Defining Professional Goalkeeping Performance

FROM HISTORIC WORLD CUP GLORY TO TODAY'S BIGGEST STAGES, REUSCH INSPIRES GOALKEEPERS WORLDWIDE TO PUSH LIMITS AND REDEFINE EXCELLENCE

For more than five decades, Reusch has shaped the highest level of goalkeeping, standing alongside the game's most successful goalkeepers on football's biggest stages.

From historic World Cup triumphs to decisive nights in Europe's elite club competitions, Reusch gloves have been part of football history. Overall, goalkeepers wearing Reusch gloves have contributed to an exceptional collection of trophies over the decades, including **6 World Championships, 7 European Championships, 6 Copa América titles and 5 UEFA Champions League victories**. Together, these milestones form a continuous success story built on trust, experience and innovation.

From the very beginning, Reusch has focused on developing high-performance goalkeeper gloves that meet the evolving demands of the modern game. While technologies, playing styles and generations have changed, Reusch has remained committed to craftsmanship, innovation and the values that have defined the brand for more than 50 years.

Today, professional and amateur goalkeepers around the world rely on Reusch gloves. This lasting confidence proves that true expertise is built through passion, perseverance and an uncompromising commitment to quality.

1 AdaptiveFlex Closure System

A patented two-layer construction consisting of a first elastic bandage around the wrist and a second layer resulting from an extension of the backhand fabric all the way to the opening. To provide flexibility, the upper layer is strategically cut on the back and the front of the wrist. This system stabilizes and supports the wrist while enhancing freedom of movement.

2 PerformSkin Fabric

This supple and flexible yet structured material offers increased breathability and volume for best wearing comfort.

3 Latex Punch Zone

Light and durable punching zone made of latex material, resulting in a very robust and at the same time highly flexible backhand.

4 Pre-Shaped Construction

The anatomical shape of the glove and the slightly spread fingers enhance the glove's wearing comfort and support a natural catching position.

5 Elastic Strap

Premium strap consisting of two pieces that are connected by an elastic textile insert. The special shape and material-mix guarantee a highly precise fastening.

6 Extended Grip Zone

The expansion of the palm latex enlarges the latex-to-ball contact zone for optimized grip.

7 Double Thumb Wrap

The palm latex wraps around the upper and lower side of the thumb to enlarge the grip area and creates an ergonomic shape.

8 3D Thumb Crotch

This rolled crotch construction between thumb and index finger avoids bothering seams and supports an ergonomic fit.

9 Side Wrap

A wrapped construction of the palm latex on the outer side of the hand provides a precise fit and a bigger catching area.

10 TractionGrid™ Palm

A three-dimensional geometric grip matrix of horizontal lines applied to Gold X latex to significantly enhance surface friction and ball control.

11 Airmesh Zones

Special mesh inserts in the flex zone and on dedicated openings on the fingers enhance flexibility and prevent sweaty hands.

The new Attrakt GK27 collection strips everything back to what truly matters: Performance. Premium latex. Technical constructions. Maximum control.

Every glove is crafted for keepers who lead from the back and decide the game.

FAST GRIP

SPEED UP THE GAME

1 AdaptiveFlex Closure System

Inspired by our patented closure system, we optimized the AdaptiveFlex for our second-skin fit construction. This two-layer system features an elastic bandage for unrestricted flexibility and an integrated strap on top wrapping around the wrist and providing reliable stability and fixation.

2 Hybrid Negative Cut

Negatively stitched glove construction with wrapped latex around the index finger and the pinkie for best ball control.

3 Second Skin Fit

Our lightweight, highly flexible, breathable and snug-fitting glove construction provides ultimate agility and thus maximum control.

4 PerformSkin Fabric

This supple and flexible yet structured material offers increased breathability and volume for best wearing comfort.

5 Double Thumb Wrap

The palm latex wraps around the upper and lower side of the thumb to enlarge the grip area and create an ergonomic shape.

6 Integrated Strap

The special construction of the glove's upper material around the wrist offers a secure fixation and boasts a clean look.

7 Extended Grip Zone

The expansion of the palm latex enlarges the latex-to-ball contact zone for optimized grip.

8 Side Wrap

A slightly wrapped construction of the palm latex on the outer side of the hand provides a snug fit and a bigger catching area.

9 Pull Loop

A slim textile loop on the inner side of the cuff ensures an easy entry into the glove.

TRACTION:GRID™

UNMATCHED BALL CONTROL

TractionGrid™ is our all-new, Reusch-exclusive palm technology featuring a geometric matrix of horizontal lines made of extra-sticky grip material, applied to Gold X latex. The raised three-dimensional structure increases surface friction for enhanced ball control and long-lasting performance.

Glove Cuts

HYBRID NEGATIVE CUT

Negatively stitched glove construction with wrapped latex around the index finger and the pinkie for best ball control.

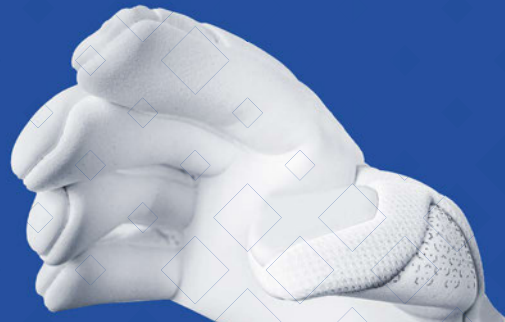

ROLL FINGER CUT

The Roll Finger cut is characterised by the palm latex being completely rolled around the inner side of the fingers. This feature provides the largest possible catching area.

EVOLUTION CUT

The latex is seamlessly rolled around the fingertips for a precise fit, best ball control and maximized latex-to-ball contact area. An outer-seam construction in the lower finger parts offers an ergonomic fit, breathability, softness and flexibility.

EVOLUTION NEGATIVE CUT

The latex is rolled around the fingertips for a tight fit, best ball control and maximized contact area. An inner-seam construction in the lower finger parts offers a tight, soft, flexible and ergonomic fit.

NEGATIVE CUT

The backhand and palm of the glove are negatively stitched with gussets and sidewalls. Besides offering a smooth look, this specific design guarantees a snug fit and enhances ball control, delivering a natural feel to the keeper's hand.

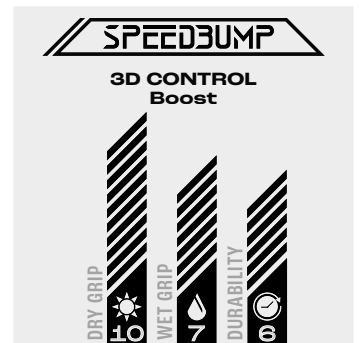

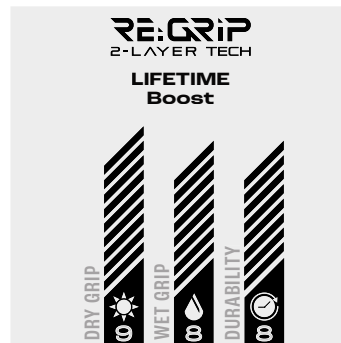

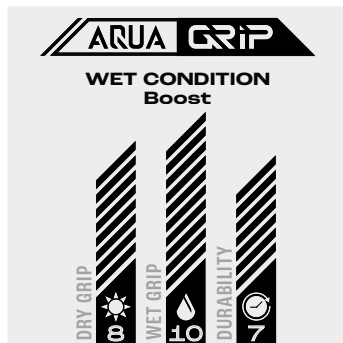

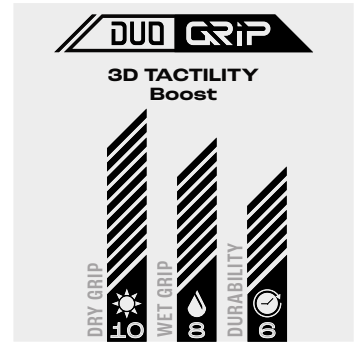

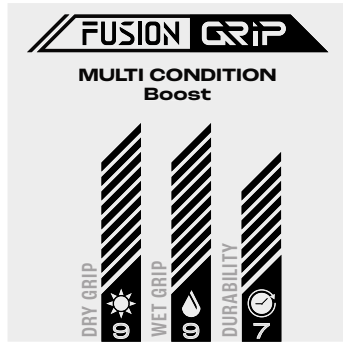

EXPANSIVE CUT

Outer seams enlarge the palm surface of this flat cut and so increase the latex-to-ball contact area.

Reusch Palms

PRO Pro palm foams refer to highly performing, Reusch exclusive foams combining our best latex in terms of grip with additional and special features to achieve exceptional performances.

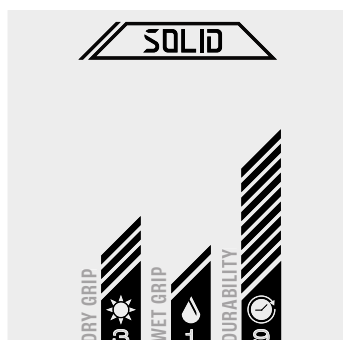

ADVANCED Advanced foams guarantee a very good grip suitable for competitive usage.

INTERMEDIATE Intermediate palm foams deliver a very reliable grip that stands up to intermediate levels.

RECREATIONAL Foams developed for recreational use that deliver very good performances in terms of durability.

A New Era of Reusch Apparel

GK27 APPAREL SETS
A NEW STANDARD
ON THE PITCH

PRO LINE

Elite goalkeeper apparel engineered with premium materials, innovative protection and maximum durability.

CORE LINE

Professional everyday essentials combining comfort, reliable protection and performance fit.

PERFORM LINE

Accessible technical gear designed for comfort, functionality and reliable performance.

The range is structured into three different categories: Pro, Core and Perform.

Pro stands for premium innovation and maximum protection, Core delivers reliable professional-level gear for daily use, and Perform offers strong technical performance at accessible price points.

Technical apparel is a goalkeeper's essential everyday tool, defining performance, comfort and protection. With GK27 Apparel, Reusch completely renewed the collection, redesigning every piece to meet the specific needs of modern keepers.

Across the collection, a clean black design with yellow details creates a performance-driven look. New compression fabrics with a softer touch and enhanced stretch improve comfort, while strategically placed padding and mesh zones ensure protection and breathability where it matters most. Updated fits and lighter, more flexible materials further enhance freedom of movement on the pitch.

GK27 Apparel represents a cohesive goalkeeper-specific system, combining innovation, durability and comfort to support confident performance in every condition.

Expect a tailored content package with marketing assets to support the new Apparel line.

Join the international campaign across your channels using the provided content!

SIZES	3x 50ml Spray Flasks

The Ultimate Guide to Glove Care: 7 Essential Steps

FOLLOWING SOME BASIC RULES WHEN PLAYING, CLEANING AND STORING THE GLOVES WILL HELP MAXIMIZING THEIR PERFORMANCE AND DURABILITY

01. Choose the right gloves for your needs

- Take the gloves that are made for the type of surface you regularly play on and the weather conditions you will face the most.
- Select the palm foam that best corresponds to your needs. Even though all Reusch palms are made of high-quality materials, they differ in terms of grip, cushioning and durability, depending on the material composition of the foam.
- Check the additional features of the glove that can help you improving your performance.
- Decide whether you want finger protection or not.
- Choose your preferred cut.
- Pick the right size.

02. Wash before first use

- Never forget about this! In order to eliminate any remaining soap necessarily used in the production process, the gloves must be cleaned with warm water before first using them.
- Only after this procedure the gloves attain their fullest grip properties.

03. Moisten before playing

- Rinse Aqua gloves with warm water (preferably between 35 – 40°C) one to two hours before using them, in order to activate the Hydrograins inside the palm foam.
- Moisten all types of goalkeeper gloves before playing.
- Keep the gloves in slightly wet condition during use.

04. Clean after playing

- Wash the gloves with warm water (around 35°C) after playing in order to eliminate dirt that decreases the grip properties of the gloves.
- Do not use aggressive solvents or harsh cleaners.
- Wash by hand and not in the washing machine.
- For a perfectly clean glove, additionally use special glove wash.

05. Dry at room temperature

- Let the gloves dry at room temperature.
- Keep away from radiators or other sources of direct heat, which would deteriorate the latex.

06. Store in appropriate location

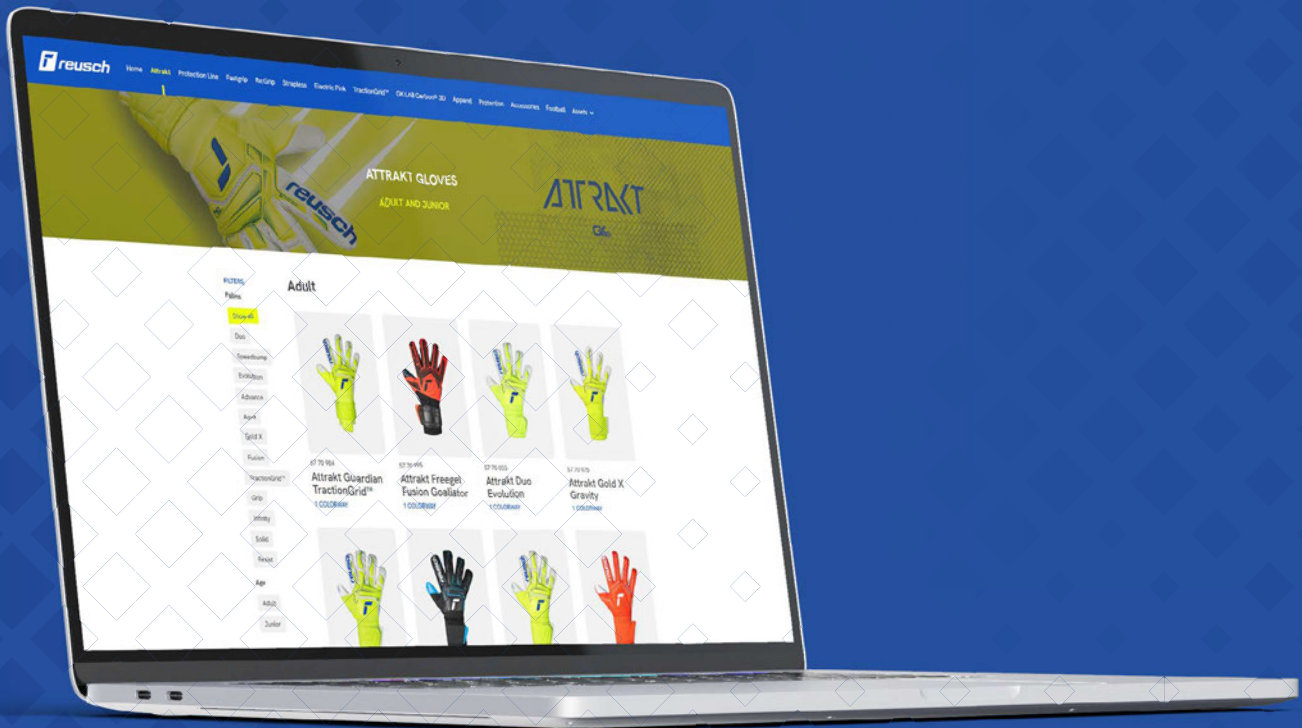

- Do not expose gloves to UV radiation like intense sunlight or light from fluorescent tubes, as this can impair the grip and durability of the latex layer.
- Store the gloves in a cool, dark and dry place.
- Goalie bags are the perfect storage items for your gloves.

07. Use until completely worn-out

- Very soft palm foams can show first signs of usage already after a small period of use.
- The performance and the grip properties of the glove remain untouched until the palm is totally worn out.

B2B Portals

VIRTUAL SHOWROOM

The Reusch Virtual Showroom gives partners full access to the entire collection in one centralized platform.

Discover detailed product information, high-quality images, product and information videos, campaign visuals, and downloadable presentations and sales materials.
