FROM HEAD TO TOE

WEAR YOUR SHADE SS27 COLLECTION

Designed for long days under open skies. The SS27 collection brings together breathable performance, versatile styles, and reliable sun protection, made to move from morning commutes to full-day adventures.

Sun protection shouldn't be a "maybe". Across selected SS27 styles, we continue to expand our UPF 50 fabrics, delivering reliable coverage built directly into the material. Our UPF 50 fabrics block 98% of UVA and UVB radiation, helping you stay comfortably covered wherever the day takes you.

79% of our headwear and neckwear collection includes fabrics rated UPF 50 according to AS/NZS 4399:2017 and conforms to Regulation (EU) 2016/425 as Category I Personal Protective Equipment against natural UV radiation. Products that are not UPF 50 certified: Merino wool families, DryFix® families, Trucker Cap, Explore Trucker Cap, Speed Visor, 5 Panel Air Cap, Rain Bucket, Rain Booney, Fastwick Headband and EcoStretch Beanie.

Protection applies to covered skin; performance may be reduced if the fabric is stretched, wet, or at seams. See the USER INFORMATION attached to the product for complete information.

BUFF® is proud to partner with The Skin Cancer Foundation, dedicated to the prevention of skin cancer through sun protection education. Products with CoolNet UV® and Original EcoStretch fabrics are certified for their effective UV protection
