Width (mm)	16, 18, 22, 25
Weight (g)	120, 127, 134, 149
Color name	red

RIMTAPE | BTI-96

High-pressure adhesive rim tape

» 45 meter roll

Tube type	Kids/Others, MTB, Road, Urban
Wheel size (inch)	12.5, 16, 18, 20, 22, 24, 26, 27.5, 28, 29
Rimtape type	Adhesive tape
Tape Width (mm)	16, 18, 22, 25
Weight (g)	419, 425, 432, 441
Color name	red

RIMTAPE | BTI-98

High-pressure adhesive rim tape

» 2 meter roll
» 2 rolls per set

Tube type	Kids/Others, MTB, Road, Urban
Wheel size (inch)	12.5, 16, 18, 20, 22, 24, 26, 27.5, 28, 29
Rimtape type	Adhesive tape
Tape Width (mm)	16, 18, 22, 25
Weight (g)	27, 32, 43, 49
Color name	white

TUBELESS RIMTAPE | BTI-150

Adhesive rim tape for tubeless conversion

» 4.5 meter roll
» Available in 18, 22, 25, 28, 31 and 34mm width

Tube type	MTB, Road
Wheel size (inch)	12.5, 16, 18, 20, 22, 24, 26, 27.5, 28, 29
Rimtape type	Adhesive tape
Tape Width (mm)	18, 22, 25, 28, 31, 34
Weight (g)	129, 81, 171, 172, 170, 105
Color name	yellow

TUBELESS RIMTAPE | BTI-151

Adhesive rim tape for tubeless conversion

- » 10 meter roll
- » Available in 18, 22, 25, 28, 31 and 34mm width

Tube type	MTB, Road
Wheel size (inch)	12.5, 16, 18, 20, 22, 24, 26, 27.5, 28, 29
Rimtape type	Adhesive tape
Tape Width (mm)	18, 22, 25, 28, 31, 34
Weight (g)	109, 211, 208, 140, 180, 101
Color name	yellow

TUBELESS RIMTAPE | BTI-152

Get your rim, tape it in!

- » Adhesive tape for tubeless conversion
- » 50 meter roll of rimitape
- » Available in 18, 22, 25, 28, 31 and 24mm width

Rimtape type	Adhesive tape
Tape Width (mm)	18, 22, 25, 28, 31, 34
Color name	yellow

TUBELESS VALVES | BTI-159

Valves with removable core

- » Brass valve shaft
- » Rubber squared base for a better seal

Tube type	MTB, Road
Removable valve	Yes
Weight (g)	16, 28
Color name	black

AL VALVE | BTI-160

Full aluminum tubeless valve set

- » Universal fit through the round shaped rubber that will seal-off every tubeless rim
- » With integrated tool to take out the valve core
- » Tire insert compatible due to its triple airway passage
- » Hex key fixation for easy (dis)assembly

Removable valve	Yes
Weight (g)	9, 11
Color name	black

VALVEEXTENDER | BTI-97

Aluminium valve extender

» Ideal for high profile carbon rims

Tube type	MTB, Road
Weight (g)	13
Color name	black

VALVEEXTEND | BTI-99

Aluminium valve extender

» For inner tubes with removable valve core
 » Ideal for deep section carbon wheels
 » Tool included

Tube type	MTB, Road
Weight (g)	10, 14
Color name	black

VALVECORE SET 4PCS | BTI-161

Set with four Presta valve cores

» Comes with multifunctional valve core tool

Removable valve	Yes
Weight (g)	7
Color name	silver

VALVECORE SET 50PCS | BTI-162

Workshop bottle with 50 pieces Presta valve cores

Removable valve	Yes
Weight (g)	127
Color name	silver

BIOSEAL 80ML | BTI-180

Anti-puncture sealant for tubeless and innertube systems, seals up holes to 6 mm

- » Contains natural latex and cellulose fibers from sugar beet
- » Last 2-7 months
- » 100% biodegradable within 28 days

Color name white

BIOSEAL 500ML | BTI-181

Anti-puncture sealant for tubeless and innertube systems, seals up holes to 6 mm

- » Contains natural latex and cellulose fibers from sugar beet
- » Last 2-7 months
- » 100% biodegradable within 28 days

Color name white

BIOSEAL 5L | BTI-181W

Anti-puncture sealant for tubeless and inner tube systems

- » Contains natural latex and cellulose fibers from sugar beet
- » Long-lasting formula keeps you sealed for 2-7 months
- » 100% biodegradable within 28 days

Color name white

SEALANT INJECTOR | BTI-190

Complete tubeless sealant injector set

- » Easy and clean way to inject sealant into your wheel set-up
- » Plastic needle is ideal to remove old (still liquid) sealant without removing the tire
- » Kit includes: 60ml syringe, two hoses, valve core removal tool, hose-stoppers, plastic needle

Color name transparent

PRESTA

Available in: 33 mm, 48 mm, 60 mm and 80mm lengths. R - Removable valve for use with extenders.

SCHRADER

Available in: 33 mm, 48 mm, 60 mm and 80 mm lengths.

DUNLOP

Available in: 31 mm and 40 mm lengths. BV - Bent Valve.

SuperLite innertubes with lightweight molded butyl rubber compound (BTI-72, BTI-73 and BTI-89S). Also available: with removable valve for valve extenders (FV 33R and FV 48R).

BIODRIVETRAIN CLEANER 500ML | BTL-250S

NEW

Bio Drivetrain Cleaner is a plant-based degreaser.

- » Can be used undiluted without any problems
- » 100% plant-based
- » 100% recycled PET packaging
- » 100% free from microplastics

Bottle volume	500 ml / 18 oz
Suitable for weather	All weather
How to use?	Ready to use

BIODRIVETRAIN CLEANER 1L | BTL-250

UP DATE

Bio Drivetrain Cleaner is a plant-based degreaser.

- » Can be used undiluted without any problems
- » 100% plant-based
- » 100% recycled PET packaging
- » 100% free from microplastics

Bottle volume	1 L / 33.8 oz
How to use?	Ready to use

BIODRIVETRAIN CLEANER 5L | BTL-250W

Sustainable plant-based degreaser

- » Can be used undiluted without any problems
- » Made with 100% plant-based ingredients
- » Packaging made from 100% recycled PET material
- » 100% free from microplastics

Bottle volume	5 L / 169 oz
How to use?	Ready to use

BIOSUPERWASH 1L | BTL-251

Bio Superwash effortlessly cleans grease and dirt from your bike without the use of any chemicals.

- » Contains natural wax to protects the paint
- » Highly concentrated for smaller packaging
- » PH-neutral
- » 100% biodegradable within 28 days
- » 100% free from microplastics

Bottle volume	1 L / 33.8 oz
How to use?	Mix with water

BIOSUPERWASH 5L | BTL-251W

Sustainable wash for bicycle cleaning

- » Contains natural wax to protect the paint
- » Highly concentrated for smaller packaging solutions
- » PH-neutral
- » 100% biodegradable within 28 days
- » 100% free from microplastics

Bottle volume	5 L / 169 oz
How to use?	Mix with water

BIOREADYWASH TRIGGER 500ML | BTL-253

Bio-based ready to use bike wash

NEW

- » Ready to use bike wash mixture
- » Easy to use spray nozzle
- » Effective against dust and dirt
- » 100% biodegradable within 28 days
- » Made with 100% plant-based material

Bottle volume	500 ml / 18 oz
Suitable for weather	All weather
How to use?	Ready to use

BIOWAX 100ML | BCH-201

100% plant based chain lube wax

- » Bike chain lubricant for all weather types that performs exceptionally well in cold and wet conditions
- » Reduces friction and offers long lasting protection against corrosion
- » Easy to use liquid wax that penetrates deeply between the links and provides a water and dirt-repellent protective layer
- » Made with 100% plant-based ingredients

Bottle volume	100 ml / 3.4 oz
Type of lubricant	Wax
Suitable for weather	All weather
How to use?	Ready to use

BIOEBIKELUBE 100ML | BCH-202

E-bike specific bio chain lube optimized to deliver long-term performance

- » Reduces friction and offers long lasting protection against corrosion
- » Thick lube offers better pressure resistance for high torque E-bike chains
- » All weather performance for year round use
- » Made with 100% plant-based ingredients
- » 100% biodegradable

Bottle volume	100 ml / 3.4 oz
Type of lubricant	Oil
Suitable for weather	All weather
How to use?	Ready to use

BIOBIKELUBE 500ML | BCH-202W

E-bike specific bio chain lube optimized to deliver long-term performance

- » Reduces friction and offers long lasting protection against corrosion
- » Thick lube offers better pressure resistance for high torque E-bike chains
- » All weather performance for year round use
- » Made with 100% plant-based ingredients
- » 100% biodegradable

Bottle volume	500 ml / 18 oz
Type of lubricant	Oil
Suitable for weather	All weather
How to use?	Ready to use

BIOLUBE 100ML | BCH-203

Bio-based bike chain lubricant that offers performance in all weather conditions

- » Reduces friction and protects against corrosion in all temperatures (-15 °C / 50 °C)
- » Natural oils provide smoother shifting and reduce drag
- » Penetrates deep in the chain links and makes your chain more quiet
- » Made with 100% plant-based ingredients
- » 100% biodegradable within 28 days

Bottle volume	100 ml / 3.4 oz
Type of lubricant	Oil
Suitable for weather	All weather
How to use?	Ready to use

BIOWAX PRO 100ML | BCH-204

High-performance bike chain lubricant made from plant-based materials

- » The higher adhesive strength reduces friction even under high watt performances
- » Mixture of natural oils and wax for long lasting all weather performance
- » Performance boost with friction-reducing additives
- » Penetrates deep in the chain links and makes your chain more quiet
- » Made with over 80% plant-based materials

Bottle volume	100 ml / 3.4 oz
Type of lubricant	Oil
Suitable for weather	All weather
How to use?	Ready to use

BIOBEARINGGREASE 50ML | BTL-261

Bio-based bearing grease for a smooth and protected bike

- » Low friction grease keeps high loaded bearings and axles run smooth
- » Resin free mix that easily attaches
- » Effective against water and dirt, providing high corrosion protection
- » All-weather performance from -20°C to 70°C for reliable use
- » Made with 100% plant-based ingredients

Bottle volume	50 ml / 1.7 oz
Type of lubricant	Paste
Suitable for weather	All weather
How to use?	Ready to use

BIOBEARINGGREASE 500ML | BTL-261W

NEW

Bio-based bearing grease for a smooth and protected bike. Including workshop brush.

- » Low friction grease keeps high loaded bearings and axles run smooth
- » Resin free mix that easily attaches
- » Effective against water and dirt, providing high corrosion protection
- » All-weather performance from -20°C to 70°C for reliable use
- » Made with 100% plant-based ingredients

Bottle volume	500 ml / 18 oz
Type of lubricant	Paste
Suitable for weather	All weather
How to use?	Ready to use

BIOPASTE 50ML | BTL-262

Universal assembly paste to mount and protect bike parts

- » Prevents squeaking and protects screw connections for smooth rides
- » Protects against corrosion and moisture for long-lasting performance
- » Prevents bike parts from different metals to cold weld together
- » Made with 100% plant-based ingredients
- » 100% biodegradable within 28 days

Bottle volume	50 ml / 1.7 oz
Type of lubricant	Paste
Suitable for weather	All weather
How to use?	Ready to use

BIOPASTE 500ML | BTL-262W

NEW

Universal assembly paste to mount and protect bike parts. Including a workshop brush.

- » Prevents squeaking and protects screw connections for smooth rides
- » Protects against corrosion and moisture for long-lasting performance
- » Prevents bike parts from different metals to cold weld together
- » Made with 100% plant-based ingredients
- » 100% biodegradable within 28 days

Bottle volume	500 ml / 18 oz
Type of lubricant	Paste
Suitable for weather	All weather
How to use?	Ready to use

BIOCARBONPASTE 50ML | BTL-263

Specific assembly paste for mounting carbon bike parts

- » Fine structure paste for necessary grip on your components
- » Prevents damages and squeaking noises for smooth rides
- » Ideal for mounting carbon seatposts, stems and handlebars
- » Made with 100% plant-based ingredients
- » 100% biodegradable within 28 days

Bottle volume	50 ml / 1.7 oz
Type of lubricant	Paste
Suitable for weather	All weather
How to use?	Ready to use

BIOCARBONPASTE 500ML | BTL-263W

NEW

Specific assembly paste for mounting carbon bike parts. Including a brush.

- » Fine structure paste for necessary grip on your components
- » Prevents damages and squeaking noises for smooth rides
- » Ideal for mounting carbon seatposts, stems and handlebars
- » Made with 100% plant-based ingredients
- » 100% biodegradable within 28 days

Bottle volume	500 ml / 18 oz
Type of lubricant	Paste
Suitable for weather	All weather
How to use?	Ready to use

NOFOG 100ML | BSG-100

100% plant based lens cleaner with anti-fog properties

- » Comes as a spray can with pump
- » 100% biodegradable within 28 days
- » Produced in a 100% CO2 neutral facility
- » 100% recycled PET packaging
- » 100% free of microplastics

Bottle volume	100 ml / 3.4 oz
How to use?	Ready to use

BIOGLOSS 100ML | BTL-265

NEW

Bio-based frame wax for frame gloss and protection

- » Ready to use frame protection
- » Easy to use spray nozzle
- » Effective against dust and dirt
- » Made with 100% plant-based material
- » Do not use on matt frames

Bottle volume	100 ml / 3.4 oz
Type of lubricant	Wax
Suitable for weather	All weather
How to use?	Ready to use

BIOSEAL 80ML | BTI-180

Anti-puncture sealant for tubeless and innertube systems, seals up holes to 6 mm

- » Contains natural latex and cellulose fibers from sugar beet
- » Last 2-7 months
- » 100% biodegradable within 28 days

Bottle volume	80 ml / 2.7 oz
Type of lubricant	Wax
Suitable for weather	All weather
How to use?	Ready to use

BIOSEAL 500ML | BTI-181

Anti-puncture sealant for tubeless and innertube systems, seals up holes to 6 mm

- » Contains natural latex and cellulose fibers from sugar beet
- » Last 2-7 months
- » 100% biodegradable within 28 days

Bottle volume	500 ml / 18 oz
Type of lubricant	Wax
Suitable for weather	All weather
How to use?	Ready to use

BIOSEAL 5L | BTI-181W

Anti-puncture sealant for tubeless and inner tube systems

- » Contains natural latex and cellulose fibers from sugar beet
- » Long-lasting formula keeps you sealed for 2-7 months
- » 100% biodegradable within 28 days

Bottle volume	5 L / 169 oz
How to use?	Ready to use

MARKETING

LOGO VARIATIONS
WEBDAM
INDEX

The new BBB logo is a slashed version of 3 B's at full velocity. It's simple and clean, just as functional as the products we make. Use it in an elegant way to reflect the new direction of BBB.

BBB Cycling

BBB Cycling is there for every cyclist. We are out there on each and every ride, bringing fun to cycling, and making sure cyclists are spending more time on their bikes together with their friends. Riding your bike is something special. It makes you feel carefree and lets you enjoy the moment. It's exactly this feeling that we treasure and want to elevate with our products. Products designed in the Netherlands and that received more than 100 product and innovation awards. Items that will surprise you with their price-quality level and the always present smart adjustment. With this kind of products we are serving the needs of cycling enthusiasts from all over the world and are proud to be 'Part of your Ride'.
