reima

REIMA SPRING-SUMMER 2026 FOOTWEAR COLLECTION

HIGHLIGHT CONCEPT

Trail blazers

More tracks to ride,
more paths to run

No wind is too strong, no rain too hard, and no path too muddy for these trail-blazing pioneers.

Versatile, cross-seasonal Reima clothes and shoes are made for kids who push their boundaries and enjoy the ride as they play, adventure, and exercise.

Spring-Summer '26 highlights

HIGHLIGHT CONCEPT

Champs camp

More adventures
together

Kids are free to make the most of their summer, learning new skills while exploring nature with new friends.

Reima clothes and shoes offer full freedom of movement, safety, and maximum comfort in all activities, including summer camp and bug-ridden lakeside.

Image from SS25 collection

HIGHLIGHT CONCEPT

UV raiders

More waves to ride

Do kids love beaches, pools, and sprinklers? Yes!!

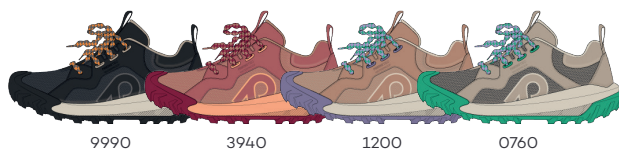

UV protective, comfortable Reima clothes and footwear safeguard kids so they can just throw themselves at the wildest - and wettest - summer fun.

MEASURING THE FOOT

Have your child stand on a paper, heel against the wall. Mark the foot length on paper and measure the distance on the end of the sheet.

FOOTWEAR

EU size	US size	UK size	CN size	JP size	Recommended foot length (mm)

KEEPING HEALTHY KIDS' FEET HEALTHY

To help a child's motor skills develop normally, it's important to choose the right size and shape of shoe. Parents must also follow the growth of the feet to make sure the shoes fit properly.

Happy Fit makes measuring easy

You can check the shoe size by taking out the insole, so that the child can stand on it. In total, the length of the foot + 1.5 cm for growth and operating reserve is necessary. Most Reima shoes have the "Happy Fit" print in the removable insoles to help you find the correct size.

Smaller allowance for barefoot shoes

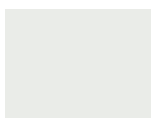

For barefoot shoes, a smaller reserve is recommended. The extra space for growth and movement in barefoot/ minimalist shoes should ideally be around 1.0 - 1.2 cm.

Go for technical socks

A 100% cotton sock will feel cold when it gets sweaty. Socks with synthetics that wick moisture away from the skin are a better choice for waterproof shoes. In cold times, socks with wool will be warm even when moist.
