SPRING/SUMMER 2027

NEXT LEVEL MERINO

INNOVATION. STABILITY. RELIABILITY.

These are not just words, they define who we are.

They are the foundation of **super.natural**.

We believe in products you can truly rely on, in partnerships built on trust and in a brand that delivers on its promises. Our design and product development team captures the latest trends and transforms them into collections that do more: thoughtful in design, functional in performance and responsible in production.

We take ownership of our entire value chain – by choice.

This allows us to ensure the highest quality, reliable delivery and consistency you can count on.

Working with us means choosing more than just a product. It means choosing a team that listens, people who are always within reach and solutions that work.

Because we don't believe in problems.

We believe in possibilities and delivering the best solutions for our partners.

FABRIC	WEIGHT	COMPOSITION	BENEFITS
 SIERRA140 SIERRA140 is the foundation brace of super.natural. The 50/50 mix combines all benefits of merino wool and polyester. This light fabric is highly established in our base layers and our versatile graphic collection.	140 gsm	50% finest merino wool 50% performance polyester	• fast drying • cooling effect • everyday versatility
 TUNDRA175 With TUNDRA175 we have created an all-year fabric from our famous 50/50 mix. Through the midweight fabric, you can wear these garments at all conditions. For our bottoms and bras we added stretchy elastane for better fit.	175 gsm	tops 50% finest merino wool 50% performance polyester bottoms & bras 48% finest merino wool 48% performance polyester 4% stretchy elastane	• temperature regulating • light warmth • flexible
 ARCTIC Our ARCTIC230 garments are perfect for every adventure in the cold. This functional fabric combines all benefits to face harsh weather conditions. Strenuous activities are no problem with this warm and quick-drying fabric.	230 gsm	tops 50% finest merino wool 50% performance polyester bottoms 47% finest merino wool 47% performance polyester 6% stretchy elastane	• strong insulation • warm • comfortable
 WOOL SUPER.BRUSH This fabric provides maximum comfort through its merino wool content, combined with the high functionality of polyester. This cozy material is perfect for an active lifestyle, but also for a relaxing evening at home.	255 gsm	30% finest merino wool, 67% performance polyester 3% elastane	• cozy • brushed inside • soft warmth
 WOOL SUPER.BRUSH DWR You would like to wear our WOOL SUPER.BRUSH fabric but it is drizzling outside? Our durable water repellent range (DWR) is the answer, still offering the very same comfort and breathability as the regular fabric.	255 gsm	30% finest merino wool 67% performance polyester 3% elastane	• cozy • durable water repellent • fluoride-free
 WOOL SUPER.STRETCH WOOL SUPER.STRETCH is a functional fabric, which combines the quick-drying properties of polyester and anti-bacterial characteristics of merino wool. Adding stretchy elastane, you receive the best fabric for your training.	220 gsm	32% finest merino wool 63% polyester 5% elastane	• shape-retaining • stretchy • body-contouring
 MERINO.LUX MERINO.LUX offers premium feel & function for high luxury sports and everyday clothing. The elasticity and rebound effect of Lycra combined with the finest 16.5 micron merino wool is truly unique in the market.	220 gsm	36% finest merino wool 46% performance polyester 18% Lycra	• super-stretchy • premium feel • luxurious comfort

FABRIC	WEIGHT	COMPOSITION	BENEFITS
	BIO SUPER.WOOL JERSEY This fabric is a blend of merino wool and PrimaLoft® Bio™ fibers, that have been developed to return to materials found in nature, to reduce the environmental impact of microfibers and garments throughout their life.	175 gsm tops 50% finest merino wool 50% biodegradable polyester bottoms & bras 47% finest merino wool 48% biodegradable polyester 5% stretchy elastane	• sustainable • functional • everyday-comfort
	BIO SUPER.WOOL Just like our BIO SUPER.WOOL JERSEY, our BIO SUPER.WOOL is a blend of merino wool and PrimaLoft® Bio™ fibers. With its heavy grammature it is especially cozy and non-sheer.	248 gsm 50% finest merino wool 50% biodegradable polyester	• sustainable • cozy • non-sheer
	FRESH WOOL.MESH Breathable and quick-drying, this light fabric is used for high-performance shirts and breathable inserts.	120 gsm 49% finest merino wool 47% performance polyester 3% nylon 1% elastane	• highly breathable • fast drying • soft wool touch
	AIR WOOL.MESH This super light and functional fabric combines premium merino wool with cooling nylon and stretchy Lycra. It is a perfect fabric for super light and breathable performance shirts, underwear and functional inserts.	100 gsm 56% finest merino wool 39% polyamide 5% Lycra	• highest breathability • ultra light • cooling nylon
	LIGHT TECHNO BI-ELASTIC This bi-elastic fabric combines nylon and elastane and is used as windbreaker insert for jackets, shorts, skirts and functional tops.	75 gsm 78% nylon 22% elastane	• wind-resistant • bi-elastic • strong and reliable
	SUPER COTTON.WOOL This midweight fabric is a blend of all natural fibers. It combines the natural benefits of merino wool with the positive properties of organic cotton. It is shape-retaining and non-sheer. A perfect companion for everyday.	165 gsm 45% finest merino wool 55% organic cotton	• soft cotton-like touch • non-sheer • shape-retaining
	PRIMALOFT® RISE™ LOOSE FILL PrimaLoft® Rise™ insulation provides a true vegan alternative to natural down, with elevated style, warmth, and comfort. It enables lightweight performance at astonishingly high levels of thickness and loft.	80 gsm 100% recycled polyester	• high loft insulation • 650 fill power equivalent • vegan alternative to down or wool

A MARVEL OF NATURE

Merino sheep are one of the oldest and most resilient breeds globally, renowned for their unique attributes. Their natural fur texture enables them to handle temperature fluctuations of up to 40 degrees – a quality beneficial to humans as well. Merino wool provides a cooling effect in warmer temperatures and warmth on colder days.

Our merino wool is 100% certified mulesing-free and sourced from our long-standing partner, Südwolle Group, one of the world's leading yarn producers, known for its highest environmental and social standards such as OEKO-TEX®.

MERINO WOOL

- soft wearing comfort
- breathable
- temperature and moisture regulating
- anti-odor
- natural UV protection
- fire resistant
- low-maintenance

OUR STEPS FORWARD

BIO SUPER.WOOL

1

BIO SUPER.WOOL combines **50% mulesing-free merino wool** with **50% PrimaLoft® BIO™**, the world's first biodegradable synthetic fiber. Designed to be 100% biodegradable, free from microplastics and with reduced CO₂ emissions, it represents a new generation of performance materials. With every collection, the share of **BIO SUPER.WOOL** continues to grow, with the goal of transitioning our entire range.

2

SUSTAINABLE MATERIALS

We focus on durable and resource-efficient materials, including **PrimaLoft® BIO™** and **recycled fillings**. By prioritizing longevity and responsible sourcing, we reduce environmental impact over the full product lifecycle.

3

PACKAGING

Since 2021, we have been using **compostable polybags** made from cornstarch, alongside **paper-based alternatives**. This helps us reduce plastic waste and move towards more responsible packaging solutions.

4

TARGETS BY 2035

We aim to **reduce our CO₂ emissions by 63%** across Scope 1 and 2. These targets are aligned with the **1.5°C climate goal** and guide our long-term sustainability strategy.

COMFY TO WEAR, EASY TO CARE.

Merino wool can absorb up to a third of its own weight in moisture, while polyester speeds up the removal of the moisture from the material. This combination offers you optimal comfort – with no trace of dampness.

The innovative combination of fibers can withstand a regular wash up to 40° C – no need for a separate wool wash. Our merino mix is incredibly easy to care for.

The stabilising effect of the synthetic fibers means you can also put **super.natural** products in the dryer.

The fiber mix combines the natural elasticity of merino wool with the durability of polyester, enabling a uniquely stable shape and impressive longevity.

The tightly-knit connection between the materials creates an extremely soft surface that doesn't itch and offers incredible natural comfort.

The antibacterial effect of the enzyme keratin, which is a natural component of merino wool, prevents unpleasant odors from developing – even after profuse sweating or wearing the product multiple times.

Merino wool regulates temperature: it cools you down in hot temperatures and during increased activity, and warms you up in cold weather or when you take a break.

Do merino mix products start to smell more quickly than 100% merino?

Merino mix products can remove existing moisture from the material more quickly than 100% merino wool. To benefit from merino wool's antibacterial effect, you only need a proportion of 30% wool. The rapid moisture transportation of our fiber mix removes bacteria from what would be a fertile breeding ground, meaning unpleasant smells develop much more slowly. You won't have to worry about odors even after sweat-inducing activities or wearing the items multiple times.

How do I look after super.natural products properly?

super.natural products can simply be put in the washing machine at 40° C, and can even be tumble dried. Unlike 100% merino wool products, they can be cared for just like your usual clothes without the risk of shrinkage or holes appearing. However, to best protect the odor-blocking enzymes in the merino fibers, it is recommended to use a wool detergent.

FREQUENTLY ASKED QUESTIONS

Why don't super.natural products itch?

The quality of wool is measured using its fiber strength. That means that the thinner the fibers, the softer it feels, and the higher the quality. **super.natural** uses merino wool with a measurement of 16,5-19,5 microns, which puts the wool in the 'fine' quality class. As a comparison, conventional sheep's wool measures at 30-50 microns.

What is mulesing? Is this procedure also a problem with super.natural products?

Mulesing, an unpleasant procedure to prevent flystrike in merino sheep, predominantly occurs in Australia. It involves the removal of strips of skin from around the hind legs and buttocks of the sheep – an incredibly painful process and a very controversial topic in sheep farming. To counteract the issue of mulesing, the wool used in **super.natural** products comes exclusively from African farms. As the flies are not present in this region, mulesing is not necessary.

AIR MESH

SIERRA 140

The Sierra Nevada, characterized by gentle warmth and scorching heat, inspires our **SIERRA 140** collection. Crafted from **140gsm lightweight fabric**, these base layers are exceptionally breathable, odor-resistant, and moisture-resistant.

AIR WOOL.MESH

Our **100gsm super light AIR WOOL.MESH** fabric combines premium merino wool with cooling nylon and stretchy Lycra. It is a perfect fabric for super light and breathable performance base layers in very warm conditions.

TUNDRA 175

Our **TUNDRA 175** collection is a versatile companion year-round. Whether you're hiking, skiing, or simply enjoying the outdoors, the **175gsm midweight fiber** ensures pleasantly light comfort in any environment.

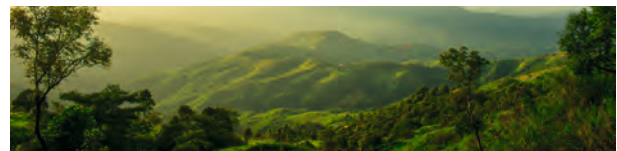

MERINO.LUX

MERINO.LUX stands for elegant comfort. Crafted from a premium **220gsm blend of finest merino wool (16.5µ)** and Lycra, it offers a flattering fit. Ideal for fitted silhouettes and elevated base-layers: soft and stretchy with a touch of elegance.

ARCTIC 230

For harsh winter conditions with icy temperatures, our **ARCTIC 230** collection offers unparalleled warmth and protection. Our **230gsm heavy-weight fiber** delivers dependable insulation even in the most extreme cold.

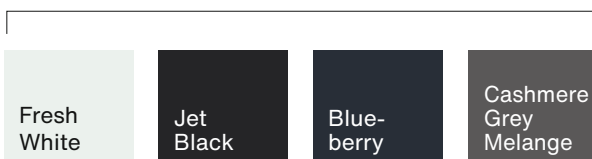

BIO BASE

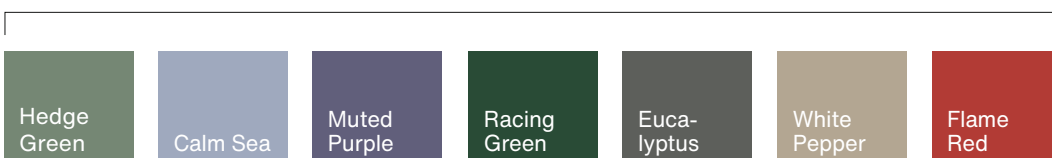

Our **175gsm BIO BASE** is our most natural take on performance wear. Made from **merino wool and PrimaLoft® Bio™ fibers**, this fabric is breathable, soft, and naturally temperature-regulating. Specifically developed to return to materials found in nature, this material is ideal for conscious layering.

INTRODUCING OUR

BIO SUPER.WOOL BASE LAYER

Sustainability starts with your first layer. Our BIO SUPER.WOOL base collection redefines functional underwear by incorporating an innovative blend of 50% mulesing-free merino wool and 50% PrimaLoft® BIO™ fibers. PrimaLoft® Bio™ fibers have been specifically developed to return to materials found in nature, in an effort to reduce the environmental impact of microfibers and garments throughout their life.

The unique combination provides cozy warmth, excellent moisture management, and outstanding comfort — ideal for any sport or outside activity. Experience sustainability right against your skin for a more responsible adventure!

INTRODUCING OUR

MERINO.LUX BASE LAYER

Discover the luxurious MERINO.LUX collection, designed for those who seek elegance without compromising on performance. This premium baselayer line is crafted from an exceptional blend of 36% mulesing-free merino wool and 18% Lycra, providing a flawless fit and a stunning sheen. Enhanced with 46% high-performance polyester from Trevira, this collection ensures unparalleled comfort and style. Ideal for fitted silhouettes, the MERINO.LUX Collection delivers the perfect fusion of luxury and functionality for every occasion.

TUNDRA 175

SIERRA 140

The Sierra Nevada, characterized by gentle warmth and scorching heat, inspires our **SIERRA 140** collection. Crafted from **140gsm lightweight fabric**, these base layers are exceptionally breathable, odor-resistant, and moisture-resistant.

AIR WOOL.MESH

Our **100gsm super light AIR WOOL.MESH** fabric combines premium merino wool with cooling nylon and stretchy Lycra. It is a perfect fabric for super light and breathable performance base layers in very warm conditions.

TUNDRA 175

Our **TUNDRA 175** collection is a versatile companion year-round. Whether you're hiking, skiing, or simply enjoying the outdoors, the **175gsm midweight fiber** ensures pleasantly light comfort in any environment.

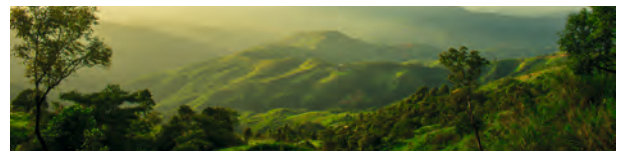

MERINO.LUX

MERINO.LUX stands for elegant comfort. Crafted from a premium **220gsm blend of finest merino wool (16.5µ)** and Lycra, it offers a flattering fit. Ideal for fitted silhouettes and elevated base-layers: soft and stretchy with a touch of elegance.

ARCTIC 230

For harsh winter conditions with icy temperatures, our **ARCTIC 230** collection offers unparalleled warmth and protection. Our **230gsm heavy-weight fiber** delivers dependable insulation even in the most extreme cold.

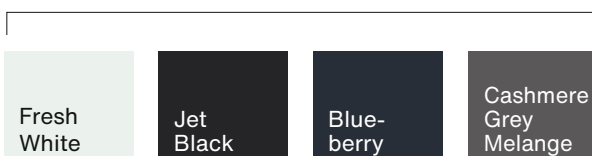

BIO BASE

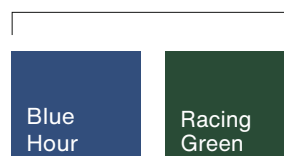

Our **175gsm BIO BASE** is our most natural take on performance wear. Made from **merino wool and PrimaLoft® Bio™ fibers**, this fabric is breathable, soft, and naturally temperature-regulating. Specifically developed to return to materials found in nature, this material is ideal for conscious layering.

INTRODUCING OUR

BIO SUPER.WOOL BASELAYER

Sustainability starts with your first layer. Our BIO SUPER.WOOL base collection redefines functional underwear by incorporating an innovative blend of 50% mulesing-free merino wool and 50% PrimaLoft® BIO™ fibers. PrimaLoft® Bio™ fibers have been specifically developed to return to materials found in nature, in an effort to reduce the environmental impact of microfibers and garments throughout their life.

The unique combination provides cozy warmth, excellent moisture management, and outstanding comfort — ideal for any sport or outside activity. Experience sustainability right against your skin for a more responsible adventure!
